Morehead College Seeks High Court Honors In K.I.A.C.

Eagles Meet Union College 5 Tonight On Richmond Court

Western, Murray Picked As 2 Outstanding Teams By Experts

CONFIDENCE SHOWN BY MOREHEAD FOLLOWERS

Arenas, Carter, Ishmael, Kizer, Horton May Be Starters

With the K. I. A. C. championship based on general standings in conference play safely tucked away, Ellis Johnson and his Morehead College Eagles, who met but 2 defeats in a 16 game card, eyed the conference tournament title today.

Although Western and Murray have been installed as the finalists by most of those who follow Kentucky College athletics closely, Morehead fans are confident that the Teachers will enter the most which opens at Richmond Thursday evening on a par with that of the Eagles.

It is tradition holds good Morehead will go to the top in every tournament that the Eagles have attended, Western, which won the championship each time, knocked them out twice.

This year Morehead and Western fell into separate brackets, so if the Hilltoppers are the team that will again turn the trick on Morehead it will be to after every other foe is vanquished.

Vikings Finish 5th In Ekay Conference

A record of five victories and five defeats enabled Morehead High School to finish fifth in the Eastern Kentucky Athletic Conference race, which closed this week. Olive Hill won the championship for the third consecutive year, the Comets going through the conference season undefeated with 11 loop victories.

CONFERENCE STANDINGS:

Team	Won	Lost	Pct.
Olive Hill	11	0	1.000
Boone	7	4	.630
Beaumont	6	5	.545
Morehead	5	5	.500
Russell	3	6	.333
Cadetsboro	2	5	.286
Grayson	2	5	.286
Boyd County	0	10	.000

H. R. MATTHEWS, JOHN L. SULLIVAN ON FACULTY

Mr. H. R. Matthews instructor in geography, and John L. Sullivan, instructor in chemistry, were announced today at the St. Joseph Hospital at Lexington. Mr. Amburgey was taken to the hospital Monday, but his condition was such that the operation had to be postponed until today.

BUCK AMBURGEY WILL BE OPERATED ON THURSDAY

Everett "Buck" Amburgey, of Morehead, will undergo a major operation today at the St. Joseph Hospital at Lexington. Mr. Amburgey was taken to the hospital Monday, but his condition was such that the operation had to be postponed until today.

McGRUDER IS TRANSFERRED TO STATE DRAINAGE HEAD

An order was issued at Frankfort yesterday making T. Ryan, engineer of this road district, the former engineer, J. C. McGruder, advanced to state drainage engineer, with offices in Frankfort.

They Like 'Em

Newspaper Article Praising Relief Club's Stimulating Grapefruit Taste

Two weeks ago the Independent carried an article concerning the distribution of grapefruit to relief clients in Rowan County, lamenting the fact that, in the majority of cases, they knew not how to eat them, and that the highways of Rowan and Elliott County were strewn with the fruit, cast aside by disgusted hungry people. The article asked that the government send a grapefruit inspector into Rowan County and educate these people on the proper manner of partaking of this delicacy. Dave Nickell, local community clerk, now advises that the independent, through that item, created a demand on the part of the relief clients to learn how to eat and enjoy grapefruit, with the result that now "they are actually enjoying them."

At this time the good news can be seen that another crop of grapefruit will be sent here and those on relief, who enjoy them, can be assured that there will be enough to go around, at least carry them through the winter.

Norman Stevens Rites Held Here Tuesday

Funeral services for Norman Stevens, 29, of Morehead, who died Saturday at midnight after an illness of more than 6 months, were held at the Christian Church Tuesday afternoon, with Dr. G. H. Fern officiating. Burial was made in the Lee Cemetery. Death was attributed to cancer of the head.

Surviving are his wife and two children, Sonny 2, and Billy 9 months; his father and mother, Mr. and Mrs. Norman Stevens, of Morehead; a brother, Jimmie, of Morehead; and 2 sisters, Margaret and Kathleen.

Herbert Petrie To Present Orchestra In City March 3rd

Symphony Band Featured On Lyceum Presentation Of College

Herbert Petrie and his wife, Hassara, a symphonic and operatic ensemble, will be presented as a feature of the Lyceum program in the Morehead Lyceum auditorium Wednesday, March 3 at 8 p. m. This group of artists ranks a feature of the Lyceum program, with great operas, selections from well known overtures, and symphonic selections of former classics. The instrumentation includes three trumpets, two trombones, two tenors, soprano, operatic tenor and piano. The complete group number of this ensemble is said to be an artist of the highest caliber. Herbert Petrie, organizer and director of the ensemble, is being heard in several numbers. National recognition in band and orchestra is being given to this group. (Continued on Page Four)

Breck Team Plans For District Meet

Bobby Laughlin's Club Wins 2, Loses 2 During Week's Play

Breckridge Training School, highly respected among conference leaders for honors in the 18th Regional basketball tournament, ended its regular playing season yesterday evening against Soldiers' High.

During the week the cagers displayed a strong offensive, winning games and losing 2. The pair of matches at the Breck club lost were close scores.

On Tuesday Breckridge dropped a close game to Mt. Sterling 25-23 on the Trojans court. In the preliminary to the Breckridge Junior High club defeated Mt. Sterling Junior High 18-12 in another exciting match. Olive Hill gained a victory over Breck in another closely contested battle here Thursday. The score was 22-11. The strategy of the "B" team won over the Breck Junior High 22-21 in the preliminary.

The Eagles defeated Washington, conqueror of Newport, for the second time Friday evening. The preliminary to the game more decisive, the Breck club winning over Henry Lee Prichard's outfit at Washington 43-37. The Breck Junior High again won in the preliminary go beating Washington "B" 12 to 6. West Liberty's victory was even more local out Monday, falling before the Laughlin combination 43-21. The Senior match was the only one carded at West Liberty.

Following last night's game Laughlin and his club turned their attention to the district tournament which will be played on Friday and 6 at the Morehead High gymnasium.

YOUTH 14, REFERENCED TO 7 YEARS IN SENTENCE SCHOOL

Raymond Hargis, 14, son of Mr. and Mrs. Lem Hargis, was sentenced to serve 7 years in the state reformatory until 21 years of age, here Monday when he was found guilty of striking and wounding William White, son of Mr. and Mrs. A. White. The case was heard in County Court.

