

The Morehead Independent

OF KENTUCKY'S GREATER WEEKLIES

VOLUME VIII MOREHEAD, KENTUCKY, THURSDAY MORNING, MAY 8, 1941 NUMBER NINETEEN

It is indeed remarkable as to how news travels. I have been taken over the coals from all different angles since the severe criticism of the INDEPENDENT came off the press last week. That was a mistake about Wiggins and he says I don't correct it, he would like to have done with all the girls around school. Well, if I was as honest as that guy I would not be writing and I have never met any of the girls on the campus giving him any sort of a wash. They tell me he is as dumb as an egg yoke in his looks and has a mind like lead. The coach said the only reason they kept him on the team was that he had the biggest mouth and could jabber on and on about anyone. To all say that guy is poison and I don't think the little girl in question has any serious intentions. So Frances, you keep your overcoats on. SOCIAL NEWS: Mrs. William Jackson Sample entertained with a derby bridge last Saturday in her beautiful apartment on Sun Street. It was decorated with lilies of the valley and broom-sticks from Bill Carter's farm. Gum-drops and pepper-mint candy were served with water. Mrs. Sample was accompanied in a dress of navy blue with a tan-colored hat. She wore silk stockings and shoes. Mrs. Shuler, her father, bought his out-landish Vendemire Miller was attired in an ensemble of white and dark red tulle. (Had you seen the ensemble, you would have fainted too.) Mrs. Ellis Transerona Johnson wore a costume of navy blue and white. Mrs. Edward Vandemire Bishop wore a blue and white dress with white floral patterns and a white hat. Mrs. Murville Cristobal Crosley had on the same dress. Mrs. H. C. Haggan, Chairman, Row-head College President W. H. Vaughan said today.

AN EDITORIAL

The Morehead Merchants Association is attempting to institute a garbage disposal service for the householders and business concerns of the City of Morehead, and in order to do so it is necessary that certain facts be brought to the attention of the citizens.

We all agree that the accumulation of garbage breeds flies and mosquitoes, feeds rats, and produces a general unsanitary condition throughout the city. And it is unnecessary to remind you of the unsightly masses of rubbish heaps and garbage dumps. What have you gained from a community standpoint when you pay a boy a dime to haul away your garbage—and he takes it to the nearest vacant lot and dumps it? Perhaps you are fortunate and do not have a vacant lot next door, but what of your neighbor or friend who has the garbage dumped next to his premises? Is that a just act? Are you "doing unto him as you would have him do unto you?"

It strikes us as being odd that no one has thought of this simple and effective method of garbage collection and disposal sooner. For the small sum of one dollar—which nearly everyone spends needlessly in a month—we would have garbage disposal service twice weekly by truck, which would haul it to some point outside the city limits in some section to be designated as a City Dump.

In the interests of better health, sanitary conditions and a cleaner Morehead in the future, subscribe now to the garbage disposal plan!

McBrayer's Furniture Store To Give Homemakers Party

Miss June Matuck, Home Economics Expert To Give Demonstrations

Miss June Matuck comes to Morehead on Tuesday, May 13, to conduct The Homemakers' Party sponsored by McBrayer's Furniture Store. The party will be held at 7:30 p. m.

A prominent figure in the Home Economics field, Miss Matuck comes to us directly from the Westinghouse Home Economics Institute with which she has been associated for the past seven years. "It has been my pleasure," Miss Matuck states, "to have personally contacted and worked with homemakers throughout the country. This work has been most gratifying to note the enthusiasm with which modern housewives everywhere have accepted and comprehended the time, labor and money-saving advantages of Modern Electrical Homemaking."

Miss Matuck speaks with authority in relation to the part it plays in the home, as she has made a thorough and comprehensive study of the modern method of food preparation from a practical point of view. She has supervised testing of electric appliances and has written extensively on the subject.

In this present day it is unnecessary for women to spend years learning their own experiments in order to perfect their skill in the culinary art. The old theory "That good cooks are born" has been entirely abolished by present-day practice of Home Economics. Instead of depending on "luck" to insure her success in cookery, the modern woman now avails herself of the tried and home-proved advantages

"The Frog Prince" To Be Given By Grade Students

The grade children of Morehead Consolidated School will present an operetta: "The Frog Prince," by Evelyn Gares Parker and Glenda H. Gode. It will be given at 7:30 p. m.

Masons Will Meet Saturday Night, May 10

The Morehead Lodge No. 654, F. & A. M., will meet Saturday night, May 10, at the local lodge hall.

A number of candidates will be given their third degree work.

After the business meeting refreshments will be served to those present. All Master Masons are cordially invited to attend.

Haldeman Seniors

The Senior Class of Haldeman High School will present its annual Play Friday evening, May 15, in the Haldeman High Gymnasium.

MSTC Baccalaureate To Be Delivered By Dr. Fred Shannon

Dr. Fred Shannon, Chicago, brother of State Treasurer E. E. Shannon, will deliver the baccalaureate address to fifty graduates seniors of Morehead, College, June 1. Dr. Shannon has chosen as his subject: "The Highest Education." A native of Louisiana, Kentucky, Mr. Shannon is considered as one of the ten greatest living ministers in the world.

Commencement speaker for June 5 exercises will be Dr. Frank L. McVey, president-emeritus of the University of Kentucky. Dr. McVey served as president of the State University from 1917 until this past year coming to Kentucky from the presidency of the University of North Dakota where he served as its head from 1909 until 1917.

Morehead Seniors Present Play 'Love Troubles Tommy'

Under Direction Of Miss Nell T. Cassidy

The senior class of Morehead High School will present "Love Troubles Tommy" by Jean Proff on Tuesday evening, May 13th, at 7:30 in the high school gymnasium. The play is directed by Nell T. Cassidy.

When dad's old tuxedo can't be worn because it is moth-eaten, and dad and mom simply will not stand for the purchase of a new one, how is a fellow to lay his hands on the price of a tux in which to escort Doris Davis, the siren of Central High, to the junior-senior prom?

Vaughan Slated To Address Several Graduating Groups

Dr. W. H. Vaughan, president of MSTC, will be active this month making several commencement addresses to high school graduating classes.

Dr. Vaughan is scheduled to speak to the graduating class of Morehead, May 15; at Hazelgreen, May 19, at Vanceburg, May 23 and at Orangeburg, May 25.

Bowling League Events

On Saturday, May 3, a picked team of Morehead bowlers selected from the ranks of the Morehead Bowling League were host to a team from Maysville, Kentucky.

The Morehead bowlers won two games out of three, beating the Maysville boys by 2640 pins to 2486 or a margin of 154 pins.

Complete team standings as of Monday night, May 5, are as follows:

BISHOP'S DRUG STORE	Won	2	2	687
MIDLAND TRAIL GARAGE 12	3	3	3	684
MCBRAYER'S FURNITURE 10	5	5	5	680
BATTSON'S DRUG	6	6	6	667
G. G. COLA	9	9	9	667
COLLEGE PROFESSORS	7	7	7	667
BRUCE'S 5c & 10c STORE	6	6	6	667
COLLINS MOTOR	5	5	5	667
McKINNEY'S	4	4	4	667
CARE CAUDILL	2	2	2	133

Schedule for the week of May 12 is as follows:

Monday—Bruce's vs. Bishop's
Tuesday—Collins vs. College Professors
Wednesday—McBrayer's vs. Care Caudill
Thursday—Midland Trail Garage vs. McKinney's
Friday, Battson's vs. R. C. Cola.

Merchants Association Submits Plan To Household For Garbage Collection, Removal

Plan Would Remove Garbage Twice Weekly; Endorsed By Leaders

Conceded to be one of the most progressive steps taken by any civic organization in Morehead, the Morehead Merchants Association, at its regular May meeting Monday night, voted on a plan of garbage disposal that would cost the household of the City only twenty-five cents weekly; slightly higher for business concerns.

