

# THE ROYAL COUNTY NEWS

VOLUME NUMBER: Old Series No. 45; New Series No. 24.

MOREHEAD, KENTUCKY, THURSDAY, NOV. 27, 1941.

NUMBER FORTY SEVEN.

**Sports Plurges**

Well, I am sure glad that local boys have not killed all the rabbits and quail in the county. I think we should save some for our good West Virginia friends and neighbors who land here at all hours of the night. And they really know the country better than do I. However, I do not resent a man who is cashier of the First National bank of Huntington coming to talk to our dog like Duell Kazez. We never hunt unless it is like the weather they say, but in and always wear boots and in a long overcoat like Crutcher. We never go out unless our wife is mad and the weather is stormy. One can't beat a combination like that. So far we've got two quail—\$27.00 each. Yes, I think quails are 100 doggone high at 30 cents a dozen.

## Tobacco Warehouses Advertise

### Many Warehouses Invite Growers To Visit Them With Tobacco Crops

That tobacco is becoming an increasingly important crop in this county is evidenced by the interest tobacco warehouses in neighboring towns are taking in bringing to the attention of the growers their facilities offered by their warehouses for the disposal and sale of their crops.

In this issue of the News, an issue that might well be called the "TOBACCO SPECIAL," appear a number of ads from various warehouses here in Maysville and Mt. Sterling. We call the particular attention of our farmer readers to these ads.

This is the first time any Rowan County paper has ever carried any extensive amount of advertising from the warehouses in this section. It is to be hoped that the growers will read the ads carefully and select the house they wish to use from the list published, as these men who manage the warehouses advertised have indicated their interest in you and your welfare.

The ads listed according to the page on which they appear are:

Page 2 ... Growers, Maysville  
Page 2 ... Ky. King Maysville  
Page 2 ... Burley-Independent  
Page 4 ... Home, Maysville  
Page 5 ... Duke, Maysville  
Page 7 ... Kirk-Breis, Maysville

## Woman's Day To Be Observed By Christians

### Prominent Speaker Will Pay Respects To Missionary

The first Sunday in December, the Woman's Missionary Society of the Christian Church will present a Woman's Day Service. Dr. G. V. Moore, of the College of the Bible, Lexington will be the speaker for the occasion.

Woman's Day is an observance in recognition of the work that women do in and for missionary causes. Dr. Moore, an able leader in this type of activity, is an appropriate selection as speaker for the day, insofar as he has for many years been counselor to numerous churches throughout the state.

## Morehead Hi Announces Schedule

### Wins Second Game From Elliott School; Schedule Tough For Season

The Morehead High School is in a tough season this year, if the schedule below is any indication, and we think it is. They are playing the heaviest schedule in several years, and winning even a fair per cent of their games is likely to make them highly regarded by tournament time.

The Vikings have played two games of their crowded season already. They won easily from Soldier and went through a hard battle to win from Sandy Hook last Wednesday night 30-16.

Sandy Hook has a coming team made up of big boys, who before the season is over will be one of the good teams in this section.

Here's the Kings schedule and if anyone thinks it's a set-up let them try on their piano.

**HOME GAMES:**  
Nov. 26, Fenchburg  
Nov. 28, Science Hill  
Dec. 6, Soldier  
Dec. 23, Orono Hill  
Jan. 2, 1942, Vanceburg  
Jan. 9, Racedan  
Jan. 13, Grayson  
Jan. 20, Boyd County High  
Jan. 22, Viper  
Jan. 24, Cumberland  
Feb. 2, Sandy Hook  
Feb. 18, West Liberty  
Feb. 10, Haldeman  
Feb. 11, Pelfrey  
Jan. 2, 1942, Away From Home  
Dec. 2, Boyd County  
Dec. 9, Hazard.

## Hunting Season Attracts Many Visitors

### Bird Population Of Rowan County Suffers As Visitors Come In

With the opening of the bird season this week, Rowan county has been liberally "visited" in all sections with visitors bent on depopulating the bird population of the county. Red hat caps, red sweaters, red shirts and probably red underwear, are visible at all hours, from dawn to dusk, and the noise of shot guns makes the British accent in Lydia sound like a Sunday school picnic.

Over 300 licenses have been sold this year as compared with 250 throughout the whole of last year. Licenses have been altered this year, so that hunters pay a \$3.00 license fee this year permitting them to hunt any place in the state. The county for this year is \$1.00. Last year a county license for \$1.00 entitled a hunter to hunt in any part of the state.

Also this year the non-resident license fee is \$15.50 instead of 10.50 as previously.

## Eagles Face Toughest Schedule

### Practices Open Monday With Five Lettermen To Carry Burden

Its out of the frying pan into the fire for several of the 1941 Eagle football team in real earnest for, after closing the football season on Saturday last week, the call was issued for basketball practice on the following Monday and no-e-up is in sight.

The Eagles need that preparation with the tough schedule they are facing this season, to be offered them in several years. Incidentally it may be said that the fans will get their money's worth this year regardless of which team wins, with some real battle in several years. Incidentally it may be said that the fans will get their money's worth this year regardless of which team wins, with some real battle in several years. Incidentally it may be said that the fans will get their money's worth this year regardless of which team wins, with some real battle in several years.

## East Kentucky Is Well Represented

Eastern Kentucky as a whole is probably as well or better represented in the General Assembly as it has ever been in the history. The men representing the districts of Eastern Kentucky are, without exception the type of men who are able and anxious to rise above partisan politics and to unite in presenting a common front for the interests of the entire section as a whole.

