

### Education Board Race Getting Hot

#### Six Candidates Making Final Drive To Win In Three Districts Here

With six members, two in each of three divisions announced for membership on the Rowan County Board of Education, and with each candidate making an active campaign, it begins to look as if the county board race will become the most hotly contested race in several elections.

Ray White, Clyde White and Fred Carter are making the race with the blessing of the present school administration. They stated in their announcement that they were in favor of the present administration and the continuance of the present regime.

On the other hand Truby Gray in Morehead 7, Morehead 19 and Dry Creek 14 is running on a platform which has as its principal plank the erection of a new school house at Clearfield. This Hall is out to work against the present administration, and in favor of dividing the power. Dillard Johnson is taking the same position, with an added plank advocating a four year high school at Farmers and an equal opportunity for the children of all sections of the county.

All three are united in declaring that if they are elected they are asked to devote to political campaigns in the county will not be in the attempt to elect board members favorable to any candidate. Nor will they, they say be asked to work in county board elections in order to retain their positions. They state that they are opposed to too many jobs being concentrated in one family. They intend to make every effort to see that the teachers are elected on their merits, without having to make or fulfill election promises.

All three are for the maintenance of the present schools, and of erecting other schools in neighborhoods where it will be easy (Continued On Page Eight)

#### Women Invited To Canning Demonstration

A demonstration in canning meats has been arranged for County Agent, Chas. L. Goff, to be held Thursday, November 14. Miss Clelland, of the Ball Canning Company, will conduct the demonstration. This will be held at Morehead, the exact time and place being announced within the next few days.

### Demonstration Of Tobacco Growing

#### Six Grading Demonstrations To Be Held In County During Week

Arrangements have been completed for holding six tobacco grading demonstrations on November 6th, 7th, and 8th. The demonstrations have been scheduled at the following places:

Johnnie Adkins, North Fork, Wednesday, Nov. 6th, at 9:30 a. m.

Hiram Eldridge, Sharkey, Wednesday, Nov. 7th, at 8:30 p. m.

C. B. Turner, Elliottsville, Thursday, Nov. 7th, at 9:30 a. m.

D. L. Jennings, Dry Creek, Thursday, Nov. 7th, at 1:30 p. m.

Jake Plank, Jr., Triplett, Friday, Nov. 8th, at 9:30 a. m.

Leslie Atchinson, Moore's Ferry, Friday, Nov. 8th, at 1:30 p. m.

County Agent Goff, will be assisted by S. B. Golden, an expert tobacco man, employed regularly by the United States Department of Agriculture, as a tobacco grader.

All farmers are welcome to these demonstrations, and tobacco growers are especially urged to attend.

A small amount of tobacco will be graded at the farms where the demonstrations are held, and other farmers may bring samples of their tobacco for suggestions on grading.

### Boys In Service To Reduce Draftees

If the number of boys and young men who have already enlisted in the Army or Navy is considered, there is little likelihood that many boys will be taken from Rowan county in the first draft.

We are judging only from the number of names that have been brought in to the Rowan County News office since we made the announcement that we would send the Rowan County News to the boys who are in the service.

Last week we carried the names of several boys from Rowan County which had been brought to this office, with requests that the paper be sent to them. This week we have received an additional number of re-

#### Republicans To Hear Final Appeal From Former Candidate For Gov.

The Republicans in Rowan County will hold their first and only political rally at the Court House in Morehead on Friday night, November 1, according to an announcement by the Republican county chairman, Joe McKinney. Judge Swope will speak at that time. Mr. McKinney is asked to devote to political campaigns in the county will not be in the attempt to elect board members favorable to any candidate. Nor will they, they say be asked to work in county board elections in order to retain their positions. They state that they are opposed to too many jobs being concentrated in one family. They intend to make every effort to see that the teachers are elected on their merits, without having to make or fulfill election promises.

### Chairman Of Kansas Seal Drive Named

#### Mrs. Bob Laughlin To Manage Drive To Raise T. B. Funds In County

Mrs. Bob Laughlin has accepted the post as chairman of the 1940 Christmas Seal Campaign, which was developed by Mrs. J. G. Black, president of Morehead Woman's Club. Mrs. Laughlin is choosing her committee members and plans for the entire drive will be completed shortly.

Campaign material has already arrived, Mrs. Laughlin said, and an early start on preparations for selling is assured.

The campaign opens on Nov. 25. Morehead, like all other communities, has its tuberculosis problem, and at least once a year should intensify its efforts to help solve the problem.

"Tuberculosis still leads causes of death in this county for persons between the ages of 15 and 45. This will be the thirty-fourth Christmas when voluntary workers have cooperated with state and local tuberculosis associations to raise funds to carry on the nation wide campaign against the disease.

"Christmas Seals have helped to wage a winning fight, but we must not become overconfident. As an enemy tuberculosis is far from being vanquished."

### Farmers Urged To Sign Applications For Payment Soon

#### Nov. 23 Set As Day On Which Marketing Quotas Will Be Determined

The office of the Rowan County Agricultural Conservation Association has the 1940 applications for payment ready for the signature of farm operators. Farmers are urged to sign these applications as soon as possible. The first applications will be forwarded to the State Office within the next few days. Any application not signed will be delayed for the second transmittal thus causing a delay in payment.

### Tobacco Growers To Hold Election

#### Lack Of Reserves, Loss Of Vanzell's Furnishes Differences In Game

Weakness in reserves and the loss of Henry Vanzell by the "kicked out of College" route, spelled defeat for the Morehead Eagles at Richmond Saturday at the hands and fists of the Eastern State Teachers College Farmers. The final score was 27 to 13.

