### Rowan Votes 225 To 61 For Quotas

### Three Year Plan Adopted By State And Nation In Ballooning Saturday

Rowan county, along with the rest of the tobacco farmers of Kentucky and the United States, voted en masse last Saturday in the Tobacco Quota election, to cast their lot and place their dependence on a three year quota. The election is held annually, and since the election Saturday, the quota for the next three years, it will not be necessary to hold it again for some time.

The state as a whole voted about 74 1/2 per cent for the three year quota. In Rowan county 303 votes were cast of which ten votes were illegal. Of the balance 225 votes were cast for the three year quota, while 61 votes were cast against it. Seventeen votes were cast for the one year quota.

The effect of the vote for the three year quota, is to guarantee that the quota will remain the same for the entire period without any crop area reduction. Thus the small grower, of whom there are many in Rowan county will be protected by not having his small patch of tobacco reduced further.

The vote over the entire tobacco growing area in the nation was overwhelmingly in favor of the three year quota plan. A vote of two-thirds was required to carry, while the vote actually was well over three-fourths.

### White Elephant Sale Is Set For December 14

### Money From Sale To Be Used To Purchase Supplies For County Schools

Put off some of your Christmas shopping until the Sale to be held December 14th. There will be toys on sale cheap for the children, so cheap that any parent in the county can afford to give their children a Christmas. There will also be new gifts suitable for grown ups. Some of the toys and improvements by the school children, supervised by the teachers. Others will be remodeled. There will be tricycles, chairs, and most anything a child could wish for Christmas. There will be used clothing, garden products, canned goods and other things donated much like the other sales. But our special feature will be toys. Tell your friends about this sale and if you have a toy your child has outgrown, a dress or suit too large or small or worn, call Mrs. Rice and she will be glad to have them for you. (Continued On Page Four)

### City Council Thinks Of Fires

One of the important items under consideration by the City Council of Morehead, according to members of the council, is the necessity for the purchase of additional fire equipment for the Morehead Fire Department. The present equipment is not nearly of the standard required for a city of the size of Morehead, and representatives of the Kentucky Actuarial Bureau have threatened for several months to increase the insurance premium rates in Morehead unless some thing is done about it.

At present Morehead enjoys as low rates on insurance as any city around, but that is due to the efficiency of the firemen themselves, rather than to the equipment. They have been successful in spite of the equipment, rather than because of it. At the last meeting of the council, Fire Chief C. B. McCullough, explained the needs of the department, which if supplies will bring the local department on a par with equipment in other cities of this size. A pumper, and several thousand feet of hose are among

### Bruce Store Announces Annual Santa Claus Visit

### Grand Opening Of Christmas Toy And Gift Dept. On Saturday

Annually, at this time, Bruce's Store creates the earliest Christmas atmosphere in this community, with a "special announcement," the announcement that once more Santa Claus in all his glory, with all his assortment of toys and gifts, with all his jolly fun and his love for the children, will be here, at the Bruce Store to open the holiday season, and to do his best to bring joy and happiness to the homes of this section throughout the holiday season and the year.

This year, Mr. Bruce says, their stock of Christmas goods, toys, novelties, and more expensive gifts, is larger and more complete than ever. Santa Claus will make his first visit Saturday, to officially open the store to the Christmas shopper. Every one is invited to attend this opening. Come to Bruce's and bring the children. Let them meet Santa Claus, shake hands with him and enjoy him.

### Questionnaires Must Be Sent In At Once

### Twenty Fail To Heed Order To Fill Out And Return Draft Questionnaires

According to Jack Ceel, chairman of the Local Selective Board, there are still about twenty who have failed to fill out their questionnaires and return them. Evidently many of them have failed to understand the seriousness of the offense of failure to fill out the questionnaires and return them within the five day time set by the law.

