

ROWAN COUNTY NEWS

VOLUME NUMBER: Old Series, No. 61; New Series, No. 25

MOREHEAD, KENTUCKY, THURSDAY, MARCH 12, 1942

NUMBER ELEVEN

We pledge Allegiance to the Flag and to the Country for which it stands.

ONE NATION, indivisible, with LIBERTY and JUSTICE for ALL.

Americans All

We have been getting a wonderful response to our request for news and letters about and from Rowan county boys, your sons and brothers, who are in the service. We realize that the letters as a rule are of a private nature, and we will gladly omit all personal items that can concern only the immediate family of the boy in the service.

On the other hand, the people of Rowan county are interested in the boys from Rowan county, where they are and what they are doing, insofar as it will not convey information to the enemy (and as a rule, the news will take care of that).

If you do not care to publish the letters from your boys, let us know where he is and what branch of the service he is in and how he is enjoying army life.

There's something refreshing to the folks back home, to learn that our American boys can take it and that they are more than anxious to dish it out as well. Every letter we have had the pleasure and the privilege of publishing has breathed defiance to the enemy, particularly to the Japs, and the old and what the American spirit of "Let's get there, do the job and get it over with, so we can go home."

Let's hear from your boy, if you have a letter from him, bring it in. Or at least bring in his address so that we may publish it. Then his friends can drop him a card, a letter and help keep up his morale while he is away.

Sergeant Carl Williams is the son of Mr. and Mrs. George Williams of Triplett. Sergeant Williams who has been at Ft. Bragg, North Carolina, for the past seventeen months has been recently transferred to Camp Clairbourne, La.

Rowan Meets Rowan
Maybe most of our readers will not know from experience what it means to meet a boy from home when you are several thousand miles removed. It happens that we do, for World War No. 1, we had just such an experience.

So we knew how Joe Tolliver and Glen Vencil felt when they ran into each other in Hawaii recently. Well, but they forgot all other engagements and got away by themselves and talked over the old "home front" and swapped information. And if we know soldiers, sailors and marines there was a reunion right on the spot.

From Wm. L. Kiskick, Iceland
Mrs. J. W. Jones, Blountstown sent in the following letter.
Iceland, Va.
Mrs. J. W. Jones:

I received a package from you the other day and was glad to get it. How is everything around Blount? Fine I hope. I guess you had a nice Christmas. I did. We had fine Christmas and we got a sack of presents from the American Red Cross. The sweater was real nice. We also got presents from some people in Michigan.

Tell everybody I said hello I hardly ever hear from them. When did write he just says hello and goodbye. There is not much to write about up here.
"Thanks again."
Pvt. 1st Class William L. Kiskick, 685854, 1st Det. 10th Inf., P. O. 810, Iceland, Va.

Roy Cornette Given Four Year Contract

At a recent meeting of the Rowan County Board of Education, Roy Cornette was re-elected County Superintendent of the Rowan county schools for a term of four years. Mr. Cornette's new contract will begin July 1, 1942 at the expiration of his present contract. The present superintendent has served since July 1, 1934.

Elmer Tackett Dies Of Blood Poisoning

Elmer Tackett, oldest son of Mr. and Mrs. Herbert Tackett, died on Tuesday of this week, after being injured on March 4 while working on the Ashland Refining Company boat, the Buaf Blazer. The accident occurred near Dayton, Kentucky. The boy caught his foot in a rope and was seriously injured. Later he developed blood poisoning which was the immediate cause of his death.

Funeral services were held Thursday morning of this week at 11 a. m., at the Morehead Baptist church, with the Presbyterian minister from Maysville conducting the services. A complete obituary will be published next week.

Consolidated Teachers To Meet Next Friday

A meeting of the teachers of the consolidated schools will be held at the Haldeman school at 1:00 p. m. Friday, March 10. An excellent program has been planned for this meeting.

Woodworking Class Started At Haldeman School

Plans are being made for an out of school youth training class to be held in the Haldeman school. Any young man between the ages of 17 to 25 and out of school may enroll in this class which will be devoted to the study of woodworking. Such things as laying foundations, framing, roofing, flooring and general construction and repair work will be included in the course.

Many new tools will be available for those who attend the course. The class will be conducted by an experienced carpenter who is capable of teaching any of the simple skills in woodworking.

Those who are interested are asked to contact Austin Riddle, principal of the Haldeman school or see of the FFA boys club at the Haldeman school. Plans are to accommodate about 12 to 15 young men in the course. On completion of the course the student will receive a vocational card which will add greatly in securing job in the war industry.

How The Quarter System Will Work At Morehead

Today in all lines of human activities there is to be a speeding up effort. People in industry are accomplishing it by working overtime and on a seven day week basis. Students in colleges throughout the United States are now obtaining credit hours in a regular diploma in three years instead of the customary four years. If the college that attempts this adopted a quarter system plan which provides for year around college attendance. Morehead and the three other state teachers colleges

Circuit Court To Go Into Third Week

Circuit Court roted into the second week of the March session with a number of cases already disposed of and a heavy docket still to try. The term is certain to go into the 3rd week before the docket is cleared.

