Miller Has Article Printed In Journal

Professor Of Education Has Another Treatise Published

Dr. Frank B. Miller, professor of education, has another article in the Kentucky School Journal. The article is entitled "The Professional Teacher," and appears in the May issue of the Journal.

A resume of the article is as follows: Not everyone was licensed to practice his profession, is a professional teacher. Training, accomplishments, philosophy, understanding and ability as a teacher are essentials.

A professional teacher is not a coward, but he is fearlessly honest. "He co-operates with organizations seeking to improve professional standards." The professional teacher has "a high sense of responsibility for the welfare of the profession."

The professional teacher "measures his achievements and responsibilities by the standards of those in the profession whom he respects and admires." He believes that service to the child and to humanity is his highest obligation.

This is the fifth article of Dr. Miller's to be published in the magazine since 1935.

It Is Dangerous

It is dangerous to sell a Substitute for 66¢ just to make three or four cents more. Customers are your best assets; lose them and you lose your business. 66¢ is worth three or four times as much as a Substitute.

Better livability and Superior breeding insure success when you buy Dorsey's PIONEER BAY CHICKS. KY U. S. Approved and Fulfillment tested. Eighth year of steady flock improvement. Free catalog. Box L. FLEMINGSBURG HATCHERY, Flemingsburg, Ky.

Editorial Interest Means Advertising Interest

A paper cannot possibly be a good advertising medium unless it is a good newspaper. It is the editorial content of a paper that wins readers—wins them into interest, understanding, believability and complete confidence. These same editorial virtues are transmitted into the advertising columns so that ads, in a good paper are considered through the same eyes as are the news stories. Readers of the Morehead Independent know its news, feature and editorial sections are sincere, honest and understandable. When your ad appears in The Independent, readers automatically apply the same standards to it. That's why Independent advertising is more productive for businessmen . . . and that's only one of the many reasons . . . ask us about others.

Morehead Independent

Packhorse Library

A beautiful rose bedspread was given away Monday for the benefit of the Packhorse Library. Mrs. Ed Fannin was the lucky recipient. Fifteen dollars was cleared and books are being bought for the library with this money.

An effort is being made by each of the twelve carriers to put out an average of twenty-five books and seventy-five home magazines a day. Most every home in Rowan county is being visited every three weeks.

Following are two of the carriers' reports: Les Reed—I travel horseback in one of the most mountainous sections of Rowan county and there being no highways in the district people do not have access to much reading material and are pleased with my books and magazines. They ask that I be sure to come back.

Leslie Hiltbrand—I work in one of the mountainous sections and the people are very glad we have this project. They are all very appreciative of the materials I take them.

Reports of this type come in every day and the library staff is very glad to serve its people.

An ice cream, tea party and book shower will be given at the Packhorse Library Wednesday, June 8, from 1:00 p. m. until 3:30 p. m. Everyone is invited. If each person will bring a story book and come the library will repay them with a good time. Refreshments will be served. We hope this will be the biggest day in the life of the library.

TWO PER CENT BURLEY INCREASE IS APPROVED

The State approved and sent to the White House Monday revisions in quotas for cotton and tobacco this season under the new farm act. One change would permit used cotton quotas to be reallocated to other farms within the same state. Reference would be given to farms within the same county.

States' Buildings at New York Fair

NEW YORK.—This sketch was made from final plans for the Court of the State Buildings at the New York World's Fair 1938. Here the various states of the union, most of which have taken space for their displays, will exhibit their natural advantages and industrial accomplishments. The English section is shown above. There will also be Church and Spanish areas.

CIGARETTE INGREDIENTS LEAD MARCH IMPORTS

Major portion of imports thru the Louisville customs district for the month of March were raw materials for use of the big cigarette factories in Louisville.

MORE FOREIGN INQUIRIES FOR GOODS FROM U. S.

