NUMBER 22

FIRST AWARD OF \$25.00 GIVEN TO MRS. L. B. PORTER, WIFE OF WINNER ON PREVIOUS SATURDAY

Interest in Plan of Merchants Growing As Money Is Given.

They say lightning never strikes twice in the same spot, but the first award in Saturday's Gift Day, sponsored by the Merchants' Association, proved that it can come so close to the identical spot that it might as well be the same.

Mrs. L. B. Porter was given the first award of \$25.00 in cash. The previous week the \$25.00 award went to her husband, L. C. Porter. Merchants, proved that it can come so close to the identical spot that it might as well be the same.

Others who were lucky are: Lucy Mae Scott, Felds Hall, \$10. Elizabeth Davis, Morehead, \$5.00. Mrs. Henry H. Morehead, \$5.00. Lionel Duff, Morehead; George C. ette, West Liberty; Lola Buckner, Clearfield; and Mrs. Reed Morrison, Morehead.

Many more people are becoming interested in the Gift Day plan instituted by the Merchants' Association for the purpose of stimulating business. The customers are beginning to ask for the ticket which are given with each 25 cent purchase. Merchants will explain just what to do with their tickets.

Again this coming Saturday, \$50.00 will be given away by the Merchants' Association in a similar building campaign which is now under way. All you have to do to take advantage of this opportunity to enrich the family pocket book is to ask for tickets with each 25 cent purchase for tickets at any of the stores participating. Then be present Saturday afternoon at the Cut Rate Grocery where the gifts will be presented. It costs you absolutely nothing and you may go home considerably richer when you come.

It will certainly pay you to trade.

(Continued On Page Eight)

TELEPHONE DIRECTORY TO BE ISSUED SOON

Within the next few days patrons of the Morehead telephone system will receive their new telephone directories which are now in process of being printed at the News Office. The last directories were printed almost two years ago and are entirely obsolete.

The new directories are to consist of twenty pages with a list of new additions to the list of phone users. The listings will be up to the minute and will prove of great advantage to telephone patrons.

BONUS BONDS TO BE SPENT CAREFULLY SAY SERVICE MEN; TO GET REAL BENEFIT

The excitement about the receipt of the Bonus Bonds has about expired, and most of the bonds themselves have been delivered to their respective owners. Probably the most outstanding feature of the delivery of the bonds was the unexpected small number of service men who returned them to exchange for cash. Up to the time we go to press only \$23,700 worth of bonds, out of a total of \$142,000 had been returned with application for cash. News stories from Louisville, stated that only twenty five out of a total of two hundred extra clerks were being retained by the Louisville Post Office to take care of the cashing of the bonds, due to the fact that the demand was so much less than was expected.

Local service men are apparently learning a lesson from the former payment, much of which was spent in extravagant ways. Cars were bought and wrecked, and very little of the payment went to serve any

MRS. SARAH EGAN DIES FRIDAY AT BLUESTONE

Funeral services were held Saturday afternoon for Mrs. Sarah Egan who passed away Friday morning at the home of her daughter, Mrs. Elizabeth Messer at Bluestone. Mrs. Egan was eighty-five years old at the time of her death.

Services were conducted at the Baptist Church by Wm. Dawson, Isaac Candill and William Candill. Burial was made in Sliam cemetery. Surviving Mrs. Egan are two daughters, Mrs. Messer, Mrs. Amade Brickey, of Oregon, and two sons, Will Egan of Missouri and Brachston Egan of West Virginia.

The funeral services were attended by a large number of out of town relatives and friends. Mrs. Egan was an old resident of Bluestone and well known here.

Health Dept. Holds T. B. X-Ray Clinic

Under the supervision of Dr. T. A. E. Evans, County Health Doctor, an X-Ray clinic was held at the County Health Office of Friday, June 12, at which seventy-five X-Ray examinations were given. This clinic was a continuation of the T. B. clinics that have been held over the county for the past several months. All those who, as the result of the T. B. tests showed any sign of suspicious symptoms, were referred to have an X-Ray made. Dr. Evans was assisted by Dr. Floyd, Field Supervisor of the Bureau of Tuberculosis, Louisville, Ky.

The X-Ray machine, which is a portable outfit, was in charge of Miss Eugenia Griffith, X-Ray technician, assisted by Miss Nancy Cummings, and Miss Lola Hanson, Public Health Nurse, connected with

Christians To Present Passion Play Picture

A production of peculiar interest to all Christian people is the Passion Play which will be presented in moving pictures at the First Christian Church on Wednesday night, July 1. This picture is synchronized with singing, music and sound. The sacred songs are sung by the Roxis-Choir assisted by Emil Velancko at the organ. It is spoken of as the greatest moving picture ever produced, and will live forever in the hearts of mankind.

This moving picture presents the life of Christ from the cradle to the grave and the resurrection. It is the old, old story of the Savior told in a simple and sincere manner.

Useful purpose. In this case the reverse is apparently true. The majority have already made plans as to what they shall do with their bonus money. And, if their statements are carried out, there will be very little of the bonus money that will not be used for legitimate purposes. Naturally, it is to be expected that some few will waste their money and gain no permanent advantage, but those few are in the smallest minority.

An investigation of the purposes for which the bonus money will be used in Rowan county indicates that the service men are not going to be lashed out of their bonus easily. Nor are they to be induced to spend it lavishly or without proper forethought.

Here are a number of answers to this money. It's all going to be spent on the part of the service men.

Masons To Celebrate St. John's Day Program Here Sunday; First To Be Held In This City

The Masonic Lodge and the Order of Eastern Star of the city are sponsoring a St. John's Day Service Sunday morning beginning at 10:45 at the Christian Church. It is the plan and the expectation to make this an annual affair. Next year the service will be held in the Methodist Church.

On June 24th., the Masonic Fraternity memorializes the birth of John the Baptist and on December 17th., the birthday of John the Evangelist. The December date is celebrated with the annual election and installation of officers of the Lodge.

The music department of the Morehead State Teachers College have been asked to furnish the special feature of the service. Professor Horton will use the pipeless Hammond organ. The program of the service follows:

Dr. Gilbert H. Fern, Presiding Organ Prelude..... Kern

"Happy" Sends Radio Greetings Back Home

Kentuckians listening on the Democratic convention at Philadelphia on Tuesday night of this week, could not but have been on thrills, whether they were Democrats or Republicans, at the oration with which the speech of Senator Albin A. Kuhn was received. Kuhn, a delegate, Senator Barker, who is temporary chairman and keynote at the Democratic national convention, brought cheer from the waiting delegates at his fiery attack on the administration.

But even more interesting was the fact that those who were tuned on WHAS, received a greeting from Governor Chandler. Governor Chandler spoke briefly over WHAS expressing his feelings about the convention. Others had spoken before, but none of them thought of the folks back home. "Happy" did not forget. As he closed his brief speech, he said, "And to my fellow Kentuckians back home, I want to give my sincere greetings."

Jail Break Stopped By Chief Of Police

Prisoners at the county jail are resting quietly in their cells since last Saturday night. There will be no escapes, says Jailer Sammie Starn. The cell order went into effect immediately after the discovery of an attempted break Saturday night, in which case Chief John Adams who lives across the street from the jail heard peculiar scraping noises and hammering in the neighborhood of the jail and went to investigate. He found that the prisoners, of whom there are several awaiting trial, as well as a number who have already received sentences, breaking a hole in the wall. The prisoners had suc-

Soil Conservation Is Topic Of Local Meeting

County and Community Committees are making final check and approving of Soil Conservation Program worksheets submitted by Rowan County Farmers. The total number of farms covered by worksheets will reach 600 by the time that work is completed on the present lot. The County Office will continue taking worksheets for several weeks but taken after July 1st will have to be taken with a delayed listing sheet. The first listing sheet has been accepted for by July 1. Work by the committees will be completed by June 23 and listing is being done in the county office and will be completed within a few days following completion of committee work.