College To Be On Air Over WSM In Nashville March 5

President Harvey A. Babb Will Give Address On Growth of Institution

FOSTER CHORAL ALSO ON RADIO BROADCAST

Short Play, Other Educational Features Will Be Presented

The Morehead State Teachers College will be heard on the air over radio station WSM of Nashville, Tenn. Friday, March 5, with a musical program and a review of the growth of the institution. The Morehead program is one of a series of weekly broadcasts from Southern Colleges of higher learning. Peabody College for Teachers, Nashville.

Dr. Romie D. Judd, head of the Department of Education, and Dr. Henry C. Hagan, head of the Department of Agriculture and Dr. Neville Fencil, of the Department of Economics, are in charge of the 30 minute broadcast which opens at 10:15 a. m. This is the first time that the Foster College Club and a string quartet, followed by the feature of the program, the new play "The Growth of Morehead State Teachers College."

This is the first time that Morehead has appeared on this Peabody radio presentation. Last year the institution gave a performance based along the same lines as this year's broadcast will take.

49 New NYA Jobs Are Allotted Here

Number of Persons on Payroll Now 186, Oscar P. Babb, Director

Forty-two new assignments in the National Youth Administration was announced today by Oscar Patrick, supervisor in charge of the new assignments. He said that the number of N. Y. A. employees here to over 100.

A meeting of all W. P. A. adult education teachers in Rowan County is set for Monday, March 1 at 2 p. m. at the home of the superintendent Roy E. Corlette. On this program James R. Salveys, principal speaker.

It has been pointed out that Rowan County has drawn many benefits of a varied kind under the National Youth Administration. Classes are being conducted under this group's supervision, teaching vocational training for them part. The enrollment in these classes has been increasing, and the attendance, which is voluntary, has been high, attesting to the interest that has been created.

School buildings throughout the county have been repaired and repaired. The primary aim of the N. Y. A. is to help those young people to attend school and to find employment. Those who ordinarily would not be able to do so. In addition to the program carried out in the office of Mr. Salveys, there are a number of prize winning assignments at the Morehead State Teachers College, assisting students to obtain a college education.

C. B. PROCTOR FILES FOR SHERIFF'S OFFICE

C. B. Proctor, of Morehead, is the third candidate to publicly announce for an office in the important county and Representative race to be decided this year.

Mr. Proctor, who has lived in this county all his life, is seeking the nomination on the Republican ticket for Sheriff.

Previously Lyle C. Tackett and Z. Taylor Young announced for State Representative from the Both-Rowan district.

SAM BRADLEY, JR. WINS PRIZE IN WRITING CONTEST

Sam Bradley, Jr. son of Mr. and Mrs. M. S. Bradley, of Morehead, a graduate of Morehead State Teachers College is among the list of prize winners for the "Sam Holt" writing contest. A complimentary copy of "In 1936," the book which won the award that was written by Bradley. The contest consisted of a series of answers relative to current affairs.

Symphonic Orchestra To Appear at College

Herbert Petrie at the Direction

Press Chain Seeks Petitions Against Court Legislation

Thousands Throughout Nation Sign Pleas to Senators and Representatives

Frank E. Gannett, publisher of the Gannett newspapers and an ardent supporter of some of President Roosevelt's policies, announcing the organization of a "National Committee to Uphold Constitutional Government," made public today the Committee's farm petition to Congress and a statement of its purpose.

Mr. Gannett flew from his winter home in Miami Beach for conference in Washington and New York and thence will return to Rochester to give his time to the work of the committee, of which he is honorary chairman and secretary.

The committee's petition to Congress is being distributed to individuals and organizations from coast to coast, to whom Mr. Gannett has written personally. Following is Mr. Gannett's address:

"Since I commented on President Roosevelt's proposal for a startling change in our Supreme Court, I have received commendation and assurance of support from various parts of the country. So many have urged me to lead a fight to preserve and protect the Supreme Court and our Constitution that I have been persuaded to organize a National Committee to Uphold Constitutional Government."

The Sheriff's office reports that it will also be open extra hours if necessary on Friday and Saturday. The office is ordinarily open from 8 a. m. until 5 p. m. Unpaid taxes on April 1 are advertised and an additional cost of the advertising is placed on persons who have not paid up until that time.

Winter Carnival Is Set For Next Week

First Rally To Build Interest Held Last Night In Auditorium

The winter carnival, annual social highlight on the campus of the Morehead State Teachers College will be given in the gymnasium Saturday evening, January 25. The sponsoring organization is the Niwator and the Jannu clubs.

The carnival, always marked by keen competition in the balloting for King and Queen, will be preceded this year by a series of rallies, the first of which was held last evening in the auditorium.

There are fewer candidates this year than ever before. Miss Linda Lee Edson, of Jackson, Marsh, and Be' M' Lay, of Freeburg, are the only candidates for Queen. Ruby Smith, of Morehead, and Ruby Smith, of Olive Hill, are the candidates for King.

COUNTY JUDGE'S OFFICES WILL BE TRANSFERRED

The offices of County Judge Charles E. Strubbs were moved from the basement to the first floor of the Rowan courthouse within short time. The offices where the sewing center is now located are being remodeled. The sewing center will move in Judge Jennings' present office.

REGISTRAR RELEASES SEMESTER DATA

Miss Mary Page Milton, Morehead College registrar, has released the following information: During the first semester 19 students were given permanent releases. There were 200 chapel absences during the first term from 36 assembly meetings. Two students dropped from 1 standing who were placed on probation because of students' points. Some of these numbers were absent due to unavoidable accidents, some were cuts and some were excused by students' points.

The list of chapel absences posted on the bulletin board daily should be carefully watched, according to the registrar, to keep your record straight.

March Session Of Rowan Court To Convene Monday

Christian Church To Have Special Offering

A special offering will be taken next Sunday morning at both the Bible school and church service at the Christian church for the benefit of Christian churches in the flooded area. It is estimated that more than \$50,000 will be needed for this purpose. As large an offering as possible is desired.

Beginning next Sunday night the young people have changed the time of from 6:30 to 8:45 P. M. Robert Humphrey is the leader, and Kenneth Fern is the president. Last Sunday was a big day in attendance in all the services. Two additions to the church recently.

The district meeting of the Women's Missionary Societies will be held at the Christian church here on March 9th. The local Society of which Mrs. Fern is the president will be the entertaining host.