That is not by way of alibi, but merely a plain statement of fact. The Maroons enjoyed their first victory over the Eagles in five years, since Ellis Johnson took over the coaching job at Morehead. Only one other time did the Maroons come close to a victory, when they tied the Eagles two years ago. And again for the first time since it became a thing to fight over, the Old Hawn Rifle became the prize possession of the Eastern Maroons.

#### Palmer Says Salesmanship Is Different

"Salesmanship today is far different than it was years ago," John M. Palmer, Sales Manager of the Lee Clay Products Company, Clearfield, declared in pre-facing an address before the Morehead Men's Club at its weekly meeting.

Mr. Palmer, speaking before one of the largest groups that has attended a meeting this year gave an insight into how the sales organization at the present time is different from the fact that it is being handled. "The sales force is really the backbone of the business, for the production of and the profits that any organization makes depends upon the volume of business that its salesman bring in," Mr. Palmer said.

"The best way to lose a good customer is to sell him something that he doesn't need, or to advise him to stock merchandise for which he will have little or no sale. It is our aim to always sell and try to help them make profits for unless they prosper neither do we."

"We consider our customers our friends. We try always to keep them well advised of our products and to help them in one thing alone has proved of immense assistance in keeping our old customers and gaining reliable new ones."

Mr. Palmer said that a prerequisite of any salesman is that he must know his merchandise—the same as a good school teacher must know the subject he is teaching. He pointed out that a salesman should study his prospect and cooperate with the users of the product that he sells. He said there is a difference, however, in a sewer pipe salesman and the high pressure salesman who goes from door to door selling vacuum sweepers, correspondence courses or some such commodity since in the business engaged in by the Clearfield Company business is done with the same firm or person, year and year out, and 128—Serl R. ### Dr. B. F. Miller To Attend Conference

Dr. Frank B. Miller, Professor of Education will attend the Educational Conference at the University of Kentucky on Friday and Saturday of this week, October 25th and 26th. He will also meet with the Executive Committee of the Kentucky Philosophical Society of Education Association on Friday to plan the program for the K. E. A. in April of 1940, meeting at Louisville.

### Eagles Drop First In Years To Maroons

#### Applications Ready In Office Of County Agricultural Agent Now

Rowan County tobacco farmers will vote on November 23rd on the Burley Tobacco Referendum to determine whether or not to continue the Burley tobacco marketing quotas.

Three questions will be asked tobacco growers in the referendum to be held in November after a national marketing quota is proclaimed by the secretary of Agriculture as required under provisions of the Agricultural Adjustment Act of 1938. C. B. Turner, chairman of the Rowan County Agricultural Conservation Association, said today. The proclamation of marketing quotas, required by law because of the large supply of burley to be marketed, will be followed by a referendum within 30 days, Mr. Turner said.

#### Joe B. Bates To Speak Here Saturday Night

Joe B. Bates is following an old established custom in closing the campaign at Morehead, as he has for a number of years been the habit to bring the Eighth District campaign to a close in this county.

Mr. Bates has developed a long record of the most forceful speakers on the platform, and every Democrat and Republican supporter of Mr. Bates is urged to attend his first and final meeting to be held in this county.

#### To Bring Campaign To Close With Address To Voters Of Rowan

Congressman Joe B. Bates will speak in Morehead Saturday night of this week at the court house in what is the final ringing down of the campaign curtain on the 1940 campaign. Mr. Bates is following an old established custom in closing the campaign at Morehead, as he has for a number of years been the habit to bring the Eighth District campaign to a close in this county.

Mr. Bates has developed a long record of the most forceful speakers on the platform, and every Democrat and Republican supporter of Mr. Bates is urged to attend his first and final meeting to be held in this county.

### Interesting Letter On Oldest Paper

Mr. E. Hogge is in receipt of a letter from her brother W. Allen of Washington, D. C., which is interesting in its bearing on the establishment of the first paper in Morehead, the forerunner of the Rowan County News. Mr. Allen was the first printer's devil from Morehead, and he states, his letter conveys no definite information, it is nonetheless interesting in the side lights it conveys of "Ye Olde Tyme Newspaper."

The letter follows: Washington, D. C. Oct. 15, 1940

Dear Maggie:

Your card received just as we were getting ready for our trip to the States, and I did not have time to furnish you with the information you wanted, and I think you have come to the wrong one for the information. I have racked my so-called brain and I can't seem to remember what George Nickell did call his paper. I seem to have lost all memory just when he started it or how he started it seems to me it was the Batmans brought to Morehead and started a paper upstairs over Bishop's Furniture Store, where we lived at one time. I think it was there that I got my baptism in the business of printing. I remember how all hands that were employed on the paper used to get dead drunk and lay on the floor and it is a wonder they didn't burn it all down with it in it. "Leader," Doc Wilson ran his famous "Blue Jacket" letters in our paper, which finally ran out of town and burned the Central Hotel.

### American Legion To Entertain At Dinner Friday

#### All Service Men Invited To Be Guests Of Legion At High School Gym

All service men are invited to attend the American Legion dinner to be held at the Morehead Public School gymnasium on Friday night of this week. The menu, which is considered a deep secret, but they assure you it will be good. The meeting will be one of the important ones of the year, and every service man, whether he is a member of the Legion or not is invited and urged to be present. Good eats, good company, few if any speeches and a good time, all free.

