CONTRIBUTED BY MERCHANTS... The Patrol Boys of Morehead Grade and High School proudly display their rainwear, contributed by 55 local merchants. Front, from left: Mrs. David Abner, Morehead Grade PTA Committee Member; Zane Collins, RCHS instructor; L. Ricky Dulin, Barry Reynolds, Ronnie Lewis and Paul Hays, Rear; Allen Scott, L. Wayne Wagener, Ray Wiley and Captain John Razor. School patrols like this have proved one of the best safeguards against students being struck by motor vehicles, and also speeds up traffic under controlled safety standards.

ASC Election Results In Rowan County Given

Results of the November 22, election of ASC community committees for the 5 communities of Rowan County were announced today by Delmer Padgett, Chairman, Rowan County Agricultural Substitution and Conservation Committee. The election was held by polling place method, and ballots were tabulated publicly by the ASC community election boards.

Farmers elected to the committees included: Delmore Cooper, Chairman, Willis Lee Pennington, Vice Chairman, Lowell Murray, Regular Member, Gordon Lewis, 1st. Alternate, and Ed- die Ray Martin, 2nd. Alternate. Clearfield - Raymond Murphy, Chairman, Melvin Snedley, Vice Chairman, Cecil Dickerson, Regular Member, Roscoe Jones, 1st. Alternate, and Frank Lewis, 2nd. Alternate.

Elliptown - Eugene Caudill, Chairman, Murvill Scagg, Vice Chairman, Will Williams, Regular Member, Marvin Johnson, 1st. Alternate, and J.E. Messer, 2nd. Alternate.

Farmers - Ted Moore, Chairman, Clayton Goldsboro, Vice Chairman, Felix Weiman, Regular Member, Charles Hogue, 1st. Alternate, and Robert Al- ley, 2nd. Alternate.

Pine Grove - Lonnie Sparks, Chairman, Delmar Anderson, Vice Chairman, Mill Pennington, Regular Member, Lab- erson, 1st. Alternate, and Harold Brown, 2nd. Alternate.

The ASC community committee chairman, vice chairman, and third regular member were automatically delegates to the county convention where the ASC county committee was elected. The county convention was held at the Rowan County ASCS Office, November 22, 1965, at 8:00 a.m.

The ASC County Committee named by the delegates and their terms of ser- vice are: Delmer Padgett, Chairman, 3

Detect Diabetes In Three Rowan School Children

Over 3,000 persons in Rowan County received free diabetes detection tests last week as part of a cooperative program sponsored by the Rowan County Health Department and the Rowan County Medical Society, the County Health Department, the St. Claire Hospital, and the schools of the county.

Virtually all school children received free tests for diabetes. At least three children were found to have true diabetes not known previously to their families or their doctors. Seven other children had suspicious diabetes tests but their final laboratory tests have not yet been completed.

Over 80 other persons had free diabetes tests either at their doctor's office, the St. Claire laboratory, or the Health Department. At least two of these persons were found to be diabetic. The full results of tests have not been reported yet.

Early detection of diabetes is extremely important. Without early de- tection and treatment, patients with diabetes will live 15-20 years less long than their neighbors without diabetes. Treatment for diabetes has progressed markedly since the discovery of insulin. The diabetic's life span has been in- creased by 10 years in the past 30 years. Proper medical care, good personal hygiene and diet and early treat- ment have brought this about.

Free diabetes tests are available each year during Diabetes Week from your family doctor or throughout the year from the local health department.

Everybody Gets In ...

Water continued to hold the Morehead, Rowan County, and Rowan County, Ky. legal counsel for the Rowan County Rural Water District, and also represents several other counties, probably including Bath.

Second Engineers have been employed by the county. Under a previously announced schedule the minimum rate would be \$6.30 for two thousand gallons on the county system. This graduates down with in- creased consumption.

All-Day Discussions
The area rural water meeting on the campus of MSC Tuesday will be an all-day, and a full-day-discussion. Noon lunch will be served.

State Commissioner of Agriculture Wendell P. Butler who is spearheading the Tuesday gathering at Morehead, along with six other rural water district meetings this month in all parts of Kentucky, said the discussions, and program, would center around:

Legal Question Presented
May said he did not know whether his election as Magistrate in November would force him to resign the present board chairmanship. This would also be a 'moot' question, requiring legal in- terpretation, and probably depending on whether the county, or Fiscal Court, is the sponsoring, or underwriting, agency of the rural water district.

Each County has also created a rural water district, and thinking is that Bath and Rowan could be served from one purification plant on Licking River, probably near Farmers or at Cave Run Reservoir.

The Rowan rural system has made it plain they want no further encroach- ment of the Morehead Municipal Plan- board outside the city limits. The Morehead system is presently selling water

Cold Checking On Increase In Rowan County

A Fleming County man, Mickey McGehee, was given six months in jail and fined \$100 after conviction by a Rowan Circuit Court for shooting and wounding with intent to kill.

The Commonwealth charged that McGehee shot Edsel Moore, also of Fleming County, following an argument. The incident happened at a drive-in restaurant on Ky. 32 near the Fleming County line. Eddie Ray Riddle was fined \$200 for hit and run driving.

Willie Pennington drew an 80-day jail sentence for damaging private (a home) property.

The grand jury returned a true bill against Elwood Whit for indecent ex- posure.