To obtain this service, which would include removal of garbage, ashes, trash and all kinds of debris, it will be necessary to have at least one hundred subscribers to the plan. Garbage would be removed twice weekly from every home and business house subscribing and would be hauled outside the city limits to a place which would be designated as a City Dump. It is obvious that this would require the full-time services of a man and one truck—an expense of approximately \$25.00 per week. The plan could go into effect immediately upon receipt of one hundred signatures to the plan.

Governor Johnson To Speak Here Next Thursday

The Merchants Association appointed a committee to work on the plan and to familiarize the citizens with its operation. The committee is composed of "Curt Hutchinson, Virgil H. Wolford, and Harry Goldberg."

An early survey of opinion made by a representative of the Independent, revealed that many other organizations and individuals heartily endorse the plan. A few of the statements follow:

Mrs. John Will Holbrook, President Rowan County Woman's Club—"I believe that the Rowan County Woman's Club will cooperate 100 percent with this plan, and we look for some time being interested in some means of garbage disposal for the entire city. We have always backed the idea of clean-up week every year and would like to see this campaign grow into a year-round habit."

H. C. Haggan, Chairman, Row-head College President W. H. Vaughan said today.

Ninth District Legionnaires Meet At Flemingsburg

Members of the American Legion, Ninth District, met at the Veterans' Camp, near Flemingsburg, on Sunday, May 4, for their District "round-up" prior to the final membership drive for the year under the direction of Commander W. H. Nickell, district commander.

The meeting was called to order by Commander Nickell, who gave a brief opening address. The colors were advanced by Frank Scott.

The following program, in which a number of Morehead Legionnaires were prominent, was presented:

Advance of Colors..... Frank Scott
Invocation..... Legi- Star Spangled Banner..... 23

Contract To Be Let For Construction Of Farmers Bridge

Bids Being Received At Highway Office Until May 23rd

Sealed bids will be received, according to the Department of Highways, at its office in Frankfort until 10:00 a. m., Friday, May 10, at which time the bids will be publicly opened and read for the improvement of U. S. Highway 60 at the Licking River bridge at Farmers, Kentucky.

Specifications call for a concrete arch constructed bridge over Licking River and high type surfacing of approaches for a distance of approximately 600 miles. The construction work is a unit.

Farmers High Will Give Annual Play Friday, May 9th

The annual high school play will be given in the Farmers High School Gymnasium, Friday, May 9, at 7:30 p. m., by the high school cast under the direction of Mr. Harold Peitrey.

The production, entitled "Cabbages Or Dollars," is a comedy in three rip-roaring, side-splitting acts. The cast includes: John Grayson, Jr., Eula Gilson, Brady Rose, Janette Evar, Junior Myers, Wilford Flanner, Katherine Swain, Louis Alley, Desha Swain and Pete Jones.

Admission will be fifteen cents for students and twenty-five cents for adults.

Large Attendance At Sunday Schools

There was a large attendance in most of the Sunday Schools over the county Sunday, which was Statewide Go-To-Sunday-School Day. Many of the rural Sunday Schools have not reported yet, and will be reported next week. The goal set by the state was a twenty percent increase over last year.

The local Sunday Schools report the following attendance:

Church of God	221
Methodist	148
Baptist	148
Christian	138
Total	675

Alumni Day At MSTC Set For June 4th

Alumni Day at Morehead State Teachers College has been set for June 4, according to Alton Payne, alumni secretary. A dance, luncheon and banquet will be the features of the day.

Reservations have not yet been made, but will be announced soon, the secretary said.

SALES REPORT MOREHEAD STOCKYARDS MAY 1, 1941

Among some educators there is confusion between "the art of teaching" and "the science of teaching."

The artistic teacher is one who has the "art of teaching." The scientific teacher is one who has the "science of teaching." The artistic teacher is one who has the "art of teaching." The scientific teacher is one who has the "science of teaching."

The artistic teacher may dwell in the one-room log school house or he may be found within the ivied walls of a college or a university.

One of the greatest teachers the writer ever had was a woman without educational portfolio. She did not have the A. B. degree and as far as I know, she did not possess the high school diploma, but she taught "as one having authority."

The sculptor sees the statue in the block of marble; the poet writes an immortal song impelled by his emotions and imagination; the musician catches from the air a strain of music which moves the world; the painter puts on the canvas his mental image which the workman hews down before him.

And what of the artistic teacher struggling for expression and this artistic teacher in an intangible, spiritual sort of way, this is touch here and there towards making a man or a woman.

If the teacher makes a fetish of method, materials and rules she has only "the science of teaching" on the other hand, if she teaches boys and girls and makes them, she has only "the art of teaching." Happy is he, however, who has both "the art" and "the science" of teaching.

Agriculture Tips

By H. C. HAGGAN, Morehead State College

PLANT DISEASES AND INSECT PESTS

The average person has very little knowledge of the important part that insect pests and diseases play in the cost of crop or a shrub around the house, each has its list of diseases and insects. The farmer suffers heavy increases in production costs and destruction of profits resulting from the wide spread inroads of these enemies of his crops. He may have the best of soil, the finest growing conditions, the most favorable rainfall distribution and he may plant the highest yielding varieties and give them ideal culture but all this may not result in profitable production unless he knows how to control the diseases and insect pests which may attack his plants. There is no escape from them. Each disease and insect pest must be fought by the use of materials, machinery, and methods worked out by the scientific research. Science has provided the only really effective avenues of approach to the practical solution.

Each year new insect pests and diseases appear among various crops. Each year science learns to control some that have never been controlled before. Each year the list of spray materials offered on the market increases and this increases often only confuse the knowledge some have had concerning their uses. Each year additional varieties of plants appear that are a more resistant to certain diseases but no so many resistant to insect attacks.

THIS WEEK IN DEFENSE

President Roosevelt, in a letter to the Office of Production Management which said the situation is confronted with a "critical situation," ordered all available work on a twenty-four hour day, seven-day week schedule, with time out only for repairs.

OPM Production Director Biggers, speaking in Washington, said national defense progress "seems phenomenal" but vast increases are still necessary. He said airplane production which has been trebled since May 1940 must again be doubled before the end of 1941.

Blackwell Smith, Assistant Priorities Director, said in a speech in Washington: "We cannot have business as usual so long as we must pay first attention to defense needs."

"We are not choosing between guns and butter," he said, "but we are choosing between tanks and airplanes and ships, and some things which are not so essential."

Commerce Secretary Jones said in a speech in Washington: "We have not yet made any sacrifices, but they are in store for us, plenty of them."

Director of Purchases Donald Nelson, speaking in Washington, said the defense program is now advanced to a point where more consideration can be given to greater decentralization of defense orders. He suggested that businessmen, instead of asking the Government to locate factories in their communities find out from the Defense Contract Service which Government agencies are in the market for goods and "do a little energetic prospecting."

The Defense Contract Service issued a pamphlet telling how manufacturers may be selected for contracts on these plants, products and experience to the Service's field offices at Federal Reserve Banks and branch banks to determine if they are qualified for defense orders.

Secretary of Labor Perkins reported strikes here declined to a point where less than two-tenths of one percent of defense workers—or 7,000 persons—are affected. Selective Service inductees advised local boards they are not justified in reclassifying workers joining a strike in a defense industry.

The Social Security Board reported shortages of labor in certain machine shop occupations. The Labor Department reported 290,000 workers given employment in one month and said that 310,000 additional workers will be needed by September, 1942, in shipyards alone.

Secretary of Labor Perkins reported living costs of moderate income families in March were 2.8 percent higher than before war started in Europe. She reported price rises in sugar, coffee, pork, butter, canned vegetables and certain fresh fruits and vegetables, rents, clothing and house furnishings.

