

# "The Morehead Independent"

"ONE OF KENTUCKY'S GREATER WEEKLIES"

VOLUME VIII

MOREHEAD, KENTUCKY, THURSDAY MORNING, NOV. 6, 1941

NUMBER FORTY-FIVE

Well, some of you boys can get ready to start up Salt Creek now. Alf Caskey's truck will leave from the Court House sometime Friday. In case some of you have never been up there before, I will give you a little advice as to how to act and what to eat. That is a very barren country up there and the further up you go the worse it looks. It has been sowed in nice brown broomrape and calamus. There is also plenty of wild onion. You will meet some nice people on your journey and they will all say they voted for Alf and they can't understand how you lost. None of them will tell you a lie, in fact they are as far as truthful as the leaders in Rowan county. You can't trust them as far as you can throw two bulls by the tail. They just slipped for you losers. I never thought that I would go up Salt Creek but I did. Why everyone in six counties assured me over their hand over their hearts that they would vote for me and to this day I can't understand it. I never assessed anyone by being lost. Every year they have what they call the truth. Take it on the chin boys, the world loves a good loser and all you boys had better be loved. You know I have heard remarks about the inefficiency of the RED CROSS. I have been preaching the flood and spent in this county approximately five thousand dollars. Gave a lot of people a new start, a new lease on life. Every year they have what they call a term as Roll Call. This year I am informed by Mr. W. H. Rice that it will be the 11th of this month which is the annual Roll Call. We No. 1. They are asking this county for \$750.00 and I think that that should be good enough sports to try and help out. If any of you folks who read this column can't get into headquarters put a dollar into the Red Cross and mail it to J. O. Everhart, Roll Call Chairman, American Red Cross Morehead, Kentucky. That dollar might go to help that boy who is now in the army. LET'S GIVE TILL IT HURTS. If you don't have a dollar swipe one of your neighbors chickens or pigs and bring it in. We will sell it to someone. Just had a late flash on preached 19 in the Red Cross race: Claude Clayton, 4; Willie Harmon, 6. That is going to be close. Adams, 25; Oscar McGlothlin, 27. So long, Oscar.

## White Elephant Sale Nets \$153.29

Morehead, Adams-Davis Win First Prizes For Most Donations

A total of \$153.29 was realized from the White Elephant Sale held last Saturday in the Public School Gymnasium. This money will be spent immediately for materials for the schools of Rowan County. This is the biggest sale ever held. Farm products were the main items. Household articles, clothing and etc., were donated by the citizens and merchants of Morehead.

Prizes amounting to \$12.00 were given the following schools for the largest per capita donations: Concord, \$3.00, 1.57 articles per child; 2nd prize, Farmers, \$2.00, 12 articles per child; 3rd prize, Parkville, \$1.00, 16 articles per child. Rural schools: 1st prize, Adams-Davis, \$3.00, 5 articles per child; 2nd prize, Haldean, \$2.00, 3.25 articles per child, and third prize, Charity, \$1.00, 25 articles per child. This sale would not have been possible without the cooperation of the Board of Education. The A.A.U.W. and P.T.A. Council would like to take this opportunity to thank the following groups: The Rowan County Women's Club, The Morehead Women's Club, The Students and Faculty of Morehead State Teachers College, The Students of the Consolidated High School and the Breckinridge Training School, the Hartley Baptist Church, the A. B. McKinney Store, the J. W. Hogge Store, the Teachers, Parents and Pupils of the Rowan County Baptist Church, and the Ladies of the Red Cross.

## Roth String Group To Appear Here

The Roth String Quartette, one of the greatest string ensembles on today's concert stage, will give the first lyceum program of the semester Monday night, November 10, in the college auditorium.

The group consists of highly recommended as among the world's greatest musical performances, and their program is considered one of the best ever scheduled on Morehead college lyceum.

The program will include modern numbers, as well as standard string classics by the old masters. Students will be admitted on activity tickets, and townspeople will be charged twenty-five cents admission. The program is scheduled for 7:30 p. m., November 10.

## Local Red Cross Lists Activities For Year Of 1941

Clothing, Medicine, Hospital Supplies, Food Given To Many Unfortunates. With the approach of the annual Roll Call which Mayor Allen has set for November 11 to November 30, in conjunction with nearly all other communities throughout the nation, local workers in the Red Cross have prepared a partial list of their accomplishments in 1941. Added to the work of helping those locally unfortunate, has been the burden of sewing and making for victims of disaster in foreign lands. The ladies of Rowan County have produced an amazing quantity of materials for the Red Cross.

