human beings. Brill's Disease, the American variety of TYPHUS FEVER which has recently become epidemic in the Eastern United States, is transmitted by a RAT FLEA. The disease is characterized by severe fever, rash and intoxication symptoms and is a very dangerous malady. RATS are the carriers of this disease and their destruction is the only practical means of eradicating this terrible disease.

RATS live in fifth, in sewers, gutter drains, in burrows under ground and come from these places after nightfall as carriers of disease-spreading fleas, and other disease germs from their feet, tail and hair over the premises, in the cupboard, kitchen cabinet and floor bin.

Rats will kill young chickens, ducks, turkeys and goslings; will attack pigs and calves, and have been known to bite people while asleep. They will destroy grain in the bin, vegetables in the garden and eggs in the nest. They will gnaw through anything short of metal or concrete and have

Your pay in the Navy is gravy

No need to pay. No need to buy. No doctor's or dentist's bills. From morning until night, you can earn \$118.00 worth of uniforms! And if you want to learn a trade, the Navy is pleased to do it. There are forty-five odd trades you can learn... training that's worth hundreds of dollars the first year.

SERVE YOUR COUNTRY! BUILD YOUR FUTURE! GET IN THE NAVY NOW!

Navy Recruit--

(Continued from Page 1.)

treat us like we were kings. I have been invited to dinner many times by people at church and even people who sit in the park. I want to say again, I appreciate all you and Mr. Davis did for me, and you can tell anyone who wants to know. "The Navy is the greatest and most educational organization in the world." A man can't do anything more for himself or his country by doing anything but joining the Navy. I recommend the Navy to every young man in this country. It is a man and character builder.

Well, I have to start studying now, so I will close now. I will be anxious to hear from you.

Sincerely, Walter Smith

Aug. 13, 1941

Dear Mr. Chandler: Just a note to let you know that I am getting along swell. Still learning something each day. Really, I have learned more since I have been in the Navy than anything could learn in twice the time in civilian life, or any other organization.

Enclosed are a couple of snapshots taken in our ship at the city airport. I thought you would like to see some of the activities in our school.

I received your letter a few days ago and was quite surprised to see my letter in the paper. I appreciate that very much and I hope it will help to get other young men interested in the Navy. Some day I will get time to write, just an article on the splendid educational courses the United States Navy has to offer. The only thing I regret is that I didn't join when I was seventeen. That would have given me an early start.

In the picture of me riveting you will notice a bandage on my neck. At the time I had three bolts in one spot, but these well-trained Navy Doctors we have here cleaned them up in one week from the day they first started. I never knew I had them except when they pulled the bandage off each time, it pulled my hair.

I have to start studying now, so I will write again soon. Give my friends Mr. Davis my best regards.

Sincerely, Walter P. Smith

During the training period United States Navy recruits gain

FSA Tenant--

(Continued from Page 1.)

December 1, 1936, the family's net worth was \$725, and in the year ending September 1, 1937, it had a cash income of \$834.

Last New Year's Day, the Zinks had come a long way, and 1935 seemed far behind them. Their net worth was \$1,550—only four times what it was when they started on the upgrade—and for the previous year their cash income was \$1,824.49—sixteen times. They had made \$7.67 off their hogs, \$154 off the sheep they had borrowed, they had paid back \$42.85, all except \$149.47 of it since moving to Shelby County.

Charles H. Steeles, associate rehabilitation supervisor for the part of Wabash farms in Shelby and DeWitt Counties, and Mrs. Frances Meloy, Shelby County FSA home management supervisor, had given advice, and all the rest they had made with their own hands and brains.

Today you'll find them living in a neat white seven-room frame green house amid well-tended green fields down a side road between the Moral Township Consolidated School, where the girls go, and the London Methodist Church, which they often attend on Sunday. They have ten part-breed cows, twenty-five pigs in the Old Improved Chester White Jersey, five sows soon to farrow, two horses, two mares and a colt, and some 250 Plymouth Rock chickens.

Twenty-two and a half acres here in pasture, eighteen and one-half in corn and wheat, three in rye, seven in alfalfa, and three and one-half in soybeans. The grain grows in four-fifths of an acre given them about once a week. They need to eat and they buy meat only in summer, when butchering hog is hard to keep.