In line with that thought, it occurs to us that it might be an excellent idea if these men represent the various districts of Eastern Kentucky, would get together, re-discuss their mutual problems, map out a plan that will work to their mutual advantage and the advantage of not only the Eastern Kentucky section, but the various sections and districts of the state at large.

Be it remembered that Jefferson county has several representatives while several eastern counties together may have but one. We personally have nothing against Jefferson county, but we are frank to say that we have a deep interest in this section of Kentucky.

## First Aid School At Maysville

### Training School To Be In Maysville For Period Of Two Weeks

Mrs. R. N. Carmichael, chairman of First Aid for the Mason County Kentucky Red Cross Chapter, announces that there will be a First Aid Instructor Course for the day, insofar as she has for many years been counselor to numerous churches throughout the state.

The course will be held from 7 to 10 p. m. to 2 p. m. on Friday and Saturday. The instructor will be Dr. Albert H. Sharpe from Nashville, Tenn. Dr. Sharpe is an outstanding authority on First Aid. These classes will be held on Friday night Monday to Friday over a two week period with no classes on Saturday and Sunday nights. Three hours of instruction will be given each night. This schedule satisfactorily completing this 30 hour course can then be authorized for the grade standard or advanced.

## Young Farmer Works Out Plan To Build Farm And Live Well Too

### Mr. and Mrs. Carlless Harris Live on 40 Acres Farm Located in Morehead in the Little County of Brushy. They Have Two Children, a Boy and a Girl. The Boy, Denver, is Three Years Old, and the Baby Betty is Only 19 Months Old.

The Harris came back to Rowan county from Ohio and bought their farm in 1939. Carlless is the son of Mr. and Mrs. S. Harris, who live on an adjoining farm. He paid cash for his farm, and obtained a loan from the Farm Security Administration to build a barn, buy cattle and meet operating expenses, such as the buying of seed, fertilizer, phosphate and lime. Timber from the land was saved into lumber for the barn and neighbors lent a helping hand.

## Harris Family Plans Farm Methods

### Joe Tolliver Wins Specialist Rating

Joe H. Tolliver arrived home Saturday for a brief furlough, before reporting for duty with the United States Marine Corps in Cuba. Joe, the son of Mr. and Mrs. H. B. Tolliver, has just completed the Third Water Distillation and Purification Course of the Engineer School of Marines at the Marine Barracks Quantico, Virginia. He has been assigned for duty in Cuba.

## Mrs. Burrows Dies At Hospital

### Wife Of Russell Burrows Passes Away Monday Following Illness

Mrs. Beulah Burrows of Farmers died at St. Joseph's Hospital in Lexington on Monday of this week. She had been suffering with a cancer, and had been in really bad health for the past several weeks, going back and forth to Lexington for treatment. Last week she became worse and was taken to the hospital, where she passed away on Monday.

Funeral services were held on Wednesday afternoon at the Christian Church in Farmers, conducted by Rev. Edward Moore of St. Joseph's Hospital. Mrs. Beulah Burrows was the wife of Russell Burrows of Farmers and was one of the best teachers of Rowan county, having been teaching in the Farmers' school until this year. She was 47 years of age. She is survived by her husband, Russell Burrows, her mother, Mrs. W. W. Burrows, her mother-in-law, Mrs. Thorton Childers; a sister, Mrs. Clara Plannery; a nephew, J. W. Craig, Dannie and shut-ins on Christmas eve. Paul Ray Craig, all of Farmers.

## Elam Writes Home On Airplane Trip

### Miss Patti Bolin Gives Outline Importance Of To Well Being

The following letter was received from E. E. Elam of the Clearfield neighborhood, who was called to California in October by the serious injury of his son in an explosion. Mr. Elam took his first airplane trip in going to California. The letter follows:

Sacramento, California  
November 20, 1941

Hello, Jack, I have often thought of you and the presch- ing of Morehead, the past week especially at molasses and turnip season. I will ask you to inform them all that I did not finish this year. I worked for Dupont Construction Co. until I was called to California on account of my son. L. C. getting almost burned to death in a Botavia gas explosion, on October 11. He is improving slowly at present. They have taken three layers of skin from his face. His arms and his body were badly burned. Doctor has taken all the first layer of skin from his arms and hands. They hope that he will look natural when he gets up. He will probably be in the hospital several months yet.

With my first trip on an airplane, I left Louisville on Oct. 14 for a 2850 mile trip. Went to Chicago and changed planes on the United Air Lines to Denver, Colorado, Salt Lake City, Utah and Reno, Nevada. It was a 10 hour trip at 180 miles per hour. As we passed over Des Moines, Iowa. It was wonderful to look down and see the cows and horses looking like chick- ens. Cars looked no longer than my feet. I thought, "Oh gee, if only Woody Hinton could see these sights, his eyes would sparkle and dance."

After I landed here at 2:40 a. m. My son Paul was waiting to drive me to the hospital and informed me he doubted whether L. C. was alive yet or not. When we arrived I found him under an oxygen tent. A was

## National Defense In Nutrition

### Breckinridge Loses To Owingsville

"Strong and alert people are built by abundant and well balanced diets" according to Miss Patti Bolin, chairman of the Committee on Nutrition for Home. An county. Miss Bolin further states that no nation can achieve its full strength unless all its citizens are well fed. To be well fed means more than filling the stomach with food that appeases hunger. It is more than getting the food that barely protects the body from diseases due directly to poor diet. It is having each day the kind of food that will promote abounding health and vitality.