Consumer Commissioner Harriett Elliott warned that some manufacturers were maintaining unchanged prices by lowering the quality of their products.

President Roosevelt approved legislation authorizing a \$150,000,000 expansion of the defense housing program and asked Congress for \$15,000,000 to purchase 14,200 portable houses, 6,800 dormitory units and an obsolete passenger ship to house defense workers during the housing emergency. Mr. Roosevelt reported \$5,000,000 previously appropriated for emergency purposes to be added to \$447,000,000 for the regular defense housing program had been used for 7,300 dormitory units and 3,900 trailers.

The President told a press conference he has ordered a survey to ascertain what, if any, plans may be secured to the British as they come to the aid of the lines.

Treasury Secretary Morgenthau announced an arrangement under which the United States will contribute \$50,000,000, the United Kingdom, 5,000,000 pounds sterling, and China, 200,000,000 United States dollars, to a Chinese currency stabilization fund to be managed by a five-man board including a United States representative. President Roosevelt requested United States Maritime Commission Chairman Land to arrange a pool of at least 2,000,000 tons of existing merchant shipping which could be used to carry "food and the munitions of war to the democracies of the world."

Secretary of War Henry Stimson said the shipping would be drawn from the intercoastal trade. Army and Navy auxiliary ships, the last-up fleet, requisitioning of foreign vessels in United States ports and re-routing of commercial shipping regardless of the resulting inconveniences and loss of trade.

The Treasury Department placed on sale United States savings bonds and postal savings stamps. President Roosevelt requested defense financing and provide investments for all citizens as a "cushion" against possible post-war depression.

Federal Reserve Board Chairman Eccles said taxes should be planned to discourage consumers purchases to such items as automobiles, refrigerators and furniture in order to build a back-log of purchasing power for use after the emergency. He also said that although higher taxes on personal income will be necessary, most should be collected from business, "where the profits originate."

The OPM announced the American soldier and sailor is better fed than at least sixty percent of the United States population and better than any other fighting man in the world. Every man receives 5,000 calories a day, the agency said. The Army alone uses daily 1,000,000 pounds of meat, 800,000 pounds of potatoes, 700,000 quarts of milk, 125,000 pounds of butter and 350,000 pounds of bread, OPM reported.

Navy Secretary Knox told his press conference the Navy's ship construction program is consistently setting new records for speed. He said that since January one aircraft carrier, three cruisers and twenty submarines have been added to the fleet. Admiral Stark, Chief of Naval Operations, said United States naval policy is "to protect our coasts and our insular possessions from any enemy whatsoever; and to safeguard United States interests beyond our shores."

"Mrs. Upton's pet dog has been run over; she'll be broken hearted."

"Don't tell her abruptly."

"No. I'll begin by saying it's her husband."

POWERLOG — South Carolina Public Service Company

Boy Scout Leaders To Convene May 16 In Washington

Thirty-first Annual National Council Meeting

Delegates to the thirty-first annual meeting of the National Council of the Boy Scouts of America, representing all parts of the country, will be addressed by prominent speakers when they convene at the Willard Hotel, Washington, D. C., next Friday and Saturday, May 16 and 17.

Paul V. McNutt, Administrator of the Federal Security Agency, former National Commander of the American Legion, Governor of Indiana and High Commissioner of the Philippine Islands, will address the National Council's annual banquet Friday evening, May 16. While Dean of the Law School of the University of Virginia, McNutt served as Scout Commissioner of the White River Council of the Boy Scouts of America at Bloomington, Indiana.

Telling how the Boy Scouts of America are sharing in the promotion of public participation in the Treasury Department's defense savings program, will be Gale F. Johnston, Field Director of the Defense Savings Staff.

Norman H. Davis, Chairman of the American Red Cross, will speak at the luncheon session, Saturday, May 17th. Senator Arthur Capper, Statesman, newspaper and magazine editor and publisher, who has represented his native state of Kansas in the United States Senate since 1919, will preside.

Friday morning, he will pay tribute to his long-time associate, the late Senator William Gibson McCasko, an Honorary Vice-President of the Boy Scouts of America for many years.

At the luncheon session Friday, May 16, Sir Willmot Lewis, Washington correspondent of "The London Times," will pay tribute to the late Lord Baden-Powell, Chief Scout of the world, who died in Africa last January 9th. The prominent foreign correspondent once worked with the world-renowned Scout leader.

Another dinner speaker will be Frank J. Hogan, prominent Washington lawyer and past president of the American Bar Association who was also Secretary to the Chief of Staff, United States Army and lecturer in law at Georgetown University. Mr. Hogan, will pay tribute to his close friend, Dr. James E. West, on having completed thirty years as the chief scout executive and Dr. West will respond.

Cooperative Cream Marketing Last month the Producers Dairy Marketing Cooperative Association of Kentucky, Indiana, purchased over 3,300 pounds of butter fat from Kentucky.

Since there are no cooperative marketing associations in Kentucky, this organization is helping the Kentucky farmers until they establish such an organization in their State.

FARM NEWS

A survey made by members of homeowner's clubs indicated that most farm families in Hopkins county, Kentucky, produce enough pork, eggs, milk and butter to supply their minimum needs, but only a fourth to a third as many vegetables as needed. Based on this survey, the county land-use planning is continuing its program, launched last year, to encourage the production of bigger and better gardens.

Community garden committees cooperate with the county home demonstration agent in suggesting the use of good soil, good preparation of the soil and proper planting and cultivation of vegetables. Tours are to be made during the growing season, so all may see some of the gardens. Canning demonstrations are a part of the program, and storages are provided for potatoes and other products. The program last year is said to have increased the number of quarts of vegetables stored from one hundred per family to 220, where special attention was given to the garden. Further increases are expected this season.

Farmers in Whitley county, Kentucky, bought twenty-five carloads of approximately 15,000 bushels of seed potatoes and planted an additional five carloads of home produced seed, according to a check-up made by County Agent J. C. Acree. A potato cooperative association is being developed in the county.

Plans made at a County wide gathering of farmers include the growing of at least an acre of hybrid corn by each of twenty-two farmers; the awarding of certificates of merit to all farmers sowing cover crops on all of their cultivated land; cutting and shocking of at least three-fourths of the corn, encouraging the use of purchased sizes and the raising of better sheep and the holding of a county fair.

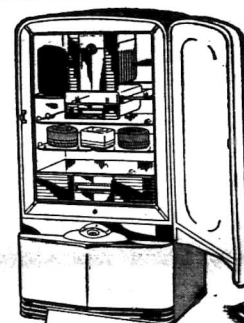

A total of 182,200 trees were set by ninety-one Graves county farmers last month, in a reforestation program which Wilson R. Hoover, assistant county agent, says may be the largest for any county in Kentucky. Of this number of trees, 72,000 were furnished by the Tennessee Valley Authority, while farmers outside the TVA area set 83,500 locust and 16,700 pines. These were obtained from the Forestry Division of the State Government at Frankfort, with the exception of 3,000 locust grown by a 4-31 club because of the large number of small farms in Kentucky. The State College of Agriculture, in its "food for defense" program, is stressing the production of food and feed for home use.

Figures gathered by the Agricultural Conservation Administration show that in Barren, Edmonson, Hart, Metcalf and Simpson counties, seventy-four percent of the "food for defense" program, there are 2,541 farms, but 1,000 of them have less than one hundred acres.