# Parker, Hogge, Alfrey, Caudill Sure Winners As Tabulation Continues; Co. Sheriff's Race Is Closest Contest

## Army Air Corps Examiners To Be Here, Nov. 6, 7, 8th

Will Establish Headquarters in College Administration Building

Young men of northeastern Kentucky who aspire to become pilots of Uncle Sam's warplanes will have the opportunity to do so on Monday through Wednesday, November 6, 7, and 8, instative.

Eligible for training as officer pilots of the Army Air Corps are summarized by age, education, twenty and twenty-seven years of age. Liberalized educational requirements put into effect by the Air Corps have placed the opportunity to qualify for Aviation Cadet appointments well within reach of high school seniors. Training is to be conducted at the Army Air Corps, Daniel S. Earhart, Air Corps, public officer of the board.

ELIJAH MONROE HOGGE - Leads by 700

## Amendment Number One Majority Will Reach 3000 In Favor Of Measure

A grand total of 4476 ballots were cast in Tuesday's General Election, the largest vote ever cast in the history of Rowan County, in any election. Due to the many cross-ballots, the counting became a major problem, and has delayed tabulation, however, in next week's independent we will carry a complete tabulated vote of each race.

At press time, there had been fifteen precincts counted. It is expected that all votes will be counted by midnight tonight (Thursday).

It is predicted that the city race will be a split ticket, with three members of each ticket being elected to City Council. The Mayor's race is extremely close and will be determined definitely only after Precinct No. 15 has been counted. The battle for Morehead City Police Judge is also close, with incumbent Judge R. Lee Stewart and Roy "Pappy" Holbrook running neck-and-neck.

## Everhart Outlines Distribution Of Red Cross Funds

Explains That Only 50c For Each Contribution Is For National Work

The major portion of the Red Cross Contributions are to be for local work.

Roll Call, scheduled for November 11 to November 30.

Dr. Everhart and the other members of the committee are frequently asked, "what portion of my contribution is retained here in the local chapter for local welfare work?"

The table follows: Individual Kept for Local Work \$1.50, National Work \$0.50, County Work \$0.50, State Work \$0.50, Federal Work \$0.50.

Most people are willing to give freely if they can be assured that their contribution will be put faithfully in assisting their unfortunate friends and neighbors.

## Breck To Sponsor Clark Memorial Dance, Nov. 15th

Proceeds Will Help Erect A Monument To Ky's Pioneer Hero, Geo. Rogers Clark

In response to the state-wide plea for funds to construct a monument to George Rogers Clark, Breckinridge training school is to give a dance on Saturday, November 15th.

With the graduation of another class of Aviation Cadets from Randolph Field, Texas, on October 30th.

VERNON ALFREY - Leads by 850

## MC Eagles Troupe Concord College, 12-6 Here November 1

Workman, Salvatto Score For Morehead; Smith Tallies For Visitors

The Eagles of Morehead State Teachers College flogged out a 12-6 victory over Concord College of Athens, West Virginia, here Saturday afternoon, in one of the toughest contests played on the meadow ground this season.

## White Pilgrim At EKEA In Ashland

To Be Sung By Seventh Annual Eastern Kentucky High School Chorus

The SEVENTH ANNUAL EASTERN KENTUCKY HIGH SCHOOL CHORUS, meeting in Morehead, Kentucky, November 1, in connection with the Eastern Kentucky Education association's annual meeting, will, by invitation of Morehead State Teachers College, perform the White Pilgrim at EKEA in Ashland.

The White Pilgrim, a work written by the late Dr. W. H. Harrison, is a collection of songs, hymns, and tunes to Lewis H. Horton, head of the department of music at Morehead State Teachers College. Mr. Horton then arranged the melodies for mixed chorus, mixed quartet, vocal soloists and organ orchestra.

The White Pilgrim, a work written by the late Dr. W. H. Harrison, is a collection of songs, hymns, and tunes to Lewis H. Horton, head of the department of music at Morehead State Teachers College. Mr. Horton then arranged the melodies for mixed chorus, mixed quartet, vocal soloists and organ orchestra.