Miss Bolin mentions the fact that the nation's goal is that everyone shall have a diet adequate in every respect for good nutrition. As compared with many countries ours is rich in food. But we still are far from being a nation of well-fed people.

Nutritional diseases probably

## Breckinridge Loses To Owingsville

### Drop Second Game Of Season By Score Of 17 To 32

The Breckinridge basketball quintet lost their second victory of the season to Owingsville by a score of 33 to 17 at Owingsville on Tuesday night of this week.

Breck's B team, won handily over Bays, Patrick, Wells and Banks. Subbs were Hutchinson Cassidy and Allen. Honors in scoring were divided between Patrick, Cassidy and Allen each scoring five points.

In addition to the schedule of games, published last week a game with Brooksville has been added. Breck has now played two games and the good to come.

Breck plays an alumni team of Friday night of this week in the college gym. Judd, Hogge, Johnson, Allen, Fraley, Pritchard, Carr and others of the former Breck stars may play.

## County Agent Announces Meat Canning Project

### Noted Canning Expert To Demonstrate Methods For Women

A meat canning demonstration will be given in Morehead on Friday afternoon, December 5. Details as to place, hour, etc. will be announced later. The demonstration will be given by Mr. Miles Burpee of the Burpee Canning Company. This meeting has been arranged by Agricultural Extension Service and is in charge of County Agent C. L. Goff.

This demonstration is designed to fit into the County's Food Programs—Food for Defense and Live-At-Home program. The public is invited to attend and home-makers who plan to can meats are especially urged to attend. Mr. Burpee will demonstrate the use of both glass and tin in canning.

## Church Of God Program For Sunday Announced

### Theme Of Program To Be Charity At Sunday Evening Service

The program for the Church of God on Sunday evening follows:

Prayer.  
Solo, "Kind Deed" ... Lowell Ellington.

## Who Are Our New Neighbors?

Is this the end? Has civilization as we know it come to a close and are the great cycles of time, turning as relentless as the tides of the ocean, about to swing into new orbits?

Are the frontiers closed to us? Is there no future? No—the only frontiers that have been crossed are those of geography. The frontiers of the mind, of research and knowledge, are virgin wilderness, marked only by the footpaths of those intrepid adventurers who dared to think ahead. Never before has there been such an opportunity to learn. There were never so many things to study, so much to be found out. Every day discoveries are made beside which the conquests of Columbus or the ancient voyagers pale into insignificance. Each adventure in knowledge, each new discovery paves the way for others far more important to mankind—for each rests upon a broader, firmer base—and offers far greater possibilities to the next inquiring mind.

But youth says, "We want to get ahead, to make a living. WE haven't the opportunities to carve out a life for ourselves that the pioneers had."

Haven't the opportunity? With our three dimensional lives opening up new trades, new professions, new types of work—or new ways to improve old ones? There are not the same opportunities—and there are no easy jobs—but the pioneers to which they so glibly refer did

not have easy lives and their work was not that to which they were accustomed. They had to learn. Youth today has the opportunity of going on from where the previous generation left off, with the same initiative, resourcefulness and adaptability. They can go further because of the efforts of those who preceded them.

Mans opportunity is limited only by man's knowledge and his ability to utilize his experience. There is always a place in the learning individual—he who thinks—who wants to give his best and to make his work the means of helping others.

The frontiers are not closed. Beyond them lies a challenge to stir the courageous in heart and spirit—a challenge to do and dare, and to find out.

## UPWARD LOOK

By Rev. R. H. Kazee

Question— I find that I often doubt my salvation, and God's care of me. Do you ever have such doubts? If not, how do you keep from having them?

Answer— I suppose, like most others, there was a time when I had doubts about these things, but I no longer have them. I found that doubt was simply a lack of faith, and that it was an insult to God to doubt Him. I quit it when I saw this:

I know what you're saying in reply. You say: "Yes, I know God is true, and will never go back on His promises, but I question my own understanding, I can't be certain that I have fulfilled all the requirements of God for my true standing and happiness. I never know just when I have done that which pleases Him, and when I am in good standing with Him. If I pray, I wonder if He really hears me, or if there is some lack on my part that keeps Him from hearing me. I know God never fails, but maybe I do. How, then, can I expect God to live up to His part when I do not live up to mine?"

Yes I hear you. You have gone right back from God's grace to man's works. You trusted Jesus to save you, then went right back to your own goodness to keep you saved. If your own faithfulness could keep you saved, it could save you in the first place, and it would not be necessary for Jesus to die for you. I have not made this error, therefore I do not doubt. I came to Jesus because I was a failure, because I never could be good, because I could not save myself. I put my faith in Him because He alone could save me. I trusted that Jesus had done for me, not what I could do for Him.

And I told Him that I could never be good myself, that what I was He would have to put to death, and that what He is He will have to live in me by His Spirit. So, "the life that I now live, I live by the faith of the Son of God," not by my own goodness or power.

The reason I have no doubts is that I have ruled out what I could do or be, and have put my hope entirely in what Jesus has and has been for me. Now, if I trusted in what I am or could do, I would immediately surrender for "I know that in me— that is, in my flesh— dwelleth no good thing." So, I do not count on self as being anything or being able to do anything to please God. Hence, I do not doubt on my own account, for I "reckon" with God "myself to be dead unto sin but alive unto God," and I count on self for nothing.

