It is practically settled that First Assistant Postmaster General Hitchcock is to resign from the Postoffice Department to become the manager of the Taft presidential campaign. This change has not yet been officially announced but it is well enough understood. There is a great deal of interest in this move because not only is Mr. Hitchcock a good southern politician and one who is calculated to harmonize the warring southern delegations if anyone, can, but he is a close personal friend of the Secretary of the Treasury and his employment by the Taft interest would indicate that Mr. Cortelyou is going to eliminate himself from the nomination contest altogether. There has been a good deal of talk over the Taft-Cortelyou situation and it was represented at the time the President made his notable third term declination that Secretary Cortelyou was much upset, saying that he had not been fairly dealt with by the White House. It was said at the same time that when Assistant Postmaster General Hitchcock had made his notable campaign tour over the South he had been working up Cortelyou sentiment instead of working as he was supposed to do in the interest of Secretary Taft. All of these reports were denied by Secretary Cortelyou at the time they were circulated, but a denial seldom carries the weight of an original story. Now if Mr. Hitch is going into the field for Secretary Taft, it is proof positively that there will be nothing doing in the way of a Cortelyou candidacy for the next term. There remains the interesting question of Mr. Arthur Vories of Ohio who will look upon any one else butting into the campaign management. He has heretofore been in full charge for Secretary Taft and there is just a question whether there will be room for both him and Mr. Hitchcock in the field.

Speaking of Mr. Cortelyou, he has been undergoing some grilling at the hands of Senator Culberson of Texas. The report of the Secretary of the Treasury was recently called for, covering the issue of Panama bonds in the time of the money panic. This report finally was submitted. It had taken a long while to compile as it was a mass of figures. Like a good many official reports it contained a surplus of facts and a minimum of information. Senator Culberson seems to have dug out some of the information, but he made a long speech, two of them in fact, in which he charged that Secretary Cortelyou had violated the law in a number of instances. He declared that the bulk of the financial relief had been extended to the east, principally to New York and that the west and south had been left out almost altogether. He produced figures tending to show that while New York had less than a sixth of the deposits of the country it had received more than a

third of the relief in the shape of government funds. He said also that New York had locked up its money from the interior banks by refusing to honor checks and that the government money deposited in New York had not gone to the relief of the financial situation but had been loaned out at usurious rates of interest to stimulate speculation. Of course the Democratic clamor against Secretary Cortelyou will not have any effect any more than will the opposition to the Aldrich Currency Bill now pending. But there is a good deal of truth dealt out in most of the criticism and it is a good thing for purposes of illumination if for nothing else.

It is about settled that there will be another message from the President to Congress at an early date. It is intended to deal still further with the labor situation, supplementing the last message to some extent. The President will urge the passage of a compulsory arbitration law and suggest some other things for the aid of organized labor. The evident object of these pro-labor moves is to aid the Taft candidacy. Secretary Taft was known in his earlier days as the original injunction judge and his memory is green among labor men without being particularly fragrant. If he can be set before them in the light of a benefactor of labor, there will be more chance of his pulling the labor vote.

There is going to be a big noise there in Panama. Of course there is an immense amount of dynamite used in blasting on the line of the canal, explosives being used at the rate of 100,000 pound a month, but Col. Goethals has decided that the big Culbreth Cut can be torn out at an even more rapid rate and the engineers are going to burrow into it with explosives as has never been done before. There was a contract advertised this week for 4,720,000 pounds of dynamite. This is the biggest consignment of explosives ever shipped to the Isthmus.

The civil war claim bill was reported to the House this week. This is one of the stand-by measures and usually includes claims not only of the civil war but that date back to the Revolution and include the wars of 1812 and 1845. This year it carries \$215,545 as reported to the House and doubtless will pick up almost an equal amount in amendments when it passes through the Senate.

"Well, give a fellow a taste of it anyway."

He tasted it and then said after a moment, "You are a preacher, are you not?"

"An orthodox preacher?"

"I am so taken and accepted."

"You believe in hell fire?"

"Well, I feel it incumbent upon myself to warn the impudent of their danger."

"You believe in a literal hell-fire?"

"I so interpret the Scriptures."

"Well!" said the guest, "I have met your kind before, but I never before met a man who carried his samples with him." Ex.

The new theatre performance that has come to stay, fills the want that Olive Hill has felt for always. Heretofore after a days labor, a day of the rush of business or when the turmoil of general business was over for the day, we had no chance for recreation of body or mind at attending any place of refined amusement, such as draws, dull cares away and makes life worth living and may be purchased at a small price. The El Dorado Show Co. has established itself with us and the best for the price that many have visited. Their Illustrated songs, with music, and features of motion pictures of the better class, which they program each evening, makes it a grand and noble place of an evenings recreation and entertainment. It is a feature that makes, to a certain degree the width, breadth and thickness of a city. Its being refined, instructive and educational makes it a valuable adjunct and should be appreciated as such by the townspeople. Its patronage is good and growing, and we say, great may their success be.