The court noted an unusual number of true bills for passing worthless checks. Morehead merchants, and banks, have also reported problems in the same respect.

About a third of the indictments brought by the grand jury were for leaving cold checks, and the number would be even greater except that many were paid off following the case being referred from the grand jury convened.

WATER ACT As Morehead Nears Crisis

Water continued to hold the Morehead, Rowan County, and Rowan County, Ky. legal counsel for the Rowan County Rural Water District, and also represents several other counties, probably including Bath.

Second Engineers have been employed by the county. Under a previously announced schedule the minimum rate would be \$6.30 for two thousand gallons on the county system. This graduates down with in- creased consumption.

All-Day Discussions
The area rural water meeting on the campus of MSC Tuesday will be an all-day, and a full-day-discussion. Noon lunch will be served.

State Commissioner of Agriculture Wendell P. Butler who is spearheading the Tuesday gathering at Morehead, along with six other rural water district meetings this month in all parts of Kentucky, said the discussions, and program, would center around:

Legal Question Presented
May said he did not know whether his election as Magistrate in November would force him to resign the present board chairmanship. This would also be a 'moot' question, requiring legal in- terpretation, and probably depending on whether the county, or Fiscal Court, is the sponsoring, or underwriting, agency of the rural water district.

Each County has also created a rural water district, and thinking is that Bath and Rowan could be served from one purification plant on Licking River, probably near Farmers or at Cave Run Reservoir.

The Rowan rural system has made it plain they want no further encroach- ment of the Morehead Municipal Plan- board outside the city limits. The Morehead system is presently selling water

SANTA IS COMING ... Morehead Jaycees and the Senior Chamber of Commerce joined forces in Christmas decorations on business streets. A hoist truck from General Telephone assistants as ornaments and lights are installed at Fair Banks and Railroad Streets.

for one day, \$16,403,713.06, was poured into the pockets of Kentucky burley growers as sales of the 1965 crop started. Monday's average was \$5.41 above the opening-day average \$62.63 a year ago. And it was \$1.27 above the previous record first-day average of \$60.32 set in 1961.

Highest average ever paid on Kentucky burley was \$68.23 a year ago, Decem- ber 4, 1961.

Four markets reported averages of \$64.00 a hundred pounds or more Monday. Franklin led the way with an average of \$70.77, the Agriculture Department said. Greensboro averaged \$70.03, Glas- gow \$70.01 and London \$70.

Other markets above \$69 were Bowling Green, Horse Cave, Lebanon, Morehead and Somerset. Selling between \$68 and \$69 were Bloomfield, Harrodsburg, Louisville, Mt. Sterling, Owensboro, Springfield and Winchester.

Low market was Cynthiana with an average of \$65.03, which still was \$4.13 above its opening a year ago. Most of the Central Kentucky area, where Cynthiana is located, was hit by drought and tobacco there suffered considerable damage this year.

Compared with last year's opening sale, increases ranged from \$10.29 at Paducah and \$9.28 at Franklin down to

Records were broken in every ware- house in Kentucky. The state-wide average for Monday's first sales was \$68.09.

The State Department of Agriculture reported extremely heavy sales of 24,000,239 pounds of tobacco.

And what may prove to be a record

Teen-Agers Involved In Accidents

Young drivers, some teen-agers, were involved in a number of highway ac- cidents in Rowan County during the week the blizzard of the district state police barracks at Morehead revealed.

James Russell, 20, RFD 2, Morehead, and Jennie Kiser, 14, Morehead, narrowly escaped death when the vehicle he was driving on the highway, struck a bridge and overturned one or more times, according to the report of investigating trooper Jerry Adams.

The accident happened at two o'clock in the morning, and the report showed the boy and girl were returning from Clark Mountain.

The State Police report stated that Houser was traveling too fast to make a turn on Ky. 519 near the Oscar Caudill filling station. After hitting the bridge the automobile overturned and struck an embankment and ended right side up in the creek. It was almost demolished.

Two cars were involved in a crash at 8:30 Monday, eight miles south of Morehead, on the Sharkey Road.

Elwood Curtis, 42, RFD 1, Morehead, was making a left turn when his truck collided with a 1964 Ford coupe, oper- ated by Carl O. Swinn, 19, RFD 1.

Two passengers in the Swinn car, Opal Marie, 16, and Ralph Van Swinn, five-year old child received cuts and lacerations but were released from the hospital after treatment. Trooper Ross Spore investigated.

The 1958 Buick Fordor driven by Bill Burton, 35, Ashland, was demolished Tuesday afternoon at 2 o'clock. Burton was slightly injured while a passenger, Eugene Johnson, 30, Sandy Hook sustained cuts and lacerations.

The Police report showed that Bur- ton's car left the highway [Ky. 52] about two miles from Morehead near the Glensia Pringle farm. It crashed into a fence and, then hit an R.E.A. electric pole.

No serious injuries resulted in a two-car collision on the highway about a half mile south of Clearfield on Ky. 519. Both cars were driven by women - Betty Jean Gregory, 31, Leachville, Ford Falcon, and Judy Barnett, 30, RFD 3, Morehead, a 1964 Ford pickup truck. The Gregory car was taking a left turn onto the road. Trooper Mar- campbell reported visibility was almost zero due to rain and heavy fog, and the women were almost on each other before they could see the danger.

