

Volume IV.

3 New Candidates Enter Field For Education Board

V. D. Flood, Bill Cornette and Andy Williams Enter Board Race

CANDIDATES NUMBER SIX FOR FALL VOTE

New Group Will Run As Slate Opposing Present School Administration

Opposition to the present administration of County School management developed here today with the announcement of three candidates for the Board of Education.

The new announcements were made by V. D. Flood, of Morehead; J. W. "Bill" Cornette, Blue- stone, Ky.; and Andy Williams, Elizabethtown, Ky.

This group will run as a slate of candidates, it was announced, pledging a change in school management if elected.

Previously three other candidates, who pledged support to the present administration, had entered the race. They are Hendrix Tolliver, J. B. Fraley and J. L. Boggs, all of Morehead.

The school board will be run from the county-at-large with each voter eligible to cast his ballot for three. The Board is composed of five members, two of which, Bill Layne and Alvin Caudill will hold over for two years.

Although there has been no discussion of former announcements for the Board the general consensus is that with today's announcements the candidate list is about closed.

Morehead - This Week

We have often wondered what the secret was of Ellis Johnson's success in making the Morehead College Eagles. Now we have learned and we say to you.

Some 28 or 29 years ago Ellis was delivered into this world by Dr. Grover Cleveland Nickell in what was then the village of Morehead. Dr. Nickell had just opened his practice here and was one of the first youngsters that he brought into this world. It is no mystery, therefore, why Dr. Nickell has been so successful in getting off to a start like this.

Saturday afternoon one of the most ardent rooters for the men of Ellis Johnson in the 19 to 9 victory over East Tennessee was the same Dr. Grover Cleveland Nickell.

C. P. Duley, of Morehead, Grand Senior Warden of the Masonic Lodge of Kentucky and chairman of the County's prominent Masons had an experience last week that is worth mentioning.

Mr. Duley attended a district Masonic meeting which was held a half-mile underground. Seven or eight brought 600 Masons to the gathering.

The meeting was at Mammoth Cave, Kentucky.

Although the independent mentioned twice in its lead article of last week that there was no real cause for alarm, although the Rowan County School and Agricultural Fair had been postponed as a precautionary measure against respiratory paralysis, many Morehead mothers became almost frantic. Physicians reported that several children called them or brought children to their offices for an examination in the belief that they might have contracted the dread disease. In all cases the ailment turned out to be a minor one.

At a pie social in the Morehead High School Monday Miss Martha Jenks Hancock was awarded a prize for being the prettiest girl present and Roy Holbrook, of this county, and instructor at Morehead High won the ugliest men's award. Both copied the prize hands down.

Norman Wells has two pictures of the 1919 County pageant which we hope to reproduce soon. One of the pictures is that of the old Rowan County courthouse. The other shows the rambling frame building that stood at the corner of Main Street and College Boulevard for so many years and is so well remembered by old timers. Anyone (Continued on Page 3)

Over 130,000,000 More Pounds of Burley Raised by Farmers This Year Than Last; Cigarette Sales Up

The 1937 burley tobacco crop, which is all of which is in the barns, is estimated by the government as of September 1 at 252,000,000 pounds, 8 million pounds under the July 1 estimate, it was announced from Washington yesterday.

On the basis of the latest estimates, the burley crop this season will be 130,000,000 pounds larger than that of 1936. On the other hand, consumption of products in which large amounts of burley are used is showing an appreciable increase this season over last and continued increases appear likely.

Cigarette consumption for the first eight months of 1937 was 108,486,477,621 as compared with 100,821,287,280 for the same period of 1936, an increase of 7.6 percent. Consumption in August of 1937 showed a gain of 12.42 percent over the same month of 1936.

These figures for burley crop and cigarette consumption for the first three seasons, 1935, 1936, 1937, reduced materially the stocks of leaf in the hands of manufacturers,

Former Principal Of Morehead Secures Florida Place

Announcement was made here this week that D. C. Caudill, former Principal of the Morehead High School has secured the position of principal of Kelsey City Schools, Kelsey City, Florida.

Mr. and Mrs. Caudill, who have been vacationing in Florida, moved to Kelsey City last week where they will make their home.

Mr. Caudill, a graduate of the Morehead State Teachers College served as Principal of the Morehead High School during the last three years.

Supervisors Make Survey of Farms

Seven Men Now Working To Complete Reports By October 1

Farm supervision under the Agricultural Conservation Association of Rowan County has expanded more than half of the farms to be checked for performance. Seven supervisors are now working and every effort is being made to complete the work by October 20. The work was delayed in Rowan county as well as in a number of other counties in the national forest area in an effort to secure aerial pictures of the farms.

Practically all farms will be checked in time for their owners to finish using their soil building allowance by using lime or carrying out other soil building work. Payment for this time allowed is paid for. Farmers know that their total soil building allowance is for 1937 and know approximately how much they have earned. They are, therefore, not seriously handicapped by late supervision.

The County Committee is in session this week completing the work of adjusting bases to coincide with the supervisor's report. Changes being made are use of additional land being brought into cultivation and to insufficiently accurate data used in originally setting bases. The County Committee is Eddie M. Perkins, John Caudill and George Brown (alternate) who is working in the absence of P. L. Alderman, President of the County.

Mr. Alderman is unable to attend meetings at this time. A tentative outline of the 1938 program has been received by the county agent. The new program is to organize the same as in 1936 and 1937 but will be simplified to a considerable extent.

Parent-Teacher Group Will Meet

On Thursday evening at the City High School teachers will meet with their whippersnappers for the purpose of organizing a Parent-Teachers Association.

The program will consist of a round-table discussion and brief reports by the visitors on the value of the Parent-Teacher organization. The object of the meeting will be to organize an association in Morehead and to bring the teachers and parents together to care of the children.

Thursday's meeting will be in the home economics room. Refreshments will be served by the Morehead High School faculty.

E. D. Patton Named Chairman By GOP's In November Race

Walter C. Swift Elected As Treasurer and Joe McKinney, Secretary

BOTH PARTIES ARE LAYING CAMPAIGNS

Democratic Registration Expected To Be Before Election Close

Library of Morehead was elected Republican campaign chairman in this fall's general election in Rowan County, by G. O. P. nominees in session at the court-house.

Walter C. Swift, manager of the Morehead lumber company was elected treasurer and Joseph McKinney, Circuit Court Clerk, Secretary.

Plans for the waging of this fall's campaign were laid by the Republican leaders.

Rowan County's official family, with the exception of the sheriff is made up of Republican office holders.

Marked activity is being shown in both Republican and Democratic ranks. Both sides are making their plans for the coming year. One of the principal aims of both sides is to have their full strength registered in time to vote in the general election.

At the start of registrations, the Democratic Party held an advantage of 814. This has been whittled but little during the last two weeks, but it is generally expected that the G. O. P.'s have more unregistered party affiliates than do the Democrats.

Following the Morehead band will be approximately 4,000 Rowan County school children carrying banners, singing school songs and giving school yell.

Interspersed throughout the parade will be school and merchant floats to complete a varied and interesting spectacle.

Perhaps no county the size of Rowan is able each year to place as many persons in a parade as there is at the School and Agricultural Fair. Fully 98 per cent of the children in this county are present.

Prizes of \$2.25, \$1.50 and \$1.75 will be awarded for the most original banner in the parade. The school that has the most children in the parade, based on census, will be awarded \$4.00; second \$3.00 and third \$1.00.

