#### Why Blame Beer?

Occasionally, beer is blamed for unwholesom conditions, anti-social practices or other abuses in a handful of law-breaking taverns.

Such blame is entirely unwarranted. Prominent authorities-physicians, psychiatrists, dieticians and others-have definitely said that beer is a wholesome and healthful beverage, a true beverage of moderation.

Kentucky's legalized beer industry is determined to protect beer's good name-determined, therefore, that beer should be sold in Kentucky only under clean, wholesome conditions in lawabiding places.

You can help us, if you will, by patronizing only reputable beer retailers; and by reporting any disorderly outlets to this committee.
