Eagles Clean Marshall 43-40

Presenting for the first time an all-right defense that kept the shap shooting Morecraft away from the basket and held him to two goals, Morehead's Eagles demonstrated what they can do, but haven't always done by upsetting Marshall college here last Friday night, 43-40. It was Morehead's first win over the West Virginia school in any sport, and a win well deserved. In addition to winning, the Eagles fans were treated to the best display of officiating witnessed on the local floor this season.

While holding Morecraft to six points out on in the foul circle area, Duncan and Cooper both piled up the points for the Eagles, each accounting for 15 goals. Duncan played under the handicap of two men guarding him, and tallied five field goals and five free throws. In total, Morehead played eight defensive games with the extra scoring punch of (Continued On Page Three)

Red Cross Program Presented For PTA

The P.T.A. committee of the Rowan County Chapter of the American Red Cross will present the program that proved such a success when offered at the college open last Thursday. This time they will offer it at the meeting of the P.T.A. which is to be held on Friday night at 7:30 at the school gym. Children from the grades will portray the various characters, while ladies of the Production committee will demonstrate the work they have been doing for the past year and a half.

Rowan Roads And Schools Profit By Forest Sale

Rowan county's school fund received additional boosts from an unexpected source this year. The program was considerably more than was ever expected. We refer to the "wind fall" these two funds received from the sale of timber on the Cumberland National Forest of which 25 percent of the sale proceeds goes into the two funds mentioned.

In the year just passed this county's share of the income from the forest sales amounted to \$75,215. This money is to be used to improve the school and road funds of the county.

"If I Had Known"

We can no longer afford the luxury of post-mortems but we cannot afford to ignore the lessons we saw learned in blood and suffering abroad.

We cannot afford differing or disunity among our people in the thinking in terms of group, the demanding of special privileges, the constant asking for special favors or concessions.

This war can only be won by the active participation and all out effort of every one of us. There are no longer any non-combatants. We are all in it. Wars are now won by ALL the people, not by any one group.

How can we hold out for personal advantage when we consider the sacrifices being made by those who are fighting to keep the enemy from our own shores? Their lives are being given for us to put an end to differences and critical discussion of each other to get together and back up our soldiers.

We cannot afford to be separated. We have seen what happened abroad when disunity entered. We have seen what seeking after special privileges has done. Thyssen learned the lesson when the monster his money helped create devoured him. The French workers learned it when the trade union movement was dissolved in France.

There is one paragraph that is quoted in many papers today which we all should learn. "What does that Frencman, soldier, workman, politician, or business man, think today? Probably it's something like this: 'I wish I had been less greedy for myself and more anxious for my neighbor. I wish I had realized you can't beat off a determined invader by quarreling dissipated people at home; I wish I had been willing to give in on some of my rights to other Frencmen, instead of giving all of them up to a foreigner. I wish I had realized other Frencmen had their rights too. I wish I had known that patriotism is work, not talk and giving, not getting.'"

We must stand together. We cannot afford the luxury. We must work today for a common aim, for the good of ALL of us if any of us are to survive.

We do not want to have to say "If I had known" when it is too late.

War and Marriage will be the subject of Dr. G. B. Pennebaker, who will be guest speaker at the Young People's Guild at the Christian church tomorrow night. This topic, a pertinent one in the present day, should be of especial aid to all young people, and the college students are urged to hear Dr. Pennebaker Sunday night.

Tom Young presented his "surprise" program to the Guild last week, a very entertaining group of guitar-accompanied mountain songs.

Next Sunday is the regular meeting for a Guild meeting, which will be served by the Women's Guild.

College students are invited to Guild meetings, which are held in the basement of the Christian church each Sunday at 6:15 p. m.

Agronomy Expert Meets With Farmers

Mr. Ralph Kenney was with County Agent Kermit Mills and some of the Rowan county farmers Friday, February 20 to discuss the problems in agronomy. Some of the things decided upon to be accomplished this year are:

1. Seed more cover crops. This will save the soil, provide more pasture and small grain.
2. Due to increased price of farm seed, poor transportation, and the need for more seed, the farmers agreed to try to save seed of the following crops:
 - a. Barley—fifteen farmers are wanted to try a barley for seed.
 - b. Baibka ryegrass—Ten to 15 farmers should save for seed.
 - c. Oats—especially Fulwin Oats—Fifteen to 20 should save seed.
 - d. Vetch—as many farmers as possible save vetch seed.
 - e. Italian ryegrass—save as much seed as possible.
 - f. Karcen lespedeza seed—we need to save at least enough seed for Rowan county.
 - g. Red top—save some of the Red top for seed.
 - h. Soybeans—the government wants an increase. So we need to sow soybeans for seed.