Larry Glendon Kiser, 19, Clearfield, was charged with driving drunk when his automobile left U.S. 50 west of Morehead (near Brown Cemetery) Friday evening at 9:30. Trooper Marvin Jennings reported that Kiser said he was at- tempting to pass another car. Kiser was not injured, but his car was badly damaged.

Another teen-ager, Bill Ferguson, 16, Mendon, Mich., was charged with being drunk following a wreck Saturday after- noon, 3:30 on Upper Licking Road [Ky. 801] north of Farmington.

The State Police report stated that Ferguson was traveling too fast for the narrow road, rounded a curve, right front tire blew out and he lost control before striking large rock, and ended in the ditch line upside down. His 1958 Ford Tudor was demolished, but Ferguson was uninjured.

The district served by the Morehead post reported two fatalities in Rowan, two in Montgomery and one in Madison for November. The year's total is 52, or two more than for the first 11 months of 1964.

Rowan County has had eight fatalities this year.

FARMERS ARE OUTSPOKENLY HAPPIER AND RICHER

All Records Broken At Opening Day Burley Sales

TYPICAL THROUGHOUT KENTUCKY... An all-time record of \$68.09 average per hundredweight was set in Kentucky as the tobacco market opened Monday. The above is the scene in every warehouse. Only complaint of farmers was that the leaf 'weighed light', but they were obviously pleased with the high prices particularly for 'red' grades.

Morehead Market Near Top In State With \$69.87 Average

Area tobacco markets recorded an all-time high average of well over \$68 at opening day burley sales Monday. Farmers and warehousemen were apparently elated, although the crop weighed light.

Morehead sold 567,738 pounds for \$396,703.80, an average of \$69.87, or \$7.55 more than opening day last year. At Mayville 1,483,257 pounds were sold for \$103,032.90, or \$5.06 more than in 1965. Total money at Mayville was \$1,000.

The Mt. Sterling average was \$68.83, up \$5.43 per hundredweight from last year's opening day market. A total of 567,208 pounds was sold at Mt. Sterling, bringing \$528,032.90.

Records were broken in every ware- house in Kentucky. The state-wide average for Monday's first sales was \$68.09.

The State Department of Agriculture reported extremely heavy sales of 24,000,239 pounds of tobacco.

And what may prove to be a record

Heat Lamps Mean Money To Farmers

New-born pigs' mechanism to control body temperatures doesn't function properly for some hours. Frequently, pig's body temperature drop nine to 10 degrees the first hour of life.

So, says Dr. John Robertson, U.K. Cooperative Extension service specialist, heat lamps are important equipment in the farrowing house. Lamps can keep a new born pig warm enough to survive the first 48 hours of life. After two days, the body mechanism functions properly and the pig can adjust.

Electric heat cables or other supplemental heat sources are valuable aids, too, Dr. Robertson notes. Here are some tips:

(1) Make sure all heat sources are in proper and safe working order.

(2) Suspend heat lamps 24 inches above bedding or pigs.

(3) Do NOT suspend heat lamps by the electrical cord. Use a proper chain or approved cord. Lamp weights may damage electrical cords.

(4) Put a porcelain socket on all heat lamps, and equip each lamp with a ball to tip a fallen lamp away from the bedding.

(5) Install lamp and cord out of reach of the sow.

Morehead Girl Almost Wins A UK Queen Award

Miss Susan Gale Bays, a University of Kentucky sophomore from Rowan County, was named second attendant to the queen of the annual Pershing Rifles Coronation Ball held in the Grand Ballroom of the UK Student Center.

Sixteen PH sponsor candidates were nominated by University sororities and women's residence halls. Miss Bays was nominated by Kappa Alpha Theta, UK social sorority.

The daughter of Mr. and Mrs. John Bays, 139 Lyons, Morehead, Miss Bays graduated from Breckinridge Training School and is enrolled in the College of Education at UK.

(6) Install current outlet and cord so the lamp pulls out of the socket (unplugs itself) if the lamp falls.

Remember: New born pigs' body temperatures will take the sharp drop even in a central house with a temperature of 65 to 70 degrees. Rise to normal body temperatures starts one hour after birth and takes about 48 hours to achieve.

CONSTRUCTION OF A 24-ROOM ADDITION that will double the size of Lake Cumberland State Park's Lure Lodge near the half-way point. Being built at a cost in excess of \$500,000, the ultra-modern facility is due for completion in time for the coming tourist season. A motel-type swimming pool is also under construction at the Jamestown, Ky., park. Contractor for the lodge is Kilbas Miller, Seerseter.

Food Plan Helps Pupils

UNIVERSITY PARK, Pa. (UPI)—One way to help the school child to be a better and more active student is to guide him in establishing a nutritionally sound eating pattern.

The pattern is important because the snack habit has joined the traditional three meals a day. Louise Hamilton, extension nutrition specialist at Pennsylvania State University said in some cases snack foods have become more appealing than the foods served at the three meals.

It is essential to plan wisely, counting the calories for both meal and snack foods. If a child has a tendency to be overweight, serve a combination of meats and snacks that add up to his required number of calories.

Breakfast is an important meal, but it need not be elaborate. Lunch usually is a "hurry-up" meal but dinner should be planned carefully to help the child get his needed amount of proteins, vitamins, minerals and calories.