In the meantime, the Commonwealths Attorney Sidney Caudill has been called for military service and the duties of both that office and those of County Attorney are falling on the shoulders of Lige M. Hogge. It may also be said that Mr. Hogge has received notice that he will report for duty on May 28, 1942. Some time ago he enlisted in the Naval Reserve but was sent home to await a call.

The Grand Jury adjourned on Wednesday too late for a report of their findings to be published in this issue of the News. It will be published next week.

The docket acted upon follows:

Stanley Caudill charged with receiving stolen property, hung jury. Set for retrial Wednesday, March 18.

Clint H. E. King, charged with involuntary manslaughter in the death of Elwood Hall acquitted. Judge White was forced to reprimand the audience when they attempted to cheer as the verdict was read.

Bun Collins, and Charles Rose charged with drunkenness, \$10.00 and costs.

Wilburn Moore, charged with murder in the killing of Moody Alderman, Monday, verdict of Not Guilty.

The trial of Ed Hinton on a murder charge is being tried at present.

The trial of John Quisenberry charged with the murder of Guy Lewis near Cranston, has been set down for Monday.

Schools To Start One Hour Earlier After March 30

On Monday, March 30, the school schedule will be set up one hour. This is to conform to War Time. When the war time went into effect, the school schedules were left as they were one hour behind because it was believed it would force the children who ride the busses to be out on the highway too early. In some cases they would be out before daylight.

The days are now getting longer and by March 30 it is believed the schools can start at 8:00 o'clock. Instead of 9:00 o'clock as they are now doing without inconvenience to one. The arrangement will give both the pupil and teacher more time in the afternoon. It is the general belief that the parents will welcome this change and will be able to use their children to good advantage the extra hour at home in the afternoon.

Walter Carr To Leave

Walter Winston Carr leaves this week to report for duty at Maxwell Field, Ala. where he is in the Air Corps. He will be transferred almost immediately to another field for further training.

President W. H. Vaughan buys the first defense stamps from the Campus club as their drive, to sell every student and faculty member a stamp, begins. Jim Alexander, Campus club member is selling the stamps to the president.

Photo by Tom Young

President Vaughan was re-elected President of Morehead Teachers College for four years.

Request For Repairs Must Go State

The farm machinery repair program will be assisted by the recent action of the War Production board in amending the preference rating order No. P100 to extend priority assistance for the repair of agricultural machinery. The farmer who repairs his own equipment or the local repair man of the blacksmith who does it for him may now apply an A10 priority rating to obtain welding rods, bar iron, nuts, bolts, rivets or other material that cannot be obtained without a priority rating and is used for repair.

Mr. C. E. Turner, chairman of the Rowan county WPAA, pointed out that while there is no guarantee that an A10 rating will be sufficient to obtain delivery of all types of repair supplies, containing scarce materials, the order will be of real benefit to the farm machinery repair program.

Material for maintenance repair, or operating supplies, rating A10 under preference. (Continued On Page Three)

Leola Caudill Goes To North Carolina Position

Miss Leola Caudill left Saturday night for Fayetteville, North Carolina where she has accepted a position as recreational director with the National YWCA. Miss Caudill is a graduate of Morehead State Teachers college and has done work on her masters at Pennsylvania College. For the past two years she has been YWCA physical director at the U. of K. in Lexington, from which position she has obtained a four month leave of absence. Her work in Fayetteville will be with the women who are connected with the Army camps.

It is a forward step for Miss Caudill and her many friends will congratulate her on the opportunity.

schedule change will be the gratification days (two during the summer quarter) instead of four as at present. The summer twelve week session is to be divided into two six week terms for the convenience of those students teaching in schools that begin in July.

This new term schedule will make more uniform the periods and vacations throughout the year. Students will be able to maintain the same number of hours during all terms in the year. (Continued On Page Three)

Attend Citizenship Meeting

Several members of the Rowan County and Morehead Women Clubs attended the American Citizenship forum held at Mr. Sterling Monday. Those going were Mardelene John Will Holbrook, W. C. Lappin, C. L. Cooper, Virgil Wolford, N. C. Marsh, A. L. Miller and Morgan Clayton.

Starting Forest Fires Is Rated As Sabotage

Incendiarism is sabotage, announced a federal judge in West Virginia, a few weeks ago when a forest fire case came before him.

This information was given to District Ranger, Karl M. Stoll, by Educational adviser Campbell of CCC Camp #3. Mr. Campbell had been to West Virginia a few weeks ago.

Possibly the reason for the severe penalty is due to the emphasis on timber by the Office of Production Management and other defense bureaus; timber is a key product of the war effort.

Some Kentuckians in the past have deliberately set fires. These people know now that every forest fire not only costs the government money which is needed for guns and bullets, but also destroys timber badly needed for ships, barracks and factories. They also should know how much farmers feel toward deliberate setting of the woods on fire.

Home Ec Agent To Be Talked In Meetings

Many women of the county who have become interested in the employment of a home economics demonstration agent have requested that several meetings be held in the county to explain the work and the benefits that could come from the employment of such an agent. In answer to this request four meetings have been scheduled.

Miss Doris Van Winkle, home demonstration agent for Madison county will be in Rowan county together with some of her Homemakers Club members and will conduct two interest programs. One will be held in the gymnasium of the Morehead high school at 2:30 p. m. Monday afternoon, March 16.

