REQUIREMENTS FOR ADMISSION

ADMISSION TO THE FRESHMAN CLASS:

Without Examination. Graduates of high schools accredited by the State Department of Education are admitted without examination, provided they have earned credit for 15 units of high school work acceptable to Morehead. No specific courses are required for entrance, but not more than four units in one subject field will be accepted. If credit in a foreign language is offered for entrance, at least one unit in the language must have been earned.

By Examination. Students who have earned 15 units of high school credit acceptable for college entrance may enter Morehead provided they pass an entrance examination satisfactorily.

Special Note. All students desiring admission as freshmen must have their credits certified by their high school principal or superintendent. These transcripts should be mailed directly to the Registrar of this college by the person certifying them and must be on file at the time of registration.

ADMISSION TO ADVANCED STANDING:

Students entering Morehead from other colleges must present a statement of honorable dismissal from the college attended previously and must satisfy the entrance requirements here. The college does not accept transferred credit carrying a mark of "D." Official transcripts of college and high school credits should be on file in the Registrar's Office prior to the date of registration.

ADMISSION AS A SPECIAL STUDENT:

Students 21 years of age or over, who have not met the entrance requirements of the college, may be admitted as special students and are permitted to carry courses for which they are prepared. Special students are not considered as candidates for any degree or certificate until they have fulfilled college entrance requirements as well as all other requirements for a degree or a certificate.

ADMISSION AS AN AUDITOR:

By payment of the required fees, admission may be secured to a class or classes as an auditor. An individual desiring such admission must apply to the Dean of the College. No credit will be given for this work, nor will the student be permitted to take an examination for credit.

ADMISSION TO THE GRADUATE SCHOOL:

Graduates of accredited four-year colleges are admitted to graduate work on application to the Director of Graduate Instruction. This application must be accompanied by a transcript of under-graduate credits.

Graduates of non-accredited colleges must meet the conditions for graduation at Morehead State College before the application for graduate work will be approved.

If the student's undergraduate preparation is inadequate, this deficiency must be made up by taking designated courses which will not be counted as graduate credit.

The applicant for a degree must arrange a program of graduate work under the direction of his graduate committee and he is not admitted to complete graduate standing until this program has been approved by his committee.

CURRICULA

The curricular offerings at Morehead are varied. Students may pursue programs leading to the—

1. Provisional Elementary Certificate and degree.
2. Standard Elementary Certificate.
3. Provisional High School Certificate and degree.
4. Standard High School Certificate.
5. Bachelor's degree without a certificate.
6. Bachelor's degree and the certificate in Vocational Home Economics.
7. Bachelor's degree with an area in Business Administration.
8. Provisional certificates for superintendents, principals, and supervisors.
9. Standard certificates for principals and supervisors.
10. Degree of Master of Arts in Education.

DEGREES

The college awards two undergraduate degrees, the Bachelor of Arts and the Bachelor of Science. Each degree may be taken either with or without a teaching certificate.

The degree of Bachelor of Science is granted to those students who complete all of the requirements for graduation and who earn a minimum of 60 semester hours of credit in the following subjects—agriculture, biology, chemistry, commerce, geology, home economics, industrial arts, mathematics, library science, and physics. Students completing any of the other four-year curricula are granted the degree of Bachelor of Arts.

GENERAL REQUIREMENTS FOR THE BACHELOR'S DEGREE

The candidate for the degree must meet the following general requirements—

1. A minimum of 128 semester hours of credit.
2. An average standing of 1.0, or higher, on all residence work completed at this college.

3. At least three-fourths of the credit in residence at some standard college; at least one year in residence and the semester immediately preceding graduation at Morehead.
4. A minimum of 43 semester hours of work offered for the degree must be earned in courses numbered 300 or above.
5. The credits earned must include a minimum of 12 hours in natural science and 12 hours in social science. Three of the twelve hours required in social science must be earned in History 400.

MAJORS AND MINORS

Majors or minors may be selected in any of the following subject fields:

Agriculture	Health and Physical Education
Art	Home Economics
Biology	Industrial Arts
Chemistry	Mathematics
Commerce	Music
English	Physics
Geography and Geology	Political Science
History	Sociology and Economics

In addition to the subject fields listed previously, minors may be selected from—

Dramatics
Speech
Library Science

AREAS OF CONCENTRATION

To meet the needs of high school teachers who will teach entirely in a general subject area, Areas of Concentration may be selected in lieu of majors and minors. A person who concentrates in an area is not required to offer minors in any other field, but any single subject in which he has as much as 12 semester hours of credit outside his area of concentration may be added to the face of his certificate as a teaching field.

The chief advantages to be gained from following this plan are: first, the trend in secondary education is toward teaching in one department or field of work; second, greater opportunity is afforded for integrated preparation; and third, with the greater emphasis on graduate preparation for secondary teachers, extensive knowledge in some general field becomes exceedingly important as an adequate background.

Areas of Concentration may be completed in—

Art	English	Science
Commerce	Home Economics	Social Science
	Music	

REQUIREMENTS FOR THE MASTER'S DEGREE

The master's degree may be earned in either of two ways.
a. If the student elects to write a thesis, the degree may be secured by completing a minimum of 36 weeks in residence and a minimum of 24 semester hours of work in regular courses. b. If the student so desires, he may do additional course work in lieu of writing a thesis. In this event the minimum requirements for the degree are 30 semester hours of credit and 36 weeks in residence.

Students interested in graduate work should write for a copy of the **Handbook for Graduate Students**.