Tax Penalty Goes On After Saturday

City Collector Plans To Be In Office All Day Tomorrow

Saturday is the last day to pay city and county taxes without penalties amounting to 12 percent of the principal on the taxes due. On and after March 1, there is added 6 per cent interest and 6 per cent penalty.

In order to accommodate persons who are desirous of meeting their assessment without having the 12 per cent added, Chief-Collector J. H. Adams, who collects the taxes, said he will be in his office at the city building all day Friday to make collections. Mr. Adams will also spend most of his time today and Saturday in the city hall offices.

The Sheriff's office reports that it will also be open extra hours if necessary on Friday and Saturday. The office is ordinarily open from 8 a. m. until 5 p. m. Unpaid taxes on April 1 are advertised and an additional cost of the advertising is placed on persons who have not paid up until that time.

Docket Includes 2 Murder Cases; Day Trial Is Improbable

Many Misdemeanors Scheduled To Be Heard, Circuit Clerk States

ELMER EDEN CHARGED IN HALDEMAN SLAYING

Grand Jury Faces Large Number of Cases That Were Bound Over

Although the docket for the March term of Rowan Circuit Court is heavier than has been in some time, the number of important cases is relatively light. Only two murder cases are on the docket and one of these, against Mrs. Bessie Day, charged with slaying her son-in-law, Oscar Williams, is expected by court officials, to be filed away. Mrs. Day has been on trial three times, with a hung jury resulting in each hearing. It had, in the past, been customary to dismiss murder trials after three juries have failed to reach an agreement.

Elmer Eden, charged with the murder of Marvin Johnson at Haldeaman, is set for the fourth day of his hearing. It is alleged that Eden killed Johnson following an altercation in a poker game.

The docket of misdemeanors is exceptionally heavy, necessitating the summoning of a large number of witnesses. The more important felonies that appear on the docket include: William McCreedy, 3rd day.

Elmer Eden, murder 4th day. Homer Trent, cutting and wounding Rennie Adkins with intent to kill, 2nd day.

Harley Brown, cutting and wounding Elmer Eden, 3rd day.

Robert Stacey, shooting at without wounding.

GOVERNMENT DEALINGS SHOULD BE LIKE CAESAR'S WIFE

Recent events—beginning with Dr. Arthur Morgan's public statement as to his views on a national power policy and culminating in the President's declaration that negotiations for the Southeastern power pool have been called off pending legal hearings—have again focused the spotlight of public interest on the electric power issue.

On the one hand are those who would use the wealth and authority of the federal government to destroy the private electric industry as rapidly as possible—whether or not good workmen are deprived of jobs, whether or not conditions make Federal electric developments either justified or necessary, whether or not millions of innocent investors are penalized to the tune of billions, and whether or not Federal agencies are prepared to give service that is as good and as cheap—as when all phases of cost such as taxation, subsidies, etc., are considered—as the private utilities are giving now.

On the other hand are those, led by Dr. Morgan, TVA chairman, who adopt the view that private investments should be protected, that amicable arbitration between the interests involved should take the place of destructive warfare, that the achievement of the private industry in technical matters should be recognized, that facilities should be pooled equitably so that both Federal and private plants may receive a fair and profitable share of the business, that private properties should not be confiscated but bought at a fair price, that government should go ahead slowly so that standards of electric cost and service will not be imperiled, and above all that the government should set a moral standard of business dealing that is above reproach.

Infinitely more than a mere electric question is involved. In Dr. Morgan's words, "The manner in which we achieve our ends may have a more enduring influence than the ends we may achieve." This is simply to say, as the Birmingham Age Herald observes, "that the ascending triumph of the will of reason and tolerance over that of conflict and intolerance is far more important, even than what happens to the TVA or any other material project whatsoever."

If the principals for which Dr. Morgan stands are thrown into the discard, to make way for political ruthlessness, a new and menacing precedent will be established in America. It will mean that lawful business may be ruined at the whim of politicians drunk with power. It will mean that every inevitable because of circumstances, at least not to socialists, fascists, communists or some other theory equally alien to the spirit of liberty.

Thus, in the power issue, as it stands today in its larger aspect, may well determine whether the United States is to keep democracy or surrender it to socialism, fascism, communism or some other theory equally alien to the spirit of liberty.

AVOID SOCIALIZING RAILROADS

"The true policy for sound transportation," said John J. Pélley, President of the Association of American Railroads, recently, "is not government ownership and political operation. It is public ownership through wide distribution of securities, with business operation, under an enlightened government policy which will allow the railroads in good times to make surplus earnings as other industries do, which will stop the uneconomic diversion of traffic through subsidies to other means of transportation; and which will call a halt to legislative action to increase the government ownership of railroads." "With that sort of policy—full and fair opportunity for our railroads to render to users, workers and owners the service of which they are capable—there would be no discussion of government ownership and operation as either desirable in itself or inevitable because of circumstances, at least not to those who are interested in results rather than theories."

It is unthinkable that the American people want our largest single industry to be socialized. Therefore, the only thing that could bring government ownership about would be failure on the part of the railroads to adequately perform their service. The lines have demonstrated conclusively that they can give America the finest transport service in the world—if they are given a decent break in such matters as equitable regulation of competition and rates. Thus, the assurance of a generally equitable transportation policy would eliminate the menace of government ownership (socialism) of railroads. Congress could do no more worthy public service than to create such a transport policy.

RURAL FIRE PROTECTION

Out of the Central West comes a new move in the field of rural fire prevention, that promises to reduce fire waste with each year—takes a toll of one hundred million dollars of farm property. The rural districts have stood defenseless against fire unless by lucky chance the fire should be discovered in its early stages when it would yield to the primitive method of dousing it with a pail of water. For many years towns and cities have developed more and more efficient fire protection from the original hand apparatus to the fist motorized equipment.

While rural losses have attracted much attention and valuable educational work in the field of fire protection has been done by the Agricultural Committee of the National Fire Waste Council and other organizations, there has been, until now, no systematic movement to extend organized fire protection to the farms. Manufacturers have now developed efficient motorized equipment especially adapted to farm service, and the greatly improved roads make it possible for this equipment to be moved rapidly from headquarters to the scene of the fire within a radius of ten miles.

The Farm Underwriters Association has given standing to rural fire protection by setting up standards for rural fire department equipment and organization, by incorporating in the farm rate schedules a credit to farm property where these standards are met.