Mr. Ceel asked the News to repeat what was published in the last issue of the News, relative to failure to fill out and return the questionnaire within the time limit. Failure to return the filled in questionnaire will result in indictment before a federal grand jury and is subject to fine and imprisonment. The local board does not wish to take any drastic action, feeling that there may have been some misunderstanding on the part line of those to whom the questionnaires were sent. However they will be obliged to take the required steps until the questionnaires are returned at once, with a reasonable excuse for failure to comply with the law.

To those twenty or so who have failed to return their filled in questionnaires the Local Board wishes to urge them to do so at once, to comply with the law. (Continued On Page Three)

### Membership Chairman Mrs. Beulah Williams Reports Drive Going Well

The annual drive for Red Cross memberships is progressing nicely, according to Mrs. Ed Williams, Roll call Chairman. Memberships are growing daily as new members pay up their dues and as renewals are made in from various sections of the county.

The drive will continue until December 1, according to Mrs. Williams, when it is expected that the full quota set for the county will be reached and exceeded.

Clubs, churches, and civic organizations are taking part in the membership drive, and a special committee is looking after those who do not belong to any particular group or organization.

The year's drive is more important than usual, concerning the active part the Red Cross is taking in War Relief work in Europe and particularly in the British Isles and the largest membership is expected throughout the entire United States than ever before in the history of Red Cross, Rowan county, it is hoped will be in charge of the drive will be represented as well up among the communities which exceed the quota set for it. Those in charge of the drive do not want that it should (Continued On Page Three)

### Red Cross Sewing Project Works

According to Red Cross Production Chairman, Mrs. Grace Ford, the sewing project of Red Cross is proceeding in a manner that is most satisfactory to the Red Cross authorities with every inch of cloth being utilized to make clothing for the war suffering in England. The cloth has been arriving in huge quantities from Red Cross headquarters, which is supplying the material, while the local women are making the material into dresses, shirts, baby clothes and the like as rapidly as it arrives.

The first cloth arrived last week, according to Mrs. Ford, and already the greater part of it is being made up into clothing which will be forwarded to Red Cross headquarters as soon as the allotment is completed.

Rowan county women have taken hold of the project and are uniting in their efforts to complete the assignment in record time. At a meeting held last week, plans were made for cutting and sewing the material, and it has already been distributed and work begun.

### Vikings Win From Frenchburg And Soldier

### Keep Early Season Record Clean By Winning Two In A Row Last Week

The Morehead Vikings and Kinglets are starting their season with a bang, and the prospects for a winning aggregation this year are looking up considerably over previews of previous season. The Kings have already won three games, the first three being against Frenchburg, Frenchburg and Frenchburg.

Naturally that does not necessarily mean a thing, as all the teams played, like the Vikings are just getting under way in the 1941 race. But, as may be taken as a good sign that the Kings in spite of the loss of four regulars from last season are able to get organized and going this early in the season.

The Kings defeated Frenchburg at Frenchburg, by a 31-12 score, which would indicate that the Kings have a fast moving high scoring team, and may prove one to watch. According to reports from Frenchburg, (Continued From Page Three)

### Red Cross Progressing In Drive

### Membership Chairman Mrs. Beulah Williams Reports Drive Going Well

The annual drive for Red Cross memberships is progressing nicely, according to Mrs. Ed Williams, Roll call Chairman. Memberships are growing daily as new members pay up their dues and as renewals are made in from various sections of the county.

The drive will continue until December 1, according to Mrs. Williams, when it is expected that the full quota set for the county will be reached and exceeded.

Clubs, churches, and civic organizations are taking part in the membership drive, and a special committee is looking after those who do not belong to any particular group or organization.

### "Pop" Seymour Supervisor In Ashland Project

### Honored With Advance In NYA Project Being Constructed In That City

A. J. Seymour, "Pop" to his many friends here, who for the past year has been supervisor of N. Y. A. in the construction of sidewalks in Morehead, has been rewarded of his work here, to assume a much more important position with the N. Y. A. in Ashland. He left on Tuesday of last week to take over the duties of construction supervisor of a new N. Y. A. machine shop in that city.

