S surely as the new Buick FIREBALL* straight-eight engine sets the performance pace for the coming season, the graceful silhouette of the new Buick SPECIAL and CENTURY cuts the automotive style pat ern for another half decade.

The reason is not alone the grace of its Buick-created lines, nor the appearance of solid substance in action that gives this honey the look of a speedster straining at its leash.

It is the practical quality of great room enclosed in sleek and flowing lines-more room for legs, for elbows, for heads, more room for entrance and more room for carrying luggage that makes this the silhouette the cars of the future will seek to achieve.
