PAINTSVILLE TO HAVE FIRST DOLLAR DAYS THIS WEEK

MERCHANTS OFFERING GREAT BARGAINS FRIDAY, SATURDAY

Local Merchants Combine in Giving Buyers Great Treat in Exceptionally Marked Merchandise

On Friday and Saturday of this week, October 31 and November 1, Paintsville will have her first Dollar Days. A number of the leading merchants of the town have gone together in an organization to put across the Dollar Days and make them the biggest bargain days that Paintsville has ever had. Heretofore only one store at a time has offered bargains but on these days almost every merchant in town will offer unexcelled offerings in merchandise of all kinds.

The Dollar Day sales of course do not mark everything down to one dollar, but there are to be found hundreds and hundreds of bargains that can be purchased for one dollar at a saving of almost as much as the article costs. Things that naturally cannot be purchased for a dollar are all marked down for the two days and bargains unheard of will be offered on that day.

Every store in the organization will have a number of large cards in their windows which will tell the people that they belong to the dollar day organization.

These stores have combined to give to the buying public of this section two days of real bargains and every one owes it to himself or herself to come in and save money on these dates. There will be bargains offered that are too numerous to mention here but we wish to call attention to the advertisements in this issue of The Herald. They have a wealth of things offered and it will be well worth your while to read them and then profit by them.

Paintsville has everything that any market can afford and the people of the town and the county should come in to the following stores on these two days for their own good as well as the good of the business of the town and county.

Here are the merchants who will have bargains to offer you on that date:

- Midland Stores Co.
- Sho. Bros.
- Jno. H. Preston & Son
- The New Store.
- Paintsville Pharmacy.
- Cash & Carry Groc.
- Kenard & Wheeler.
- Big Sandy Hdw. Co.
- Oppenheimer & Flex
- Paintsville Fur Co.
- Hager's Drug Store.
- Paintsville Nat. Bank.
- Paintsville Bank & Trust Co.

Husbands Must See That Wives Under 16 Are Kept in School

Chicago.—William L. Bodine, superintendent of compulsory education decreed today that men who were married to girls 16 years of age or younger, must go to jail if they do not keep their wives in school. His order resulted from publicity given to the cases of two girls both 16 who had married with the avowed intention of escaping school by so doing. All wives under 16 must attend school and their husbands will be arrested if they do not keep their wives of compulsory school age in regular attendance, said Mr. Bodine.

ONE KILLED, TWO HURT IN WRECK NEAR LOUISIA

Automobile Overturns on Newly Graded Main Trail in Lawrence County. Everett Preston, age 17, was instantly killed Wednesday evening in an automobile wreck 7 miles south of Louisa. The fifth occupant of the car, Okey Compton, jumped from the car in time to save himself from any injuries whatever. The accident occurred on the New Mayo Trail on the south side of Patrick Gap, which has not yet been turned over to the State by the contractors. The time was about five o'clock. A steam shovel was at work on an about the middle of the road. Two other cars had passed just ahead of the one that wrecked. When the Gray car attempted to pass, it was being driven up the hill slowly in low gear. The two wheels on the outside of the road slipped over the edge in loose dirt, and started going along for a few feet, and was, balanced over and rolled down the hill, turning over three times and landing 80 to 100 feet below. The bill is very steep at this point. About the instant the car was toppling over, Hall told the boys to jump. Compton is the only one who did so. Everett was thrown out and his head struck a large rock. His neck was broken. The other three were crowded into the front seat and went all the way down together. The injured boys were brought to Riverview Hospital at Louisa soon after the accident.—Big Sandy News.

RECEPTION FOR REV. E. J. REES

Former Paintsvills Pastor and Wife Cordially Received by Maysville Church. (Maysville Leader.) The reception given by the Ladies Aid Society of the Third street M. E. Church to their pastor and wife, Rev. and Mrs. Edward J. Rees, last evening was the most delightful affair held in church for many years. A large concourse of members and friends of the church came to give the glad hand of welcome to their new pastor and his companion at his work. The ladies had a splendid program prepared which was carried through to the pleasure of the large assemblage. The first half hour during the arrival of the guests was spent with concert by the Sunday school orchestra. At 8 o'clock Mrs. J. H. Dodson, president of the Aid Society, took the platform and presided through the program with grace and dignity. Short addresses of welcome were made by Mrs. Dodson for the Ladies Aid, Sam Carpenter for the Sunday school, Miss Jessie Breese for the Epworth League, Miss Virginia Mae Hurd for the missionary societies, J. H. Richardson for the official hosts and John Barbour for the visiting friends and the other churches. Rev. Rees responded in a most happy manner. It was an occasion to stir a spirit of enthusiasm for the church and its great mission. A male quartet composed of Sam Carpenter, R. B. Huff, J. H. Barbour and J. H. Richardson, sang several selections. Miss King gave a very beautiful solo and Claude James and Malcolm Jones played a cornet duet. A big program and every number an enjoyable one. The last number of the program was delicious rice cream with home made cake in abundance. Surely it was good! And the folks enjoyed this feast. The closing hour was not only spent in eating but in pleasant fellowship, the new pastor and his wife getting good and well acquainted with a large portion of the membership. The occasion marks an auspicious beginning of a new year in the history of this historic church. The outlook was never better. For with such good feeling among the members and such pledges of co-operation the church should go forward with increasing success.

A Slap At The Good Housewives of the United States.

Miss Elizabeth Marberry, a zealous leader of feminine Democracy, made a break in the course of a recent speech which, if there were not enough to worry about all ready, would, in its after effects, bring consternation to the camp of the Democratic managers. Miss Marberry cast aspersions upon the household occupation of Mrs. Coolidge, as being beneath the dignity of the wife of the President of the United States. Mrs. Coolidge, who for the first few years of her married life, at least, did her own housework played the part that every worthy American woman must play. And now as wife of the President she sews and bakes occasionally and some very rich women sneer at her. Mrs. Coolidge typifies the best of our wifehood and she is honored even as her distinguished husband typifies the best in American fatherhood and manhood. It is all wrong in the home and home is the basic institution of civilization. There are some millions of fathers and mothers in this country who will thank God for the simple set by Mrs. Coolidge, because they want their daughters to become queens of the home, and not prodigesses who turn the finer amenities of womanhood. The Marberry speech has occasioned a wave of protest and a wave of indignation. The Democratic managers have sought to have the speaker recalled and she has complied by insulting her words were spoken in jest. But the sting remains.—Herald-Dispatch.

7 REASONS WHY YOU SHOULD READ YOUR HOME PAPER

49,101 Cars of Coal Loaded by C. & O.

The average daily coal loading from October 1 to October 16, inclusive, covering a period of fourteen working days, by fields, made according to announcement by President W. J. Harahan, was as follows: New River, 790 cars, Kanawha, 486 cars; Coal River, 574 cars; Logan, 1,292 cars; Kentucky, 375 cars; A. C. & I., 4 cars; Long Fork, 108 cars; Millers Creek, 34 cars, and 5 cars. The average loading for fourteen working days was 3,506 cars. The Chesapeake and Ohio's total coal loading from October 1 to October 16, amounted to 49,101 cars.

Here are seven reasons why the people of this community ought to subscribe for The Herald. The list might be extended, but almost any one of these reasons ought to be convincing. And that they are believed by the people of the Big Sandy valley is evidenced by the fact that in the valley we have a circulation of more than 4,000 copies each issue, an indication that the people of the paper but read it.

So they should subscribe: 1.—Because to fall to read The Herald in this community is to be in the dark regarding the doings of your neighbors and the happenings of the community which you cannot find covered anywhere else in the paper but read it.

Indigestion Laid to Free Use of Rouse.

Lipstick, Germany, Oct. 16.—Lipstick indigestion has developed among young women who use rouge too freely, according to physicians. Many of the cosmetics, particularly of the pink kind, contain harmful ingredients, assert the doctors, which cause complications when they come in contact with food.

2.—Because the Herald brings you receive for \$2.00 per year costs us \$1 per year to produce and deliver—and to a believer in his town it ought to be worth that much, too.

3.—Because the Herald brings to you each week—not only the news in the generally accepted meaning of that term, but the messages of up-to-the-minute business men who ask and merit your patronage.

4.—Because the Herald has led every newspaper for the betterment of the community, has fought the battles of the people to secure many needed improvements and is continuing that fight for the upbuilding of the section where it circulates.

5.—Because it is an exponent of clean journalism, a family newspaper devoid of scandal and permitting nothing in its columns that would corrupt the most sensitive child.

6.—Because the Herald, while pursuing a clean editorial policy, will not fear to reveal the truth as it is, and to fear, believe in, boomerang, not kidding, and with criticism making of that criticism constructive.

7.—Because we need the money and a prosperous newspaper is an asset to any community.

Friday and Saturday of this week are dollar days for Paintsville merchants. Read the ads in this issue.

New York Aids Hindman School.

Hindman, Ky., Oct. 18.—From the most densely populated metropolitan area comes aid to one of the least densely populated places. The Hindman Settlement school, where several hundred boys and girls learn to live constructively, has received \$10,000 from the estate of the late Henry Evans, President of the Continental Insurance Company, who rose from office boy to will of one of the most successful men of the state. The school will receive income from one-sixteenth of his estate, sum believed to be between \$300,000 and \$400,000.

FIRE DESTROYS PUMP STATION

Kentucky Pipe Line Plant on Mill Branch Burns Early Thursday.

The Mill Branch gas pumping station of the Kentucky Pipe Line Company, located just outside the city limits of Paintsville was completely destroyed by fire in an early hour Thursday morning. The fire, it is said, was the result of an explosion which occurred in one of the mammoth twin gas engines. There are three of these large engines located in the building and all were more or less damaged. It is thought, however, that they may be repaired and still be of use. The cost in the neighborhood of \$7,500. It is thus this pumping station that all the gas furnished to Louisville and Lexington passes. This will not, however, interrupt the service, as the Mill Branch station closed another station was brought into play with extra power. These stations are located at intervals along the pipe line that runs from West Virginia and Martin and Pike Counties, Kentucky, to Louisville. These stations force the gas along the main line until it reaches its destination.

DEATH PENALTY FOR BURGLARY

Court of Appeals Affirms Sentence of Alex Gibson, Louisville Negro.

Frankfort, Ky., Oct. 10.—Death for the first time meted out as punishment for burglary in Kentucky was upheld by the Court of Appeals today in the case of Alex Gibson, Lexington negro, to the death chair. An act of the 1922 Legislature, providing a penalty for burglary of life imprisonment or death in discretion of the jury was upheld by the court in an opinion of Commissioner Drury whole court sitting. There is no minimum penalty in the act. The old law set the penalty at from two to ten years. Gibson's conviction was the first of its kind involving the extreme penalty since the law went into effect. Gibson on the night of December 1, entered the home of R. W. Thompson, about five miles from Lexington. Lucian Thompson, his son, returning home encountered Gibson with a 20-gauge Winchester repeating shotgun belonging to young Thompson. Thompson tried to seize Gibson, Gibson tried to pull the trigger, Thompson was not loaded and only snapped. Thompson and Gibson drew knives and began to cut and stab each other. Gibson "fired better than Thompson in this cutting and stabbing and soon had Thompson horsed combat from wounds inflicted upon him." Commissioner Drury said. Thompson was in the hospital seven days. Commissioner Drury's opinion defined a burglary to consist "of a forcible or stealthy entrance into a dwelling for the commission of a felony."

