

FOR GOVERNOR. Hon. JOHN J. CRITTENDEN. FOR LEGISLATIVE GOVERNOR. Hon. JOHN L. HELM.

The Taylor Meeting on Monday.

In consequence of the very unfavorable character of the morning, and the frequent showers of rain which fell through the day,

the Taylor meeting on Monday last, was not so largely attended as it would otherwise have been.

It is seldom, however, that a larger assemblage convenes in a country mound, than that which for hours, sat spell bound under the eloquent enforcement of the generally acknowledged truth, that the brave, sensible and modest old man, whose availability as a Presidential candidate they had not to affirm, was not only sound, in the conservatism of his principles, but fortunate in his freedom from the asperities of life long collisions with ambitious aspirants, after the honors of political office.

The large Hall in which the meeting came to order, was well filled; and its character may have been the character of the politics of the nation of those present, their earnest interest, and devoted attention to the very eloquent speeches made on the occasion, proved that eulogy of Zachary Taylor is no heterodoxy in Kentucky, nor do the people re- like those who hollily proclaim his fitness and availability for the highest honors, as worshippers of false Gods. The speakers all avowed their readiness to support the nominee of the National Convention; and while they preferred the nomination of Gen. Taylor, for the reasons set forth in the resolutions, the harness of assent which they were to not chafe them, more so than the resolutions, the success of W. J. principles, as more important than the triumph of any individual, or the gratification of any feeling of personal attachment or preference. The frequent hearty applause, which followed any allusion to those beautiful incidents in the life of Gen. Taylor, which more than any studied eulogy, portray the character of the man, gave earnest of the enthusiasm, with which the hearts of the people will come up to his support, when his banner is given to the breeze by the National Convention—that banner, which has never thrashed in defeat, though often unfurled in the hands of other hearts than those which acknowledged Gen. Taylor for their leader, victory would have seemed impossible.

The eagle of yesterday indicates a remarkable assent in the estimate of many, when speaking of the Taylor meeting. It is perhaps only necessary (and is certainly proper) for us to say in reference to the evident plurality of Clay Whigs present, that the Editor of the Eagle is in our opinion most egregiously mistaken. His remark that there were but "20 or 30" Whigs, approving the letter of Gen. Taylor to the Richmond Republican, is equally erroneous. The one emphatic "No" given, we understand, by a dyed-in-the-wool Democrat; and that doubtless honestly given. It is said that quadrupled will given on pine shavings, if they are made to look like green needles—other hearts than those which truly know that "Richard was not himself!" that day, at least in freedom from excitement and prejudice. We can assure him, however, and all others who think with him, that if they are satisfied with the result of that meeting, it is a source of pleasure to the friends of Gen. Taylor, who left the house, after it was over in any thing else but a mortified or disappointed state of feeling. On the contrary, they were delighted with its numbers, its harmony, its enthusiasm, and joined heartily in the applause, with which Mr. McClung's answer, (anticipated by every sensible man present) to Dr. Moffatt's question in regard to the support of the nominee against any and all others was received.

In regard to the publication and distribution of the Republican letter, by the Editor of the Eagle, on the eve of a Taylor meeting, we say again it was wrong, and we advise our friend again, that the less that is said about it, the better. The twaddle about suppressing the Richmond Republican letter, can deceive no one, for fully itself could not suppose that the failure of the Eagle to publish it, in the objectionable form, would be equivalent to its suppression.

We will remark in conclusion, that the meeting was as large if not larger than the one which preceded it, and that the audience was more enthusiastic, and that during its progress quite as much delighted with the proceedings.

Let the convention select the candidate, and the Whigs of old Mason, now divided between Gen. Taylor and Mr. Clay, will be for the nominee, and ready to run the race with other Whig counties for the honor of the largest Whig majority in the State on the 7th.

The new steamship America cost \$400,000.

S. S. L'Hommedieu, the Delegate, to the Whig National Convention, selected by the Hamilton District at Cincinnati on Saturday last thus defined his position.

S. S. L'Hommedieu, Esq., said his first choice was the object of his wish, and that he would be glad to see it should be at the Convention. As to men, his first choice was Henry Clay—not Henry Clay, however, with defeat staring him in the face, but Henry Clay with a reasonable probability of success. If there appeared a small probability of Mr. Clay's success, when he should reach the Convention, he would go next for the most available true Whig.

Mr. Stevenson, of the Atlas, who is understood to be an ardent Clay man, was selected as Mr. L's altera.

The following resolutions offered by Mr. King, were adopted by the Convention, and will of course circumscribe the discretion of the Delegate, in so far as the views of the aspirants may be concerned, in regard to the subject matter of the resolutions.

Resolved, That whilst in all other respects this Convention will repose full discretion in the Delegate, in the selection of a candidate for this District in the Whig National Convention, at Philadelphia, on the 6th of June next, it is declared to be an express condition of the appointment of said Delegate, that it is not to cast his vote for any person, as the Whig candidate for President or Vice President of the United States, who is not a known and assured opponent of a further extension of slavery in the United States.