The ladies are also invited. They are to attend the meeting Friday night.

## BIBLE STUDY

By Rev. B. H. Kazee

Question—What is sinning against the Holy Ghost, and is there is no forgiveness for this sin?  
Answer—In the broad sense, sinning against the Holy Ghost, is an insult to God's Holy Spirit committed in open light and spiritual understanding. That is the one who commits it has been enlightened by God's Spirit. To see that the thing he is sinning against, is the revelation of God, and that his action is willful and deliberate, not in ignorance. It may be any insult against the Holy Spirit.

Now, in the 12th chapter of Matthew, verses 22-32, you will find an account of the action of some people who committed this sin. They had seen the work of our Lord and knew it to be the work of God in miracle. There was every reason for them to accept it as the work of God and believe it. But, in spirit of their light and understanding, and the plain works of God before their very eyes, they, in their stubbornness of the art rejected this work, and called it the work of the devil, sea, the chief of devils, Beelzebub, The Spirit of God in Christ Jesus was performing the work of God before their very eyes, and yet they would not believe. Had they been ignorant of the meaning or source of this work they would not have committed this sin in light, and it therefore would not have been unpardonable. God will not allow His Spirit to be openly insulted.

This insult to the Holy Ghost may be committed in various ways. In Hebrews the 6th chapter, verses 4 to 6, you will read another case of it. The writer of Hebrews is not speaking here of one who has been saved, but the average American citizen of one who has gone far enough with the Holy Ghost in conviction and enlightenment to see what the power of Heaven is, to know the blessing that can come from the word and the power of God. He does not say that this one has faith. He has gone all the way except to believe, and has been fully convicted and enlightened by God's power to the knowledge of God and sin. Then in the face of all this light, he

rejects God's gift. It is impossible to renew him unto repentance again.  
He has seen the prospect of God's goodness for him, and in full light rejects that goodness. He has made his decision against God under the Spirit's full enlightenment, had having decided, there is no appeal. It is he has merely postponed a decision, that would not have been fatal, but he decided, and the Spirit had done all He would to give him light.  
This is also set forth in Hebrews 10:26, 27. Willful sin in Spirit in that Spirit's light—this is the unpardonable sin. There is no forgiveness for this sin.

### Books On Current Affairs

Today we will discuss the recent books on Current Affairs. They are as follows:  
1. Appel, Benjamin—"THE PEOPLES TALK" Dutton Publishing Company, \$3.00.  
The inarticulate voices of America interpreted by an author who traveled everywhere by car, talking to people in all sorts of jobs—farmers, miners, lumbermen, junkmen, and repairers of fourth hand tires.  
2. Golomon, Joseph "WHAT'S DEMOCRACY TO YOU?" Macmillan Publishing Company, \$1.75.  
This well known writer, who was born in Russia, and who has observed the triumph of dictatorship in many countries during the last past years, brings home to the average American citizen the meaning of freedom in a democracy.  
3. Waipole Hugh ROMAN "FOUNTAINS" Doubleday, Doran Publishing Company, \$2.50.  
This delightful reading book is part autographed, past history, part reportage. It is written by a distinguished English author.  
4. Beard, Charles A. A FOREIGN POLICY FOR AMERICA. Knopf Publishing Company, 1.50.

The noted historian discusses the treatment of Roosevelt's view from a realistic point of view. He points out that it is not isolationism but Continentalism that is the main part of our foreign policy.  
5. Buell, Raymond "ISOLATED AMERICA." Knopf Publishing Company, \$3.00.  
Mr. Raymond Leslie Buell is the editor of FORTUNE MAGAZINE. He believes that a care meditation in the present war fully prepared and well-timed by the United States is necessary if American democracy is to be preserved.

## Social Security Board To Issue Wage Records

### Ashland Office To Furnish Free Of Charge Records Of Payments

The Social Security Board is now giving workers a statement of their wage records, on which future payments will be made under the old age and survivors insurance program.

These statements may be obtained without charge, except one cent for postage, through the Ashland Kentucky field office of the Social Security Board. The procedure to be followed was explained today by James A. Charley, manager of the Ashland office, who said:  
"We have post cards which any worker may use to obtain a statement of the wages which were credited to his social security account during the years 1937, 1938 and 1939. If any wages which the worker has earned in jobs covered by the Social Security Act do not appear on the statement, a study of the record will be made and steps taken to adjust it."  
"As all monthly payments under the amended Social Security Act are based on average wages it is important that all earnings of insured workers be credited to their accounts. That is why we suggest that these statements be obtained at this time. It takes only a few seconds to fill out the cards, which may be obtained by personal or telephone calls to our office in the Second National Bank Building on the corner of Third and Main streets, through mail requests," Mr. Charley said.

# A NEW SCHOOL

The election on Tuesday, November 5, will give the voters of this district the opportunity to decide for themselves whether they want this division to be recognized or not. I am making the race for the office of member of the Board of Education on one platform, the platform of justice to the children of Rowan County.

Clearfield needs and has needed a new and modern school house. The children of this community are just as good Americans, just as important to the future of this county as the children of any other section. Yet our children are compelled to attend school under a handicap, the handicap of a school house and equipment that is not fit for use for that purpose. If I am elected to the Board of Education I propose to work to the end that the children of this community shall have equal opportunities, and equally sanitary conditions with the other children of Rowan county.

I am opposed to further consolidation of schools, and further centralization of power. I am in favor of educating our children as close to their homes as possible

If I am elected I pledge myself to work for the interest of the entire school system of Rowan County.