If the farmers of Rowan county will get in the habit of preparing their own seed, it will solve several problems. Some of the farmers could afford to sow more seed per acre, thereby getting better pastures and hay crops. He would be able to choose to use it. Form 1040 seed all cultivated land in a should be filed. The last page winter cover crop to protect his land from washing and leeching. This winter cover crop may be a small grain which would permit us to decrease our acreage of corn. Above all, if the farmers will save part or most of their seed, it will mean a big saving for Rowan county because the average farmer in the county is now spending \$20 to \$30 a year, for seed which he can save.

Miller Speaks In Chapel
"True Faith and Contentment" was the topic chosen by Dr. Frank B. Miller for his address to the Tuesday devotional chapel in his talk. Dr. Miller told of Martin Luther, and the great influence that he had upon religious education. Throughout the talk, Dr. Miller discussed his personal experience for the year 1941, and married persons who closing thought in the speech had aggregate earnings average was "be sincere in your prayer."

Income Tax Levied On As Little As \$14 Per Week

This is a message to students. Single persons or married persons not living with husband or wife, whose average earnings were as much as \$14.43 a week or discussed his personal experience for the year 1941, and married persons who closing thought in the speech had aggregate earnings average was "be sincere in your prayer."

He said that prayer was a subject that could be treated as ordinary daily duty. It should be fully delved into by the person using it and it should be done with a feeling of sincerity.

Mussman Arrives At New Army Flying School

Onetime Morehead State Teachers college student, Aviation Cadet Ralph Mussman, Jr. of Newport arrived recently at the Midland Army Flying School at Midland, Texas, as a member of the initial class of bombardiers to begin training at Uncle Sam's latest and greatest school devoted exclusively to turning out expert bombardiers.

Mussman attended Morehead College from 1933 to '40 when he received his AB degree. He was prominent in both basketball and football during those three years in each sport, and receiving the award for being the most valuable player in '40. Previous to becoming a cadet he was a teacher and coach.

Processed, issued initial equipment at a reception center at Maxwell field, and then returned to the barracks with other members of his class was passed on to advanced training at Sloan field.

At this field the bombardiers learn all the tricks of their important trade, will be commissioned second lieutenants in the Army Air force at the end of their twelve week training course.

Student Forum Held Thursday Evening In Cafeteria

Every other Thursday at 7:15 in the college cafeteria the campus forum is conducted and various questions are discussed. A number of students and faculty members attend the forum, but this group represents only a small percent of the enrollment. Those attending find the discussion makes up an entertaining and educational hour as student and faculty members exchange ideas and hear different views on current problems.

Attend the forum and exchange your ideas! The two previous forums have been round table discussions on College Education or a Defense Job and What Constitutes Intelligent Criticism of the Government.

Everyone is invited to attend these meetings and the grill is kept open for the benefit of those attending.

When a Child Needs a Laxative!

SYRUP OF BLACK-DRAGHT is a tasty liquid that most children will welcome whenever they need a laxative. What's more important, it has the same main ingredient as BLACK-DRAGHT, its older cousin. Perhaps that's why it usually gives a child such refreshing relief from the familiar symptoms which show a laxative is needed. Comes in two sizes: 2oz.-5¢.

Days are devoted to ground school classes, where they learn the theory and workings of the secret bomb sight, and to actual bombing practice over targets located out on the former cattle lands of windy West Texas.

Many nights too, are given over to practice bombing missions. Housed in trim white and green barracks fed in special mess halls and kept in camp-like conditions through a closely coordinated program of academic and physical training, the prospective bombardiers find in Sloan field a

CARD OF THANKS We wish to thank our many friends and neighbors for their kindness and sympathy during the illness and death of our beloved father, D. G. White. We especially thank the Lane Paper Mill Home for their nice work. The Pelfrey Children.

Tobacco Expert Talks (Continued From Page One) This amounted to as much as 400 pounds per acre in many cases and when the leaves were sold crops averaged as high as \$44.00 per hundred pounds. Mr. Hunt showed that in Grant county, a farmer paid his children approximately \$25 to prime the lower leaves on part of his crop and these leaves brought \$265. The farmer thought this was too much to pay at the time the leaves were primed and left that many more in the field. At the time of the sale he realized that for another \$25 he could have doubled the \$265 in salvaged leaves.

Mr. Hunt mentioned that at the present time it is impossible to obtain a higher tobacco allotment but it is possible for the farmer to increase production 400 lbs per acre by proper management of plant beds, fertilization and priming lower leaves. Mr. Hunt pointed out that it is possible for each farmer to present to increase his income per acre by \$100 over what he secured this year if he prices next season are at this year's level.

Enrollment (Continued From Page One) The Navy is pretty exciting. Would you believe it, they are trying to make a radio opera out of me. We do a little every night. We learn the story or radio; we learn to receive and transmit code; we learn typing and all the other things that concern radio. We go to the county agents on the proper four months course in radio and after that, well I guess the faps will get me if I don't get them first. If I can make a high grade in this course I may get to go to an advanced radio program that discusses more fully course that will be fine, don't many of these problems and you can be obtained for the amount of \$1.00. Dr. E. S. Shannon's class in bacteriology at the college was Rowan County News are for a present to hear the discussion on plant diseases.
