Growers Of Produce Incorporated

Organization Plans To Be Marketing Agent For Members

The Rowan County Vegetable Growers Association, organized during the past spring under the cooperation of Carl Wade, filed articles of incorporation at the office of County Court Clerk, C. V. Alfrey during the past week.

The Vegetable Producers Association is an organization of local produce growers, formed for the purpose of marketing their produce systematically and cooperatively, so as to get the best and most standardized price for their products. It is composed of twenty three members at present all of whom are stock holders in the corporation.

Any farmer who raises vegetable products is eligible to join. The State Marketing Agent has endorsed the organization, stating that much needed help can be secured from such organizations.

The next regular meeting will be held Thursday, June 19 in the agriculture room at the Morehead High School. All members should be present.

The series, which is sponsored and produced by the Kentucky division of the Works Progress Administration, is to feature the persons and culture of the lore of the mountain section of the commonwealth, and will probably go a long way toward correcting many of the miscon-

Dr. Nickell Unable To Publish Platform In This Issue

Press Of Business Halt Plan Of Candidate To Offer Program

Owing to the press of other affairs, which prevented his preparing his formal announcement as a candidate for the office of Representative from the Rowan and Bath District, Dr. H. L. Nickell has postponed publication of that announcement until a later date. He expects to have it ready for publication next week. However, he stated that he is definitely a candidate for the office, and is arranging his affairs so that he will be able to make a campaign before the primary.

Old Resident Passes Away In Louisville

Mrs. John W. Black Dies After Long Illness In Louisville Hospital

Shocking news came to the community when Mrs. John W. Black with the announcement of her death this week. She was the wife of Dr. John W. Black, formerly of Rowan county, now executive secretary of the Baptist State Mission Board with headquarters in Louisville, Ky., and a brother of D. A. Black of Elliottville.

Mrs. Black has been in failing health for some months, but at a time appeared to be recovering. The last period of her illness covered about three weeks brought her death. She was 61 years old and the mother of eleven children. She died in Louisville, where she has lived for 47 years and where she served the term as Magistrate. Mr. Alderman's announcement, refers the voters to his previous record in office, and promises to devote all his time if necessary to performing the duties of that office.

Local People Take Part In Song Festival

Mrs. Caudill And Group Of Girls Present Scotch Scolding Songs

Mrs. Lydia Messer Caudill and five little girls, Joan Cecil, Nancy Hobrock, Merle Fair, Hazel Black and Virginia Roberts gave a Scotch Episode at the Morehead South-South Song Festival Sunday.

Mrs. Caudill wore her Royal Scotch plaid and the girls were dressed in native point which was typical of olden times.

Others who took part in the festival from Rowan county were Cecil Dawson, son of Rev. William Dawson who went to New York with Miss Thomas, Sanford Bowling and DeWitt Christian, Edgar Hamm, who read verse of his poems about (Continued On Page Three)

Let Old Glory Wave

We have never specialized as flag-waving patriots, but in this time of trial and danger to the most sacred institutions of our nation, when freedom as we know freedom is withstanding her greatest test, it seems to us that we Americans, with our

hallowed birthright of Freedom, sanctified as it is by the heroic deed, who gave their lives to permit that freedom to live, it seems to us, that this is an excellent time to do a little waving of Old Glory, a little waving of that flag that means so much to America and to the world, and that brings us to a point that has caused some concern to the thinking Americans of Rowan county. Where are the flags that we are to wave in honor of our Americanism, in honor of our birthright, in honor of our rights and those of the free peoples of the entire world, and in defiance of the Hitler and Mussolinis of Europe?

It cannot but be noticeable, the absence of any flag waving over the court house, the county superintendent's office, the public school and the state jail— institutions in this section of the Morehead Staff Teachers College. There flags should be flying daily, flaunting to the world that here are American doctrines taught; here are American governmental principles dispensed; here are the

leaders of America thought and American action in Rowan county to be found. Yet there is no flag and no flag pole at the college, no flag and no flag pole at the court house, not at the county superintendent's office, nor the public school.

Elliott County Registers 318 New Voters

Large Majority Of New Registrants Are Of The Democratic Party

The county election in Elliott county is bringing out considerable interest. Judging by the number of new registrants in the county, a working party which closed on June 3, Mrs. Belle Johnson, County Court Clerk, announced that 381 new registrants had come in to register since the closing election. Of this number 16 were Republicans, 5 were Independents, and 360 registered as Democrats. This brings the total Democrats in the county to 4,320 and the Republicans to 408, while the total number of Independents is 11.

The registration by precincts was as follows: Sandy Hook, Democrats, 350; Republicans 47; DeWitt, Democrats 277; Republicans 9; Newcomb, Democrats, 500; Republicans 28; Little Fork, Democrats 403; Republicans 32; Moccasin, Democrats, 274; Republicans 9; Sinking, Democrats 277; Republicans 9; Crackerneck, Democrats 404; Republican 20; Laurel, Democrat 20; Republican, 20; Walnut (Continued On-Page Three)

Pensioners May Still Help In Defense

Workers Required To Let Office Know When They Take Jobs

Retired workers drawing Federal old age insurance benefits who take jobs available to older people as a result of the National Defense Program will be entitled to their benefits when they quit work. Elbert M. Bohannon, manager of the Social Security Board at Ashland, Ky., said today. He explained that the law provides that benefits payments are discontinued during the time when a worker has a job in covered employment paying \$15 or more a month. A worker past 65 years who has retired and begun receiving his monthly old age insurance payments is required to notify the Social Security Board of any change in his status. He is to do this at any time work for wages of \$15 or more a month in employment covered by the law. Mr. Bohannon added that the worker is not

Ag Conference

(Continued From Page One)
 tion of the farm program rests squarely on the shoulders of the committeemen whom the farmers have elected. "Much has been accomplished, said Director N. E. Dodd of the Western AAA Region, emphasizing the importance of wheat farmers everywhere voting on the wheat marketing quotas. Other speakers were J. B. Hutson, Reuben Brimburn, Earl Engle and Guy Bush, all of the Department of Agriculture.