Other prizes in the parade are: Best discipline, \$2, \$1, \$1.50; Best school float, \$3, \$3, \$3; Best marching band, \$5, \$3, \$2; Best band float, \$5, \$3, \$2; Best display of school colors, \$2, \$1, \$1.50.

Two Skeletons Are Found This Week

Bones of Men Believed To Have Died During War Unearthed

Discovery of two human skeletons in a shallow grave in the basement of the Farmers Tobacco Warehouse at Mt. Sterling was made public today by Alvin Patterson, one of the owners of the warehouse.

Patterson said that he was hunting for tobacco sticks in the basement of the building yesterday when he came upon a human skull protruding from the earth. He called an employe, Howard Martin, and the two men began digging around the skull and soon had unearthed the two skeletons.

Both had been buried in the same grave, which apparently had been dug hastily, at a depth of about two feet.

It is believed that the skeletons are those of soldiers killed during the War Between The States or possibly of victims of cholera or smallpox epidemic which raged in Eastern Kentucky shortly before the beginning of the war.

The shooting was alleged to have been the aftermath of the winning of one of McIntosh's sons, Billie, 13, by Engle.

Telephone Service To Be Off Tonight

Company Is Moving Its Exchange Into New Building

The Ashland Home Telephone Company's telephone exchange in Morehead system, announced this morning that they would be changing switchboards and other equipment from its present location in the Maggard Building to the Caudill Building on Main Street and Carey Avenue at 9:30 tonight (Thursday). This means that telephone service will be discontinued during most of the night.

It had been planned to move the exchange Monday, but it was necessary to postpone it until tonight in order to facilitate the change as rapidly as possible.

The Morehead fire alarm is operated on the same exchange. In case of the tonight's change, it will be necessary that the alarm be turned in from the City Hall.

When the company has moved into its new quarters, they will have more ample space for the exchange and safely from the street in position to render better service.

Irate Man Slays Teacher In Perry

Enraged Father Shoots Principal Twice At Close Range

Jerry Engle, 30, Perry county rural graded school teacher was killed in the shooting yesterday afternoon at his school at Vico, allegedly by Steve McIntosh, a former Perry county deputy sheriff who was taken into custody by Deputy Sheriff Ambrose Deaton and brought to Hazard where he was lodged in the county jail.

The shooting was alleged to have been the aftermath of the winning of one of McIntosh's sons, Billie, 13, by Engle.

Because of the high feeling as a result of the shooting, McIntosh was moved from the Perry county jail to Winchester for safe-keeping.

Four witnesses to the shooting, who were working on a PWA project to divert a stream from the school lawn, were talking to Engle a few minutes after he had completed his lunch. Two of the men, Boone Smith and Lee Terry, in the view of the shooting, asserted that Engle was talking to them when McIntosh came up to him and called out to him.

When McIntosh and the teacher were about 10 feet away they heard McIntosh command his son to pull up his sleeve and McIntosh, the witnesses said, told the teacher to "look here, see where you whipped my boy."

The men said that McIntosh then jerked a 32 caliber revolver from his trouser pocket and fired twice, once on each side of the ground near Engle's feet, the second shot striking him in the back.

McIntosh then bent over the teacher, who was lying on the ground, pressed the revolver against his neck and uttered the trigger again, they said.

"You'll not whip anyone else's child," he yelled, "I'll whip you as saying as he left the scene. He was later arrested at his home near Vico.

The shooting near the scene of the mountain. The other two witnesses were Earl Smith and Everett Smith.

Morehead Woman's Club To Organize

The initial meeting of the year of the Morehead Woman's Club will be held Saturday afternoon, October 2, at 1 o'clock in the parlors of the Methodist church.

2 Morehead Banks Add Penalty On 'NSF' Checks

An added charge of 25 cents for every check returned because the person who issued it did not have sufficient funds in the bank will be made by the Peoples Bank of Morehead and the Citizens Bank on and after Monday, October 4. This announcement was made today by heads of both institutions.

In addition a minimum charge of 5 cents a day, plus interest that is not carried for on or at their maturity day.

Morehead Band To Lead Parade Here For Fair Opening

Miss Linda Lee Eaton, Pert And Attractive Drum Major - First In Line

PRIZE OFFERED FOR BEST MERCHANT FLOAT

More Than 4,000 School Children Expected For March

Miss Linda Lee Eaton, attractive and nattily-attired drum major of the Morehead State Teachers College will lead the parade at the 7th annual Rowan County School and Agricultural Fair which opens Friday morning, October 8.

Miss Eaton will wield her baton for the band which is coached by Professor Marvin Lee George.

Following the Morehead band will be approximately 4,000 Rowan County school children carrying banners, singing school songs and giving school yell.

Interspersed throughout the parade will be school and merchant floats to complete a varied and interesting spectacle.

Perhaps no county the size of Rowan is able each year to place as many persons in a parade as there is at the School and Agricultural Fair. Fully 98 per cent of the children in this county are present.

Prizes of \$2.25, \$1.50 and \$1.75 will be awarded for the most original banner in the parade. The school that has the most children in the parade, based on census, will be awarded \$4.00; second \$3.00 and third \$1.00.

Other prizes in the parade are: Best discipline, \$2, \$1, \$1.50; Best school float, \$3, \$3, \$3; Best marching band, \$5, \$3, \$2; Best band float, \$5, \$3, \$2; Best display of school colors, \$2, \$1, \$1.50.

Funeral Rites For Crash Victim Held

Funeral services were held at 10 o'clock yesterday morning for the late Mrs. Frank Pettit of near Morehead. Burial was made at Haldeman.

James was driving a truck near Montgomery, W. Va., when it was struck by a train. He and 6 other persons were killed in one of West Virginia's major tragedies. A two-year-old baby was thrown from the truck and is still living although both its arms were broken.

Mr. James is a native of Rowan County, but had been teaching school in West Virginia. He survived by his wife and one daughter, who was in the car.

NEW RING DESIGN IS ADOPTED AT COLLEGE

A new ring and pin has been adopted by the Morehead State Teachers College and has been selected as the new official standard. The design incorporates the college seal, degree and date, and is a new and attractive form of Engle. The contract for the making of the rings and pins are on display in the college book store in the Administration Building.

Dry Verdict Seen In Local Option Election Saturday

More than 500 voters are expected to go to the polls in Hayes precinct number 16 and Haldeman precinct number 8 Saturday to cast ballots in local option elections.

The local option vote is the result of an order issued by County Judge Charles E. Jennings following the filing of petitions signed by 25 percent or more of the registered voters in these precincts.

Most activity has been shown by the dries, indicating that the vote rendered in Hayes last year at a county-wide local option election may be reversed.

Haldeman, on the basis of the vote cast last December and the fact that it is being made by the dry forces is almost certain to go into the dry column.

Rowan County will set a precedent in this Saturday's election. It is the first county in Kentucky that will have a precinct local option vote, following a county-wide balloting on liquor. The county, which has cast a 404 majority for the wets last year, will have a precinct local option vote.

October Term Will Convene Monday Morning With D. B. Caudill On bench

Although the docket for the October Term of Rowan Circuit Court which convene Monday with Judge D. B. Caudill on the bench is light, there are a number of cases which no dates for trial have been assigned.

Among this group are: Ray Gibson, child desertion; Orville Fouch, larceny and wounding; Sheriff H. F. Harris, judge; Luther Stinson, clerk. Hayes precinct, number 8. Frayley, judge; Harlan Turner, clerk; John Keagley, sheriff; Kendall, judge.