Reports received from Washington this week from representatives of the United States Government stationed abroad list many specific opportunities for the sale of American-made merchandise in overseas markets. The list includes an inquiry from England for the purchase of Douglas fir doorys in lots of from 3,000 to 5,000 and a specific opportunity in Chile for the sale of paraffin wax in shipments of from 40 to 50 tons.

KENTUCKY FARM NEWS

If one has to eat hominy, then "hominy a la coldenod" probably is the best way to do it, husbands in Rockcastle county said after their wives had learned to make it at homemakers' meetings. It is a streamlined dish now, they affirmed stoutly.

A hen that lays 27 eggs in 30 days—that is the kind of a hen to have, in the opinion of J. B. McDowell, of Caldwell county.

With a record like this his flock last month was one of the best demonstration flocks in the State. Three of the 10 best flocks were in Caldwell county.

Ormsby Village in Jefferson county has 4,000 chicks, all in a healthy condition. Expecting to make a profit on the birds, they have installed modern brooding and laying house equipment and plan to appeal to out-of-season buyers.

Plans of sheep growers in Union county for the month of May include the sale of 75 registered rams and an equal number of ewes at Evansville, and a field day and barbecue May 31. The Golden Hoof club is sponsoring the cooperative marketing of wool through the Kentucky Wool Pool.

More money for eggs by wise marketing—Monroe county farmers have attained this goal. By shipping eggs to Georgia, to the Atlanta Blue Ribbon hatchery with which they have a working agreement, a good premium over local prices for No. 1 eggs is received.

Dogs constitute a distinct sheep menace, but poor quality is a greater danger, believe Carroll county breeders. Along with regulations for insurance and enforcing the dog law, they are rapidly buying a higher quality sheep to replace run down animals.

"FROZEN FOOD" INDUSTRY MAKES BIG SAVING

In response to the increasing number of inquiries received in the Bureau of Foreign and Domestic Commerce concerning quick frozen or frosted foods, a survey setting forth the principal aspects of this new American industry has just been received by the Louisville District Office of the Department of Commerce from the Foodstuffs Division.

The Survey presents a brief history of the rise of the industry, but deals principally with the methods of preparing and packing, storage and transportation and trade statistics on production since 1926.

Another timely service to the industry incorporated into survey is a selected list of reference on quick freezing and a list of trade journal articles on this subject set in chronological order. The survey points out that researchers have estimated that waste eliminated in frozen vegetables and from 15 to 80 per cent in meats and sea foods.

"This world was created several years back, and really will continue several years more, I hope. Changing hats, changing dresses, changing styles, etc., are all indications of a new world."

WONDERS Abound In KENTUCKY!

What you haven't seen of Kentucky's wonders would probably fill weeks of pleasure! When you go to see things that are not in Louisville, it means, of course, that we'll miss seeing you at The Brown. But still we say: Above all, see ALL of Kentucky! . . . Doubtless you've been to Mammoth Cave . . . and Harrodsburg's Fort Harrod . . . and Hodgenville's Lincoln Memorial. Have you also seen Pine Mountain State Park near Pineville, and the ancient buried city at Wickliffe? . . . Wonders never cease in Kentucky! First and foremost, let's all know and be proud of our own wonderful State!

- Plan to See:**—Fulton County—Radfoot Lake, formed by earthquake—sportsman's paradise.
- Harrison County—Scene of two Civil War battles at Cynthiana.
- Hart County—Mammoth Caves Cave, Hidden River Cave, Floyd Collins' Cynsial Cave.
- Jessamine County—High Bridge, one of the most scenic points in the State. Camp Nelson and Nisenoil Cemetery, 8 1/2 miles from Nicholasville.
- Knox County—Barbourville. Site of first known cabin built by white settlers.
- Lincoln County—Crah Orchard Springs, where William Tell, made by the only settler, beheaded.
- Madison County—Boonesboro, first established by Daniel Boone in 1775, also Bens College.
- McCreary and Whitley Counties—Cumberland Falls, comparable only to Niagara Falls in the United States. It has a drop of 75 feet in one State Park through the gift of the late Coleman duPont, a native Kentuckian.