Downing Family Gets Second Car

Another car was thrown into the home of Coach and Mrs. G. D. Downing on Monday night of this week, when a man was seen skulking about their home during the night. Coach Downing also heard the footsteps. He aroused Mrs. Downing and together they watched the man sink into the shadows at the side of the house. Arising noiselessly, Mrs. Downing went to the phone and called Chief of Police John Adams, who came to his eye on the visitor. When Adams arrived the skulker ran through the garden and into the woods. Adams was futile and they did not discover who it was. Since the robbery of last week, the Downings have not kept any money in their home, so any visitor to that place will in the future find mighty slim pickings.

Lot Sale Today Marks Selling Event Of Year

Today is the day of the big Home Lot Sale being held under the direction of Mr. and Mrs. S. C. Candill. It is popularly known as the Tolliver Addition just east of Morehead on the Midland Trail. Considerable preparation has been made to make this sale one of the outstanding lot sales held in this community. With home sites at a premium in the city of Morehead itself, and with a building program under way that is second to none in the state, there is every reason to suppose that the lot sale will be one of the successful selling events of several years. Plans have been made to make the day a gala day with lunch served on the grounds. The sale will begin promptly at 10:30 a. m. Two home sites will be given away.

Republicans To Hold Convention

The district meeting of the Young Peoples Republican Clubs of Kentucky will be held in Ashland on Saturday, June 27, according to information regarding the meeting. The headquarters of the meeting will be in the Henry Clay Hotel, with the Ashland club acting as hosts to the visiting delegates.

According to the recently released program the registration of delegates and visitors and their guests will take place at 12:30 p. m. on that date. The business sessions will open at 3:00, following which a real old-fashioned Republican rally will be held, which is open to both young and old Republicans and which will include prominent speakers.

At 7:30 the banquet will be held in the banquet room at the Henry Clay Hotel. Plans include an address by one prominent speaker and several minutes speeches.

The convention will be closed with a dance in the hotel, to begin at 10:00 p. m.

(Continued On Page Eight)

ARTHUR PLANK GIVEN 7 YEARS FOR KILLING OF JOHN SPRINGER IN COURT SESSION ON TUESDAY

DR. A. Y. LLOYD LANDS' BIC FISH AT KINNCUNICK

The thrill of landing an "eighteen and one half pound musk-teen" in the language of the fisherman, came to Dr. Lloyd last Saturday, when the "kiss-e-d event" took place at Kinncunick in Lewis county. Dr. Lloyd was spending the week end at the home of Fore. Eham at that place, together with Mr. and Mrs. Hendrix Tolliver.

The muskie put up a terrific battle for freedom and was only landed after a strenuous put-in in which Dr. Lloyd was assisted by Mr. Tolliver. The fish measured 41 inches in length and weighed 18 1-2 pounds. It is no doubt to add that Dr. Lloyd was highly elated with his catch.

Organ Recital At Methodist Church

A popular program of organ music which will include composers from Beethoven to Irving Berlin, will be played on the Hammond Electric Organ, at the Methodist Church, Thursday evening, June 25, at 7:30. The instrument which is loaned by the Baldwin Piano Co., of Cincinnati will be played by L. H. Horton, head of the Department of Music at Morehead State Teachers College. Mr. Horton will play some popular tunes as well as some of the lighter classic and old favorite hymns. The ability of the Hammond Organ to imitate instruments like the banjo, syphon and cello, as well as the various orchestral instruments will be demonstrated. By request a special arrangement of "The Music Goes Down and Around" will be played.

Mrs. Ellington Lands Big Bass Of Day's Catch

No more will Dr. A. F. Ellington be able to boast of being the star fisherman in the Ellington family. His day of rod and reel is past. Mrs. Ellington now holds the fishing reins or pole or rod or reel. Take your choice. What ever it is, she holds it. Mrs. Ellington landed the big fish of the fishing party on Licking River last week end. While Doe was pulling in five little teasers, Mrs. Ellington was calmly awaiting her turn to land a bite. At last her turn came and she felt her pole bend with the weight. She reeled it in and on the hook was one of the finest big bass that has been caught recently. It was a beauty and even Doe admitted it. The fish was hooked with a Blue Creek Club as bait.

JOSEPHINE MYERS DIES OF WOUNDS FITCH IS HELD IN CARTER COUNTY

Robert Fitch, former campaign manager of the New Head Independent, is being held in the Carter County Jail under bond of \$5,000 for the murder of Josephine Myers of Farmers. The killing which was claimed to be a "double" took place Friday night, about 12 o'clock at the Driscoll House in Carter county. Miss Myers was employed there as cook. Fitch had recently leased the place.

An autopsy revealed that Miss Myers had been shot, although her body showed sign of a terrific beating. Examination showed that her left arm had been broken and her face and chest were bruised and lacerated.

Fitch was given a preliminary hearing on Monday at Grayson and was bound over to circuit court at that place, under bond of \$5,000. As he goes to press he had not yet been able to make the bond and was being held in jail.

Evidence produced at the hearing tended to incriminate Fitch in the

Ed Hall Freed Of Murder Charge While Alfred Hall Is Given Five Years

A number of important cases have already been disposed of in the June session of the Towns Circuit Court, with a number of others continued to the next term and still others coming up for trial at this term. Prominent among those which have been determined are the Ed Hall trial for the murder of Charles Crum, the Downing robbery for which Alfred Hall was tried, and the trial of Arthur Plank for the murder of John Springer.

Ed Hall who was tried for the murder of Charles Crum, last September was acquitted of the charge. Evidence produced by the defense tended to show that Hall had shot in the performance of his duty and in self defense.

Probably the case that drew the most attention was the trial of Arthur Plank for the murder of John Springer. Plank was given seven years at Frankfort. It was a compromise verdict. Evidence introduced by the Commonwealth proved that Plank had carried a gun for the purpose of killing Springer for over two years and that the murder was deliberately planned and executed. Nineteen bullet holes were found in the dead man, and Plank admitted that he had killed him, claiming self defense. He said that he had fired nine bullets into Springer's body. The killing occurred last winter at a sale that was being held in that section. Ted Stone who was indicted on the same charge for the killing of Springer, had his case continued to the fourth day of next October term.

Wednesday morning the case of Dennis Wilburn, charged with the rape of his ten year old daughter, Ruby was set for trial and was tried. As we go to press the trial has not yet been finished.

The Grand Jury up to the present has returned 29 indictments, several of which have gone to trial at this term.

Prominent among the cases tried on indictments returned at this term was that of Alfred Hall who was captured Monday, June 15, indicted Tuesday, June 16, and tried Wednesday, June 17. He was indicted for the robbery of the home of

ELECTROLUX AGENCY TO BROWN MOTOR CO.

The agency for the Electrolux refrigerators has been accepted by the Brown Motor Company in connection with their Dodge and Plymouth Agency. Mr. Brown is pushing the sale of the refrigerator and is meeting with excellent success. The electrolux is operated on a small amount of kerosene or with natural gas.

death of the girl. Her body was kept sitting upright on the table in the kitchen of the Driscoll House, with a 25 caliber revolver clamped loosely in her hand. The kitchen was said to have been covered with blood. The bullet had entered the exact center of her forehead. An autopsy held Saturday by Carter county authorities produced the bullet which together with the revolver have been sent to ballistic experts for examination. On the results of that examination will depend a considerable part of the case of the Commonwealth.

Miss Myers was the daughter of Mr. and Mrs. Clarence Myers of Farmers. She was a sister of Miss Ferdy Myers of this city. She was at the time of her death aged 21 years. She survived by her parents, Mr. and Mrs. Clarence Myers, and by three brothers and three sisters. Funeral services were held at the home on Saturday, with Brother Bailey in charge. Burial was made in the Jones Cemetery at Midland.

BAD LUCK FROM BONUS

The following editorial appeared in the Maysville Independent, recently. It is particularly timely at the present time, applying as it does to the Bonus Bonds.

Locally there has been a remarkable difference in the bonus payment this time and the former payment. The service men have not rushed to cash their bonds as was expected, but on the contrary have been very conservative about cashing them. Thus far only a small fraction of them have made application and sent their bonds in for payment, scarcely one seventh of them to be exact.

Incidentally, there seems to be no one here who has been approached in the matter of spending the money on "fly-by-night" pro positions.

The soldier's bonus has brought bad luck to a number of those who received it. One San Francisco veteran proceeded to get drunk after buying a new automobile, lost control of the car and backed it over his mother, killing her. Another soldier, with a family were taken to a hospital. It is improbable that there will be anything left of his \$400 bonus balance when he and his family are able to leave the hospital.