Another at the other at Farmers high school Monday night at 7:00.

It is urged that as many women as are interested in this work be present to hear the work explained. On March 26 two additional meetings are to be held. Miss Irene Fellous, home demonstration agent for Clark county together with a number of the members of her Homemakers club will present programs at Elizabethtown high school at 2:30 p. m. and at Haldeman high school that night at 7:00.

Fifty eight counties throughout Kentucky employ a Home Ec Agent. (Continued On Page Four)

Regional To Open Here Friday P. M.

Rowan county is represented this year in the Sixteenth Regional basketball tournament by the Haldeman Leopards, a team coached by Fred Caudill, and incidentally a team that at the beginning of the season was given little chance to show or place in the basketball race getting under way. But Haldeman improved and came up a successful season by taking Olive Hill in the district tournament held at Hatching last week, after defeating Breck who had upset Morehead high. Haldeman dropped the finals to Grayson, which as usual had drawn the easy bracket in the district and came up to the finals first. The one-sided score did not worry Haldeman as they were in the Regional by virtue of fighting their way up from the bottom.

Haldeman meets Clark County high at 3:00 p. m. Friday, after Grayson meets Mt. Sterling High in the opener at 2:00. Ashland meets Tollebone at 8:00 p. m. Friday night after Grayson and Russell clash at 7:00.

It will be one of the first Regional tournaments in many years in which Morehead does not have a team from the town, either Breck or Morehead high and sometimes both, being representatives of the county.

However Rowan county fans still have a team that they can tie to and root for and that team is Haldeman.

Easter Program Nearly Completed At Christian Church

The Easter program of the Christian church has already begun to gain momentum. As a portion of the total campaign, the Wednesday evening Midweek service increased measurably in attendance. At last week's meeting the pastor explained the First Step Toward Calvary.

Many in the church have pledged themselves to church loyalty for the months to come and have placed their names on a large cross constructed in the sanctuary.

The campaign will culminate on Easter Sunday. Besides the regular worship hours of the congregation, special meetings have been planned. A beautiful Sunrise service has been arranged. An Easter breakfast will be held by groups within the church, and an Easter hunt for all the children of the Sunday school will be held that afternoon. At the Easter Sunday service the members of the church will present a pageant in the church auditorium.

Mrs. Shouse Has Operation

Mrs. D. Shouse who has been confined to St. Josephs hospital in Lexington for the past three weeks is still quite ill. According to reports she will undergo operation for rotte the latter part of the week.

Vaughan Gels Four Year Contract

President W. H. Vaughan, was re-elected as president of the Morehead State Teachers college at a Board of Regents meeting held on Friday of last week. President Vaughan will complete his first two years as president of the institution in July of this year, having succeeded Harve Babb, who succeeded in staying here for 4 years and 8 months.

President Vaughan accepted a particularly difficult assignment in taking over the presidency at that time since dissection was rife and the school had become a decided liability to any administration. That he has succeeded in bringing a large measure of order out of chaos is demonstrated by the fact that he was unanimously elected by the Board for a four year term, the limit possible under Kentucky law.

Mrs. Jesse Lyons To Visit Home In Massachusetts

Mrs. Jesse Lyons who has been visiting her mother in law Mrs. T. F. Lyons here for the past several weeks, left Wednesday morning for her home in Gloucester, Massachusetts.

Her husband is in Hawaii at Hickman Field, with her son, Donald, when the Japanese attack occurred and after going through the harrowing experience, was sent back to the states along with hundreds of other navy wives and families.

Her husband is on duty with the Pacific fleet, and naturally she does not know, nor would she tell if she did, where he is at present. That last word she heard was he was back last week when she received a remittance of his check without any personal message.

Mrs. Lyons and her son Joe, who since babyhood has made his home with her, his paternal grandparents. Mrs. Lyons spent at least a month in her old home at Gloucester, where Joe will see his brother Donald during the first term. They expect to return to Morehead later in the spring.

Eagles Lose First Game To Talles Team There

The Morehead Eagles, rated as Kentucky's first best team, in spite of defeats at the hands of lesser lights, is in Kansas City, Mo., this week, taking part in the National basketball tournament. The Eagles were invited to take part in the play when Western qualified for a bid to the Madison Square garden.

The Eagles played Tuesday night against the tallest team in the tournament and dropped the game to Central State Teachers College of Warrensburg, Mo. 33 to 29.

It was evidently another off day for the Eagles.

Church Of God Plans Extensive Program

The following program will be given at 6:30 Sunday evening at the Church of God. All young people are invited to attend.

- Congregation
- Stella Crosthwaite Talk, "The Living Saviour"
- Dorothy Ellis Song, "Higher and Higher Each Day"

Be Fair!

"If the fires of freedom and civil liberties burn low in other lands, they must burn brightly in our own." So says our President.

One thing we must not do is to persecute ourselves. We must not even the actions of our enemies by the use of the weapon of intolerance and prejudice. We want to use it in a direct denial of the American way of life.

immigrant. Each and every one is entitled to a fair chance. If we believe in democracy, we must put it into practice in our own life and actions.

