REQUIREMENTS FOR ADMISSION

ADMISSION TO THE FRESHMAN CLASS:

Without Examination. Graduates of high schools accredited by the Kentucky Association of Colleges, Secondary and Elementary Schools and by the State Department of Education are admitted without examination, provided they have earned credit for 15 units of high school work acceptable to Morehead. No specific courses are required for entrance, but not more than four units in one subject field will be accepted. If credit in foreign language is offered for entrance, at least one unit in the language must have been earned.

By Examination. Students who have earned 15 units of high school credit acceptable for college entrance may enter Morehead provided they pass an entrance examination satisfactorily.

Special Note. All students desiring admission as freshmen must have their credits certified by their high school principal or superintendent. These transcripts should be mailed directly to the Registrar of this college by the person certifying to them and must be on file at the time of registration.

ADMISSION TO ADVANCED STANDING:

Students entering Morehead from other colleges must present a statement of honorable dismissal from the college attended previously and must satisfy the entrance requirements here. Official transcripts of college and high school credits should be on file in the Registrar's Office before the time of registration.

ADMISSION AS A SPECIAL STUDENT:

Students 21 years of age or over, who have not met the entrance requirements of the college may be admitted as special students and are permitted to carry courses for which they are prepared. Special students are not considered as candidates for any degree or certificate until they have fulfilled college entrance requirements, or until they have completed 64 hours of residence work with a minimum standing of 2.5, as well as all other requirements for the degree or certificate in question.

ADMISSION AS AN AUDITOR:

By payment of the required fees, admission may be secured to a class or classes as an auditor. An individual desiring such admission must apply to the Dean of Instruction. No credit will be given for this work, nor will the student be permitted to take an examination for credit.

ADMISSION TO THE GRADUATE SCHOOL:

1. Graduates of accredited four-year colleges are admitted to graduate work on application to the Director of Graduate Instruction. This application must be accompanied by a transcript of undergraduate credit.
2. Graduates of non-accredited colleges must meet the conditions for graduation at Morehead State College before their applications for graduate work will be approved.

3. If the student's undergraduate preparation is inadequate, this deficiency must be made up by taking designated courses which will not be counted for graduate credit.
4. The student's graduate program is pursued under the direction of a committee of three members. This committee is composed of two members appointed from the graduate faculty and the Director of Graduate Instruction.
5. The applicant for a degree must arrange a program of graduate work under the direction of his graduate committee, and he is not admitted to complete graduate standing until this program has been approved by his committee.

CURRICULA

The curricular offerings at Morehead are varied. Students may pursue courses leading to the:

1. Temporary Certificate.
2. Provisional Elementary Certificate and degree.
3. Provisional High School Certificate and degree.
4. Standard Elementary Certificate.
5. Standard High School Certificate.
6. Bachelor's degree without a certificate.
7. Bachelor's degree and the certificate in Vocational Home Economics.
8. Bachelor's degree with an area in business administration.
9. Provisional certificates for superintendents, principals and supervisors.
10. Standard certificates for principals and supervisors.
11. Diploma for registered nurses.
12. Degree of Master of Arts in Education.

DEGREES

The college awards two undergraduate degrees, the Bachelor of Arts and the Bachelor of Science. Each degree may be taken with or without a teaching certificate.

The degree of Bachelor of Science is granted to those students who complete all of the requirements for graduation and who earn a minimum of 60 semester hours of credit in the following subjects—agriculture, biology, chemistry, commerce, geology, home economics, industrial arts, mathematics, library science, nursing, and physics. Students completing any of the other four-year curricula are granted the degree of Bachelor of Arts.

GENERAL REQUIREMENTS FOR THE BACHELOR'S DEGREE

The candidate for the degree must meet the following general requirements:

1. A minimum of 128 semester hours of prescribed and elective college credit.
2. An average standing of "C", or higher, on all residence work completed at this college.
3. At least three-fourths of the credit in residence in some standard college; at least one year in residence and one

semester immediately preceding graduation in this institution. (One year in residence is interpreted as being two semesters, during which a minimum of 32 hours of credit will have been earned.)

4. Not less than 43 semester hours of work offered for the degree must be selected from courses numbered 300 or above.
5. The credits earned must include a minimum of 12 hours in natural science and 12 hours in social science. Three hours of the 12 hours required in social science must be earned in History 400.

MAJORS AND MINORS

Not later than the beginning of the sophomore year, the applicants for degrees must file with the Dean their selection of majors and minors. (This does not include those who are applying for the Bachelor of Arts degree with the Provisional Elementary Certificate.) The heads of the departments in the major and minor fields must approve the program to be followed before the blank is filed. Two majors of 24 semester hours each, or one major of 24 semester hours and two minors of 18 semester hours each, may be selected*

A student may choose his major† or minor† from any one of the subjects listed below:

Agriculture	Home Economics
Art	Industrial Arts
Biology	Mathematics
Chemistry	Music
Commerce	Physical Education
English	Physics
French	Political Science
Geography and Geology	Sociology and Economics
History	

In addition to the available subject fields listed above, the student may complete a minor in—

Dramatics
Speech
Library Science

AREAS OF CONCENTRATION

To meet the needs of high school teachers who will teach entirely in a general subject area, Areas of Concentration may be selected in lieu of majors and minors. A person who concentrates in an area is not required to offer minors in any other field, but any single subject in which he has as much as 12 semester hours outside his area of concentration may be added to the face of his certificate.

Provision for Areas of Concentration was made by the state authorities with three ideas in mind: first, more and more secondary teachers are teaching in one department or field of work; second, greater opportunity is afforded for integrated preparation; and third, with the greater emphasis on graduate preparation for secondary teachers, extensive knowledge in some general field becomes exceedingly important as an adequate background.

Areas of Concentration may be taken in the areas of		
Social Science	Home Economics	Music
Science	Commerce	Art
	English	

REQUIREMENTS FOR THE MASTER'S DEGREE

1. The master's degree may be earned in either of two ways —a. If the student elects to write a thesis, the degree may be secured by completing a minimum of 36 weeks in residence and a minimum of 24 semester hours of work in regular courses. b. If the student so desires he may elect to do additional course work in lieu of writing a thesis. In this event the minimum requirements for the degree are 30 semester hours of credit and 36 weeks of residence. Students who expect to continue their training beyond the level of the master's degree are strongly advised to write a thesis.

TEMPORARY CERTIFICATE

A Temporary Certificate, valid for two years at the elementary school level, may be issued to a person who has earned a minimum of 64 semester hours of standard college credits, 48 semester hours of which have been earned in residence, with a scholastic standing of "C" on the total credits earned, in courses prescribed for the first two years of the teacher training program approved for elementary teachers. This Temporary Certificate may be renewed once, for a period of two years, on the basis of 16 semester hours of additional college credits earned in residence from courses prescribed for the four-year elementary curriculum. Under present regulations, this Temporary Certificate will not be issued after September 1, 1956.