## Home-made Mixture Cures Rheumatism.

There is so much Rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer.

Fluid Extract Dandelion, one-half ounce; Compound Karsan, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime; also drink plenty of good water. It is claimed that there are few victims of this dread and torturous disease who will fail to find relief in this simple home-made mixture and in most cases permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the Kidneys so that they can filter and strain from the blood, and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their Kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after a while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

## Power of Weekly Press.

The power of the weekly press is not to be underestimated. The country editor is close to the people. He knows what every man in his community is talking about and thinking about: knows where he stands. He can reach him directly and almost personally as through a personal conversation. As a molder of the opinion of the public which it reaches the weekly paper has few equals. The country editor can get his finger on the pulse of the community.

The independent editor of a weekly paper is not usually rich in money or in this world's goods. If he were he would not be a country editor. But he is rich in something else if he is untrammelled, and that something else is character.

Miss Virginia Reynolds, of Hurricane W. Va., has been visiting her cousin, Mrs. J. L. McClung of this place. She left Saturday for Jc. City to visit her sister Mrs. Shanks, of that place.

# Doings In The Hall of Our Legislature.

By a special service we will give under this heading, each week, summary of the past week's work of the Legislature now in session at the State Capitol. This will probably be the most interesting session of the Legislature ever convened, and will deal with some very important subjects as now confronts the state. A 3 month subscription to the OLIVE HILL TIMES will bring you the work of the whole Session. Begin today and don't miss a single week. See what the man you elected is doing.

Frankfort, Ky., Feb. 11.—To an unbiased spectator it looks very much like the senatorial race and the county unit local option bill have come together in a struggle to the death. In other words, if the bill passes the legislature, the chances are that the senatorial deadlock will not be broken if the bill is defeated, it may mean that someone will be elected senator.

WILLIAM O. BRADLEY.

Everything is now being made subservient to the local option measure. It is the sun around which all the smaller planets are revolving. Without discussing the political features of the situation, there is no harm in telling the plain facts as to how the matter stands. The test votes taken in the house show that a large majority of the Democrats are for the bill and a large majority of the Republicans are against it. It is freely admitted that Governor Beckham's friends are working hard to have the bill passed and that Governor Bradley's friends are working just as hard to defeat it. It is practically conceded that a United States senator will not be elected until the county unit bill is disposed of one way or the other, for the reason that the few legislators that are willing to sacrifice everything to help the whisky interests will not change their votes in the senatorial race until the fate of the county unit measure is settled. It is believed here that if the senatorial race was out of the way this legislature would pass a most stringent temperance law and provide for a vote by the people on an amendment to the constitution so that a vote on state prohibition might be had three weeks from now. It is a pretty tight and the result is in doubt.

Senator Newman of Woodford county says that much dishonesty has grown up in the matter of giving short weights in packages or sacks of flour and meal. He introduced a bill in the senate some days ago to prevent this fraudulent practice, and the senate passed it almost unanimously. The bill provides that every package or sack of flour or meal shall have the correct weight of the package or sack printed on it in letters and figures large enough to be easily read, and a penalty is fixed for the violation of the provisions of the law. It was stated in the debate on the bill that in many instances a sack of flour or meal purporting to contain twenty-four pounds really contained but nineteen, yet the purchaser paid for twenty-four pounds. Every housewife in the state who looks after her grocery purchases will be interested in this bill and thank the senator from Woodford for protecting them in this matter.

It is the general opinion that too few legal hangings have been had in Kentucky in the past twenty years, but if a bill that is now before the legislature becomes a law there will never be another legal hanging in the state. In other words, hanging is to be abolished and all criminals condemned to death will hereafter be electrocuted, as they are in New York and other states. The bill, which was introduced by Senator McNutt of Louisville, provides that all criminals condemned to death shall be electrocuted in the penitentiary at Frankfort, and does away with public execution, only a limited number of persons being permitted to witness the electrocution. This bill has already passed the senate and will likely pass the house without much opposition.

The same old bill to prohibit the playing of baseball on Sunday has been introduced this session and seems in a fair way to pass. This same bill has been introduced at every session for many years, but has always met with defeat. The house committee having the bill in charge has agreed to the governor, with an amendment which exempts cities of the first, second, third and fourth classes from its provisions. This amendment was agreed to by the ground that cities of the class named can furnish ample police protection at all games on Sunday and prevent any disorder or disturbance.