The reason I do not doubt Christ is because He is everything God wants me to be, and has done everything God wants me to do, and I am complete in God's sight in Him. He is my Saviour, my all, and because He cannot fail, I cannot doubt. I cannot fail, and constantly confess my failures, and they are all put under the blood of Christ. But Jesus is all God wants me to be, and through Him and in His Name, I can come to God with complete assurance that in Christ I am all God wants me to be. Thus, through Jesus, I am pleasing God. Hence, God is faithful to me because He is faithful to my Saviour. So, I do not doubt Him. He loves me more than I love myself, and will do more He died for me. Hence I trust for me. This I know because He fully, and never doubt.

## Book Gossip By Cain

By Sixth Malone Cain

Recent Books of Fictious Fiction books that have come out recently, will be the subject of our discussion today. They are as follows:

1. Sargant, William. "My Name is Aram." Harcourt, Brace Publishing Company. \$2.50

William Saroyan, who turned the Broadway theatre world upside down with his unconventional plays and was awarded the Pulitzer drama prize this year for "The Time of Your Life", is also a fiction writer of distinction. Here, in his latest book, a somewhat autobiographical pattern of related stories about an Armenian-American boy growing up in a lopsided and comic environment in California thirty years ago.

2. Lawrence, Joseph. "No Stone Unturned." Little Publishing Company. \$2.50

The new novel about everyday problems of living by the author of "But You Are Young" and other books is a story of a moderate Micawber, owner of a small real estate business, who believes that his wife and four children can't get along without his constant supervision.

3. Clemens, E. H. "Bright Intervals." Dutton Publishing Company \$2.00

A sparkling tale of an English family, the Chantons, who find their way through their emotional complications and joint difficulties, without wounding their humor, their loyalty to each other, or their irreplaceable interest in their world.

This material was taken from The Books of the Month Pamphlet, which is published by the R. R. Bowker Publishing Co.

Cumberland National Forest guards and rangers are knocking harder on wood every day, because no forest fire has occurred in this vast 435,000 acre Federal area since October 18, 1935. Supervisor H. L. Brden of Winchester claimed the present fireless period to be the longest since 1835. Fire wardens, look-outmen and others guarding the forest can be justly proud of this record, made while color, full but crisp autumn leaves are falling. Sooner or later this record will be ended, but in the meantime hundreds of acres of trees have been saved from destruction.

Mr. Burden added a word of caution to all hunters in the fields and woods. "Break your match after using," he said, "drop your camp fire and grind every bit of the stub or pipe heel in the ground."

Ohio led the Fifth Corps Area with 36 scholarship winners. Indiana is second with 155. Kentucky has 13 and West Virginia seven. Most of the 61 pilot trainees will train at one of the Air Corps' largest pilot replacement training centers. Kelly Field, Texas near San Antonio. The rest will go to air schools in Alabama, Oklahoma and Colorado.

**Book Gossip By Cain**  
By Sixth Malone Cain  
Recent Fiction Books

We're going to continue our discussion of last week on the new fiction books, that have been published recently. They are as follows:

1. Wren, Percival Christopher "Two Feet From Heaven," Macrae Publishing Company, \$2.50

The author of "Beau Geste" tells the absorbing and unusual story of an English vicar whose past arises to confront him in the midst of the turmoil immediately following the outbreak of the present war.

2. Dunlap, Katherine, "Once There Was a Village," Morrow Publishing Company, \$2.00

A charming novel about an American girl, her affections for the villagers in the French town where she lives with her brother and her love for a very appealing and delightful French man.

3. Thurman, Harriet, "The Swift Hour," Macrae Publishing Company, \$2.00

Though Carey Brook's stellar role in the theatre is dimming, she and Caleb Marsden, etamourer of the screen, are very much

in love, but when Carey's 18 year old daughter falls in love with Caleb, too life become very complicated.

4. Painter, Eleanor, "Spring Symphony," Harper Brothers, \$2.50

A novel of suspense and of beauty, built upon the tempestuous courtship and marriage of Robert and Claire Shmann. The author is a well-known singer, star of opera and operetta.

This material was taken from "The Books of the Month Pamphlet" which is published by the R. R. Bowker Publishing Company. The author would appreciate any comment the reader of these articles might have to make. Just address all communications to 508 Colledge Blvd., Morehead, Ky.

**Part Time Worker May Draw Pay**

Revised procedures for paying job insurance benefits to employees who are partially employed are now in effect in Kentucky, Robert B. Hensley, Acting Executive Director of the Unemployment Commission

said today. "In the past, a number of employees have failed to claim partial unemployment benefits because they and their employers have not fully understood the legal definition of partial unemployment," Hensley said. "The commission director explained that an employee is partially unemployed when he continues to work for his regular employer but his earnings fall below his benefit rate because full-time work. The benefit rate is the amount of unemployment benefits the employee could claim for a fourteen day period if he lost his job.

"In other words, partial unemployment is 'under-employment.' A man does not have to lose his job to be eligible for partial benefits," Hensley said. "The employment relationship is maintained, but the employee does not work full-time. However, the employee must be available for full-time work if his employer needs him."

Hensley made it clear that partial benefits are payable only when the worker's reduced earnings are due to lack of work on his regular job. The new procedure does not compensate a worker who for personal reasons chooses to work less than full-time.

