Designated Tobacco Use Areas

While Morehead State University remains committed to maintaining a healthy campus environment and encouraging members of the campus community to engage in healthy behaviors, we are initiating two designated tobacco use areas for the campus. This is being done out of respect and to improve the image of Morehead State University to our neighbors, visitors and guests.

Two locations have been designated as the only areas where tobacco use will be permitted. These areas will have seating and receptacles for the proper disposal of trash and tobacco waste. The locations are:

On the east end of campus - the concreted area in the backyard of the faculty house on the corner of Second Street and Battson-Oates, across Second Street from Lappin Hall. This area is accessed from Second Street. Stairs enter the yard from the south side of the Second Street sidewalk. Gravel will designate a walkway to the tobacco use area until concrete can be poured.

In the west-central area of campus – an area on the west side of the faculty parking lot behind Baird Music Hall at the end of the fenced area housing the AC unit. The area will be restricted to the paved surface to maintain the existing green space bordering the parking area.
