COME TO THE SHOW

A model agricultural fair, free from features that degrade many similar events, was the recent annual 4-H club district fair at Lexington.

A week from Saturday local residents may view a miniature Beef and Dairy Show in the vacant lot across from the Morehead Lumber Co.

This venture is, of course not expected to be a big and stunning affair. But it is a beginning.

If a Beef and Dairy Show can be held here annually, it will have a tremendous effect on the betterment of Rowan County livestock. It's been done in many other places, can it be done here?

If you have any good cattle at all, be sure and bring it. If you haven't come anyway, and see what your neighbor has.

Hold Conference At Christian Church

Ministers and lay-leaders of the Christian Churches in eastern Kentucky meet today at the Morehead Christian Church at 10:00 A. M. for a Planning Conference.

lor? If not, you are taking a chance of being hit by an automobile after dark. It may be the car driver's fault even if you don't have any, but that attitude doesn't help you any after you are in the hospital.

We saw two youngsters being patched up the other night. Someone else may be next unless all of you are careful.

Many automobiles do not have strong lights. And when the driver is partially blinded by another car's lights, or the city's lights, he has difficulty in avoiding bicyclists who are unlighted.

Give yourself a break.

ANOTHER WAR

To those of us who so vividly remember the early days of the horrible slaughter of human lives and the ruthless destruction of billions of dollars worth of property in the years 1914-1918, the happenings of Sunday, September 3, 1939, when Great Britain and France declared war on Germany, remind us in striking similarity of the beginning of that never-to-be-forgotten world war of 25 years ago.

If we are to avoid participation in the present great conflict, it behooves us to maintain our composure in so far as it is humanly possible; not to read too much, or listen too much over the radio, and try at all times to keep cool heads and control of our emotions. The frightful tragedies that are destined to happen in the next few weeks will doubtless stir all civilization as it has never been stirred before, but we of this country, especially those of us who recall the atrocities of the world war, are urging the youth of America to retain their composure; to use their thoughts, their talents and their energies along other lines, lines more uplifting, lines of thought destined to prove of greater worth in the years to come.

We MUST NOT get to worked up over another European war; rather we should look after and try and develop our own interests as best we can. In short, let's try to "look after our own nitting."

Mr. Farmer, YOU NEED SAFE DEPOSIT BOX PROTECTION... Fire and wind are the two big farm destroyers. Fire, so easily started in summer from dry grass and vegetation, and in winter from hot stoves, is hard to stop without city fire-fighting apparatus close at hand.