This has given an auspicious start to the development which is likely to be far-reaching in its good results. The supporters of this movement visualize a healthy growth of rural fire protection districts until most of the farms of the country will share with the towns and cities in the benefits of effective motorized fire departments. A reduction of the rural fire waste by half would result in the saving of a hundred million dollars of property loss and thousands of lives annually.

Endorsement by the United States Independent Telephone Association which proposes through its thousands of individual companies to work for the more rapid promotion of fire protection districts, lends additional strength to this movement.

NATURE FOOLS THE "EXPERTS"

The danger of plans, however well meant, would artificially curb basic crop production to a substantial degree, are found in the current wheat outlook. Best estimates show that the world crop this year will be almost dangerously small. And much of our wheat acreage in America has been deliberately removed from service.

Nature frustrated plans of the crop experts—as she often will.

It is becoming increasingly apparent that movements and policies that really and permanently help agriculture—to say nothing of the public at large—sneak from government farm programs than from the farmers themselves. While "farm relief" programs have changed and officeholders have come and gone, the farm cooperative movement to improve production and distribution methods, has been going ahead, and each year has witnessed new achievements. Such cooperatives have a permanent non-political program based on sound, proven principles, as contrasted with governmental programs which are necessarily transitory, and are usually infested with politics.

HISTORY MUST NOT REPEAT HERE

The theme song of the average politician, whether he be a minor city or state official, or a congressman at Washington, usually runs to the tune of "soaking the rich and big business." How long this popular but fallacious tune will continue to produce votes is a matter for conjecture.

It is safe to say that when the policy has been continued long enough to reveal its vicious character, it will "out the window" as have all other radical schemes tending to restrict individual freedom.

A policy of persecution of groups will inevitably spread until it hits every individual. Exorbitant "class" taxes on business will be of necessity passed on to the consumer in the form of higher prices.

Confiscatory gift and inheritance taxes will deprive the public of fortunes left by their owners for education, medical research, museums, public parks and innumerable other services essential to a cultured society.

Wealth persecution kills the incentive of the individual to forge ahead on his own initiative with the hope of personal gain. History shows that every county that curtailed or restricted the free play of ambition and enterprise of the individual soon reached a point of natural stagnation.

History repeating itself with many of our European neighbors, but it must not be allowed to do so in this county.

PROMOTING TRUTH IN BUSINESS

For many years the New York Stock Exchange has been tightening its rules and regulations and strengthening devices to protect the investor. It has determined to determine and successful fight for wider corporate publicity; its listing applications are made available and constitute a principal source of detailed information respecting companies whose securities are held by the public.

The effect of these high standards of listing unquestionably has been to repel a great deal of business from the exchange. This is the result of the exchange contains a great number of regulations to promote high standards of commercial honor—regulations adopted in the interest of the general public.

The exchange has been widely misrepresented by the ignorant and malicious. Any one troubling to actually investigate its attitude toward the public and practices of concern permitted to list their securities "on its board" will discover the unremitting effort to protect the investor against shady or doubtful dealings of any and all kinds. These are matters of fact for those seeking the truth.

Run over a man's wife and he will sorrowfully forgive you, but you run over his dog and he will get a shotgun and try to kill you.

Roosevelt Asked to Officially Give Name to Cumberland Forest Area

Secretary of Agriculture, H. A. Wallace, has requested that President Roosevelt approve the draft of a proclamation which will give the name "Cumberland National Forest" to the 1,386,214 acres of land now being purchased by the U. S. Forest Service in 17 counties in eastern Kentucky.

Although the name "Cumberland National Forest" has been in common usage for some time, the area in question is technically the "Cumberland Purchase Unit." Of the gross acreage within the boundaries of the Purchase Unit, 1,386,214 acres, it is hoped that 1,215,142 acres can be eventually purchased. Work was first started in 1931 when a preliminary survey was made and the examination of the land was started. The forest tract of land was deeded to the United States Government in October, 1934.

Through the U. S. Forest Service the land is being and will be managed according to its highest land use value, namely; watershed protection, timber production, fish and game protection and the improvement of recreational areas. Through the protection of the lands from fire and through proper forest management a portion of the valuable natural resources of Kentucky, which are fast being depleted will be preserved.

BUSINESS WILL HAUL FOR LESS IN 1937-

THE most important hauling news since Ford V-8 Trucks were introduced five years ago awaits you now at our showrooms! For Ford V-8 Trucks and Commercial Cars are now available in two engine sizes. An improved 85 H.P. V-8 engine offering still greater power and gasoline economy for the tough heavy-duty jobs. A new 60 H.P. V-8 engine for lighter work and home-to-house delivery, providing extra economy, plus the smooth, responsive power that only a V-8 can give. Now you can choose the unit which best fits your requirements for maximum pulling-power or maximum gasoline mileage! See your Ford Dealer today—and find out how much better you can haul for less money this year! AUTHORIZED FORD DEALERS

- OTHER OUTSTANDING FEATURES OF FORD V-8 TRUCKS AND COMMERCIAL CARS FOR 1937: Improved, self-centering brakes that have greater stopping ability with easier pedal action. Improved Centri-Force clutch, easier operation, longer life. Improved rear axle with optional gear ratios for increased power application and economy. Improved cooling system and crankcase ventilation. New styling inside and out. More streamlined appearance. New driver conveniences and comforts. V-8m fire and windshield. Regrouped instruments and electric gasoline gauge for easier accuracy. All models available with or without De luxe equipment.

FARMING BY IMPROVED METHODS

Written by the Staff of the University of Kentucky Agricultural Extension Work, College of Agriculture

The 1937 agricultural conservation program provides for two schedules of dividing diversion payments for soil-depleting crops...

Fifteen per cent to the producer who furnished the workstock and equipment.

Seventy per cent to be divided among the producers who are parties to the lease or operating agreement...

The above percentage schedule is substantially the same as that of last year...

Payment with respect to each soil-building practice will be divided equally among the persons who shared in the expense...

The diversion payments with respect to cotton will be divided as follows:

Thirty-seven and one-half per cent to the producer who furnished the land.

Twelve and one-half per cent to the producer who furnished the workstock and equipment.

Fifty per cent to be divided among the producers who are parties to the lease or operating agreement...

Corn and other grain that were under water in the flood may be reduced in feeding value...