**Basters Are Needed To Work On Buttons**

How about a few "baster-uppers?" The button-sewer-owners are being taken care of. But now comes Mrs. M. E. George, with an appeal for basters.

It appears that the neighborhood, has assumed the responsibility for completing 150 pairs of pants for the little British boys and in order to finish on schedule, they need additional help. Even if you can't stitch, maybe you can buste. And if you can buste, they can use your help. Call Mrs. M. L. George and on December 21. The public is kindly invited to attend any of the bastes meet there each or all of these services.

Tuesday. And don't forget that more button-sewers-owners and more gutters-uppers can always be used.

**Revival At Church Of God To Open**

Reverend Ramah Johnson of Pine Ridge, Kentucky, will arrive next week to take up his duties as pastor of the Church of God. He will begin his work with a revival meeting which will last two weeks. The meeting will start Sunday evening December 7, and end probably Call Mrs. M. L. George and on December 21. The public is kindly invited to attend any of the bastes meet there each or all of these services.

**SAILORS LEARN METALWORKING**

Enlisted men in the U. S. Navy and Naval Reserve have the opportunity to learn more than fifty different trades and vocations. This schooling, worth hundreds of dollars, is free, and the sailors are paid their regular Navy pay while learning.

One of the most popular trades chosen by the bluejackets is metalworking. Pictured here are two enlisted men receiving instruction in acetylene welding from a qualified Navy instructor. Courses included at the metalworker's school are blacksmithing, oxy-acetylene welding, arc welding and cutting, coopering, sheetmetalworking, general metalworking and boilermaking.

Any ambitious and patriotic young man will be given the chance to qualify for one of the Navy trade schools if he enlists for service in Uncle Sam's new "Two-Ocean" Navy.

**Vogue Beauty Shop Is Leased By Owner**

The Vogue Beauty Shopp has been leased by the owner, Mrs. Louis Davenport of Dayton, Ohio, to Mrs. Hallie Bradley, formerly of this city but more recently of Grayson. Mrs. Bradley will operate the Vogue in its present location and will welcome her old friends as well as new at the beauty salon in the George Caudill Building.

### Farmers To Increase Defense Crop

Your farm can help to win the war and write the peace" and county officials and Agriculture Secretary Claude R. Wichard.

But to do this—to help feed the British and to feed our own people and to help feed millions of Europeans after the war in America will need to increase production of some of the foods needed.

cultural defense boards, these food and seed needs are being broken down into regional, State and county production goals and C. B. Turner, chairman of the Rowan County Agricultural Defense Board announces that within the next few weeks a representative of the county board will call on each farmer to learn what increases he will make in food production in 1942 as a contribution to national defense.

Major increases needed in Kentucky, according to the State Agricultural Defense Board, are 27,618,000 gallons more milk than is being produced in 1941, an additional 10,212,000 dozen

eggs and marketing of an additional 21,127,000 pound of beef and veal.

Besides these increases, Mr. Turner points out, increases in certain other foods and feeds will be needed in this county and these will be included in the Farm Defense Program plans which each farmer will be asked to make.

If we are to reach these goals Mr. Turner said, farmers will have to produce more than they have ever produced in the history of the United States. But this is no time to over-produce on wheat, cotton and tobacco, if which there are abundant supplies on hand, he added.

Farming "as usual" will not be either profitable or helpful in national defense. Mr. Turner points out, however, that the request for increased production is in needed commodities for which there is a rising demand, and is NOT a request for a blanket increase in all types of farm products.

In order that Rowan county farmers may assist the county Agricultural Defense Board in making a survey of the farm production plans for 1942, Mr. Turner suggests that they begin now to:

1. Check farm acreage and livestock to see what products can be increased, maintained or reduced in 1942.
2. Stock with the county defense board on processing and handling facilities for crops or products they plan to produce.
3. Start carrying on 1942 production plans now by laying in supplies of seeds, fertilizers and other material that will be needed.

that were not ready for market late in June and early in July.

In several instances, groups of late lambs have been treated two, three and four times for stomach worms between July 1 and October 1, and yet, on autopsies, stomach worms and other parasites of the digestive tract have been found. All of these the blood being thin and watery lambs are extremely anemic.

The red blood cells are extremely low. Lambs that are heavily infested with parasites in the digestive tract that have become extremely anemic, do not respond to good care and feeding even though they are treated in a way that removes parasites.

In a way that removes parasites in a way that there has been more serious trouble in lambs this year than is common in this area it seems quite evident that are the most important factors are the unfavorable condition of the pasture and earlier than usual heavy infestation of parasites. Even when the lambs are fed all of the good grain mixture they will eat, they do not respond.

Another class of sheep in the young western ewes shipped in from the west should under the present pasture conditions, be immediately placed on good and a good grain ration. In addition to whatever pasture may be available Western sheep should be free from parasites by the use of the best methods. The sheep should be given evidence of having been fed sufficiently liberally to keep them in prime condition. Thus for late lambs that are to feed out for market and for young ewes that are shipped in for breeding purposes, it would be essential to provide a liberal ration of hay and grain, in addition to pasture. Just so far as possible fresh clean water may be provided and salting regularly should not be overlooked.

The sheep that have come to us for post mortem examination showed no evidence of an infectious disease that would

call for vaccination; neither are medicinal agents of any value. The only hope of doing anything beneficial for these sheep is to treat them for intestinal parasites, feed liberally and see that they have clean water and salt.