But there are bound to be a few of these cases among so many. They attract attention by the fact that there are so few of them. In the main, the soldiers are spending their bonus money for clothing, shoes and goods for their families, in some cases for homes, in others to get rid of debts and for the most part in putting new life blood of cash into general business. A lot of this money is going to be wasted. That can hardly be helped unless the veterans have dependents, in which case probate courts and juvenile courts can protect the veteran against himself by having his money paid into court and disbursed by a court officer.

There are some folks to whom money in considerable amounts, or more than they are accustomed to having, such a large amount proves a curse. That has always been true, long before such a thing as a bonus ever was heard of, but when one stops to consider the good the spending of this bonus money will do the few cases of mis-spending sink into insignificance. We are sorry for those who proceed to get drunk when they get money. But these, like the poor, we have always had with us. Folks who make a practice of getting drunk are bound to have bad luck—they always did—and especially is that true of the man who gets drunk and drives, or tries to drive, an automobile.

We are sorry, of course, all of us, for the veteran who killed his own mother by his drunken driving. We are sorry for the poor fellow whose car ran off the road and put him and his whole family in a hospital. But these few instances hardly offset the great good for some of the more substantial things of life. It is a pity that any of it should be thrown away, under such circumstances as exist among the veterans now, but for one who wasts his bonus there will be a hundred who invest it in some useful way. — Maysville Independent.

CAMERA CATCHES RACKETEERS

The camera can't lie—and its ability to tell the truth, the whole truth, and nothing but the truth, recently brought grief to a group of fake accident racketeers.

Two cab drivers in Chicago were approached by this group, who offered to pay well if they would aid in faking accidents from which damages could be collected. The drivers reported this to officials of their companies, who reported it in turn to the state attorney's office. The drivers were instructed to accept the offer of the racketeers—and the state attorney arranged to have moving picture operators, using cameras with telescopic lenses, shoot the events as they progressed.

The accident was staged, and the cameramen got the pictures. The racketeers were arrested and shown the evidence. Result was a plea of guilty—and three more of the leeches who prey on honest business "went out of circulation" for a time.

INCREASE IN BUSINESS

Federal land bank bonds to be called soon.
Farm prices are mixed during week.
Share market improvement is impressive.
Mongol Reports bookings in may above 1935 period.
Business on increase in all sections.
Security prices in advance; power group strengthens.

day's trade here 868.
Building value in may 70 per cent ahead of 1935.
What is higher in Chicago city; corn, oats, gain.

News Of Yesteryear FROM THE FILES OF H. NEWS

SEVEN YEARS AGO The June term of Circuit Court closed today following a crowded criminal docket.

In honor of the birthday of her daughter, Frances, Mrs. C. O. Peratt entertained 86 guests at her home on Wilson Avenue.

Mr. and Mrs. Steve Caudill are the parents of a fine baby boy, born Thursday last week.

The Eighth Grade of the Normal School enjoyed a graduation banquet at the Methodist Church Tuesday.

FIVE YEARS AGO Announcement is made of the birth of a daughter to Mr. and Mrs. Everett Caskey, June twentieth. Mrs. Edith Proctor and Miss Edna Neal entertained at their home Saturday evening with eight tables of bridge.

Miss Mary Martin was operated upon for appendicitis at a Lexington hospital last week.

Addison Fouch, nine year old son of J. W. Fouch living east of Morehead was seriously injured last Sunday morning when he was struck by a car in attempting to cross the road in front of it.

ONE YEAR AGO Mrs. Letitia Wells Bradley, 93, died at the home of her son following a long illness.

Morehead lost 9.5 in Sunday's baseball tussle with Flemingburg. Striking a winning streak last Thursday Morehead took a double header from Paris.

Frances Burns entertained a number of her friends Wednesday, June 19, on her eight birthday.

Mr. and Mrs. W. H. Brown announce to marriage of their daughter, Miss Pearl Brown to Mr. John Wylie Love of Olive Hill, on June 8, at Maysville, Ky.

In a meeting last Friday the city council by a unanimous vote accepted the water proposal whereby the college will supply the city with water.

Bill Gillespie who has been employed at Bishop's Drug Store for several years has accepted a position in Ashland, Ky.

Shirley Temple Tops Cozy Program In Screen Hit "Captain January"

Hummable new tunes, tantalizing new dances, and Shirley Temple in her most lovable, believable role. These are the entertainment delights that 20th Century's "Captain January" brings to the Cozy Theatre Friday and Saturday, June 19 and 20.

A score of three tinkling tines, all with music by Lew Pollack, again give the curly-headed star an opportunity to exhibit her singing talent. Chief of these is "The Right Somebody to Love." For her dancing partner in a series of intricate new steps Shirley now has Buddy Ebsen, tap star of Ziegfeld Follies and sensation of "Broadway Melody of 1936."

The underlying dramatic story of "Captain January" deals with the adventures and near tragedies Shirley and her two grizzled sea-sailor friends, Guy Kibbee and Slim Summerville. Kibbee, who had rescued Shirley from the sea when she was an infant, is jealously fond of the little girl, for ever afraid that somebody will turn up with a better claim to her.

When Sara Hadden, the mean old trunk officer, threatens to ship Shirley from him, Kibbee stops his quibbling with Slim, and they join forces to temporarily outwit Miss Hadden.

The climax of the picture is devoted to a thrilling sea-chase, in which Shirley and Kibbee flee from Miss Hadden in a sailing ketch, but although they are caught their friends contrive to bring a happy ending to the picture.

A romance between Jane Darwell and Kibbee is one of the comedy elements of the picture, which in the surprising youthful romance honors with Buddy Ebsen.

When Sara Hadden, the mean old trunk officer, threatens to ship Shirley from him, Kibbee stops his quibbling with Slim, and they join forces to temporarily outwit Miss Hadden.

State National and International

FARMERS TO SEEK RELIEF Bismarck, N. D. — Drought-relieved farmers assembled in county mass meetings throughout North Dakota Saturday to discuss means of relieving their plight.

Gov. Walter Welford planned to compile their suggestions, fly to a Washington conference with President Roosevelt and seek federal funds for sustenance for the farmers and feed for their livestock.

The federal crop reporting board returned conditions "fairly" especially in the western stretches of North and South Dakota and eastern Montana. The board found the spring wheat crop on June 1 was only 66.9 per cent of normal. This figure, it added, "must have a rain."

But meteorologists forecast only continued fair weather, with high temperatures that has heated the soil and parched the plains. Wheat prices lifted to national peaks as traders termed drought news sensational.

DROUGHT CUTS STATE CROPS

Drought has cut Kentucky's tobacco crop two-thirds and wilted other crops. Reports Saturday showed heavy damage already done with much more probable if there is no rain the first of this week. Forecasters saw little hope.

Tom Middleton, state agriculture department tobacco statistician, estimated at Frankfort Saturday that 90 per cent of the plants are dead. Normally the plants are 80 per cent out at this time of year.

The department's reports showed corn and hay suffering. The drying out of pasture lands provoked a milk price dispute in Louisville. Farmers without pastures wanted higher rates because they had no use winter feed. A survey showed much winter pasture delayed and in danger of destruction.

Meteorologist James L. Kendall said the Louisville weather bureau found unfavorable prospects for rain. He said tobacco was slowly drying up, but most of the corn had a chance if there was rain by July 1.

The strawberry crop was wilted in midseason after a good start. Later berries have been lost. The "bleeding of the berries" was called off at Danville because there were no berries. In Warren county, farm agent A. E. Ewan estimated a 24 per cent reduction in the tobacco crop. Dairy conditions also were reported serious because of the result of stock water and feed shortages.

Ewan said many farmers are feeding cattle regular winter rations while others are feeding alfalfa bushes.

Believed to have been ignited by sparks from a train, 100 acres of wheat were burned last night.

12 CHILDREN ARE DROWNED

Lubeck, Mo. — Bewildered grief-stricken parents arranged Saturday to bury 12 Lubeck school children drowned when a small boat upset in south of there.

Only five of the 17 occupants of a 14 foot gingly, powered by an outboard motor, escaped death. They included the operator, Calvin Lundin, 56 Lubeck Ridge Cripple.