Beware Coughs That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion...

fall planting season, Professor Elliott adds. In fact, extra moisture makes setting of trees and shrubs even more favorable now...

It is better not to tamp wet soil about roots but rather to use water to settle the soil.

First thought on reading of garden planning is that of a formal map on which are shown the rows of the various vegetables...

Certainly, a map drawn to scale should be made, showing high spots in which the earliest vegetables are to go...

The first step is to decide what vegetables are to be grown, as determined by what meets the family's tastes...

At about this point, it may develop that the garden space is quite too small...

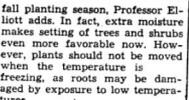

As home owners begin to improve lawns and plant trees, shrubs and flowers...

It is not difficult or expensive to keep chickens off the lawn. Poultry netting nailed to the bottom of the present fence...

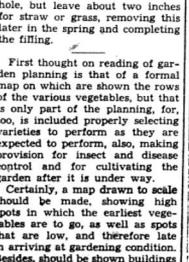

Either method of handling the chickens is satisfactory, but it is certain that home owners will never have good looking places as long as chickens live in the lawns...

The mild winter prolonged the fall planting season, Professor Elliott adds. In fact, extra moisture makes setting of trees and shrubs even more favorable now...

It is better not to tamp wet soil about roots but rather to use water to settle the soil. The filling is made like this: Dissolve 1/2 package cherry flavored gelatin in 1 cup cherry juice...

LITTLE JILL HORNER

LITTLE JACK HORNER may have found plums in his pie, but Little Jill Horner finds cheese pastry, chaffin filling and marshmallow whipped cream in this pie.

For the proper term, "cultivation," except it is true that unless proper tools are used, cultivating a garden does become real labor.

The fruit grower may use any one of four sprays: liquid lime, sulfur, dry lime sulfur, manufactured oil emulsion or home made oil emulsion.

Liquid lime sulfur, 1 gallon to 8 gallons of water, is less expensive than the dry form.

While a power machine for application of the University of Kentucky's College of Agriculture.

Food, clothing and bedding were collected by Warren county club members to give the Red Cross for flood relief. These clubs also gave \$164 in cash.

The Phillip Arnold Award, given annually in Simpson County, this year will consist of banners entitled "Champion Club" and "Banner Club."

A guest speaker for every meeting, in addition to project discussions, is desired by Boone county Utopia club members.

Careful seeding practices, including equal distribution of the seed and proper covering, help to get a good stand of clover.

It is being delayed into March because of the weather. The animals will tramp it into the soil.

Herbert Petrie To Present Orchestra

(Continued from Page One)

tral circles came to Mr. Petrie when he was selected by John Phillip Sousa as solo cornetist with the famous National Battalion Band.

When he organized the White Hussars Mr. Petrie had a distinct formula in mind. He believed that genuine artistry plus modern showmanship would equal success. He determined to blend the best in musical artistry with the latest ideas in stage technique. First of all he selected artists of recognized merit and professional experience. He then built a program designed to command the respect of the most exacting critic and at the same time appeal to the casual concert-goer. He clothed his musicians with exquisite white and gold hussar uniforms, developed special lighting and scenic effects, and by constant rehearsal produced such a poised, graceful and precision movement that the Petrie programs are said to be a delight to the eye as they are to the ear.

In addition to the ensemble numbers, solos and duets by members of the ensemble, the Hussars present Henry Thompson, distinguished English tenor and Maryn Proesel, noted harpist, who has appeared with many of the nation's leading musical organizations, including the Chicago Symphony Orchestra.

Recent tours of the White Hussars include return engagements in Milwaukee, Pittsburg, Rochester, Kansas City, Portland, Ore., Chicago, New York, Indianapolis, Des Moines, Cleveland, Columbus and many other musical centers. Previous bookings made it impossible for the White Hussars to accept a season's engagement at the Texas Centennial Exposition.

THIS dish, "Vermont Ham 'N' Cornmeal Mush," points out a new way to serve left-over baked ham and cornmeal mush—in a quick-disappearing manner.

Make the mush according to your favorite recipe and add a few raisins when removing mush from flame. Pour into cleanly cut tin cans; cook, then store in modern air-conditioned ice refrigerator where it will keep fresh and moist until you desire to use it. Remove from refrigerator and open opposite ends of cans. Cut molded mush in 1/4 inch slices and sauté in butter. Serve with slices of left-over baked ham, rebasted in oven with a maple syrup topping.

ordinate individual and mass protest against the proposed undermining of an independent judiciary.

"Never in our history have the American people been so deeply stirred. It is not an issue for partisan politics. It transcends party, overshadows religious, racial and all other dividing lines.

"Our form of government was set up as a protection against tyranny and autocracy. Our forefathers saw the necessity of having the three departments, Legislative, Executive and Judicial, kept separate and independent.

"If we permit one man to become the master of all three branches of the government and of the fundamental law, then we shall throw away our most precious heritage and shall have sounded the death knell of democracy.

"If all those who believe in our form of government will rise up and make their protest heard in Washington, the constitutional balance among Legislative, Executive and Judicial departments of the government can be preserved.

The National Committee will include outstanding Democrats and Republicans, liberals and conservatives. It will be representative of agriculture, business and labor, the rich and the poor alike—for one has as much at stake as the other. It will include leaders in education and religion, and representative men and women of all professions.

"A petition has been drafted, universal in its appeal, which will be distributed through the nation

Estill Crisp cutting and wounding Vester Crisp.

The grand jury faces a long session with an unusually large number of cases bound over from the lower courts. Included in this is a number of jail-breaks. The case of Jerry Dye for the alleged murder of Jay Bailey, and many robberies and grand larceny indictments. More than the usual amount of summons have been issued for people to appear before the grand jury. An investigation into the jail breaks is held probable.

Court will convene Monday morning.

Coal Bill Passes House Committee

(Continued from Page One)

view by the National Bituminous Coal Commission, which also would be empowered to fix maximum prices if necessary to protect consumers.

In place of the labor-regulating provisions of the original Guffey Act, on which the Supreme Court based its invalidation of that statute, the new bill contains simply a statement of collective bargaining policy.