Down in the cellar, Mrs. Zink has stored canned greens, cabbage, tomatoes, and vegetable soup, some jelly, and fifteen bushels of potatoes to help them through the winter. They have an automobile (1937 model), radio, electric lights, electric refrigerator, and an electric washing machine. They get into Shelbyville once or twice a week to shop or see a movie. Zink takes it all to stride. He keeps books and figures every angle. He bought a tractor because of their butterfat output—

POPEYE, THE RECRUITING OFFICER, MEETS THE ADMIRAL!

"It's a pretty good skum on top of the milk," he says, "and that's what they pay you for"—and O. L. C. sows because a neighbor had a board of that breed he could borrow. He had done well in Johnson County but moved because, he explains, "I figured I could do better here."

Absolute AUCTION

2690 ACRES OF MOUNTAIN LAND To Settle the Estate of the Late J. T. Day MONDAY, SEPT. 15 (STANDARD TIME) RAIN OR SHINE

WE WILL SELL 1,700 ACRES OF COAL, TIMBER, AND FARM LAND IN BREATHTIGHT COUNTY 8 MILES WEST OF JACKSON, KY. ON HIGHWAY NUMBER 15

This is strong mountain land and has a lot of good creek bottoms; about 1,200 acres to be wooded and has a lot of good timber. Most of the land is underlaid with 1 and 2 veins of good coal. This land will be subdivided into two tracts, leaving the best timber and coal land in large tracts. Half of the oil and gas rights are reserved. IMPROVEMENTS consist of a 6-room house and outbuildings which is the old home place and has several tenant houses. Has several fruit trees and land is well watered.

TUESDAY, SEPT. 16 (STANDARD TIME) RAIN OR SHINE

WE WILL SELL 990 ACRES OF LAND OF THE SAME ESTATE LOCATED IN WOLFE COUNTY ON THE HEAD OF RED RIVER. 12 MILES EAST OF HAZEL GREEN, KY. And Four Miles from Lee City on Hard-Surfaced Road

\$50.00 CASH WILL BE GIVEN AWAY AT THE ABOVE SALES FREE

Remember, both of the above tracts will be sold, regardless of price in order to settle the estate. The 1,700-acre tract will be sold on easy terms, Sept. 15, and the 990-acre tract will be sold for cash on Sept. 16, and each tract will be sold on the property, so don't forget dates. There will be someone on each tract who will be glad to show you the land at any time. For further information see or write SAM D. CECIL, Hazel Green, Ky., or RAY BOWLAND, Auctioneer, Winchester, Ky. DEFENSE BOND Quiz

Q. I would like to provide a regular income for myself when I retire. Can this be done by buying Defense Savings Bonds?
A. Yes. If you purchase a Bond for \$37.50 each month, each Bond will mature in exactly ten years. Thus at the end of ten years you will have \$500 payable each month as each of your Bonds reaches maturity.
Q. But I will need more than \$50 a month.
A. Then you should invest a larger amount each month. Every \$75 you put into Defense Bonds will pay you \$100 ten years from now. Meanwhile, your money serves your Government during this period of national emergency.
NOTE: To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C.

Funny how everybody still calls it the "Light" bill

"WELL, mom, here's the light bill for last month. Funny, isn't it, how we still call it the light bill! I can remember when it really cost the light bill."

"Yes, I can remember when we were mighty proud to have just electric lights . . . and in those days we paid about as much every month as we do now, and all we got was light. Sometimes we weren't even too sure of that."

"But now it's different. For about the same amount of money we spent 10 to 15 years ago for lights alone, we now light the house a lot better and also wash and iron the clothes, vacuum the rug, toast the bread, run the radio, and shave my face. That's what I call getting a lot more for your money."

Yes, most folks still call it the "light" bill. Maybe a better name for it would be the "living" bill, because modern electric service has helped make living a lot more pleasant. It has taken away a lot of drudgery and added a lot of enjoyment. And it has been doing these things for less and less money. This has been possible because better now have been running the electric companies in the American way of business operation. So long as this enterprise has the common you can look for progress and improvement in the customer's direction.

This company and the other electric companies under business management have one constant aim—to keep on giving you better and better service at less and less cost.