The normal routine of this sardine packing port was paralyzed by the

shock of the tragedy. More than 150 pupils, teachers, parents and friends horror-stricken and helpless, as a sudden gust of wind and the playful antics of some of the occupants capsize the little gingly in 10 feet of water.

No other boat was available for rescue work. Miss Stella Burhoe, a teacher, stripped off her clothing, swam 100 yards to the scene and brought two little girls ashore.

Coast guardsmen from West Quaydy Head and firemen from Machias and East Machias recovered all the bodies before darkness.

ONLY 10 PCT OF VETERANS FAIL TO ASK FOR BONDS

Washington. — The Veterans Administration said only 10 per cent of the eligible veterans had failed to ask for their bonus bonds so far.

BRITISHERS PROTEST LIFTING OF SANCTIONS

London. — Thousands of letters swelled parliamentary mail bags Saturday in protest against the government's decision to support lifting of sanctions against Italy.

Many persons, at home and abroad wrote and called their opinions to Prime Minister Stanley Baldwin and Anthony Eden, foreign secretary.

Labor leaders, sponsoring the protest campaign, left for week-end speaking tours by which they hope to increase the volume of protest against the cabinet's action.

FIGHT YIELD \$ WAS \$600,000

New York. — Max Schmeling and Joe Louis each received \$140,015.14 for their 12-round heavyweight fight at the Yankee Stadium Friday night.

Officials figures announced, reveal the actual paid attendance was 39,872 and the gross receipts \$599,872.01, of which \$547,372.01 came in at the gate while the remainder—\$52,500—was paid for the radio and movie picture rights.

IRISH FREE STATE SEEKS BAN ON REPUBLICANS

Dublin. — The Free State called out soldiers in full kit tonight to combat a ban on the irrepressible Irish Republican Army.

The Defense Ministry, moving to stop an intended E. R. A. Assembly at Bodenstown, twenty miles south of Dublin, ordered troops thrown around the entire town.

Other regiments were mobilized in reserve, nearby at Curragh. Excursion trains which had been booked to take parties to Bodenstown were canceled. Belfast police were reinforced.

With Dublin municipal elections but ten days away, some thought the militant rap at Republicanism might check an anticipated landslide for President Eamon de Valera's Finnsers Fall Party.

MURPHY ORDER EXTRADITED

Frankfort, Ky. — Governor Chandler ordered the extradition of Senator John T. Murphy to Ohio Saturday to face a charge of forgery.

The governor announced his decision to newspapermen and said it was made following a thorough and searching study of the entire record in the case.

He deferred signing the formal extradition papers until Senator Murphy had an opportunity to be notified.

JEST A-WHITTLIN' AN A-THINKIN' BY PETE GETTYS

When the Lord made the world in six days he certainly was entitled to rest on the seventh. Jest think of the details he had to take care of to make all the birds an' animals an' fishes an' plants an' trees an' flowers.

Jest teachin' the migratory birds where to go and the way there and back, was about as interestin' a thing He ever did. And strangely enough, migrations of birds is old stuff. It's in the books back there nearly 3,000 years, to the times of Homer, Herodotus, Aristotle, and other old fellers like that.

Even in the Bible are several references to these regular movements

of birds. In Job: "Doth the hawk fly by thy wisdom, and stretch her wings toward the South?" And Jeremiah wrote: "The stork in the heaven knoweth her appointed time; and the turtle (dove), and the crane, and the swallow observe the time of their coming." An' the flight of quail that saved the Israelites from starvation in their wanderings of the wilderness of Sinai is now figured out as a whoppin' big movement of quail between their breedin' grounds an' their winter home in Africa.

Looks as if country folks and city folks are takin' more interest in birds than they used to do. At one time, express cars was packed full with coops of quail that'd been caught in nets, bein' shipped to the Northern markets—whole covias was wiped out an' the Government figures every quail on the farm is worth \$5 for the bugs and weed seeds he eats.

An' these Game Conservation fellers are doin' great work—hatchin' quail in incubators and raisin em in brooders like baby chicks.

Here's some sure nuff signs of improvin' business condition that beat all the opinion of these expert professional economists:

"Patient medicine men, with their bags of tricks and cure alls", plentiful this season."

"The big circus tent full each night."

"Farmers again carryin' check books."

"Farm homes and buildings showin' signs of recent repair."

"The lightning rod salesman, almost unheard of for the past several years again making the rounds."

"The actual business gains boasted by automobile dealers, merchants and bankers."

The Garden

Gardeners desiring about for some thing out of the ordinary to include in their "second" gardens, might well consider broccoli. The fact that

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Theodore's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The green color sticks to the powdered Black-Draught; the youngsters probably will prefer it when they discover their childish love of sweets. Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Theodore's Black-Draught (powder) about fifteen years, since it has helped me. Black-Draught sets well and I am always pleased with the results. I would a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just what I need."

BLACK-DRAUGHT

it's something unusual need not deter them, for it is quite as easy to grow as cabbage. In flavor it resembles cauliflower, but excels it in food value. For broccoli is a green vegetable.

For the benefit of those who are not acquainted with this vegetable, leaves with spreading, after the manner of collards, but excels it in food value. For broccoli is a green vegetable. For the benefit of those who are not acquainted with this vegetable, leaves with spreading, after the manner of collards, but excels it in food value. For broccoli is a green vegetable.

Broccoli is usually grown as an early crop. With the coming of hot summer weather, plant-growth tends to stop, but if insects are kept at bay, and production resume, Broccoli, growth may start again in the fall, and may be started in mid-summer, to come into prime bearing at about the time the nippy frosts arrive and continue until the "black" frosts set it down.

Seed-sowing time is in late June. "Slips" may be raised in a seedling bed, and set in the garden when they have made 4 or 5 leaves, or the seed may be sown in groups of 2 or 4, spaced 24 inches in the row, and the seedlings thinned to one at a place in this way, the need for watering for a setting, "sowing", or for having to water and nurse the s-out transplants, is obviated.

Primarily a foliage crop, broccoli needs extremely rich land. A heavy dressing of well-rotted manure, or one of composted tree-leaves, lawn trimmings, and the like, is recommended. If the latter is used, complete fertilizer such as 4-8-6 or 5-10-5 should be used in conjunction. The manuring or application of other humus material serves, too, in giving the soil "condition," enabling it to catch the moisture from showers that fall. In common with so many of the vegetables, broccoli consists largely of water.

When these fall rains come, it is of benefit to side-dress the plants with "quick" nitrogen, as in nitrate of soda or sulphate of ammonia, to hasten the formation of bud-clusters and to increase their size.

*Broccoli is subject to the same pests that attack all members of the cabbage family. The green worm may be particularly troublesome, and so may grass-hoppers. Both these are easily stopped by dusting with arsenicals until the time buds have begun to form. Once bud-setting starts, switch should be made to a dust containing one per-cent of rotenone, the insecticide non-poisonous to humans.

Cabbage lice may also appear, but they are adequately controlled by spraying with nicotine sulphate, tobacco extract. Added killing power is given tobacco sprays by including a small amount of soapuds, and by spraying in bright sunlight, or when the temperature stands above 60 degrees.

New York at Night-- Turns Over New Leaf

The brilliant, sparkling saga of New York at night is entering this year upon a new chapter.

The city still blazes, after dark, with millions of red, white, blue and yellow lights.

Music, torrid and tantalizing, still flows forth upon hundreds of acres of floors.

The world's most beautiful women, fill step from a thousand motor cars, each moment of the evening.

Manhattan's history he is demanding his money's worth—even in night pay a tiny sum for the privilege of sitting down, with food and drink extra, is going out of style. The night club sandwich, which no one has ever expected to eat and which was served over and over again so many times that it actually got bored with its plate, is passe.

"The trend, nowadays is back to the time of Diamond Jim Brady," says Jack Dempsey, who has become

servicing him a sloppy stew under a American food. He wants fresh-cooked vegetables. If he drinks he wants to drink good liquor. Even wines have come in for a revival of popularity."

"What's more, according to the ex-fighter, a 'big evening' in New York is no longer first class to a night club. People have got wise. They've discovered it costs real money to dash in and out of a dozen and one night clubs. What they're looking for these days is one cocktail to dinner and then stay spot where they can progress from around if they feel like it, for dancing and late supper.