## Dr. Hoke Invents Grading Machine

Practical, Educational Device Constructed Along Lines Of Pinball Apparatus

Modern educators have taken long strides to entertain us while we learn. Morehead is keeping pace with the modern trends. The chief advantage is the answer by putting the plug, which holds in his hand into a hole. If his answer is right a light comes on. A scoring clock is attached to the machine and each correct answer is recorded. If the student chooses the wrong answer he receives an electric shock which is regulated by Dr. Hoke.

Dr. Hoke wrote his doctor's dissertation on the electrical shock as a punishment for failure; the machine is a result of his interest in this field.

There are many advantages, aside from this novelty, in the machine. The chief advantage is that it immediately removes the wrong judgment of the student in a true-false test. The negative suggestion has long been a disadvantage in this type of testing. The machine is also equipped for multiple choice and matching questions.

Dr. Hoke wrote his doctor's dissertation on the electrical shock as a punishment for failure; the machine is a result of his interest in this field.

THIS WEEK IN DEFENSE

**OPM Materials Director** Batt said in a radio speech from Washington he had returned from the aid conference in Moscow with the thought that the "sensible, sane and selfish" course for the United States "is to deliver the goods—everything we possibly can—into the hands of people who can use them against the enemy while he is still thousands of miles from our shores."

The Maritime Commission delivery of the first of sixty emergency cargo boats being built for the British. The President signed the \$500,000,000 second lend-lease appropriation and created in the Office for Emergency Management a Lead-Lease Administration with Edward R. Stearns, Jr., as Administrator.

The Export-Import Bank authorized a \$5,000,000 credit to the Banco Obrero, Venezuela, and announced special credit arrangements with banks in Latin America will be made to facilitate trade among the nations of the Western Hemisphere to enable the American Republics to procure essential requirements for development of their resources and stabilization of their economies.

The labor department reported its daily price index of twenty-eight basic commodities rose 1.3 percent during the week of October 17 to 24, bringing prices in the index to more than thirty-four percent higher than a year ago.

Price Administrator Henderson announced a comprehensive program to stabilize prices of all products made of copper, brass, or their alloys. He also issued a price schedule on glycerine and bed sheets. Sheet prices will be approximately fifteen percent below current market levels, Mr. Henderson said.

Archibald MacLachlan, Librarian of Congress, was appointed by the President to direct a new Office of Facts and Figures to "formulate programs designed to facilitate widespread and accurate understanding of the status and progress of the national defense effort."

The War Office will advise Government agencies how they can best present information and data on national defense to keep the public fully informed.

Secretary of Labor Perkins reported average hourly earnings of factory wage earners were 74.5 cents during August. Federal Security Administrator McNutt announced 345,000 jobs were filled through the State employment service during September—fifty-five percent more than last year. Wage-Hour Administrator Fleming said he favored a program of wage stabilization, which would not freeze wages at present levels, but would first adjust existing differences between one plant and another doing the same work and make provisions for adjustments to increases in the cost of living.

The President directed Secretary of War Stimson to take possession of and operate the Bendig, N. J., plant of Air Associates, after a dispute developed at the plant over the reinstatement of strikers on the recommendation of the Defense Mediation Board. Colonel Roy M. Jones, in charge of 2,100 soldiers who took over the plant, said, "Employees desiring to return to their jobs will be given all necessary protection."

The Defense Mediation Board began hearings on the labor dispute involving captive coal mines in the Appalachian area after the United Mine Workers voted to accept the President's request to return to work in the interest of defense pending settlement of the dispute. The United States Conciliation Service reported settlement of thirty other labor disputes.

Defense Housing Coordinator Palmer reported 1,235 publicly-financed defense homes were completed during the week ended October 25, bringing the total ready for occupancy to 46,572. Homes being built or already completed under the defense program now number 101,785.

Lieutenant Commander C. R. Wells, chief dental officer of the Selective Service System, said in a speech in Tegas that the program to rehabilitate selective service registrants with physical defects that can be remedied will be treated by dentists in their own communities at the expense of the Federal Government.

The Office of Education announced in cooperation with the Office of Civilian Defense it will develop a School and College Civilian Morale Service through which "hundreds of thousands of teachers, educational leaders and citizen volunteers" can participate in the defense program by organizing "Freedom's Forums" in schools, colleges, clubs, churches, and libraries to discuss national problems "with respect to facts and without hysteria."

Priorities Director Nelson ordered a thirty-five percent reduction in the use of steel by non-mechanical ice refrigerator manufacturers and a seventeen percent cut in production of domestic washers and irons. Mr. Nelson said that in one year 32,000 tons of steel would be saved by the latter cut.