Mr. Seymour took with him a number of the young men who had been working the local project as concrete men. The building which is of concrete and steel which is to be used, according to information received here as a part of the national development program for the instruction of NYA students as machinists and mechanics.

The work on the building is being pressed, as the specifications require that it be completed in December.

The position so far as Mr. Seymour is concerned is a considerable advancement, and came to him in recognition of the excellent work he has done in supervising the Morehead project.

### Christian Church To Observe Women Day

The Christian Church next Sunday during morning worship will observe their annual woman's day. The service of the morning will be devoted to the missionary efforts of the women of the church. The local Missionary Organization will have charge of the program, with various members of the society leading the service. Mrs. George Grey, wife of the Christian minister at Owingsville, will bring the Woman's message of the morning.

### FFA Advises Early Work On Gardens

For January, you were reminded to get your gardens in good condition, by applying manure and breaking the ground. For February, we may call it the winter garden because we would like to plant our plantings. First we should take inventory of what we raised last year. Did we have enough of this or that? Do we have a suitable variety for the table, remember that variety makes the spice for the meal. Too many people rely on beans, cabbage, tomatoes and beets for their vegetable supply. We all need to grow more of what we have and add a few new plantings each year.

Make a complete list of the vegetables to be grown, sketch the garden plot as to size and number of rows, locate the plantings in regard to permanent plantings around the fence or buildings. Vegetable plantings should be arranged so that when the early ones are gone other plantings can be made. Few people take note of this and when the early bunch beans are gone, the ground is not planted to any thing else.

If the weather was not favor (Continued On Page Three)

### Revival Being Held At Sea Branch

A revival is in progress at Sea Branch with Rev. Wiseman in charge. Many people are attending the revival from here. Bro. G. Yiseman has been in our midst many times and will hold a few weeks revival at the Church of God here in Cabell as a companion of his work in this county.

### Breck-Morehead Game Being Sponsored By American Legion To Be Played Friday Night

### Not Drafted But Trainee Is Term Adopted

### Men Being Taken Into Army Are Selected For Training, Not Drafted

There's a new name for the young man who is chosen to represent his city or county in the new great army that is being built by Uncle Sam for his National Defense. No one likes the name "draftee" with which the fellow who has gone to help his country is being discarded and the man in the future will be called Trainee or Selectee. Either term is more appropriate for the men are being selected and are being trained in special services.

So far as we are concerned they will be called trainees.

### Xmas Seal Sale Gets Under Way

### Fight Against Tuberculosis Is Object Of Sale; Rowan Is Ready To Help

Recently we all celebrated Thanksgiving Day in our several ways. Most of us were happy—some of us were sad. But all of us have some one thing to be thankful for, if we thought of all about our blessings. And not the least of these blessings for most of our people was the precious possession of health.

Among the multitude of problems which beset man is the constant struggle against these factors, personal and community, which tend to destroy his vitality. War, fire, flood, famine, accident, disease and premature death are ever possible occurrences in our lives. While some of these threats against our peace and well being are seldom experienced by most of us because of our foresight in planning to defeat them, there are other threats which have not been brought under complete control. One of the problems in the entire field of the disease-threat is tuberculosis, which has been called for centuries the "Captain of the Men of Death." This title has been justified until our own immediate times. It is one of those enemies which creep upon us insidiously, running a long, slow course. There is nothing dramatic about TB. Many acute diseases do not nearly so devastating, have had much more attention paid to them than has tuberculosis.

### Edmund Turner Is Rowan County's First Trainee

### Leaves For Camp Tuesday Morning Without Fanfare; Goes To Ft. T.

Clarence Edmund Turner, son of Rowan County's first trainee, Turner, is the son of Howard Turner of this city, and he is the first to go from this county under the selective service act, because he was the first to volunteer; under the act. He left Tuesday morning for Fort Thomas where he will be inducted into the service. He will be without any fanfare or trumpets, early Tuesday morning. A program had been planned as a compliment to the first Rowan county trainee, but due to the early hour at which he left, it was impossible to hold it.