A fight is to be made to have the express companies, telegraph and telephone companies under the control of the state railroad commission and then on the same footing as railroad companies as far as regulating rates is concerned. A bill of a similar character was introduced last session to express companies, but for some reason it was smothered, although its author, Senator George, made a desperate effort to get it voted on. There has been much complaint as to the high and arbitrary rates charged by express companies for years, and according to the general expression of opinion the rates are getting higher and the companies less considerate of the rights of the public every year.

The fight in the present legislature to secure money with which to build first-class public roads in every county is making good progress. The Besworth-Wyatt bill has already passed the senate. This bill provides for taking a vote of the people on the question of adding to the constitution so that state aid may be given to the counties for road purposes and further provide that any county may take a vote of the people as to levying a special road tax which shall not in any instance exceed 5 per cent of the taxable value of all the property in the county. The mountain counties are especially interested in this proposition, and if given the opportunity will vote almost solidly for such an amendment to the constitution. Some of the senators were afraid the counties might vote too large a debt on themselves and were to repudiate it, as has been done as to the bonded debts in several counties in recent years, but twenty-seven senators voted for the bill, while only eight voted against it. The few counties in the state that have good roads and have had them for many years do not appreciate or understand the difficulties encountered in creating over counties that have nothing but mud roads.

public sentiment is aroused on this question, and it is almost a certainty that the Besworth-Wyatt bill will pass and that the proposed amendment to the constitution will be voted by the people at the next election.

There seems to be no end to the new bills introduced, and, strange to say, the best and most important bills seem to be coming in late. During the past week the following important ones have been introduced:

An act providing for the security of depositors in banks and creating a "bank depositors' indemnity fund" and providing regulations therefor.

An act providing for a two-cent per mile fare for passengers on all railroads in this state.

An act appropriating \$100,000 for the erection of buildings on the state fair grounds.

An act to prohibit betting on horse races on any racetrack in this state, and an act to repeal the law creating the state racing commission.

An act to abolish the present board of prison commissioners and creating a new board of four members to be appointed by the governor, two members from each political party.

An act creating a state board of bank examiners to consist of four members, two from each political party, to be appointed by the governor.

An act providing that the state board of control shall consist of four members instead of three and two of them shall be selected by the governor from each political party. The bill does not propose to disturb the present members of the board, which has two Democrats and one Republican on it, but provides that one more Republican shall be appointed on it at once and the board shall hereafter consist of two Republicans and two Democrats.

An act to prohibit the operation of "bucket shops" and to prevent speculation in mercantile securities.

An act providing that where a regular circuit judge cannot sit in any case, another regularly elected circuit judge shall try the case and the judge to try it shall be selected by the court of appeals.

An act providing that insurance companies shall pay a tax to the state of \$1 on every \$100 in premiums collected in Kentucky. The state now collects \$2 on every \$100 worth of premiums.

Somebody started a story that the state had been paying out too much money for the examination of insurance companies in the past few years and the rumor went so far that the senate passed a resolution asking the new insurance commissioner to report to the senate just how much these examinations had cost the state in the past twelve years, this period including the past four years, when so many insurance company scandals in New York had to be investigated. The commissioner's report showed that for the past twelve years the amount paid to special examiners and their expenses amounted to about \$25,000, and of this amount about \$18,000 had been paid out in the last four years, but the insurance companies themselves paid all this expense and in reality it cost the state nothing. The state insurance bureau has been an adjunct of the state auditor's office since its establishment nearly forty years ago, and the auditor appoints the insurance commissioners, but a bill has been introduced in this legislature providing that it shall hereafter be a separate department and that the senate shall elect the commissioner.

### Hundreds of Readers Will Appreciate It

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bed time.

Just try this simple home made mixture at the first sign of Rheumatism, or if your back aches so you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood which the kidneys fail to filter out. Any one can easily prepare this at home and at a small cost. Druggists in this town and vicinity when shown the prescription, stated that they can either supply these ingredients or compound the mixture for them.