In closing the conference, Assistant East Central Regional Director, Charles Lewis said: "I take men of pioneer courage and vision men with time in their backbones to adjust wheat acreage down and hog production up. It takes courage to show the local cannery that this is a national emergency and not a local one."

Dr. Robert Montgomery of the University of Texas explained that radio, airplanes and other modern inventions have done away with old boundary lines and that we cannot be isolationists. The world of 1938 is as good as dead, he said. "We are first to see the new and we are first to try it. It takes the same courage and vision to show the farmers that money systems, the ten-cent coffee and enriched self-sufficient feed pork, and eggs and dairy and poultry products are to be sold at the same price as those which are marketed beyond the farm gate. He challenged the farmer to Paul Appaby said: "You can't take as their watchword, 'Wake

 entitled to an insurance pay which he is so employed, and that if he fails to notify the Social Security Board that he is no longer employed, that that month's benefit. However, when he stops work or loses his job he should notify the Social Security Board at once and his monthly retirement benefits will begin again without delay.

According to Mr. Bohon, the retired worker taking a job is required to notify the Social Security Board when the job is one of those covered by the law. He may work in other types of employment, such as farming, domestic service, or odd jobs not connected with his employer's business, or he may have a business of his own, and continue to receive his monthly payments.

Mr. Bohon said that his office has post card forms which workers can obtain to use in notifying the Board if they go back to work in any covered employment. He urged workers to call on his office for information concerning this or any other phase of their old age and survivors insurance.

Thirty Seconds of Destruction (cont.) thirty seconds—one half of one minute, . . .

In that insignificant length of time fire destroyed \$285 in property somewhere in the United States. In that time, fire attacked someone's home, or someone's store, someone's factory, endangering life and irreplaceable possessions. And during each half minute of fire, seven days a week, 365 days a year, fire will continue to destroy \$285 worth of property unless we do something about it.

No one should say that he doesn't know what to do. Basic fire prevention is simplicity itself. The National Board of Fire Underwriters recently laid down the rules for successful fire prevention when it said in a few words: "Look around you! Burn that rubbish! Stamp out that cigarette before you throw it away. Keep gasoline out of the house. Fight fire before it starts!"

Here's What Home Canning Will Do

Mrs. Ercel James of Crittenden county, Ky., put up about 1,000 jars of vegetables, fruits, jams and jellies last year. As a result the grocery bill of her family of six averaged \$117 per month last winter. Several families in the county carried over a surplus of home-canned foods from last year, they reported to County Agent O. M. Shelby. This season, 30 families are growing model gardens to help demonstrate how farm families can produce the major of their living on their farms.

"I plan to add an electric refrigerator to my kitchen equipment this year, as I feel it will help me to save on food and on fuel. With a refrigerator much food can be kept from spoiling and I can cook enough to last for several days. So many steps can be saved, too, since we will not have to go to the basement for milk and butter while I am preparing meals. I can also keep fresh meats in hot weather with no danger of spoiling."

Flying Cadets Given Better Pay Under New Law

The War Department has created the grade of Aviation Cadet in the Army Air Corps that will put Army flying cadets on a uniform pay and allowance basis with those of the U. S. Navy and U. S. Marine Corps. It was announced today by Fifth Corps Area Headquarters.

Marine Corps pilots are required to pay their own insurance premiums. Aviation Cadets are now entitled to an annual \$300 bonus payment for each complete year or additional fraction of a year of active duty, whereas they formerly were allowed a \$500 bonus only after three years of continuous duty. The new payment plan is in line with regulations previously authorized by legislation for the Navy and Marine Corps.

A number of benefits will accrue to the Army's flying cadets under the new legislation. Among these is the authorization of a \$150 uniform allowance when the Aviation Cadet completes his training and is commissioned a Second Lieutenant in the Army Air Corps. This uniform allowance will be heretofore given only to Navy and Marine Corps flying cadets. The government will also pay \$10,000 life insurance policy for Aviation Cadets. New Salem is a new precinct recently formed and most of its voters will come from the commissioned all Army, Navy Sinking and Moccasin precincts.

Fire, believe it or not, has killed more Americans than all the wars in our history. And fire, today, is even more dangerous than in normal years. Fire menaces the defense effort. Fire in a key factory may stop production of essential parts for days and weeks. And fire, at all times, wastes material, labor, energies—and that most precious of elements, time.

Those institutions whose job is fighting fires are redoubling their efforts. The National Board for instance, is using its full facilities without charge, to help the Army and Navy departments prevent fire in army camps, navy yards, munitions plants, etc. It is carrying on an aggressive, 24-hour a day fight against the saboteur. But, vital as this work is, it is not enough. Every American must help if fire is to be defeated. And that means you.