### Tracy, Gable, Colbert And Lamar Head Cast In American Epic

### "Boomtown" Features Stars At Trail Theatre

### Attend Convention At Lexington Tuesday

A group of members of the Christian Church spent Tuesday of this week in Lexington, where they attended the Convention of Kentucky, Ohio and Tennessee Christian churches. The theme of the Convention was "The Disciples of Christ Facing a World Crisis," and the subject was elucidated clearly by such well known speakers as Dr. Roger T. Noe, B. C. Bobbitt, and Rev. G. H. McCormick, president of the Convention. The Convention was held at the Hotel Lexington. Those who attended from Morehead were Mrs. C. O. Peratt, Mrs. B. F. Penix, Mrs. D. B. Bellamy, Mrs. Claude Kresler, Mrs. Gable, and Rev. and Mrs. Arthur Landolt.

### Funds To Be Used To Spread Christmas Cheer Among Needy Families

What will prove to be the basketball classic of the year, even though it is early in the season has been scheduled for Friday night of this week, at the College gymnasium when Breckinridge Training School basketball will meet the Vikings of Morehead High, in the first charity game scheduled between the two teams.

The game is being played under the auspices of the Corbie Ellington Post of the American Legion, and funds from the sale of tickets will be used for the purpose of Christmas baskets for the underprivileged children of the county, and for the needy in both towns, except be devoted.

Last year the Legion inaugurated the plan of purchasing baskets of food for the needy in the community at Christmas, at which time they gave out over one hundred baskets. This year the plan is being continued. The funds raised at the game Friday night will go into this fund. It is certainly one of the most worthy causes to which the talents of the basketball players on either or both teams could be devoted, and by attending the game Friday night the spectator as well will be doubly repaid. He will see a real basketball game between two local rivals, that will be worth the price of admission. And he will, at the same time, feel that warm glow heating up the cookies in the region of his heart, in the knowledge that he has contributed to the happiness and well being of some child in this community, who otherwise might not be able to enjoy Christmas cheer.

### Tickets will be on sale. If you have not already bought one, do so now. The price is 50 cents, and it will be the best four bits you have spent this year. Do it now, not next week or next month or next year.

fields is definitely upward. Taxation is increasing. The burden of taxation must sooner or later be reflected in higher costs all along the line. It is true that government is attempting to control prices, and to hold increases down. And also true that even government cannot work miracles in the face of tremendous economic pressures.

Thus, the work of the chain store industry, and of all other progressive retailers, becomes of increasing importance to the people of America. Every time some form of waste is outlawed, every time overhead costs are reduced, another step is taken toward either raising or preserving the general standard of living. Long ago, the chains discovered in this direction, and laid down standards and principles of service which have been followed successfully by wide-awake independents. Today it is the ambition of the chains to do a bit better job in the public interest.

To quote Mr. Loren again, the spirit of a blazing trail that is becoming a highway to a better living at a lower cost. That is the kind of progress that makes this country a finer, happier and more hopeful place to live in.

**Xmas Seal Sale Gets Underway**  
(Continued From Page One)

Another fact about tuberculosis is that it is no respecter of persons. It asks, the rich and the poor, the old and the young, the intelligent and the ignorant, the high and the low. It strikes everywhere.

No medicine—that is no specific cure—has been found to be effective against tuberculosis up to the present time. The general measures of rest, good food, fresh air, freedom from worry, medical and nursing supervision, have been the main dependence in the fight to cure the disease. Fifty years ago it became clear that it was not sufficient to prohibit the spread of the disease; efforts would have to be directed toward preventing the spread of the tubercle bacillus from one individual to another.

