BIBLE STUDY

By Rev. B. H. Kaeze

Question—Do you believe in backsliding?
Answer—My question has not the question in a way that makes it obligatory on me to show my own view. However, I shall not be my own, but what I see the Scriptures to teach on the subject.

I do not believe in practicing backsliding if that is what my questioner means. This is one doctrine I believe in, and I do not believe in practicing it. I often meet people who say, "Yes, I was once a Christian, but I have gone back into the world." This is true of many Christians. Lot went down into Sodom, the world, and lost his testimony because of his compromise with the world. That is true of many of God's children. Often we find them in the world, and acting like a worldling.

Yes, I believe people backslide if you mean by that term that they grow cold and weak and compromise themselves with the world. David committed awful sin, and through that sin he fell back into the world. This is a day of backsliding Christians.

But if you mean that a backslider is in a lost state, and would go to hell if he died in that state, I could not accept that as a Scriptural doctrine. A sheep is always a sheep, whether he is in the wilderness or in the fold. He will never give up the wool if he is in the wilderness and be of no help to his shepherd. But, according to the parable in the Bible, the Shepherd will think of that sheep more than of the ninety and nine in the fold. And he will go seeking the sheep until he find him.

David was a sinner, and had backslided, but he was a saved sinner. Nathan told him plainly, "In the beginning of David's judgment, that God had put away their iniquity." Punishment of David after that was not to make David pay for sin, only Christ could do that. David's great sorrow was God's love working to purify David's life.

Yes, my friend, if you are a backslider, but once in your life you have known the saving power of the Lord and contacts with the many who have not left you, our salvation depends not on our faithfulness to God, but on God's faithfulness to us. It is not the perseverance of the saints; it is the perseverance of God. When we go home again, to God, it will be our success in being saved, it will be God's success in saving us. And that is more sure than anything.

The backslider is out of fellowship with God, not out of sin. Fellowship is a matter of the heart. Fellowship is a matter of the heart. Fellowship is a matter of the heart.

Plans for May Garden Are Set Forth

By Rufus Flannery
We who the year have kept up with the past articles on January, February, March and April for the garden, if you have the plan will now continue for May.

In May plant: Sweet Peas (Golden Cross Bantam), Cucumbers, (Long Green), Cantaloupes, Squashes, (White Scallop); Watermelons, Summer Spinach, Beans, stringless Greenpod; Lima beans, Spring lettuce.

Tomatoes should be set, any early variety that will resist late. Late tomatoes should be started outside in a bed for late setting.

There has not been anything said about cultivation in the garden but by this time doubtless the most important of cultivation. We would like to discuss the tools for the garden. All that one needs to successfully operate the garden after planting is: A sharp hoe, a 16 tooth harrow or a five-foot cultivator. There may be some disagreeing with what will be said but if the garden was well prepared before planting all there needs to be done is to keep the weeds from growing. To loosen the dirt for the roots to grow is but little reason, which is why the soil is weaker than the one just mentioned. The garden should be kept free from weeds, this can be done by light cultivation with a small harrow, or the five-foot cultivator and merely work the surface of the garden. Deep plowing in some cases. The row should not be raised up so throw the ridge, the dirt must be taken from the middle and spread on the sides, but this reason is which causes more moisture to evaporate. Ridges may be made in Irish potatoes when the tubers are forming and the ground begins to crack open. Roundup mixture is best for this, but it is a bit of this spray and it is one of the best and most economical sprays that can be used in the garden. It is made by dissolving one pound of blighton in three pints of water. The blighton is a mixture of kerosene and kerosene. The hose should be dissolved in a cream creek by letting it dissolve in a sack suspended in row water. The time for this is to mix and this spray can mix to projecting such as 2342, depending on the amount of material needed to do the job. This spray can be used on cucumbers, potato beetles, and cucumber beetles.

The use of lime in cleaning bath tubs is out of fellow turf and other enamelled ship with God, not out of sin. Fellowship is a matter of the heart. Fellowship is a matter of the heart.

The backslider is out of fellowship with God, not out of sin. Fellowship is a matter of the heart. Fellowship is a matter of the heart.

The backslider is out of fellowship with God, not out of sin. Fellowship is a matter of the heart. Fellowship is a matter of the heart.

Heats All Day and Night Without Refueling
There is Still Time to Enjoy a WARM MORNING Every Morning This Winter
This amazing coal heater burns any kind of coal, coke, or wood. You have a WARM every MORNING when you awaken, regardless of outside temperature. It will give you a warm, comfortable home every time the weather changes. WARM MORNING owners report fires had long as 7 weeks days on closed drafts, on one filling of coal and without attention! Many report astounding fuel savings.

