Heman McGuire Trial Continued To May Term

Prosecution Given Time To Prepare Embezzlement Case

The embezziement trial of former Carter County School Supt. Heman H. McGarre has been continued to the May term of Rowan Circuit Court.

our to give the prosecution more time to prepare its case.

McGuire is under indictment on eight

superintendent,

The case was transferred to Rowan
County Aug. 3 by Carter Circuit Judge

At a hearing held at that time Judge Gardner sustained a motion, made by Commonwealth Atry, Ralph Walters for a change of venue on ground that Mc-Guire, would not receive a fair trial in Carter County.

Walters at that time said feeling for and against McGuire is still so second here that "we feel it would be useless to attempt to get a jury of 12 citizens in Carter County which would be completely unbased."

A school controversy in Carter County led to McGuire's ouster as superintendem in June 1992 and to the filing of both criminal and civil charges against him. He was convicted of income-rax evasion in U.S. District Court at Lexington in March 1995. He was fined \$5.000 and

sentenced to a year and a day in prison, from which he was, released last year. The civil case was concluded last year when the Court of Appeals ruled that McGuire must return \$6,516 of a total of \$24,000 which attaypaer's suit contended was spent filegally. The case was tried in Carter Circuit Court by a special

The criminal charge pending in Rowan Circuit Court is based on an eight-court indictment returned against McGuire March 23, 1965. It accuses him of emberging or converting to his own or another's use.

In three counts, a local of \$8,051,05.

indictment said, were never delivered to the school board.

In two counts, a total of \$8,747.03 for payments made to a plumbing and hearing firm. The indictment contends

First State Car Inspections Will Be Voluntary

The first two months of motor vehicle inspection in Kentacky, which will begin Jan, I, will be entirely voluntary.

Dunlap Elliott, director of motor vehicle inspection, disclosed the change in plans yesterday, saying they result from

the basic system chosen for this state. Kentucky's operation will be keyed to a numbering system in which the last numeral of the 1968 beense plate will indicate the month required for inspection.

until March I, Ilyos," Eliot said, "I, would be impossible to begin a compulsory program on that basts,"
The plan will work this way:

If the last numeral of your license is 3, your vehicle must be inspected in March; if it's 4, in April.

That holds through zero, which applies to October. Then, No. I means the vehicle must be checked in November

Afterward the same month is applicable for each succeeding year. Thus it your license plate's last number is 54n 1968, your car must be inspected in May 1968 and in every subsequent May.

There will be an exception. If, for example, a motorist's inspection date according to the license tag 48 June, and he wants the car checked earlier, say in April, he may get it done.

is April of each year.
"We have no objection to motorists getting inspected three times a year is they feel more secure." I live and

they feel more secure, Fliort said
"But once a year is mandatory."
The 1966 legislature which approve

compulsory inspection specified a fee of up to \$2.50.

"We feel \$2.50 will be the come rate."

Of that amount, 25 cents would be remitted to the state to supervise the program. The licensed dealer, independent garage or service station will

Elliott estimated 2,000 to 2,500 inspection stations would be approved for vehicle inspection

His aganey, consisting of about 40 employees in the Public Safety Department, would oversee everything and bandle consisting of the control o

Elliott, a former Lancaster gude dealer has visited Georgia, North Carolina-ane Pennsylvania to pick up inspection pointers, fie will go to Virginia soon. We're trying to take the good and and from other states and come up with a contractive, impartial program that we hope will meet with public approval; be said.

filliott said that after analyzing other states' operations, he believes standard zation is the key to success.

The vehicle inspection setup should be simple yet complete, he said, with a motorist knowing he will get exactly the same service and treatment at Faintsville as at Paducah.

Rowan Growers Favor Plan Ten To One

urley tobacco farmers have rejected he acreage-poundage plan.

with a total of 1,305 votes cast in towar County this year 1,198 favored he poundage plan, while 107 did not. Rowan growers cast a total of 739 otes last year with 634 for and 105 gainst.

Rowan County can cast about 2,200 hallots in a referendum of this kind. Kentucky, as expected gave the prosoloul overwhelming support-one of
only two states to do so. The undthe understanding the support of
paperoved the provided provided farmers
paperoved the provided provided to
r 74.6 per cent. That topped the
precrentage approval a year ago. The
number of votes cast also was higher.
all year 73.3 per cent of 16,684

As was the case last year, Tennessee voters sent the issue to defeat. Of the total vote 16.3 per cent flavored the plan; 13.5 percent approved it there a year ago.

