Rowan To Get \$13,685.03 From State Fund

Increase Allotment Due To Balance Left In Treasury From Fund Of Last Year

Rowan county will have \$13,685.03 to spend on their rural highway program for the present year, according to information from Frankfort. This increased amount is explained in the following article from the office of Mr. Cecil Williams, Rural Highway Commissioner.

According to the best information available, it will be expended in much the same manner as last year, with roads in all sections of the county benefitting from the expenditure. The article follows.

Frankfort, Ky., April 28.—By virtue of conservation operation in the administration of the Rural Highway Department, each county in Kentucky will have additional funds for rural highway work this year. Less than one-half of the amount allotted to each county for administration purposes was withdrawn from the budget during the last fiscal year. The unexpended fund, amounting to \$13,164.56, has been apportioned among the 120 counties in the state. Cecil Williams, Rural Highway Commissioner, announced today.

Rowan county's apportionment of the refund adjustment was \$731.06, which with the \$13,225.25 unexpended balance from the 1936-1937 allotment added to the \$11,561.36 set up from the 1937-1938 program gives the county a total available allotment of \$13,685.03.

When the Rural Highway Department was inaugurated April 1, 1936, after the General Assembly had made available \$2,000,000.00 for use on secondary roads, 10 percent of the fund or \$200,000.00 was set up for administration purposes, only 40 percent was used. Administration costs included salaries of Central District office employees, traveling expenses, office equipment, workmen's compensation and incidental items.

When the Department's Fiscal year ended March 31, the administration division had used but \$36,835.44. Mr. Williams immediately began the refund adjustment.

At the end of the year the Rural Highway Department had actually expended in each county \$1,117,759.38, constructing more

Rowan To Have Second T. B. Clinic

First County In State To Be Given Tuberculosis Clinic For Second Time

The second tuberculosis clinic to be held in Rowan County under the auspices of the Rowan County Health Unit will be held here on May 14 and 15, according to an announcement from the office of Dr. T. A. E. Evans, County Health Director in charge of the unit. Plans are now underway and arrangements are being completed to conduct the clinic.

Rowan county is the first county in the state to be honored with a second clinic, probably because of the great success that met the clinic held last year. At that time 154 were tested for tuberculosis, from Rowan and Bath counties, with the result that seven severe cases were discovered. Of these seven, two have since died, and the others have been taking treatments and are showing definite improvement. It has not yet been definitely decided where the clinic will be held although it is hoped to arrange to hold it at the Morehead State Teachers College. The place will be announced later.

There is no charge for the services of the doctors and the clinic is absolutely free, there will be a charge of \$1.00 for the X-Ray picture, if it is found necessary to make a picture.

Everyone, student as well as citizens of the county is invited to this clinic, which is sponsored by the state and county health department.

McKinney Shoe Shop Has Modern, New Equipment

The McKinney Shoe Shop has been recently remodeled and furnished with the most up-to-date equipment that can be purchased. Among other new machinery installed is a new Champion stitcher and finisher, an automatic nailer and a McKay stitching machine, making the McKinney Shoe Shop one of the most modern in the state. H. R. McKinney, son of Life McKinney has taken the old machinery and has opened a shop in Lexington, which he will manage for his father.

A Proclamation

In order to make Morehead a cleaner, healthier and more beautiful place in which to live, I, Harlan Blair, Mayor of the city of Morehead, Kentucky do now and hereby proclaim the week beginning May 3 as CLEAN-UP WEEK.

To further this campaign the City will provide free trucking facilities the last three days of the week, May 6, 7 and 8. Citizens are requested to place rubbish in boxes and barrels in a convenient place so that trucks may haul it away.

City officials will work with the citizens in this worthwhile enterprise, and it is earnestly urged that every resident of Morehead put forth their best efforts during this CLEAN-UP WEEK.

HARLAN BLAIR, Mayor City of Morehead, Kentucky

May Day Athletic Program Given

Coaches At College Arranging Feature Races And Contests As Part Of May Day

The athletic department of the Morehead State Teachers College will do its share to promote a successful May Day Program in connection with the usual program of that day. The afternoon will be devoted to a series of stunt races and contests that would bring hilarity to a new high in such events. It will partake of the nature of a Fourth of July without the fireworks, the greased pig or the greased pole. Here is the race and contest program for the day: Three-legged race. (This race needs no explanation.) (Continued On Page Eight)

I. E. Pelfrey Is Candidate For Judge

Announces His Candidacy Subject To Action Of Republican Voters Of County

In the issue of last week, appeared the announcement of Mr. I. E. Pelfrey of Elliottsville for the office of County Judge of Rowan county, subject to the action of the Republican voters at the August 7 primary. Mr. Pelfrey is one of the well known Republicans of this county and has been prominent in his party politics for years past. For the past four years he has served as a member of the Rowan County Board of Education to which office he was elected in 1933.