One popular New York institution that was unknown in Diamond Jim's day is the cocktail lounge. This is a little bit of bar, where mothers, daughters, wives and sisters meet for a martini, old-fashioned or a glass of sherry. Lights in the cocktail lounge are always dim and flattering. The bar is a masterpiece of modern art. (Dempsey's cocktail lounge, for instance, has a coral and gray interior with a bar of silver metal and sculptured chrome and leather chairs make (tongue glass.) Low-slung divans and the lounge a comfortable place for the ladies to wait for an escort who may be delayed by business.

But no fussy trimmings for the gentleman's bar. The keynote there is speed and the decorations are most by liquid!

THE SHOWPLACE OF NEW YORK JACK DEMPSEY'S

Crowds are still dotted with the symbolic hat.

But—Under that high hat (and under a plain felt, too, because formality fellow watches his bill a lot closer in dress, is slightly on the wane) Mr. New York Stepper-Out, has gone. The Stepper-out insists on being very sane, sensible and moderate prices. You can't get by thrifty. More than ever before in fancy French name. He wants good

The cover charge, whereby you one of Manhattan's most successful restaurants, "Except the modern a fellow watches his bill a lot closer in dress, is slightly on the wane) Mr. New York Stepper-Out, has gone. THE SUNDAY

SCHOOL LESSON

Kazer, Pastor of Baptist Church.

Written each week by Rev. B. H.

SUBJECT: Jesus Meeting Human Needs - Review Lesson.

GOLDEN TEXT: "Jesus of Nazareth... went about doing good." Acts 10:38.

This lesson is a review of the past quarter, and we cannot hope to cover it all in detail. We shall give two glimpses of the study. We are now at three salient points which give a closing of the study of Luke's account of the life of Jesus, and that life is summarized in the Golden Text.

Only the blind cannot see that the world needs Jesus. Who ever does not believe it admits one of the two things. He does not know the need of the world, or he does not know the works of Jesus. Try to fix the needs of humanity, and see how impossible it is to answer them with the means which man affords. Those needs are far deeper than social adjustment. They reach the fountains of man's being, the heart, with its utter impurity and sin, and the requirement of a supernatural readjustment to the righteous God. This is something man cannot give.

Jesus needs the world needs a Saviour, Teacher, and Lord.

1. A Saviour. Seven of the quarter's lessons bring us these messages in order of their sequence to show how He met the world's needs as Saviour: (1) The Saviour has come to save. Luke 1:16-18. Luke 2:25-35. 40. (2) The Saviour is doing what he came to do. Luke 4:16-30. (5) The Saviour saves from sin to service. Luke 8:26-37. (4) The Saviour invites everybody to be saved. Luke 14:15-24. The Saviour shows what we must do to be saved. Luke 15:11-24. (6) The Saviour willingly became sorrowful unto death. Luke 22:39-53. (7) The Saviour died for our sins according to the Scriptures. Luke 22:33-46.

2. As Teacher. Eight of the quarter's lessons bring us the messages on how Jesus met the world's need as Teacher. They follow the above in sequence of arrangement in our quarterlies: (1) He insists on righteousness. Luke 6:39-49. (2) He helps a doubter. Luke 7:19-28. (3) He teaches neighborliness. Luke 10:25-37. (4) He teaches his disciples to pray. Luke 11:1-13. Luke 13:1-14. (5) He teaches true values. Luke 12:22-34. (6) He teaches the true view of wealth and poverty. Luke 16:19-31. (7) He inspires honesty. Luke 19:1-10. 45-48. (8) He teaches forgiveness, and gratitude. Luke 17:1-19.

The needs met by Jesus as Lord. These also follow in regular sequence: (1) He is approved by the Father. Luke 3:21, 22; 4:1-13. Also 9:28-43. (2) He is conqueror over Satan. Luke 4:21, 22; 4:1-13; 22:7-23. (3) He is directing the extension of his Kingdom. Luke 13:18-20. (4) He is victor over death. Luke 24:1-7. (5) He is reigning now at the right hand of God. Luke 24:36-53. (6) He commands us to be ready to appear before him. Luke 24:35-47; 21:3-9, 34-36.

This is evident, from Luke's account, that "Jesus went about doing good."

er's lessons bring us the messages on how Jesus met the world's need as Teacher. They follow the above in sequence of arrangement in our quarterlies: (1) He insists on righteousness. Luke 6:39-49. CIRCUIT COURT

(Continued From Page One)

George G. D. Downing in which robbery he obtained a sum of \$450, half of which was returned to Downing when he was captured in Portsmouth Ohio. Monday afternoon he was given a term of five years in Frankfort. Cecil Hall, brother of Alfred, was released on the same charge when the jury found the evidence insufficient for a conviction.

Other cases tried to date and not reported.

W. H. Hogg & Hogg

ATTORNEYS-AT-LAW

included in last week's report are as follows: Jack Swim and John Swim, charged with barn burning, Not Guilty. Charles Johnson, Jr., and Everett Bradley (not, Reb) charged with chicken stealing, Guilty, sentenced to sixty days in jail. George Baldrige, maintaining a common nuisance, Guilty, \$20.00 and costs. Mansford Winkelman, Virgil Nickell, Arthur Nickell and Fowler Nickell, continued to third day of next term.

WEST MOREHEAD

Mr. Boon Holland took the following group to church near Lawrence Co. Sunday, Mr. and Mrs. D. H. Marshall and family, Mr Rufus Hayes and boys, Mrs. Estill Dalton and Mr. and Mrs. Russell Barker and family. They report a very good time.

Mrs. Emery Ferguson of Lawrence County is visiting Mr. and Mrs. D. H. Marshall at this place.

Mrs. Cora Johnson and Mrs. Estelle Alley of Bangor visited their sister Mrs. Otis Foster and family

over the week-end.

Mr. and Mrs. J. W. Jones of Cincinnati were the week-end guests of Mr. and Mrs. M. W. Steele and family.

Mrs. Walter Caudill and little daughter, Aileen, spent the week-end in Paintsville with Mr. Caudill who is working there.

Mr. and Mrs. Claude Brown and Mr. and Mrs. Walter Caudill were in Lexington Saturday on business.

Mr. M. W. Steele who has been very sick for some time shows no improvement.

L. C. McGuire and wife were in Ashland Friday shopping and visiting with friends and relatives.

Mr. and Mrs. Ernest Kiger and family of Muncie Ind., are visiting friends and relatives in Morehead and at Haldeman.

L. C. McGuire spent the week-end with his sister Mrs. W. H. Ruffett and family at Winchester.

Mr. Harlen Scargo attended a shower given at the home of his sister and brother-in-law Mr. and Mrs. Nath Workman on Dry Creek in honor of their son Mr. Robert Work-

man and wife who was recently married. Quite a crowd attended and many nice and useful gifts were brought, games were played, refreshments served. All report an enjoyable evening and wish the bride and groom a long and happy life.

sister and daughter, for the cars that were offered and for the beautiful flowers that were sent.

"Things To Come" College Feature

H. G. Wells' amazing forecast of the future, "Things to Come," will come to the College Theatre Friday night. The story of "Things to Come" is as follows:

It is Christmas Eve, 1940. John Cabal, an aviation engineer, sits quietly in his study reading the newspaper which features headlines regarding an impending war.

A surprise air attack at midnight brings about immediate mobilization. The city is bombed and practically destroyed.

The war continues for many years, and by 1966 our present civilization has been practically wiped out and those who survive are reduced to the most primitive forms of living.

The enemy spreads a horrible disease known as the "wandering sickness."

"The Boss," an aggressive, unquiet

adventurer, has seized the reins of what little government there is left. He assigns young Richard Gordon to repair a motly collection of salvaged planes.

By 1970 conditions had improved slightly, but due to a lack of tools and materials, Gordon has had no success. Suddenly out of the sky comes an airman in strange garb. It is Cabal, who after the war settled in another part of the world and has become the head of a group known as Wings Over The World, whose aim it is to restore — But see this picture at the College Friday.

Also featured at the College Theatre this week is Walt Disney's sequel to "Three Little Pigs," a new technicolor short called "Three Little Wolves," starring The Big Bad Wolf with his triplets and the Three Little Pigs.