CARD OF THANKS - Words cannot
express our appreciation for the many
kindnesses shown during the illness and
death of our beloved wife and mother,
Mrs. Iva L. Tolliver. We'll always
member those who visited and com-
forted her in any way, those who sent
the beautiful cards, flowers and gifts
which seemed to make her pain a little
easier to bear. Especially do we wish
to thank the Sisters and the staff of
St. Clare Medical Center who so ten-

derly cared for her. Rev. C.O. Leach
for his comforting words and cards;
for the many friends who came to
the funeral and the many who
thought of us all after her death.
We wish to thank each one per-
sonally. We will miss her, but we
will "Thank You" sincerely.
Tolliver and family (Mrs. James
M. L. Mrs. James Baldwin). p-45

Rowan To Conduct 4-H Talent Show In Coming Spring

By Robert H. Wolfe
[County Extension Agent]

The Rowan County 4-H Council met
Monday night, November 15th, in the
County Extension Office with president
Arnold Pack presiding. Those present
were Arnold Pack, Quenton Caudill,
Mr. and Mrs. W.G. Bailey, Mr. and
Mrs. William Hoogh, Mr. Bill Gares,
Mr. Glenn Friley, Mrs. Thelma Kie-
wick, Mrs. Doris Jean Caudill, Mr. Clyde
Hendrick and Extension Agents Adrian
Kantor and Bob Wolfe.

It was decided that a county 4-H
Talent show will be held in the spring.
A committee consisting of Mrs. Kie-
wick, Mr. and Mrs. Bailey and Mr.
Wolfe was appointed to work out details
for the event.

The committee was also appointed to plan
a recognition dinner for 4-H leaders
in February.

Selection of officers concluded the
meeting. Mr. Pack was re-elected Presi-
dent. Mr. Caudill re-elected Secretary
and Mr. Bailey elected Vice-President.

Mr. Pack was elected to the 4-H Council
on the county Extension Council were
Mr. Henry Haggan, Mr. Glenn Friley,
Mr. W.G. Bailey and Mrs. Bill Hoogh.

Persons who grew pickling cumber-
bers for sale last year and others
interested in learning more about the
enterprise, were interested in a meet-
ing to be held December 13 in More-
head. Mr. Hubert Davis, Extension Horti-
culturist, will review last year's pro-
duction and discuss ways to improve
for the coming year.

Sale of pickling cucumber brought
about \$1000 for the county. Extension
agents are encouraging growers to partici-
pate in the sale of pickling cucumber
this year.

Pruning and removing dead branches
and dead foliage from ornamental plants
and flower gardens this fall may save
headaches next spring and summer,
according to the Rowan County Extension
service. The reason—Most ornamental
plants and flowers live over the winter
on dead branches, twigs, and leaves
left on the plant. In the ground beneath
it. If the plant material which has
these organisms is pruned off, raked up,
and burned, there is far less danger
of disease next year.

Also—the general appearance of the
area is improved this winter.

As we finish grading the 1965 crop
of tobacco, the area goes to ground
looking for a place to put the crop for
1966. What do we want to look for??
Let Massie, Extension Tobacco Spec-
ialist, says to pick the richest and
deepest soil on our farm. Also follow
these tips if possible:

1. Use a saw of grass legume soil
that has been rested for at least 3
or 4 years.

2. A soil that is good for tobacco
should have a w/r holding capacity
and the ability to take the years water
fall easily. Such a field, in case of
drought, will protect your tobacco in-
vestment.

3. Test the soil, after selection, to de-
termine plant food needs. If lime and
phosphate are needed, apply them now.

4. Be prepared to plow the field in
later winter or early spring (February
or March).

If these suggestions are followed and
recommended practices are followed, a
high quality crop should be forthcoming
for 1966.

We have folks who have complained of
chickweed in their lawns and those of
you who have had many experience with
it know that it will crowd out most
anything including Bluegrasses. If you have
any of it at all it is time to start your
control program. First - Go over your
lawn and pull up scattered plants. Second
- If areas are infested, treat with a
herbicide. Recommended ones are Silvex
or Banvel-D. These may be sold under
various trade names. Third - If grasses
are used, do not apply to newly es-
tablished lawns.

Treatment can be done when the tem-
perature is expected to be above 50 F
for two or three days. This treatment will
also kill many other broad leaved weeds.

DON'T BACKUP - It is suggested
that a U.S. official who makes a visit
to the American people is not for-
getting that, in spirit for him. It would
also be well for him to prepare for
the visit by enabling himself to chew
tobacco for the duration of the visit.

DATES AND EVENTS FROM YESTERYEARS

The first steam-propelled boat was demonstrated by James
Harrison on the Potomac River at Shreveport, W. Va., December 2,
1797.

President Roosevelt ordered liquidation of the Works Progress
Administration, December 4, 1945.

The Russian congress approved a new Soviet constitution, De-
cember 4, 1924. A Brooklyn theatre there closed 289 days, De-
cember 5, 1975.

Clearful

Jack Frost seems less severe
when you step out to breakfast
in a clearful area. Why not
point the breakfast room walls
add a splash of color with new
cushions on the chairs or paint
the inside of cabinets and shelves.
Paint in the easy, convenient way
to redecorate.

Mr. and Mrs. Richard Stagg and family of Lexington spent the Thanksgiving holidays with his grandmother, Mrs. U.S. Sparks and other relatives here.

Mr. and Mrs. Roy Cassity were guests of Mr. and Mrs. Larry Cassity in McComb, O. from Friday to Sunday.