Of the 2,077 farms in Trimble county, 853 contain less than fifty acres, and of the 3,888 Warren County farms, 1,679 are under fifty acres. In Christian county there are 2,541 farms, but 1,000 of them have less than one hundred acres. Tobacco allotments and incomes are small. The fifty-acre farmer grows less than an acre of leaf, and the average tobacco income is about \$125 in Warren county. Fifty-one percent of the Christian county farms produce tobacco worth \$150 or less. Two hundred and thirty Christian county farms have no tobacco allotment. The average allotment in the county is slightly over three-quarters of an acre each of burley and dark tobacco.

Westinghouse Refrigerators MORE EYE-APPEAL MORE BUY-APPEAL Than Ever!

AMERICA'S "FIRST"... WITH COLOR-STYLED INTERIORS... SENSATIONAL NEW FEATURES and Super Market-FOOD PROTECTION made possible by EXCLUSIVE True-Temp Control

Now there's a new thrill in choosing your new electric refrigerator! Leading 1941 Westinghouse models offer you choice of color-styled interiors, plus a wide variety of new improvements you'll never tire of showing to your friends! The "Martha Washington" for example, has new AERO-SPRING Self-closing Door with TRIFLOK trigger-action Latch — new "Window-Frame" MEAT-KEEPER with UTILITARY top — new full-width HUMIDIFIER — new EROSEAL Frozen Food Compartment — new SELECT-O-CUBE and EXACT-O-CUBE Automatic Ice Traps — and many other advantages.

5 REFRIGERATORS IN ONE! With exclusive TRUE-TEMP CONTROL providing steady balanced cold, your Westinghouse gives you Super Market Refrigeration — 5 kinds of protection for your 5 kinds of food. See a demonstration of this amazing Westinghouse improvement. Learn how it keeps meats, milk, greens, left-overs and frozen foods for days in perfect condition. See the new 1941 Westinghouse Refrigerators. COME IN! Ask for "X-RAY" PROOF of Westinghouse Improvements and Quality Features. IT'S NEW! IT'S DIFFERENT! SEE IT TODAY!

McBRAYER'S THE Leader Line OF ELECTRIC HOME APPLIANCES

LET'S GO TO THE BLUEGRASS ROOM!

Yes, it's a fact, believe it or not—people do drive all the way from places as distant as Indianapolis, just to dine and dance in the gorgeous Bluegrass Room at the Brown Hotel!

Featuring the finest food in the South, an excellent orchestra and two floor shows nightly, it's truly the "bright spot" in this part of the country!

Prices? Really low! So why not come up soon—just for the fun of it! Write, if you want complete details!

Army Air Corps Now Open To High School Graduates

Examinations Given In Lieu Of Two Years College

Opportunity for high school graduates of Morehead and Rowan County to qualify for Army Flying Cadet scholarships will be offered May 13th, 14th and 15th, it was announced today at Fifth Corps Area Headquarters, Fort Hayes, Columbus, Ohio.

On those dates, Flying Cadet educational examinations will be held at Columbus, Ohio, Louisville, Kentucky, Indianapolis, Indiana, Cleveland, Ohio, Dayton, Ohio, Patterson Field, and also for the first time at Charleston, West Virginia.

Applicants who successfully complete the examination are exempt from the normal scholastic requirement of two full years of college credit.

The tests—given by individual appointment only—are limited to those who have met all other requirements. Youth desiring to take them must first submit formal applications. They must be unmarried, male, at least twenty and not yet twenty-seven years old who have passed the physical examination. Application forms are available at all Army Recruiting Stations or will be furnished direct to those writing the Air Officer Headquarters, Fifth Corps Area, Fort Hayes, Columbus, Ohio. Candidates will be given an appointment for physical examination and, passing this, will be advised individually when and where they may report for the educational tests.

The examination embraces two-hour written tests in English composition and grammar, geography, American and general history, elementary physics, arithmetic, advanced algebra, plane geometry and plane trigonometry. All subjects normally are covered in most high schools.

Tests are conducted by regular Army officers who furnish materials free. There is no entrance fee. However, candidates must pay their own transportation and living expenses incidental to the three-day tests.

For appointment an average grade of seventy is required. Papers are forwarded to Washington for grading and examinees are notified later whether they passed or failed. Examinees who failed earlier every ninety days and failure in one does not bar applicants from trying the next successive ones. Experience gained from one such failure frequently enables the applicant to pass the next time.

Flying Cadet scholarships pay \$75.00 a month, plus living expenses during a seven-month flight training course. Upon graduation, cadets are commissioned second lieutenants in the Army Air Corps Reserve and go on active flying duty with regular Army pilots. Officers who draw a minimum of \$205.00 a month, plus free lodging or a \$40.00 allowance for living quarters.

Lytton Crowned Queen Of May On MSTC Campus

College Orchestra Is Highlight Of Program

With appropriate pomp and ceremony, Miss Faye Lytton of the Ridge, Kentucky, was crowned Queen of the May, at convocation last Thursday, by Bill Hogg, president of the Senior class.

The program was highlighted by the performance of the College Orchestra, directed by Professor Keith Davis, selections by the Vocal Ensemble, directed by Professor L. H. Horton, and dances given by students in the physical education department, under the direction of Miss Nelle Walters.

Professor M. E. George led the assembly in a song and was followed by Miss Dixie Little, Queen of 1940, who gave a short speech on the origin of May Day.

As the orchestra played the Swedish Coronation March, Miss Lytton walked down the aisle preceded by her crown-bearer, Miss Virginia Burns Anglin, and followed by her attendants, the Misses Kathryn Palmer, Delphia McClure, Katherine Sluss, Dalton Strunge, Thelma Shuster, and Edna Bell.

The Vocal Ensemble, directed by Professor Horton, sang four numbers: In These Delightful Pleasures, Sing And We Chant It, Phyllis, and O Lovely May.

The orchestra played three numbers in addition to the coronation march, these numbers being directed by students. They were: Bertha's Hungarian Dance, No. Five, directed by Lionel Lyon, T. Galtbars, directed by Miss Kathryn Damerson, and March and Procession of Bacchus with Mary Turley Rawlings directing.

Other misses Madelyn McDavid, Mildred Sergeant, Marion Walter, Bernice Byrd, Helen Coglin, Hernet Huey, Clousa Parker, and Mary Turley Rawlings performed the dances "Le Secret" and Marion, led a dance, "Silver Swords."

Wakefield Named Director Of Fish And Game Division

Steve A. Wakefield of Shelbyville has been appointed State Game and Fish Division Director, after having served as Acting Director for four months. Charles Fennell, head of the Conservation Department, announced the appointment with Governor Johnson's approval.

Wakefield, who had served as assistant director—a post now abolished—succeeded Major James Brown when the latter resigned last December, twenty-seven months director of a similar division in Louisiana.

Wakefield had also been endorsed by the League of Kentucky Sportsmen for the position of Director of the Division of Game and Fish and is being backed whole-heartedly by the sportsmen of the state in his program for conserving and developing the game and fish resources in Kentucky.

Civic Chorus Will Present Program Sunday, May 11th

Group To Appear In College Auditorium

The Morehead Civic Chorus of some forty members, under the direction of Mr. Lewis Horton, head of the Morehead College department of music, will present the works of two great composers in a program at 3:30 p. m., Sunday, May 11. The group will appear in the College Auditorium.

Felix Mendelschlohn's "Hymn of Praise" and "The American Flag" by Antonin Dvorak will be presented at this performance. The group has been rehearsing for several weeks on these compositions and the performance is expected to equal their presentation, at Christmas, of "The Messiah" by George Frederic Handel.

Students of voice in the Morehead College Music Department will be soloists in the two compositions. Miss Louise Antonini, Miss Marian Louise Oppenheimer, Miss Anita Kalfian, soprano, and Mr. Horace Owens, tenor, will be featured in "The Hymn of Praise." Eugene McClure, tenor, and Ollie Lyons and William Black, basses, have the solo parts in "The American Flag." Mary Turley Rawlings will be at the piano. Professor M. E. George, member of the Music Department, is assistant director of the organization.