Secretary of War Stimson announced that specially selected Signal Corps reserve officers are in Bagdad studying air-raid defense prior to assignment with the United States Army Aircraft Warning Service. Mr. Stimson also announced the first installation of the 87th Infantry Mountain Regiment—first regiment designated for mountain warfare—will be organized at Ft. Lewis, Washington, this month. The regiment will be made up of men specially skilled in mountain climbing and sky and snowshoe travel.

The Maritime Commission launched two more ships. The

Navy announced the 368 craft in its small-boat building program are being built by seventy-six firms throughout the country to spread the work as far as possible.

Priorities Director Nelson inaugurated a power conservation program calling for curtailment of the use of power by non-defense industry in Alabama, Florida, Georgia, North Carolina, South Carolina and Tennessee unless heavy rains and the power shortage in these States before November 10. Program would prohibit use of power for advertising signs, shop windows, and night athletic events.

and are held in halls hired for the occasions. Often, however, boat parties are held for the benefit of orphans and under-privileged children, and frequently smokers and entertainment are held on shipboard.

How can one officer be distinguished from another in the United States Navy? Any United States Naval officer can be recognized by the decorations on his arm if he wears "ribbons" or by his shoulder decorations if he is in "white." The "strut" wears a half-inch stripe or bar of gold lace. The junior-grade lieutenant wears the same with a quarter-inch stripe above it. Two half-inch stripes or bars mark the Lieutenant and the same decoration is found on the sleeve or shoulder of the lieutenant-commander with an additional quarter-inch stripe between the other two. Commanders wear three half-inch stripes or bars and captains wear four.

Is there any particular age at which a sailor in the United States Navy is required to retire? No. A sailor in Uncle Sam's Navy can continue to reenlist as long as he can pass the physical examination.

For the third time since the turn of the century the American people are restoring the fighting brig, the United States Navy's "Niagara," from whose deck Commodore Oliver Hazard Perry, in the War of 1812, won the battle of Lake Erie and witnessed the only surrender of an entire British fleet the world has ever known.

BOOK NOTES

By SEYMOUR M. CAHILL  
Assistant Librarian  
Morehead State Teachers College

**Books On Education Recently Acquired by Our College Library**  
Some of the books in the field of Education recently acquired by our college library will be the subject of our discussion today. They are as follows: "Education" by I. Lodge, Rupert C. (Philosophy of Education), Harper and Brothers Publishing Company, \$2.50.

This book is unique in both purpose and achievement. It presents for beginning students in this field a detailed account of the major educational philosophies in an objective and impartial manner. (Philosophy of Education) is unusually interesting and stimulating contribution to the educational field.

2. Astelle, George E., and Wattenberg, William W., editors. (Teachers For Democracy). Appleton-Century Publishing Company, \$2.50.

This is the first book to deal specifically and constructively with the problem of educating teachers to serve effectively in a democracy confronted by the radically changing conditions of the modern world. This is a stimulating thought-provoking book, which reflects the considered judgment of a group of practical

(Continued on Page Three)

THINK ON THESE THINGS

BY REV. B. H. KAZEE

Christ had a religion which appealed to the masses. The common people heard Him gladly. It was always the humble folk who found sympathy in His heart, and they who had little security in the world sought Him.

In the light of this great fact, I have tried to find out why religion today does not make a similar appeal. Why are our churches not as filled with this kind of people instead of the few "socially nice" people who come to the services? I am sure that there are few who would not want them to come. Most people are willing in their own hearts for them to come. But the masses do not feel welcome, in spite of our open invitation.

I would lay the first blame on the preacher, and include myself in the lot. It is true that, in spite of our warm-heartedness toward the common lot of humanity, we shape our preaching to appeal to the few. I noticed it during our present revival meeting. When I come to present the claims of Christ in simpler style, and let the heart speak more freely to the heart of the listener, there began to gather into our services the people who had not seen there before. They were understanding what was being said, and were moved by it. This should be the normal way of preaching—preaching to men's hearts.

Then, I would lay part of the blame on the folk. We want our services to be "nice" at any cost. No matter if it freezes folk to death, it must be "nice." It must

NAVY INTELLIGENCE

Why are new recruits in the U. S. Navy called "boots"? All new recruits must wear regulation blue leggings during their training period. These mark them as new men. They must wear these "boots" during the entire period of their apprenticeship. Mistakes made early in a new recruit's period of training are sometimes excused because of this distinguished mark.