A CORRECTION

In the last issue of the Herald there appeared a story of a stabbing affair in Salyersville. In this story the names were reversed and Alonzo Marsh was charged with stabbing Dean Prater. In reality it is Prater who is charged with stabbing Marsh. Prater is being held under bond in Salyersville as a result of stabbing Marsh with a knife and was walking down the street with a young lady. The knife entered his back just under his left shoulder blade and entered his lung. He was brought to the Paintsville hospital but was unable to procure a room Marsh has been recuperating from the wound at the home of Oliver Jenkins. We gladly make this correction.

Child Who Chats With Monkeys

Little Helen Erickson (left), shown here with her sister Marion, is a pupil at the University of California. The girl, who recently arrived in San Francisco, is the daughter of Frederick Erickson, a mining engineer of Ecuador. Born in a mountain village of Ecuador, she was able to toddle that through peculiar monkey sounds she is able to make monkeys understand her language and obey her commands. She gave an impressive demonstration on board the steamer with a brown monkey owned by the chief steward.

mill feeds and ground grain. Lower grades of cabbage containing between 35 and 45 per cent protein, are rarely satisfactory for use in the poultry ration. However, if a lower grade is all that is available, it might try out some of it with a half dozen hens, placing them in a pen away from the rest of the flock. A good grade of tankage may be used in any laying mash in place of the "meat scrap" which is commonly recommended.—J. Holmes Martin, Kentucky Experiment Station.

"MOTHER" JONES FOR COOLIDGE

Famous Trades Union Leader, 95 Years of Age, Declares Government Must Be Supreme.

"I AM supporting President and I did say that he was entitled to the support of the people because he does not let off much steam," was the way "Mother" Jones, in Charleston, W. Va., the other day confirmed the announcement that she was in favor of the Republican National ticket. She had gone to Charleston from Washington where she was the guest in the White House of the President and Mrs. Coolidge, on a visit to friends who have been interested with the 95-year-old veteran Union Leader in numerous labor movements. Continuing her discussion of the President, "Mother" Jones went on to say: "People are tired of the blowhards; a lot of blowhards say statements ought to make their cabinet. They are like a lot of motor cars; don't have much speed but make a lot of noise." "Coolidge is different. When he has anything to say he makes it plain and the people hear it. He has been in the White House since before Cleveland, but I have never before in this house a more intelligent man than the one who has been in the White House since before Cleveland. Mr. McKinley and Wilson always treated me with unusual consideration, but I never saw any of them because he seems to understand the American people."

THE GOLDS ON TOP

On a bright afternoon in September as I saw the butterflies gently sweeping in the breeze, heard the breeze whispering through the trees, and saw the sun-beams playing hide-and-seek with the shadows, there came to me to me an irresistible call from the fields.

Taking my sun-bonnet and accompanied by my dog who was a never-failing companion on my frequent excursions of this nature, I started. I knew not where.

Out through the orchards, across the meadows, following the familiar paths that I had known since childhood. Presently I found that the particular leading into which I had drifted when my path were was gradually actually leading away from the others, and up a steep hill-side. "Seeing that it would be rough going but not throwing one's back on the ground."

Soon I discovered that my way was hedged on either side by briars and weeds—ugly, coarse, tall weeds which in some places were so thick that some of which I could wade my feet around, some I could step over, others would slip under my weight near the ground. Thinking that I was in a trap, I was occasionally there was a glimpse of scarlet or a flash of gold to the right or left but not thinking it anything there I did not stop to investigate.

At last I reached a place where my path turned abruptly to the right, and directly in front of me lay a large, smooth, flat stone. Thinking that this would be an ideal resting place I at once climbed up on the stone and turning faced the direction from which I had come. There before me was the most glorious sight that one could imagine—a veritable field of gold—stately, gorgeous golden-brown and nodding to each breeze, while the slanting of the setting sun seemed to enhance their beauty and make their gold seem more golden. Thinking that the climbing such a task, here there a beautiful thought came to me. "You cannot enjoy the beautiful things of this life by remaining beneath them. You've got to climb a bit, or at least bring yourself up to a level with them."

Have you ever listened to inspiring respect and devotion in composition by a great artist to hear some one exclaim at the end: "What can anybody get out of such music as this?" It doesn't mean anything, it means that you've got to climb a bit, or at least bring yourself up to a level with them."

waiting, stater: "What's the use of waiting on that? I can't understand it!" Boy man! How you pity him. Gladly would you take him by the hand and lead him to the heights from which he could gain a broader view, and be able to appreciate the best, but you cannot. He has selected a path which lies in the valley. If the gold of life you find.

And you're not afraid to climb. The gold's on top. There's a richer, broader view For the brave and happy few Who have found the adage true That the Gold's on top.

Though the road be rough and steep, Hedged with thorns and briars, The Gold's on top. Though there's many a weary mile, Face it with your bravest smile, And you'll find it's worth your while For the Gold's on top!

Farmers' Questions Answered by Ky. Experiment Station.

Question—Do lightning rods reduce the danger from lightning, and will the protection they afford justify the expense?

Answer—Statistics collected by scientists, investigators, insurance companies, and fire marshals tend to show that lightning rods are of value and will reduce the chances for loss when they are properly installed. The advisability of installing rods depends upon three factors: The cost of installation; the reduction in cost of insurance, and whether the property could be easily replaced if lost. The cost of installation will vary in different buildings, but this information may be obtained from a lightning rod company. In some states insurance companies are giving a reduction in rates from 5 to 25 per cent on rodded buildings. The owner must decide whether to rod a building after considering the above factors.—J. B. Kelley, Kentucky Experiment Station.

Question—Why does my cow produce bitter milk during the past few days?

Answer—As a cow nears the end of her milking period she frequently produces sour, bitter, ill smelling milk. It is not bad at first, but it develops over the few hours later. Heating it on the stove will prevent this off taste. The trouble lies in the fact that the cow is producing her milk at this time the enzyme known as lipase, which causes the remainder of which is made up of...

as a decomposition of the bacterial. Possibly reducing the grain and increasing the amount of green feed and pasture will help to remedy the trouble.—J. J. Hooper, Kentucky Experiment Station.

Question—What are good ways of protecting young trees from injury by rabbits and mice?

Answer—A white cloth of fairly heavy wool with a 1-2 or 1-4 inch mesh will protect trees against both rabbits and mice, as it can be pushed down into the soil to keep mice away from the base of the tree, where they eat the bark of the roots. Common window screen paper as a barrier against rabbits, is also used as newspaper or other paper tied about a tree. Ordinary poultry wire will keep rabbits away, but its mesh is so large that mice go through it. There also is a wood veneer, made by basket manufacturers, on the market. Washes, to be applied to the trunk of the tree, and designed to be effective against rabbits, are also offered. Rain eventually destroys their effectiveness. Experiments have been made with poisons for mice. It is a good plan to rake or hoe grass, weeds and trash, which afford mice a harbor, away from trees, and leave the ground smooth and hard.—C. W. Mathews, Kentucky Experiment Station.

Question—Is it safe to feed chick-milk to a cow?

Answer—A good quality tankage containing approximately 60 per cent protein is a very satisfactory feed for the cow. It should be produced in milk at this time the enzyme known as lipase, which causes the remainder of which is made up of...

Your Conversation Honeycomb. The tradition of keeping a "honeycomb" is as ancient as the origin. Honeycombs were drunk by the better order of Teutonic peoples for a period of 30 days following the marriage ceremony. Atilla the Hun drank honey from a comb of wax, and the custom of journeying to Niagara falls on the spot of modern addition and interpretation.

PLANNED WEST VIRGINIA

Kentuckians Urged To Approve \$75,000,000 Issue By High Official Of Neighboring Commonwealth.

West Virginia farmers have discovered that the Bond Issue method of financing the building of their state highway system puts no burden of taxation on them, and J. H. Stewart, Commissioner of Agriculture in that state, declares it hard to believe that Kentucky farmers will oppose the \$75,000,000 Bond Issue, when this need is so great in Kentucky and the benefit so outstanding.

The point of view of a majority of West Virginians is fairly set forth in the following communication just received from Mr. Stewart by the Kentucky Good Roads Association. This letter is typical of those which have come from dozens of representative citizens in our neighboring state.

My Texas Partner:
It is hard to believe that the farmers of your state would be pained against the bond issue to build roads. We have been building roads here on that plan but thus far not a cent of tax money has been paid on to support these roads nor to pay the operating and overhead costs of the same.

There are large cities in your state, excessive manufacturing, heavy oil and gas, banking and other forms of wealth, other than farming, which do a long way toward retaining the farms of any direct tax, and after all the farmers are the people who would be most burdened. I am sure that any farm organization leader who would take that attitude ought to be run out of the organization. Our prominent farm leader here, however, and actively opposed the bond issue, but from all appearances he did not make a dent in the proposition and I do not believe it can be done in Kentucky.

Hopes For Approval.
I would suggest that you get in correspondence with J. B. McLaughlin, Secretary of the State Farm Bureau, Charleston, and ask him to cooperate with you in your efforts to have a good roads system started in Kentucky. In the meantime I will try to see him and have him in the right frame of mind to answer your letter. I also suggest that you write J. B. McLaughlin, Secretary of the State Grange, Flint, West Va.

I hope your case is overwhelming ly endorsed. I wish I knew how to do it but you will suggest how this can be done.

THE MYSTERY

By E. PHILLIPS OPPENHEIM

Lord Hittersley slowly finished his wine. Gerald produced his cigarette case. "You are ready, sir?" he asked. "Will you take my arm?" "Not for a moment," was the quiet reply. "You perceive, from my reference to Myrtle, that I am in a confidential frame of mind. I shall go even further to prove it.

"You went into my cigarette case, sir?" "Not in the least, Gerald. I do not, as a rule, interfere in such matters, as you know, but I take a certain natural interest. I think, in your associates and your affairs generally. It has come to my attention that you have spent various channels that you have spent the greater part of the last month with two ladies residing at a French nameless east and a little I believe—both unknown to English society.

"That is true, sir," Gerald admitted. "Furthermore," Lord Hittersley continued, "though again I am a little outside my province, I must confess that I was somewhat disturbed by the fact that you had sold a portion of the Lutal property and were considering a mortgage upon Ebrata."

"I do not know why Mr. Bendover should have troubled you with these details," Gerald said, a little uneasy. "But in the main they are of no consequence to you, as you know, as you know," his father continued, "as my only son and the heir to an estate worth five thousand a year, which I can well afford to do. You have yourself a portion of Ebrata here in town, there, your polo ponies, by express arrangement, have always been charged to my own credit, and I should have thought your feeling some surprise, therefore, at the fact that you have found it necessary to raise those large sums of money."

Gerald was silent for a moment, conscious of and inwardly resenting his father's anxious scrutiny. "Something of the bitterness which he was feeling showed itself, perhaps, in his tone. "I needed the money, dad," he said. "I will probably all come back to me, or its value."

"If the necessity is occasioned by your losses at cards or on the turf," Lord Hittersley continued, "I should prefer making you some advance myself, to having you part with land which belonged to your great-grandfather, or encumbering it with any other kind of property."

her shrill under the cedar tree on the following afternoon, she watched Christopher, conducted as far as the terrace by the butler, descend the steps lightly and move across the lawn toward her. He walked with the dignity and assurance of a man whose life is being across the lawn, and the girl who was watching the approach of the man on whom she had put her heart. Every thing that he did and had done in life appealed to her. He had sentiment enough—that was proved by the tenderness for Myrtle to which he had confessed that he felt for her. He had a certain amount of that which she had always resented as one of the weaknesses of her father, and she had always felt that, however, greatly she might have been disappointed, she had never been disappointed, both by his manner and Myrtle's, that the tenderness, such as it was, was not a mere sentimentality, but a genuine and kindly regard for his reluctance toward herself she might say. He was possessed, as she well knew, of a very high sense of honor, and she had always felt that, however, greatly she might have been disappointed, she had never been disappointed, both by his manner and Myrtle's, that the tenderness, such as it was, was not a mere sentimentality, but a genuine and kindly regard for his reluctance toward herself she might say. "I took her hands and stood smiling down at her, she was so young and so beautiful, and she had a smile of welcome made her for a moment radiantly beautiful. "How delightful to see you, Christopher!" she exclaimed. "And what wonderful news! It is just what we all wanted for you."