Thus far, Mr. Pelfrey is the only candidate to announce on his ticket for the office, and he is certainly a man of sterling character and well worthy of the consideration of his party.

Farmers Accept Phosphate Offer

Local Farmers Order 44 Tons Of Fertilizer From T. V. A. Project

Seventy eight Rowan County farmers took advantage of the Agricultural Conservation Program's offer to supply them with 45 per cent phosphate for their soil conserving crops. These farmers ordered 44 tons of the phosphate, one car has arrived and the phosphate delivered; the second carload will arrive in Morehead shortly after May 1. This fertilizer is being supplied by T. V. A. and is shipped from Sheffield Alabama. It is the highest grade ever used in the county, being more than double the (Continued On Page Five)

Rowan County Club Sponsors City Clean-Up

May 3 Is Set By Major As Opening Date Of Campaign To Make Morehead Clean

Under the auspices and sponsorship of the Rowan County Womens Club, Morehead's annual Clean-Up program will start on Monday, May 3, according to a Proclamation issued by Mayor Harlan Blair, and will continue through the succeeding week. The week from May 3 to May 8 has been officially designated as Clean-up week by the Mayor.

The proclamation appears in another column of this page. The Rowan County Womens Club has sponsored Clean-Up Week for the past two years and has shown some wonderful results as a part of their campaign to make Morehead Clean and Beautiful. Under the supervision of members and committees of the club each year the clean-up of the city has gone forward, until now citizens look forward to the first part of May as a time to be enjoyed, a time to get rid of the winter accumulation of rubbish and trash.

Plans of the campaign of cleanliness are similar to those of other preceding years. Property owners are requested to assist those in charge of the work by cleaning up their property, piling all the trash ashes, cans, tree trimmings, and what-not in a place that can be easily reached by the trucks which are being furnished by the city. These trucks will be available throughout the week for the free use of the citizens and property holders. When you have your trash raked and piled in boxes or barrels near the street, get in touch with those in charge of the work and notify them that you are ready for their services. They will see that a truck comes to haul away.

The Rowan County Womens Club as sponsors of the Clean-Up are setting a goal to make Morehead the "Cleanest town in Kentucky. They urge property holders not only to clean their premises but to beautify them as well. A few well chosen flowers and shrubs do much to making a home beautiful they say. A clean well-kept yard is a thing of beauty.

Their ambition is not only to clean Morehead but to keep Morehead clean throughout the summer season. This is a college town, they say, and they want it kept neat, clean and beautiful. They wish to aid in (Continued On Page Five)

THE USE OF LEISURE

One of the easiest things in the world is to draw up rules for the guidance of human conduct. Probably the hardest thing in the world is to induce people to live up to such rules. Theoretically, everybody should have plenty of leisure time to devote to self-improvement, after his or her day's work is done. Therefore if the working day in which people earn their livings is cut down to a few hours, the world will speedily become a much better world, because everybody will devote the extra leisure thus gained to the pursuit of useful knowledge.

That doctrine is widely preached by well-meaning persons who have an ideal plan for living all figured out on paper. Like most ideal plans which relate to human conduct, this theory takes no account of human nature. Doubtless there are some persons who would rather use any additional leisure time for study and self-development than to go to the movies or a baseball game. We have heard of such people, but we have met very few of them. On the other hand, we have observed that the individual who is really bent on self-improvement will find time in which to do the things which interest him, regardless of how many hours he has to work on his daily job.

Doubt of the theory that more leisure is what the world needs is cast by a famous physiologist who has been investigating the work-and-play habits of men and women employed by a large corporation. Dr. Edward L. Thorndike and his six associates declare that human beings who already devote more than half their leisure to self-entertainment would be more likely than not to devote any increased leisure time to the same ends, instead of pursuing wisdom and truth.

Analyzing the use which this group of men and women make of the time they have left after their eight-hour day of work, the psychologists report that they average eight hours of sleep. Out of the rest of the day comes the time spent in travelling to and from the job, time out for eating—men spend more time at the table than women do—and time spent in personal adoration. Here the women use more time than the men. But in the 40 hours left every week do these workers pursue knowledge? Not so anyone would notice it. Four-fifths of their leisure is spent in games and sports, going to the movies, listening to the radio and similar recreations.

That is about what most of us do with our leisure. Perhaps it's just too bad that we won't perform according to the program of "die uplifters"—and then, perhaps, there's something in the idea of getting as much fun out of life as you can.