Chairman Charles F. Hofstad,

Burley Exports In U.S. At High Mark

Over 10 Million Pounds of American Weed Goes To Foreign Nations

U. S. Exports of Burley tobacco to foreign countries in 1936 amounted to 10,469,247 pounds valued at \$2,947,418 as compared with 8,843,715 valued at \$1,664,746 in 1935. U. S. exports of dark-fired Kentucky-Tennessee in 1936 were 49,472,828 valued at \$45,724,298 as compared with 52,573,628 pounds valued at \$46,618,769 in 1935.

Jr. of the National Bituminous Coal Commission, termed the revised bill much stronger than its predecessor.

Under it, so-called "captive" coal (produced by a concern for its own use) would be exempt from the operation of a soft coal code and producers of it could not be subjected to the penalty tax. However Hofstad told reporters, this exemption would apply only where the cooperative entity of the producing and consuming company were identical.

The United States participated in 1935 purchases of leaf tobacco by the French Tobacco Monopoly.

Increasing preference for the cheaper grades of cigarettes is reflected in the gradual increase in consumption of cigarette tobacco by the German cigarette industry.

Tobacco dust is the most widely employed botanical insecticide in Chile, being used chiefly in orchards to exterminate lice and small red spiders that are troublesome.

To combat a leaf disease which is attacking its banana plantations a large fruit company operating in Guatemala is using regular spraying equipment and plans to utilize airplanes for spraying 10,000 acres.

Exports of machinery from the United States in December were valued at \$15,010,281—28 per cent above the December, 1935 shipments.

Gold will hereafter be eliminated from dental work and in the manufacture of fountain pens in Germany and replaced by substitute metals.

All-time high record for Colombia's coffee export trade was established in 1936.

Calcium chloride is now being utilized in Germany for reinforcement.

ing shifting sands and other loose formations under building foundations.

The volume of American hog lard imported into Cuba during 1936 was greater than that recorded for any recent year since 1931.

A paved highway from Buenos Aires to Rosario, the first link in the projected international highway between Argentina and Bolivia, was recently opened to traffic. It is 220 miles in length, all of reinforced concrete six meters in width.

Germany replaced the United States in 1936 as the leading source of Chile's imports.

Imports of American passenger cars in Argentina registered an appreciable decline in the first eleven months of 1936 compared with the corresponding 1935 period while imports of American trucks increased.

The gradual elimination of all steam-operated road vehicles in Great Britain has resulted in a serious loss to the domestic coal trade.

A Japanese branch plant for the manufacture of electric light bulbs may be established in Vancouver, British Columbia.

March 11th to 13th, inclusive

Kentucky, 2 Other States Receive 20 Millions In Grant

11,522 Persons In State Are Receiving Social Security Aid

Cleveland, Ohio—In the early stages of the operation of the social security law, Region V, including the states of Ohio, Kentucky and Michigan, has received more than \$20,000,000 in Federal grants to aid these states in putting this plan in operation. This announcement was made today by Benedict Crowell, director of Region V, who released a summary showing the sums which have been granted to the states for various phases of the social security program. By far the bulk of the funds have been for old-age assistance. In this case the Federal government gives that state an amount equal to that which each state is expending to aid those of its aged needy who are in want. For this purpose, a total of nearly \$18,000,000 has already been allotted to the three states in this region.

For aid to the blind, a total of more than \$300,000 has been given, this sum being divided between Ohio and Michigan alone, as Kentucky does not have a plan of this sort. The same is true in the case of aid to dependent children program; hence has received no funds.

For unemployment compensation, each state has received an allotment for administration expenses during the first quarter of 1937. The total of these grants is nearly \$400,000. All three states enacted laws of this type in December, 1936.

There is considerable difference in the allowance which the three states are receiving under the old-age assistance phase of the social security act. Today's release showed Ohio was given more than \$14,000,000 in Federal funds for the five quarter years during which its plan has been in operation.

A report to the social security board for December, 1936, showed that Ohio then had 99,465 persons receiving old age assistance. In that month these persons received a total of \$2,438,086, an average of \$24.51 each. In the amount of money spent for this purpose Ohio led the entire nation, California being second with total payments of \$1,600,822 and New York being in third place with \$1,548,436. In the same month, Michigan had 22,705 persons receiving old age assistance in payments. This

• A STILL FROZEN DESSERT THAT'S DIFFERENT •

MARY is one of those clever homemakers who is always the first one in her community to introduce new ideas and new recipes. This time she is serving Still Frozen Cinnamon Apple Sauce. Wouldn't you like her recipe?

To 1 1/2 cups hot sweetened apple sauce add 3 tablespoons red cinnamon candies and 1/4 teaspoon salt; stir until candies are dissolved. Chill. Fold in 1 cup whipping cream (whipped) and 1 stiffly beaten egg white. Pour into freezing container of still ice cream freezer. Cover and pack with mixture of 3 parts chopped ice and 1 part salt, by volume. Cover freezer and place in ice refrigerator. Freeze approximately 1 hour, stirring occasionally. The quick-freezing (made possible by the ice and salt mixture) is the secret of making this velvety smooth-textured dessert.

group was given \$538,529 the average for each recipient being \$18.47.

In Kentucky there were 11,522 persons receiving this aid, payments to them amounting to \$115,039, and the average payment being \$9.96.

For the nation as a whole in the month of December, old age assistance cost more than \$20,000,000 and was being extended to 1,100,000 persons. Average payment for each recipient in that month, taking the nation as a whole, were \$19.75.

Kentucky allotments under old-age assistance were reduced considerably as its plan did not go into effect until the first of the fiscal year, which began July 1, 1936.

In the case of Federal grants for old-age assistance, the U. S. Treasurer supplies one half of each monthly payment authorized by a state up to a maximum of \$30. This does not prevent any state from paying more than \$30 a month to an individual for limits the Federal government's contribution to one half of the \$30 maximum of \$15.

director for "Wings in the Morning," which Harold Schuster directed, agrees with Rene Hubert that rich colors give additional glamour and personality to a star. Hubert, one of the busiest designers in the world at the moment, has done the costumes for ten pictures in the last eight months, and finds his work for Twentieth Century-Fox color release more difficult, but also more interesting than a black and white subject.

ARMY VACANCIES

Young men over eighteen years of age are wanted to enlist in the U. S. Army. Vacancies Kentucky for the 98th Field Artillery, 1st and 13th cavalry. All these organizations are mechanized with the latest models of tractors, tanks, armored cars and trucks, a wonderful opportunity for a young man to learn something about motor mechanics. All applicants must apply in person to the U. S. Army Recruiting Station, 44th Post Office Building, Lexington Kentucky.