For And About Teenagers

THE WORRY PROBLEM: I don't have a solution. I am almost 20 years of age and my mother won't let me go out with boys unless I have a chaperone. One night a boy called and asked me to go to the bowling alley to have a few games. He said he would pick me up at 8:10. I asked permission and my mother told me to ask my friend. He told me to ask my mother. Mother said I should not be leaving home at that hour, that 8 or 9 o'clock would be more reasonable, and that I was too young to go on dates myself. She said I would have to wait until I was old enough to take care of myself. When I am old enough, how will I know how to act if I haven't had any experience?

OUR REPLY: Don't wait until you have called your mother and you have given her an answer. To ask your parents if you can go out. Go to them now and discuss the dating situation. If your answer is acceptable to your parents, set at 8 or 9 o'clock for some bowling, make your plans accordingly. Come to some sort of an understanding with your parents and you will live alone when you can go out and if you can go out.

Women's Medical ... News

A dreaded blood condition -- RH incompatibility which can take a baby's life before it is born or cause brain damage in a newborn -- may soon become obsolete.

This is the good news from British and American scientists who report a breakthrough in the battle against the disease, which occurs in about 1 in 200 pregnancies in the U.S. They have developed a substance which, injected into a woman immediately after she gives birth, desensitizes her blood. This, the scientists hope, may prevent the condition from developing in subsequent pregnancies. Usually, the first baby of an RH negative mother and an RH positive father is unlikely to be affected. But the mother may become sensitized as a result of the first pregnancy, causing the problem to arise in subsequent ones.

CLINIC HELPS CUT ABORTION RATE

What happens when you make family planning services available in a low-income community? Here's the experience of New York City's Metropolitan Hospital family planning clinic. You can cut the birth rate by about one-fourth in a year. You can reduce the number of bungled illegal abortions. A hospital is forced to complete. You can spend \$50 a year per patient for family planning care as against \$300 minimum for prenatal care, delivery, and hospitalization.

These findings were reported by Dr. Martin L. Stone, chief of obstetrics and gynecology, New York Medical College Metropolitan Hospital Center, and director of the hospital's family planning clinic.

Mr. and Mrs. Glenn Glickerson and children, Elizabeth Ann and Mary Leigh of Winchester spent last week with their parents, Mr. and Mrs. Elmer Glickerson and Mrs. Serena Hall.

Mr. and Mrs. James A. Leach and children Cathy Jane, Michael James and Cynthia Jo of Shelby, O. spent Thursday to Sunday with C. Leach, Mrs. Eliza Mink and Mr. and Mrs. Earl Leach and family.

Christmas Tree Joins the Ranks Of Big Business

By ROBERT E. HURER
United Press International
That Christmas tree you will see this year, along with 24 million other American families, has increased a fantastic industry.

Until a decade ago, about half the trees purchased in the United States came from Canadian forests. Now the nation supplies the majority of its own trees each year, thanks to efforts of the U.S. Forest Service plus a few far-sighted state forestry departments.

Most of the trees this year will come from supervised "tree farms" in designated areas in almost all states. Even in the so-called desert states of the Southwest, at least 1 million trees will be cut commercially for use in nearby metropolitan areas.

White balance will maintain the number one spot this year as the top choice of American tree buyers and cutters. Commercial tree companies say the balsam fir is tougher, holds its needles longer and can take more abuse in shipping.

Right behind the balsam fir is the blue spruce, beautiful with a silver sheen of Japanese tree buyers and cutters. Commercial tree companies say the balsam fir is tougher, holds its needles longer and can take more abuse in shipping.

Also in prominence is the Scotch pine which accounted for 11 per cent of the Christmas tree market last year. Another variety, found mostly in the Southwest, is the ponderosa pine. Last year the ponderosa's market jumped with new shipments to California.

Regulating the growth and sale of Christmas trees is a new process in the nation brought on most recently by strict market activities. Most states have passed laws requiring tagging of all trees for Christmas cutting. New Mexico was the most recent state to pass an act and require tags to regulate its state-owned forest land.

The Forest Service earlier had clamped down on unselective cutting of trees on federal lands throughout the country. The service planted large areas of small trees, and now allows cutting on the "free form" on an annual basis.

1965-66 Basketball at Morehead State College

THIS SEASON TRUST
Assistant Coach Lake Kelly — Head Coach Bob Wright

A Look At The 1965-66 Season

The 1965-66 Morehead Eagles should be one of the most interesting teams Morehead has had in recent years. With the presence of their new head coach Bob Wright and his assistant, Lake Kelly, the Eagles will be hoping to improve on their 13-10 record last season. The Eagles finished fifth in the Ohio Valley Conference last year with a 6-8 record.

Although the Eagles return eight lettermen, inexperience will be a key factor affecting the success of this year's squad. Only half of these lettermen have received enough game experience to be counted on by Wright as an experienced player.

Wright spent much of the pre-season practices working strictly on fundamentals. The Eagles have only six seniors on the squad and Wright is turning to high school seniors in June and All-OVC center Henry Adams will return to Morehead this season.

Wright replaced Adams with two sophomores who will be a big problem for Wright and the Eagles could improve on their 13-10 1964-65 record if these replacements are successful.

Rounding out their final season for Morehead are 5-11 guard Tommy Castle and 6-7 forward Bob Kohler. Castle started in only the Morehead games last year and will be a top contender for a starting guard berth. He averaged 9.8 points per game for the Eagles last year.