While we must not constitute ourselves a self appointed police force, we must be vigilant, prompt and courageous in reporting all subversive actions or speech to the FBI or to the Department of Justice—but do not let us accuse, try and condemn on our own.

The Bill of Rights applies to all within our borders. We are thus bluntly: "Decent people are a people not a race."

Modern Romance Novels have been published recently with the subject of our discussion today. These books are to be published in the following: 1. Baldwin, Faith. "And New Stars Burn". Farrar and Rinehart Publishing Co. \$2.00

2. Thane, Ellsworth. "Remember Today". Duell Publishing Co. \$2.00

3. Young, M. Dierrell. "Loyalty Breeds Loyalty". Farrar and Rinehart Publishing Co. \$2.00

4. Horace. "Two Alone". Houghton Mifflin Publishing Co. \$2.50

5. Young Polish soldier and his girl, who make their own way through wartorn Poland to the alien—beheretage—

happiness across the border, passing untouched through every kind of hair breadth escape and desperate adventure.

ST. ALBANS CHURCH (Episcopal) upstairs of Martindale building. Rev. F. C. Lightbourne, STB, Mt Sterling, Sunday, March 14, (Fourth Sunday in Lent), Sacred Eucharist and sermon at 8:30 a. m. Monday, March 16. School of prayer at 8:00 p. m.

County Agent Recommends Growing Hemp

War in the Pacific is preventing us from receiving jute fiber and Abaca fiber from the Philippines and the Indies. Since fiber is very necessary in making of cordage and bags we are going to have to produce more hemp for fibre.

Such expansion of acreage in 1942 is impossible because of the shortage of seed. Much of the seed will have to be grown by men who have never encouraged the production of hemp seed before.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

PARSNIPS— Satisfy and "arros"— The small weak seed may be helped up by sowing radishes with them.

BROCCOLI, Cauliflower — The new vegetables that some gardens may want to try can be procured from the dealers who handle cabbage plants.

HEAD LETTUCE— All most proof plants should be treated before setting to destroy the lice that may be on them, also their stems should be cut out.

WATERMELONS — Satisfy and "arros"— The small weak seed may be helped up by sowing radishes with them.

They are recommending that farmers seed hemp only in good river bottom land. A bushel of seed has to plant at least ten acres, and then if taken care of it should yield anywhere from 10 to 30 bushels of hemp for seed.

It is hoped that the farmers of Rowan county who have furthered this matter will investigate this matter in further. It seems that the production of hemp is going to mean that we will have another very good cash crop. If we were to try an acre for seed it would only cost around \$3.00 in initial cash outlay, so if you failed you would not have lost very much.

GARDENS — This is the first of a series of articles on gardening to supply information as to timely hints on making one's garden produce more food.

FERTILIZING — A garden that is extremely fertile to get the most out of labor, the seed and the controls for general suggestions on fertilizing gardens. Plow under a two inch coat of manure, follow with a disk then on each 1/4 acre a garden broadcast 100 lb. of 20 per cent superphosphate and drag it lightly. Soils so fertilized will grow excellent tomatoes, peas, corn, beans, squash and sweet corn.

CABBAGE — Careful attention should be given in selection of the varieties of cabbage. If you have ever been bothered by yellowing or wilt you cabbage yellows or wilt you can prevent it by using Early Jersey, Marion Market or All Season. Much late cabbage trouble comes from yellows. All most proof plants should be treated before setting to destroy the lice that may be on them, also their stems should be cut out.

WATERMELONS — Satisfy and "arros"— The small weak seed may be helped up by sowing radishes with them.

WATERMELONS — Satisfy and "arros"— The small weak seed may be helped up by sowing radishes with them.

WHITE POTATOES — This year all seed potatoes will be tempted to try to use last year's left over potatoes for seed, but should get fresh seed, preferably certified. The difference in the cost between common seed and good is no larger than in other years, so let's continue to use certified seed.

Honor Students Are Entertained At Tea

Thursday afternoon from three to five o'clock the honor students of the college were entertained with a formal tea in the lobby of Allie Young hall. Students making a three point plan, Wate S. Ebel Reed and Paul Wheeler, were in the receiving line. The string ensemble played at intervals throughout the afternoon. Louise Antonini sang "Ouvre Tes Yeux Bleus" by Jules Massenet, "Mornine" by Oley Spessard and "Make Beliefs" from "Show Boat" by Jerome Kern. "None but the Lonely Heart" by Tochaikovsky and "The Sleep That Falls on a Baby's Eyes" by Grieg were sung by Miss W. Keith Huffman, Richard Coffey. A quartet consisting of Edgar Conking and Carl Ketterbach, sang "Hail All ye God's Heavens" and "Scandalize My Name".

When a Child Needs a Laxative!

SYRUP OF BLACK-DRAGHT is a tasty liquid that most children will welcome whenever they need a laxative. What's more important, it has the same main ingredient as BLACK-DRAGHT, its older companion. Perhaps that's why it usually gives a child such refreshing relief from the familiar symptoms which show a laxative is needed. Comes in two sizes: 5cc-2cc.

