Cora Wilson Stewart on Program of Bible Study Association Meeting.

Many teachers representing the schools of the District have acknowledged the invitation extended by the World Association of Daily Vacation Bible Schools to attend the educational sessions of the international conference to be held at Calvary Baptist Church January 6 and 7, when Cora Wilson Stewart, noted authority on the eradication of world illiteracy, will deliver the principal address.

Following an address delivered by Mrs. Stewart at the Teachers' College of Colorado last summer, Dr. J. G. Crabbe said: "Cora Wilson Stewart is one of the most forceful speakers of the American platform. She has the greatest living message presented to any public. She was the headliner of our program, which included such speakers as Edward Howard Griggs, Edward A. Steiner, William Mather Lewis, Dallas Lore Sharp and John Adams of the University of London."
