Arrangement: Organized by sized; Arranged alphabetically by title of item.

Historical Information: The Office of Construction & Engineering at Morehead State University began as part of the duties and responsibilities assigned to the superintendent of building and grounds in 1931. Presently the office provides technical support to all Facilities Management departments at the University. The office is involved with new facility design and continuous improvement of existing facilities. It also manages and maintains the mechanical and electrical infrastructure of the campus, as well as managing the University's utilities and improvements for conservation and efficiency.

Scope and Content: Collection consists of reports, drawings, blueprints, master plans and artist renditions of a new residence hall, later named Andrews Hall, to be built on the campus of Morehead State University from 2010 to 2014. The collection includes renovation plans for Mignon Hall from 2013.

Subject Headings / Descriptors:

Morehead State University – History.