MC To Cooperate In Sesquicentennial Celebration

One hundred and fifty years ago Kentucky was admitted to the union as a member. This year the state is celebrating its sesquicentennial. All colleges of the state have been requested by the governor's Sesquicentennial commission to participate in the event. The commission has asked colleges to do two things: One: Provide some sort of celebration commemorating the one hundred and fifty years of growth in Kentucky. Two: Sponsor a contest in which students are to write essays on natural and historical places which would be of interest to sesquicentennial visitors.

TO CHOOSE FROM — Although Paper has DOUBLED and TRIPLED in Price, We will have **NO ADVANCE IN PRICES**

This Coming Season — We bought our stock on the Old Market Last Year and WE HAVE OUR NEW 1942 PAPER IN STOCK — Although we have 40,000 ROLLS OF PAPER which will last some time, We are QUITE CERTAIN this Amount will not carry us through the entire season — WE ARE SURE we will not be able to get any more paper in 1942. When a pattern is finally completely sold out, there will be no more. We advise that you make your Selections EARLIER THIS SEASON than usual.

GOLDES STORE

Quarter System

(Continued From Page One) The year no longer will be limited to the summer term lead be limited to thirteen hours instead of the normal seventeen hour load during the other two terms. Students now may carry a sixteen hour schedule, more in some cases, for all four terms. The vacation periods will not interrupt the work of a semester under the quarter system. All vacations will be so arranged that they come at the end of the twelve week periods between the quarters.

All the hour schedules for the quarter system are figured in a so-called "quarter hours". These new hours are the equivalent of two-thirds of the present semester hours. Because of the reduction of the "quarter hours", 192 hours will be required for graduation instead of the usual 128 hours. This change in the requirements for graduation will not necessitate students attending college longer. Those students going to college during the fall, winter, and spring terms will obtain forty-

eight hours of credit as compared with thirty two hours obtained in a similar period under the semester system. If a student goes all year around, he may procure enough hours in three years for graduation. Hours now accredited to students will be given full value under the new plan. These hours, because of the plan under which they were obtained, will be counted as one and a half quarter hours. All the requirements for majors and minors will be increased proportionately at the rate of one and one half quarter hours for every one semester hour formerly required. For example, a major in Political science will require forty five quarter hours instead of thirty semester hours; twenty four quarter hours will be necessary for a minor in French compared with eighteen semester hours.

Class periods will meet for fifty minutes as at present, and classes will begin at eight o'clock during all but the summer term, when they will start at seven as during past summer terms. No extra class periods are being contemplated at present.

Request For Repairs

(Continued From Page One) rating order No. P1000, with the terms of which I am familiar." When an order for repair material bearing this preference rating is placed with a firm, past this rating on to the manufacturer or jobber to obtain the material or replace his stock.

Model Airplane Builders Are Asked To Help

Plans and specifications for local cooperation in a national program to build 500,000 model airplanes for local use, received today from the U. S. Office of Education. Under the program local high school youth will be given an opportunity to contribute directly to the nation's war effort. The local quota is 50 model airplanes.

"The armed services of the United States need 10,000 models of each of 50 different types of fighting aircraft, 500,000 in all, and we need them now," Secretary Knox said.

"We need them for purposes of aircraft recognition training and gunnery sighting practice. Beyond that, civilian groups Every woman in the county will use the models for public instruction."

education in aircraft recognition. We have been able to think of no more certain, faster way of getting them than by asking the youth of America to make them for us."

Director May also quoted U. S. Commissioner of Education John W. Studebaker who said, in accepting for the nation's schools the commission from the largest call for national service ever made on American schools. Commissioner Studebaker also cited educational gains from the model building program.

"While they are making model planes for the use of the Navy and the Army and said, 'American youth can learn valuable lessons. First, they can learn the value of precision. A model that does not conform to exact specifications is useless.

"Secondly, students can learn the value of speed. This project must be pushed with the utmost celerity.

"Third, youth will learn about aircraft of all the major nations."

Home Ec Agent

(Continued From Page One) Demonstration Agent and many of these are located in the mountains of eastern Kentucky and it is hoped that Rowan county can be added to the list next year. Much good can be done in the homes, not only of the rural areas but in Morehead as well, through the teachings and demonstrations.

Beyond that, civilian groups Every woman in the county will use the models for public instruction."

Every Patriotic American Salutes His Nation's Flag

During the ceremony of hoisting or lowering the flag, or when the flag is passing in a parade or in a review, all persons present should face the flag, stand at attention and salute. Those present to uniform should render the right hand salute. Those not in uniform should remove their headgear with the right hand and hold it at the left shoulder, the hand being over the heart. Women should salute by placing the right hand over the heart. The salute to the flag in a moving column is rendered as the flag approaches the spectator and is held until it has passed.

WE SELL THE EARTH

FARM - Located 3 miles from Morehead in sight of Highway, Route 60. One hundred acres, about 70 acres level. Timber for farming purposes. Good eight roomed cash, barn and outbuildings. Also a tenant house, low priced cash. FARM AT CLEARFIELD - Good house, barn, garage, 30 acres of land. A beautiful place. Cash or terms. HOUSE and LOT - In Thomas Addition. No Rowan County Boys Are Prisoners

Why no Rowan county boy has been taken prisoner by the Japs so far as we have heard and while we sincerely hope none of them will, the following article on the treatment of prisoners already taken will be of interest.