"I looked at her a little apologetically, yet without the slightest idea of how great an apology was needed. "I wondered," he said. "If I could see Myrtle," Mary repeated. He assented a little sheepishly, yet with a rather engaging smile. "I wanted to see her and tell her about it," he confessed. "She won't understand just what it means, perhaps, but she's so much more of a woman now."

Kentucky Experiment Stations Replies To Farmers Questions

Q—I plan to install a water system and bath room in my farm house. What size septic tank will I need to take care of the sewage? Where can I obtain plans and instructions for installing a tank?

A—The septic tank with surface disposal system has proved a satisfactory method of disposing of sewage in farm house where running water is available. The tank should be large enough to hold the sewage at least 24 hours and to exceed 48 hours. The total amount of sewage depends on the average daily use by each member of the family. The inside dimensions of a septic tank for a family of six are 2 1/2 feet wide, 5 feet long, and 4 feet below the top water line, which is usually a foot below the top of the tank. Plans and instructions for installing disposal systems are given in Circular No. 131 published for free distribution by the Extension division of the College of Agriculture, Lexington, Ky.—B. Kelley, Kentucky Experiment Station.

Q—Why does my cream test vary from day to day?

A—It is a common mistake to think that a separator will deliver the same richness of cream day after day. The richness of cream varies slightly with the richness of the milk. If a separator is running 42 per cent cream and the milk test drops two tenths of a per cent the cream test will drop 2 per cent. Also the amount of water or skim milk that is used to flush out the separator bowl after the separation, is added in certain quantities to the cream one day than on another. A change in the speed of the separator changes the percentage of butterfat in the cream. Separators are provided with a screw that regulates the rich of cream and if this screw is changed of course a variation will occur in the test.—J. Hooper, Kentucky Experiment Station.

Farm and Home News From over Kentucky

County Agent H. H. Cottrell reports a series of dairy and poultry meetings in Marshall County, at which the attendance totaled 1,375. The International Harvester Co., the Dark Tobacco Growers' Assoc. and the Illinois Central Railroad Co. assisted in the meetings, the purpose of which was to encourage farm diversification. More than 700 acres of cotton were picked in Marshall county this year, out of 1,200 acres which farmers agreed to plant in the spring.

Dairying is attracting many farmers in Campbell, according to county Agent H. F. Link. Eleven purebred Guernseys, one Jersey and one Holstein Friesian were purchased by farmers in that county in September. One of the Guernseys won second in her class at the Ohio State Fair. Two model dairy barns are under construction in the county. Nearly 60 head of cattle from Campbell county were exhibited at the recent fair at Alexandria. Edward Boyman won third on his Jersey bull at this year's Kentucky State Fair and Union College, New York, was acquired at local fairs. In 1919 there were four purebred Jerseys in the county, with a total number of 30 head. A census recently taken shows 65 purebred herds, having a total of 340 head. According to records, they numbered 224 Holstein-Friesians, 74 Guernseys and 48 Jerseys.

C. W. Holman, Washington county recently made an uncommon report with 5 barrows which he kept in a field of corn and soybeans for 21 days according to County Agent R. Bert M. Heath. The 5 hogs weigh a total of 600 pounds when turned held.

THE THIRD GIRL TO SWIM FROM CHARLESTON BRIDGE TO BOSTON LIGHT

Not many men have accomplished the hard swim from Charleston Bridge to Boston Light. Two girls had made the trip successfully before Miss Eva Morrison, 19 year old girl shown above took the swim and made it in seven and a half hours for the twelve miles.

into the field and 900 pounds when taken out in three weeks which means that they made an average daily gain of 3.8 pounds each. The 400 pounds of gain sold for \$9.60, 100 pounds on the farm, making a total of \$38.40 for 21 day's work by the hogs.

Cull Before Winter

The high price of feed this year makes it especially wise to cull out all non-layers, including undesirable pullets, and old and poor laying hens. No one should be guilty of pouring \$1 corn or higher priced wheat into unproductive poultry. Vigor and maturity are the chief points to consider in culling pullets. Late maturing pullets seldom make good layers. Trapping records at Kentucky Experiment Station, show that Leghorn pullets which begin laying at 6 or 6 months of age, and Plymouth Rocks which begin laying at 6 or 7 months usually lay the largest number of eggs during the year. Pullets which lay extremely early (under 5 months) seldom attain sufficient size and consequently produce small eggs. Pullets which do not come into laying until 8 months seldom mature to mid winter, and then defer laying till spring.

FREED IN KILLING OF MAN WHO BEAT SON WITH ROPE

WHY ADVERTISE

It is only the foolish merchant who does not believe in the value of advertising and who does not recognize it as necessary for the continued growth of his business. It is no longer a question of, Shall I or shall I not advertise? but simply a question of, To what extent and in what way shall I advertise? Circulars, novelties, calendars, direct mail, all have their appeal, but when all is said and done and when

CONSIDER YE ED

Under the obscure credit of "Exchange" the following good thing has been printed in news and trade papers, but it will bear repeating again. Consider the editor. He wears the purple and fine linen. His abode is amongst the mansions of the rich. His wife has her limousine and her first born sporteth a racing car that can hit her up in 40 flat. Lo! all the people breaketh their necks to hand him money. A child is born unto the wife of a merchant in the bazaar. The physician gets 15 gold planks. The editor writeth a stick and a half and telleth the multitude that the child tippeth the beam at nine pounds. Yes, he lieth even as a centurion. And the proud father giveth him a Cremona. Behold, the young one groweth up an gradueth. And the editor putteth into his paper a swell notice. 'Yes, a peach of a notice. He telleth of the wisdom of the young woman and of her exceeding comeliness. Like unto the roses of Sharon is she and her gown is played up to beat the hardest stone. The daughter goeth on a journey and the editor throweth himself on the story of the farewell party. If she runneth a column sold. And the fan and gingham-hem him from afar with a picture postal card that costeth six for a jitsy. Behold, she returneth and the youth of the day fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of our promising young men. They send unto him a bid to the wedding feast and behold the bids are fashioned by Montgomery Hawick in a far city. Flattery and long is the wedding notice which the editor printeth. The minister getteth ten bones. The groom stendeth the editor off for a twelve-months subscription, getteth all flesh is grass and in time the wife is gathered unto the soil. They printeth a death notice, two columns minister getteth his bit. The editor of obituary, three lodges notices, a club of poetry and a card of thanks.

Severe Pains in Side

"I HAD had quite a bad spell and sickness," writes Mrs. Emma Patrick, of Caney, Ky., "and it was an effort for me to go about my home. I had a very severe pain in my left side that almost took my breath at times. I lost my appetite. I grew thin, pale and lifeless. I fell off till I only weighed about 115 pounds. "Caroli" was a recommendation to me and by the time I had taken one bottle I saw it was what I needed. I ate more and rested better. I kept taking it and my skin and flesh took on a more healthy color. I felt stronger and, as the nervousness left me, the pain in my side was less severe. After taking nine bottles, I eat anything, go anywhere and feel fine. I weigh 160 pounds and am well. I feel that I owe it all to having used Caroli." Pain, in certain parts of the body, is a sure indication of some serious complications. The treatment called for is not the use of narcotic drugs, but—

Ashland

Ashland is located at the mouth of the Big Sandy River. It is the gate-way to the rich coal and oil fields of the valley. Through Ashland comes the laborer and the capitalist who seek their fortunes in this wealth laden section. Ashland is their nearest and best market.

Ashland business enterprises are entitled to first chance at the patronage of the people residing in this wealthy section. Ashland business and professional men are former residents of Big Sandy and other nearby sections. What helps Ashland will help Big Sandy.

Never in the history of this valley was such a building program mapped out. People here are building larger and better homes. Old homes are being made over and improved. Coal and oil being the chief products of the valley, those who build and furnish homes must seek material elsewhere. Everything that goes in the building and the furnishing of homes must be shipped into the valley. Ashland can supply this material and furnishing and a cordial invitation is extended those who are now or will soon be in the market to read the advertisements on this page.

People from the valley are daily moving to Ashland and to nearby sections. The many real estate firms represented here will be glad to show you real estate. A letter will make an appointment for you. It costs nothing to see what they have and it is important that you look them over before investing your money.

Homes are bought, sold, built and furnished by those whose names will be found on this page. Read it each week and get a message that will help you in exchanging your money for the things you need and they

By WILLIAM A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1837 Prairie Avenue, Chicago, Ill. and only inclose two-cent stamp for reply.

Those who live on the farms of the nation are as eager as any others for the better sort of homes and as quick or quicker than many dwellers in cities to adopt new ideas in buildings to their needs. But, the fact that a home is on a farm means that it must meet conditions which do not exist in the cities and are not recognized in home designs of usual type.

It was with the needs of the farm family in mind that the home shown here was designed. The pleasing, sound and substantial exterior speaks for itself. The broad eaves give the house an appearance of hospitality and of coolness under the torrid summer sun which is very inviting. And the

Second Floor Plan.

First Floor Plan.

The wash room on the first floor is a luxury which dwellers in cities, because of lack of space, cannot enjoy, but one which will be appreciated readily by the practical woman on the farm. And the sun porch on the rear is a feature which those who have looked for a cool place to sit in the summer will appreciate.

On the second floor are four bedrooms of generous size and a bath. One of the bedrooms is equipped with a lavatory, which adds much to its convenience. All are well supplied with closets and all have the cross ventilation which will insure cool, comfortable sleep in hot weather.

Steel Basement Windows

Practical and Artistic
The great superiority of high-grade steel windows for basement use is well recognized by all who have used them. This refers to the solid steel window, windows built of solid steel bars, not to hollow metal windows.

Solid steel windows are artistic and service permit of more light and air, and are unaffected by climate. They cannot swell or warp and require no refitting.

The steel window is now placed on the market in standard sizes, which permits of its use for residential purpose, and through this condition is generally being used in the better built homes for basement use, almost to the exclusion of all other types.

Locate With Care

Location of the tree may determine its selection as well as soil and climate. If there is small space which may be devoted to the future development of the tree, says the American Tree association of Washington, it would not be satisfactory to plant one which will attain huge proportions. More than any other determining feature in tree selection is the purpose which the tree is to serve. For a 2-cent stamp for postage the association will send tree-planting suggestions. The planter should study trees growing in his immediate neighborhood and pick out the variety which will best serve his needs.

Drawers in Kitchen

Under the dish closest to the kitchen is an excellent place to have drawers installed. If at least three of these drawers are no deeper than four or five inches, towels and dishcloths may be kept and found.

Built-In Mirror Good and Efficient Idea

A bedroom with built-in mirrors gives an appearance of spaciousness and has proven very effective from an architectural point of view. The method of building in the mirror has everything to do with the spacious effect. Utilizing the doors for mirror effect is a very convenient idea and one which is greatly appreciated by those who have developed the idea in their home. Utilizing the space for the mirror will mean a reduction in the number of pieces of furniture required for the room, a condition in keeping with the proper treatment of the sleeping chamber.

Ura Arvin

URA'S PATHETIC STORY

Ura came to us the victim of starvation and a cruel step-mother, who left him no care and threw scraps of food to him, much the same as a dog. A younger child died from this treatment, and had our worker who found him ben a few days later, Ura, too, would have shared the same fate.