Two different lines of attack are employed in this work: (1) The direct attack against the germ itself—the control of the tuberculous individual and his spores, which is the direct source of danger, and (2) The indirect attack against conditions which prepare the favorable soil for the seed.

Both of these methods of attack depend largely for their success upon the widespread understanding by the public of the simple facts about tuberculosis. It was to bring about this widespread understanding that the first organization was created in Philadelphia by Dr. Lawrence F. Flick in 1892. Here, for the first time in the history of the world, were brought together the united efforts of medical and lay individuals to carry on popular education concerning the prevention and cure of tuberculosis. In 1904 the National Tuberculosis Association was created, and since that date the development of affiliated organizations has been rapid. There are more than 1,000 tuberculosis associations in this country today, covering practically every foot of territory in the United States, Alaska and

Hawaii. Until 1908, these organizations were dependent upon membership fees and donations and had meager resources to carry on their educational work. In 1908 the Christmas Seal became a national institution. It had been introduced in Denmark by a Danish postmaster named Zinar Hobbell in 1903 and was introduced in Delaware in 1907 by Miss Emily Bissell. And so for thirty three years the Christmas Seal, from a small beginning, has been the means of raising funds each year to carry forward the work. We are now in the midst of the 34th annual Christmas Seal Sale in the United States. In spite of the fact that tuberculosis has fallen in the United States from the leading cause of death to seventh place, it is still the greatest single cause of death in our population between the ages of 15 and 45.

## Kentuckians Benefit From Life Insurance

Millions Are Paid To The Beneficiaries Of Policy Holders In State

The families and other beneficiaries of Kentucky policyholders received an aggregate of \$9,051,000 from life insurance companies in settlement of death claims during the first nine months of 1940. It was announced today by the Institute of Life Insurance.

"The importance of the economic and social contributions of life insurance to the families and communities of this State is indicated by the fact that the funds flowing into here have amounted so far this year have averaged \$1,072,333 per month," Holgar J. Johnson, president of the Institute, stated in releasing the figures.

Of the death claim benefit payments made in this state this year, up to September 30, 1940, \$7,091,000 was paid out on ordinary policies, \$880,000 on group policies and \$1,175,000 on industrial policies.

The above compilation includes payments by American life insurance companies and payments by Canadian life insurance companies on policies held in the United States.

## BIBLE STUDY

By Rev. B. H. Kaeze

Question—If everyone obeyed the Golden Rule, would there be any need of churches and preachers?

Question—Is a Sunday School a divine institution?  
Answer—That depends on what we may mean by a divine institution. If we mean that God set it up in His present form, I should say no. But if we mean that the Lord had any idea of teaching the Word of God, I would say yes.

Certainly the present Sunday school movement is not an old thing. It is, however, just another form of teaching which has gone on through the centuries. The method of teaching may vary, and there may be systems set up which would be come too worldly in their course. A Sunday school might become so if it were not conducted properly. There may even come a day when the Sunday School will not be changed, and another type of organization set up for teaching. It is true that not all people who conduct Sunday Schools do it under the leading of the Spirit of God, and there you will find abuses of the idea. But this depends on the individual, as to whether or not he is spiritual, and should not be blamed on the system or method.

Certainly a Sunday School, as such, is a temporal organization, devised by man (though doubtless under the impulse of the Holy Spirit) to carry out more effectively a divine commission. If it does not teach the message of God's Spirit, and does not teach the spiritual message of the Bible, then it is not what it was intended to be and may be classified among those that abuse the method.

From the commission of Christ to the church we have been held responsible for teaching and evangelizing. The church is designed for the purpose of preaching the Gospel to lost people. Its fellowship, though known only to Christian people, is to offer strength and growth to God's people in order that they shall be able to teach, preach, and testify effectively to the lost.