First detailed reports from Japan relating to treatment of American prisoners of war and interned civilians were received today by the American Red Cross through the International Red Cross in Geneva, and was made public by Chairman Norman H. Davis.

Dr. Fritz Paravical, International Red Cross delegate in Tokyo called Geneva under date of February 11 as follows: "According to letter dated January 25 from Captain McMillan, ex-governor of Guam, 353 war prisoners from Guam are in Camp Zentsuji, Skikoku since January 16. In addition 134 civilians 13 Catholic priests and bishop from Guam sent to Kobe January 23."

Japanese soldier rations are said to be provided to prisoners of war and treatment, said to be good. Only requests more tobacco and toilet articles."

So according to reports from the Red Cross International the friends of prisoners need not worry about the treatment of prisoners held by the Japs.

Cards Necessary Social Security

Rowan county employees of the Farm Security Administration are participating 100 percent in the purchase of Defense Savings stamps and bonds, according to William K. Rouse, County FSA supervisor.

Mr. Rouse said that a voluntary "Do our Bit" organization has been set up in almost every FSA office throughout this five-state region and that by regular systematic purchase of these savings a total of over \$109,961 has been purchased in the region to date. Of this sum \$54,110 was purchased in January.

By states in this region, the bonds and stamps purchased by FSA employees to date are: Virginia, \$22,631; North Carolina, \$21,411; Kentucky, \$20,990; Tennessee, \$18,328; W. Va., \$9,843. The Regional office personnel, Raleigh, North Carolina, have purchased to date \$167,765.

Mrs. Olive H. Boyd has volunteered her services as Group Agent in charge of Defense Savings for the county FSA office here. Mrs. Roxie Wendel is the group agent for the district office also located in Morehead and she reports 100 percent participation in this program. FSA employees in both offices have pledged a total of \$100 a month for the purchase of the stamps and bonds. The district office is in the Men's hall of the college, and the county office is in the courthouse.

In Time Of Danger

Out of the air raidshelters of London has come a prayer which each of us should learn. It is a prayer born of the unity of free men, a unity forged out of common ideals in the white heat of common danger.

"Increase, O God, the spirit of neighborliness among us." The spirit of neighborliness, the kinship of those who share in the hope of freedom for all, regardless of class, of race, of creed or color; the acceptance as fellow citizens of all men, asking only allegiance to the credo that all men are created equal; the eyes of God, are to an equal, the happiness of neighborliness, can we front to the darkness which seek to engulf us.

"That in peril we may uphold one another, in calamity serve one another, and in homelessness, loneliness or exile, befriend one another." Not in groups of differing faiths and traditions, out as individuals one with the other, holding out the hand of friendship to uphold, to serve and to befriend in all the trials and tribulations that may come upon us in the days ahead.

"Grant us brave and enduring hearts that we may strengthen one another." Brave to face danger, resolute to stand firm, unshaken by the insidious propagandas of

and prejudice that seek to divide us into groups suspicious of each other. Will the discipline and testing of these days be ended, and Thou again, give peace in our time? Through all the hours of trial and trouble until peace comes again to a new world—a world in which the spirit of friendship reigns among the nations for his friends."

Be Fair!

"If the fires of freedom and civil liberties burn low in other lands, they must be brought out in our own." So says our President.

One thing we must not do is to discriminate against the actions of our enemies by persecution of the aliens in our midst. That is the weapon of intolerance and prejudice our foes want to use. It is a direct denial of the American way of life.

The other day it was stated thus bluntly: "Decent people do not consider racial origin. We are a people, not a race." Being an American is not a matter of common race, common nationalities or common religion—but of a common belief in an ideal of equal treatment and equal opportunity for all.

Some people have attempted to differentiate critically between the immigrants who came here years ago, and the refugees hurried to our rock-bound shores since the terror of Europe. They forget that each of our waves of immigrants were the refugees of their day, from the Pilgrims landing on the coast of New England, to the Maryland Catholics who passed the first religious liberty laws on these shores, and to the German soldiers of the Palatinate, finding the savage Indians and the relentless wilderness of the Mohawk Valley more merciful than the armies of the kings of Europe. Even the Irish were refugees from famine. There is hardly an American without a strain of foreign blood in his veins.

Loyalty breeds loyalty. We can keep the aliens in our midst loyal if we foster loyalty by demonstrating our own fidelity to the principles on which our nation was founded. We must not discriminate against the alien—beheritage

County Agent Recommends Growing Hemp
War in the Pacific is preventing us from receiving jute fiber and Abaca fiber from the Philippines and the Indian subcontinent. Since fiber is very necessary in making of cordage and bags we are going to have to produce our own hemp for jute. The production of hemp in Kentucky has reached a very low ebb, in fact so low that next year we are going to have to grow around 30,000 acres of hemp for seed so that in 1943 we can grow hemp for fiber.

Much expansion of acreage in 1942 is impossible because of the shortage of seed. Much of the seed will have to be grown by men who have never encouraged the production of hemp seed. The Commodity Credit Corporation is willing to make a contract with the farmer to pay them \$8.00 a bushel for their seed this fall. The Commodity Credit Corporation owns most of the hemp seed now and in buying the seed it will cost the farmer \$12.00 per bushel cash or \$13.00 per bushel to be taken out of the seed

WHITE POTATOES—This year all seed potatoes will be high, however, nobody should be tempted to try to use last year's left-over potatoes for seed but should get fresh seed, preferably certified. The difference in the cost between common seed and good is no larger than in other years, so let's continue to use certified seed.