## Truby Gregory

Candidate, member of Board of Education  
Division Number Four

## MY PLATFORM

In asking the people of Division Number Two to give me their votes for the office of member of the Board of Education, on Tuesday, November 5, I feel that they are entitled to know where I stand on certain vital interests.

1. I believe in restoring to the people of Rowan county the right to decide their own problems, through the election of sub-district trustees in the various districts of the county.
2. I am opposed to the centralization of power by which one man has the right to decide the policies of the school system of the county. I do not believe that any one man should be able to say to any teacher that she is hired or not hired.
3. I am opposed to one family rule. I do not believe that all the jobs of the county should be centered in one family or small group of families. I believe that these jobs should be divided. I understand that there are nine members of the family of the present county Superintendent holding jobs under him. I am strictly opposed to this, because I believe that there are other people equally capable who are entitled to consideration.
4. I am opposed to the extra tax assessment which raised the poll tax from \$1.50 to \$2.50. I believe this was unnecessary and placed an added burden on the tax payer of the county.
5. I favor a four year high school at Farmers, so that our children may be educated more closely to home.
6. I am opposed to the building up of power and a dictatorship in the schools of Rowan county, such as we have had for the past six years.

I urge all voters who are interested in this program to give me their votes on November 5.

I want to assure all teachers that if I am elected the vicious system of requiring them to donate to any campaign will be stopped. They will not be punished by the loss of their jobs, nor threatened with this loss. I favor the election of teachers solely on their merits and qualifications, and not on their political influence.

## Dillard Johnson

Candidate, member of Board of Education  
Division Number Two

# Joe B. Bates Business And Employment Election Is Both Show Business is On The Upgrade Important

## Congressman To Be Returned To Office By Overwhelming Majority

During the primary campaign the chief issue in the race of Joe B. Bates for renomination was based on his record of service, his close association with the national administration and the importance of his continued efforts in the legislative halls of the United States.

The same thing applies in this coming election on November 5. Mr. Bates is candidate for Congress on the Democratic ticket. He has served for over two years and his service has been such that every citizen of the Eighth Congressional District can endorse him. He is certain to receive a huge majority in his district, for he will pick up numerous Republican votes, votes of people who realize that he can best serve them both from his knowledge and from his record, and from the preferred position which he occupies as the result of that previous service.

Mr. Bates has been the congressman of every citizen in the Eighth District. He has served not only the people of his own party, but he has never failed to answer an appeal from any citizen, regardless of politics.

As a top ranking member of the Veteran's Committee, he has rendered valuable services to the World War veterans as well as to the veterans of other wars.

He has stood foremost with the president in his National Defense program and will continue to stand foremost for that program.

He has invariably cast his vote in favor of every piece of Labor Legislation that has come before Congress since he has been a member, and he will continue to do so.

He has voted for and assisted in the passage of legislation of interest to the farmer and he stands on that record of assistance as well.

He has stood for Old Age Pensions that will enable to aged people of the nation to live in security and comfort and he will continue to stand on that platform.

There is no doubt of his election. There can be no doubt.

But we urge the citizens of this district to pile up the majority for Mr. Bates and while they pile it up for the entire Democratic ticket. Remember that the President will be re-elected, and he must have congressman and Senators who will go along with him.

## Senator Chandler Must Be Returned To Washington

Equally important with the election of President Roosevelt on November 5, is the election of the United States Senator. This year Americans all have an opportunity to elect a man who has years of qualifications back of him to the office of United States Senator. They may choose between a man who has served as Governor of the State of Kentucky and who has served in the United States Senate for over a year, and a man who until he won the Republican nomination to the office, was scarcely heard of outside of his little mountain home county.

They have a choice between Senator A. B. Chandler whom every man woman and child in the state knows by his first name and a man named Smith, who like his name can hardly be identified.

Governor or Senator Chandler is qualified. He is qualified by experience both at home and in the larger field of national politics. He is familiar with the problems that face the people of this state and with the problems that face the people of the nation. He has been in the thick of the world developments and his support of the President has been unquestioned.

No one can deny that employment is on the upswing—no one but Wendell Willkie.

In the current "Business Week" the business spokesman writes: "Employment is rapidly moving toward the highest level in a decade, and may in the next few months pass the peak."

Wendell Willkie, however, still insists that 9,000,000 men are out of work.

After Willkie's Pittsburgh speech, Dan W. Tracy, Assistant Secretary of Labor and former president of the International Brotherhood of Electrical Workers, said:

"Mr. Willkie's unemployment figure is 2,000,000 higher than he can substantiate, even by the research organization he and other employers financed, the National Industrial Conference Board, which reported this week that unemployment is down to 7,697,000. This organization also noted that in March, 1933, when President Roosevelt took office, unemployment was 14,762,000. No one has ever accused the N. I. C. B. of juggling figures to favor the 'New Deal.'"

Generally business improvement continued last week. Dan and Bradstreet, Inc., announced that business failures dropped from the 279 figure of a year ago to 232 last week. Members of the farm Equipment Institute met in Chicago and revealed that a 20 or 25 percent gain in 1940 sales was certain. "Capacity operations" are the result of an increased farm income due to new Deal farm subsidies, although the farm institute did not mention that.

The New York Times released a steel industry statement that 100,000 men have gone back to work in two months. The same issue included a Federal Reserve Bank report showing that third quarter statements of member banks in New York included large increases in commercial loans indicating "a definite business improvement."

