

The News from Mexico. The public mind in length relieved in some degree of its anxiety, in regard to the position of Genl. Scott's command, in the aggregate. It would be difficult, however, to imagine a more painful state of suspense, than that now suffered by the friends and relatives of those, who know not the fate of the individuals in the army, around whom cluster their hopes and affections. If we believe one-half of the accounts already received, a more gallant spirit has winged its flight to an eternal world, beyond the grave, and the honor of the American arms has been sustained at a cost of human life, truly appalling. And yet we have no peace...

Mr. Allan's Letter. We give up a considerable portion of our space in to-day's paper, to the letter of the Hon. CHILTON ALLAN, of Clark county, to the Editor of the Shelby News, in reply to a letter from that Editor, enquiring his views upon the subject of Native Americanism. Mr. Allan's name having been mentioned in connection with the gubernatorial canvass.

Since the foregoing was in type, we have received by steamboat from Cincinnati, the Telegraphic despatch, announcing the retaking of Puebla by Mexican troops. We greatly fear that this news is but too true. The fact itself is of a good deal less importance, than the moral influence likely to be exerted by it, upon the inhabitants of Mexico. It is all important that the U. S. Army should lose no ground which they have once occupied,--that they should not suffer even the semblance of defeat. In the midst of a dense population, excited to the highest pitch of resentment, against them, and beyond the reach of immediate reproof, we have reason to apprehend yet further trials, to our invincible little army, in the city of Mexico, and we marvel not at the intense interest--the eager anxiety manifested by our fellow-citizens to hear from the Army. We will therefore, continue to lay before our readers, the latest news, and in common with them, shall await with painful interest a correct report of the stirring events, which have lately transpired in the progress of the War.

General Worth and Smith. The loss of Gen. Worth and Smith, (if true) is a National calamity. They were both distinguished for their military talents and had already acquired a lasting fame in the service of their country.

We still entertain a hope, however, that there is some mistake in the report which announces their untimely death. The fact of General Worth's being badly wounded in a previous battle, renders it very probable that he should have been exposed to danger, in the subsequent engagement, in which he is reported to have been killed.

Nor is the account of Gen. Smith's death more satisfactory. The simple announcement that "Gen. Smith expired on the 12th," without any intelligence of his having been sick or wounded, by previous accounts, leaves room to hope, that this is one of the numerous mistakes with which the reports by the war-path are so frequently beset.

We will at least continue to hope that they yet live, to receive the honors of their admiring countrymen, until the melancholy report of their death is fully confirmed.

Among the distinguished visitors at Louisville, this week, we see the names of Gov. Owsley, Gov. Metcalf, Benj. Hardin, Maj. Genl. Butler, Gov. Poindexter, Adm. Genl. Duiley and Col's Munius V. Thompson and John S. Williams, of the new regiments of Kentucky troops, assembled at that place.

The "Morning Courier" of yesterday, says the "city is in excitement, bustle, activity, and business at this time."

Another. The fine steambot Colander City, struck a rock under full head-way, near Shawneetown, and sank almost immediately. Her cargo was insured in Louisville, and \$10,000 on the boat. Owing to the probability of her capsizing, (being already greatly strained,) it is thought she will be a total loss.

The Louisville Morning Courier, mentions the upsetting of a stage load of volunteers, among their way to the engagement, by which, one of them named Coyle, of Capt. Keating's company, was supposed to be fatally injured.

The Hon. Judge Thos. Buchanan, of Maryland, died recently in his carriage, while returning from Hagerstown (where he had been on official business) to his residence, near that place.

Samuel Carpenter, of Bardonia, has been appointed Judge of the 15th Judicial District--vice Hon. A. P. Churchill, resigned.

And let a passer--her other girls, who will marry a better husband, than she has, as she says.

"The Man of Duty in an age of self."

This language is applied by the "Liberator World," to Gen. Taylor. It is a brief, but beautiful and true portrait of the character of Old Rough and Ready, who more than any other man, now living, has drawn around him the confidence and the affection of his fellow-citizens, without the aid of clap trap or humbuggery of any description. Indeed there is in his beautifully proportioned character, one trait which more than any other, attracts the attention of all observers, it is his modesty. The Mexican war with all its evils, has had the effect of bringing prominently into view upon the National Canvas, many a picture of true nobleness of soul, which might otherwise have remained unnoticed, and however much the smoke of others' battles, may obscure for a time the lustre of Old Zack's fame, it will loom up in peace, no less than in the ensanguined field, because nobleness like his as much becomes the citizen as the soldier.

Mr. Allan's views are entitled to respectful consideration because of his acknowledged talents as a statesman, and his former favorable connection with the public service, as a Whig member of Congress from this State.

A portion of the Indiana regiment had reached Vera Cruz from the Brazos, when the day left. The Americans had possession of the National Bridge. The Day passed in the attack on the Mexicans. Also from Vera Cruz from the Brazos. She sailed about a week before the Day, and had been detained by bad weather.

According to appointment the volunteers were mustered into service on Monday last.

New Play. Col. Bradbury's "Home in the West," a new play, some time since announced as in preparation for the stage, has been produced at St. Louis, under the auspices of Dan Marble, and we learn with anxious success.

A rumor obtained circulation, in Louisville, Frankfort and Lexington, in the early part of this week, that President Polk was dead. We notice it merely to say, that it had no foundation in truth.

McDERMOTT, who was foreman in the Glouce printing office, at New York, committed suicide by taking laudanum on Friday night, which caused his death on Saturday afternoon. No cause has been assigned for his unfortunate exit from life.

The Whig convention of Massachusetts, has nominated the Hon. George N. Briggs for Governor, and the Hon. John Revere for Lieutenant Governor.

We have seen a specimen of coal from the Kanawha region different from any other that we have examined. It is called "Cannel coal," and it is much superior to any other Cannel coal that has come under our notice. We have tried it in a stove, and consider it the best fuel for the cooking-stove that we have ever used. It is much superior to any other Cannel coal that has come under our notice.

While Raymond & Waring's caravan was being exhibited in the West, a gawky, long-legged Jonathan from the country, who had never "seen the elephant," either literally or metaphorically, was strolling along carelessly in the pavilion, alternately staring at the elephant and cramming a sheet of gingerbread into his mouth, when suddenly he came bump against Columbus.

"Thunder and spikes!" exclaimed he, staggering backward about twenty paces, while his eyes stuck out like letters on a sign--"what dars'd critter with two tails have you got here!"

Richmond, Va., Oct. 4, 8 P. M. The La Patrie writes from Mexico City, stating that parades were held in honor of General Taylor, and that he had accepted the appointment. It was rumored that Gen. Taylor with a large body of National Guards, 8000 other troops was waiting to attack Gen. Lane's train, which left Vera Cruz on the 19th ult. It was rumored that Puebla was retaken, which appears tally with the letter to the National Intelligencer.

We had the pleasure yesterday morning of an interview with Lieut. H. B. Smith, of the army, who arrived at New Orleans on the James L. Day, from Vera Cruz, and paid but little attention to the news. He had, however, read a letter written by an independent officer of the city of Mexico, and which was brought by the last courier. The letter stated that after two or three days' hard fighting, Gen. Scott entered the city of Mexico, and that the point of attack was Lane's train, which left Vera Cruz on the 19th ult. It was rumored that Puebla was retaken, which appears tally with the letter to the National Intelligencer.
