## on. JOHN J. CRITTENDEN Hon. JOHN L. HELM. The Cambria's News.

France, is decidedly the most interestin of our Transatlantic neighbors, at the prethe reign of Louis Phillipe was terminated, and his family driven from France-a Republic proclaimed, and a provisional Govern ment installed, left good ground for appre-hension, that the new order of things, might not prove stable, that the people were not pre-

not provestable, that the people were not pre-pured, for so valical a change. The difficulties which the Provisional Government has had to encounter, have been almost inappreciable, and that they have thus far been successful, in repressing the moheratic tendencies of the lower orlers of Paris, is doubless owing in a great degree to the genius, the eloquence, the firmness and the self-sertificing spirit of Lawarine. But it seems there are those whose lands have been enhanced in value from 20 to 40 percent, by this read, who have hitherto done nothing to aid in its constru tion. Surely they will not hesitate to invest a small amount of their surplus in the Scrip of the Company, when they are constantly using the road, and paying toll for the use of it. They can in no event lose more than the interest on the investment for a compar-atively short time, and which they may well afford to do. For we could easily demon strate if necessary, that the pittance paid for tolls on a good unpike road, is not a fair consideration for its use, when all its advantages come to be estimated fairly. The very largely increased amount hauled at a load, the increased number of loads hauled

If the right spirit prevails with those, who are in the habit of using the road frequendy, the Serie adverusing the road frequently, the Scrip adver tised by Mr. McIlvain will be taken a ouce.