Kohler will be making a bid for a starting forward position. He was a mainstay under the Eagles last year and averaged 7.8 points per game.

Junior Bruce King is the prime center candidate for the Eagles. Bruce entered Morehead in the second semester of his freshman year and became eligible for varsity competition last year at the beginning of the second semester of last year. Bruce averaged 12 points and 12 rebounds in 11 games.

Wright is expected to grab the other forward position in junior Sam Hall. Sam was a starter for the Eagles last year and averaged 7.2 points and 6.5 rebounds per game. He is a great shooter and will give the Eagles strength under the boards.

Fighting for the other guard position will be junior Jim Sandfoss and forward Smith. Sandfoss and Smith both saw action in 19 games last year and both possess good outside shots. Sandfoss averaged 5.1 points per game and Smith had a 5.6 points per game average.

Others who will be pushing for starting berths are: 6-4 David Turner, 6-4 Don DeClerq, 6-4 Charles Adams, 5-10 Wayne Martin, 6-5 Larry Jordan and 5-10 Mike Tarry.

Morehead will play a rugged Ohio Valley Conference schedule plus games with highly regarded Kentucky Wesleyan, Canisius, Kentucky State, Idaho State, Utah State, University of Utah and Marshall University.

Jim Sandfoss, Guard
A prime candidate for a starting position at guard is this former All-State star from Silver Grove.

Sandfoss led the freshman team in scoring and was named as a starter with Castle as a sophomore last year.

He is a fine line shooter and has a good outside shot. Jim averaged 5.1 points per game last year and is one of the best defensive men on the squad.

Jim's major is physical education.

Varsity Summary:
G FGA FGM Pct. FTA FTM Pct. Reb TP AVG
19 78 31 39.7 43 36 63.7 36 98 5.1

Howard Smith, Guard
One of the fastest men on the squad is this 6-2 guard from Birmingham, Alabama.

Smith is a fine shot and has outstanding jumping ability for a man of his size. He needs experience on defense but is improving with every practice session.

As a sophomore, Smith averaged 5.5 points in 19 games. He is a prime candidate for a starting guard position this year.

Howard is majoring in physical education.

Sam Hall, Forward-Center
One of the outstanding lettermen on the Eagle squad is Sam Hall, a 6-7 forward-center from Coal Grove, Ohio.

Sam is a fine outside shot and has improved his rebounding and defensive skills. He is expected to be one of the best defensive players on the squad.

Sam should be a big asset to the Eagles run-and-shoot style of ball with his speed and ability to handle the ball.

As a sophomore, Sam averaged 7.2 points and 6.5 rebounds per game.

Sam is one of the finest students on the squad and is majoring in Industrial Engineering.

Don DeClerq, Forward
A newcomer to the Eagle squad is this 5-6 junior college transfer from Lees Junior College. He has impressed the coaches with his shooting and rebounding ability.

Charles has a good shot and can hit the basket with consistency from any place on the floor.

He also does a fine job rebounding but is lacking in the defensive aspect of the game.

Charles will be counted on by Wright to give the Eagles a big man scoring threat and will see a lot of action this season.

Adams is majoring in physical education.

Larry Jordan, Forward
This 6-5 sophomore from Londonderry, Ohio, will be counted on heavily by the Eagle coaching staff this season.

Larry led the freshman team last year in scoring with a 28.4 points game average. He is a fine shooter and is expected to be one of the best rebounders on the squad.

Larry is an adequate rebounder but his speed holds him back on defense.

He has a lot of playing time this season and could be a starter.

Jordan is majoring in physical education.

Bruce King, Forward-Center
Mention this 6-5 junior's name in the Morehead camp and you will get a smile from the Eagle coaching staff.

Bruce entered Morehead in the second semester of his freshman year and was used in varsity competition for the last half of the 64-65 season. In his first semester of OVC competition, he averaged 12.0 points and 12.7 rebounds in 11 games.

King was slowed by injuries in pre-season practice but should return to his old form before the season begins. King is strong defensively and does a good job on the boards.

He was the fourth leading rebounder in the OVC last year.

Bruce is a physical education major and will be a leading candidate for All-OVC honors.

Another small man for the Eagles is Mike Tarry, a 5-10 guard from Eastman, Georgia.

Mike is an outstanding shooter and defensive man and has a good set shot from the outside.

Mike averaged 7.4 points a game as a freshman but will have to develop into a scoring threat before being able to help the Eagles this season.

Mike is majoring in English.

Wayne Martin, Guard
A short man in the basketball ranks who makes up for his size through hustle is this 5-10 guard from Winchester.

As an outstanding hustler and leader, Wayne is also a fine shot. He averaged 15.0 points per game as a freshman in 1964-65.

Wayne is one of the finest defensive men on the squad and gives the opponents fits with his burning desire to win.

Wayne is majoring in business.

Bob Kohler, Forward
One of the tallest men on the Morehead five this season is Bob Kohler, a sturdy 6-7 senior from Detroit, Michigan.

Kohler transferred to Morehead from the University of Detroit the second semester of his freshman year.

He came on strong for the Eagles in the latter part of his junior year and gave the Eagles outstanding heart work.

Bob appeared in 21 games as a junior and averaged 7.2 points and 7.8 rebounds per game.

In his sophomore year, he averaged 8.5 points per game and 10 rebounds.