We can do for our World War Buddies. Let us renew our courage and efforts at the beginning of the new year, let's attend all meetings possible of the American Legion (meeting first and third Friday night of each month). Let us not fail to go to the aid of our Buddies in time of need. Let us not fail to visit- assist and comfort the bereaved loved ones of our Comrades who passes on West to the great beyond, for we know not which of us may answer the next call and bid farewell to our loved one right when this life is over.

Calvin Crosthwaite (Loses Life)

(Continued From Page One) Teachers College where he was at the time of his death a junior. He is survived by his parents and by two brothers, Ted and Harold Crosthwaite, his grand father, Aaron Crosthwaite, his grandparents, Mr. and Mrs. Troy Jennings, four uncles, Leonard and Farris Crosthwaite, and Charles and Ray Jennings, one aunt, Virginia Jennings, and a number of other relatives and friends.

Calvin Crosthwaite was one of the outstanding young men of Morehead, with a promising future before him. He was regarded as one of the finest examples of young American manhood in this community, and his family unquestionably has the sincerest sympathy of every citizen in this community in their tragic bereavement.

OES To Have School Of Instruction

(Continued From Page One) of the order under her direction. This year the school is to be held at Olive Hill on the afternoon of January 2, in Aiken Hall gymnasium, beginning at 1:30 o'clock, Central Standard Time. Following the school of instruction the worthy Grande Matron will inspect the Olive Hill Chapter, this session being preceded by a banquet, the program for which has not been announced. January 4 has been set as the date for the inspection of the Ashland Chapter, and officers as well as members of the local chapter have been busy for weeks planning for a gala event. According to the schedule submitted, all chapters in the district will be inspected on the following dates: Vanceburg, Jan. 3; Louisville, Jan. 4; and can be bought cheaper than a registered animal.

Rowan County Sends Nine Trainees

(Continued From Page One) military service. Class 1-C Enlisted in Army or Navy. Class 1-D (Available for service beginning July 1, 1941). Class 2-A (Deferred 6 months). Class III-A (Men with dependents, deferred indefinitely). Class IV-F (Physically morally delinquents (Not yet reported to federal authorities).

The Local Board has received advice from Army and Navy Recruiting Stations that nine Registrants of Rowan County have enlisted in the Army or Navy, but only four, as noted above, come within the order number of Registrants to whom questionnaires have been mailed to date.

Upon call one, this county was required to send but one of its Registrants to camp. Clarence Edwin Farmer, who was the first to volunteer, and was sent to Fort Thomas, Saturday, November 26, 1940. State Headquarters have directed the local Board to qualify approximately nine registrants for the next, or No. 2 call, expected early in January. The mailing of questionnaires to registrants was suspended November 1940 by direction of the State Headquarters, Selective Service, but will probably be resumed about the first week in January, next.

In buying a family cow, select one that has had two or three calves and her productive ability thereby established. In most instances, a grade cow will do. A grade cow will do. A grade cow will do.

PRUNES ARE STAPLE COLD WEATHER FOOD Prunes are a winter staple that belong on the pantry shelf along with eggs, sugar and spices. The care-home economies expert. Properly cooked so they are plump and juicy, prunes are modest, but good tasting fruit. They have more taste appeal when speed up to go with a meal course, combined with cooked cereal for breakfast, mixed with butter or peanut butter for a sandwich filling, or used like fresh fruit in salads and desserts. One can figure on about 12 servings from a pound of prunes, and the cost is surprisingly low. It is explained that this pound of prunes supplies food values, too—in the form of iron, calcium, vitamin A, and vitamin B com plex. In deciding on a dessert, keep prunes in mind as a filler for puddings and turnovers, for topping shortcake and upside-down cake, for combining with sugar and beaten egg whites or whipped cream to make a fruit whip. Prune bread offers another way to use this versatile fruit. Make like raisin bread with a yeast-dough. It is excellent toast ed, or roll the dough out in a

Those present were Fred Bays, Don Batson, Dicky Sroogins, Ivan Dalton, George Black, Jean Caskey, Jean Sorrell, Frieda Mae Caskey, Aline Caudill. Refreshments were served and games played.

Miss Caudill Honored

Miss Leola Caudill received one of the individual awards, and a letter from Dr. F. L. Rogers, professor of Physical Education, Peabody college, notifying her that she should share in the first prize won by the 1940 champion volleyball ball team in the intramural athletics play Peabody.

It Is More Economical To Buy

One light bulb of high wattage than several bulbs of low wattage. Not only is the initial cost less, but one bulb of high wattage supplies more light than several small ones that total up the same wattage.

THE FARM AND HOME

Many housewives include in their canning 'budget' several kinds of meats—such as—roast beef, lamb, broiled steak, pork chops, lamb chops, baked spareribs, fried chicken, beef and lamb steaks, sausage, tongue and liver.