Attorney General, in a written opinion to Judge Jennings, set out that it was legal to call local option elections by precincts, and that it was the duty of the County Judge call these elections. The proper petition was placed before him in open court.

At last year's wet and dry vote the precincts voted as follows: Haldeman ..... 130 81 Hayes ..... 59 73

The question on the ballot Saturday will be stated as follows: Are you in favor of adopting the local option law that is rejected in either of the two precincts numbered 16, Rowan County, Kentucky, which are now in the wet column?

Following the question are two voting squares, designated "yes" and "no." A vote yes means to support the local option law or is a dry vote. A ballot "no" means to keep the present law, or is a wet vote.

Should either or both of the precincts vote dry, the local option law will take effect within 60 days and will continue for 3 years. If local option is rejected in either or both of the precincts another run vote may not be called for 3 years.

FDR Says Budget Will Be Balanced

Economy Move Stressed By Chief Executive In Speech In Oregon

President Roosevelt said yesterday that he expected a balanced budget by the next fiscal year, which begins July 1, 1938.

He made this remark almost casually in an address before a pressed butler, which was the first production of power from auxiliary equipment of the still incomplete \$31,000,000 Bonneville dam project on the Columbia river in Oregon.

Miss Pratt Heads Christian Endeavor

The Christian Endeavor Society of the Christian church this week elected for the next fiscal year, work. Frances Peratt was elected president. Robert Humphrey, vice president and Billy Black, secretary-treasurer.

Marion Louise Oppenheimer, Helen Crozier and Frank Miller were elected to preside at times at the piano. Mrs. C. E. Nickell is the sponsor of the work this fall. A large attendance was present for the first meeting.

ALLIE YOUNG, JR. IS VICTOR IN CRASH SUIT

A damage suit was brought by Clarence Rierdon, of Wisconsin, against Allie Young, Jr., and a counter claim brought by Young against Rierdon, was heard at the quarterly term of Rowan County Court Monday. The jury returned a verdict for Young in the amount of \$1,000. Rierdon was found guilty of contributory negligence. No damages were allowed either claimant.

PACKAGE THROWN AT PRESIDENT ROOSEVELT

Secret service men knocked aside a package thrown at the automobile carrying President Roosevelt and his party when it passed through Hood River, Ore., yesterday.

Examination of the package disclosed a hand-embroidered handkerchief and flowers, was intended as a present for Mrs. Roosevelt, said an unidentified elderly woman who threw it.

FARMERS PIE SUPPER

A pie supper will be given at the Farmers' contest at the School Saturday evening, October 2, 7:30. The public is cordially invited.

**THE STORY TIES FAR:**  
 Captain Willie O'Shea has compelled his estranged wife, Katie, to leave the great Irish leader, Charles Stewart Parnell, to her Eltham home for dinner, so forward his political ambitions. Her letters of invitation unanswered, Katie manages to meet Parnell at the House of Commons and learns that he had seen her and had been struck by her at the opera a week before. He accepts her invitation, but an urgent message recalls him to London just as dinner starts. Learning she and O'Shea are living apart, he declares his love for her and asks her to believe in him, not in the story the next day's paper will carry, charging him with responsibility for the Phoenix Park murders in Dublin. Katie receives a telegram from Parnell's secretary saying that Parnell is ill in London. Katie makes her decision—he is ill and needs her; she will go to him.

**CHAPTER SIX**  
**CONVALESCENT AT ELTHAM**  
 Campbell, Parnell's secretary, was walking nervously back and forth in the sitting room of the Irish leader's lodgings, when the door opened and Katie O'Shea, her white party dress with the roses at her breast revealed by the open cape she wore, entered. The secretary cried her name in surprise.

"How is he?" she asked tremulously.

"The doctor's with him now. I sent for him. I should apologize—Mr. Parnell did not know I wired you as I did. He told me to say he was 'delayed.' What I hoped you'd do was to wire back to say he shouldn't come. He needs a rest so badly. The trip to Ireland, his strenuous work there, exhausted him."

The doctor came out of Parnell's bed room and Katie repeated to him her question to the secretary.

**DRIVE UP TO THE BROWN THIS WEEK-END!**

HERE'S AN IDEA for a little vacation which will cost you almost nothing and will pay you handsomely in fun, amusement and greater rest! Start in time to get here for dinner and suppering in the Bluegrass Room—the smartest, gayest spot in this part of the country! Then a good sleep—(how about breakfast in bed?)—a lazy Sunday morning and a leisurely drive home. It will put new life into you for weeks! Try it!

**THE BROWN HOTEL**  
 "Louisville's Largest and Finest"  
 Harold E. Harter, Manager

and helper, had watched him regain his health, helped in the preparation for his trial before the House committee. She shut her ears to the gossip. Her sister Clara, however, was not able to do that, seeking distraction and companionship outside the house. Even in church on Sundays, she was conscious of the sly glances cast her way, of the whisperings. On this particular Sunday she broke out fretfully to Aunt Ben as soon as they entered the house.

"I say it's a scandal! Four months now he's been living in this house. I can't think what Willie's doing to allow it!"

"Can't you?" He's waiting to see which way the cat's going to jump. If the commission's findings should not be favorable to Mr. Farnell, Willie will be as outraged as you are. If he should be vindicated, Willie will be the first to boast of having sheltered Parnell when he was sick with the world against him.

"To come at it with your own wife's carryings on?" cried Clara.

"Why shouldn't Katie have a guest in the house? I'm enough of a respectable chap and an alarming enough, so—ye-ou'll find out, if you don't keep that sill-

ness that. What did you come for?"

"When are you leaving here?"

"Leaving?" queried Farnell in surprise. "I hadn't thought of leaving."

"You must."

"And since when do you give me orders?" frowned Parnell.

"It isn't orders. It's a warning."

"I've never taken that from anybody either."

"You never needed it before."

Farnell stood up, furious. "Michael, from anyone but you—"

"I know. That's why I'm here. Because I'm the only one who'd dare. But if I see you walking in long grass where there are snakes, I've got to warn you."

"What do you mean, Michael?"

"O'Shea isn't one of us. And you can't afford to be having truck with him. We're in a tight corner. Everyone's eyes are on us. We've got to stand together and make no mistakes. Willie O'Shea sits with the Conservatives—makes fun of the Irish. Not one in the Party has any say for him. And you're living in his house."

"Where I live, Michael, is my business—and mine alone."

"Very well," shrugged Davitt. "I've said what I came to say. I'll be getting back to town."

**PROGRAM PROVIDES FOR MORE BUTLEY**

The 1938 Agricultural Conservation Program provides for a larger acreage of burley tobacco and for somewhat less dark tobacco, it is announced from the College of Agriculture at Lexington.

For burley tobacco, the national goal is set at 480,000 to 500,000 acres, and for fire-cured and dark air-cured at 170,000 to 180,000 acres.

The program for next year, while similar to this year's program, sets national, state, county and farm goals for soil-depleting crops and for soil-building crops. Provision is made for crop acreages that are usually required to meet national needs for consumption and for export.

The national goal for each crop will be broken down into state, county and individual farm goals, so that each farm will have soil-depleting goals and goals for soil-conserving crops and practices.

Each farmer will know at the beginning of the year what his acreages are, and what his maximum payment will be. Thus he can plan his year's operation well in advance, it is stated. Payment will be made for keeping within soil-depleting crop goals and for attaining soil-building goals.