The commission is: "Go ye therefore and teach the disciples of all nations, baptizing them in the name of the Father, Son, and of the Holy Ghost, teaching them to observe all things whatsoever I have commanded you." Furthermore, the Bible gives no evidence that God will save other than those to whom the Word of God shall be taught and preached. "Faith cometh of hearing, and hearing by the Word of God, now living, whom they have not heard, and whom they have not heard, and whom they have not heard, and whom they shall hear without a preacher, how can he be preached except he be sent." If it be true that the lost must hear before they can believe, then the message of the Gospel must come to the lost. If the church is commissioned with this task of teaching and preaching the word to the lost, then we must try to reach lost people with this Word.

The Sunday School is just a method by which it is done, and as an organization is not to be thought of as something which God could do without. However, God could do without a church house. There were none in the first days of the Gospel. But men who feel the urge to carry out a divine mission to such things as church houses in order to make their mission more effective. The house is not divine, but the mission is divine, and the house is a help in the mission. The last is divine, and the Sunday School is a help in carrying out the mission.

## Selectees Must Have Social Security Numbers Ready

If Any Have Lost Their Numbers Duplicates May Be Obtained In Ashland

The questionnaire which Draft Boards are now sending to men whose names are among the first on the selective service lists asks for the social security account numbers of these men. If persons receiving this form have lost or misplaced their social security account number cards, duplicate cards can be obtained from the Ashland, Kentucky, Field office of the Social Security Board.

This statement is made by Lawton Hargis, acting manager of that field office. Duplicate cards can be obtained by filling in a simple application which may be secured from any post office or through the Ashland field office, which is in the Second National Bank Building.

"I strongly urge any young man who has lost his account number, and who needs it for his selective service questionnaire, to be sure he gets a duplicate of his original social security number, and not a new one, as the latter practice often delays posting of wage credits of those who are covered by the Social Security Act," Mr. Hargis said.

Do you know why you need a social security number? This number is the one under which the Social Security Board keeps your wage record. No matter how many times you change jobs you always keep the same social security account number. It is used in this reporting your wages. Social security numbers may be obtained at 1118 Second National Bank Building, Ashland, Ky.

Do you know what your social security number means to you and your family? It means that the Social Security Board is keeping a record of your wages in order to determine your monthly retirement benefits. After age 65, or if you should die before that, your family's benefits will be based on your wages. Be sure that each of your employers has your proper social security account number, so that you will receive full credit for your wages. If you have any question about your number consult the Social Security Board office at Ashland, Ky.

Do you know you can have only one correct social security number? Each worker's social security account is given a number. That is the number on your social security card. And that is the number the Board puts on the wage record sheet it keeps for you. This is the number your employer uses in reporting your wages. You can properly have only one correct account number. Numbers may be obtained at the Ashland, Ky., office of the Social Security Board in the Second National Bank Building.

**DEMOCRACY IN ACTION**  
Democracy is something more than a political slogan—more than an abstract concept of government. Democracy is something that goes through our entire social and economic organism, determining its acts, its policies, its present and future.

A perfect example of democracy in private business is life insurance. Life insurance is primarily geared to serve the average citizen—the "little man and woman." The great majority of its tens of millions of policyholders fall into that category. Life insurance would go out of business tomorrow if it had to depend on big buyers for its existence. It works for all America.

## KNOW BEFORE YOU GROW

The public at large has little realization of just how accurate per capita fire loss figures are in making comparisons of various cities' success in controlling fire.

F. D. Layton, President of the National Board of Fire Underwriters, touched on that in recent address. Mr. Layton said: "The reduction of the per capita loss is indeed a goal toward which every community may well content and the success of any community in attaining a lower per capita loss rate may well be a source of justifiable pride. However, there is a point beyond which comparisons of this nature, as between communities, cannot be carried because the ratio of values subject to fire loss to the population will be found to differ radically as between various communities."

This fact has been recognized by the International Association of Fire Chiefs. Per capita fire loss figures are of great interest in indicating whether the fire losses of a community have risen or decreased in a given period of time in relation to its previous record, providing there has been no material change in property values or population. But allowing for the materiality of the disparity in the values subject to fire and their relation to population in arriving at any comparison as between communities.