Some farmers have located markets that pay more for 2600 eggs. They select large uniform ones weighing 2 1/2 to 2 3/4 form ounces, weigh them, and deliver them "extra fresh," sometimes taking them directly to customers.

A small amount of sugar added to bread dough makes it rise more quickly and helps to give a golden brown color to the crust. Some persons think that the flavor of bread is better when sugar is used.

The color of egg yolk is influenced by the feed. Hens which do not receive an abundance of green feed or yellow corn produce eggs with pale yolks. Alfalfa, clover or lespedeza hay have the same effect on yolk color as green feed.

"Graps and Small-Fruit Varieties for Kentucky," is the name of an Agricultural Experiment Station bulletin which discusses oranges with pale yolks. Alfalfa, clover or lespedeza hay have the same effect on yolk color as green feed.

Mr. and Mrs. W. W. Jayne and baby of Grayson spent Christmas with his mother, Mrs. W. L. Jayne and family.

Mr. and Mrs. Virgil Walcott and daughter were members of the Progressive Dinner at Ashland Tuesday and Wednesday. Tuesday evening they attended a progressive dinner, visiting six or seven homes.

blackberries, gooseberries, and other bush fruits.

Wheat custard: Beat 2 eggs, add 4 tablespoons of sugar and 2 cups of milk and stir. Then add 3/4 of a cup of cooked wheat flour. Set in baking dish in a pan of water and bake in a moderate oven until firm.

Home-made sausage is usually three-fourths lean meat and one-fourth fat meat. For mild sausage, use 1 1/2 ounces of salt, 1/2 of an ounce of black pepper, and 1/4 of an ounce or less of dried, finely ground sage to 6 pounds of meat.

Poultry raisers who range flocks in fenced fields often follow this order of rotation: first year, poultry range; second year, corn or tobacco or garden; third year, small grain followed by grassy fourth year, meadow or pasture.

Game, like all meat, is best cooked at a moderate temperature. Roast it uncovered in a shallow pan with a rack in the bottom and add no water during the roasting. For a 10 to 12 pound goose, allow 3 to 4 hours at 325 degrees.

A few ewes need at least a gallon of pure water daily. Loose salt in a box in a shed or barn is better than block salt. Show prefer the open method of water in a trough with access to water in stormy weather.

Training For Defense

By Rufus T. Strohm
Dean, International Correspondence Schools

At this moment, we in the United States have a 14 billion dollar job confronting us. It is the job created by the money which has been appropriated for a national defense program. It is a stupendous undertaking, one which may well decide the future of our civilization.

Vast quantities of materials and supplies must be assembled to build ships, tanks, airplanes, guns, to maintain the fighting men who man our first line of defense, to equip the one or two million men who make up a "protective mobilization force." There are new plants to be erected, machinery to be built and installed, and skilled men to be developed.

The United States has virtually all the essentials needed—the money, the natural resources, the man power, and the industrial leadership. Only one thing is lacking—a sufficient number of trained men. This problem can and will be solved. It is one that will make our defense program show up in spots. All the industrial groups to provide for a sufficient force of skilled workmen, others have been slow in establishing an apprentice training plan.

The skilled mechanic never had a greater opportunity to serve his country and himself.

Morehead Ice and Coal Co.

Start a Fire But Once a Year
WITH THE WARM MORNING HEATER!

HOLDS 100 LBS. COAL!
Keats All Day and All Night Without Refueling!

Here's the coal heater that's years ahead... entirely new and different... By its patented construction principle it makes coals from coal, thus burns the coals without the usual ash... No clinkers—only fine ash.

THE WARM MORNING HEATER holds 100 pounds of coal and burns automatically from magazine. Start a fire but once a year... Clean, steady, glass front... abundance all winter long.

WONDERFUL FUEL SAVER—Requires less attention than stoves. Burns any kind of coals or wood. Made in regular stove-type models, also in handsome cabinet type. All models give the same efficient, cozy heat.

SEE YOUR DEALER—More than 10,000 small hardware, furnishing, lumber and coal dealers throughout 40 States and Canada. Ask for the name of your nearest dealer. FREE LITERATURE—If you do not have a dealer nearby, write at once for free literature illustrating and describing this wonderful new heater.

To Our Customers and Friends
Good Wishes for 1941 from Everyone of Us

FOLKS: We hope that the next twelve months will bring to all of you an overflowing measure of good fortune and contentment.

As in the past, we're going to do our very best this year to make our service more satisfactory to you than ever before. Your suggestions for improvements will be given prompt and careful attention, and you are invited to make them as often as you wish.

At all times we'll be ready to co-operate fully with our fellow citizens in whatever activities are needed to aid national defense and promote community welfare.

We trust that during 1941 you will visit our store often so that we may get better acquainted. You'll always be welcome, and we'll always have something interesting to show you.