He was brought to the home on a pillow the condition shown in the picture. His feet and legs were blistered by the sun because the step-mother would not allow him to stay in the house.

He was not sick—just starved— and no medicine was given him. He was given a few spoonfuls of broth

BAD FEES ARE FIRE MENACE

DEFECTIVE CHIMNEYS AND FLUES CAUSE MUCH FIRE LOSS

Lexington, Oct. 16.—It is a good plan to carefully inspect and repair chimneys and flues before winter, suggest agriculture engineers at the Kentucky College of Agriculture. To do so may save 4 homes and prevent the loss of life. Statistics obtained from the State Department of Prevention of Fires show that in Kentucky from July 1, 1921, to Jan. 1, 1924 property valued at \$100,739,031 was partially burned causing a total loss of \$14,978,239. Of this loss, fires caused by defective flues or chimneys resulted in a loss of \$338,368.

Chimneys and flues improperly made are a constant fire menace. Stovepipes should not pass through walls or roofs without being properly insulated by tile or fire-proof materials. Brick chimneys should not be supported upon wooden brackets, but in case such a support is necessary, it should be well insulated with several layers of brick and cement mortar. A safer plan is to place the chimney on a good concrete footing at the ground and lay all the brick with a cement lime mortar, plastering the inside of the flue with mortar or lining it with a chimney tile.

All chimneys should be examined periodically for cracks and repaired at once. Soot should be removed regularly to avoid a fire caused by burning soot falling upon the roof. We all should do our share in reducing the fire losses by repairing our flues. Practically every chimney fire is preventable.

DAUGHERTY RULES ON BIBLE READING.

Frankfort, Ky., Oct. 18.—Reading of quotations from the Bible will not suffice in carrying out provisions of the law passed by the 1924 General Assembly for reading the Bible in the public schools, Attorney General Frank E. Daugherty ruled today.

Mr. Daugherty said he was of the opinion that reading of quotations would not comply with the statutes

as it seemed to be the intention of the Legislature to require the teacher to read portions of the Bible itself. Quotations from the Bible would open the way for reading interpretations and the law eventually would not be fully carried out, he declared.

The ruling was made at the request of A. A. Allison, superintendent of schools at Erlanger, Ky.

DRIVE TO BE LAUNCHED FOR KENTUCKY CHILDRENS' HOME

JOHNSON COUNTY TO RAISE \$2,500.00 AS HER PART OF QUOTA: MONEY GREATLY NEEDED.

A local organization of the Kentucky Children's Home Society, headed by Jas. W. Turner, will launch a drive for Johnson County's quota of \$2,500 for the completion of the home for the unfortunate children of Johnson County. The organization will consist of fifty members. It is hoped and there will be four division commanders and eight captains.

The \$2,500 to be raised in Johnson County is part of the \$500,000 that is to be raised in the State. The work here is being directed by Miss Laura D. Brown who represents the home. Miss Exer Robinson is vice-chairman.

This home takes destitute children from all over the State and keeps them until they can be placed in good homes. There are five children in Johnson County from the home. The home was formerly in Louisville but it has recently been moved to the country at Lyndon. Here it will have more room to expand. While the State contributes some of the upkeep of the home most of the money for expansion and even expenditures must be raised by donations.

Beginning in 1922, the Kentucky Legislature appropriated \$5,000 as

part of one year's maintenance and this sum at intervals has been increased from time to time. Due to the fact that the people of the state are vitally interested in the institution's success, George L. Sehon, Supt., has insisted that each year a State Inspector and Examiner make a thorough examination of the books, the income and expenditures. The cost of operating the home in 1922 was approximately \$140,000 which of course did not include any money spent for improvements or replacement.

The per capita cost in 1922 was \$264. The methods of operation made necessary by the nature of the institution, cause large expenditures for travel; however, this per capita is the lowest of any similar institution in the United States. The home takes in children from one day old to 18 years on commitment by county judges. These children stay an average of four months each before being placed in good homes. Then from time to time they are visited by representatives of the society to see that they are treated as members of the family and being given an education and other advantages to equip the child for the battle for life when it goes into the world.

The expense of the agent who goes to the child, places it and then visits other institutions but, however, is essential to protect the future of society's ward.

CONTRACT FOR NEW WATER SUPPLY APPROVED

Most Progressive Measure in The History of Pikeville.

That Pikeville is to have a pure water supply and less typhoid was the decision of the city council Saturday when contracts for the installation of a sanitary supply were approved.

Differences between the Council and the Mountain Water Company, which were carried to the central Court sometime ago, were adjusted at the same time when the City took over the Company's property at a consideration of \$25,433 with the understanding that the Company is to continue its water supply until the new system is in operation.

The contract awarded Saturday include the construction of a 250,000 gallon filter near the present pumping station at the end of Elm street \$6,000. The cost of the water will be where the city recently bought a pumped into a 350,000 gallon reservoir on Smith Hill and through a branch main will be pumped into the homes of the city at the same time. With this arrangement it is expected to not pump more than one-third the time as the reservoir will furnish the city supply while the pump is idle. It is estimated to have a two days capacity.

The city will at once provide a chemical treatment of present water supply so as to curtail the danger from typhoid and other germs until the new system is installed.

Mayor C. A. Thomas and Council are receiving much praise for this making it possible that Pikeville is to have one of the best water systems in the state—Pikeville News.

New Type of Car Stirrs Automobile World

It is an open car one moment and 30 seconds later same car is entirely enclosed. Studebaker Duplex ends need of hunting for side curtains in the dark and storm

A new type of car has stirred the automobile world as had nothing since the abandonment of the "buggy" style of body building.

It is the Studebaker Duplex, so called to indicate that it is an open car one moment, and 30 seconds later it is an enclosed car.

Like all great advances in the industrial arts, it is "so simple in operation, it is a wonder it wasn't thought of before" — — —

Particularly since its need has been growing, year by year, ever since automobiles were made.

Many people all of the time, and most people part of the time, want an open car—to bring to their riding the fresh crispness of the country air, and a free and untrammelled association with the great outdoors.

Yet for these same people, the snug comfort of the closed car, shutting out the storm and the wind and the cold, has been at times a necessity.

Two cars in one

The Studebaker Duplex is both cars in one. Just pull down the roller enclosures concealed in the roof of the car. In 30 seconds the open car has been made an enclosed car.

No hurried efforts to put up curtains; no hunting for the right one while the storm beats in; no mixing them up in the dark; no exposure through holes torn in them while trying to obtain, for the emergency, the protection given by a closed car — — —

Just pull down the roller enclosures giving instant enclosed car effect.

The body is built substantially—sides, corners and roof frame are of steel. The roof has curved steel

sides and back; hardwood front. Steel, U-shaped cross beams, six of them, support the waterproofed, duplex fabric top and its linings. Here is permanent beauty, no sagging tops.

But Studebaker, on which the whole vehicle-using world has come to depend for reliability, would not rest on only one real contribution to the value given the public.

It must give all that engineering ability could devise.

Striking new features

So there are offered three distinct models of cars, to meet each of the three fields of demand—the Standard Six, with 113-inch wheelbase and 50 horsepower motor; the Special Six, with 120-inch wheelbase and 65 horsepower motor; the Big Six, most magnificent and luxurious of its products, with 127-inch wheelbase and 75 horsepower motor.

Duplex bodies are available on each line. In addition, closed models have workmanship and materials and beauty of line so far above the price class of the car, they must be seen to be appreciated.

Of scarcely less importance than the Duplex feature are other improvements such as, automatic ignition system, lighting control on the steering wheel, new location of emergency brake, improved one-piece windshield and many others.

The body lines, steering mechanism, and even the fenders of the new Studebaker were designed especially for genuine balloon tires. Thus the body lines harmonize with grace and beauty hitherto unattained, even by Studebaker.

Come in and see these new cars.

SHERIFF'S SALE

By virtue of Execution No. 1190, directed to me, which issued from the Clerk's Office of the Johnson Circuit Court, in favor of Laura Fairchild, against William Fairchild, I will, on Monday, the 23rd day of November, 1924, at the court house door in the city of Paintsville, Johnson County, Kentucky, about the hour of one o'clock P. M., expose to public sale to the highest and best bidder the following property or so much thereof as may be necessary to satisfy the plaintiff's debt, interest and cost, to-wit:

One tract of land, together with the house and other improvements thereon, located on the north side of Paint Creek opposite the upper end of the City of Paintsville. This is the same property on which the said William Fairchild has lived until recently and contains ——— acres, more or less, and covers the entire boundary of land owned by said William Fairchild at the above stated location.

The said sale will be made upon a credit of six months with approval. Amount to be raised \$430.30 and any further cost accruing in connection therewith.

THE SEASONS.

Four fair ladies dressed so gayly
Step across the earthly plane,
One so dainty, one so lovely,
One so gorgeous, one so plain.
First comes "Spring" so fresh and dainty,
Symbolic of the yearly birth,
Bringing opening buds and bird-songs
Filling all the world with mirth.
Then comes "Summer" gayly tripping
Carrying on the wing "Spring" left
Making the children sing so sweetly
That the world's of care beret.
Next arrives the gorgeous lady
"Fall's" the name by which she's known,
And she tints the leaves with color
When the little birds have flown.
Last of all comes lady "Winter"
In her garments trimmed with snow,
Maybe its because folks dread her,
That I find I love her so.
Four fair seasons, each a lady,
Each so lovely, each so fair,
Two with flowers, one with gay leaves,
One with snow drops in her hair.

Examination For Mail Carriers Will Be Held

There will be a civil service examination in Paintsville on November 15 for the position of one regular mail carrier and one substitute carrier. These men will be carriers for delivery service in Paintsville. All who are interested in the examination are asked to see the Secretary of the Local Board of the Civil Service Commission at the Paintsville Postoffice for information and application blanks. There is a special ruling for ex-service men and these are asked to pin to their application their discharge papers or a certified copy of the same. The salary for the regular mail carrier is \$1,000 for the first year and raises for satisfactory service after that. The part time carrier will receive half that amount and proportional raises as the above. The delivery service will begin on January 1, 1925.

LECK HITCHCOCK KILLED AT WAYLAND; SLAYER IS MOBBED

NEGRO WHO IS SAID TO HAVE KILLED MAN TAKEN FROM JAIL AND HUNG BY LARGE CROWD.

Leck Hitchcock, son of Mitt Hitchcock of West Van Lear, was shot and killed Sunday afternoon at Wayland where he had been working. A negro by the name of Shannon was arrested for the killing. Late Sunday night a mob broke into the jail and took Shannon into the street and turned him loose and shot him down as he ran. It is said that about 18 bullets took effect on the negro. Hitchcock was brought to Paintsville Monday morning and Shannon was brought as far as Prestonsburg in the same car with Hitchcock. Shannon died as he was being taken from the train at Prestonsburg. The story which reached here is to the effect that Hitchcock and Shannon quarreled over some money that Hitchcock is said to have given to the negro and which the negro drew a revolver and fired three shots into Hitchcock's back. Hitchcock died at the scene. Shannon then ran into the hills and was pursued by a mob who captured him and brought him into jail at 7 o'clock. A large crowd of about 150 or 200 broke into the jail and took the negro into the street. They are said to have executed him and then proceeded to talk they turned him loose and riddled him with bullets. He was left by the mob in the road and the officers attracted by the shot found him and took him back to the jail. He was taken to the jail at Prestonsburg Monday morning. Hitchcock was employed by a coal company at Wayland and a popular young man. Shannon was a musician and made his living traveling over the country playing and singing. Hitchcock's body was brought to the home of his brother, Grant Hitchcock, who lives at the mouth of Horse Mill Branch just above Paintsville, and was buried Tuesday in the Turner Cemetery.