Kohler is majoring in political science and French.

Choral Festival At Morehead Opens Friday

The sixth annual high school choral festival will be held on the Morehead State College campus, December 3-5. Over 150 select high school choral students from throughout Kentucky and southern Ohio will participate in the festival with Dr. Hugh Ross, New York City, serving as guest conductor.

Dr. Ross, Music Director and Conductor of the Schola Cantorum of New York, will work with the students and conduct the Festival Chorus.

Other highlights of the three-day festival are performances by the Morehead State College choral organizations and Richard Rivers, former member of the Robert Shaw Chorus and the New York City Center Opera Company who is now a member of the Morehead music faculty.

The internationally renowned Ross earned his PhD degree from Oxford University and during the decade of Arturo Toscanini's leadership of the New York Philharmonic, Ross's Schola was the chorus which performed many works under the great Maestro. The Schola has been heard with every famous conductor to appear in New York, including Walter, Krips, Konstantin, Rodzinski, Becham, Mitropoulos, Stokowski and Bernstein.

Dr. Ross is currently head of the choral and music history departments of the Manhattan School of Music.

The Morehead State College choral organizations and orchestra will perform at 8:00 p.m. in Burton Auditorium on Friday evening, doing Haydn's Missa Brevis in F, chansons by Orlando di Lasso and contemporary compositions for chorus and brass.

Rivers, who in addition to his teaching duties at Morehead maintains a heavy concert schedule, will present a concert at 8:00 p.m. on Saturday evening in Burton Auditorium.

The Festival Chorus, under the direction of Dr. Ross, will present a concert on Sunday afternoon in Burton Auditorium at 3:00. The program will include music by Vivaldi, Bartok, Thompson, Tate and Barnes.

The public is invited to each of the concerts. James Ross Beane, Associate Professor of Music at Morehead State College, is coordinator of the festival.

Health Nurse For Rowan Gets SS State Honor

Mrs. Mary Kinser, Rowan County health nurse, was the guest of honor at a luncheon by the Kentucky Tuberculosis Association held at the Executive Inn, Louisville, on Monday last week.

Mrs. Kinser was being honored for her outstanding work in Rowan County in the field of tuberculosis control and for her work with the lung disease study that was done here during the past summer.

Because of her continuing efforts, Rowan County now has one of the best records in Eastern Kentucky for tuberculosis control. The tuberculosis death rate is below that for the state as a whole and the new case rate is below that for Eastern Kentucky.

Jay Warren Stevens Joins Air Forces

M. Sgt. Jack Stratton, Air Force Recruiter for Morehead, whose office is located at 310 Main Street, announced today the enlistment of Jay Warren Stevens in the United States Air Force.

Jay, who is 19 years of age, is the son of Mr. and Mrs. Delbert Stevens Route 3, Morehead, Ky.

He attended and graduated from the Rowan County High School, in 1965. Stevens who enlisted in the General career field area is now undergoing basic training at Lackland AFB, Texas, and upon completion of basic, will go on to an Air Force technical school or will enter on-the-job training at one of the many Air Force Bases located throughout the world.

Tasty
For a holiday dessert that's different but delicious, try molasses perlatte. Combine 1 (6-ounce) jar of candied fruits with ½ cup of light molasses. Mix well. Alternate layers of molasses mixture with ice cream in 8 marshmallow glasses, using a total of 1 pint each of vanilla and coffee ice creams.

We go to all the trouble of
redesigning our interiors,
improving our handling,
and refining our Wide-Track ride,
and some people buy us
just for our looks.

Our new Executive Pontiac Coupe.

Just once we'd like to have people fall in love with
the inside of our cars before they flip for the
outside. Why, this year alone we've made available
brand-new wraparound buckets. Profile
bench seats. More than 100 different upholstery
and color combinations. And now, instrument clusters you've never seen.
We even had our engineers take our test cars

apart piece by piece to come up with improve-
ments that, incredibly enough, make our Pontiacs
smoother, quieter, more enjoyable to drive.
Really, though, we don't care which feature
gets you inside a new Pontiac. As long as it gets
you there. And it will. At least judging by the
number of Pontiacs you see on the road.

Everything's new in tiger country. Wide-Track Pontiac '66
STONE PONTIAC-BUICK-GMC, INC., W. Main St

THANKSGIVING DINNERS WERE MADE POSSIBLE... For
needy families in Rowan County as a result of the Morehead
Jayecees, Jaycees with assistance from Breckinridge Key Club
distributed 23 food baskets in an attempt to make this a truly
Thanksgiving season. Nick Dann, Jaycee Food Basket Chair-
man, said much of the credit for the success of this food basket
drive goes to members of the Morehead State College Campus
Club and Rowan County High's Student Council as they helped
in collecting the baskets. Jaycees shown preparing to distribute
the food are: L-R Art Litton, Jim White, Nick Dann, Charles
Dawson, and Jim Cox.

Morehead Eagles Face Many Problems

Sally Ellen Jayne
Is Nominated For
Danforth Fellowship

With pre-season practice completed
and the first game past, Morehead State
College basketball coach Bob Wright
still has many unanswered questions
about his Eagles.

Injuries to two returning starters
from last year -- guard Johnny Castle
forward Sam Hall and sixth man Don
DeClary -- have left Wright with only
nine men to work with in preparation
for the season opener.