Resolved, That in thus declaring unqualified opposition to the further incorporation of slavery in the United States, the Convention will address the people of the States, by establishing the principle of a balance of power among the States of this Union; this Convention would be far from desiring or intending to infringe upon any vested rights of the States, but recognizes the obligation of the whole nation to protect those States of the Union, in which slavery already exists, from the extension of the same to other States, by constitutional rights, privileges and powers.

In regard to the qualification required in the first resolution, we would remark, that the term known and assured opponent of the further extension of slavery," requires of the candidate fitted for the honor of Mr. L's support, activity in his opposition to the objectionable policy referred to and that the requisition thus made, will have a direct tendency to place Southern Whigs in an attitude, antagonistic to our Hamilton friends, and thus narrow down the issue to be tried before the convention, to a mere question of active opposition to, or passive acquiescence in the establishment of slavery in any new States to be formed by Territory yet to be brought into the Union. For as we do not suppose that the South would advocate the extension of slavery, or require any other pledge upon the subject, than that the people of any new State might be permitted to choose their own policy in regard to this existing subject. We cannot but think, that the agitation of this subject in the manner referred to, will produce discord in the Convention, and ought to have been avoided, especially as it is not at all probable, that slavery would be introduced into any of the Territory likely to come under our Government by means of a treaty with Mexico.

The Washington Union, manifests its regard for the veto power to the exercise of which the democratic party have been so often indebted for the failure of Whig Legislation, by denouncing the position of Gen. Taylor on this subject, as defined in his recent letter to Capt. Allison, as one calculated to make him sink down in to absolute subservience to an opposite partisan majority. It is an insult to the common sense of the people, to call a party democratic, who are at all times ready to thwart the will of the people, as expressed through their representatives in the National Legislature, by invoking or applying the interposition of the Executive Veto.

A letter from Baltimore to Washington City, speaking of the effect of Gen. Taylor's recent letters has the following: "The Taylor letters have excited much attention in Baltimore, and the Clay Whigs now seem to look upon the old general with more favor as their second choice. They have increased his chances greatly for the Whig nomination, and they seem to think that he should speak out plainly or not speak at all. No one now sees it to entertain any doubt, however, of his being a Whig in all his principles and sympathies."

A recent fire in the City of Troy, New York destroyed \$150,000 worth of property.

DEATH OF MRS. APPLETON.—The New York Commercial Advertiser thus notices the death of Mrs. Webster's daughter.

Hon. Daniel Webster has again been visited with a severe domestic affliction. His only daughter, Mrs. Appleton died on Friday last, at a very advanced age, after she had been several weeks, under a pulmonary attack. We learn that for the last two or three years she had suffered a good deal from difficulty of respiration; this left her, however, before her decease; she retained perfectly every power until the evening of her death, and in her last hours conversed freely with her father, without the least weakness, or even distress, and declared herself truly a sad bereavement to Mr. Webster, and that which renders the loss of Mrs. Appleton so interesting is the fact that Maj. Edward Webster's body was hourly expected to arrive in Boston from Vera Cruz, it is not necessary to say that she and her father were to have intermarried together.

MURKINING.—W. W. Corcoran, a banker of great wealth in the City of Washington, has recently presented to the exposition of Georgetown (the place of his birth) the sum of \$10,000 for the benefit of the poor of that City. He designated in the gift, the purpose to which the interest is to be applied, and wisely, for the children of it is almost entirely life in the Eastern Cities, because of the fact, that the poor have not the means of laying by in summer, when it is comparatively cheap, a supply for the winter months during which is invariably scarce and high.

The New York correspondent of the Washington Union under date of the 31st inst. says: "Wall street just now is very nervous about the bank. A rumor that the Bank of Charleston had suspended specie payments made more currency this morning than it could have done at any other time. Undoubtedly there is but too much reason to apprehend a season of severe financial embarrassment at the south, and our friends there are wisest who prepare themselves for the worst. No return for her staples already sent out, except bills returned dishonored, and the great markets of the continent are closed against her for an indefinite period—this is a state of things against which she cannot bear up."

We have been requested to announce that some of the candidates for the Legislature, will address the people at Maysville, on Saturday next at 2 o'clock P. M.

We are indebted to our obliging and gentlemanly friend Samuel P. Armstrong, of the S. B. Dutchess, for late New Orleans papers. They report the arrival of Mr. Trist escorted by Gen. Cadwallader. The belief was becoming more general when the Steamship Virginia (on which they arrived) left Vera Cruz, that Congress would not confirm the treaty as amended. Gen. Kearney had been seriously ill at Vera Cruz, but was recovering.

VIRGINIA ELECTIONS.—There is no doubt, that the election for Members of the Virginia Legislature, has resulted in a Democratic gain. We have no doubt that this result is attributable in some degree to the unfortunate state of feeling the Whigs of the old dominion have suffered to arise in regard to Presidential Candidacy.