POWER FROM WITHIN

I've never met a person, says Dr. Preston Bradley, "I don't care what his condition, in whom I could not see possibilities. I don't care how much a man may consider himself a failure, I believe in him, for he can change the thing that is wrong in his life anytime he is prepared and ready to do it. Whenever he develops the desire, he can take away from his life the thing that is defeating it. The capacity for reformation and change lies within."

Triumphant, victorious living depends on our own inner attitude. One cannot climb up, while thinking down. One cannot develop power while thinking weakness.

At the end of his life, Charles Darwin made the wise observation that men differed less in capacity than in zeal and determination to use the powers they have. And it was William James, the psychologist, who taught that the average man uses only ten per cent of his potential ability. Few men energize up to their maximum.

The real person to blame for our failures is usually one's own self. We may rave against fate, conditions—and bad luck—but it is just a waste of time. The secret of conquest is to turn on more power within. The scientists tell us we have it. It's up to us to put it to work.

What's New in Radio?
By J. R. Witkowski
Principal, School of Radio, International Correspondence Schools, Associate Member, Institute of Radio Engineers

Scientists of the Carnegie Institution are using radio to explore the stratosphere. Radio waves are sent out on various wave lengths to strike the different levels of the atmosphere and are reflected back to their source. It is believed that study of the characteristics of the reflected waves will aid in revealing much that remains unknown concerning the upper atmosphere.

The Bureau of Air Commerce is installing a series of radio-operated weather stations along the Washington, D. C. — Nashville route, to provide for the simultaneous radio transmission of weather reports to the different points along the route, while eliminating the possibility of error in the receipt of the reports. The installation follows experimental use of the machines between Washington and Baltimore, over a period of 18 months.

For use in emergencies such as forest fires and mine rescues, a knapsack radio receiver weighing only four pounds has been designed. In fighting forest fires, the hand ranger from his post of observation can direct by radio the work of fire fighters scattered over a wide area. The radio receiver is about the size of a cereal box, and is equipped with a single ear phone which can be attached to one car, leaving the hands free.

A ship-to-shore radio phone system is being employed to direct the operations of tugs within the area of the Port of Philadelphia. Established by The Atlantic Communications Corporation, a subsidiary of The Atlantic Refining Company, the radio phone enables the refining company and other subscribers to keep in touch with their tugs at all times, in all kinds of weather. The system is operated in conjunction with the Bell Telephone Company of Pennsylvania.

and romantic team, ably surrounded by such masters of mirth and melody as Alice Faye, The Ritz Brothers and George Barbier.

"On the Avenue" gets off to a hilarious start when Madeleine Carroll, as a wealthy debutante, George Mowbray, as an explorer, enter a theatre just as Dick Powell, Alice Faye and The Ritz Brothers are going into a farcical burlesque of the home life of "the richest girl in the world."

As the infuriated family stalks from the theatre, voicing threats of damage suits to the manager, Madeleine heads for the stage entrance, and brushing past the door-bearer, snatches Dick's dressing room before she is ejected. In a cooler moment, Madeleine regrets her ill-tempered rampage, and apologizing, invites Dick to dinner. Falling in love with her, Dick promises to revive the skit for their next visit. However, partly from jealousy but mostly as a lark Dick's partner, Alice, ruins his plan by adding even more caustic lines to the burlesque.

"To revenge herself on Dick for the humiliation, Madeleine not only agrees to marry the explorer, but takes over the show and fills the audience with people who walk out on him when he starts his song, "You're Laughing at Me." Columnists, tipped off in advance, report gleefully that "now they're howling at him."

An exciting conclusion, in which one of Irving Berlin's melodies plays a novel and important part, brings the pair to a thrilling, romantic and unfeigned solution of their difficulties, winding up one of the gayest and most melodious musicals that the screen has presented.

Patterns of Wolfpen

For the third time in the year, Reuben came to Wolfpen. He rode over with Jesse from Pikeville near the end of April in the evening before the wedding. Cynthia was finishing the dishes and gazing out of the window when he came into view. She was enraptured to see him, watching him as he came through the yard, observed the neat black suit, the Gladstone collar. The wide black silk cravat with small white dots that covered the bosom of his shirt. He's a handsome man, and as fine a figure as Sparrel Pattern off a horse and Jesse begins to look professional, but he's still a little self-conscious about it.