"The Hymn of Praise" was written by Mendelschlohn one hundred-one years ago to commemorate the fourth centennial of the invention of printing. It is regarded as one of the greater pieces of choral work.

"The American Flag," written by Dvorak almost fifty years ago in a more modern style than "The Hymn of Praise" has an equally interesting history. It was written at the time when Dvorak had just been invited to the United States to direct the then newly-organized National Conservatory of Music. "The New World Symphony" and "The American String Quartet," also popular among music lovers, were written about this same time, when the influence of the New World made itself so apparent in Dvorak's music.

State Should Be Mecca For Tourists Says Donaldson

Kentucky Has Potential Tourist Trade Of Nearly \$200,000,000

Aims of the administration to develop an integral system of modern highways in Kentucky as an aid in increasing tourist travel in the State were outlined by J. Lyter Donaldson, State Commissioner of Highways, in addressing the Blue Grass Automobile Club at Lexington, recently.

Pointing out that Kentucky possesses an abundance of natural attractions and resources, Mr. Donaldson said these should make the State a mecca for tourists of the nation. He declared that although Kentucky's potential tourist trade reaches the neighborhood of \$200,000,000 annually, little more than one-fourth of this figure is being spent annually in the State.

"This represents a challenge that should arouse the interest of all Kentuckians," the Highway official stated and suggested that the State should find a remedy which will enable it to share as it should "in all industries and particularly in this modern industry of tourist traffic."

"History shows that progress and prosperity follow where adequate transportation means have been developed, and Kentucky possesses no such system as means used by modern conditions," he continued, "due to several conditions which are being remedied. Katter and Helen Coglin performed a dance, "Silver Swords."

(Continued on Page Five)

Campus Club Will Have Sweetheart

Committee Will Select One At Annual Dance

The picking of a "Campus Club Sweetheart" will highlight the Fifth Annual Campus Club Spring Frolic, which will be held in the College Gymnasium on Saturday 10th. This is the first added attraction of its type in the history of the series of Campus Club dances. The field of candidates will include every girl who is present at the dance. The judging will be done by an impartial committee composed of four faculty members.

The naming of the Sweetheart will take place shortly after intermission, according to Campus Club members in charge of arrangements for the dance. All couples at the dance will parade in the grand march past the judges stand for the first inspection. Club members grant the judges "a tough job—picking out one from all the girls at that dance." When the judges have announced their decision the lucky girl will be inaugurated as Campus Club Sweetheart with appropriate ceremony and will be given a scroll declaring her new status.

This dance, the fifth in the series of annual Spring Frolics, promises to be "better than ever," according to club members. The popular Clyde Lewis and his Orchestra from Cincinnati have been engaged to play for the dance, and as an added attraction the Campus Club will hold a drawing for a \$25.00 suit during the intermission. Tickets for this drawing may be procured from any Campus Club member, for twenty-five cents. Ticket-holders need not be at the dance in order to win the suit. These tickets will be on sale until the night of the dance, May 10.

The dance will begin at 9:00 p. m. Price of admission is one dollar, for couple or stag.

The winner of the suit may be either a man or woman, for in either event the Campus Club will simply give the winner his choice of \$25.00 worth of suit. In case the winner prefers, he or she may take \$20.00 in cash instead of the suit.

Nearly four billion dollars were expended by the Class One railroads in 1940 for the purchase of fuel, materials and supplies of all kinds, new equipment and other improvements, wages to railroad employees and for taxes.

Tommy solves the difficult problem, but Doris forgets her date with Tommy.
The play is a hilarious comedy of adolescence, featuring a genius American boy, with his harassed parents, his wise and witty grandmother, his sister, his pal, and his schoolmates.
The play is composed of the following cast:
Tommy Stevens, an all-American boy—Levant Uterback.
Mrs. Stevens, his mother—Ruth Egan.
George, his pal—Warren Flannery.
Grandma, his grandmother—Maude Ward.
Sam Stevens, his father—Adrian McKinney.
Betty Stevens, his sister—Mercedith Wallen.
Cecil Thompson (Einstein), the smartest boy in school—Billy Turner.
Doris Davis, the siren of Central High—Bernice Christian.
Janice, Betty's friend—Mildred McClurg.
Roger Wilson, a Gamma Delta—Allie Hunt.
Clara, on the prom committee—Louise Adams.
Phil, Betty's boy friend—George Hill.

tributing factors, among which the fact that the topography of the State renders the cost of each mile of highway in Kentucky much higher than in the seven states which border Kentucky.
The Highway Department is in the midst of its most comprehensive construction program since the standard of the State is being progressively raised.
The highway head stated, adding that the support of the State's program by automobile clubs and the general public will assist greatly in its eventual realization.

McBrayer Gives--

(Continued from Page 1)
offered by the application of scientific principles to her work.
Using the Westinghouse Ranges, Miss Matuck will prove to Homemakers who believe that electric cooking is too expensive that the average home, how it actually is more economical than old-fashioned methods and how much more convenient and healthful it is.
The true definition of cooking, according to Miss Matuck, is the application of the correct amount of heat to food for the correct length of time, and "electricity" is the one source of energy used for cooking today which is controllable to the exact degree of heat necessary for the food to be cooked and consequently can be applied for the correct length of time.
Today, everyone is conscious of

the extremely important part vitamins play in maintaining the health of the human body. In the recent past, and even at the present in some instances, vegetables were boiled in large quantities of water, then drained thoroughly before serving with vitamins and minerals were lost—poured away with the water. On the electric range vegetables are steamed, not boiled, with little or no water being used, with no loss of vitamins, or minerals, accruing. The fact that the application of heat in the electric range can be accurately controlled has brought about this change in cooking methods.
Miss Matuck will also discuss the importance of proper food refrigeration in the home; why the True-Zone Cold of the Westinghouse Refrigerator insures the correct degree of cold being applied to every food stored, which is of utmost importance in perfect preservation of foods.
"It will be my privilege and pleasure," says Miss Matuck, "to meet and talk with the Homemakers of Morehead since it is through these contacts and conversations that I am in a position to determine just how the Westinghouse Economic Institute can be of greater assistance to the Homemakers of America."

Contract--

(Continued from Page One)
of the proposed improvement program for Kentucky highways, in accordance with the national effort being made to provide better highways for U. S. defense. Army officials have recommended that a number of Kentucky highways be improved in order to handle the increased burden of defense transportation of supplies and the movement of troops to the Army camps in southern states.
Other proposed improvements of the state include widening and resurfacing of portions of the route in Bath, Rowan, Carter and Boyd Counties; elimination of sharp curves in Carter County and construction of an alternate route from Cannonburg in Boyd County direct to Catlettsburg, thereby eliminating the necessity of passing through Ashland city traffic.

CHURCH NEWS

Missionary Officers Elected.
At the meeting of the Missionary Society of the Christian Church, Thursday, May 1, the following officers were elected for the coming year by the twenty-five members present: Mrs. C. O. Peratt, President; Mrs. D. B. Bellamy, Vice-President; Mrs. V. H. Wolford, Secretary, and Mrs. Arthur Blair, Treasurer.
Women's Council to Meet
At Mrs. A. W. Young's.
The Woman's Council of the Christian Church will meet at the home of Mrs. A. W. Young, Wednesday, May 14, at 2:30. Mrs. F. P. Blair will assist in entertaining.

Gov. Johnson Sets Aside May 21-28 As "Fire Defense" Wk.

In Accord With National Program For Fire Prevention

Stressing "National Defense Through Fire Defense," Governor Keen Johnson has issued a proclamation setting aside the week of May 21-28 for special observance of a fire prevention and control program. This is a part of the State's participation in the nationwide fire prevention campaign marking the seventy-fifth anniversary of the National Board of Fire Underwriters.