A sports competition held while a U. S. Naval Ship is off land? Yes, some form of intramural competition is always in progress. Boxing, wrestling, basketball mark among the shipboard competitive sports.

What is the most thrilling job in the United States Navy? Men who join the United States Navy for excitement generally select duty on destroyers.

Do battleships in the United States Navy have Chaplains? Yes, the Chaplain is the chief morale officer and official spokesman for the ship. He is in charge of the ship's weekly paper, the ship's library (every ship has a large, fully-equipped library), and practically all entertainment.

How many books does the average United States battleship library contain? About 3500 volumes, generally, and the supply is continually replenished. Every quarter the Bureau of Navigation sends the ship about forty new volumes.

Have sailors in Uncle Sam's Navy many social activities? Yes, but most of their group entertainment takes place on shore. This consists of dance parties, which are run by the men themselves

Absolute Auction  
LOG CABIN TOURIST CAMP AND  
PERSONAL PROPERTY IN BATH  
COUNTY

In order to settle the estate of the late Harry Andrews we are authorized to sell at a public auction located six miles east of Owingsville, Kentucky, on State Highway No. 60 on

**SAILORS LEARN METALWORKING**

Enlisted men in the U. S. Navy and Naval Reserve have the opportunity to learn more than fifty different trades and vocations. This schooling, worth hundreds of dollars, is free, and the sailors are paid their regular Navy pay while learning.

Red Navy instructor, Communist divided at the metalworker's school are blacksmithing, oxy-acetylene welding, arc welding and cutting, carpentering, sheetmetalworking, general metalworking and boilermaking.

**Book Notes—**

**Book of Business Security**—  
 Edited by **Our College Library**. This book was written to discuss some of the important books in the field of insurance. That have come out recently. These books were recently been added to the collection of books that our college library has. They are as follows:

1. **Giles, Ray.** (Your Money And Your Life Insurance.) Harper and Brothers Publishing Company, \$1.90.  
 How to find the life insurance best suited to your purpose, how to use the insurance as a safe and profitable investment program, and how to obtain new types of insurance to serve new needs are explained in this volume. It is a remarkably clear and simple exposition of life insurance for the average man and woman. It is not propaganda for some insurance company.  
 2. **Olyvia, S. C.** (Your Insurance.) Robert Rand Harrod Publishing Company, \$3.00.  
 (Your Insurance) gives the reader a correct perspective on the business of insurance protection, sound guidance in insurance purchasing and exploration and analysis of policies in principal lines of insurance, and a survey as to the effects of recent economic disturbance on the business of insurance.  
 3. **Harwood, E. C.** and **Francis, Blun.** (Life Insurance From the Buyers Point of View.) Blue Ribbon Books, Inc., \$2.50.  
 The book is an unbiased, fact-based survey which will save you money whether you own or plan to buy insurance. It contains the only adequate comparison chart available to the public.  
 The author would appreciate any comments the readers of this journal might have to make. Just address all communications to 508 College Boulevard, Morehead, Kentucky.

**Book of Business Security**—  
 (Continued From Page 2.)

educators of wide experience, who are recognized authorities on the various topics with which it deals.  
 2. **Rugg, Harold, editor.** (Democracy And the Curriculum.) Appleton-Century Publishing Company, \$2.75.  
 Not since the appearance of

 3. **Harwood, E. C.** and **Francis, Blun.** (Life Insurance From the Buyers Point of View.) Blue Ribbon Books, Inc., \$2.50.  
 The book is an unbiased, fact-based survey which will save you money whether you own or plan to buy insurance. It contains the only adequate comparison chart available to the public.  
 The author would appreciate any comments the readers of this journal might have to make. Just address all communications to 508 College Boulevard, Morehead, Kentucky.

**Dr. Hoke Invents—**

(Continued from Page 1.)  
 The machine now in use is Dr. Hoke's second model. Over a hundred of these machines have been made inexpensively and are thoroughly practical. With four machines Dr. Hoke can test thirty-two students in fifty minutes.  
 Dr. Hoke hopes to be able to install Test-Teach-Drill machines in various schools. The tests on these machines would involve vocabulary, information about the college, or other subjects of general interest.