Chio was the only state other than Kentucky to give the issue the required two-thirds approval. It carried there by 70.4 per cent out of 11,552 votes cast. The vote in Indiana was 55.3 per cent

The vote in Indiana was 55.3 per cent in favor, with, nearly 8,000 votes being cast. In North Carolina 15,259 voted "yes" and 8,591 "no" for a 63.9 per cent favorable vote. The tally in Virginia was 5,006 for and 6,167 against 44.8 percent; in West Virginia, 2,087 of and 1,441 against, 59.2 per cent.

for and 1,441 against, 59.2 per cent.
The vote count means farmers will
be allowed to raise the same number
of acres this year as they raised last
year. Had they voted in the plan,
they would have received a 10.8 per
cent increase in allotments.

The acreage-poundage porposal would have limited the number of pounds of tobacco each grower could sell from his alloced acress instead of the present plan in effect since 1940, which limits only the number of acress they can cultivate number of acress they can cultivate the price-support, acreage-countrelprograms, but in danger. Farmers must vote many the price-support, acreage-country programs, and the price-support, acreage-country programs, and the price-support, acreage-country programs of the prices of the price years on shelther to continue to the price years on shelther to continue the prices of the pri

That vote will be held early next year. A University of Kentucky tobacco specialist said last week that many of the larger acreage alloment owners of Central Kentucky, have indicated if the acreage-poundage proposal failed this year, they would try to throw out the whole program next year. Under the law, the acreage-poundage plan cannot be offere, and the acreage-poundage plan cannot be offere, as the acreage-poundage plan cannot be offere, as the acreage-poundage plan cannot be offered to the control of the co

he figative vote also could mear the first property of the first property of the first property of the first production. It is not production, because of record yields per acre, but-production, because of record yields per acre, because of the first production with the first production of the

The acreage-poundage issue basically was one between Lennessee growers, many of whom have small allotments, and Kentucky, where allotments are larger. The Tennessee Farm Bureau Federation, through its county farm bureaus, openly opposed the acreage-poundage plan. The Kentucky Farm Bureau this year worked for a favorable vower.

TATTERSALL'S

To Meet in Big Effort for Peace

By CHARLOTTE G. MOULTON

WASHINGTON (UPI) — The most effective anti-missile missile may be a law book.

world conference in Geneva. Switzerland, this Summer.

Lawyers of every nation have been invited to the Geneva seasons. Those of the Soviet Union and other Eastern European communist countries don't wax enthusiastic over the programs but they have participated.

but they have participated to some extent.

Red China has responded intrough items in its newspapers denouncing Washington attorney Charles S. Rhyne, president of the Center, for inviting Chinese lawyers.

Outer Mongolia and Albania are the only two nations from which to reserve the control of the control

which no response whatever has come.

While the conference is in session July 9-14, a related group the World Association of Judges, will also be meeting. Chief Justice Earl Warren is its challenges.

Another goal is establishment of a world court system beginning with regional courts. Details are being worked out for a special court devoted exclusively to problems arising between the United States and Mexico; and for another having U.S.-Canadian jurisdiction.

foreigners or foreign governments as well as to the governments
themselves.

Appeals from regional courts might so all the

Hardest Task

After the lawyers have completed these blueprints, their board.

at task will still lie ahead of them: selling the idea to their home overnments.

Many activities of the Center, a wholly private organization,

do not require government approval.

Plans are under way to provide a unique service to attorney around the world who need to know the law of one or more countries on a specific subject.

fter the formal establishment in 1963: a major bar to use of law its unavailability.

Rhyne said in a recent statement that less than 20 of the 55 or so nations on earth have "a fairly up to data 20 of the

"Less than 20 nations have up-to-date printed volumes of their high court decisions," he said. "... Lawyers constantly report from Africa, Asia and Latin America that they misst rely on printed or mimeographed collections of individual statutes and newspaper reports of courts.

ns of law books from England. A barrister in Dakar, Senga

has about a dozen old books from France, three texts in English which he can barely read contributed by an American and "n code or constitution of Senegal."

code or constitution of Seriegal

Even in the United States it has not been easy for a busy
lawyer to take advantage of large collections, say at the Library
of Congressy in Washinston 1.1 million volumes) or Harvard University in Cambridge 1 million volumes or Columbia University
in New York 486,000 volumes > Some hawyers practicing in 12

country seaf do not have access to any law morary.