Ward's Automotive Reports announced "the best October production in the history of the automotive industry is assured" on the same day, October 8, General Motors Corporation reported September sales of cars and trucks reached 97,527 units, compared with the 56,789 figure in September of last year.

Harvey E. Runner in his New York Herald Tribune column "State of Business," concludes: "With business currently operating at the year's highest level and with no insurmountable deterrents in sight, expectations are that Christmas, 1940, will be the best holiday season the United States has enjoyed in a decade, if not all time."

Secretary of Commerce Jesse H. Jones announced "business generally entered the fall season with larger than seasonal gains in most lines of enterprise, following an unusually active summer. With employment and payrolls rising sharply, retail sales

have been stimulated."

A survey prepared by the Work Projects Administration and released by the Securities and Exchange Commission showed 10 companies operating variety stores did an \$894,000,000 volume of business in 1939—an increase of 48,000,000 over 1938. These included W. T. Grant Co., H. L. Green Co., S. S. Kresge Co., S. S. Kreska Co., McCrory Stores Co., G. C. Murphy Co., Neisner Brothers, Inc., J. J. Newberry Co., and F. W. Woolworth.

In all this there is mention of those mysterious words "business confidence"—in financial discussions, they are for-

gotten, although still appearing in pockets of the wage earner." In political addresses—"Business As Usualist" Dorothy Thompson declares: "Nothing is so vital to the economic port of President Roosevelt in health of the country as cash in this campaign."

# Thinking Americans Will Vote To Retain Roosevelt

As the fateful day of November 5, 1940 approaches, more and more the voters of America realize the importance of this election in its effect on their lives. It is true that there are two political schools of thought in this county, as there

should be. But this election goes far beyond the two parties in its effect on the American system on the American way of life, on the issues that effect that way of living.

Americans are thinking. They are deciding between two men, two

ways of thinking, two ideas.

On the one hand they have an opportunity to vote for a man who has been tried, for seven and one half years, and who, during the time has followed his true principles. They have a chance to vote for a man whom they know, whose every act has been to serve the people of the United States, to care for them and clothe them, to feed them, to build them. They may vote for this man who, through this experience has developed during the world's greatest figure, the man who exerts the greatest influence with foreign powers, a man whose sole and only aim is to build this country's defenses, so that we will be able to defy so that this is done. They are the other dictators of the new world, and may continue to live in peace with our neighbors, protected from their hates, and secure in ourselves.

Or you may vote for a man, who, be he ever so sincere in his intentions, and no one doubts that he is sincere, has bungled so pitifully in his statements, who has advanced no definite policy either domestic or foreign, who has endorsed, the policies of the present administration in one breath, and in almost the same breath condemned them; who has criticized, but who has offered no solution; who has "yes butted," until he has proved that his lack of experience in governmental affairs has totally disqualified him for the office he seeks.

America is at the cross roads. They may choose between a man of experience and a man totally lacking in experience, they may choose between a man whose heart is in his work and a man who is merely trying to be elected president; between a man who has taken this country where its functions were at the lowest ebb and raised them to their present position and a man who has said that the accomplishments of the administration were excellent, but that he could do them better.

America will choose on November 5. They will choose between Franklin D. Roosevelt, a man tried in the inferno of the past seven years, a man experienced, a man refined by his trials, and Wendell Wilkie, a man untried, inexperienced, a beginner in world affairs and world diplomacy, and man who has yet to build himself across the continent and back, and who has yet to offer some concrete plan that will solve the problems of the United States, other than to say that he will do what President Roosevelt has done, only more so.

There can be no answer to the problem, other than the return of the man who has served this country well for the past seven years, to the White House. Kentuckians will turn out to vote in ever increasing numbers to see that this is done. They are the people of this nation realize too well that this is no time to take a chance, no time to gamble with the safety and the security of the nation, while men like Hitler and other dictators are only awaiting an opportunity to grab and grab and grab.

## Roosevelt Defeat Is Hitler Win

"The Axis is out to defeat President."

So writes Herbert L. Matthews Detroit Home correspondent of The New York Times, in an article on the meeting of Hitler and H. Duce at Brenner Pass.

This information would scarcely be surprising even if it came from a source much less reliable. Ever since the fall of France there have been rumors that Hitler planned a move which he

hoped would be sufficiently electing to influence the voting in the United States.

It is no secret that Nazis in this country are all for Wilkie, even though he has sincerely repudiated them, their works and their help.

It is not Wilkie's fault that the real issue of this election transcends our own political lines of demarcation, our own lines of geography, and, instead, has become a contest between the two living symbols of the two forces grappling for control of the world:

Hitler, the living embodiment of totalitarianism, versus Roosevelt, the living embodiment of the democratic ideal.

That is why re-election of Roosevelt is so vital both to a free America and a civilized world.

That is why more and more Americans are realizing that defeat of Roosevelt would be the greatest of all Hitler victories.

Americans need be under no illusions on these points. The Axis Powers, as frank, even oblique in their maneuvers. As Matthews notes:

"The coming United States election is realized to be of vast importance to the Axis—because of the President's foreign policy and because of everything for which he stands in the eyes of Italians and Germans. Therefore the normal strategy of the Axis is to do something that would somehow have a great effect on the campaign."

What will it be? The most such interference in an American election, and do in behalf of Wilkie is to embarrass him as the choice of Hitler.

Ten years of Wilkie explanations could not wipe away the black blot of one Hitler kiss. Despite subsequent denial, Matthews' statement is confirmed by an editorial of Vignino Gayda, the Duce's spokesman, which makes the Axis position clear beyond question.