"People came and the house was full. Lucy and her family from Pattern Lancing, Jenny and Jack from Horseshoe Branch, all came bearing baskets of food for the wedding. Cynthia gave them welcome, trying as usual to convince herself that these were her guests. Sparrel and Jesse were in this house, and married here as she herself was about to be. But with their silent men remained straggler. He even thought they took possession of the house and acted as if it were their own wedding. The children were irrepressible, climbing about the barn-and sheds, watching the sheep and the newborn lambs, feed were her horses and mules; they were her nephews and nieces more than her sisters were sisters. She liked them around her. They will grow up in their turn, I reckon, to carry in the place. Unless they're too afraid and Jesse. What, I wonder, will my children grow up to be like, not born on Wolfpen, but down at the mouth of Sandty." They were impressed as always, by the ingenuity of the Pattern men in inventing improvements around the house. They commented Jasper on the place he had to start out with, they asked Jesse about the business in history was sweeping to the west now. He might consider least, and buying up Gannon Creek land in reach of the creek for lumbering.

People came from Gannon Creek all morning to be at the wedding of Cynthia Pattern. It was also their third journey within a year. I'm sure glad to go there to a wedding after all the trouble they've had in that house. The womenfolk took over the big kitchen, the men the barn, the yard and the barn-lot. Sheriff Hatler and his deputies came, pleased with the law. They thought they had captured the man who murdered Sparrel. They had him in jail over at Williamson. The Sheriff was going over there in person after this wedding of Cynthia Pattern, the daughter of Sparrel. He talked a great deal. "A good match this is, That young Warren Sellar has a head on him. A fine surveyor too, they say. Doing big things down the river. Getting the

finest girl in this valley, if you ask my opinion. A fine couple they make. Yes, she give up Doug Mason long before he got smashed. Sparrel told me. Yes, Doug's a good boy all right, but not the one for that girl. Much less now. But I tell you, boys. I'd rather put a rope around the neck of the dirty devil that way. I'd laid Sparrel Pattern than put an arm around the purest girl in these hills, pon my honor I would. I've a drink to you."

Amos Barnes came over with the Fergusons, having stopped with them the night before. He had set aside this day ever since he had married Jasper and Jane Burden at Pikeville.

Cynthia almost grew to love Jane for they way she came into the house after her marriage to Jasper. Jane was radiant in her own happiness. It overflowed her heart and expanded to include the Pattern household. She maintained the most admirable pose between the new mistress of the house as Jasper's wife and a guest of honor at Cynthia's wedding. There were no bristling or stuck-up city ways about her. She was helpful, unobtrusively managing the details of the kitchen and assigning guests to the bedrooms. The womenfolk spoke of it as their wedding. Julia always said right well—Jasper's wife is a mighty fine girl—Yes, she takes right- about things—She'll be a good manager—Jasper might have gone further and fared worse—Julia always said she was a fine girl—She comes from mighty good people, Jane Burden does—Wolfpen's a good place and I don't reckon it'll suffer any with her in the house.

Jasper moved around as the head of the house. It amused Cynthia when she had time to give it a thought, to see Jasper consciously trying to act the role of Sparrel, imitating his stride across the yard, his phases of welcome to men and women, his inflection, his courtesy and manner in the house. There is nobody else in the world he could better pattern after, though, and I don't reckon anybody else besides me notices it. Maybe it'll come natural to him after a while.

Cynthia wanted to be married in her mother's wedding dress. It will be like having her here herself, she thought. Maybe she is. The way I used to talk about Grandfather Sull's talking around over the place, in her dress, enveloping me in her, that would be a good omen of happiness like hers. The dress had been long in the cedar-lined closet. It smelled of the trees and was scar-

cely faded. The shoulders and the waist were exact in their fit, but the skirt was an inch and a half too long. Jane and Lucy bent on their knees and pinned it up; then they ran a neat hem around its wide fullness. If I had been only two inches taller, or an inch, say, Lucy and Jenny and I would have better shoulders and a waist like Mother and it's no real trouble to stitch in a hem.

She was beautiful in this gown, so dainty quaint; the heavy coil of black hair above the smooth soft skin of her forehead, her cheeks pink-flushed, and the look in her eyes as they turned up to Reuben's people spoke of it. She stood with him on the porch by the door to the parlor so the people could see the ceremony. All Wolfpen was a glow with the day, the sense of the wedding throbbing through the hollow. There were sprays of wild honeysuckle in the stone piers in the doorway and on each side. The clove bush by the steps gave off its first smell of spice.

While they were standing there, Cynthia happened to look across the yard to the pear tree by the well. The buds had burst suddenly under the sun and it was a pear tree by the well with pink-edged blossoms in your hand, with a sprig of blossoms in your hand. And I was a sight and covered with cornmeal.

Oh, Reuben, she whispered, the pear tree. Look!