**HONEY MAKES MONEY IN LETCHER COUNTY**

A ton and a quarter of honey from 48 stives, is the record made this year by Lawrence King of Letcher county, according to Boyd E. Wheeler, County Agent. The exact amount he took from his bees is 2,597 pounds, for which he already has been offered 25 cents a pound. One hive produced 243 pounds.

Several Letcher county bee owners have done well this year, says Mr. Wheeler. Many hives produced 100 to 150 pounds each, and bees are adding to the income on many farms.

**KENTUCKY FARM NEWS**

Francis Pligg, a Madison county farmer, reports good profits from fattening hogs on distillery slop. Fifteen head averaging 190 pounds were sold in August, 12 of them bringing \$13.10 and three of them \$12.80 per hundred pounds.

Marion business men visited the strawberry patches of 18 Crittenden county high school boys, whose projects, they are sponsoring. They found all well cared for, in thrifty condition and promising a good crop next season.

Twelve meetings were held by Yandall Wrather, Morgan county agricultural agent, to encourage

farmers to sow cover crops. Two thousand pounds of crimson clover seed will be used in the county, and several other cover crops sown.

With a crop estimated at 10,000 bushels on hand, Graves county apple growers are endeavoring to store a part of the crop for future delivery. Present prices are not satisfactory. Orchards of both apple and peach trees will be set next spring.

Through 100 per cent cooperation of the fiscal court and the Agricultural Conservation program committee, 4,000 acres of grass and legumes were sowed in Perry county this year, according to County Agent Milton Grace.

Milt Kitchen of Lawrence county has completed two units of laying houses and has one of the best modern poultry plants in Eastern Kentucky. When his flock is culled, he will have about 500 good laying hens and pullets.

**COLLEGE COOK GIVES APPLE BUTTER RECIPE**

Florence Inlay and Pearl Haak.

Consecutive No. 000

NAME .....

Residence of Voter .....

Reg. No. ....

home economics field agents of the Kentucky College of Agriculture, in their circular called "Fellas, Jarris, Preserves and Marmalades," offer the following recipe for making apple butter:

Use 7 pounds of good cooking apples, or 20 or 21 medium sized apples; 2½ cups of sugar; 4 quarts of cider; one teaspoon of ground allspice; 1½ tablespoons of ground cinnamon and one teaspoon of ground cloves.

Wash and slice the apples. Add the cider and cook until the apples are very tender. Press the fruit through a sieve to remove the skins and seeds. Add the sugar and spice to the pulp and cook the mixture until thick and clear, stirring frequently to prevent burning. Pour into sterilized jars and when cool cover with paraffin. Store in a cool place.

"The prayer that reforms the stinner and heals the sick is an absolute faith that all things are possible to God—a spiritual understanding of Him, an unselfed love."—Mary Baker Eddy.

**OFFICIAL LOCAL OPTION BALLOT**

Hayes Precinct, Number 16

Rowan County, Kentucky

Are you in favor of adopting the Local Option Law in Haldeman Precinct, Number 8, Hayes Precinct, Number 16, Rowan County, Kentucky

YES

NO

I, C. V. ALFREY, Clerk of the Rowan County Court, do hereby certify that the foregoing is a true and correct facsimile of the local option ballot to be voted on Haldeman precinct number 8 and Hayes precinct number 16 on Saturday, October 2, 1937.

C. V. ALFREY  
 Clerk of Rowan County

**Recording...**

Every week recording the happenings, the business, the interesting and constructive features of a live and growing community. Breathing the life of progress and typifying the work and thoughts of the people it serves. That, briefly is the goal that the Independent has achieved.

**Printing**

There is nothing that speaks more forcibly than printed words which have that degree of neatness and stability found in fine printing. The Independent Publishing Company has a complete job printing department where every form of fine industrial printing is done.

FLOOD DAMAGE GREAT TO STATE FAIR GROUNDS

Some idea of the tremendous damage done by the Kentucky State Fair grounds by the January flood is given by a report of the Works Progress Administration, which shows that more than 1,000,000 feet of lumber were used in beautifying the buildings.

U. S. IMPORTS OF FRENCH WINE MUCH LOWER IN JULY

Exports of alcoholic beverages to the United States from the Bordeaux consular district of France, during the first 24 days of July this year amounted to 40,758 gallons valued at approximately \$147,000 as compared to 113,929 gallons valued at \$485,644 during the corresponding period of 1936.

CANDY SALES SHOW GOOD GAIN IN SUMMER MONTHS

Sales of confectionery and competitive chocolate products during the May-July summer season of the current year totaled \$45,664,336 compared with \$40,811,313 in the corresponding period of 1936, an increase of 12 per cent.

TOY SYMPONY TO PLAY AT TREASURE ISLAND

Tiny tots will turn on terrific tunes with toy-size tubas at the Treasure Island Fair in 1938. The "biggest little orchestra" in the world—the Kansas City Toy Symphony, will play its breath-taking concert for the World's Fair on Gate International Exposition.

GETTING READY FOR NEXT YEAR

Gardening for 1937 is over, for there remains only the sowing of autumn greens and turnips for the winter. These should be put in every spot that becomes vacant by vegetables harvested, even to the garden completely, for they serve as winter cover.

ORIENTAL PLANT REPELS INSECTS

Each summer thousands of gardeners grow the beautiful painted or Persian daisy, Pyrethrum. Few realize that the yellow, flat-topped one of the most effective agents known for repelling and

killing insects. For centuries the flowers were used in the Orient for this purpose. Pyrethrum is perhaps unique among insect destroying plants in that it is harmless to man. This is due to an unexplained property of pyrethrum which destroys the nerve tissues of the insects but leaves no harmful residue on the animals. For this reason pyrethrum sprays and pastes are recommended by the United States Department of Agriculture for use on food crops, where poisonous insecticides, such as lead arsenate and Paris green, would be dangerous.

Pyrethrum is a versatile insecticide. It acts on the nervous system, killing both leaf-eating and sucking insects. It also acts as a powerful repellent. Potato beetles will starve rather than eat potato foliage which has recently been sprayed with pyrethrum insecticide. Its repellent action makes it a valuable constituent of sprays for protection of plants from flies, mosquitoes and its pets, it is used as the active base of nearly all modern household insecticides.

Most of what is known about this extraordinary plant has been discovered by research in the past ten years. Today with its manufacture into insecticides a growing industry in this country, supplies the United States with more than 2,000,000 pounds in 1936. Pyrethrum fields in those countries supply the United States with more than 15,000,000 pounds in 1935.

GLASS HOUSE LAST IN PRIVACY

The people who live in the glass house recently awarded first prize for dwellings costing less than \$12,000 in the nation-wide community glass institute don't have any curtains on their windows. They don't need any.

THE FARM AND HOME

Avoid inhaling the dusts when treating seed grains to control smuts. Treat the seed outdoors if possible or if indoors ventilate so that wind will carry away the operator. It is also advisable to wear a cloth over the nose and mouth. Treated grain is not fit for milling or for stock feed.

EDGAR A. GUEST TELLS SECRET OF SUCCESS

People marvel at the success attained by Edgar Albert Guest, forty years a newspaperman and long a poet, for his success in his refreshing and inspiring verse. At the first place, a newspaperman is not supposed to have the passion for a magazine as a newspaperman. Guest's poetry for a generation, secondly, a newspaperman is not supposed to write poetry anyway.