In other words, list is obvious that two cities having an equal per capita fire loss may not be equal in the efficiency of their fire defense. One city may have two or three times as much per capita wealth exposed to fire as the other. There are too many factors which may cause fire, to make it possible to judge any town's success in limiting it on the other basis of per capita comparisons alone.

If your town's per capita loss is low, you are well and good. But don't succumb to unjustifiable pride in this achievement based on per capita comparisons. Your record may be inexcusable if based on fire hazard conditions.

## WON'T BE A HOSTAGE

Producers have more responsibility than the government in seeing that their marketing control program works," said an agricultural expert recently. That's worth remembering government aid under the guise of a farmer who depends on "relief" becomes a hostage of politics. The more a farmer takes from government in public relief, the more he relinquishes an independence. The more there is only one kind of permanent farm aid that should appeal to an independent farmer, and that is the work he does for himself through his own organizations such as the marketing cooperatives.

## TO BETTER LIVING

World War I revealed the need for an improved system of food distribution," said John A. Logan, president of the National Association of Food Chains, recently. "Any future emergency will demonstrate the value of the chain store system. Food chains have pioneered in the past to reduce cost, minimize waste, and serve the economic needs of the people. They have contributed to social welfare by providing more food and better balanced diets within the means of lower income groups. They now will accept the challenge to maintain the standard of living by preservation of quality standards and protection of values in times of emergency as well as in their ordinary day to day operations." The extraordinary demands now being made upon our industrial structure must inevitably create dislocations in our economy. And any great national effort of this kind is, to some degree, inflationary in trend. The price tendency in all

### Red Cross Drive Is Progressing

(Continued From Page One) be necessary to remind citizens of Rowan County of the immense aid that was given to residents of this county in 1937 following the great flood which created so much havoc in this

county and community. Thus far the response has been unusually good, and they confidently expect it to continue equally good to the close of the membership drive.

Complete figures on the result of the drive will be published in the next issue of the News.

### Vikings Win From Frenchburg Five

(Continued From Page One)

their team this year is not of the calibre of teams of the previous years, but, still the score indicate something. As we said before, however, early season wins do not mean so much unless they are followed up by later season victories.

The Kinglets also came up with a win over the Frenchburg B team, the score being 19-12 in favor of the Kinglets. The Holbrook boys seemed to be doing their stuff as Bob Holbrook was high point man in the Kings game while brother Harold topped the scoring in the B team encounter.

### Questionnaires Must Be Returned Now

(Continued From Page One) names turned over to the Federal District Attorney, for indictment in the federal courts. This is a matter that will not permit any delay. Remember you are not dealing with the local courts or with state law, but with the United States Army and the United States Courts.

### FFA Advises On Early Gardens

(Continued From Page One)

able during January for plowing gardens standing bare, February is not too late, but endeavor to get them started before plowing. Gardens should be free from weeds, Pritchards or Break 'o' Day; Peppery Gardens should be free from weeds, and Eggplants, New York cobs, too often we let the plow improve.

ing go until right up to the time for planting and have the ground broke up and it wet and then we have a poor garden, cloddy and hard to work. Disk the garden thoroughly before plowing. Start in hotbed: Lettuce, New York or wonderful; Tomatoes, work done 6 weeks before seed; Pritchards or Break 'o' Day; Peppery Gardens should be free from weeds, and Eggplants, New York cobs, too often we let the plow improve.

### Wake Lazy Insides All-Vegetable Way

Here's a laxative that generally acts thoroughly, but is a gentle purgative if used by simple directions. Take BLACK-DRAUGHT at bedtime. There's usually time for a good night's rest. Morning generally brings a thorough evacuation; relief for constipation's headaches, listlessness. Try spicy, aromatic, all-vegetable BLACK-DRAUGHT. It's economical, too: 25 to 40 doses, 25c.

### Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritic or neuralgic pain, try this simple, effective home recipe that thousands are enjoying. It's a mixture of lemon juice, combined with a little bit of water, and the juice of 4 lemons. It's easy to make at all and pleasant. You need only 2 tablespoons, two times a day, within 48 hours — sometimes overnight — you'll feel the pain disappear. If the pain does not quickly leave, and if you do not feel better, BRUCE will give you another try as it is sold by your druggist under absolute guarantee. Compound is for sale and recommended by

White Elephant Sale To Be Held Soon

(Continued From Page One) up to your home. Money used for this sale will be used to finish buying enough paints for the schools and the balance will be used to start the schools off in July with a full supply of paper, crayons and paints. When you help with this sale you are helping the children in the county to be more interested in their work, to appreciate beauty the more through their art work and in a few words, they will be receiving an art education that will help mould their social and moral standings.

David Kegley Dies In Elliott County

(Continued From Page One) of Elliott county. Funeral services were held at the home school house conducted by Rev. Cecil of Sandy Hook. Burial was made in the Holbrook cemetery in charge of the Ferguson Funeral Home.

Boontown To Be Presented At Trail

(Continued From Page One) many successes to be mentioned here. The ladies with Hetty Lamar and Claudette Colbert are equally outstanding. Boontown is the story of the great oil booms of the twenties, where millions were made over night and thrown away and lost the next day. It is a gripping American story, portrayed as only these great actors can portray it.

CRANBY SCHOOL IN ART WORK IN PROGRESSING

The Cranby school under the direction of Mrs. Mayme Lowe, is doing much work of interest this year especially in the line of art. The children are now gathering vases, and jars which they are painting with black enamel and then each child is doing his own design without any pattern. The vases, flowers, candles and other attractive designs. Cards are being saved to make into Christmas cards. They are writing their own Christmas plays. It is interesting to see the creative work going on in this school room.

TURKEYS SHOULD BE "RIPE" WHEN SOLD

Turkeys should be "ripe" when sold, the same as a watermelon, Dr. A. T. Ringrose of the Kentucky College of Agriculture points out to producers. They "ripen" as they approach maturity at the age of 6 to 6 1/2 months.

Keeping Fit With Judy

It's ping pong for Judy Garland when she takes time out for play after completing her job. "Strike Up the Band," Judy feels that this exercise is a normal way to keep in condition. Judy also does some extensive stretching by swimming short distances every day in her pool. Col. Mac H-128

666 To relieve Misery of COLDS LIQUID TABLETS RELIEVE Nose Drops Cough Drops Try "Rub-My-Tism," a Wonderful Lintiment

may know that a turkey is finished if the breast bone and drumsticks are fully fleshed, and the skin yellow and free from pin feathers. Buyers of dressed birds should examine the skin on the body under a wing at the hip joint to see if it is yellow. Also those areas free of feather tracks should be yellow. There are few pin feathers on a finished bird.

TODAY Buddy is a little boy, facing his first day at school, feeling woefully small. But he's truly important. For Buddy is an investment—yours and ours—in the America of tomorrow... Soon Buddy and thousands like him will have grown up to inherit the job of making this country tick. And he'll be ready because his neighbors—such as the folks down the block, the corner store, the movie theatre and the railroad—help support the schools that give Buddy a free American education... Today Buddy never heard of taxes. Later, when he understands, he'll thank you, whether your investment in him was one dollar or one thousand.

Last year Chesapeake and Ohio paid \$31,984.44 to Rowan County

Yes, Chesapeake and Ohio is one of the neighbors in this county whose share of tax revenue helps in providing schools... building roads and other improvements... maintaining clinics, visiting nurses and other welfare services... supporting free libraries. We usually think of railroad service in terms of passengers and freight weight and safely transported. But the railroad also serves, as its money goes to work through state and county administrations for all governmental functions, helping to make first-class citizens of Buddy and his pals.