College Theatre Stars Robinson

Friday, April 30, the feature is "Thunder In The City," starring Edward G. Robinson. This is a film in which Robinson takes the part of a forceful young American salesman who is first in New York because he hires "blimps" to sail over the city dropping leaflets advertising his products. He goes to England, where he tries out his novel ideas on the English, and meets some very "country" English relatives. He finds that these relatives own mines full of a new ore Magnolia, which he proceeds to exploit with his American ideas. He also falls in love with a Duke's pretty daughter, Patricia Glenavon and in the confusion of Dukes, pretty girls and mines full of Magnolia ore finally works out of his difficulties and into the arms of Patricia.

The film is much more comedy than drama and is splashed with broad satire aimed impartially at English and American idiosyncrasies. With Nigel Bruce as the Duke of Glenavon and Lull Deste as Patricia, and a good supporting cast, the film is rated as excellent entertainment.

Curt Caudill who is in the C. C. C. Camp at London spent the weekend with his family.

LOSS TO BERA COMES AS SURPRISE

Morehead Mermen Lead Throughout Meet

Wednesday evening in the Scuff Natatorium, Morehead's Mermen dropped a close 34-32 decision to the Mountaineers of Berea College in the first dual swimming meet between the pair.

Morehead led from the opening event when Morris, swimming anchor, in the 240 yd. relay, breezed in yards ahead of his opponent, until Finn touched the line ahead of Jackson in the 180 yd. medley relay to snatch victory from the jaws of defeat.

Morris Stars Again

Charles Morris, Blue and Gold sprint phenom, carried away individual scoring honors with his usual ease. Morris loafed in on the 60 yd. breaststroke with feet separating him from his nearest competitor, Akana. He came back in the 60 yd. dash, event later, spurred away to an early lead, and then edged in an effortless victory.

Takes Diving

Not content with having triumphed in two events, the Frankfort fish proceeded to walk away with diving laurels giving a splendid exhibition of what grace and control can mean from the board. With the exception of the state meet last year, when he was forced into the role of runner-up by one-third of a point, has Morris been defeated in his speciality. This last victory concluded his efforts for the evening giving him a total of seventeen of the thirty two digits scored.

First Are Even

The Eagles and Mountaineers divided the wins with four each; but, as has been the case on a previous occasion when the U. of C. tanksters roped them in the initial match of the year, the Mermen gave wins in the place position. Berea copped 4 firsts, a like number of seconds, and two thirds, against 4 firsts, two seconds, and four thirds for the Blue and Gold. Kessler and Jackson turned in excellent performances for the Eagles

W. C. T. U. Organized In City Last Week

Officers In Unit Of Temperance Union Are Elected At Meeting Held Here

A local unit of the Womens Christian Temperance Union was organized last Tuesday with Mrs. B. Frances Omer, National Evangelist for the organization in charge. Mrs. Omer is from Perryville, Ky., and is the wife of L. M. Omer, a Christian minister. She was sent by the National and state organizations to do work in this section. Mrs. Omer was a guest of Dr. and Mrs. Fern while here in the city.

The officers of the new organization are Mrs. Zola Patrick, president, Mrs. G. H. Fern, vice president, Mrs. H. L. Moore, secretary, Mrs. T. F. Lyons, assistant secretary, Mrs. Mary Carey, treasurer, Miss Inez Faith Humphrey, scientific instructor, Mrs. B. H. Kasee, loyal temperance legionary director, other departments will be added later.

The new organization starts with a nice membership and all the members are enthusiastic about the work. It is expected that Mrs. Omer will return to the city some time later and deliver an address in behalf of the work the interests of the new local organization.

As did Bell, Begley was the star of the Berea water-dogs scoring two wins and establishing a new record of fifty-seven seconds for the ninety yd. freestyle.

Event	Winner	Time
240 yd. relay	M'head	2:56 3/10
60 yd. breaststroke	Morris	1:40
60 yd. backstroke	Morris	1:50
60 yd. dash	Morris	56
90 yd. freestyle	Begley	57
Diving	Morris	—
180 yd. freestyle	Begley	2:42
180 yd. medley	Berea	2:36

"Pool record."
The Morehead mermen slipped into a tie contest against Eastern swimmers at Richmond Saturday night of last week. The final score in the meet were 33-33. Morehead swimmers had previously defeated the Eastern team at Morehead.

ATTENDS BANQUET

Mr. E. P. Hall local agent for the American Life Insurance Company of Louisville and his assistant Mr. Leo B. Ball attended a banquet at the New Central Hotel in Maysville Friday evening, April 28. Held in honor of Mr. H. D. Wallingford, Supt., of the Maysville part, to celebrate the 18 anniversary district of which Morehead is a part of Mr. Wallingford's service with the company.

Oil Painting Bought

A second oil painting by Stanislas Warma, painter of Brussels, Belgium, has been purchased by the student council of Fields Hall and a group of Morehead graduates. This will hang in this dormitory. Mr. Ralph M. Hudson, former member of the art department here, and now at the U. of Arkansas, knew Warma during his boyhood and visited in his home. Appreciating his work, Mr. Hudson bought the first picture which now hangs in Fields Hall.