**Horton Presents—**

(Continued from Page 1.)  
 The Reverend Mr. Kean is well-known for his literary and musical abilities, for he has written plays, poems and articles of various kinds, and is in great demand as an entertainer who used the medium of Kentucky folk-music.  
 Professor Horton has had over a hundred of his compositions published, his most recent work being a book of high school chorus material called, "A CAPPELLA FRONTIERS."  
 Morehead State Teachers college will supply the string ensemble to accompany THE WHITE PILGRIM, while the following vocal soloists will be heard:  
 Soprano, Betty Ann Sheets, Ashland high school, Alto, Betty Banks, Breckinridge Training school, tenor, Horace Owens, Morehead State Teachers college, baritone, William Black, Morehead State Teachers college. The high schools participating

 years of college training are automatically exempt from any educational tests, but those with some college training, less than three years may also be exempted in whole or in part by the examining board, depending on courses of study which they have pursued. Other applicants are required to take examinations in certain subjects.

**Breck Sponsors—**

(Continued from Page 1.)  
 An elaborate floor show is being planned now for the entertainment of those attending Jean Young and Ella Florence Alfrey, two talented Breckinridge tap dancers are to be featured. An accompanist with the band will be Eula Rigaby, another Breckinridge student.  
 This is the first dance to be given in the Morehead area by the George Rogers Clark Memorial Fund. The plan of schools presenting benefits affairs to raise funds was made by the state headquarters at Louisville. Since Hamilton Tapp told the student body about it last month two events have been planned by Breckinridge and are presented. It is only natural however, that the school should do its utmost for this cause as President Vaugter is the chairman of the committee covering this part of eastern Kentucky. It is hoped that a large group will be in attendance so that a sizeable sum of money may be raised for this worthy cause. All net profits realized from the dance, will of course go directly to the committee that is planning the projected memorial.

 Simons, Davison, Michigan, 31-22.  
 Members of the tenth class to receive their basic training at the "West Point of the Air" during 1941, these pilots—came from all walks of life. Some were clerks and salesmen, others, football heroes and engineers, but all are now vital cogs in the United States' fast-growing air arm.  
 Reporting to Randolph Field just ten weeks ago after completing primary training at an elementary school, these men had mastered the fundamentals of pilotage in rugged low-powered training planes. Sixty-five hours aloft were logged in this type of craft. Now they have added an additional seventy hours in Randolph's speedy 450-horsepowered monoplane. This secondary phase of the air corps thirty-week course has included night flying, aerial acrobatics, cross-country, instrument and formation flying. Ground

**Civilian Defense Week Will Be Observed Here**

The President has proclaimed November 11-16 as Civilian Defense Week. Its purpose will be three-fold:  
 1. To stimulate the people to an awareness of the need for civilian defense and the many specific ways in which people can participate.  
 2. To inform the people as to how local civilian defense groups are being organized and how a civilian can enroll and serve.  
 3. To stimulate the establish-

ment of Volunteer Offices so that active civilian protection and community service programs can proceed promptly.  
 The theme of the week: The only effective answer to total war is total defense.  
 General plans for the week have been formulated by the Washington Office of Civilian Defense and cooperating governmental and private groups. The responsibility for carrying out and adapting national plans will fall to the regional directors of the OCD and their staffs and the State Defense Councils but the real opportunity rests with local Defense Councils to carry to all the people of the United States the story of what civilian defense means and the various opportunities for service it offers to every man, woman, and child in the country. We in the national office are making and will continue to make every effort to assure the success of Civilian Defense Week but the real measure of success will be how well the defense councils tell the story in their own communities.

I, therefore, urge that every State and local Defense Council give this program its immediate attention and do whatever necessary to translate it into action without delay.  
 P. H. LeGUARDIA,  
 U. S. Director Civilian Defense.

**Now Ready To Serve You!**

This week we opened our doors to the public. No brass bands... no opening ceremonies... no amazing inducement offers... just quality merchandise, economical prices, and courteous service.

**TODAY HE IS ONLY A "GRUNT"**

GRUNT? That's a queer name for a workman, isn't it?  
 Not to an electric man. Grunt in his language means lineman's helper.  
 It's sort of symbolic that a grunt's job starts at the foot of the pole—the first rung up the "ladder" on which many men have climbed to success in this business. That's the way many of us who work for this company started in.

What does this mean to you?  
 It means that your electric service is in the hands of experienced people who know this business from the ground up—who understand your needs, and constantly work to keep the standard of service and lower the rates.  
 That their efforts bear fruit is shown in the fact that electric service today is better than it has ever been, and household rates are only about half what they were 10 to 15 years ago.

Today you get about twice as much electricity as you did 10 to 15 years ago for the same money