H. C. Haggan Takes Poultry Class On Trip To Lexington

Visit Poultry Farm At Experiment Station And See Man O' War

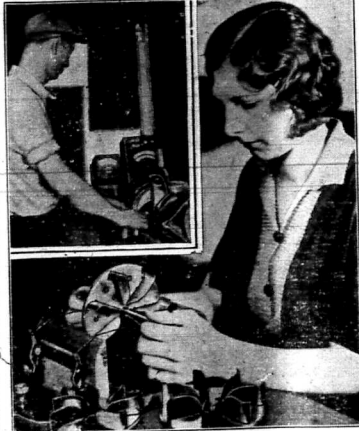

Mr. H. C. Haggan, professor of agriculture, recently took his poultry class on an all-day field trip to Lexington. They visited the Kentucky hatchery, where they observed the operation of man-

moth incubators, holding sixty-five thousand eggs each. The hatchery sells annually three million baby chicks. The class also saw eighteen thousand chicks in one flock being brooded in batteries.

The class went to the poultry department of the University of Kentucky, where experiment station methods of incubation and pedigring were explained by J. Holmes Martin, head of the department.

They saw the Experiment Station poultry farm flock. The class saw Man O' War and made a tour of the Dixiana and

TEST, TEST AND TEST

American industry, according to consumers information, surmises that of any other country its exact methods of testing products and assuring maximum performance before passing them on to the user. One company reports, for instance, that 25% of the labor and cost of production goes into testing. Above are

shown tests of two of the 600 different operations which go into the manufacture of their vacuum cleaners. The young lady is balancing the fan, the intricate job in which she puts tiny drops of solder on the joint side until the balance is perfect. The operator testing air passage, suction power and wattage, on a government test-block.

Widener farms. The class attended the baby chick show at the Phoenix hotel. Chicks from adjoining states and from several adjoining states and from hatcheries in Kentucky were exhibited. A moving picture showing the embryology of eggs on each successive day from the first to the twenty-first was shown. The film was worked out by Dr. Romanoff, head of the experiment station of embryology at Cornell University. The film has been booked for a showing here.

BI GAIN IN U. S. GRAIN EXPORTS TO THE DUTCH

Netherlands trade with the United States during the first quarter of 1938 recorded a sharp gain on the import side, chiefly as the result of larger arrivals of grains, flour, cotton and steel products, according to a report to the Louisville District Office of the Bureau of Foreign and Domestic Commerce.

The increase was 136 per cent compared with the first quarter of 1937, while the value of these imports amounted to approximately \$26,715,139 and increased 82 per cent over the same period.

An outstanding feature of the United States-Netherlands trade during the first quarter was the partial recovery of the United States as a grain supplier to the Netherlands. Due to the larger crops in the United States coupled with shorter crops abroad, exports of corn and wheat to the Netherlands during the period ranked first as the source of supply and in addition imports of barley and other grains from the United States recorded sizeable gains, while imports of United States flour during the first quarter almost doubled the corresponding period a year ago.

Article Written By Dr. Judd Published

"Teaching In The Fourth Dimension" Is Title Of Item

An article written by Dr. R. D. Judd, head of the education department, has been accepted by The Progressive Education, the only national magazine published in the South. The article, "Teaching in the Fourth Dimension," will be published in the near future. "To teach requires men of ingenuity, courage, tact, patience, and a host of other fine sensibilities. The virtues of the teacher is legion. To put it negatively, she is to teach so as not to inhibit. In a positive sense she is to liberate, to encourage expression, to lead indirectly. Teachers are engaged in making men and women who shall be able to live the more abundant life."

Dr. Judd concludes the article from a poem by Galsworthy: "No printed page nor spoken plea can teach young hearts what men should be."

Not all the books on all the shelves. But what the teachers are themselves.

For education is: MAKING MEN."