**350-POUND RECORD FOR KENTUCKY COWS**

Seventy nine cows in five daily herd improvement associations are competing for a record of 350 pounds in 300 days.

More than 10,000 Red Cross nurses, members of a large Red Cross chapter of the nation's finest red cross nurses, are being sent to a pound higher than a started to Army and Navy duty, Mr. Hagan said. The Red Cross chapter of the nation's finest red cross nurses, members of a large Red Cross chapter of the nation's finest red cross nurses, are being sent to a pound higher than a started to Army and Navy duty, Mr. Hagan said. The Red Cross chapter of the nation's finest red cross nurses, members of a large Red Cross chapter of the nation's finest red cross nurses, are being sent to a pound higher than a started to Army and Navy duty, Mr. Hagan said.

University of Kentucky College of Agriculture and Home Economics.

There are over 300 field directors and assistants on duty at 185 stations and hospitals, serving approximately 900 points of field service. "These men," he explained "are trained to serve as advisors to soldiers and sailors with social or economic problems. If a service man's family is involved in the problem Red Cross workers in the home town chapter form a liaison to bring about effective solution."

### Chessie Chats

The earliest railroads in this country were built of wooden rails capped with iron "straps" of iron to provide a smooth running surface. These were called "strap-rails." Solid iron rails were imported from England as early as 1831 but it was not until 1865 that steel rails were manufactured in the United States.

Don't cuss out that furnace, Mister. Maybe it hasn't been fed right—maybe it's unhappy! Next time you order coal ask your dealer about coals mined in the rich fields along Chesapeake and Ohio, for this area produces as nearly perfect a fuel as can be found. Your dealer will tell you which of these All-Purpose coals will solve your particular heating problem best!

Since 1932 the railroads and the Pullman Company have spent more than \$78,000,000 for the air-conditioning of passenger equipment.

It's a treat to eat in the Tavern Cars aboard Chesapeake and Ohio's through trains. Delicious meats, fish and fowl... tasty fresh vegetables... assorted breads and tempting desserts... all cooked and served in Southern Style—as friendly prices!

The railroads own and maintain some 370,000 buildings, from watchmen's shanties to huge modern terminals.

If all the boiler tubes and other obstructions were removed from one of the largest locomotives in operation in this country an automobile could be driven through with room to spare! Firebricks in these huge engines are 9 feet wide and 22 feet long—almost as big as your living room!

You can always count on the Chesapeake and Ohio Lines for careful, efficient, on-time freight service—no matter what you ship!

### Independent-Burley Warehouses Are Open in Maysville

The Burley and Independent Warehouses, Maysville, Ky. owned and operated by J. F. Hardyman are now open to receive tobacco.

The warehouses have ideal facilities for handling tobacco, and the light and arrangement is as good as any in the state.

J. F. Hardyman who strays every basket of tobacco at the Burley, has been in the tobacco business for twenty years. Every effort is exerted to get the top market price for every basket sold, and he has an interest in the farmers. The workers have been with them for ten years and they are trained to handle tobacco and to give service.

The location of the Burley is very convenient being at the head of the new concrete viaduct and has storage space so that your truck does not have to stand out in bad weather.

The Independent is also ideally located on Forest Avenue in the tobacco warehouse district. The same management takes care of both houses; and they are striving for satisfied customers at all times.

J. W. Hardyman is sales manager of the Independent, and has been in the tobacco business equally long. Mr. Bruce Harrison, Chariton, Ky. is floor manager at the Independent; Hugh (Guiny) O'Neill is floor manager.

**SHEEP NEED EXTRA CARE THIS SEASON**

The dry weather during the past three months has affected very seriously the pastures in all parts of Kentucky. In some areas the pasture is practically bare; in others what little grass and weeds there are are very inferior in nutritive value. In addition to poor pasture, the water supply is inadequate for domestic livestock and what pond water is available is unfit for animals to drink.

This seems to have been a bad summer for parasites in sheep, particularly stomach worms. Lambs infested with stomach worms to the extent that they were visibly sick were encountered several weeks earlier this year than has been the case for several years past. The most serious trouble in sheep from parasites has occurred in lambs

The state champion fat stock judging team from Bourbon county and the champion poultry judging team from Boyd county will compete in national contests in Chicago. The Kentucky Poultry Improvement Association is helping defray the expenses of the trophy team.

Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

WITHOUT an intercomunicating system consisting of cables and wires, the modern world would be all but worthless. The wiring is just as important as the ship turrets or the steam power. The ship might have all the apparatus, but she would be of little value in a section. Some men are like an unfinished ship. They have the hull, but they are not capable of doing a job that requires responsibility. They are merely shells of efficiency until the "wiring" or training is acquired. Today thousands of men are working in the New York Navy Yard, busily engaged in building this nation's two-ocean navy. These men are given opportunities to advance to better jobs. The task demands skilled technicians and mechanics. Every department must have highly trained men to direct those who build and fit together the parts of gigantic battleships. The Navy is proud of the spirit of the men who build ships, but that is not enough. Such workmen must be perfectionists. There is not much chance to better jobs. The task is being made in that direction. The big jobs in the shipyard, like those in any other big American industry, are handled by those men who are properly "wired" to pace with speed and efficiency. You have to have the "know how."

Rufus T. Strohm

Generally speaking, your immediate superior would be the proper person to receive your suggestion that you would like to have a voluntary pay-roll allotment plan introduced. The firm's bank can supply information about such a plan.