In his proclamation Governor Johnson deplored the annual toll taken by fire in the lives and property of Americans and pointed out that such fire wastage is largely preventable. It could be reduced, he said, through vigilance on the part of all citizens.

Since America is now being geared to maximum production of goods required for national defense, any waste of manpower, raw materials or finished production at this time is a blow to our national defense. An intensive fire

Marketing Division Finds Many New Uses For Sorghum

In the past we have always thought of sorghum in ten pound buckets or eaten with hot biscuits and butter, but the Marketing Division of the Kentucky Department of Agriculture, in its program to find new uses for Kentucky farm products, has broadened this field considerably. One of the especially necessary and important at this time.

Governor Johnson requests the cooperation of all Kentuckians with police and other municipal departments in working to cut down losses by fire.

In observing "National Defense Through Fire Defense" Week, May 21-28, the cooperation of the press, radio, churches and citizens generally is invited. Governor Johnson also suggests that special programs be held during the week by schools and clubs. Throughout the country a series of commemorative events will be arranged by the National Board of Fire Underwriters to impress upon the American public the importance of stronger national defense through a more efficient fire defense.

the latest uses is ice cream that is being flavored with sorghum and produced by an ice cream company located in Lexington. It has been enthusiastically received because of its rich, luscious flavor and because of the large amount of easily assimilated iron in the sorghum, which makes it an extra healthy food for growing children and adults. It has a taste similar to that of butterscotch.

In Rockcastle County, a coffee substitute is being produced which has sorghum as one of its ingredients. Those who have tasted this substitute say that it has a taste very similar to coffee and it is very healthful for children and adults, since it is not habit forming and does have food value.

A candy company of Lexington is introducing Kentucky sorghum taffy to its many patrons. The debut of this new candy was made in Louisville at the Kentucky Derby.

New uses for Kentucky products must be found and this shows some of the possibilities that are available for every Kentucky product.

"Ma!" called Sammy. "Ma!" called a hundred in school.

"Fine," said his mother. "What subject did you get a hundred in?"

"Two," said Sammy—"60 in readin' and 40 in spellin'!"

Lions Convention To Be Held In Louisville, May 11

Entertainment To Include Style Show, Luncheons, And Races

Louisville entertains the first all-Kentucky Lions Convention May 11th to 13th when fifty cities in the state will send Lions Club members and their ladies for the annual district meeting.

Increase in the number of clubs resulted in the separation of the Kentucky-Tennessee District this year, Kentucky taking its place in Lions International as District No. 43, Kentucky and Tennessee having together as District No. 12 for twenty-one years.

Chris D. Russell, Maysville, is District Governor and will preside at the Louisville convention. W. Lee Coulson, manager of radio station, WHAS, is convention chairman for the Louisville host club.

Plans are being made for a registration of five hundred. Convention headquarters will be the Brown Hotel.

The gathering opens Sunday with an entertainment provided by the Trade Relations Department of The Courier-Journal and Times and WHAS. Convention sessions will be held Monday and Tuesday forenoons.

A style show and luncheon has been especially arranged for Monday for the ladies by the Stewart Dry Goods Company, where they will see the latest fashions and get tips on the newest styles in all kinds of women's wear.

Monday afternoon Lions and their ladies will be entertained at the Races at Churchill Downs.

Frank V. Birch, Milwaukee, Lions International past president, will be speaker at the banquet and ball on Tuesday night.

The convention closes Tuesday noon with the election of officers and the selection of the next convention city.

Large Consignment Of Lambs Brings 15-2c

One of the largest consignments of pre-Easter lambs sold in Kentucky in recent years consisted of 303 lambs averaging 79 pounds, headed by James Sharp of Fayette county, and sold April 4 for 15-2 cents a pound. Their meat went to New York for the Easter trade. They were out of western ewes and by Southdown rams.

Three State Youths Given Special Radio Training

Three Kentucky youth, Kenneth D. Morgan, Princeton; Jesse G. Sandler, Franklin, and James Sullinger, Marion, are among the seventy-five young men selected from various parts of the United States for enrollment in special radio classes being set up by the United States Maritime Commission to train radio operators for the Merchant Marine.

All seventy-five youth, selected because of outstanding ability demonstrated while working in National Youth Administration radio shops, will be paid \$21.00 per month at the NYA Resident Youth Center in Tampa, Florida, by May first. There they will be given qualifying examinations by retiring officers of the United States Maritime Service from St. Petersburg, Florida.

Those qualifying will be enrolled as Apprentice Seaman in the Commission's Radio Training School at Gallups Island, Boston Harbor. They will be paid \$21.00 per month. After three months satisfactory work in the training course, they will be advanced to Seaman Second Class at \$28.00 per month. After six months satisfactory work, they will be advanced to Seaman Third Class at \$54.00 per month.

The trainees will be provided with quarters, subsistence, clothing, medical and dental care, and recreational facilities.

NYA youth are selected for this training on the belief that their work experience in NYA radio shops will shorten, by as much as three months, the time necessary to complete the radio course.

Morgan and Sandler received their radio work experience at the Resident Center in Murray, Kentucky. Sullinger worked at the South Charleston Resident Center at Charleston, West Virginia.

Boy Scouts Hold Annual Meeting In Washington, D.C.

"Physically Strong, Mentally Awake and Morally Straight" will be the theme of the thirty-first Annual National Council meeting of the Boy Scouts of America this Friday and Saturday, May 18 and 17 at the Willard Hotel, Washington, D. C. The scene of its first annual meeting in 1941.

Exhibits reflecting this emphasis on portraying the activities, growth and scope of the movement will be on display in the hotel lobbies and meeting rooms.

Now comprising 2,000 men who represent the 545 Local Councils administering the program of the movement, the National Council is the controlling body of the Boy Scouts of America which operates under a Federal Charter granted by the Congress of the United States.

The delegates, most of them leaders in the life of their home

communities, are business men, educators, churchmen, doctors, lawyers, public officials. They are coming together at the nation's capital because of their common interest in American boyhood.

At the legislative meeting of the National Council, the delegates will elect officers, approve new policies and hear annual reports. The Washington gathering will also provide inspiration to the delegates. Methods of promoting the program of the Boy Scouts of America locally, keeping in mind the varying conditions throughout America, will be discussed. An exchange of ideas is made possible through speakers and conferences.

At the annual banquet of the National Council on Friday evening six Silver Buffalo Awards "for distinguished service to boyhood" on a national and international basis, will be made to recipients to be disclosed at the dinner. A new trophy, the Lortillard Spencer Award, will be presented to the Scout Region making the greatest percentage gain in membership.

Dynamiting And Seining Unlawful; Penalties Severe

Fishermen Warned Against Using These Methods Of Fishing

S. A. Wakefield, Director of the Kentucky Division of Game and Fish, says the following about dynamiting and illegal seining of the streams in the Commonwealth.

"Our streams should be protected from dynamiting and seining. People who catch fish in this way are law violators of the worst sort. They break out under cover of darkness or else have someone on the lookout for a law enforcement officer. When a stick of dynamite explodes in a hole of water every living thing is killed—little and big fish alike as well as all the crayfish and all other animal foods. Many of the fish that are killed cannot be found, so they are left to rot. It is sickening to even think of it. When a hole is seined, every law of decency and good sportsmanship is violated, to say nothing of the Game and Fish laws. Many times the little fish and animal foods are dragged onto the sand and gravel bars and left there to die. Nets are often destroyed—silt and filth cover the eggs—and the most of a fish may contain as many as 10,000 eggs.

"Think what it means to take fish from a stream in such an illegal manner! No good sportsman would be guilty of such a violation. He would rather leave the fish to make nests and their eggs to hatch.