FWAA Holds Annual Meeting

The Kentucky Federation of Women's Athletic Association in its recent meeting on the Morehead campus, showed in its registry a voting representation of three colleges, University of Kentucky, Western State Teachers College, and Morehead State Teachers College. Delegates from Upton were also present, but the club in that college has not yet been organized.

Jane Welch, University of Kentucky, president over the business section in which the platform, which had been drawn up by a committee of the local W. A. A., was accepted. Russel Palmore, of the University of Kentucky, recorded the minutes in the absence of the official secretary.

The officers elected for the coming year are Frances Ferratt, M. S. T. C. president; Frances Laval, U. K. vice president; and Maud Holthouse, Western, secretary-treasurer. Christine Mitchell was elected by acclamation to the new office of publicity manager. It is the plan of the Federation to publish a list of news from the club in a letter written by the publicity manager.

VIRGINIA TYPE "WEED" GROWS WELL IN JAVA

Experiments which were conducted in the growing and curing of the bright blue-cured Virginia type of tobacco in the Bodjonegore region of Java are reported to have proven satisfactory, according to a report to the Louisville District Office of the Department of Commerce.

It is reported locally that the 15 curing sheds which were employed in the experiment will be increased by an additional 15 sheds and that the growing area will be enlarged. The report stated that the new crop of the bright blue-cured type of tobacco will be planted early in the current month and will be harvested in October.

Fire Brick Company Makes Agreement With Local 795

This agreement, dated May 12, 1938, between The Kentucky Fire Brick Company (hereinafter referred to as the "Company") and Local Industrial Union No. 795, affiliated with the United Clay and Tile Workers, on behalf of the members of the Local Industrial Union No. 795 or its successors (hereinafter referred to as the "Union") employed by the Company.

SECTION 1
It is the intent and purpose of the parties hereto that this Agreement will promote and improve industrial and economic relationships between those employees who are members of the Union and the Company, and to set forth covering rates of pay, hours of work and conditions of employment to be observed between the parties hereto.

It is understood and agreed that this Agreement pertains only to members of the Union employed in the Company's mines and plants. The term "employee," as used in this Agreement shall not include foremen, assistant foremen or supervisors in charge of any classes of labor, workmen, clerical or salaried employees.

SECTION 2
Recognition
The Company recognizes the Union as the collective bargaining agency for those employees of

the Company who are members of the Union. The Company recognizes and will not interfere with the right of its employees to become members of the Union. There shall be no discrimination, interference, restraint or coercion by the Company or any of its agents against any members because of membership in the Union. The Union agrees not to intimidate or coerce employees into membership and also not to solicit membership on Company time or plant property.

The obligation on the part of both parties not to exercise any intimidation or coercion shall be deemed to prevent any application to another of such force, either physical, moral or mental, as to induce or constrain him to do against his will something he would not have otherwise done and not to commit any act of making any person timid or fearful or of deterring such person from some act by threats.

SECTION 3
Wages
The Company shall continue to pay wages at the rates now in effect.

SECTION 4
Hours of Work
The eight (8) hour day and the forty (40) hour week, heretofore established by the Company, shall remain in effect but this section shall not be construed as a guaranty of hours of work per day or per week.

A day shall be any twenty-four (24) hour period and a week shall be a calendar week.

SECTION 5
Seniority
It is understood and agreed that in all cases of promotion and increase or decrease of forces, the following factors shall be considered, and where factors (b), (c), (d), and (e) are relatively equal, length of continuous service shall govern (continuous service to be based on United States Steel and Carnegie Pension Fund Rules for Service Continuity):

- Length of continuous service.
- Knowledge, training, ability, skill, and efficiency.
- Physical fitness.
- Family status; number of dependents, etc.
- Place of residence.