The great lawbook collections around the world-include the neat Parls University 390,000; Japanese Law Ministry (270, 00); Russian Academy of Science (280,000); Italian Ministry of usidec (150,000); China's Soochow Eniversity (50,000), and Tur-tey's Islanbul University (20,000).

in Latin America countries the average large law library runs bout 10,000 volumes.

bound to the companies of the "law of the world" into a computer in General and make it available to lawyers anywhere a stantly. Rhyne says the technical feasibility of this goal has been stabilished. Existence of some

requesting it.

The language would be English, with translations extra if necessary (not by computer). Laws could be put into the computer in a country's own language but would of course come out the

....

Another Center committee is studying model laws for nations, assed on experience in the United States with model state stautes and model city ordinance.

Ochier committees are also keeping tabs on International organizations like the European Common Market and U. N. agencies, which generate law that crosses national boundaries. The aim is to urge changes or spur the agency to greater effort. The 1900 high court times expected at the World as

sections will be acting wholly in a private capacity, not as representatives of their governments. "Judges speak many different languages, live under many different systems of government, and have many different custom traditions and educational backgrounds." Chief Justice Warresald recently, "but they possess a common meeting ground in th

traditions and educational backgrounds. Chief Justice Warren said recently, but they paces a common meeting ground in the principles of law which are common to markind. "We hope to have the high court judges of every nation participate in the drafting of a statement of the general grinciples all judges have in go of a statement of the general grinciples all tudges have in go of a statement of the general grinci-

we nope to have the high court judges of every nation participate in the drafting of a statement of the general principles all judges have in common Upon that foundation we hope to erect a structure that can in a distinctive way serve the cause of world peace.

"What new procedures, principles, means, method, law or

"What new procedures, principles, means, methods law o fegal institutions can we collectively propose?. It will be a thrill ling experience to disten to great judges from throughout the world express their idea."

Warrer will be assisted at the conference by Chief Justi Terje Wold of Norway, vice chairman for Rinope; Chief Justi Adetokunbo Ademola of Nigeria, vice chairman for Afria, said Adetokunbo Ademola of Nigeria, vice chairman for Afria, Justice Massisohi Yokota of Japan, vice chairman for Asia an Australasia; Chief Justice H. O. B. Wyodifie el Trinidad an Australasia; Chief Justice Pitti Habelingfor Switzerlam Obago, secretary, Chief Justice Pitti Habelingfor Switzerlam

St. Patrick's Greetings

KANSAS CITY, Mo. (UPI)—
It's a day for wishing friends
"the top o' the morning' with
a "wee bit o' blarney," according to one poet's definition of
St. Patrick's Day. And indeed
that's what the greetings for
March 17 convey, says an expert here on St. Patrick's Day

sert here on St. Fathers here are are a series a

bordering on the frug.
There are scads of greetings
bearing such classics as "May
the devil fly off with your
worries, and forever and ever
God bless you." That's as popular today as it was in 1737
when, says history, the Irish in
America first observed St.
Patrick's Day.
But there are a first.

Certificates Are Important To **Wheat Farmers**

Wheat farmers with small allotteries should check the benefits of the 1907 wheat program if they are growing wheat this year, Freeman M. Hockensmith, leading the said that a conservation Committee said today. He said the program supports the portion of each participant's wheat grown of each participant's wheat grown of each participant's wheat grown one support loss for all other participants and the program in the participant orderly merceting, becommitded and the participant of the part

The marketing certificates which are used to support domestic production at parity are important for wheat producters, the Chairman said. As an extangle, take a farm with a 10-acre alloment and a 30-bushels projected yield.

yield.

The farmer can earn certificates on 35 percent of his projected production, which means in this case certificates on 155.

They are valuedat the difference between the national average loan rate of \$1.25 per bashes and partitions. 105 bishels. They are valued at the difference between the national average loan rate of \$1.25 per bishe and party on July 1, 105 per bishe and party on July 1, 105 per bishe and party on July 1, 105 per bishe and party were worth \$1.25 can difference worth \$1.25 can difference with wear it means this farmer would earn \$1.85 of in certainty and the same of the sam

In addition, he earns what his wheat will sell for on the market -- or he can take out a price-support ioan and hold the wheat if the market is too low at harvestime, slockensmith said.

The Chairman explained that partici-pation in the 1967 wheat program is not automatic, and that farmers should stan up with the county. ASCs office it has want to participate. The signup period ends March 17, Hockensmith said.

Riley Stacy Claimed After Long Illness