NOTE—To buy Defense Bonds or Stamps go to the nearest post office, bank or savings and loan association; or write to the Treasurer of the United States Washington, D. C. Also Stamps now are on sale at retail stores.

More Broccoli Found In Fall Home Gardens

With the "home garden for defense" program widely followed in Kentucky, many different kinds of vegetables may be found in many gardens. Broccoli, a delicate vegetable some being seen more often. The following recipes come from the Kentucky College of Agriculture and Home Economics.

Wash the broccoli, remove all dried leaves, and cook in an uncovered pan in boiling salted water for 25 to 30 minutes. The broccoli is then drained carefully as it breaks easily, and dress with Hollandaise sauce. The Hollandaise sauce is made as follows: Cream one-fourth cup of butter with yolks of two eggs, adding eggs one at a time and beating well. Season with one-half teaspoon salt, a dash of pepper a grain or two of cayenne. Add slowly one-half cup of boiling water, stirring constantly. Simmer over hot water until thick. Remove from fire and add two tablespoons of lemon juice. If sauce begins to curdle, beat with a rotary beater and it will become smooth again.

To Hold Tests In Schools

Mrs. Eunice Cecil and Mrs. Golda Dillon, supervisors, start giving final Achievement

Tests to all rural children on December 15. If 85 percent of the first four grades raise their reading standards at least one grade level, the teacher is to receive a bonus for their success.

The schools of Rowan county will celebrate Thanksgiving vacation Thursday and Friday of this week. Schools will be dismissed from Wednesday morning until Monday morning.

Attendance has been better this year than ever before. More children above sixteen have enrolled in school this year. People are really becoming education minded and are realizing that they are the ones who lose if they do not send their children to school. This is a big year in attendance.

CLEARFORK

Those who had perfect attendance for the month of Dorris Littleton, Aris Littleton, Fern Littleton, Agnes Littleton, June Littleton and Cora Blevis.

Eugene Dowdy has moved back to the Clearfork district.

RAMEY SCHOOL

A pie supper held at the Ramey school was a big success. The total proceeds amounted to \$33.15. Elijah Monroe Hogge, of Morehead acted as auctioneer. The contests were won by Clayton Foster, Ugly man; Irene Pierce, Best looking girl; Avery Ford, Guess cake; Bill Curtis Lucky box of candy.

Those who have perfect attendance for the fourth month of school are Edward Caldwell, Carl McClurg, Marvin Black, J. T. Caldwell, Homa Caldwell, Otis Caldwell, Viola Harris, Gladys Fagan, Velva Caldwell, Mabel Black, Gene H. McElvian Maddox and Elsie Harris. The Gospel work being done for the past few weeks by Rev. Cooper and his helper, Clyde Smith climaxed with all the pupils in the upper elementary grades receiving testaments, while others received Bibles.

President's Diamond Birthday Ball

President Roosevelt's coming birthday on January 30, 1942, on which day the President will be sixty years of age, has been declared his Diamond Jubilee Birthday Celebration.

The President, in a letter to Keith Morgan, National Chairman of the Committee for the Celebration of the President's Birthday for the National Foundation for Infantile Paralysis, again gave the use of his birthday for the ninth consecutive year to raise funds for the nation wide fight against Infantile Paralysis.

Mr. Morgan announced that in preparation for the "Eight Infantile Paralysis" campaign a meeting of all the State Chairmen will be held in Washington on Tuesday, December 2. President Roosevelt will receive the Chairmen at the White House on that day. Mr. Morgan, in releasing the announcement of the coming celebration of the President's Diamond Jubilee Birthday said that he believed that all Americans, young and old, in all walks of life and in every hamlet of

Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

WHERE will the defense worker of today be in five years? That is a question which cannot be answered with any great degree of certainty, but there are well defined steps leading toward the ultimate goal sought by all. Any man who does not take steps today along for the next five years on a routine job, no matter how important it is to the production of the war effort, will find himself in no better position than he is today.

It's as true today as it was 100 years ago, that the man who works to get ahead is the man who is improving himself. He is looking far beyond the present job, and in most instances is studying some type of instruction that will fit him out of a routine job into a position of greater responsibility. Routine jobs in factories and manufacturing plants, of course, will pay more during the next five years, and they are vital to the nation's defense plans. However, there is danger for the individual, in that he may be content to get along with little thought of advancement. It means that he will have to drive toward the goal even when the future appears dark and uncertain, but some men—those who will finish in the key jobs—will keep plugging away in fair weather and foul.

Self-improvement in the face of adversity is typically American. We now have to show that the same progress can be made in times of economic upheaval and abnormal employment demands. Job may not be so plentiful. Five years from now...

order to intensify the activities of pilot and ten specialist trainees; was announced Tuesday at the Fifth Corps Area Headquarters Columbus, Ohio. This brings the Chairman to an executive meeting in Washington on Tuesday, December 2. Plans for the coming celebration will be fully completed at that time.

Kentucky Sends Thirteen To Aviation Schools. The candidates for Army wings will report on or about November 8 to their assigned schools for instruction in their respective fields for approximately 35 weeks.

Defense Bond Quiz

Q. Who said: "I only regret that I have but one life to lose for my country?" A. Nathan Hale, who gave his life for America, like great

numbers of his fellow countrymen. We are only asked to lend our dollars for Defense Bonds and Stamps to defend the liberty for which they are directed.