Social Security Briefs

The security of the people is the sum of the arrangements set up by business, by the government, and by society through which the things we cherish are safeguarded against the hazards we, as individuals, cannot control.

Title VIII of the Social Security Act imposes two taxes—an income tax on workers and an excise tax on employers. Both of these taxes become effective January 1, 1937. The initial rate of each of these taxes is one per cent of the wages of the employee. The law makes provision for the employer to collect the income tax on employees by deducting the amount therefrom from the wages of each worker when he or she is paid.

"Security begins with bread and butter." But it is no more substance no blessing to be had for the asking, no gift of the government. The American system does not offer the individual a lack of security. It grants him an opportunity and imposes upon him the obligation to find security for himself. (Social Security Board report).

Art To Be Displayed
Original paintings and photographs of famous Kentucky artists will be on display in the showcases of the library today and all of next week. It was announced by Naomi Claypool, head of the Art department.

strength of the 20 per cent phosphate which is the usual type sold. The use of phosphate fertilizer on soil conserving practices is one of the soil building practices that is being paid for by the Conservation Program. The fertilizer will be paid for out of the farmers soil building allowance and will be deducted from his check when payment is made in the latter part of the year. The offer was made to acquaint the farmer with the use of higher analysis fertilizer and to induce the use of fertilizer on grass, clover and legumes. It also makes it possible for a farmer to earn a considerable amount of his soil building allowance by putting up very little cash.

WEST MOREHEAD
Mr. Paul Conley of the CCC camp Corbin, Ky., spent the week end with relatives here.

Mr. Andy Nickells has purchased a lot in the Swift addition and is erecting a new dwelling house.

Frances Maxine McGuire is nursing a very bad case of chicken pox the past few days.

Hubert Conley son of Mr. and Mrs. Rube Conley is very sick with measles.

McKinley Lewis who is working at Ashland spent the week-end at home.

Miss Cora Johnson of Bangor was the guest of her sister Mrs. Ora Foster last week.

Miss Maridith Brown of Clearfield was a Saturday night guest of her cousin Mrs. Fae Dillon.

Mr. Herbert Moxey who holds a government position and is stationed at Bowin, Ky., spent the week-end with home folks.

Miss Hazel Jent of Wagnor Fork and Miss Georgia Hall of east-end of town were afternoon guests of the former uncle Troy Jent and family.

Mr. Leslie Brown and Mrs. Brown of Peirrey were Sunday guests of his aunt, Mrs. J. N. Dillon and family.

Heacy Practices Are Finished

Team Is Issued Track Suits As Light Work Outs Become Order Of Day

Football uniforms have been laid in moth balls or sent to the cleaners, for the balance of this year, said Coach Ellis Johnson, and while practice in light form will continue until the close of the school year, the boys will disport themselves in track suits.

The heavy part of the spring training is over and the boys will keep fit by running signals and by taking part in the preparation for the track meets at Berea and Danville.

According to the members of the squad themselves, the first day they appear in their track suits, then hardly knew how to conduct themselves, they felt so light and airy.

CLAYTON NEWS

Escal Fannin of New Castle Ind who has employment with the Chrysler Corp., was visiting his father, B. F. Fannin of this place during the city down strike of the Chrysler Co. His brother Virgil Fannin has a pet crow, while here Escal and Virgil put in a lot of time with Pat (the crow) out in the field turning over rocks, chunks, and catching crickets, bugs for Pat. While thus engaged Escal ran into some spiders, which from what he had read about, he thought they were black widows. He took three species back home with him and had them examined. They turned out to be genuine black widows, he had one male and two females. The male has a red spot on his back, the females has a perfect picture of an hour glass on their abdomen, which is of a red color.

It will be well enough for the people in this section to look out for the black widow spider. As their bite is said to be very poisonous. Escal wrote that the doctor said their bite caused a bad sore, and a lot of swelling, but seldom proved fatal.

Morehead College To Enter State Track Meet

Planning Entries In Major Running Events, Weights And Jumping Events

For the first time, if the present plans of Coaches Ellis Johnson and Len Miller are carried out, Morehead State Teachers College will be represented in the state track meet to be held at Centre College in Danville on May 22. While it is not planned to enter contestants in every department, the college expects to have entries in all of the main running events and in a number of the field events, according to Coach Johnson.