Morrow's Speak To Voters of Johnson Co. Monday.

Ex-Governor Edwin P. Morrow spoke to the voters of Johnson County, Monday afternoon in the interest of the Republican party in the coming election. He told in his usual and fluent and gifted manner of the aims and plans of the party. Mr. Morrow also spoke in Salversville in the morning coming to Paintsville immediately afterward. Colonel Chas. Morrow, brother of the ex-Governor, spoke in the morning to the voters in the interest of the \$76,000,000 Bond Issue.

Rule Hotel Installs Handsome Marquee.

The Rule Hotel has just completed a new marquee over the front door which is a modern and up-to-date improvement to the already excellent hotel. Mr. Rule is a progressive hotel man and his hotel is already the very best on the Big Sandy River. The marquee is an all-steel affair that covers the entrance to the hotel to protect the guests entering and leaving. It is electrically lighted and is in the latest style of colored glass and that, too, will be lighted up at night.

SPECIAL NOTICE.

Saturday is the last day to get chances and deposit your tickets. You will want your tickets in the box when the drawing is made. THE SALE STORE. LANGLEY HERE. Congressman Jno. W. Langley was in Paintsville Monday morning in interest of his candidacy for re-election to Congress. Reports from over the district are to the effect that Langley will be elected by a large majority in his political history. He said that not only Republicans but Democrats of his district were for him and would vote for him next Tuesday.

Vincent Lyon Is Adjudged Insane.

A sad case was brought to the attention of the county officials last Thursday when Vincent Lyon, a young man of Keaton, Ky., in this county was brought before the court by relatives and friends to be adjudged insane. Lyon who is a married man with a family, was converted last week at revival being conducted near his home and was baptised on Sunday. Monday he lost his mind and became violent. He was taken to the State Hospital for the Insane at Lexington for treatment.

CIRCUIT COURT OPENS WITH A HEAVY DOCKET

JUDGE J. P. BAILEY BACK ON BENCH AFTER INJURY; TO GO AFTER LIQUOR LAW VIOLATORS. The October term of the Johnson Circuit court convened at Paintsville last Monday with Judge J. P. Bailey back again on the bench after being absent for some time on account of a painful injury he received some time ago when he was burned in an explosion here. Judge Bailey is one of the most popular Judges that has ever officiated in this district and everyone is glad that he is back again on the bench. In his instructions to the grand jury on the first day of court he instructed them to seek out the violators of the prohibition law and see that they were punished. He is determined to see that these law violators are stopped.

Three Bitten By Cat Suffering From Rabies.

Three people of upper Barrenets Creek were bitten by a mad cat last week, and are now under treatment of doctors for prevention of rabies. Those who were bitten are: Mrs. Willie Trimble, the young son of Jesse Caudill, and the eight-year-old daughter of Windfeld Spradlin. The cat was killed after it had bitten the people and its head was sent to the Kentucky Experiment Station, Lexington for examination and they reported that the cat had rabies. Dr. Duke of the County Health Department sent the head in for examination and as soon as he learned that it was a case of rabies he ordered antitoxin from the Experiment Station and it is being administered by local doctors.

BUSINESS HINGES ON ELECTION SAYS E. H. GARY

HEAD OF U. S. STEEL CORPORATION OUTLINES IDEA OF PRESIDENTIAL QUALIFICATIONS. New York, Oct. 24.—Business conditions during the next four years depend largely upon the result of the coming election, E. H. Gary, chairman of the United States Steel Corporation, declared in his Presidential address to the American Iron and Steel Institute today. "Every well informed business man or woman," he said, "knows that if the best men are elected there probably will be continued and increased prosperity, and if others less capable and less worthy are selected may expect depression and disturbances in business, less production, more idleness, less comfort, more distress, a decided interruption of legitimate progress that will not be easily nor soon overcome." Mr. Gary said he was convinced the public had been right during the last few months in believing the election returns would be satisfactory as shown by the steady and persistent increases in the volume of business. With such a result, he added, the country could look forward thru the autumn and succeeding months with hope and confidence. "Our ship of state is too great, too fine, too solid, substantial and strong," he declared, "to be pronounced unworthy on the words of unscrupulous, un intelligent or inexperienced men, and then turned over to a board of underwriters." Outlining qualifications which he believed a President of the United States should possess, Mr. Gary said: "He should be willing to lend his influence and devote his talents to general business progress and general prosperity, and likewise to prevent and penalize corruption and wrong. He should endeavor to assist and to protect the poor, the laboring man and the farmer on the same time should be willing to help the rich, the strong and the happy when it is indisputably right to do so."

Mission Society Meets With Mrs. Conley, Chairs

Mrs. Eugene Hager organized a mission study class, which will meet at the home of Mrs. S. A. Webb Friday afternoon, October 11. Mrs. Martha Littler, a student of Moody Bible School of Chicago, was the principal speaker at the society. At the conclusion of the program, an elaborate salad course was served to the following guests: Mrs. Eugene Hager, E. E. Archer, Dempster, Eugene Hager, G. M. Hager, Fred Atkinson, Jas. W. Austin, F. P. Hager, Chas. A. Kirk, S. A. Webb, J. D. Hager, W. H. E. A. Wells, A. Pitt, N. M. Moore, John Howes, Mrs. Sarah Preston, Mrs. Pauline Robinson, Mrs. Martha Littler, Miss Brown and Rev. and Mrs. Mullins.

Miss Gertrude Preston is spending the week at Betty Layne's guest house and Mrs. Glen Preston.

TO ALL VOTERS.

The FIRST thing to do after you enter hte booth is to vote "Yes" on the bond issue; and then if you have any time left, vote your political preference. The honor of Kentucky and the prosperity of Eastern Kentucky are at stake, and this opportunity may not again come our way in a generation. Don't forget to vote for the bond issue the first thing you do.

ROTARY CLUB ENTERTAINS AT LADIES NIGHT BANQUET

INTERESTING PROGRAM. EXCELLENT MENU AT RULE HOTEL; BATHING BEAUTY CONTEST FEATURE OF EVENING. The Paintsville-Van Lear Rotary Club entertained the ladies Tuesday night with a banquet at the Rule Hotel. Over 100 Rotarians and their guests were present. During the evening a delicious dinner was served. Music was furnished by the High School Orchestra. There were four of the regular members absent. H. G. Sowards presided over the meeting. There was no business of the club brought up and the entire evening was given up to fun.

The main dining room of the Rule Hotel was attractively decorated with Halloween decorations and colored hats in keeping with the decoration were given to every one before the dinner which gave everyone a sense of gay informality. The whole evening was one of jolly fun and merriment. The meeting was opened with an invocation by Rev. O. C. Haas and was followed by some Rotary songs. After this the following delicious dinner was served: Menu. Blue Points on Half Shell Celery Olives Pickles Hawaiian Salad and Wafers Turkey and Dressing Cranberry Sauce Snowflake Potatoes Capped Yams Peppercorn Green Beans French Peas in Butter Hot Bisquit Brick Ice Cream Angel Food Cake Coffee. Immediately following the dinner the roll was called and more Rotary songs were sung. Mrs. V. D. Splane then sang a beautiful solo and she was accompanied by Miss Elizabeth Beckingham on the piano. Next was a violin solo by Mrs. Ed Berlin. Mrs. Berlin is an excellent violinist and the solo was enthusiastically received and she was encored long and loud but she decided to play a second time. The old and reliable male quartette composed of R. C. Thomas, Claude Buckingham, Dr. G. V. Daniel and Wilson Thomas sang a song with words especially composed for the occasion. Mr. and Mrs. C. C. Thomas sang a clever and entertaining duet, about the trouble of married life. Both are excellent singers and the duet was thoroughly enjoyed. Fred Howes then gave a short and interesting talk on the bond issue. This is one of his pet hobbies and he gave the guests and members several good points for the bond issue. The climax of the program came with the bathing beauty contest. Four of the clubs most attractive beauties participated. The contest was won by Dr. E. Archer, Russell Hager, Chas. A. Kirk and Bacon R. Moore. Just before the contestants entered the lights were turned off and the dining room and when they

Invitations Are Issued For Halloween Party.

Thursday night, in Masonic Hall, William and Golden Streets, will gather for their annual Halloween party. The contest was so close that it was only decided after a long and technical controversy between the judges. (Don't be afraid of bringing too many) You will be fined if you don't bring any. Every one is supposed to mask. (For some of us an agreeable mask) Who any one is, you must not ask. So come and put dull care to rest. Better mind what you're about. 'Er the gobbles us 'I get yet 'Er ye don't watch out! Mrs. Warren Preston has invited the guests to her home for refreshments after the party.

SURPRISE BIRTHDAY PARTY.

A surprise birthday dinner was given Mrs. J. W. Walker at her home on Euclid Avenue Tuesday by her daughters, Mrs. Jno. W. Preston and Mrs. Nell Preston, assisted by Mrs. Sam Conley, a granddaughter. This was Mrs. Walker's 75th birthday and the children, grandchildren and great grandchildren were present to make this a delightful day for Mrs. Walker and her husband Judge Walker. Mr. and Mrs. Henry Clay, E. F. Howes, Mrs. J. R. Turner, Mrs. Mariah Wheeler, Mrs. Mary Rice and Mrs. King Wells were also present to help celebrate the occasion.

LOUISA, KY.

Vinson Lyon was brought to Louisa Wednesday from Kenton to be tried for insanity. The fact developed that he lives in Johnson county and he was taken to Paintsville the same evening. The trouble came on rather suddenly. He is known as a bright young man and has been a school teacher. After oil was discovered in the vicinity of his home he bought royalty from several land owners and from this he has a good income. He became violent a day or two ago, this being the first evidence of the mental disturbance. He has a wife and five children.

Dr. H. C. Osborn, of Blaine, went to Frankfort and brought back deed forms for rights of way on the road from Louisa to Busseyville, for which the contract is advertised to be let October 29.

Since then the deeds have been presented to all the parties along the route for execution. Twelve persons declined to sign and suits for condemnation have been prepared and will be filed Saturday.

In the Lawrence Circuit Court last Saturday a jury gave a verdict of \$25,000 in favor of George Dixon, of Richardson county. The defendant was the C. & O. Railway Co. While employed by the C. & O. about 15 months ago Mr. Dixon and others were injured in a wreck near Richardson, and one man was killed. Dixon lost a leg. It is said the case will be appealed.

The trial of Jack Biggs started Monday and is yet going on. He was given a sentence of eight years but the Court of Appeals ordered a new trial. This is the case transferred from Carter County. Some of the Biggs family are accused of hiring an Italian blackhead to kill a man Duvall. The Italian shot at Duvall but missed him. He is serving a term in the penitentiary for the attempt.

PRESTONSBURG

Seymour Mayo of Beaver was taken very sick of acute indigestion Wednesday while attending court and was taken to the home of Attorney land Mrs. E. L. Allen when it seemed for a while he would die. He is better and now seems on the road to recovery.

Mrs. A. J. Archer is able to be out after a week's illness.

Wednesday at noon the Rotary Club met at the Hotel Elizabeth for luncheon. Revs. Guy Coffman and his father and Mr. Campbell were guests. The most of the hour was spent in discussing the 75 million bond issue. A subscription list was circulated and quite a few names were added to the already good number of contributions.

Attorneys J. B. Clark and J. P. Tackett were in Ashland the first of the week on legal business.

Dr. and Mrs. M. J. Lutz and son will leave next Sunday for Miami, Florida, where they expect to spend the winter and may locate permanently. They will be missed here by a host of friends and relatives. Dr. H. E. Hughes and family will occupy their residence while they are away.