According to reports from radio city Music Hall, where it is now playing, "Three Little Wolves" is exceeding in popularity its famous predecessor.

Forest Department Battles Fire Bugs

The United States Forestry Department is determined to stop the setting of fire in or near the Cumberland Forest is being evidenced locally by the manner in which they are gathering evidence on fire bugs and are holding their feet to the fire." Recently a number of larvae have been made and the department is making plans to force the issue where ever the evidence warrants.

Sam, Curt and Eddie Wright, Clearfield, were arrested for setting fire to the woods near Cumberland National Forest timber.

At a hearing before Federal Commissioner Will Hays on June 17 at Winchester, Kentucky they were held for appearance before the Grand Jury at Cattlesburg, each under \$250 bond.

Robert Walker, plied gasoline to the charge of "borrowing" gasoline from a Forest Service trailblazer. At a hearing before the Commissioner, he was fined \$25 and released.

District Ranger, Karl M. Stoller, has announced an unrelenting campaign against fire and property trespass on the National Forest and any one found guilty of setting the woods on fire, either maliciously or through carelessness, will be prosecuted under the Federal and State Laws.

Urges Platform Planks at Convention

The picture shows Raymond Pitcairn, National Chairman, Sentinels of the Republic, offering a series of platform points to members of the Resolutions Committee of the Republican National Convention at Cleveland. Seated is former U. S. Senator Hiram Bingham, vice-chairman of the committee drafting the platform. The Sentinels urged a platform which stressed the American standard of individual liberty, including Home Rule and restoration to the worker "of his inalienable right to be self-supporting."

Rowan County To Get Road Money

It was announced today by Cecil T. Williams, Commissioner of Rural Highways, State of Kentucky, that forty-three (43) Counties have submitted their programs, amounting to \$687,600.10, and that work on most of the projects will be under way by July 15th.

Since the Division of Rural Highways was set up by May 1st, 1936, delegates from fifty-nine (59) Counties have visited the Department, Mr. Williams stated. Nearly two hundred County Officials comprised these delegations.

Seventeen Counties have submitted their programs but have not sent Delegations to Frankfort, Mr. Williams said.

The forty-three (43) Programs submitted have been forwarded to the District Highway Engineers, in the various Districts for investigation and approval.

Mr. Williams stated a large number of the Counties have made application for Convict Labor but there has been some delay in getting this labor on the Highways, due to the large amount of work to be done by the Welfare Board in determining the per diem cost to the Highway Department. The cost of this labor is to be charged to the Counties allotted from the Two Million Dollar Rural Road Fund.

Mr. Williams stated, his Department this week appointed Assistant District Engineer in each of the nine Road Districts to handle Rural Road work and this should speed up the work of his Department.

The amount allocated to Rowan County, for construction, improvement and repairing rural roads, \$11,561.36.

The program for Rowan County has not been received by the Division of Rural Highways, Mr. Williams said.

BONUS BONDS

(Continued From Page One)
going to save it for a rainy day when I'll get some real benefit from it." Number Two said, "I'm going to take most of it and buy me a little home. Then I'm going to take the rest and spend it on improvements. Nobody's going to catch me wanting this money. It's all going to be spent for my family."

"I'm going to cash part of my bonds," said another, and pay up all the bills I owe, so I can start over again. The rest I'm going to salt away until I need the cash worse than I do at present."

"My bonus is going into my business," said another. "I don't know of any better way to invest it than to improve my store and stock. I'm going to make it make more money for me."

Out of fifty or more service men interviewed by the News reporter, not one stated that he was going to buy a car with his bonds. One did say that he was buying a truck to be used for his business which is hauling. Thus it would appear that the automobile dealers in this section at least will be disappointed when it comes to cashing in on the payment of the bonus.

There is little doubt but that the majority of that \$8 cashed and spent will be spent for homes and for repairs, as well as clothing and family necessities.

Rain Shortage In Kentucky

It is not the object of this column to emphasize unduly the fact that in many parts of Kentucky, rain shortage exists, but to pass on hints to circumvent this condition, should it continue, or become more general. At it happens, what applies to gardening in seasons of scant rainfall, applies also to operating the garden when moisture is adequate, or even excessive.

Water is an important asset to gardeners. All the vegetables contain high percentages of moisture, and, more than that, their quality depends on its being available in lavish amount. Although rains are to be desired, from time to time, during the growing season, vegetables can be produced and have been produced, by utilizing only the rain water and the melted snow that fell in the winter previous. Gardeners who had the Kif land broken last fall and let it lie rough, were in splendid position to store abundant moisture supplies on which now to draw. This is true of most of the state.

If such lands were early disked, furrowed, or chopped fine with a hoe, the soil depth and below, then dragged or raked to mash out the few clods that remained, the moisture-reser-

voir, as it were, was sealed, if, further, only shallow stirring of the soil was done in cultivation, to improve the weeds as soon as they started, that moisture was saved to the vegetables, or at any rate, a great deal of it.

Not all gardeners had their gardens fall-broken. Some of these, in fact, were driven to delay breaking until after the excessive rains of last spring suspended, and, in their haste, perhaps, did not prepare their seed beds in fashion fine enough. As a result of clods being present, the soil is quite too porous, and deep moisture rises, and passes off through evaporation. Such gardeners need not give up, even though present present vegetable plantings do not promise to bear, or to continue bearing, but should look to making their "second" garden fruitful, starting now, chopping up all clods and reducing them to dust. Then, they should tramp the soil where the rows are to be, with a hoe or a roller, and wait, either for a light rain, or, if the job is properly done, for a raise of moisture that is absorbed in every winter season, even in lands left unbroken.

All gardeners, even those favored with adequate moisture should cultivate assiduously, removing any weeds, competition as soon as it arises. The word is "cultivate," not "work," for working carries with it the idea of deep stirring, a sure way to waste soil moisture, to say nothing of curtailing root area. If ever a plant needs all its roots, it is in dry time. Cultivation need go no deeper than 1-2 inch, but all the soil surface should be covered. The surface, furthermore, should be kept level; hilling and ridging are not necessary in any season; in one these practices are positively harmful, because moisture is wasted, lost to the crop.

A passing word concerning insects is timely. No plant can will spare any of its foliage or any of its plant top, at any time; in dry times, it is the more important that any insect injury be checked as soon as it is noted. Leaf choppers and bugs should be stopped with contact sprays. Eternal vigilance and cultivation should be the watchword of all Kentucky gardeners, even after the moisture situation has improved.

Economic Department Estimates Family Need

It takes 15 1-4 pounds of bread, cereals or baked goods a week to keep a farm family of four persons in a healthy, vigorous and moderately contented state, the University of Kentucky home economics department found in a study of diets at minimum costs. The estimate is based upon two active adults, and a girl 12 years old and a boy 9.

As to milk, 17 quarts—not pints—should be consumed regularly every seven days. To afford variety, cheese by some similar dairy product may be substituted, but the quantity should not be lowered. At least 15 eggs should be used, and 5 pounds of lean meat or poultry. Fats and sugars should total 3-12 pounds each.

Two pounds of potatoes will be enough to meet health requirements, and 5 pounds of tomatoes. Leafy green and yellow vegetables are needed in the amount of 7-12 pounds. That is, peas, spinach, carrots, cauliflower, string beans, lima beans, broccoli, etc., should be used plentifully. If the garden makes it at all possible to use a larger quantity of vegetables, it should be done.

Dried beans, peas and nuts are required. Two pounds of dried fruits and 8 pounds of other fruits and vegetables, are the last items on the list. Larger quantities of some foods are desirable, and these figures should be adhered to only where strict economy is necessary. The diet is, however, balanced and fairly adequate.

Employment Shows Increase Trend

Placements made during May by the National Reemployment Service in Kentucky showed a gain over the preceding month for the third consecutive month, according to Myer Freyman, state director. Total placements numbered 5,886, the highest figure since June 1934; 1,198 above the total for April, and 1,971 above the May 1935 total. A favorable balance was shown, in that 3,004 more placements were made than new

applications recorded. New applications showed a decrease for the third consecutive month. Percentage increase in total placements over the previous month and the corresponding month of last year were 23.6 and 57.7, respectively.

