Perfectly Good Reason Why We Won't Do It

The following effort from a would be correspondent is a perfect example of the reason The News refuses to publish any county correspondence, unless we are absolutely certain as to who wrote it and sent it in. We are publishing this with all names omitted, substituting blanks for names. Read in that way you may take your choice as to the characters in the drama.

It's a funny thing that so many people have the idea that they can use the paper as a means for them to carry out their little fights and grudges. The following is really funny especially so if you could read it as we have. Evidently some girl had her feelings hurt, or some other girl took away her beloved.

Highway Patrol Gives Law On Truck Permits

According to Bud Wyrick, state patrolman for this district, the state highway patrol has been devoting most of its time recently in an effort to enforce the state law with regard to the obtaining of permits of out-of-state trucks to operate in this state. The state law, says Mr. Wyrick, requires any out-of-state operator to obtain license to operate in the state past a point ten miles from the border. Many operators have been getting by with ignoring this law, on the plea of ignorance. The State Patrol takes the position, he said, that ignorance is no excuse, because if a man or any state, he should become familiar with the laws of those states in which he operates.

Actually he says, they think they will get by with it, by slipping in

REMEMBER WHEN?

You wouldn't think of lighting your cigar with a twenty-dollar bill. You've heard of people doing that, and have probably regarded them as being insane.

But, if you are an average person, you consistently take chances on a fire that may cost you many times a "measly" twenty dollars. Remember when a fuse blew last winter and you couldn't find another—and so established the circuit by putting a penny behind the old fuse? Thousands of fires, many of which have destroyed lives, have been caused by this highly dangerous practice.

Remember when the cord of your reading lamp wore through and you repaired it yourself, with the aid of a kitchen knife, some automobile tape and considerable profanity? The list of fires resulting from amateur electrical repairs would fill a big book.

Remember that cold morning when the fire was balky and, in a fit of anger, you turned to kerosene to get it going? That practice has burned down thousands of homes—and provided many a man with an abrupt passage to the hereafter.

Remember when you noticed that your furnace doors no longer fit tight, that the flues looked to be in a sad state of repair, that the chimney shot sparks—and you decided to have those matters attended to another day? Sometimes the other day never comes.

Remember when you awakened and found the room full of smoke from the smoldering cigar butt that had fallen onto the bed or the carpet? The insurance records are full of cases where the smoker in question never did wake up again in this world.

The list of careless actions that may cause fire could be prolonged indefinitely. You may take a chance a thousand times and get away with it—and on the thousand and first time it may get away with you. The man who lights his cigarette with a twenty-dollar bill is not as wasteful or reckless as the man who takes a chance on fire.

HE DIED CLIMBING

Somewhere in Switzerland a gravestone marks the final resting place of a certain Mountain Guide, and on it are these words: "He Died Climbing." Could anyone ask for a finer epitaph?

To continue to grow and expand our personalities straight through to the end—that is valiant living. As long as we have minds to think with, hands to work with, and a will to command them both, we can climb up to better things. "Improvability" is the birthright of every man, woman and child. Dr. Charles Mayo says, "We are using only a small part of our brains today. The unused parts are unlimited. Life offers us challenging peaks to scale!"

I like this inspiring poem by Florence Earle Coates: Thank God, a man can grow!

He is not bound With earthward gaze to creep along the ground: Though his beginning be but poor and low,

Thank God, a man can grow! The greatest remedy for anger is delay. Seneca

ANNOUNCEMENTS

TO THE REPUBLICAN VOTERS OF MAGISTERIAL DISTRICT NO. 1 I take this means of announcing myself as a candidate for the nomination to the office of Magistrate, subject to the action of the Republican Primary, on August 7, 1937. I have been a life long Republican and I am interested in the continued welfare of the people of this county.

If I am nominated and elected I will stand for the following: 1. I am in favor of the continuation of the County Health Unit as long as they continue to give results that justify the expense.

2. I favor the continuation of the County Agricultural Agent as long as the farmers get results from this agency and it proves beneficial.

3. I stand for economy in administration of county affairs. I expect, if nominated and elected to work for the best interest of all the taxpayers of the county, with the interest of my district first in mind for all improvements that will better its condition.

I will appreciate your support and influence. Herbert Moore.

Baptist Revival Drawing Crowds

Interest In Church Movement Reaching High Peak In First Week

Attendance and interest in the revival services being held at the Morehead Baptist Church have been most gratifying to all. Morehead does not habitually break attendance records at any religious service. However, the Pastor, B. H.