Officers W. J. Vaughan, Ben Melon, Jack Allen, Bill Vaughan and Turner Burehett and Raymond Pierce chauffeur went to Long Branch of Johns Creek last Friday acting on a tip, and captured a moonshine still, 50 gallons of beer and Teal Porter who was with it. Teal was brought to town drunk and was fined \$50 and costs and was put under \$500 appearance bond and a \$3,000 peace bond, his father Neal Porter, Elmon Clark, Lee Porter and Will Hall are his bondsmen.—Post.

Anti-Saloon League's Attitude in The Present Campaign.

The Anti-Saloon League is not a political party, never offers candidates for office, and therefore can deal with only such candidates as the political present.

The sole purpose of the League is to destroy the beverage liquor traffic, now outlawed, but alive, organized and militant. The League judges and deals with candidates accordingly as they are "wet" or "dry." If "wet," opposes them, if "dry," supports them without reference to party. The League is not concerned with the question of party advantage.

In the last fifteen years three out of four of all candidates supported by the Anti-Saloon League in Kentucky were Democrats, supported not because they were Democrats, but because they were "dry."

One of the candidates for United States Senator is the outstanding "wet" in the Senate, so acknowledged by friend and foe, boasts of his witness as a "badge of honor," and defiantly declares that he voted against the Volstead Act, would do so again, and has no apologies to make for it. The other at the beginning of his campaign for the nomination voluntarily announced that he believes in the Eighteenth Amendment and favors the enforcement of the Volstead law without change of alcoholic content, and from time to time during the campaign repeated the announcement.

In the Senate, one of these candidates would stand for the whole program of the "twists," the other for the whole program of the "drays."

follows: The Anti-Saloon League, with its President, Vice President, Secretary, Treasurer, Superintendent, Associate Superintendent, the two field men, and nine of the thirteen men of the Executive Committee, Democrats, puts itself solidly behind Mr. Sackett, not because he is a Republican, but because he is "dry," and against Mr. Stanley, not because he is a Democrat but because he is "wet."

Some Democrats seem not to understand the position of the League with reference to the candidacy of Congressman John W. Langley for re-election in the Tenth district. The devil accused is entitled to a fair statement of his case. Mr. Langley has been in Congress eighteen years. He voted for the Webb-Kenyon act; the District of Columbia Dry bill, the submission of the Eighteenth Amendment, and the Volstead law. So far as his votes in Congress are concerned his record is perfect. It is the vote of a Congressman that counts.

As all the other candidates for the nomination in that district were "dry" the "wet" and "dry" issue was not raised.

Mr. Langley has been convicted in the Federal Court at Covington, Ky., on a serious charge of conspiracy to violate the prohibition law, and sentenced to the penitentiary for two years. In the exercise of his rights as a citizen he is out on bond pending review of his case by the higher courts. He is in the hands of the constitutionally appointed agency to determine whether he is guilty or not guilty, and if guilty, to fix his punishment.

The Anti-Saloon League upon due consideration respects the courts and awaits their final decision. The Anti-Saloon League is not fighting the Democratic party. It is opposing the election of a "wet."

Democrat to the Senate. It is not supporting the Republican party. It is supporting a "dry" Republican for the Senate.

A. C. GRAHAM, State Supt. H. H. MASHBURN, Associate State Supt. P. S.—The charge that the League has made its mailing lists available to the Republican headquarters is not true. It has never made its mailing lists available to anybody whomsoever for any purpose whatsoever.

MAN TAKES NOVEL OATH

SWEARS HE'LL SEND 100 BUSHELS OF COAL DUG.

Calletsburg, Ky., Oct. 24.—"I solemnly swear that I will send my wife \$20 each month—and that I will have 100 bushels of coal dug for her use this winter" was the unusual oath taken by Columbus Thompson here yesterday.

A poorly dressed woman came into Judge McConnell's office, breathing heavily from the stairs, and told her story, interspersed with many sighs and sobs. She was the mother of thirteen children, the youngest eight, and her husband and two older sons left her and their home at Georges Creek, several miles east of Louisa, near Orkney, and on Thursday about 2:30 P. M. a meeting will be held at B. R. Wheeler's orchard, near Flat Gap. Fruit growers of the county are invited to attend these meetings.

On Wednesday November 5, a similar meeting will be held at the C. Elliott orchard, in Floyd county, near Orkney, and on Thursday about 2:30 P. M. a meeting will be held at B. R. Wheeler's orchard, near Flat Gap. Fruit growers of the county are invited to attend these meetings.

Fruit Growers Meeting Paintsville Nov. 5 to 8.

W. W. Magill, Fruit Specialist, from the College of Agriculture, will spend the week of November 5 to 8 in this vicinity. On Saturday afternoon, November 8, he will hold a meeting in the James Preston orchard in East Paintsville. At this time such subjects as desirable varieties, location for the orchard, soil type, pruning, spraying, cultivation, harvesting and marketing will be discussed. Any grower who has any questions along these lines will have a chance to ask them and be answered.

Wm. Fred C. VanHoose, of Mingo, will be present with a wagon load of fruit which has grown on his farm near here. It is hoped every orchard will see fit to give their orchard systematic care, such as Mr. VanHoose is doing.

On Wednesday November 5, a similar meeting will be held at the C. Elliott orchard, in Floyd county, near Orkney, and on Thursday about 2:30 P. M. a meeting will be held at B. R. Wheeler's orchard, near Flat Gap. Fruit growers of the county are invited to attend these meetings.

Dollar Days.

Wish to call attention to the fact that Friday and Saturday of this week will be Paintsville's first Dollar Days. The merchants of the town have combined and have marked their merchandise in such a way that it will be the biggest feasts that the shoppers of this section have ever had the good fortune to have offered them. We also wish to call attention to the advertisements that appear in this issue of The Herald. They will tell you where and what you can buy for one dollar.

Not only will they offer wonderful bargains that can be purchased for one dollar but they have also marked all their merchandise down for this day. They have forgotten price and profit in this offering in their desire to make the day a success and make it worth the while of the shoppers.

Paintsville merchants are reliable and forward-looking men. They are honest and their goods are the best that can be purchased. Things can be purchased in Paintsville at any market affords. If a merchant has not what you want just make your wants known to him and you will be surprised how soon he can get what you want for you and still greater surprise how much money he can save you on that same article.

Paintsville is the shopping center of a large field and its merchants are the most willing, courteous and desirous of giving service of any collection of merchants that will be found in any town in the country. They are your home folks and to them you owe it to trade with them at all times. You not only owe it to them but you owe it to your community and last but not foremost you owe it to yourself, for just as much money as you spend in some other town leaves Paintsville and this section. In letting that money leave this section you will lose your proportional part.

If we but realized that the whole community depended on one another in business and in trade, and just how much we are all dependent upon each other then it would be little use for us to write this. There are, however—and a sad plight it is—a great many who do not realize this in their selfishness.

Come to Paintsville on Friday and Saturday and help make the day a success both for the merchants and for yourself. You will be trading with your own people—your neighbors—men whom you can trust and you will be benefited by it. Dollar Day is a new thing here and a mighty good thing it is. It is here to stay. Come on in and see what these men have in store for you. You will not regret it; you will be glad you came. Everybody will.

Your Vote—Use It.

It is indeed a strange thing that the very right that our forefathers fought for in the Revolutionary War, gave their lives, their homes and their goods for, is so lightly regarded in this day and time. It is not a thing that has gone out of use, it is a thing that is most vitally important now, even more so than it was then. That right is the right of suffrage. Why is it that the number of men who do not vote increases with every election? Why is it that the men who should be the most interested do not go to the polls on every election day and cast their ballot? Why do they show this lack of interest and then when a crowd of machine-made politicians go to the session of government of our country and make laws and do things that are a blot on the good name of our State and Nation. They are the first to raise their voices and proclaim loudly and continuously that the country is going to the "how hows." We do not even attempt to answer these questions for indeed we ask ourselves, why do they and why don't they?

The right of suffrage is a sacred trust that has been handed down to us by our forefathers. Indeed we might say that it is a number of talents that they have given us. Why do so many of us go and hide them in the ground to keep them unused? Why do we not go out and turn them over until they increase and be a blessing to us as they should be?

So many take the attitude that their one vote will not make any difference in the final outcome of the election, so why should they bother themselves to go to the polls? They do not realize that if the majority of people in the country thought the same thing that it would surely enough be a poor in which to live. And what would these same men say if someone should suddenly take this right away from them? Why, they would rise up to a man and be willing to fight for this same privilege that they so continuously disregard each election day.

Never in the history of Kentucky has your State and your Nation needed the vote of thinking men and men of the country who are for the best things for our State and Nation. In this election Kentucky faces a choice; shall she move forward or shall she recede into the last ranks? Shall she stand for the Constitution or shall she surrender? Shall she regard it. Do your duty as citizens and go out and cast your vote. Cast it for the betterment of the State and Nation and for the higher things, as you see them, and you will have a sense of having done a good thing. The country is just what we have to make it. Let's go out and make it still better, than the best.

Don't Stay Stuck.

We have done nothing much of late but, boost the Bond Issue, but we feel that we cannot say too much in its favor. However, we will not tire you with a long-winded spiel about its many virtues, and there are a string of them that would take columns, but we do want to bring before you just one thought. Colonel Chas. Morrow, in a speech to the voters of Johnson County last Monday made a statement that we would like to put before every voter in the State. He said, "Vote for the Bond Issue and have good hard roads that every one of YOU can use. If you don't your great grand son will get stuck in the mud on the main highway as he goes to take you to the cemetery." There is a lot of truth in that statement.

IF LA FOLLETTE SHOULD WIN.

Even among the super-heated radicals, there are doubtless few who expect Senator La Follette to be elected. But it is interesting to speculate on what would happen, in the event of the success of the "Progressive" movement.

That movement is made up of the most diverse elements imaginable. A dozen schools of political and economic thought are represented in it. All would clamor for immediate recognition and insist that their particular nostrums be forth with administered to the country with a government spoon. Not since Babel has there been anything like it would be. As a circus it would have everything, but the price of admission would break the taxpayers.

There would be Socialists who want to divide up everything, and otherwise hasten the millennium; red flag followers who want the modern Russian system of government installed here; I. W. W.'s clamoring for one big union, opposed by the Gompers crowd of organized labor; followers of Henry George who want all taxes assessed against land, and farmers who would not stand for that; the foes of the Constitution, and minorities who feel safer under the protection of that bill of rights. There would be more nuts, trunks, wheels and bolts than could be used in any machine.—Herald-Dispatch.

Civilization Doomed! But—"Millions now living will never die"

In a Free Lecture at the Court House Sunday, November 2, Dr. Reynolds will tell the people why the greatest crisis of the ages is upon the world; why all nations are mustering their forces for the greatest conflict of all times, as foretold by the Prophets of God, how that great trouble will be cut short by the Lord, and why millions now living will never die.

SOME OF THE GREAT STATESMEN OF THE EWORLD SAY:

"Civilization is doomed within this generation to a catastrophe such as the world has never known."—Lloyd George.
"The United States is preparing for war that would tax us to the utmost in man-power resources."—Secy. of War Weeks.
"We have come to the crossroads and no one knows the way out."—H. G. Wells.

"I think it is certain that if there be another such war civilization will never recover from it."—Viscount Grey.

"The war has revealed that our civilization is pagan."—Dr. Bernard I. Bell.

"The future is very dark. We have reached the twilight of civilization."—Dr. H. L. Brailsford.

Dr. Reynolds says: "After centuries of laborious effort to better conditions, man's civilization is nearing complete collapse. Selfishness has gone to seed and the harvest of destruction has begun. All nations are in distress and perplexity.

