1 gives us pleasure to see that ou Worthy friend, JASON CASE, Esq., Propri-etor of the Circleville (O.) WATCHNAN, has recently enlarged and beautified that sterling paper.

C→ A Daily paper has been commenc-ed at Kingston. Upper Canada, under the title of the Daily British Whig. A co-temporary quaintly remarks that we have e of the "same sort" in this country No doubt of it.

AERIAL RAILWAY .- Some Yankee ha ARRIAL RAILWAY.—Some Yankee has made application at Washington for a patent for a bulloon wire-way, or a sort of ærial rail-way, from New York to San Francisco, California. Is estimated cost is one million three hundred thousand dellar series of the source of the sour dollars; and, when completed, passengers can be transported from one point to the other in from two to five days. We have heard of "castles built in the

air," but this is the first attempt we have over known, made to build a rail-way in that clement. What next?

HORRIBLE .- A poor miner at Plymouth, England, got lost in one of the mines in that vicinity, and roamed about in the sub-terranean vaults for seven days and nights without food. When found, he was alwithout food. When found, he was al-most dead, but hopes were entertained of his recovery. This is what may be call-ed a *long fast*.

03- Some foreigners own no less that 20,000 acres of land each, in the State of Wisconsin. There must be land monop-oly there, with a vengeance.

oly there, with a vengeance. PICATVENSE.—They have two good prixing offices in Baaxia, Ohio, and yet the Audior of the county of Clermont goes to Cincinnati toga this blanks print-ed. The fellow deserves to be confied in the county jail for such illiberality, and fided no head and water only. Tell hims so, neighbor Leeds, and let him charge it to we account, if he withes active forcing. account, if he wishes satisfaction.

KENTUCKY ABOLITIONISTS .- Several cit izens of Kentucky have put forth an ap-peal to the Abolitionists of Ohio, calling on them for pecuniary aid, to help them in carrying out their schemes of Emancipa-tion. We notice that the Ripicy Bee copies the article in full. Nothing better could be expected from a paper published at the southern terminus of the "under ground railway."

Taylor's Inaugural The President elect delivered his In

augural address yesterday at 12 o'clock, and the same was received in Cincinnati before dinner, and published that after-

We, in connexion with the editor of the Eagle, had made arrangements to receive it here by the Morse line, about the same it here by the Morze line, about the same time; but after crossing the river and waiting three hours in Abordeon for the Lightning to begin to talk, it was *KongAt* by Ms. Cass, (who was present) that the *wires arere down* in some other place, ber-des errors *Merrier*, and we hourised hema to tell the boys, (who stool ready stick in hand by the side of *full* corest, the unwelcome news, that the Telegraph was out of order, and no Insugarel could be had before it would reach us through the Cincinnant papers.

Cincinnati papers. A boy on the boat informed us that the wires were down in two places, between Aberdeen and West Union, but those who manage the affairs here did not seem to

monage the stairs here did not seem to know anything about it. This, however, must have been a mis-take, as about the time our paper was go-ing to press last night, the Telegraph began to WRITE on the Inaugural, and we had the pleasure of receiving it all, before midnight, but too late for this morning's

aper. It will be issued in EXTRAS this morning at 8 o'ciock, from both offices, and sent round by the Carriers; and, as it is a very interesting document, and has been pro-cured at a heavy expense, expressly for the gratification of the readers of the two

papers, it is expected that every one who desires to read it, will have a *loose dime* at hand, and "fork it over," when called By the way, the Telegraph is not so

bad after all; and we have hopes that it will grow better hereafter.

Taylor's Cabinet

Taylor's Cabinet. Our Telegraphic dispatches of yester-day announced Gen. Taylor's cubinet ap-pointneouts, semi-officially. They are about as we expected — IV/ing. from be-ginning to end; and in this we have a striking exemplification of the folly of relying upon the declarations of whig office seekers before an election. But we are not discretized in this semily. We office seckers before an election. But we are not disappointed in this result. We looked for nothing batter, after we learn-ed that the old General had fairy "sur-uxxxxxxx" to the whig office seckers, and we desired nothing different, for the reason that we have no condinence in any Administration which is not purely Dem-

Administration which is not purely Dem-ceratic, and we prefer contending against one which is out and out *Federal*, to war-ring against a sort of magrel one. Whiggery is now fairly insulled in power, so far as the Executive and his cabinet are concerned, and we hope to see a clean seep maide. Whis Solitude Ewing at the head of the Post Office De-metrement, it is but to excident that hower Ewing at the head of the Post Office De-partment, it is but too evident that here will be a general deceptation of all the Democratic Post Masters in the country, and we have illuth hopo that any different course of conduct will be pursued by the Heads of other Departmens. Indeed, we feel confident that the guillotine will be speedily brought into requisition, for the purpose of behanding every one who has dared to raise a voice against the ele-vation of the "no party President." Let them commerce the onlarget as soon as vation of the "no party President." Let them commence the onslaught as soon as possible, and carry it to the outron ... xent. We care not how quick it be beg ... nor how sanguinary the work, it will only strengthen the strong arm of Democracy, and teach men calling themselves Demo-crass, to know what confidence is to be placed in whiggery, before an election, and to see the difference in the premises and practices of a Presidential candidate before and after obtaining power. Again, we say, let them make a clean secep!

The Telegraph.-Up go the wires

The Telegraph.— Up go the wires! Yesterday morning Saturn street was in considerable commotion, in conse-quence of the preparations which were making to re-extend the selegraph wires across the river. The busile vasi increas-ed by the presence of friend Cass, and the new Agent, Dr. Konnedy; so we have reason to believe that an *effort*, will now be made to accomplish the great feat, whether it prove successful or not. We shall know more about this to-morrow. The new Agent, Dr. Konned, so the may show some willingness to accommodate the public, not only in the matter of *ex-tending the wires*, but in the general busi-ness of the office also; for, up to this time, affinits have been most wretchedly man-aged, to SEAR FOR A VIENTE.—A lad