WILL CLOSE NINE CCC CAMPS IN KENTUCKY

Nine of the 42 CCC camps in Kentucky will be discontinued as of October 1, the organization announced today. Camps to be discontinued are situated near London, Frenchburg, Cumberland, Evans, Buckhorn, Clinton, Madisonville, Mammoth cave (No. 1) and Corbin.

STATE WOULD TAX TOBACCO SOLD IN KY. C. C. CAMPS

Kentucky claims the power to tax tobacco sold in Civilian Conservation Corps camps while camp officials refuse to recognize the claim. Clyde Reeves, director of research for the department of revenue, said today.

### Morehead High To Make Strong Drive For Active P.-T. A.

#### Pie Supper Is Success At School; Product Map Being Made

Believing that the success of the school depends upon the proper home and school relationships, the Morehead City School is inviting its parents to meet with the school faculty Thursday evening at 7:30 p. m. at the City School Building for the purpose of organizing a Parent-Teacher Association.

In becoming a member of the Parent-Teacher Association one joins the ranks of between one and two million people organized in a similar way for the betterment of the child of America. The movement started in 1897 and has gained rapidly ever since.

When the National Congress of Parent-Teachers were organized the charter stated that "The objects of this organization shall be to promote conference among parents and teachers upon questions vital to the welfare of their children."

The Congress from time to time has placed emphasis upon the different phases of the home, school and community life as they relate to the welfare of children and youth.

So in order to bring closer relations between the teacher and parents of the Morehead City School, to try to cooperate intelligently in training these children, we set aside this night for organization.

There will be round table discussion and short talks on "What is a Parent-Teacher Organization?" Refreshments will be served at the close of the evening by the faculty in the new Home Economic Department.

The pie supper of the Morehead School Gym was a pronounced success. The net proceeds ran around \$85.

The auctioneer and master of ceremonies Mr. Earl May and Wood Hinton are the best. The ugliest man contest was won by "Peggy" Holbrook.

**Grade 1B**  
Billie Stewart, DeForest has moved to Mann, W. Va.

Ray Watson, of Haldeman, has enrolled in Grade 1B.

Tom Branham has been out of school several days on account of a broken arm which he received when he fell through a bridge.

The Fifth Grade, taught by Miss Wynona Jennings, has been very busy making a project map of the United States, a map of Rowan County and a number of silhouettes for the Fair.

Each day a courtesy lesson is taught, and as a result the children are learning to be very polite. Dale Howard received the highest grade today.

We are now working on a health unit. Each child is making a health booklet.

A dramatization story is being worked up by the Fifth Grade entitled, "The Magic of Good Speech."

### Dick Powell Star In College Show

#### Fred Waring Has Good Role In "Varsity Show"

"Varsity Show," a musical comedy arising altogether new lines, and possessed of a sparkling cast will be at the College Theatre Friday when it is presented by Walter Brothers and their comedienne. A star individual—Dick Powell—and a star organization—Fred Waring and his Pennsylvanians—are the top-liners in this melodious, laughable, fast-paced take of college life as the movie-all college boys and girls who take it as it—and as, doubtless, were.

It is the tale of how the undergraduates of a little fresh-water educational institution try to put on a show under the supervision of a dignified goody professor, only to realize that he's ruining it with his highbrow notions. Then they go on the city and dig up Dick Powell, a graduate, who by now is a successful Broadway producer, and induce him to come back to the school and supervise a real show. Dick and his partner—none other than the jobless Fred Healy—take over the job. And after many a battle between the modern and old-fogy elements in the school, a show is put on and what a show!

Maybe you can imagine Fred Waring himself and all his bandmen, some 50-odd, at college students and the negro pair Buck and Bubbles as singing and dancing juniors of the school. "Varsity Show" is a refreshing relief, in its story, from the well-worn "back-stage" routine into which many musical comedies have been kept. There is a bit of briskness and youth and gaiety to it rarely found in movie-musicals.

Rosemary Lane, lovely to look at, is Dick Powell's romantic fem-

### Service and Dominion

WHEN Christ Jesus, the Way-shower, declared to his amazing disciples (Luke 22:27), "I am among you as he that serveth," he revealed the essential relationship between service and dominion. Service, on the part of one universally acknowledged to be master, would seem anomalous did not spiritual understanding discern their inseparable nature.

According to the first chapter of Genesis, man, in the image and likeness of God, has dominion—even over all the earth. This declaration of truth, however, remains but an abstract statement until proved by demonstration. In demonstration it soon becomes apparent that the greater the service rendered, and the greater our understanding of the spiritual nature of right service, the more essentially do we grow out of spiritual dominion.

When Roger Phillips, Livingston county farmer, last December paid \$138 for 3 yearling ewes and a ram, he was not certain he had made a good move. He did not know that returns from lambs and wool the first year would more than pay for the original investment. County Agent Robert L. Rudolph reports that Phillips saved 37 lambs, 22 of which he sold for \$29.15. He also sheared 144 pounds of wool which brought \$80.40, making the income from 1937 show a steady increase of \$151.55 more than he paid for the flock last December. And Phillips has his original flock left and five lambs besides.

### GREAT GAIN IN FOREIGN SALES OF U. S. IMPLEMENTS

Foreign sales of farm equipment from the United States during the month of July reached the highest peak since the early part of 1931, being valued at \$7,182,000, an increase of 100 per cent over the \$3,819,842 exported during June of last year.

Exports for the first six months of 1937 show a steady increase of 62 per cent over the corresponding period of last year.

### Vina Delmar Story Scheduled At Zozy

#### "Make Way For Tomorrow" Title Of Cinema Hit

The presence of so many stage stars in the cast of "Make Way For Tomorrow," the Vina Delmar story of American family life which comes to the Zozy Theatre this evening, has attracted the attention of "shooting" schedules and made it necessary for the picture to be staged in a logical sequence instead of in "takes," which is the regular procedure.

Stage stars, it was pointed out by Lee Murrey, who produced the picture, care used to acting in logical sequences and movie work often disrupts their trains of thought since the scenes are made to fit production schedules. To guard against any such difficulty, Murrey ordered the story filmed as if it were a stage production.

The stage stars in "Make Way For Tomorrow" include Victoria Moore, Bethel Bond, Fay Bainter, Maurice Moscovitch, Thomas Mitchell, Powell Gray, and supporting players as Minnie Gansel, Elizabeth Rindon, Louise Beach and Ray Mayer. Barbara Read, the charming girl who Deanna Durbin in "Three Smart Girls" plays the ingenu role in "Make Way For Tomorrow."

### EXPERT PREDICTS ALL-AMERICANS IN ADVANCE

The outstanding football teams of the 1937 pigskin parade will be Walter Brothers and Fordham in the East, Minnesota and Notre Dame in the Middle West, Tennessee and Louisiana State in the Southeast, and Texas A. & M. and Arkansas in the South West, Colorado U. and Utah U. in the Rocky Mountain section, California and Washington on the Pacific Coast.

These and other predictions of what is going to happen on the gridiron in the next few weeks are made in the current Saturday Evening Post by Francis Wallace who admits frankly "if a new one out on the edge of the highest limb of the tallest tree."

Wallace risks his limb and reputation by listing his candidates for fame on the leading eleven in the country. He even goes so far out on the limb as to name twenty-two players who will be the outstanding stars of 1937. "The best back of the year will be Clint Frank of Yale, that the graduation of Larry Kelley will only give him (Frank) a greater chance to stand on his own feet."