"WAR has bankrupted Europe and demoralized America, yet the nations go feverishly on preparing for more war. Modern science and education have made war more diabolical and fiendish than in the days of barbarism. The modern clergy have abandoned God, the Bible, and the Prince of Peace, and sanctify war.

"CORRUPTION and official lawlessness are brazenly manifested in all nations. Profiteers, conscienceless politicians and unfaithful clergy are in an alliance to rule the world by an unholly and vicious League of Nations. The people are fleeced, robbed and oppressed. Millions are out of employment. They have lost confidence in their leaders and are rapidly turning to Bolshevism, radicalism and anarchy.

"DISASTER stalks abroad and all nations are rushing madly to the greatest time of trouble the world has ever known.

"HOPE for the people lies in the kingdom of God now at hand. Millions are now living who will see that kingdom in operation and if obedient to its righteous laws will never die, but will live on earth forever in happiness, peace and prosperity. The world's darkest hour is just before its greatest blessing."

LOCAL ELEVEN SUFFERS 46-6 DEFEAT AT HANDS OF IRONTON

**HIGH SCHOOL TEAM LOSES
GAME TO OHIOANS DURING
FIRST TWO PERIODS
OF GAME.**

The Paintsville High School football eleven suffered their first defeat Saturday at the hands of the Ironton High School team by a score of 46 to 6. Ironton got away at the very start of the game and ran up a score of 40 points before the local boys could organize themselves to the task before them. During the last half, however, they got into their stride and held the heavy opponents to an even break by.

Local boys had played away from home and they were nervous from the start. Their attack and defense seemed to be scattered and unorganized. The crowd was large and the enthusiasm of the Ironton backers was too much for their nerves. They were stricken by a good healthy attack of stage fright.

All during the first half of the game Coach Backer sent in as much fresh material as he had available in order to get the boys on their feet. This, however, did not seem to avail as the Ironton eleven smashed its way thru the team and got a total of six touchdowns and made a total of four tries for goal.

Between halves Coach Backer got to the heart of the trouble and the team went back in and held them. During the last two periods of the game it was real football with Ironton using everything they had and with Paintsville's line holding them.

During the last half the honors were divided with Paintsville having the slight majority.

We do not like to give alibis but men that were out of uniform. The two men that they did not use were negroes.

This was the first game that the

strangeness of the field and the fact that it was their first appearance away from home also added to their bewilderment.

The team is being put thru the stiffest of practices this week and it is probable that there will be several changes in the line up that will face Ashland next Saturday. It is also planned that the team leave here next Friday night in order to rest up before the game. The local boys have the makings of a championship team if they can only get over the nervousness of playing on a foreign field.

Quite a large crowd is expected to go to Ashland to back the team and they are going with a determination to effect the stinging defeat of last week. "On to Ashland, let's show 'em."

BIG GAS WELL IN BRADLEY SAND IN MAGOFFIN COUNTY.

Tom Hays has drilled in a gas well in Magoffin County that is estimated to produce between four and five million feet per day. It is a new field, six miles from any other production. The Bradley sand, about 800 feet, is producing the gas.—Big Sandy News.

MAYO MEMORIAL NOTES.

The services at this church were very well attended last Sunday. There were sixty-three persons at the morning worship and sixty-five at the night service. There were 136 at Sunday school, and 85 of these reported on time. There were 42 persons at the Epworth League and a good program was rendered. There were 19 of Woman's Missionary Society on Friday afternoon, and a splendid session was held. The prayer-union last Wednesday night was very interesting, fifteen in attendance. The total attendance at all services for the week was 344.

We will have our prayer meeting this week and our Sunday morning services at the usual hours. This Sunday evening service will be combined with the Epworth League service at six o'clock, giving our people the privilege to attend the service at the Christian church. This will be done also when the Baptist revival is in progress two weeks later. Sunday, November 9, the District Epworth League Conference will be in session at the Mayo Memorial Church and the services will be held both morning and night. We are sorry this date conflicts with the revival, but it could not be avoided. The pastor is in perfect harmony with all the pastors and churches of Paintsville, and urges his people to attend and co-operate with all the revivals.

The pastor's subject for next Sunday morning will be, "The power of Last Words."

JOHN COLUMBUS IN PLANE CRASH

LOCAL AVIATOR BARELY ESCAPES WITH LIFE WHEN AIRPLANE WRECKS.

John Columbus, flying his scout plane from here to Huntington last week crashed near Catlettsburg, and escaped by a miracle when his safety belt held and prevented his being crushed beneath the mass of wreckage. The crash resulted from trouble with the gas tank and Columbus was forced into planning down.

He tried to make his landing in an open field about a mile and a half above Catlettsburg, but as he was still a distance above the ground the plane became unmanageable and turned over, falling to the field a complete wreck.

People who saw the fall ran up and helped to assist the pilot from beneath the wreck. He was found to be uninjured although badly shaken up and shocked by the crash.

Columbus has been piloting sight-seeing planes for some time in this vicinity. He was in a smash last year and secured his new plane at that time.

The pilot has stated that he will retire from the flying game with this wreck. For some time he has contemplated leaving the business, and this last misfortune will be the climax of his air career.

JNO. C. C. MAYO COLLEGE NOTES

Editor-in-Chief: ORVILLE STEPHENS. Assistant Editors: LOUISE COLLINGSWORTH. BUSINESS MANAGER: BETSY RULE. Faculty Adviser—Miss Burrows.

The chapel exercises have been unusually good this week.

Tuesday morning we had an interesting inspiring talk by Mr. Warfield of Frederick, Maryland. Mr. Warfield, after visiting a few months in school with Paul of Czecho-Slovakia as a missionary. He will be located in the city of Prague. We consider it a great privilege to hear a man such as Mr. Warfield who lives a life of concentration, and of service for the Master. Our prayers are for God's richest blessings upon his service. For the rest of the week the chapel services were led by President Sowards who always has something worth while for us.

The Senior Class of the Jno. C. C. Mayo College met Tuesday, 1:30 P. M. in Margaret Mayo Hall for the purpose of organization. After devotional exercises led by Mr. Sowards the following officers were elected: President—Betsy Rule. Vice President—Burieta Greenwade.

Secretary—Augusta Harris. Treasurer—Jewell Swetnam. Spouser—Carrle L. Burrows. Francis Du Pre of Royalton, Estill Butcher of Offutt, and Shelby Woods of Emma, were visiting home folks over the week end.

Our eighth grade is the largest it has been at this time of year. Seventeen of those who completed their grade work with us last year are now flourishing high school pupils. We hope they round out their high school work in the same fine way that they did the grades.

Della Hitchcock was absent from Fourth grade two days this week on account of death in the family.

Woodrow Gibson spent the week end with relatives at Estill, Ky. Miss Hazel Williams has resumed her work in grades three and four. She was away a few weeks due to prolonged illness in the family.

The Normal Department registered to date fifty-seven pupils and three specials.

Ann Wood, Mitchell and Malcolm Daniel were absent two days on account of death in the family.

Red Bush is represented in the Normal by Wesley Lee, Shelby Williams, Emory Hamilton and Don Beed. Haden Rice, Clyde Miller, Amelia Shannon, and Goldie Shannon will finish the term this semester.

The Normal class, always on the alert, have organized with the following officers: President—Evelyn Horn. Vice President—Vera Horn. Secretary—Jewell Swetnam.

The Commercial Department of Jno. C. C. Mayo College is steadily growing. At present we have 20 students enrolled.

The picnic planned for last Wednesday, was postponed on account of the weather.

Earl Castle spent the week end at home at Wayland. Joe Estep enrolled Monday for additional work in the bookkeeping department. Miss Lillian Thomas visited friends in Ashland Saturday.

ACT PASSED TO AID CRIPPLES

STATE APPROPRIATES FUND TO GIVE TREATMENT TO CRIPPLED CHILDREN.

The following is a letter received by Supt. Fred Meade and explains itself.
Mr. Fred Meade, Supt., Paintsville, Ky.

Dear Sir: I desire to call your attention to the Acts of 1924, Chapter 15, page 20, to the law that was passed at the last Legislature appropriating ten thousand dollars and creating what is known as the Kentucky Crippled Children Commission. The Governor has recently appointed as members of this Commission, four teen and one woman. The names of these will be found on the above letterhead. The above named Commission has employed an Executive Secretary and opened an office at 532 West

Main street, Louisville.
It is the desire of this Commission to get the co-operation of every public spirited citizen in this all important piece of work and we sincerely hope you will assist us by reporting any cases that may come under your observation. There are approximately twelve thousand crippled children in this State. Many of them, if given the right kind of surgical care, can be relieved. It is our hope to organize the State in such a way that we will be able to get real results for these handicapped children.
Thanking you in advance for your co-operation, I am,
Respectfully yours,
MARIAN WILLIAMSON,
Executive Secretary.
All parents or guardians desiring further information should call at the Superintendent's office. The crippled child should have a chance to get well.

FOR SALE.
I have for sale one fine buggy mare, also buggy, harness, saddle and bridle. If you want a safe family horse call and see her at 345 Fourth street, Paintsville, Ky. G. B. RICE.

ANNOUNCEMENT.
To the voters of Johnson County: I take this method of announcing myself to you as a candidate for the office of County Attorney. You have some one to nominate at the August primary, 1925, for this office. I hope to see you all before the primary. Your support will be appreciated. I have something to tell the people concerning the graft that has been going on in Johnson County.

Most Sensational Race in Turf History.

Einard Famous Over Championed.

Sarazen, the Winner, Bed In Old Kentucky.

The \$50,000 Contest at Latoria Breaks All Records.

GREATEST OF ALL TURF CONTESTS

(Bob Saxon in Cincinnati Enquirer.)
Sarazen, the main line with a one-half-mile lead, was the most brilliant contest in the history of thoroughbred sport in America. William K. Vanderbilt II, the great International Special, in the first turf contest ever witnessed in America. A nose back Einard came Mad Play.

The victor, was ridden by George Babin and trained by Max Hirsch. The one mile and a quarter was run in the fastest time ever witnessed in America, although a mistake on the part of the starter at Belmont Park several years ago deprived Sarazen of that wonderful honor.

The mile and a quarter was traveled in 2:04.4, which clip of one had been fifth seconds from the track mark made by Bedside in the Latoria Club series.

The little High Time-Rush box gelding was the best. He permitted Chiltrow to run himself into the ground in the first mile, then moved on and taking the lead in the second mile had passed the half-mile post by half an evening advantage all through that stretch run. Victory was won to Sarazen's owner.

One more Einard in great defeat. Three times he was French champion, once more he was American champion, but he was never able to produce at various distances and distances. His handsomeness, his courage and his speed were his chief assets. He was bred by the late Mr. J. W. Heald and was owned by the late Mr. J. W. Heald.

No untoward incident marked the running of the race. It was purely run in every sense of the word. No able nor excuse could be offered by either jockey. The best horse won, and won in a most decisive fashion.

MRS. VANDERBILT'S LOVE FOR SARAZEN

(George Dacey in New York World.)
EINARD, three beaten, first by Wise Counselor, second by Einard, and third by Sarazen at one mile and a quarter Saturday, is no less a great horse. He has proved it conclusively in a race which was turned out to be a desperate test without any margin of safety in the victory. One after another they came along to reach their top form, and Einard, with all his qualities, did not overcome the bad breaks of racing, and at least one ill-judged ride. Pierre Wertheimer, a mighty sportsman, had his high faith in Einard. Unfortunately, the conditions he so freely set were against his good horse, and yet he has no word of complaint. Horse for horse, believe Einard had won ten out of the three races. In this, Mr. Wertheimer can take some consolation. It is not believed, however, that any horse living could have beaten Sarazen on Saturday from six furlongs to a mile and a quarter.