With the heavy drill of spring football practice out of the way, the coaches are devoting their attention to the development of track and field contestants. No selections have yet been made, but the coaches expect to have entries in the 100 yard dash, the 220 yard dash, the 440 yard, the 880 yard, the mile run and the mile relay, which is more or less of an ambitious program for a start. They also plan an entry in the broad jump, the high jump, the discus throw and the javelin throw.

Preliminary to the state meet on May 22, Morehead will have entries in the meet to be held at Berea on May 10 and the coaches are pointing to that event first.

No special entries have yet been selected, but they plan to select contestants through an elimination meet locally.

Clean-Up

keeping the city that way. Remember the week, beginning Monday of next week. The hope of the sponsors as well as the citizens is that the following Monday there will be no dirt and filth left in Morehead, and that their efforts together with those of the citizens will result in the most thorough clean-up this city has ever enjoyed.

Farm News

Three thousand cows, tested in seven dairy herd improvement associations in Kentucky last year, averaged 305 pounds of butterfat, according to a statement from the University of Kentucky College of the Dairy. The average for the Kentucky farm cow is said to produce about 138 pounds of butterfat in a year.

Eight of the 141 herds on test last year produced more than 400 pounds per cow. For the second consecutive year, Hugh Gingles of Calloway county was top, with a record of 468 pounds of butterfat per cow. The Berea College herd of 69 cows averaged 459 pounds, as did the 55 cows in the herd of P. B. Gaines in Carroll county.

Other herds producing 400 pounds or more per cow were Walnut Hill Farm, Fayette county; Ewing Von Allmen, Oldham county; M. D. Harrison, Graves county; the Agricultural Experiment Station at Lexington, and A. Moser & Son, Jefferson county.

The 1935 census reported 584,754

cows on Kentucky farms, an increase of 96,000 head over 1930. The Kentucky Poultry Improvement Association announces that chicken stealing has almost ceased in regions where the tattooing system is being used. Twenty-two hundred farmers now are using a tattoo brand on the webs of the wings of their chickens. This brand cannot be removed, and makes the identification of ownership easy for buyers and law enforcement officers. Chicken stealing had become prevalent, especially in the vicinity of cities.

RECONDITION HOME AT SMALL EXPENSE

Inspired by project lessons in a homemakers' club, Mr. and Mrs. C. E. Thessen in Mt. Victor community in Warren county reconditioned their home at small cost, spending money only for paint, paper and curtain material.

Refinishing furniture, they discovered that they owned several valuable antiques, made of rare walnut. Beds and other furniture were taken apart, refitted, paint removed and then left in natural finishes.

Miriam J. Kelley, the home agent, considers their work a demonstration of what might be done in many farm homes.

FARM PROGRAM TO HELP ORCHARD MEN

Soil-building practices which may be carried out by orchard owners, in earning payments in this year's farm program, include seeding legumes and grasses and clipping or disking certain crops and leaving them on the land, it is pointed out from the College of Agriculture, University of Kentucky.

Orchard owners also may include such practices as applying limestone, superphosphate and other fertilizer materials, or air-dry mulching matter.

Payments for diversion or acreage from soil-depleting to soil-conserving crops also may be earned by orchard operators. The rates of payment for diverting from general soil-depleting crops to soil-conserving crops will average \$9 for the county as a whole, varied among farms in accordance with the productivity of the land.

The soil-building allowance for a farm includes \$1 for each acre of commercial orchard.

Watch Your Kidneys!
Be Sure They Properly Cleanse the Blood
YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained. Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all avoidable.
Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

ROWAN CLUB ENTERTAINS

The tea given by the members of the Rowan County Womens Club in the Christian Church on Tuesday afternoon was attended by more than sixty guests. The guest list included members of the Morehead Womens Club, the eighth district governor, Mrs. Leslie Shroat of Owensville and members from the clubs of Grayson, Olive Hill and Owensville.

A group of selections by the Fuster Choral Club under the direction of L. H. Horton, violin solos by Keith Davis and a talk by Prof. John L. Sullivan made up the program.

Mrs. Shroat greeted the guests urging as many as possible to attend the State meeting of federated Clubs to be held in Pikeville, May 11, 12 and 13. The program was held in the auditorium of the church, after which all adjourned to the basement for refreshments.

The club colors, pink and white, were carried out in the decorations as well as the lunch, that consisted of ice-cream, cake, tea, coffee and minis.

Hostesses were Mesdames Matt Casidy, B. H. Kazee, H. L. Moore, Drew Evans, Sr., Guy Snyder.

The guests were met by the president, Mrs. A. F. Ellington, the past presidents, Mrs. H. C. Hagan, Miss Katherine Braun, Mrs. E. Hogge, Mrs. R. L. Hoke, and Mrs. H. L. Lewis, Mrs. Shroat and Mrs. W. Fred Waltz, president of the Morehead club were also in the receiving line.