"I still don't know who I will start
when we take the floor," Wright said.
"We are lacking consistency in our
scrimmages and I have tried several
combinations trying to find a group
that can work together."

"Bob Kohler and Bruce King are the
only definite starters for us," said
Wright. "Kohler will play a forward
and King will play the post. Both of
these men saw considerable action last
year and we will have to have their best
effort if we are going to win any ball-
games," Wright added.

Sophomore Larry Jordan is the prime
candidate for the other forward position
although he is being baited by junior
David Turner and Lee's Junior-College
transfer Charles Adams. As a fresh-
man, Jordan averaged 20.4 points a
game and was one of the leading scorers
in the OVC freshman ranks.

"Jordan is a fine shot and has worked
hard for us in the early practices,"
said Wright. "His inexperience will hurt
him, but I am confident he can get
the job done for us."

The leading guard candidates are
junior Jim Sandness and Howard Smith.
Both have experience from last year
and averaged 5.1 and 5.6 points a game
respectively.

"Sandness is almost a sure bet to
start, but sophomore Wayne Martin is
pushing Smith for the other guard,"
Wright added.

Morehead State College has nominated
two seniors and one recent graduate for
Danforth Foundation Graduate Fellow-
ships.

Nominated by Morehead State College
are: Sally Ellen Jayne, a senior English
major from Morehead; Ronald Wayne
Harper, a senior history and sociology
major from Mt. Healthy, Ohio; and
William Purdy Hedford, an English
major who graduated in June and is now
teaching at Harrison County High School,
Cynthiana.

Recipients of the fellowships made
possible by the Danforth Foundation,
St. Louis, Missouri, will receive stipends
for a year which are renewable for up
to four years of graduate study.

The Danforth graduate fellowship pro-
gram was established in 1951 with the
aim of giving personal encouragement
and financial support to selected col-
lege seniors and recent graduates who
seek to become college teachers.

Members of the Morehead State Col-
lege nominating committee are: Dr.
Palmer L. Hall, Director of Graduate
Studies; Dr. Frank Mangrum, Professor
of Philosophy and Dr. Charles Peiffer,
Professor of English.

WHAT'S NEW

United Press International
A new hospitality cart has a top and lower shelf of metal that resists staining and rusting. The manufacturer says it wipes clean as can be with just a wash of a damp cloth. Both shelves are finished in a rich walnut wood grain that adds class and glamor. The cart, which smoothly rolls along quietly on rubber casters, is made at a linen's touch. (Henderson Co. Inc., Columbus, Ind.)

Graphic Classics, Ltd. 220 East 33rd St., New York, N.Y.
Let it rain when you have something dubbed the "rain-pipe." The manufacturer says it is the first polypropylene umbrella, molded in a one-piece frame. Fashion appeal is blended with the new umbrella through the frames, with dramatic visual contrast to the current metal frames. "It's the first major advance in umbrella construction and material since the folding steel frame was introduced in France during the 19th century," said a spokesman for the maker.

Aberdeen Manufacturing Corp. 11 E. 34th St., New York, N.Y.
A new lightweight, durable golf club carrier, while no more than a few ounces, yet is load-bearing enough to carry up to six woods and irons. The manufacturer reports it is not intended as a permanent substitute for the golf bag of the serious golfer, but it's just handy for par-3 courses and for putting and driving practice, too.

Charvon Plastics Inc. 100 Murray Drive, Cincinnati, Ohio.
Holiday Report: It's Plum Right
TULARE, CALIF. (UPI)—Whoever heard of having fruit phones on up to Christmas trees? They heard it, think it, bought it. A retailer in California's San Joaquin Valley, has developed a phone, called "Plumphone," that doesn't ring until early October, instead of in August as do most varieties.

"It started about 10 years ago when I started noticed a 'spurt' sell on our line in his orchard of Santa Rosa plums. The fruit on the one line was ripening much later than plums on the other lines."
He watched it for five years to see if the line ripening continued. It did.
"When he was sure he had something, he grafted wood from the line into Santa Rosa, a peach and other varieties of fruit trees."
He now has 10 lines bearing the new fruit, which is lighter in color than the Santa Rosa plum.

Mrs. Gurnard will testify to the remarkable success of the new variety. She said the family plumed since in October, and they were still good in December.

FASHIONETTES
United Press International
They're talking of a new cut length for skirts. It's the "mini-skirt," just about two inches shorter than the daytime dress it covers.

The body glider is manufacturer Larry Aldrich's newest item for a spring dress silhouette skimming over the body but not hugging. Clearly it is unveiled.

Watch for whistled stockings, especially a navy blue set, for spring. The sales of pale tones showed on models displaying the new collections of New York manufacturers.

May is the traditional of spring. Watch in 1964 for navy, blue and white, as ready-to-wear goes into a patriotic mood.

The yellows are strong favorites for both men and women for spring.
Dress dots, once as much a hallmark of spring as the first rain, are in a temporary decline in the new collections. Only a few designers feature them.

—Reserve take on a new look at the firm of Perineau, Inc. of New York. The are rolled skirts in one single loop shop collection with and dress.

RED LETTER DAYS

If it is values you want, be sure to stop in at your friendly IGA store. Every department is featuring food favorites that will make family eating a "real pleasure" — and at less cost, too. So, this week and every week, shop IGA... you'll be glad you did.

ADDED SAVINGS... for the lady who pushes the cart!