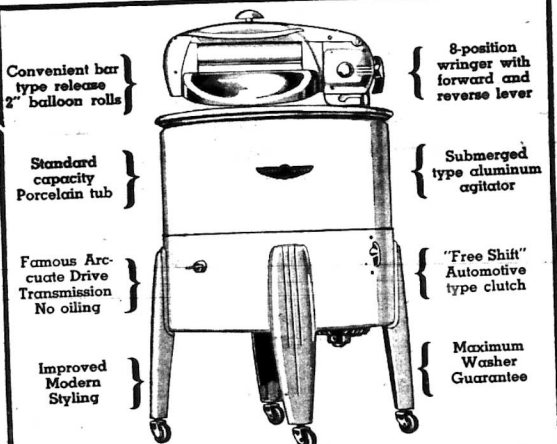

"A good sportsman always observes the creel limit, and is careful to return undersized fish to the water. If these rules were not broken, the fish restocking program carried on by the Division of Game and Fish would show better results. We would soon have finer fishing in all our streams, ponds and lakes."

"Swallow Mystery" Attracts Thousands Of Tourists Annually

The return of the "Mystery Swallows" to the mission of San Juan Capistrano, usually March 19, feast of St. Joseph, has become the arrival of vast flocks of swallows, who appear out of nowhere, circle the skies above the Mission, and descend upon the walls to build their nests in its adobe walls. With the same uncanny precision the swallows depart from their Mission nests on October 23 each year on the feast day of St. John for whom the Mission was named and founded by the Spaniards in 1776. Scientists have never fathomed the mystery, nor the fact that the birds shift their schedule one day in leap years, usually arriving on March 18. Thousands of tourists watch the mysterious spectacle.

Men and Motors—The New Army on Wheels

U.S. Forest Service motorized force—the new army on wheels—is symbolized by the “dawn patrol” of Chevrolet 4 x 4 army trucks shown across the bottom of the photo. The Chevrolet four-wheel-drive army truck, above, carries a complete telephone switchboard. Within a few minutes after the Fourth Division’s motorized units completed a

U. S. Forest Service Responsible For Decrease in Fires

Fourteen Acres Per 1000 Less Burned Area in 1941

The annual report of the Kentucky Division of Forestry for 1940 reveals that there were 518 fires on a total protected area of 1,078,000 acres. The total burned area for 1940 was 17,662 acres as compared with a total burned area of 30,441 acres in 1939. This represents a loss of sixteen acres per thousand of protected land for 1940, as compared with thirty acres per thousand for 1939.

The current State appropriation of \$14,000 per year for all Division of Forestry activities, according to K. G. McConnell, Director, is too much too small to expand the protected area. There are about 8,000,000 acres of state and private forest land in Kentucky without any sort of protection. A careful estimate of this unprotected

area indicates a burn of 503,000 acres during 1940. This is a loss of sixty-three acres per thousand and on unprotected land, as compared to sixteen per thousand for protected forest land.

It is hard to estimate the disastrous effect and damage these forest fires will have on the wildlife of this state. Wherever the fires burn the woods, homes of wild animals and birds are destroyed; as are eggs of birds; young of animals and birds; the adult game; food for wild life; running of good fishing waters; also the paving of the way for mud and silt to fill up these streams due to the fact that the fires have destroyed the protective cover for the soil and the rain can now start the erosion process, and also the killing countless thousands of fish during the burning of the woods.

According to the above reports the number of fires on areas protected by the Division of Forestry were much smaller and did less damage than the fires on timbered areas which were unprotected. There was also a like percentage of game destroyed on the protected areas and on the unprotected areas. The sum total of these

figures simply means that if the people of Kentucky really want to conserve and protect the fish, game and forests which we now have and are really desirous of securing for themselves even better hunting and fishing in the future they must back the wildlife conservation and restocking program of the Division of Game and Fish and help the Division of Forestry in its efforts to secure statewide forest fire protection on all timbered land.

\$66,022.927 Spent By Railroads In Kentucky In 1940

Railroads in 1940 spent in Kentucky a total of \$66,022.927 for materials and supplies of all kinds and for wages of railroad employees, the Association of American Railroads announced today.

This total does not include taxes paid by the railroads to state and local governments in Kentucky, for which 1940 figures are not yet available. In the year 1939, however, such taxes totaled \$3,462,011.

The stimulating effect of these expenditures is felt throughout the state because of the wide distribution of railroad wage payments, and the fact that supplies and materials were purchased in approximately 377 localities in Kentucky.

Railway purchases in Kentucky in 1940 of fuel, materials and supplies and new equipment totaled \$18,646,339. In addition, the railroads paid \$47,376,588 in 1940 in wages to employees located in that state, the total number of such employees in July, 1940, having been 28,894. The number of employees represents the total number receiving pay in July, some of whom, however, only worked a part of the month. Average wages, therefore, cannot be calculated from these figures.

Don't Disturb The Young Animals Or Fish - Wakefield Action Carries Penalty Of Arrest And Fine

Those people who are making fishing, camping, or hiking trips into the woods and fields are requested by Wakefield, Director of the Division of Game and Fish, to leave the young animals and birds in their native abodes instead of picking them up to town with them.

No more than most human mothers do the forest maternal parents of wildlife babies like to have their infants robbed or kidnapped by anyone, especially by persons who know nothing about the care and feeding of children, he pointed out. Many of the know nothing about the care and feeding of children, Wakefield pointed out. With many of the choice outdoor areas over the state being used by picnickers and fishing parties, some persons will, almost without any effort on their part, find young birds and animals. Some of these people may think they are doing a kindness in capturing the creatures because they appear to have been abandoned. Usually, however, these babies are not more lost than the infant that crawls off its bed and over the floor to a place behind a chair, as the parent or animal mother is off foregoing for feed and, like human babies, the young disobeys and wanders. The parents will request under the Office of the Quartermaster General. Qualified persons are urged to file their applications at once, although applications will be rated as received at the Commission's Washington office until further notice.

“Little Brown Hen” Must Produce More For Nat'l. Defense

Flock Owners Urged To Increase Egg Production In 1941-42

A nationwide program to increase egg production is announced by the secretary of Agriculture C. A. Wickard. The effort is a part of the nation's determination to assure ample food supplies for the United States, Great Britain and other countries, and should increase egg production in this country in the next fifteen months by about six percent, or about ten million cases of thirty dozen eggs each.

Flock owners are urged to begin immediately to feed hens better, and to enlarge hatching and thereby the number of layers for next fall and winter. Feed supplies are plentiful and prices of feeds are considered moderate.

The Department of Agriculture has announced it will support egg prices at an average of about 22 cents a dozen, based on Chicago prices, until June, 1943. This, it is said, should mean higher summer prices to farmers.

An increase of fifteen percent in chicks raised, over the 1940 numbers, also is urged. The hatchery industry is said to be in position to take care of this increase.

According to the Department of Agriculture, supported prices

4-H Club Members Encourage Use Of All Milk Products

Kentucky 4-H club boys and girls will “do their bit” to build a stronger America this year by encouraging wider use of milk, butter and other dairy products. The opportunity is being provided in a national dairy foods demonstration program.

Another contest of special interest in Kentucky is the national 4-H dairy production demonstration program. Marvin Floyd and Howard Pearson of Warren county won the southern regional championship in this contest last year.

Spare Parts Expert Position Now Open In Civil Service

Information Available At Any First Or Second-Class Postoffice

An examination for positions as automotive spare parts expert, paying \$3,200 a year, has been announced by the United States Civil Service Commission. Employment will be in the War Department under the Office of the Quartermaster General. Qualified persons are urged to file their applications at once, although applications will be rated as received at the Commission's Washington office until further notice.