Making a survey of the sophomores due to win their way into football's Hall of Fame, Wallace singles out Marty Christiansen, a backfield man of Minnesota, as "our four-star special this year." Joe De Franco, Notre Dame guard is picked to be "the best offensive lineman." Wallace takes up the prospects of scores of teams and hundreds of players. He also analyzes the chances of some of the dark horses. He figures the surprise packages will be in Boston College

# Federal Reserve Board More Lax In Discount Rules

## Broader Lending Powers Result From Nation's Increased Prosperity

The Federal Reserve Board this week broadened its discount and loan rules to facilitate bank lending to finance increased business activity.

The board revised its "Regulation A" governing loans from the Reserve System to member banks in accordance with the Banking Act of 1935, saying business improvement indicated the broader lending powers conferred by that act would soon be needed.

Although characterizing the revised rule as an "appropriate response" to the recent credit-easing reduction of discount rates, officials said flatly the action had nothing to do with recent stock market disturbances.

They explained the 1935 act opened up to all of the "good assets" of a bank the opportunity of being utilized as collateral for loans from the Reserve System. Prior to 1932, when emergency exceptions were made, only the best commercial paper of not more than ninety days maturity and more than nine months was eligible for discount at Reserve banks.

The revised regulation and the 1935 act do two things. They expand the eligible list for discounts

and create permanently a new type of reserve loan called "advances." The rate on advances is fixed by law at one-half of 1 per cent above the discount rate. The board added to the discount list large amounts of paper from commission houses and finance companies, including some paper drawn to finance commercial installment sales. These and other eligible paper may be discounted by reserve banks at rates which they establish from time to time. Recently the New York district cut its discount rate to a world record low of 1 per cent. Most of the other eleven districts charge 1 1/2 per cent.

"Although all other 'good assets' are acceptable collateral for 'advances,' the board put on the preferred list for this type of loan the following: Securities eligible for investment by national banks, loans on stocks made under Federal Reserve rules, mortgages insured by the Federal Housing Administration, debentures and bonds of the Federal Home Loan Bank and under the Federal Farm Loan Act, obligations of the States and obligations drawn to finance real estate or installment sale of goods. The board said these preferences were intended to encourage 'safer banking practices.'

# U. S. Government Taxes Up Billion During Past Year

## Collections Aggregate More Than Four and One Half Billions In 1936

Better business conditions and higher taxes poured more than \$1,000,000,000 of additional revenue into Federal coffers during the last fiscal year. Analyzing internal revenue collections for the year ended June 30, the Treasury said today these increased \$1,132,866,000, or 32.2 per cent over the previous year. Collections aggregated \$4,653,195,000.

The report attributed the increase to "continued improvement in business, changed provisions and higher rates of tax on individual and corporate incomes and estates and the new levies upon payrolls." The latter were provided in the Social Security act. The Treasury reported Internal Revenue collections in Kentucky were \$110,551,611.99 for the 1937 fiscal year, or 2.38 per cent of all

A critical hour in the controversy over the Supreme Court. Senator Burton K. Wheeler, of Montana, leader of the opposition, is shown to be read Chief Justice Hughes' famous letter before the Senate Judiciary Committee. The hitherto unpublished facts behind this and Washington correspondents, Joseph Alsop and Turner Catledge, in the current Saturday Evening Post. They reveal for the first time that Police Frankfurter (inset), dean of the Brain Trust, opposed the President on the court bill.

collections in the Nation. Collections increased 15 per cent compared with last year, the 1936 total being \$95,773,903.54. The State paid \$44,024,436 in Federal liquor taxes, \$35,222,800 in cigarette manufacturing taxes, \$15,502,600 on income and 1,494,960 on payrolls.

Income taxes collected in Kentucky increased 44 per cent over last year the Treasury said. The 1936 total was \$10,750,679.

Income taxes from corporations for the 1937 fiscal year were \$9,209,324 as compared with \$9,197,198 for the previous year, and income taxes from individuals totaled \$6,203,273 compared with \$3,772,481 in the previous year.

Manufacturers' excise taxes totaled \$4,681,543. The 1-cent a gallon tax collected by the Federal Government on gasoline amounted to \$3,549,293, and a 4-cent tax on lubricating oils brought in \$475,539. The total liquor taxes collected consisted principally of domestic excise taxes, \$37,362,421; contain-er stamps, \$1,575,983; rectification, \$74,398; retail liquor dealers, \$63,977; fermented malt liquor taxes, \$4,817,121. Of total internal revenue collection, for the entire Nation, income taxes provided \$2,148,663,000. This revenue increased 52 per cent over the previous year, with the corporation income levy gaining 43 per cent and the tax on individual incomes 63 per cent. The great revenue gain from individuals, officials said, was due in part to operation of the 1936

revenue act, which imposed the surtax on undistributed corporate profits.

The tax tended to stimulate dividend distributions, increasing taxable income in the hands of security holders. In addition, individuals paid higher surtax rates on upper bracket incomes last year.

New York provided \$988,090,000 of all internal revenue collections or 21.24 per cent.

# NOTICE OF LOCAL OPTION ELECTION

## ROWAN COUNTY COURT REGULAR AUGUST TERM

AUGUST 2, 1937 Comes L. D. Kendall and Lacy Kregley, each produced and filed herein petitions showing more than 25 per cent of the resident citizens and legal voters in Haldeman Precinct, No. 8, and Hayes Precinct, No. 16, same being two precincts in Rowan County, Kentucky and make their written application and filed their petitions to the Hon. Charles E. Jennings, Judge of the Rowan County Court, and requests said Court to make and enter an order on the Order Book of the Rowan County Court, same being the first day of the Regular August Term, 1937, of said Court and to direct the Sheriff of Rowan County and all other officers whose duty it is by law to hold and conduct said election on Saturday, October 2, 1937, and to open a poll at each of said precincts and voting places, to-wit: Haldeman Precinct, No. 8,

and Hayes Precinct, No. 16, on said date of October 2, 1937, same being precincts in Rowan County, Kentucky, for the purpose of taking the sense of the legal voters of Rowan County residing in the aforesaid Haldeman and Hayes Precincts upon the proposition to show whether or not spirituous, vinous or malt liquors shall be sold, bartered or loaned, and these petitions are filed herein on behalf of the legal voters of said person so signing same, if any, if said name or names, are illegally signed to withdraw same. A Copy filed.

C. V. ALFREY Clerk, Rowan County Court Attend the Fair

# FARMERS STILL CAN EARN FULL 1937 ALLOWANCE

Kentucky farmers cooperating in the 1937 Agricultural Conservation Program are reminded that they still have time to earn their 1937 soil-building allowance.

It is pointed out that an allowance for improving non-crop open pasture land is included in the 1937 soil-building allowance for the farm. This pasture allowance can be earned by applying lime and superphosphate to pasture land prior to October 31, 1937.

Payment may also be earned for new seeding of permanent pasture such as bluegrass, clover, timothy and reedtop.

In addition to applying lime and superphosphate on permanent pasture, the soil-building allowance may be earned by making these applications in connection with fall seedings of bluegrass, clover, timothy, reedtop, and winter cover crops such as crimson clover, Austrian peas and vetch.

Payment will be made for applying not less than 1,000 pounds of ground limestone per acre at a rate ranging from \$1.50 per ton to \$2.50 per ton, varying according to locality and shipping costs. For applying not less than 100 pounds of 20 per cent superphosphate per acre on soil-conserving crops, payment will be made at the rate of 15 cents per 100 pounds.