SECTION 6
Adjustment of Grievances
Should differences arise between the Company and the Union or its members employed by the Company as to the meaning and application of the provisions of this

Agreement, or should any local trouble of any kind arise in the plants or mines, there shall be no suspension of work on account of such differences but an earnest effort shall be made to settle such differences immediately in the following manner:

First, between the aggrieved employee who is a member of the Union, and the foreman of the department involved;

Second, between a member or members of the Grievance Committee, designated by the Union, and the plant superintendent;

Third, between a member or members of the Grievance Committee, designated by the Union, and the general superintendent of the plant;

Fourth, between the representatives of the National organization of the Union and representatives of the executives of the Company; and

Fifth, in the event the dispute shall not have been satisfactorily settled, the matter shall then be appealed to an impartial umpire to be appointed by mutual agreement of the parties hereto. The decision of the umpire shall be final. The expense and salary incident to the services of the umpire shall be paid jointly by the Company and the Union.

Specified periods shall be agreed upon between the Grievance Committee and the general superintendent of the Company for presentation of grievance hereunder. Provided, however, that matters pertaining to discharges or other matters that cannot reasonably be delayed until the time of the next regular meeting may be presented at any time in accordance with the foregoing provisions.

The Grievance Committee shall consist of not less than three (3) employees of the plants and mines, and not more than (11) such employees, designated by the Union, who will be afforded such time off, without pay, as may be required.

First, to attend regularly scheduled committee meetings.

Second, to attend meetings pertaining to discharges or other matters which cannot rea-

Britain Joins New York Fair

NEW YORK—A stirring scene in front of the Administration Building at the New York World's Fair 1939 as the Union Jack of Great Britain is hoisted aloft signifying that John Bull will be represented at America's exposition. The British exhibit will occupy 148,000 square feet, the largest of the 64 foreign displays now being prepared, and will cost several millions.

sonably be delayed until the time of the next regular meeting.

The total number of members of the Grievance Committee and number from each department shall be mutually agreed upon between the general superintendent of the Company and the Union.

It is specifically understood that the provisions of this Section respecting appeal to an umpire shall not apply to matters which may arise under Section 10 nor to matters which may arise under Section 11.

SECTION 7
Management
The management of the works and the direction of working forces, including the right to hire, suspend or discharge for proper cause, or transfer, and the right to relieve employees from duty because of lack of work, or for other legitimate reasons, is vested exclusively in the Company. Provided that this will not be used for purposes of unjust discrimination against any member of the Union.

SECTION 8
Discharge Cases
In the event a member of the Union shall be discharged from his employment from and after the date hereof, and he believes he has been unjustly dealt with, such discharge shall constitute a case arising under the method of

adjusting grievances herein provided. In the event it should be decided under the rules of this Agreement that an injustice has been dealt the employee with regard to the discharge, the Company shall reinstate such employee and pay full compensation at the employee's regular rate for the time lost. All such cases of discharge shall be taken up and disposed of within five (5) days from the date of discharge.

SECTION 9
Safety and Health
The Company shall continue to make reasonable provisions for the safety and health of its employees at the plant during the hours of their employment. Protective devices, and other equipment necessary to properly protect employees from injury shall be provided by the Company in accordance with the practice now prevailing in the plant.

SECTION 10
Individual Wage Rates
Where alleged inequalities in wage rates prevail the matter may be taken up for local plant adjustment, and settlement made on a mutually satisfactory basis.

SECTION 11
Change of Termination
This agreement shall continue until changed or terminated as follows:

(a) Either party may at any time and from time to time give ten (10) days' written notice to the other party of the time for the commencement of a conference of the parties for the purpose of negotiating the terms and conditions of a change in this Agreement, which conference shall be at the office of the Company in Haldeman, Kentucky, unless otherwise mutually agreed and

(b) If, because of failure to agree this Agreement is not changed, a written agreement entered into by the Company and the Union within twenty (20) days from the giving of said notice, then this Agreement and all of the provisions thereof shall terminate on the expiration of twenty (20) days from the giving of said notice.