Signed: Victor W. Hamilton Recruiting Sgt.

"10c STORE" SALES SHOW GAIN THIS JANUARY

Daily average sales of variety stores for January, 1937, were about six and one-half per cent higher than for January of last year and showed about the same percentage increase when compared with 1935, according to preliminary estimates just received by the Louisville District of the Department of Commerce. Sales decreased from December to January by somewhat more than the usual amount at this season of the year. The total value of sales for the year 1936 was about one-half per cent above that for 1935, and was 10 per cent higher for 1934.

K.I.A.C. Play Will Open At Richmond Tonight

Morehead 5 Slated As One of Better Clubs In Tourney

Eagles, Murray, Western Picked by Depositors As Best Teams

Morehead College rules as 1 of the 5 favorites in the K. I. A. C. basketball tournament, contested by 11 state clubs, which opens at the gymnasium of the Eastern State Teachers College Thursday evening. Morehead goes to the mat Thursday evening meeting Union at 7:30.

Murray, which is in the upper bracket is favored to play Morehead in the semi-finals. Western rules top-heavy favorite to clinch the lower bracket and go into the finals. However, Kentucky clubs have been beating each other so numerously that it is doubtful if any of the favorites win, and it would not be surprising if the tournament produced a dark-horse winner this year.

This will be the first tournament ever held in Richmond. The first eight events were held at Kentucky Wesleyan, the ninth at Louisville and the last two in the gymnasium of the Western Teachers' College at Bowling Green.

The tournament will get under way Thursday afternoon with the host school, Eastern meeting Western in the opening clash. Three games are carded Thursday night, Union and Morehead playing in the first and Berea playing Centre in the second.

With the completion of the first

day's play the field will be reduced to eight teams. The quarterfinals are slated Friday with Transylvania meeting the University of Louisville and Georgetown clashing with Murray in the afternoon games. At night Wesleyan will meet the winner of the Western-Eastern game with the victor in the Morehead Union tussle clashing with the Centre-Berea winner in the fourth game of the day.

The semi-final contests will be played Saturday afternoon with the finals coming on Saturday night. Only four schools have won K. I. A. C. tournaments. Berea, Georgetown and the University of Louisville have won two championships each while the Western Teachers have topped five. Berea won the first tournament in 1928. Georgetown took the second and Louisville won the next two. Georgetown surprised by taking the 1930 event and Berea won its second crown in 1931.

The only losses sustained by Morehead were both by 2 points. The Eagles caught Louisville at their peak and lost to the Cardinals 46-44. At Eastern Morehead succumbed 40-38 in an overtime period.

Western placed second in the K. I. A. C. race, with six wins and 2 losses, a full 2 games behind the Morehead club. Wesleyan held a 5 to 0 lead at the start of the game, holding the Eagles scoreless for the first five minutes. The Teachers rallied soon and tied it at 11, then pulled out in front and never headed back. Morehead was ahead at the half 20-14. Expert foul shooting again proved the difference. Morehead dropping in 18 out of 23 free shots while Wesleyan could get but 7 of 11.

Interest Is Keen In District Meet

Morehead College To Sponsor 14th Regional Set For March 12-13

With Breckinridge and Morehead High top-heavy favorites to gain the winner and runners-up spot in the district tournament, it would seem that much of the interest ordinarily manifested in meets of this kind would be lacking. The tourney is also handicapped for lack of teams, since only 4 varsity combinations will compete.

However, it is apparent that interest will nevertheless be greater than there has been shown in a district tournament in this district for some years. This is partly attributed to the fact that the re-districting placed Rowan and Elliott Counties together, thereby practically insuring the match will be held here each year. Hereafter it has been conducted either at Olive Hill or Ashland.

If Morehead High and Breckinridge meet in the finals, which they are almost sure to do, a crowd overtopping the Morehead High gymnasium is anticipated. The outcome, however, will not affect the entries of the 2 clubs in the Regional tournament to be conducted at the Morehead State Teachers College a week later. The district tourney is scheduled March 5-6.

Paul Combs and Austin Riddle will be the Principals. Principal Dennis D. Caudill is campaign manager.

Considerable interest has been

Morehead Wins Over Ky. Wesleyan For Loop Title

Ellis Johnson and his Morehead College Eagles brought further recognition to this mountain school Saturday by annexing the Kentucky Intercollegiate Association championship, by defeating Kentucky Wesleyan 38 to 29 in a spirited match at Winchester. The victory gave Morehead a record of 10 victories and 2 defeats within the conference and 13 wins and 2 losses in all competition for the season.

It marked the first time that the Teachers have finished better than seventh in the conference race. An invitation to the S. I. A. A. tournament had been assured almost a week before the Johnson coached combination defeated Transylvania.

The only losses sustained by Morehead were both by 2 points. The Eagles caught Louisville at their peak and lost to the Cardinals 46-44. At Eastern Morehead succumbed 40-38 in an overtime period.

Western placed second in the K. I. A. C. race, with six wins and 2 losses, a full 2 games behind the Morehead club. Wesleyan held a 5 to 0 lead at the start of the game, holding the Eagles scoreless for the first five minutes. The Teachers rallied soon and tied it at 11, then pulled out in front and never headed back. Morehead was ahead at the half 20-14. Expert foul shooting again proved the difference. Morehead dropping in 18 out of 23 free shots while Wesleyan could get but 7 of 11.

In a preliminary the Wesleyan freshmen defeated the Morehead freshmen 46 to 23.

added because there will be a tournament for "B" teams, conducted on about the same lines as the main attractions. The "B" team games will be played as preliminaries to the more-important contests.

Both Bobby Laughlin, of Breck, and Roy Holbrook, Morehead High turned their attention this week to getting the clubs in the best possible shape for the start of the tournament play. Both teams are in the near-pink of condition, and are regarded as strong contenders for Regional honors.

T. C.

A new process employing zinc oxide for the preservation of hides and skins which has been developed in Germany and is to overcome some of the undesirable features of salting, especially the so-called salt spots.

Morehead Theatre Has Good Feature

Miriam Hopkins Plays Lead In Film To Be Shown Friday at College

Friday's show at the College features lovely Miriam Hopkins in a sparkling story in which she as Ann Williams is the secretary to London's leading dramatic critic. She is about to turn in a vitriolic review of a story by one Edmund Davey when his wife appears and persuades Ann to alter the story and "rave" about the performance. This she does and is "fired" for it. She then spends

her time watching the play and falls in love with Edmund. Things then take a serious turn and the story reaches a great dramatic climax—one which would be unfair to reveal here.