Honor Students Are Entertained At Tea
Thursday afternoon from three to five o'clock the honor students of the college were entertained with a formal tea in the lobby of Alle Young hall. Students-making a three point stand, Helen Coughlin, Leslie Paul Wheeler, were in the receiving line. The string quartet played at intervals throughout the afternoon. Louise Antonini sang "Ouvre Tes Yeux Bleus" by Jules Massenet, "Morning" by Ole Svendsen, and "Make Believe" from Showboat by Jerome Kern. "None-but the Lonely Heart" by Tchickoosky, and "The Sleep That Fills on a Baby's Eyes" by Carter Hagen, sang by Miss Wathen. A quartet consisting of Keith Huffman, Richard Coffey, a quartet consisting of felt, Edgar Conkling and Ker Herich, sang "Shout All in God's Heaven" and Scandalize My Name".

GARDENS This is the first of a series of articles on gardening to supply information as to timely hints on making our gardens produce more food. For more detailed information come to the office and get our bulletin entitled "GARDENING—A Garden should be extremely fertile to get the most out of labor, the seed and the control of insects. The following is a general suggestion on fertilizing gardens: Plow under a two inch coat of manure, follow with a ten cent extra 14 acre garden broadcast 100 lb. of 20 per cent superphosphate and drag it lightly. Soils so fertilized will give excellent tomatoes, peas, green beans, squash and sweet corn. The rows of cabbage, greens and onions should be side dressed with nitrate of soda at the rate of 1 pound to 100 feet, or if nitrate of soda is not available, poultry manure, 1 bushel to 300 feet. Two dressings should be made the first month after sowing or setting, and the second, 2 or 3 weeks later.

CABBAGE—Careful attention should be given in selection of the varieties of cabbage. If you have ever been bothered by cabbage yellows or wilt you should try means use Early Jersey, Marion Market or All Season. Much late cabbage trouble comes from yellows. All root proof plants should be treated before setting to deter the lice that may be on them, also their stems should be wrapped in newspaper to combat cut worms.

PARSNIPS—Salsify and "arros"—The small weak seeds may be helped out by sowing rabbies with them.
BROCCOLI, Cauliflower—The new vegetables that some gardeners may want to try can be procured from the dealers who handle cabbage plants.
HEAD LETTUCE—This must be started early, preferably in a hot bed New York Wonderful, or Bibb are the varieties to use.

MC To Cooperate In Sesquicentennial Celebration
One hundred and fifty years ago Kentucky was admitted to the union as a member. This year the state is celebrating its sesquicentennial. All colleges of the state have been requested by the governor's Sesquicentennial commission to participate in the event. The commission has asked colleges to do two things:
One: Provide some sort of celebration commemorating the hundred fifty years of growth in Kentucky.
Two: Sponsor a contest in which students are to write essays on natural history, historical places which would be of interest to sesquicentennial visitors.

Morehead State Teachers college is to do its part in this undertaking, and a committee composed of C. O. Peratt, chairman; Dr. Fred A. Duffell; and Catherine L. Brant, has been appointed to plan and conduct the contest and arrange the commemorative exercises. Arrangements have been made to give first, second, and third prizes in the essay contest. More specific announcements will be made next week through an mimeographed instructions for writing and handling the essays will be given out.

Music Festival On MC Campus To Be March 28
The annual Regional Music Festival will be held on this campus on March 28. It has been the privilege of this school to have this group of talented high school students come to our campus for the past several years. The contests held on that day will determine who of that group will go on to higher competition. Representatives of the schools in all the neighboring counties will send representatives to this contest. The schools that are expected to be represented at the festival are: Ashland, Grayson, Russell, Olive Hill, Mt. Sterling, Mayville, Flemingburg, West Liberty, Morehead High, Berea, and many others.

Chapel Program Given For Honor Students
Those students who made a scholastic standing of "two" or better during the first semester were honored for their accomplishment at the Thursday chapel. The honor students took part, along with members of the faculty, in a procession into the auditorium where they took special seats in the front of the assembly. At the conclusion of the

When a Child Needs a Laxative!
SYRUP OF BLACK-DRAUGHT is a tasty liquid that most children will welcome whenever they need a laxative. What's more important, it has the same main ingredient as BLACK-DRAUGHT, its older companion. Perhaps that's why it gives a child such refreshing relief from the familiar symptoms which show a laxative is needed. Comes in two sizes: 2oz-5¢c.

program. The honor students were all presented, by name, to the assembly.
An address by Dr. Frederick Shannon, guest speaker this week on the campus, was the talk. Dr. Shannon stressed the idea of great men and nations that he had come in contact with during his career.
Two numbers from the band and the college choir filled out this unique program. The band played and the assembly sang "America" and the College choir presented for the first time in an arrangement for mixed voice, John Jacob Niles' "Hymn for Victory".