Both parties shall be obligated to attend the conference and negotiate in good faith and the neglect or refusal of the party to whom notice is given to attend and participate in the negotiations shall be the equivalent of a failure to agree and the refusal of either party to change any position which it may take as to changes proposed in the negotiations shall not be considered as a lack of good faith

in the negotiations.

SECTION 12
Notice
Notice hereunder shall be given by registered mail, be completed by the Company, be addressed to Local Industrial Union No. 795 at Haldeman, Kentucky and if by the Union, be addressed to the Company at Haldeman, Kentucky. Either party may, by like written notice, change the address to which registered-mail notices to it shall be given.

PRINTING

There is nothing that speaks more forcibly than printed words which have that degree of neatness and stability found in fine printing. The Independent Publishing Company has a complete job printing department where every form of fine industrial printing is done.

Recording...

Every week recording the happenings, the business, the interesting and constructive features of a live and growing community. Breathing the life of progress and typifying the work and thoughts of the people it serves. That, briefly is the goal that the Independent has achieved.

Mr. and Mrs. Jim Clay and children, William Earl and Peggy, will leave Saturday for Hot Springs, Arkansas, for a two-week visit. Mr. Clay will take treatments in the springs there.

CAPITOL COMMENTS

(Continued from page 1)

director of the division of hospitals and mental hygiene, is to be appointed by the Commissioner of Welfare, from a list recommended by the Council of the State Medical Association. The director is to be in complete charge of the division and cannot be removed, except upon written charges sustained by a committee composed of the Governor, the Commissioner of Welfare, and a member to be named by the Council of the Medical Association.

Under the bill, the staff of each State Hospital must include besides the superintendent, a business manager, clinical director, occupational therapy director, supervisor of nurses, field liaison officer, dentist, senior and junior physicians.

The authorized personnel is one physician to every 150 patients with a minimum of one to every 300, and one attendant to every eight patients with a minimum of one to every twelve. The ratio of personnel to inmates in the institution for Feeble-Minded Children is optional; but a director of education is provided.

The Director of the Division will have supervision of other institutions receiving aid from the State and give service to the prisons. He may utilize public health and welfare department social workers in the general field of mental hygiene.

The bill requires psychiatric examination of all persons indicted for a capital offense or habitual criminals.

An individual is permitted to have his mental illness treated without being convicted of insanity, as if it were a crime; but must bear the cost of this treatment except in the case of pauper patients.

An important feature of this bill takes the personnel of the institution out of the political patronage class and will allow a permanent staff of experienced and qualified specialists to treat and care for the mentally ill.

The bill contains humanitarian features that provide for systematic treatment and attendance of all mentally ill patients in state institutions, not merely for confinement in state hospitals.

The division in cooperation with the State Department of Health

will develop a state-wide mental hygiene program looking toward the prevention of mental disease.

RANDOM SHOTS

The Special Session Chandler - Walls Bill, threw in the lime-light on Commissioner of Welfare, Frederick A. Walls, as a shining candidate in the next governor's race.

The election in Pennsylvania brought glad tidings to Governor Chandler here in Frankfort. The Farley backed candidate for Governor was defeated by a large majority. Senator Allen W. Barkley, seems to be between the proverbial devil and the deep blue sea in his campaign for reelection to the Senate. If the campaigns much in Kentucky his opponent will charge him in neglecting his public duty in the Senate. If he doesn't, he leaves the field free to his opponent. He is solving the problem every night by avowed trips to the battle-field, Kentucky.

FRENCH POST OFFICE ADVERTISES FRANCE

As a substitute for the commonplace picture postcard the French Post Office has issued a series of letter-cards illustrated with the natural and architectural beauties of various parts of France, and which are designed to promote tourist travel.

The first edition of the series contains illustrations of one of the French passenger liners while the stamp is in the form of a reproduction of the coat of arms of one of the provinces, a reported state.

The first edition was so popular that the supply was exhausted soon after it was placed on sale. The cards are sold in France for the price of one franc each.