### Letter From a Citizen.

Mr. Editor:— I ask for space in your paper to say a few things that I would like to say to the public. I feel sure that it is known to all who have taken the pains to in even a small way inform themselves, that a bill is now pending in the Kentucky Legislature which if enacted into a law, would knock our Olive Hill courts out. The intention of the bill was not to destroy the Olive Hill Circuit Court, but was aimed at some other counties that have 2 courts as we have in Carter. When the bill was introduced we felt almost certain that our Grayson friends would take advantage of it to knock us out and move all the Court back to Grayson. This would most certainly re-establish the law breakers in this end of the county, as they would be free from the seat of justice that it would be almost impossible for them to be brought to justice. Sure enough, when the bill was placed in the hands of the proper committee of the House, our Grayson friends hid them away to Frankfort to urge the passage of the bill. To counteract this we sent Judge H. L. Woods to Frankfort also. One of the first men Judge Woods met at Frankfort was the Hon. Thos. D. Theobald. When asked what he was doing at Frankfort, like Peter, when accused of being one of the Savior's disciples, bitterly denied having anything to do with the matter, all of which would have made the original Ananias turn green with envy. Now the reader will remember that it has not been so very long since Mr. Theobald, standing in the presence of the now Governor of Kentucky, and a large audience of the citizens of Olive Hill and vicinity swore eternal good-will to Olive Hill and all her industries, and declared that if he was elected to the office to which he was then aspiring—Circuit Judge—he would not only not move the court from Olive Hill but would give us a sure enough court, one that would count for something, and if he was defeated he would still be our friend, and denounce the intimation that was abroad in this part of the county that he would, if elected, remove the court all back to Grayson, as

a wild eyed rumor, as false as a fanatical dream. With this assurance from Mr. Theobald we felt that he would be the last man to rise up against us and try to destroy the hope we have of ever bringing the law-breakers in this part of the county to justice.

The sequel will show how well he kept his promise, for a few ago he appeared boldly before the House Committee that has in charge the bill and told them the court here was a farce and ought to be removed to Grayson, that we had no court house nor jail, and that there were not over 5 men in Olive Hill who wanted the court here. Every law-abiding citizen in and around Olive Hill would be opposed to having the court taken away from here. The influence of the court held here was most wonderful. Law violators struck for tall timber, and those who were already in the clutches of the law were severely punished. Law and order reigned supreme, where lawlessness was running riot. But Mr. Theobald made another very extravagant and uncalculated statement to that Committee. He declared that there was not a man in Olive Hill who was qualified to practice law. I am not prepared to say just how well our lawyers are prepared to practice their profession but know that the records will bear me out when I state that Mr. Theobald examined under oath, as many as five of the lawyers of Olive Hill, and stated to the court, under oath, that they were well qualified to practice law. Now, Mr. Editor, we are prepared to fight the men at Grayson who have for so long a time been prodding us in the ribs. We know they are enemies, for they say so boldly and we know just where to place them, but it is hard to tell where to place a traitor. Mr. Theobald threw one arm around Olive Hill and while pouring out his earnest protestations of friendship and love, with the other hand he plunged a knife into our liver.

Yes, he betrayed Olive Hill with a Judas kiss. My good mother taught me while I was a small boy to regard Judas as an arc traitor of modern times, but that was before the days of Tom Theobald in Carter county. But you might ask are there any men

in Olive Hill who would like to see the court here abolished and see the answer yes. You know that there is an old adage that says: "No roguer ever felt the halter draw, with good opinion of the law." And that is true in Olive Hill. "We have men here who are living the lives of law violators, just as Mr. Theobald lived for so many years, and they would love to see the court moved to Canada if possible. A lot more could be said but this will do for the present.

Largest Hog Ever Butchered in Carter.

The largest hog ever butchered in Carter County was butchered by Chas Abbott for J. W. Vaughn of Olive Hill. The hog was a thorough O. I. C. and was 27 months old. Owing to con being so hard to get Mr. Vaughn had to have corn shipped from Lexington and this caused him to butcher before the hog was thoroughly fattened. As he was thoroughly fattened, Mrs. Vaughn made 255 pounds of fine lard and 29 pounds of sausage. The hog had the least amount of off-kill of any other so gross weight. Mr. Vaughn says the O. I. C. Hog is a poor man's best friend as the hog net 745 pound and made 20 pounds of lard.

A Daily Thought.

**Nervous Indigestion**

The action of digestion is controlled by nerves leading to the stomach. When they are weak, the stomach is deprived of its energy. It has no power to do its work. If you want permanent relief, you must restore this energy. Dr. Miles' Nerve restores nervous energy, and gives the organs power to perform their functions.

"For many years I was an acute sufferer from nervous indigestion, at times almost a paralytic. I tried all kinds of medicine, but no relief. I was told of Dr. Miles' Nerve and I purchased one bottle of Nervine and I began to feel better, which encouraged me so much that I continued the medicine until I had taken nearly a dozen bottles. I now feel much improved in every way in body, mind and spirit and I feel it my duty to point to the restorative medicine, and feel it my pleasure to know that several persons have been benefited through its recommendation."

A. S. MILLER, Asheville, N. C.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the restorative will benefit you, if it fails, he will refund your money.