Mussolini is against Roosevelt. Hitler is against Roosevelt. They are against Roosevelt because they are against democracy.

Our President can be proud that twice men as big, enemies as it is unthinkable that they would be his friends.

Their open opposition, in this American election, would only demonstrate anew what this nation long since has sensed:

That not only American people but decent people throughout the world pin their hopes for freedom and civilization on Franklin Roosevelt's reelection.

## Axis Plans To Influence U. S. Voting

There was an anti Roosevelt rally at the Brenner Pass last week.

Adolf Hitler and Benito Mussolini, masters of war, decided that the defeat of Franklin D. Roosevelt in the American election was necessary to their plans.

That this was the definite decision of the dictators was revealed in a dispatch from Rome by Herbert L. Matthews, one of the most dependable foreign correspondents of the New York Times.

So important was this news, that the Times printed it on its front page. The Times has announced its support of Wendell Wilkie in this election.

Part of Axis Technique: Such threats are a part of the Axis technique. Nations that have permitted Nazi interference in their domestic affairs have found that they gave up their independence for nothing—that they were attacked in spite of their policy of appeasement, or rather because of it.

Strength and firmness alone can protect a nation against Axis aggression.

The effect on American opinion was immediate. Americans have studied the war in Europe closely enough to know that when Hitler and Mussolini intervene successfully in the internal affairs of a nation, their aggressive plans are halfway to completion. Giving in to the dictators is an invitation to war.

It is significant that the strict Italian censors passed Matthews' story. When, however, President Roosevelt, called attention to Matthews' article. Fascist authorities realized they had not judged American political sentiment and that their open intervention against Roosevelt would swing votes to him. Almost immediately Virginia Gayda, press spokesman for the Fascist Government, issued a statement denying that his Government cared whether Wilkie or Roosevelt won, and Matthews was expelled from Italy.

The Axis is out to defeat President Roosevelt," Matthews wrote, "because of the President's foreign policy and because of everything for which he stands in the eyes of the Axis."

"American reaction to the tripartite alliance during the past week has been studied very closely here, and it is possible that a trend has been noted that may have encouraged a new their satellites in Tokio at every move in the same direction."

Matthews' revelation of the dictators' strategy comes as no surprise to those who follow it.

Warned Against Churchill In early 1939 Hitler warned the British against including Winston Churchill in the Cabinet. In England at that time the appeasers were in power, and Churchill was kept out. He was not included in the Cabinet until after the war began in September, 1939, and he did not become Prime Minister until after the fall of Denmark and Norway.

In France, too, Hitler intervention is realized to be of vast importance to the Axis—because of the normal strategy of the Axis is to do something before November 5 that would somehow have a great effect on the election campaign.

ASK YOUR VOTES

To the Voters of Division No. Three:

I am asking my friends and the friends of the public schools of Rowan County for their votes on election day because:

- 1. I am opposed to the present administration of the schools.
- 2. I am opposed to dictatorship in the schools and we have a dictatorship at present.
- 3. I am in favor of returning the control of schools to the Board of Education who are elected directly by the people.
- 4. I am opposed to the increased poll tax forced on the taxpayers by the present administration.
- 5. I am opposed to one family holding nine or more jobs, while others equally deserving and well qualified go begging.
- 6. I favor the selection of teachers on their qualifications, and I assure the present teachers of the county that they will not be punished nor discriminated against if I am elected. I oppose the assessment of teachers for political purposes and the threatening of teachers with their jobs.

I wish to say those who have questioned my qualifications, that I am qualified both from education and experience. I have a vital interest in the welfare of the schools as I have eight children whom I am trying to educate.

Floyd Hall

Candidate, member of Board of Education Division Number Three

## Silhouette for 1941

Buick SPECIAL 6 passenger 4-door Sedan. \$1052 delivered at Flint, Mich. Wheel shields and white sidewall tires, extra.

AS surely as the new Buick FIREBALL\* straight-eight engine sets the performance pace for the coming season, the graceful silhouette of the new Buick SPECIAL and CENTURY cuts the automotive style pattern for another half decade.

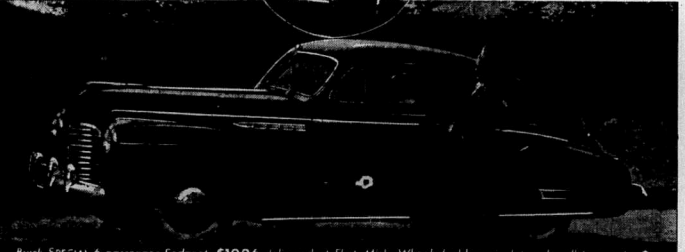

The reason is not alone the grace of its Buick-created lines, nor the appearance of solid substance in action that gives this honey the look of a speedster straining at its leash.

It is the practical quality of great room enclosed in sleek and flowing lines—more room for legs, for elbows, for heads, more room for entrance and more room for carrying luggage—that makes this the silhouette the cars of the future will seek to achieve.

Why wait for that—when in this Buick you travel in a car that, like time and tide, obviously isn't waiting for any man?

\*According to the Encyclopaedia Britannica, a super motor which travels with a series of explosions like the shock waves of a great projectile is called a "Fireball."

Buick SPECIAL 6 passenger Sedan. \$1000 delivered at Flint, Mich. Wheel shields and white sidewall tires, extra.