THE OWNER OF EPINARD ENTERTAINING

(NEW YORK TIMES.)
ONE of the pleasing features in connection with the international race was the racing breakfast given by the directors of the Kentucky Jockey Club in honor of Pierre Wertheimer, owner of Einard, at the Latoria clubhouse. The decorations were in harmony with the occasion, which was quite informal. President J. N. Camden presided and Colonel Matt J. Winn, a managing director of the club, presented to Mr. Wertheimer a gold plate suitably inscribed as a souvenir of his visit to Kentucky.

BEATEN BY A BETTER HORSE

(Wm. McD. Keefe in New Orleans Picayune.)
LATORIA RACE "FRANCE." Latoria, Ky., Oct. 11.—Turf history was made here this afternoon, and a New Orleans boy had a whole lot to do with it, too.

George Babin, who lives "upon Chestnut street," as he brazenly and often says, the race, and Sarazen, Mrs. W. K. Vanderbilt's sleek and best chestnut gelding, in a glorious victory in the third international special, the event in which Pierre Wertheimer's famous colt, Einard, was so heavily defeated by the Latoria. Einard was second, just as he had been in the first two international specials, and just as in those, Einard was not disgraced.

Today, however, the great French horse had no success. He was beaten by a better and a faster horse. But he can take consolation in the fact he made Sarazen smash all bona-fide American records for a mile and a quarter and that the Latoria track record was shattered by running the distance in 2:04.4. The Latoria record was 2:12.4, the American record of Einard's made by Whitebrook always has been Einard, 2:08.4.

Breaking close on the heels of Chiltrow, Sarazen gradually caught up and, after a few furlongs, he was in front. He was never headed after that. Einard, who was running in third place, then the handsome gelding charged and jangle half a mile from home, then, after Chiltrow dropped back, he beat Einard, and he was in front. He was challenged, only to be quickly shaken off as he swung into the stretch. He was never headed again on Einard. The lion-hearted chestnut showed his pluck and courage and energy he had in still another challenge. Sarazen, who was in front, was in the flying leader a furlong from home.

The main shock up Sarazen and the Vanderbilt gelding, running straight and true and apparently with speed, courage and strength left, drew out and went into the wire more than ten lengths to the good.

Einard stood to his guns like the warrior. He was outstripped both by the determined Mad Play and the fast finishing Allowford for second place and by Sarazen for third place, though to another stride Allowford, which ran in front of Sarazen, had been in third and maybe second.

"He has never been an 'in' or an 'out,'" attached to Sarazen's victory. He gave his rival a decisive beating, from Chiltrow, which started off first and wound up last, to the three closely bunched ones which kept fighting to get in in the last furlong.

Einard was so strong at the finish, no full run was made, so easily that Sarazen was not so easily as few horses are loved. She has only a passing interest in the race, for she is not so different with the son of High Time-Rush, which has been in third and maybe second.

"The horse has never an 'in' or an 'out,'" attached to Sarazen's victory. He gave his rival a decisive beating, from Chiltrow, which started off first and wound up last, to the three closely bunched ones which kept fighting to get in in the last furlong.

A GREAT RACE WON BY A GREAT HORSE

(DESHA BRECKINRIDGE IN LEXINGTON HERALD.)
NOT during the life of the present generation, if in the history of the American turf, has there been such a race as that which Sarazen won Saturday. For so far as we know there has been no race in America nor in Europe in which horses of higher class, trained to the hour, met on even terms to battle for so large a purse and so great distinction.

The types of the lovers of the thoroughbred in France and in England, in Italy and in Spain, as well as in America, were turned and their thoughts concentrated on the contest between the outstanding horse of Europe and the best that America could produce to compete for the championship of the world.

The surroundings, the setting, the day, were in thorough accord. There is no more beautiful race course than Latoria, equipped with greenwood and flowering flowers which contrasted with the lake that on Saturday reflected as well a mirror the speeding horses and the tense spectators. And the crowd was notable. Here and there the full power of any who play a part in any contest of activity journeyed far to see the supreme effort of the horse bred in Europe to add to the laurels gained in the land of his birth the crown of victory over all horses in America.

Never was there a more gallant contest, never a cleaner run race with greater incidents of real sportsmanship, than the race which the American horse, that is the very epitome of the romance of the turf, met in the international race. The history and breeding of Sarazen, and his training and racing will in time be come counted among the most interesting and appealing of the stories of the turf, that has always and will always abound with romance.

There could not be a more striking illustration of the generous sportsmanship of the American people than has been given in the international race. It was at Belmont park won by Wise Counselor—another horse whose history is a romance, the foal of a mare purchased by Thomas C. Bradley for a hundred dollars, that the American people first saw the greatness of the horse may be measured, the spectators gave as great acclaim to Einard, the defeated, as they did to Sarazen, the victor.

Again and after two defeats the horse owned the overwhelming favorite, and even after the race was won to him and to his owner, as high a reputation of the greatness of the horse and the sportsmanship of the American people, equal acclaim with Sarazen, the victor. And in that acclaim given in the first and in the last of the international race recognition was given both to the greatness of the horse and to the sportsmanship of the American people. They each seen first as great in defeat as they were seen in victory.

Each seen first by Wise Counselor, then by Ladin, then by Sarazen, Einard came and was aged and the prize made by Mr. Wertheimer it was impossible for Einard to have the benefit of running in other races preparatory to the international contest. Some think otherwise. They say that Einard, who was in front, was in the flying leader a furlong from home.

The main shock up Sarazen and the Vanderbilt gelding, running straight and true and apparently with speed, courage and strength left, drew out and went into the wire more than ten lengths to the good.

Einard stood to his guns like the warrior. He was outstripped both by the determined Mad Play and the fast finishing Allowford for second place and by Sarazen for third place, though to another stride Allowford, which ran in front of Sarazen, had been in third and maybe second.

MOST BRILLIANT RACE IN TURF HISTORY

(Henry R. Halsey in New York Times.)
LATORIA, KY., Oct. 11.—In a race which will be remembered as one of the most brilliant contests in the history of thoroughbred sport in America, Mrs. William K. Vanderbilt II's splendid little gelding Sarazen this afternoon won the International Special No. 3 over the course of a mile and a quarter on the Latoria race course of the Kentucky Jockey Club, beating Einard by a length and a half in a hair-raising finish, in which the great French colt was a nose in front of Mad Play, the latter coming out Allowford for third money.

The race was a tremendous contest on the High Time and Rush Box, set for a new track record of 2:04.4 in winning all previous victory, setting up and three-fifths seconds from the former mark set by the city Bedside when he defeated Princess Doreen. For Mrs. Vanderbilt set Einard, \$1,000 to Mad Play and \$1,000 to Allowford.

They thousand madly cheering spectators thronged from every corner of the United States and were more than the last two furlongs of that exciting race and a quarter mile Sarazen's little chestnut body a length out in front of the pros, with Einard, Mad Play and Allowford close behind. Sarazen's little chestnut body a length out in front of the pros, with Einard, Mad Play and Allowford close behind.

The remarkable speed of the race recorded by Einard, which was 2:04.4, was a record for a mile and a quarter. It was a battle from the very moment that the horses started. Einard, Mad Play and Allowford were in front of the pros, with Einard, Mad Play and Allowford close behind.

It was the unanimous opinion of horsemen that every horse in the race had a fair chance. Einard, Mad Play and Allowford were in front of the pros, with Einard, Mad Play and Allowford close behind.

Sarazen won his marvelous race purely on his merits as a great race horse, but he was not a better race horse than the little George Babin Max Hirsch had arranged for him to have a mound of money to add to his racing bank.

Sarazen's victory was a triumph for the American horse. It was a triumph for the American horse. It was a triumph for the American horse.

Sarazen had to negotiate the Special's stamens testing out of one and one-quarter mile to the phenomenal time of two minutes, ten and four-fifths seconds to the wire.

A BRILLIANTLY CONTESTED RACE

(From Milwaukee Journal.)
LATORIA, KY.—In a truly run race and one that has been more brilliant than any in the history of thoroughbred sport in America—Mrs. William K. EPINARD GALLANT IN DEFEAT

(Robert E. Dundon in Louisville Herald.)
LATORIA, KY., Oct. 11.—Once in a lifetime, it is rare, to come a showing, today at Belmont Park, County Ky. Bust for thousands of sports-loving Kentuckians and their guests from other states, the best of the best horses run with the vertebrae of the horse in the world.

Epic of the turf, in a commonplace fabled for quick deeds of valor and romantic feats of horsemanship. The bright autumn sun shone down on a lightning-fast track.

THE BIGGEST CROWD IN LATORIA'S HISTORY

(C. J. Savage in the Courier Journal.)
LATORIA, KY., Oct. 11.—America again conquered France in the quest for world's thoroughbred honors when Sarazen, 3-year-old son of High Time-Rush, beat Einard, the best of the Fair Stable, owned by Mrs. William K. Vanderbilt II, and cleverly ridden by Jockey George Babin, won the third international special race, over the distance of one and one-quarter miles at Latoria course today.

The first Vanderbilt gelding established a new track record, 2:04.4, only 4.4 of a second less than the world's record.

Einard, the game French horse, which finished second in the two other international specials at Belmont Park, and Aqueduct, wound up in the same bill 25 last showed him in a clean pair of heels at the end of a grueling mile and a quarter battle.

Sarazen, the unbeaten two-year-old of last season, accomplished more in his defeat of Einard than he did in any other contemporary. Wise Counselor and Ladin, for his was a clear-cut victory in record-breaking time.

A RACE WITHOUT A MARRING INCIDENT

(Lincoln G. Pratt in Cincinnati Commercial-Tribune.)
DABBARED from the first two international specials by reason of his being a gelding, Sarazen, Mrs. William K. Vanderbilt II's three-year-old son of High Time and Rush Box, gave the Stars and Stripes their third consecutive victory over the Tri-Color of France when he vanquished Einard, Pierre Wertheimer's mighty four-year-old champion of Europe, in the third and final international special race over a crowd estimated at 50,000 at Latoria yesterday afternoon.

Sarazen had to negotiate the Special's stamens testing out of one and one-quarter mile to the phenomenal time of two minutes, ten and four-fifths seconds to the wire.

SENATOR CAMDEN PRESENTS TROPHY

(NEW YORK WORLD.)
MR. VANDERBILT, in her box in the club house, could hardly restrain her emotion. She stood up with all the others and, fairly suffering from a heart ailment, whispered to her neighbor, "I am so glad to see you win. He did win." He did win, and as hundreds crowded about to give congratulations she said again and again: "I'm proud to win such a race with such a horse. I'm so glad to see you win. He did win." "And you, too; much of the credit is yours."

Then came a call for her to go to the judges' stand to receive the handsome trophy and, as Mrs. Hirsch, she stood up there that vast crowd collected it from the hands of J. N. Camden, President of the Kentucky Jockey Club. "I'm so glad to see you win. He did win." "And you, too; much of the credit is yours."

A CLEAN-CUT, DECISIVE VICTORY

(Howard G. Reynolds in Boston Post.)
LATORIA, KY., Oct. 11.—Sarazen, Mrs. W. K. Vanderbilt II's great chestnut gelding proved his right and his speed in history as one of the greatest thoroughbred runners the turf has ever known when he won a clean-cut and decisive victory over Einard, the French champion, and a field of six others in the third of the series of international sweepstakes at the Latoria track this afternoon.

Sarazen had to negotiate the Special's stamens testing out of one and one-quarter mile to the phenomenal time of two minutes, ten and four-fifths seconds to the wire.