Kanez, says the first two nights have had enthusiastic attendance and that the interest indicates a good meeting.

Monday night was emphasized as Baptist night, at which time all members of the local church were asked to be present. They responded in gratifying numbers, and their attendance was augmented by friends from other churches. The second night found even more visiting friends in the audience, and according to the invitation, the people generally are responding.

Dr. H. C. Wayman, Pastor of the first Baptist Church, Newport, Ky.,

is the visiting preacher. His sermons are simple, direct, and forcefully clear. The children can understand him as well as the adults. Rapt attention characterizes his audiences.

Dr. Wayman is a man of long and rich experience in the ministry. He is a graduate of Georgetown College, and of the Southern Baptist Theological Seminary in Louisville. For five years he was president of William Jewell College in Missouri. For ten years he was a professor in the Baptist Seminary at Louisville, teaching Biblical Introduction

and Hebrew. The last eight years he has been Pastor in Newport, one of the largest churches in the state. His ministry there is meeting great response in a rapidly growing church. All this varied experience is augmented by a deep understanding of spiritual things which renders him able to speak with authority.

Services are being held at 2:30 P. M. and 7:30 P. M. Daily. The day and night services are marked by the attendance of many college students.

Forestry

(Continued From Page Four) In the wake of fire stalks death and damage. It is quite possible that the lack of knowledge of the very real injury which follows fire in the woods may partly account for so much carelessness with fire. People are usually careful when they realize that thoughtless act may burn up their property. No person in his right mind will light his pipe in the barn and flip the burning match in the fodder bin or hay mow. Why? His hand is stayed by the thought of fire and the damage it will cause. Yet that

same person, may, without thinking flip another match into dry grass or leaves and start a forest fire that will do damage greater than the value of a hundred barns. What is true of the unthinking smoker is true of the man with the campfire, the burner of brush, or of anyone else who uses fire in or near the forest.

So that you may stop and think and then be careful with fire in the woods, the following five injuries (evidence against fire) are given to you:
Injury to: 1-Soil; 2-Timber; 3-Water; 4-Wildlife; 5-Beauty.

thousands of dollars from this source of unpaid truck permits, not mentioning the fines which have been assessed, as a sum that is due the state and should be collected.

The patrol also is checking up on the drivers' licenses. The records, Mr. Wyrick said indicate that there are about as many drivers licenses issued as there are cars in the state. This cannot be accurate, as there are undoubtedly many more people driving cars that own them. One of the duties of the patrol is to see that these licenses are bought and carried.

Permits may be obtained from the Division of Motor Transportation, Frankfort, Ky., and Mr. Wyrick's advice is for all truck drivers to obtain these permits, which are of two kinds before making any trip.

This applies only to trucks that are for hire, and does not effect the farmer trucks said Mr. Wyrick.

IN MEMORY

of our dearly beloved mother, Ruthie E. Trumbo who passed away March 28, 1936.

A wonderful mother, woman and aid. One who was better God never made. A wonderful worker. So loyal and true. One in a million—that mother was you. Just in your judgement, alright. Heart and liberal, ever upright. Your heart was the truest in all the wide world. Your love was the best to recall. For no one on earth could take you are still the dearest of all. Our wonderful mother—that mother was missed. Sadly missed by your daughters, sons and Grandchildren.

Best Seller Shown At Cozy

The motion picture version of Barry Benedict's best-selling novel, "Valiant Is The Word For Carrie," which opens at the Cozy Theatre Sunday and Monday, bringing to the screen Gladys George, noted dramatic actress, supported by an elaborate cast.

Miss George has been a stage actress for many years but did not attract the attention of Hollywood until she made a new record in New York last year by appearing in 700 successive performances of "Personal Appearance." She is an actress of great charm and ability and big things are expected for her by Hollywood.

"Valiant Is The Word For Carrie" is the story of Carrie Snyder, a woman frowned upon by "respectable" residents of a small Louisiana town, and her friendship with a small boy. When the boy is forsaken by the world, she takes him, together with an orphan girl, and brings them up as her own. The years pass and Carrie becomes a highly successful operator of a dry-cleaning business. The children grow up and when it seems that all is serenity, a situation arises which leads to Carrie's arrest.

Before the trial she faced with a dilemma. The children know nothing of her past. To go through with a trial would mean that the whole tawdry story of her former career would be paraded before them. To plead guilty and waive the trial would mean a long jail term, but in that case the children would never know. She makes her decision in a thrilling climax.

George Barber who underwent an operation at the Lexington hospital some time ago was brought home last week. He is still very ill.