Of the total placements made, 3,378 were on public works, 141 were in private employment and 2367 were on WPA jobs. Men placed numbered 4,803 and women, 583. Veteran placements, included in the 5,886 numbered 518, the highest number since last September: 117 veterans were absorbed by private industry, 117 by public works.

Shortages of registered construction workers of practically all trades including bricklayers and workers who can operate some types of power machinery, continued to be noted throughout the state. The shortage of handy workers, varnish painters and white domestic workers continues to be acute in the Louisville district.

Private placements numbered 1,937, a 19 per cent above the April total, and a 23 per cent above the corresponding month of last year. Of the total private placements 652, or 45 per cent were regular (over thirty days employment) and 799, or 55 per cent temporary (thirty days employment or less).

Classification, by industry, of private placements shows that domestic and personal service supplied 535 jobs; building and construction, 309 jobs; agriculture and mining 283; manufacturing and retail business; 132; professional service, 117; governmental other than public works, 27, miscellaneous, 10 transportation and communication 9.

The Louisville office, with 325 private placements, led the state in this field for the fourth consecutive month. The Ashland office ranked second, 23 short of the leader. Public works jobs exclusive of WPA placements absorbed 3,578 workers, the largest number since April 1934. Besides Bureau of Public Roads projects which are all serviced by the National Reemployment Service, and other governmental programs and agencies which are supplied with workers by the Service, 75 WPA projects under construction in May were serviced. Of this number, 73 were already underway, 2 were

completed during the month and 9 were begun in May. The latter group included school buildings at Lexington and Stanton, Powell County. Completed projects were waterworks at Midway, and a school at Manchester. Applications in the active files as of May 31, totaled 245,240 of which 14,225 were veterans. New applications recorded during the month numbered 3,382, of which 111 were veterans. Renewed applications totaled 1,655, registrations, 1,774 and interviews, 14,392. Field visit numbered 995 of which 817 were made to private industry.

Placement Activities (by District) shows Public 312, Private 302, Other 28, Total 642 of which 41 were Veterans.

FARM AND HOME

Starvation is the cheapest and most effective way to control house ants. Cut off their food supplies by eliminating traces of cake, bread, sugar, meat, and other attractions. This is done by storing food in tight refrigerator or in metal, insect-proof containers.

An abundance of closets should not be forgotten in building a new house or in remodeling. Every bedroom should have at least one closet, and there should be several others in the house. Where sewing is done at home, there might be a closet for sewing equipment, machine, pressing board, shelves for piece boxes, rods for hangers, etc.

Salt is essential to the normal growth of hens and should be kept before them. Care must be taken, however, in placing salt before hens if they are not accustomed to it. Start with a small amount and gradually increase it until the animals eat all they want.

Summer eggs are profitable. Continue feeding dry mash and cut down on the amount of grain. Be sure that plenty of fresh, clean water is always before the hens, unless milk in feed. Reducing the amount of grain feed compels the hens to eat more mash.

100 BEAUTIFUL HOME SITES 100

And Ten Baby Farms At Absolute Auction, "College View Addition To Morehead, Ky."

On **THURSDAY, JUNE 25** At 10:30 A. M.

The Premises Located on Midland Trail, Federal and State Road No. 60, Just East and Adjacent to the Growing College City

MOREHEAD ROVAN COUNTY KENTUCKY

AN ESPECIALLY HEALTHFUL LOCATION, GOOD CLIMATE and GOOD CITIZENSHIP.

Morehead is located at the intersection of State and Federal Highway No. 60, (the Midland Trail) and State Highway No. 32 (the Allie Young Highway) and the main line of the Chesapeake & Ohio Railroad, and is a thriving city of about 3,000 people, about half way between Ashland and Lexington, and is the home of the wonderful Morehead State Teachers College, center of educational opportunities in the eastern portion of Kentucky.

Within the past 13 years the State of Kentucky expended over three million dollars in substantial brick and stone buildings (not equalled anywhere) for this Teachers College, built a modern water plant and two fine buildings are now under construction, the Science Building which calls for a total expenditure of \$250,000.00 and a Dormitory at an expenditure of \$181,000.00.

The city has splendid graded high schools and the college makes the very best educational advantages to be found anywhere. Several new, model roads have recently been constructed leading to this thriving city.

Morehead has the following industries in and near the city: Lee Clay Products Company which employs over 200 men; The Kentucky Fire Brick Company, General Refractories Company, which manufactures fire brick; Wholesale (modern) Bakery, known as the Midland Baking Company; Ice Plant, and two Wholesale Groceries.

Morehead has all modern conveniences—Electricity, New Water Plant that supplies fine water, and an ample supply of Natural Gas is available and soon will furnish gas to the city.

There are two strong Banks and two wide-awake County Papers, a splendid Modern Hotel and four good Churches.

The Home Sites and Baby Farms are located in a fertile valley, in full view of this wonderful College and many of the lots and Baby Farms have healthy seven year old apple and peach trees on them. The surroundings are very desirable.

"A Greater Morehead is Assured! Be on hand and do your part. There has never been so great a demand for homes in Morehead and absolutely no Vacant Homes."

PATTERNS OF WOLFPEN

By Harlan Hatcher

Sparrel smiled at her the kindly recognition which seemed to begin out of sight and spread slowly into the corners of his brown mustache and beard. He went into the kitchen, reaching both arms around Julia from behind and placing the sack on the table beside her.

"Mix that up with your sour milk and soda, Julia. There's the first meal out of the first steam-mill in these hills."

Julia was pleased and proud and she showed it in her movements as she poured and mixed the meal while Sparrel and Cynthia looked on. But she only said, "The new mill pleased you right well, Sparrel?"

"Just about like I figured. Now I can grind any time and I can rig up a saw and I'll be handy to rip out boards. It'll be a big help on the place."

"I was wondering how a bit of steam can do things like that," Julia said.

"I'll have to show you one day for it's not possible to tell you just what words."

Julia poured the yellow batter into the deep skillet and put it into the oven, Sparrel went out to the wash rock, while Cynthia set the table, thinking of her father and all the things he did that distinguished him in her mind.

From the other men along the creek and how they always thought his ideas wouldn't work. There was the drying kiln with a fireplace under it so they could dry fruit in cloudy weather and not have to hurry about it.

"You'll spile your fruit that way," Sparrel; takes sun to dry apples. Now most of them had kilns. When he built the tanning vat, he shed the eye pits, and used opossum oil to soften the fine leather, they said.

"You'll sure spile those hides, Sparrel, if you put 'em in that hole with that ground-up stuff." Now he tanned most of their hides in his vat. When he planted the new orchard out

the slope of Barn Hollow and put a four-foot of corn deep in the bottom of each hole, they said, the mill's sure a thunder and them roots out!" But Sparrel said the mice ate the corn instead of the trees and dug easy channels for the young roots to sink into. And when he built the brick plant down by the clay barrow, they said, "You can't ever make that kind of clay hold together, Sparrel." Now they got brick from his kiln to put in place of the old cats-and-clay chimneys.

She heard the three brothers coming in from the barn to wash for supper.

Supper is a nice time, The dusk of evening begins to crowd the day, light out of the valley and force it up the mountains, bringing everybody and everything from around the place into one spot where it's warm and the food is cooking. The boys and rest, and I don't mind doing the supper things because everybody is happy after he is fed; the chickens go to roost in the trees, and the cows lie down on the wet grass, and the horses go to eating in the meadows and Daddy sits in his corner and Mother in hers."

Cynthia was up and down during the meal, waiting on her father and the boys with buttermilk and fresh bread while they talked of a big day at the mill, of the men who had come, of the plans for the spring's work in the fields: Abrai still full of excitement, talking fast and alert; Jasper reserved and keeping silent; Sparrel in good spirits after his great success; Julia, still slender and beautiful with her smooth black hair parted in the middle and drawn back above her ears, carrying the fresh corn bread into the stewed tomatoes and eating slowly, watching over the table and listening to her men.

"It made a real good run of meal, but I didn't get a very good do on the corn harvest," she said, after her fully moist and flaky between the crisp brown crusts.

You never made a better piece of corn bread in your whole life, I reckon," Sparrel said.