Q. Where I work there is no pay-roll allotment plan for the buying of Defense Savings Bonds and Stamps. How can I get one started?

A. This depends on your position and the kind of organization in which you are employed.

Dec. 15—Wilmington  
Jan. 2—Cedarville  
Jan. 7—Marshall  
Jan. 9—Eastern  
Jan. 23—Western  
Jan. 31—Berea  
Feb. 2—Marshall  
Feb. 3—Murray  
Feb. 9—Western  
Feb. 11—Eastern  
Feb. 12—Wilmington  
Feb. 13—Rio Grande  
Feb. 20—Marshall

**Wins Second Game**  
Dec. 10, Viper.  
Dec. 12, Grayson.  
Dec. 16, Frenchburg.  
Dec. 16, Haldeman.  
Jan. 4, West Liberty.  
Jan. 10, Olive Hill.  
Jan. 20, Cumberland.  
Feb. 13, Vanceburg.  
Feb. 17, Raccoon.  
Feb. 21, Nashville.  
Feb. 28, Poffey.  
Two games have been scheduled with Owensville but the dates have not yet been settled. The fate for the Pikeville game here is tentative and subject to change.

**Plans Farm Life**  
hand in a "barn raising."  
Carless has cleared over 13 acres since he moved to this farm, and he has established a fine grass and clover fields. Each year he has sown some cover crops of wheat, rye and grass. By using lime and phosphate, he has increased his hay crop one ton more to the acre, and he has increased his corn crop an average of 15 to 20 bushels per acre to an average of 70 bushels per acre.  
The Harris family raises a good variety of vegetables in their garden, cans and stores a sufficient quantity for their winter use, and this year has raised 58 bushels of potatoes for sale.  
Every year Carless makes plans for the coming year and always includes in his plans as many improvements as he feels he will be able to accomplish.  
Next year he plans to put one acre of ground in corn. By using sorghum his family will not have to buy so much sugar, and he also expects to sell several gallons of molasses.  
There are only a few bearing fruit trees on the farm now, so in the spring he plans to set out other fruit trees of various kinds.  
Carless has two cows and one heifer which he raised, and which will be fresh in the spring. Since the cows furnish enough milk for the family but are not good milkers, he plans to raise two baby heifers and will enter them in the Rowan County Baby Beef Show next fall.  
At present, the Harris are living in a very poor three roomed house, but they plan to build a stone house with a basement as soon as they are able.

**First Aid School**  
certified Red Cross first aid courses. There is no cost attached to the course. However, each candidate is supposed to own a First Aid Manual, for sale at 65 cent each. No previous First Aid training is necessary. Chapters are asked, however, to be very careful in their selection of representatives. The candidates must be at least 20 years of age, must have the necessary educational background to make good instructors, and after completing the training must have an opportunity to teach. They should be recruited from such groups and organizations as: Boy Scouts, Girl Scouts, Mens Service clubs, City School system, county school system, fire departments, police department, women's clubs American Legion, and so on. As it is impossible to have a First Aid Instructor Training Course in all of the 9700 chapters in the nation, and as there is a greatly increased interest in First Aid because Mayor LaGuardia is inviting and urging this in con-

nection with his Civil Defense programs, the Red Cross is in- viting neighboring chapters to come to Maryville and take advantage of this training. If you are interested in joining this class call either C. B. McCullough, phone 39 or H. C. Hagan, phone 38.

**Nutrition Aids**  
constitutes our greatest medical problem, not from the point of view of deaths but from the point of view of disability and economic loss. Millions of people are living in this country on diets that are below the safety line. This does not mean that all the people are hungry nor all living on poor diets show signs of pellagra, beriberi, scurvy anemia or other well defined diseases. Getting along on poor diets for weeks at a time takes its toll in chronic fatigue, shifting aches and pains, and certain kinds of digestive disturbances. While some of these may not

keep a person in bed, they cut down on their efficiency. They lower a person's resistance to infection. The Nation's families need good diets to safeguard their own health and to strengthen the defenses of the country.

**New Starter At Stockyards Now**  
The management of the Morehead Stock Yards announces a change in yard officials beginning this week. Johnnie Howard will serve as stock starter in the future. Mr. Howard is an experienced cattle and stock man and has had great success in his work in other yard with which he has been connected. It is felt that his services will improve the service to the owners who bring their stock to the Morehead yards.

**Sewing Goes Ahead But More Are Needed**

**A HEADS-UP HONEY... all the way**

GO ahead—slide into that inviting front seat and press the starter treadle. Feel better? You bet! Know it or not, your chin's higher already, just picturing yourself traveling into tomorrow in this rugged Buick.

And if it's a long road ahead, who cares? That's a more efficient valve-in-head under your bonnet, isn't it?—and with Compound Carburetion! to guarantee top power and top range!

Or suppose the going does get rough—haven't you all-coil springs to float you gently through bad going, and new, broad-rim wheels to ease and steady the ride?

What matter if this car should have to do you two or three times as long as usual—Buick's

trim looks are only the outward dress of brawn that's the match for as many years as you want a name.

Things like husky frames, torque-tube drive, extra-strength connecting rods, oil-cushioned bearings that go twice as long under equal loads—such things mean you're all set for tomorrow and tomorrow, ad infinitum.

So head now for your Buick dealer and a Buick try-out. It's "first come, first served," and you wouldn't want to miss getting yours, now would you?

\*Available at slight extra cost on Buick special models, standard on all other Buicks.