# SWEETENED ALFALFA ENSILAGE FOR COWS

Cows at the W. H. Key Model Dairy Farm in Mason county will have sweetened alfalfa ensilage to eat this winter. Alfalfa was mowed little bit at a time, raised immediately, run through an ensilage cutter and sprayed with a solution of 20 pounds of blackstrap molasses and 50 gallons of water to the ton as it was chopped. A pressure sprayer was used to

put on the molasses solution. Mr. Key resorted to this method of handling alfalfa hay primarily because of the difficulty of getting alfalfa up without damage from rain. If the experiment is successful it will present a solution to the problem of curing alfalfa hay, where farmers are equipped to keep ensilage.

# DANGER OF THE MAIL'S FATAL FOR FEMALES

The post office department's new painting—"Dangers of the Mail"—appears on close inspection to be far tougher on females than on mail or males, writes Eddie Gilmore in a recent press dispatch from Washington.

For instance: The ladies' stagecoach journey has been interrupted by Indians. The ladies are being scalped.

They have lost their clothes. The males, on the other hand, are fighting. One is about to be stabbed in the back, but at least he's running. Another has just winged a tormentor.

As for the mail, why, it isn't even being touched.

The mural, painted by Frank Mechau, has gone up in one of the curving corridors above Postmaster General Farley's office and is supposed to depict the hardships of early mail deliveries.

It hadn't been up an hour before it became the center not only of a lot of attention but controversy. Puzzled postal workers

couldn't understand the ladies' lack of clothes and the Washington Star, attacking the mural editorially, couldn't understand it as art. A typewritten explanation glued to the wall near the mural says: "The ladies are justified by historical facts. The daughter of the governor of New Mexico and two friends were captured by Indians, later being rescued while herding sheep in a snowstorm completely unclotted."

It sounds a little bizarre, but critics grant the nude sheep herding might have happened. What trouble them is what became of the ladies' clothes.

They aren't lying around any place. And no pillaging squaws are present—Publishers Auxiliary.

Though crimson clover is a new crop to Magoffin county, farmers recently put in 75 acres.

A dilapidated garage was turned into a model laying house by Dr. Clark Bailey, Harlan county, and now 250 pullets are housed there.

### Wikings Will See Action Here Friday In Conference Go

#### Raceland Ramblers To Furnish Opposition To Morehead Eleven

The only Morehead football team that will be seen in action this week is Coach Roy Holbrook's Vikings who will combat the Raceland Ramblers in an Ekay Conference game at Jays Stadium Friday afternoon.

Both the Morehead College varsity and the Morehead Freshmen have open dates this week.

Although losing by 40 to 0 to Louisa there last Friday the chances of the Vikings making a good showing against Coach Edgar McCreb's boys are far from nil. That opening game taught the Green and White squad a whole lot about this pig-skin game.

Morehead has an inexperienced squad, in most respects, this season. In the opening game the team showed a willingness to battle, but since many of them were playing their first game they didn't know how to fight. Many of the glaring weaknesses, especially on defense, that outcropped in the Louisa match, are being ironed out this week by the club.

Raceland will be favored to defeat Morehead. The Ramblers, always a center in deciding Ekay football crowns, are back this year with a good team.

At any rate this ought to be a first-class high school football game.

The sale of season tickets to Morehead fans is above expectations, attesting to the interest and support that has been given the club, although they have been having some bad years in an athletic rebuilding program. This indicates that a good crowd will be better than the gatherings of last year, will see the team meet the Ramblers Friday.

### BOYS AND GIRLS TAKE BIG PART IN STATE FAIR

Exhibits and contests by boys and girls were features of the recent Kentucky State fair, with many prizes going to 4-H club members. Club exhibitors, following contests of their own, played important parts in the games, furnishing some of the best dairy cattle, sheep, hogs and poultry at the fair.

The 4-H club members also exhibited thousands of cans of vegetables, fruits, jams and jellies, and had displays of clothing, baked foods and house furnishings.

Ninety county teams took part in the 4-H club livestock judging contests, in which fat stock, dairy cattle and poultry were judged first.

A team of three girls from Simpson county outshone boys as judges of dairy animals, and Leuz Johnson, a member of the winning team, was the best individual.

### CONSTABLE SLAIN IN LETCHER COUNTY FRAY

Landy Bates, 26, Constable in District 3, Letcher County, died Sunday at the Sevo Hospital as a result of bullet wounds inflicted last night at a restaurant near Sandick.

Six persons were held in jail here in connection with the shooting. They are Harvey Addington, his wife and their two sons and a daughter, and Addington's brother, Dave Addington.

Twenty-five trench coils are under construction in Allen county.

### Eagles Have Open Date This Week

The Morehead College Eagles will rest this week and play in better condition for their next game, a S. I. A. A. and K. I. A. C. encounter at Georgetown October 9.

Several injuries, none of them serious, were sustained in the East Tennessee victory. Marvin Anderson, who made the opening line of 70 yards for a touchdown, was injured in the last quarter of the game. He is out of practice at present, but should be in shape for the Georgetown fracas.

### Teachers Appear Sluggish; Anderson Runs 70 Yards For Touchdown

Morehead College refrained from opening up its supply of grid tricks here Saturday afternoon for there was no occasion to unleash great power or strategy as the Eagles easily brushed East Tennessee Teachers aside 19 to 0.

With the exception of a few spurts the Eagles appeared sluggish. East Tennessee, although outlasting Morehead, furnished little opposition.

On the initial play from scrimmage Marvin Anderson, of Russell, went off tackle, took off three would-be tacklers and set for the most part, against the Teachers. With the aid of Stan Radjuna, who was in the line up throughout and functioning at top speed the Teachers made no headway in the line. The play of Stan Radjuna will probably earn a starting berth. Marzetti for the most part, against the Teachers made no headway in the line up throughout and functioning at top speed the Teachers made no headway in the line. The play of Stan Radjuna will probably earn a starting berth.

### Morehead Team Shows Inexperience In 40-0 Defeat

With the exception of the third quarter the Morehead Vikings failed to play the brand of ball expected of the team. The 40-0 decision, a 10-yard run and a touchdown, broke through to block Vinton's placement kick.

The next eight minutes was punting duel with Fair and Stanley of Morehead gaining the advantage in practically every play. With the ball on its own 22-yard line, Tennessee drew a 15-yard penalty with four minutes of the first half. Morehead's next play Fleming attempted to skirt his left end, fumbled, and the ball rolled into the hands of Captain Horton of Morehead. The placement kick again was blocked by Vandalingham.

### Morehead Rushed in an Almost New Game

In the second quarter Morehead rushed in an almost new game. The play of Stan Radjuna was about even, with neither threatening.

Robert Reynolds, who has been on the injured list, entered the game for the first time this year as the second half opened and was the factor in the Eagles' third touchdown. A long punt by Stanley set Tennessee back on its 9-yard line. Fleming's punt was advanced by Wyant to Tennessee's thirty-nine.

### On the first play Reynolds carried the ball this year he went off tackle for twelve yards.

In three more plays he was across the line. Morehead's fourth touchdown was scored by the "tough" job during the next eighteen minutes.

Booth is a leader in the New York drive to finance that city's world's fair in 1939.

### NEW YORK BANKER AIDS SAN FRANCISCO FAIR

Willis Booth, vice president of the Guaranty Trust Company of New York, is expected to have a rather "tough" job during the next eighteen months.