Julia was full of her pride because he said it, even though she knew he was complimenting her no more than the mill.

After supper while the boys were putting things in order for the night at the barn, and Julia was milking the cow and tending to the springs in the milk-house over the creek, and washing them in the big tin pan on the stove and Sparrel sat at his desk in the corner stretching his long legs and writing in his ledger.

"He always puts everything down in his books, Cynthia thought, watching him having his pleasure at the end of 'a' day." April, 1936, erected first steam-mill. Warm. Plenty of sun, Poplar Bottom ready to plow." The best part of him seemed to her to belong in that corner under the shelf of books; the old brown Bible with the family name in it; the complete files of the Franklin Almanac beginning with Number

XX, 1838, being the second after back into the hollow. And spring it fourth of July, the 23rd of Ameri-nearly come again and with it and the fresh morning we begin all over again in a new day. I guess it is a good way to live. If"

After Sparrel had bathed his feet and felt the gentle friction of his nightgait against his bare flesh, he lay by the window in their down stairs room on the soft feather-bed. Julia had brought with her to Wolfpen after her wedding. Now that the new mill which he had planned and the winter was completed, and everything on Wolfpen orderly again in its place, and his children content with their life, he could rest in peace as he waited the coming of Julia and sleep.

Things are about the way I want them around the place now. Everything is handy and we've got just about all we need to run a place on. We've been getting it brought up every year now since I was a child. My boys won't have much more to do to it only keep it up and enjoy it. It's about as good a place as there is around here. It looks good and feels good. This house here, this Pattern house that took four beginnings of it to get built, it doesn't cover under the mountains nor cringe up a narrow hollow like lots of them do; it stands up and looks around at things coming into order out of the wilderness, the way a man's house ought to stand, like himself. Takes work to build things. They don't order themselves. It's like breaking in a new colt, only a colt stays broke, but nothing wants to stay just right for any length of time after it gets right.

"April again, hurrying by as usual on wet feet. Getting time to put seed in the ground again. Fifty-three Aprils I've seen come and go, and forty eight I remember. Each one is better, the good of all the past ones."

And there are his medicine books he doesn't like for me to bother, but he likes for me to gather up the green peach-leaves and peppermint oil of the mountain and get the apple brandy on the brown sugar for him to make up his flux medicine with when people on the creek get sick with bloody-flux; and the yellow dock for the tick; and get the salt and turpentine ready when he pulls a tooth for a neighbor. I like to hear them say, "Sparrel Pattern's the easiest hand in the world to take a feller's tooth out." And it's a good thing he can make medicine and doctor people because nobody else on the creek knows how like he does."

She hung the dishpan on its nail in the wall over the stove, Julia came in from the milk-house. Then the boys came in.

A family is a funny thing when it sits around the fire. There's Mother in her corner finishing up a new shirt for Daddy and her fingers flying about and she looks content and doesn't say anything. You have three brothers, they're all Patterns, but they're all different and you like them all but you like Jasper the best, some how. He sits and reads; when he talks, his voice is good and he may be right serious or he may say a funny thing. Jasper will sit with something on his mind and Abrai will go to sleep before he knows it. And Daddy writes things in his book and reads or cobbles or studies up something never speaking hard of anybody. And then, always in a good humor, silent, then we'll all be a little sleepy and somebody will yawn and Daddy will wind up the watch on the table. Then you step outside into the dark but it isn't dark after a minute because the rain has washed the stars and the wind has blown them back and there hangs the Milky Way right up above Wolfpen. Just like the days; light had been crowded out of the bottoms and was waiting up there all in a long patch until it can come down in our valley again; then you go to bed and forget things and the next morning it has tumbled right

back into the hollow. And spring it fourth of July, the 23rd of Ameri-nearly come again and with it and the fresh morning we begin all over again in a new day. I guess it is a good way to live. If"

KEROSENE OPERATED ELECTROLUX

brings you Modern Refrigeration at LOW COST

RUNS ON KEROSENE (COAL OIL) WITHOUT MACHINERY. . . NEEDS NO ELECTRIC CURRENT. . . NO DAILY ATTENTION. . . NO WATER

NOW give your food the finest protection modern science has devised! Put an end to the inconvenience and waste of inadequate or makeshift refrigeration . . . running back and forth to the well house for supplies . . . traveling long distances for ice over bad, washed-out roads . . . losing valuable meat and milk through spoilage.

Kerosene Electrolux keeps food in perfect condition 24 hours a day . . . brings you all the comforts and conveniences that have made the gas-operated Electrolux Refrigerator the favorite for the finest city homes and apartments the country over. It gives you plenty of ice cubes at all times . . . new delicious desserts . . . more freedom from kitchen work.

Picture this beautiful, labor-saving Electrolux in your kitchen! And remember: Electrolux operates on ordinary kerosene (coal oil) for just a few pennies a day . . . one filling of the tank lasts a week or more. Owners find that savings on refrigerating cost and on food bills make Electrolux actually pay for itself.

The outstanding efficiency of Kerosene Electrolux is the result of its simple operation. A wickless glow-type burner does all the work . . . takes the place of all moving, wearing parts. Electrolux uses no water. Clip coupon for booklet.

NOTE ALL THESE ELECTROLUX ADVANTAGES:

- NO MOVING PARTS TO WEAR
- LATEST EFFICIENT BURNING COST
- FULLEST FOOD PRESERVATION
- EVERY MONTH WHILE OPERATING
- SAVINGS THAT PAY FOR IT
- AVAILABLE IN 4 FAMILY SIZES

MAIL THIS COUPON

BROWN MOTOR CO.,
Morehead, Ky.

Gentlemen: Please send me, without obligation, further information about the new Electrolux, Kerosene Refrigerator.

Laughing Around the World With IRVIN S. COBB

The Proper Remedy At Last

By IRVIN S. COBB POSSIBLY inspired by the missionary work of Puseyfoot Johnson, a Scotch minister undertook a temperance crusade among the members of his own flock.

deliver a sermon upon the evils of strong drink, with physical illustrations to prove the argument. Upon the appointed morning a congregation which crowded the kirk greeted him. Upon the pulpit he placed two glasses; one containing whiskey and the other spring water.

From the body of the church there rose up a lantern-jawed person. "Minister," he said, "might I ask where you got the whiskey in that tumbler?"

"I'm glad you put that question," said the clergyman. "I purchased it at that den of iniquity, the public-house, which stands at the top of the street not a hundred yards from this place of worship."

"Thank ye," said the parishioner. "I'll be gone 'ere on the morrow. For years I've been troubled with worms."

hills, Ky., and will continue until noon, July 17. All boys who attend the Baptist Church or Sunday School, or whose preference is that church, are eligible to attend. The cost of the camp has not been announced, but it is expected to be no higher than previous years.

This camp has proven to be a splendid affair and Pastor B. H. Kazez urges every boy over to age 16 in clusive to attend if possible.

Pastors and laymen in Brackett Baptist Association will be in charge of the camp, and it will be managed with the usual care and efficiency. Any boy may be trusted to the management with complete assurance that he will be looked after with greatest care. The usual study courses in missions, stewardship, and other phases of church life will be given. Also swimming, hiking, bird study, flower study, and other activities such as yard games, baseball, etc., will be given for entertainment. Anyone desiring to go may see Pastor Kazez and get complete details.

Will Farley Killed In Elliott County

W. W. Farley died Friday as the result of injuries sustained when the truck in which he was riding went over an embankment in Elliott county.

Mr. Farley who was well known here, was maintenance foreman on the Elliott county roads, being an employee of the State Highway Department. Mr. Farley was appointed to his position January 1.

Following the accident the injured was brought to Morehead and from here was taken to a hospital at Lexington where he died in a short time. The remains were returned to Sandy held Sunday afternoon.

Mr. Farley was one of the well known and well liked men of Elliott county having taken a prominent part in the election last year. He was a brother of Dewey Parley, who formerly carried the mail to Sandy Hook. He is survived by his wife and eight children.

Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination; backache, headache, dizziness, loss of energy, leg pains, swellings and puffiness under the eyes? Are you tired, nervous - feel all wrong and don't know what is amiss?

Then give some thought to your kidneys. Be sure they function properly for functional kidney disorder produces excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's see for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.