Buick prices begin at \$935 for the Business Coupe delivered at Flint, Mich.

\*Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

Buster Barr Writes To Editor

LETTER Camp Borden, Ont., Oct. 19, 1940 Mr. Jack Wilson, Rowan County News Morehead, Ky. Some one reported that I had gone to England to join my Regiment and that I am supposed to be the first Rowan County boy to get to England in this way.

Our draft was scheduled to leave for over seas about Sept. 18, but there were some submarine scares in the wind and the ship was supposed to go over to sea with a load of refugee children on board. The draft was postponed and it will probably be some time before the seas are safe enough for a troop ship. Canada has sent approximately forty thousand men overseas and has not lost a single man in transit.

There are twenty thousand men in Camp Borden and all of them are prepared for overseas duty. In our regiment, the Essex Scottish, over forty percent are Americans who enlisted because we wanted action and naturally we are all anxious to get started.

Most of our Regiment is all ready over seas and the hundred of us that are being retrained in England. Our draft is not cancelled, but here I am and the thing is well cross now.

Camp Borden has a Canadian football team (Rugby) and about half of the boys are from Big C (County from Flemingsburg, Ky.) a nephew of a Mr. Hacker, plays Center. Cy is an ex-newspaper reporter from Huntington and Cincinnati. Well so long, and tell Carmie Clayton and all the gang in Morehead that I beat them to the punch once any way.

Yours, Pie Franklin Blair, A22453 No. 6 Coy. Essex Scottish Regiment, No. 1 T. R. C. Canadian Active Service Force, Camp Borden, Ontario, Canada.

Roosevelt Saved The Banks Of The Nation

Roosevelt's first official act as President was to close the banks in order to preserve them from hysterical runs which threatened even the strongest institutions and in order to provide a period of examination and reorganization. The promptness and decisiveness with which this action was taken is generally conceded to have saved the banking structure. If not indeed to save the financial structure of the Nation. But this emergency action was not sufficient. The President had not forgotten the plight of millions of people and depositors, and he resented that this tragedy be essential, and in order to make sure that it should not be repeated, the Federal Deposit Insurance Corporation was created.

In the 4 years preceding the inauguration of President Roosevelt, there were 6,035 bank suspensions in the United States. This figure does not include 4,421 banks which could not reopen following the bank holiday. Since the Federal Deposit Insurance Corporation has been in operation the number of bank failures has been reduced to an average of 51 per year. When a member bank fails, under this law the Federal Deposit Insurance Corporation takes charge of the bank and takes charge of its reorganization, if it is to be reorganized, and attempts to salvage as much as possible of its assets for the stockholders and depositors. All deposits not in excess are guaranteed, as we all know.

When the record of the Roosevelt administration is finally appraised in the cool but penetrating light of history, it is our opinion that special emphasis will be placed upon his efforts to follow emergency action with long-range planning and that the creation of the Federal Deposit Insurance Corporation will be regarded as typical of this characteristic.

With The New Deaths Help

2,570,000 families improved their homes through Federal Housing Administration. 1,450,000 families saved their homes through the Federal Home Loan Bank Board agencies. 1,000,000 families averted foreclosure through aid by Home Owners' Loan Corporation.

# Roosevelt CHANDLER

---- AND ----

# JOE B. BATES for Congress

PRESIDENT FRANKLIN D. ROOSEVELT

SENATOR A. B. "Happy" CHANDLER

### *This Is a Small Measure of Roosevelt's Service To Our People:*

Under Roosevelt, Farm Income has nearly doubled. Farm Mortgage interest charges are 40 per cent less than in 1928. Soil Conservation Program has saved 30,000,000 acres. Farm loans have increased the net worth of borrowers 37 per cent. One fourth of all farms now have access to electricity.

Under Roosevelt, total non-agricultural employment is 9,000,000 greater than 7 years ago. Weekly Payrolls are \$113,000,000 greater than they were 7 years ago. Wage earners have benefited by laws enacted granting unemployment compensation, old age insurance and assistance to needy blind and dependent children. Wage and Hour Act has reduced hours and increased pay of millions of workers. Collective bargaining has brought about a decrease of industrial disputes.

Under Roosevelt, National Income increased from \$40,000,000,000 in 1932 to \$69,500,000,000 in 1939. Employment increased from 37.5 million in 1932 to 45.3 million in 1939. Loans totaling \$5,000,000,000 have been made to aid banks. Government purchases of \$6,000,000,000 helped every kind of business.

Under Roosevelt 20,000,000 depositors benefited by RFC loans to banks. Loans have been made to 1,500,000 farmers; 150,000 stockmen; 20,000 disaster sufferers and to 200,000 families for purchasing electrical appliances. Federal Housing Administration has enabled 600,000 families to build or finance homes.

Under Roosevelt in the last 7 years, public works programs have produced \$18,000,000,000 worth of public properties and services. WPA has built 150,000

miles of roads; 93,000 bridges; 88,000 public buildings; 12,000 miles of water lines. WPA has served 386,000,000 lunches to undernourished children. PWA financed work since 1933 has constituted 70 per cent of all educational construction. PWA has accounted for more than \$3,200,000,000 in orders for materials.

businessmen and educators in to serve the people without too great or too distant transportation.

Mr. Gregory, Mr. Hall and Mr. Johnson, unite in their determination to keep expenditures down to a minimum, consistent with the welfare of the schools, and to cut out unnecessary expenditures that in their opinion are the cause of the recent increase in the poll tax of the county from \$1.50 to \$2.50.