Sunday's show is another top-notch starring Victor McLaglen. McLaglen takes the part of "Big" Steve Andrews, who moves into a steel town and immediately becomes the competitor of another husky by the name of Bill Morgan. Many clashes between the two result in Steve taking Morgan's girl from him. Morgan, being an unscrupulous fellow, plots against Steve but is finally caught in the plot and forced to confess. Dealing with rough and tough individuals, the film is far from the lavender and old lace type.

Let us help you - - -
MAKE YOUR SELECTION

Our shelves are stocked with hundreds of different brands of whiskies, wines, champagnes - - - In fact, a type to suit every taste.

Try this way of boxing fudge so that it does not crumble or get stale before reaching the recipient. Simply pour the fudge while warm into a tin pan lined with several thicknesses of wax paper. Leave sufficient paper to cover the top, wrap and send in the pan. When opened the candy can be lifted out of the box by lifting the paper.

To arrange a bouquet attractively in a low wide dish, take a piece of paraffin large enough to fit the bottom of the dish and melt it by heating just enough so that it can be molded to fit. While still warm, press it into the dish and with a toothpick make holes for the flower stems.

CHORUS

From "Atlantia In Calyden"
When the hours of spring are
On winter's traces,
The mother of months in meadow
In plain
Fills the shadows and windy
Plays
With lay of leaves and rattle
And the brown bright nippable
Amorous
Is half-susaged for Ilytus
For the Thracian ships and the
Foreign faces.
The tongueless vigil, and all the
Pain.

And all the season of snow and
sins;
The day's dividing lover and lov-
er
The light that loses, the night
that wins
And time remembered is grief-for-
gotten.
And frosts are slain and flowers
begotten.
And in green underwood and cov-
er
Blossom by blossom the spring
begins.
-ALGERN SWINBURN.

Salt Lick Woman Celebrates 94th Birthday

Mrs. Caroline Bates celebrated her 94th birthday with a dinner party at her home in Salt Lick Monday. It was also George Washington's birthday and the table was decorated with a huge angel food cake bearing 84 candles, nine red, white and blue frosting, with a small flag in the center. There were 84 guests, including 12 hatched and cherries at each place. Mrs. Bates was photographed with her cake after dinner. The guests were her three daughters, Mrs. Etta Jackson, and Mrs. Kate Jordan, of Salt Lick; Mrs. Steve Hook, of Cincinnati; Mrs. Ethel Keeler, and Mrs. Violet Keeler, of Morehead.

Mrs. Lester Hogge Entertains At Bridge

Mrs. Lester Hogge entertained with a lovely bridge, at her home on East Main street, on Saturday evening. Three tables of bridge were played through the evening, with Mrs. W. H. Rice winning high score, while Mrs. Steve Hook, won second high. After an enjoyable evening, delightful refreshments were served.

Announce Marriage Of Daughter

Mr. and Mrs. Oscar Hall, announce the marriage of their daughter, Fay, to Mr. John L. Carpenter, of Indianapolis, Ind. The wedding took place at Muncie, Ind., where the young couple are residing at the present time.

Bridge Club Met Thursday

The Thursday bridge club met at the home of Mrs. G. D. Downing on 2nd street, with Mrs. Len Miller winning high score and Mrs. Wood Hinton 2nd high. The next meeting will be at the home of Mrs. Edward Bishop.

waiters on duty. Fulton, Kirk and Case went to the second floor of the building in an attempt to rescue Cook, but they were driven back by the flames. Returning to the first floor, the trio met Key as he entered the cafe. Informed that Cook was asleep on the third floor, Key immediately rushed up stairs, through the flames on the second floor. There he carried Cook from the bed. Both men then fought their way through the flames, rolling down two flights of stairs. Origin of the fire was unknown, Fire Chief R. M. Newell reported.

Reserve In Social Security Is Studied

Government Plans 47 Billion Dollar Fund For Any Emergency

The Senate Finance Committee ordered a study today to see if it is necessary for the Social Security system to accumulate a gigantic reserve fund of \$47,000,000,000. It has been estimated that the reserve will reach that figure by 1980 if the present law remains unchanged. Some critics have maintained that such a reserve fund is unnecessary and unmanageable. The committee directed three of its members, Chairman Harrison, Democrat, Mississippi; Senator Byrd, Democrat, Virginia, and Senator Vandenberg, Republican, Michigan, to join with Social Security Board officials to study an advisory council composed of disinterested experts to make a report on the old age pension section of the act. Senator Vandenberg was supported by Senator Byrd in seeking the study. Vandenberg said the board officials agreed with the committee in agreeing to a program which would be a problem that could not be ignored. He added that Chairman A. J. Altmeppen of the Security Board and other board officials expressed willingness to have the study made.

Vandenberg presented to the committee and to the Senate a list of 600,000 insured persons who are insured under the act. He said that the committee and the Senate are interested in the act. He said that the committee and the Senate are interested in the act. He said that the committee and the Senate are interested in the act.

Maysville Man Is Saved From Flames
Pulled From Burning Building In Business District By Friend
Robert A. Cook, 32, was saved from probable death yesterday by Maysville through the efforts of Henry H. Key, 29, who rushed through a flame-swept building to rescue Cook asleep on the third floor of the burning structure. Damage to the building, situated East Second Street, and occupied by the Hub cafe was set at approximately \$7,000. Cook, in a serious condition from probable death yesterday, was rescued by Maysville through the efforts of Henry H. Key, 29, who rushed through a flame-swept building to rescue Cook asleep on the third floor of the burning structure. Damage to the building, situated East Second Street, and occupied by the Hub cafe was set at approximately \$7,000. The fire was discovered at 2:12 o'clock by Paddy Fulton, night employe at the cafe, who was walking the opposite side of the street on which the building is located. Fulton ran across the street to the cafe and notified Kenneth Kirk and Howard Case, Great Britain's rayon industry established an all-time record for production in 1936. Exports of raw cotton from the United States in January amounted to \$36,581,000 compared with \$39,620,000 in December and \$35,106,000 in January, 1936. Exports of cotton from Argentina in 1936 were the highest on record.