Booth is a leader in the New York drive to finance that city's world's fair in 1939.

But, Booth also is a loyal alumnus of the University of California and in the eagles' drive in a nationwide drive by the California Alumni Association to boost the West's own World's Fair in 1938.

### Answering to a letter from Robert Sibley, executive manager of the alumni association, Booth said he would do all in his power to promote the interests of the Gen. Gate International Exposition, and that he planned to visit the World's Fair on Treasure Island in San Francisco Bay in 1938.

### Booth is leaving New York on a tour of Europe where he will act as voluntary ambassador for San Francisco's Fair. In the meantime, New York fair's financial drive will have to get along without him.

### QUEST FOR LSTOWAYS FROM TAYLOR'S SHIP SUITE

They hauled two girls from under Robert Taylor's bed and held back hundreds of other admirers Sunday at New York dock as the motion picture actor sailed for Europe on the liner Berengaria.

Taylor, who said he liked delicate girls, said he was "not getting awfully tired of them," refused to see the girls who hid under the bed in his ship suite.

### Several autograph hunters had crawled through windows and over superstructure in an effort to get close to the actor.

One girl, after the actor greeted her with a handshake, promised to "never wash my hand."

### BULGARIAN ROSE OIL OUTPUT INCREASES

Notwithstanding Bulgaria's efforts to restrict rose acreage in order to bring production of rose oil in line with world requirements, the output of flowers and oil during the current year was consistently larger than in 1936.

The area planned to be planted during the past season was 15,250 acres or 850 acres less than in 1936, but due to increased weather conditions the yield of flower increased from 21 to 25 million pounds and the yield of oil from 4,870 to 6,370 pounds. Although France, the United States and the United Kingdom are the main buyers of Bulgaria's rose oil, a number of other countries are said to be entering the market.

### GOLD RUSH IS ON ON ISLE OF CYPRUS

### Reds In Cellar, Winding Up Season

The Reds are putting the finishing touches on their National League season this week. They were scheduled to meet the Cubs for four straight days starting Monday, then move from their home Crosley Field to Pittsburgh to wind up with four games in three days.

The season has been a disappointment because of the failure of the team to place higher in the final couple of weeks have meant the greatest encouragement of the year to the club's closest followers. The encouragement came when Frank McCormick and Harry Craft, both recalled from Syracuse, made splendid impressions.

### Cincinnati Moves To Pittsburgh For Four Games

Because of the showing these two men made it is very likely that they will land regular jobs on the 1938 team. McCormick, first base and Craft in centerfield, were the best of the year's best called from Syracuse, made splendid impressions.

Willis Booth, vice president of the Guaranty Trust Company of New York, is expected to have a rather "tough" job during the next eighteen months.

Booth is a leader in the New York drive to finance that city's world's fair in 1939.

But, Booth also is a loyal alumnus of the University of California and in the eagles' drive in a nationwide drive by the California Alumni Association to boost the West's own World's Fair in 1938.

### Answering to a letter from Robert Sibley, executive manager of the alumni association, Booth said he would do all in his power to promote the interests of the Gen. Gate International Exposition, and that he planned to visit the World's Fair on Treasure Island in San Francisco Bay in 1938.

### Booth is leaving New York on a tour of Europe where he will act as voluntary ambassador for San Francisco's Fair. In the meantime, New York fair's financial drive will have to get along without him.

### QUEST FOR LSTOWAYS FROM TAYLOR'S SHIP SUITE

They hauled two girls from under Robert Taylor's bed and held back hundreds of other admirers Sunday at New York dock as the motion picture actor sailed for Europe on the liner Berengaria.

Taylor, who said he liked delicate girls, said he was "not getting awfully tired of them," refused to see the girls who hid under the bed in his ship suite.

### Several autograph hunters had crawled through windows and over superstructure in an effort to get close to the actor.

One girl, after the actor greeted her with a handshake, promised to "never wash my hand."

### BULGARIAN ROSE OIL OUTPUT INCREASES

Notwithstanding Bulgaria's efforts to restrict rose acreage in order to bring production of rose oil in line with world requirements, the output of flowers and oil during the current year was consistently larger than in 1936.

The area planned to be planted during the past season was 15,250 acres or 850 acres less than in 1936, but due to increased weather conditions the yield of flower increased from 21 to 25 million pounds and the yield of oil from 4,870 to 6,370 pounds. Although France, the United States and the United Kingdom are the main buyers of Bulgaria's rose oil, a number of other countries are said to be entering the market.

### GOLD RUSH IS ON ON ISLE OF CYPRUS

### ENGINEER ACQUITTED OF 34 YEAR OLD MURDER CHARGES

Harvey Hardin, 44-year-old mining engineer, was given the Monday afternoon of his twenty-four years ago he slew James A. Watterson, 62, a wealthy timberman because of jealousy over a woman.

A jury, brought from adjoining Johnson county, was given the case Saturday afternoon and reported Monday morning its verdict of acquittal. The ancient brick courthouse in this isolated mountain village was crowded during the testimony last week.

### TANNERY MACHINERY BOUGHT BY FORD

A stationary, horizontal seven horse-machin and other equipment, forgotten for years, housed in the Fryer building in Vanceburg, Ky., will take its place beside Edison's laboratory and many displays of pioneer industries in Henry Ford's Museum at Dearborn, Mich.

The machine and equipment were purchased last week by Henry Ford and trucks from Dearborn have completed transferring the pioneer machine and equipment to the museum.

Judge A. M. Fryer established a tannery in the Fryer building in 1886. Years ago the business was abandoned but the equipment and furnishings were left intact. The age of the machine is not known. It was purchased by the Fryer family in 1886 from a Mr. Putney in Rome, Ohio, who had purchased it 50 years before from a Cincinnati firm, second-handed.

### TRUCK STRIKES CHILD; DRIVER SUFFERS MOST

The Driver of a truck which struck four-year-old child in Sharpshurg, last Wednesday suffering from a fractured skull.

THE PRICE

You have to pay the price for things you get on this old earth. Somebody started paying on the day that gave you birth. You need not try to evade it, or try and change the thought, for what we get is only what in some way we have bought. You say we have our blessings and of course, that means so much. Just to know that we are thought of, just to feel that Divine Touch. You say there is no price to that, but you have been defied. By one who on an erel cross, so bravely bled and died. Perhaps you haven't started, but my friend, sometime you'll pay. And I hope you'll have the reckoning day when there comes a reckoning day. Oh, I wish there were no heartaches, and I hope your cross is light. But it isn't up to me to say "The system is not right." I really think the fact that we must pay for what we get should make us think quite clearly before our hearts are set. Be sure that what you're buying is really worth the price. That the rare and sparkling diamond is not a lump of ice. And when you see a rainbow, or a sunset's radiant hue, Remember that someone has paid to bring that scene to you. And when the roses round your door, an odor sweet have brought, perhaps it's sweeter still because a friend of yours has thought. —Dorothy Filson Stewart

Over 130,000 Pounds Of Burley

(Continued from Page 1) if continued into the marketing season. But just what the connection should be has not been explained although of course, any great slash in stock values would have a tendency to move into tobacco market bidding. Farmers and others who follow the various marketing during the coming marketing season will get a good indication of the general run of the entire burley crop. This far there has been no great activity on the part of those persons who annually buy considerable tobacco in the barn before the markets open. This is partially due to two factors—farmers who sold before the market opened last year were sorry they did and want plenty for their crops this time, and those who do the