Seven years of responsible experience in the automotive industry are required. Not more than three years of this experience may have been in the capacity of mechanic; and at least three years of the experience must have been in both the control and the management of spare parts for a major manufacturer of automotive equipment. Under certain conditions,

should enable producers to go ahead with plans for feeding for maximum egg production and increasing the size of flocks.

A program also is announced for expanding the production of tomatoes for can by fifty percent to meet the probably domestic and foreign demands.

college study in engineering may be substituted for part of the general experience. The maximum age limit for applicants is fifty-five years.

Appointees will requisition stocks of spare parts for corps areas and depots and will instruct regarding the reclamation or repair of parts, units, and accessories. They will also review complaints and make remedial recommendations, as well as performing other duties relating to stocks, inventories, and mortality tables.

Full information as to the requirements for this examination, and application forms may be obtained from Mrs. Flora T. Cooper, Secretary of the Board of U. S. Civil Service Examiners, at the post office in this city, or from the Secretary of the Board of U. S. Civil Service Examiners at any first or second-class postoffice.

Dr. R. L. Hoke, who has been ill, is visiting his brother in Chicago. Physicians advised rest for a few weeks. Dr. Hoke will return not later than June 1st.

Mrs. C. Z. Bruce and children, Eleanor and Robert visited Mr. and Mrs. C. G. Goss in Jackson over the weekend. Mr. Bruce went Sunday to accompany them home.

The Morehead Woman's Club will entertain the Senior girls of the college with a banquet on May 13, at 6:30 p. m., at the Christian Church.

Mr. and Mrs. Steve Heilbrun of Cincinnati were weekend guests of Mrs. C. U. Waltz. Mrs. Ernest Jayne returned with them for a week's visit in Cincinnati.

Mrs. A. W. Young and Miss Jane Young will spend this week in Louisville with Mrs. J. E. McGrunder and family, who recently moved to Louisville from Frankfort.

Mr. and Mrs. Edward Lyman of Tampa, Florida, are visiting their mother, Mrs. Cora Carter and Miss J. W. Stewart of Flemingsburg. They will return to Tampa this week.

Mrs. C. F. Kessler attended the School of Instruction for the Eastern Star at Stearns, Kentucky on Thursday. Mrs. Kessler spent the night with her daughter, Mrs. W. G. Brown at Somerset.

Mr. and Mrs. Jessie Thompson

of Lexington announce the birth of a son on Friday. They have chosen the name Craig Irvin Thompson, for him. Mrs. Thompson was formerly Miss Elizabeth Lee Craig of Morehead.

The Women's Missionary Union of the Baptist Church will meet Monday evening, May 12, at the home of Mrs. H. C. Hagan. In addition to the regular program, a clear shower will be given for the Towel Creek encampment.

Mrs. O. P. Carr received word Thursday of the death of her nephew, James Edward Dennis, sixteen year old son of John Dennis in Middletown, Ohio. Mrs. Carr, her sister, Mrs. Stella Fannin, Mabel Orene Carr and Walter, twenty five years ago, she began at once to share his poverty, his joys, and his labors, to hope with him and be a part of whatever came to him.

Together they walked into the deep forest, down between the towering hills, and there began to cut the virgin trees on their tract of untouched land. Those ageless trees, which seemed then to be a burden, soon took the shape of large, long building towers by the steady eye of her aspiring hero. There they built their house and, in it, began to build their home. The toil of the years was their happiness, and they felt that honor was sustained mainly in their lonely task.

Along with this sense of joy in honor sustained by toil they came both the responsibility and pleasure of rearing five girls. But death soon cut that pleasure and responsibility to two, and those two remained to see their father and his wife and daughters forever, and pass into slumber. They buried him beneath the soil of his own little farm, amid his choicest memories.

But she lived on, and with courage met her double burdens. Then, after years of healing, she met another, to whom she gave her love. There in the same home, which now had become an old home, four boys came on the scene. That mother, with her courage, led them all through the press of poverty and attendant difficulties. She never grew tired of toil that meant a better home, a happier hours for her family, or encouragement to her husband.

But this was not her most important offering to the world. She could have read and write. Her diction was Shakespearean, but her grammar was poor. She never knew that she had a philosophy of life. She never consciously analyzed anything. But she did analyze things, and she had philosophy of life. She had two motives, also she did not know they were motives. One was "The Lord Will Provide." This concerned everything that she needed. And she often knew that if the Lord did provide, her children might be hungry. But they were never underfed.

Her other motto was "Quench not the Spirit." Her life, therefore, was absorbed in two institutions—her home and her church. The large log house in the head of the creek, and the little church down at the forks of the creek were bound together into one institution—a life. In one she was "a lover of hospitality" neglecting not "to entertain strangers"; for beggars, victims of drink, traveling traders, as well as friends and loved ones shared the limited blessings of her home. In the other, she was absorbed in two institutions—her home and her church.

THINK ON THESE THINGS

By REV. B. H. KAZEE

There was once a beautiful mountain girl who married a rather handsome young man and, like all the simple folk of the mountains fifty years ago, she began at once to share his poverty, his joys, and his labors, to hope with him and be a part of whatever came to him.

Together they walked into the deep forest, down between the towering hills, and there began to cut the virgin trees on their tract of untouched land. Those ageless trees, which seemed then to be a burden, soon took the shape of large, long building towers by the steady eye of her aspiring hero. There they built their house and, in it, began to build their home. The toil of the years was their happiness, and they felt that honor was sustained mainly in their lonely task.

Along with this sense of joy in honor sustained by toil they came both the responsibility and pleasure of rearing five girls. But death soon cut that pleasure and responsibility to two, and those two remained to see their father and his wife and daughters forever, and pass into slumber. They buried him beneath the soil of his own little farm, amid his choicest memories.

But she lived on, and with courage met her double burdens. Then, after years of healing, she met another, to whom she gave her love. There in the same home, which now had become an old home, four boys came on the scene. That mother, with her courage, led them all through the press of poverty and attendant difficulties. She never grew tired of toil that meant a better home, a happier hours for her family, or encouragement to her husband.

But this was not her most important offering to the world. She could have read and write. Her diction was Shakespearean, but her grammar was poor. She never knew that she had a philosophy of life. She never consciously analyzed anything. But she did analyze things, and she had philosophy of life. She had two motives, also she did not know they were motives. One was "The Lord Will Provide." This concerned everything that she needed. And she often knew that if the Lord did provide, her children might be hungry. But they were never underfed.

Her other motto was "Quench not the Spirit." Her life, therefore, was absorbed in two institutions—her home and her church. The large log house in the head of the creek, and the little church down at the forks of the creek were bound together into one institution—a life. In one she was "a lover of hospitality" neglecting not "to entertain strangers"; for beggars, victims of drink, traveling traders, as well as friends and loved ones shared the limited blessings of her home. In the other, she was absorbed in two institutions—her home and her church.

Robert Stewart Visits Morehead Campus Last Week

Dr. Robert Stewart, former Morehead student now associated with the Department of State in Washington, D. C., visited on the campus Wednesday while on a 10-day vacation from his important governmental job.

Dr. Stewart, a native of Denton, Kentucky, attended Morehead before going to the University of Kentucky, where he earned his A. B. degree. He then studied at Harvard University, graduating with a Doctor's degree from that school. He is now located at the Anglo-Saxon desk in the State department.

Leola M. Caudill Directs Water Carnival

Miss Leola Margaret Caudill who is at present Director of Physical Education at the YWCA, in Lexington, Kentucky, supervised a water carnival here on Thursday and Friday nights, May 1 and 2. Outstanding event of the carnival was said to have been the demonstration of synchronized swimming, in which the beautiful mermaids swam in harmony with popular music, forming water lilies, stars, and other beautiful formations.