The race is becoming hotter as the days go by and the election day approaches.

Misspoken Wendell Wilkie

- WHAT WILKIE SAID
1. Asserted it was a falsehood that he had been a member of Tammany Hall.
2. Said he had never spoken favorable of Samuel Insull.
3. Charged that W. P. A. rolls had been increased for election purposes.
4. Alleged that President Roosevelt had telephoned Hitler and Mussolini and "sold Czechoslovakia down the river."
5. Alleged that President Roosevelt's administration had never put on man to work in private industry.
6. Insisted none of his companies ever engaged in labor espionage.

THE FACTS
1. Photostat of Board of Elections returns certifying Wendell Wilkie had been elected member of Tammany County Committee.
2. Copy of speech produced in which he referred to Insull as "an attractive figure."
3. Hearings of W. P. A. rolls have decreased instead of increasing.
Declared untrue by Secretary Hall. President Roosevelt never telephoned either dictator. (Wilkie admitted this mistake.)
5. Statistics prove total non-agricultural employment 9,000,000 greater than seven years ago.
Hearings of La Follette committee show General Power Co., a Wilkie subsidiary, spent \$130,000 with Pinkerton agency and witness testified and was spotted for another Wilkie Company.

Palmer Says Sales Work Different

(Continued From Page One)
based on a greater volume.
Speaking of the Clearfield plant Mr. Palmer set out that it was constructed 14 years ago and ships principally to states east of the Mississippi and south of the Ohio rivers. He pointed out that the plant had enjoyed an appreciable growth since its establishment attributing this to business principles of fair dealing and a product as good as that made at any place in the nation.

Mr. Palmer said that the plant was running at full capacity now much of its output going to the new army camps that the government is building. He stated that Lee Clay Products Company had always been in paying good wages and that they had always been far above government standards.
The speaker stated that concrete pipe was a comparatively new competitor to verified clay pipe, but set out that the concrete pipe had proven unsatisfactory for sanitary sewers since gasses and acids generated by sewage tends to break down the cement through a chemical action resulting in its collapse after a few years use.

Prof. Henry C. Haggan, head of the department of Agriculture, Morehead State Teachers College, will have charge of the program Wednesday. The programs for the next six months were released by W. E. Hutchins, Chairman of the Program Committee.

Imperial Muffins for the Week-End Guests

SO YOU'RE worried what to serve for breakfast when guests arrive this week-end?
Starting with the fruit, why not have sliced honeydew with sweet cherries scattered over it and over the plate—for appeal, you know. Or serve chilled, fresh apricots and seedless grapes on glass plates (on grape leaves, if you have them). Follow with eggs baked in muffin rings. And for this, simply ring muffin cups with bacon, drop in the egg, bake until the egg is set, and there you are, pretty and easy. It's taken for granted you can make plenty of hot coffee.
To crown this summer breakfast program with Imperial Muffins. They're easy as saying "cheese" to mix up if you use new, self-rising flour. Baking powder and salt are ready-mixed into it, thus a double saving (1) price of these two ingredients, and (2) time in sifting them with the flour.
You can use your favorite muffin recipe with the new, self-rising flour, omitting both baking powder and salt. But for your aid, here is one that's foolproof. Remember, as with all recipes, to work fast and mix ingredients only enough to blend well.
Imperial Muffins
Cream 4 tablespoons fat and 3 tablespoons sugar together. Add 1 egg and stir in thoroughly (do not beat). Add 1 cup milk alternately with 2 cups new self-rising flour (sifted before measuring). Pour into well-greased muffin tins and bake in a hot oven (400 degrees F.) about 30 minutes.

Vitamins Are In Vogue; Let's Get the Facts

In recent years, the term "vitamin" has become a household word. We have learned to grow, give and take vitamins. But what are vitamins? What are their functions? What are the symptoms of their deficiency? What are the sources of vitamins? These are some of the questions that you should know the answers to.
Vitamin is the scientific name for a group of substances that are essential for life. They are called "vitamins" because they were first discovered in the study of the diseases of man and animals.
There are about 15 known vitamins. They are all essential for life. They are found in many different foods. They are all necessary for the growth and development of the body.
The most important vitamins are Vitamin A, B1, B2, B6, C, D, E, K, and P. They are all necessary for the health of the body.
Vitamin A is found in cod liver oil, eggs, and milk. Vitamin B1 is found in whole grain flour, yeast, and legumes. Vitamin B2 is found in milk, eggs, and liver. Vitamin B6 is found in fish, meat, and whole grain flour. Vitamin C is found in citrus fruits, green peppers, and tomatoes. Vitamin D is found in fish liver oil and sunlight. Vitamin E is found in wheat germ and vegetable oils. Vitamin K is found in green leafy vegetables and animal products. Vitamin P is found in citrus fruits and whole grain flour.

New Chart Tells Vitamin Story

Table with columns for Vitamin A, B, C, D and rows for various food sources like Liver, Heart, Kidney, etc.

increases general body resistance and protects against night blindness and a severe eye inflammation. It stimulates the appetite, aids in the utilization of starch and sugar, and prevents beriberi. Riboflavin is necessary for normal functioning of body cells, protects against certain nervous disorders, and is a type of eye inflammation.
Vitamin C is essential for the growth and repair of body tissues, and is a type of eye inflammation. It is also essential for the absorption of iron from the food.
Vitamin D is essential for the growth and repair of body tissues, and is a type of eye inflammation. It is also essential for the absorption of calcium from the food.
