courses have been added to meet new demands. Through the Commerce Department, a short secretarial course, which can be completed in one semester and two summer terms has been added. This course is being offered, on the college level, to meet the demand for trained office workers in the present emergency program. While remembering "Pearl Harbor" continue your college work until you are called into active service.

Dept. Of Industrial Relations Checking Accident Rate

The Department of Industrial Relations this week announced that Safety forms are being sent to employers all over the state and that the information derived from these will be used in measuring frequency and severity rates of accidents.

"The regulations give employers until April 1 to file this information with the Department," Commissioner William C. Burrow stated, but he urged they be returned as soon as possible in order to further the Safety program being carried on by the Department.

The survey is the first such checkup which the Kentucky Industrial Safety Board, in its regulations, ordered to be made annually. It requires information on lost time injuries. This will aid materially in the prevention of accidents. Burrow pointed out, as it will enable the Department to concentrate its Safety inspections where the rate is highest. Figures obtained from the Workmen's Compensation Board recently showed an increase of 10.1 percent in industrial accidents last year, as compared with 1940. This was blamed upon the increased

employment in industry brought about by the war.

President Roosevelt denounced as "stupid" and "unjust" the increasing discharges of loyal, efficient workers in American industries "simply because they were born abroad or because they have foreign-sounding names." He said such unfair discharges engender "the very distrusts and disunity on which our enemies are counting."

In the local church the dinner will be in charge of the Woman's Society, and the program will be in charge of the Masonary Society. The dinner will be "pot-luck."

The Woman's Council of The Christian Church
The Woman's Council of the Christian Church held its first meeting of the new year at the home of Mrs. Allie W. Young, Wednesday afternoon, January 15.

Obituary and Tribute

Mrs. Mary Elizabeth Wells Kealey was born April 21, 1866, at Newfoundland, Elliott County, Kentucky. Mrs. Kealey was united in marriage to Mr. J. J. Kealey deceased, in 1890 at Sandy Hook, Elliott County, Kentucky, and to this union eight children were born, namely, W. F. Kealey, Haldeman, J. H. Kealey, Soldier, Lucy Kealey, Haldeman, Mr. George Fetter, Mrs. Leo Harrison, Mrs. W. B. Worrell, Marion, Indiana, Mrs. E. E. Bower, Fort Wayne, Indiana, and one son, John Alvin Kealey, who preceded her in death.

Mrs. Kealey joined the Methodist Church in 1897 at Stark, Elliott County, Kentucky. She was a sincere Christian woman attending church as often as her health would permit and ever prayerful in her home.

We remember her many years in Haldeman as a life dedicated to the service of God, a patient and loving wife, a kind and devoted mother, and a true neighbor and friend.

Mrs. Kealey departed this life January 10, 1942, at 12:10 a. m., of complications. She leaves to mourn her death, seven children and twenty-one grandchildren. Also three brothers, Melvin Wells, Olive Hill, Kentucky; M. S. Wells, Laveate, West Virginia; and J. N. Wells, Kalamazoo, Michigan.

Inasmuch as it had pleased Almighty God in His infinite wisdom to call this dear mother, sister and friend from her earthly home to her heavenly home on high, the church has lost a true and faithful member, the community a just, useful and valuable citizen, the family a kind, dutiful and loving mother.

In bowing in humble submission to Him who doeth all things well we extend to the sorrowing family our deep and heartfelt sympathy with a fervent prayer that God's blessing will rest upon them and His grace will abide with them forever and may the great promise of our blessed Saviour, Jesus Christ, console their aching hearts.

"Let not your heart be troubled; ye believe in God, believe also in me. In my Father's house are many mansions; if it were not so, I would have told you. I go to prepare a place for you."

And if I go and prepare a place for you, I will come again and receive you unto myself, that where I am, there ye may be also."

It reported also the arrest of twenty former high Norwegian court officials and close friends of the refugee Norwegian royal "kidnapping" of eight Quislingists in command raids on the Norwegian coast.

SOUP'S ON!

UNCLE SAM'S paratroopers, going "downstairs" on business, carry three square meals in one small pocket of their uniforms.

It's very special food—powdered, concentrated—calories carefully counted—but complete from soup to coffee. It gives husky men the reserve power to keep going when other supplies are cut off.

Reserve power is as vital in industrial as in military emergencies. When defense plants began to eat up more and more electric power, reserve rations were ready.

Reserves built up in advance by the business men who manage America's power companies.

Reserves that met almost every defense demand overnight.

But no power reserves could continue to satisfy hungry machines indefinitely. So the electric companies have been working fast to keep ahead. They put over 2 1/2 million more horsepower into production during 1941.

Here is a basic defense industry, able and willing to do its part—glad to pledge all-out co-operation with government and industry—until the skies and seas around America are free forever.