Mrs. W. C. Lappin and Mrs. D. E. Caudill poured.

ROWAN ELECTION, TUES.

The Rowan County Womens club will meet Tuesday for their regular business meeting at the home of Mrs. W. C. Lappin. Election of officers will take place. The last meeting of the year will be May 13 at the home of Mrs. P. Caudill. This will be the "Sunshine Sister" party.

FORMER CITIZEN VISITS

Mr. and Mrs. Charles Wright of Davenport Iowa were the overnight guests of Mr. and Mrs. Noah Hall on Monday. Mr. Wright is a native of Rowan County, having lived in the Brushy community next door to the Hall's when he was a boy. He left Morehead twenty five years ago to the funeral of his father, Marshall Wright. Mr. Wright is a horse trainer and riding master at the country club in Davenport. He and Mrs. Wright plan on going to the Lexington races and later on meeting some friends and attending the Derby.

BIRCHFIELD - MILLER

Announcement is made of the marriage of Miss Hazel Birchfield, of Morehead, to Mr. Alton Miller, of Louisville.

The couple were quietly married Saturday morning, April 24, by the Rev. T. F. Lyons. The couple were accompanied by the bridesmaids, Miss Bessie Mae Birchfield and friend Mrs. Arnold Moller of Fields Hill.

The bride is the daughter of Mrs. John Birchfield of Morehead, while the groom is the son of Mr. and Mrs. John Miller of Wanesterg, Ky.

The wedding came as a complete surprise to their many friends and relatives of this and adjoining counties. The couple left Saturday evening for Louisville where Mr. Miller is employed with the Charles E. Connel Construction Company. They will make their home at 513 Shelby Street, Louisville, Ky. Their many friends wish them "a long voyage of smooth sailing" and much happiness.

HAS LOOKING SCHOOL DINNER

Mrs. Caudill, hostess to the "Cooking School" dinner Monday evening, The Ladies were Mrs. and Mrs. Roy Corn, Ne. Ernest Payne, Mrs. and Mrs. Alvin Keen, of Red Mike Flood. After dinner the party enjoyed several rubbers of bridge.

than three thousand miles of grade and drain, two thousand miles of surfacing along with the erection and repair of a large number of bridges.

Nearly \$800,000.00 allotted and obligated to the county but unexpended due to the fact that the 1936-1937 program was late starting will be available for road construction this year. Of this \$,800,000.00 set aside for actual road work, \$982,445.29 was not used. This with the \$113,164.50 unexpended funds in the administration budget gave an actual refund of \$765,994.85.

Mr. Williams said that the policy of the Department would be to surface the three thousand miles of grade and drain roads before additional grade and drain work would be undertaken.

Engineers of the Rural Highway Department are now busy contacting county officials and laying plans for the 1937-1938 program. Contracts for these programs which include new work along with the completion of projects started last year have been entered into with the following counties: Fourth District—Breckinridge, Hancock; Fifth District—Boone, Campbell, Gallatin, Oldham, Pendleton, Trimble; Sixth District—Bourbon, Boyle, Clark, Fayette, Jessamine, Madison, Scott, Woodford, Ninth District—Clinton, Rockcastle.

The program arranged in these counties has been approved and work will start immediately. Work been arranged, contracts made and approved in all counties in the State will be approved by the Commissioner of Highways.

ELECTROLUX GIVES US PERFECT REFRIGERATION ... SAVES ENOUGH TO PAY FOR ITSELF

REPORT FARM OWNERS

KEROSENE-OPERATED ELECTROLUX

READ WHAT MRS. E. C. CUMMAGE, EUFAULA, ALA., WRITES: "Living nine miles from the ice plant was a great inconvenience to go for ice every two days—then refrigeration was not uniform, causing food spoilage when we could not get ice. Now with our Kerosene Electrolux we have all the ice we need. The ample food storage capacity enables me to save lots of leftovers. We figure our Electrolux will save us its price every year."

Kerosene Operated Electrolux keeps food fresh every minute of every day—brings you all the comforts and conveniences that have made the famous gas operated Electrolux the choice for finest city homes and apartments from coast to coast. It gives you such things as plenty of ice cubes at all times—new delicious frozen desserts—more freedom from kitchen work.

And consider this: Electrolux operates on ordinary kerosene for only a few pennies a day. One filling of the tank lasts a week or more. Owners find that Electrolux actually saves enough on food bills and refrigerating cost to pay for itself.

This outstanding efficiency is the result of Electrolux's simple refrigerating principle. A wicked glow-type kerosene burner does all the work—takes the place of moving, wearing parts. Today, write for free literature about this beautiful, labor-saving refrigerator. Use the coupon below.