Quarter System

(Continued From Page One)
 the year. No longer will the summer term load be limited to thirteen hours instead of the normal seventeen hour load during the other two terms. Students now may carry a sixteen hour schedule, more in some cases, for all four terms. The vacation periods will be arranged that they come at the end of the twelve-week periods between the quarters.

All the hour schedules for the quarter system are figured in so-called "quarter hours". These raw hours are the equivalent of two-thirds of the present semester hours. Because of the reduced value of the "quarter hours", 192 hours will be required for graduation instead of the usual 128 hours. This change in the requirements for graduation will not necessitate students attending college longer. Those students going to college in the fall, winter, and spring terms will obtain forty

eight hours of credit as compared with thirty two hours obtained in a similar period under the semester system. If a student goes all year around, he may procure enough hours in three years for graduation.

Hours now accredited to students will be given full value under the new plan. These hours, because of the plan under which they were obtained, will be counted as one and a half quarter hours. All the requirements for majors and minors will be increased proportionately. For example, a major in Political science will require forty five quarter hours instead of thirty semester hours; twenty four quarter hours will be necessary for a minor in French compared with eighteen semester hours for

eighteen semester hours for fifteen minutes as at present, and classes will begin at eight o'clock during all but the summer term, when they will start at seven as during past summer terms. No extra class period

is being contemplated at present.

Model Airplane Builders Are Asked To Help

Plans and specifications for local cooperation in a national program to build 500,000 solid scale model airplanes for the Navy were received today from the U. S. Office of Education. J. T. Mays announced. Under the program local high school youth will be given an opportunity to contribute directly to the nation's war effort. The local quota is 50 model planes.

"The armed services of the United States need 10,000 models of each of 50 different types of fighting aircraft, 500,000 in all, and we need them now," Secretary Knox said.

"We need them for purposes of aircraft recognition training and gunnery sighting practice, and demonstrations. Every woman in the county will use the models for public

education in aircraft recognition. We have been able to think of no more certain, fast way of getting them than by asking the youth of America to make them for us."

Director May also quoted U. S. Commissioner of Education John W. Studebaker, who said, in accepting for the nation's schools the commission from models, that "this is one of the largest calls for national service ever made on American schools." Commissioner Studebaker also cited educational gains from the model building program.

"While they are making model planes for the use of the Navy and the Army and the American youth can learn valuable lessons. First, they can learn the value of precision. A model that does not conform to exact specifications is useless.

"Secondly, students can learn the value of speed. This project must be pushed with the utmost celerity.

"Third, youth will learn about aircraft of all the major na-

tions."

 Demonstration Agent and many of these are located in the mountains of eastern Kentucky and it is hoped that Rowan county can be added to the list. Much good can be done in the homes, not only of the rural areas but in Morehead as well, through the teachings and demonstrations. Every woman in the county will benefit directly or indirectly.

Cards Necessary Social Security

Rowan county employees of the Farm Security Administration are participating 100 percent in the purchase of Defense Savings stamps and bonds, according to William K. Rouse, County FSA supervisor.

Mr. Rouse said that a voluntary "Do your Bit" organization has been set up in almost every FSA office throughout this five-state region and that by regular, systematic purchase of these savings a total of over \$100,000 has been purchased in the region to date. Of this sum \$54,110 was purchased in January.

"In states in this region, the bonds and stamps purchased by FSA employees to date are: Virginia, \$22,831; North Carolina, \$21,411; Kentucky, \$20,990; Tennessee, \$18,328; W. Va., \$9,843. The Regional office personnel, Raleigh, North Carolina, have purchased to date \$167,675.

Mrs. Olive H. Boyd has volunteered her services as Group Agent in charge of Defense Savings for the county FSA office here. Mrs. Roxie Wendel is the group agent for the district office also located in Morehead and she reports 100 percent participation in this program. FSA employees in both offices have pledged a total of \$100 a month for the purchase of the stamps and bonds. The district office is in the Men's hall of the college, and the county office is in the courthouse.

"Increase, O God, the spirit of neighborliness among us." "The spirit of neighborliness, the kinship of those who share in the hope of freedom for all, regardless of class, of race, of creed or color, the acquaintance as fellow citizens of all men, asking only allegiance to the credo that all men are created equal, the eyes of God, are the eyes of liberty and happiness.

"If we can we will stand front to front to the darkness which seeks to engulf us."

"That in peril we may uphold one another, in calamity serve one another, and in homelessness, loneliness or exile, be friend one another."

Not in groups of differing faiths and traditions, nor as individuals one with the other, holding out the hand of friendship to uphold, to serve and to befriend in all the trials and tribulations that may come upon us in the days ahead.

"Grant us brave and enduring hearts that we may strengthen one another."

Brave to face danger, resolved to stand firm, unshaken by the insidious propaganda of

ants and prejudice that seek to divide us into groups suspicious of each other.

"Hill the discipline and testing of these days be ended, and thus again give peace in our time"

No Rowan County Boys Are Prisoners

While no Rowan county boy has been taken prisoner by the Japs so far as we have heard, and while we sincerely hope none of them will, the above article on the treatment of the prisoners already taken will be of interest.

First detailed reports from Japan relating to treatment of American prisoners of war and interned civilians were received today by the American Red Cross through the International Red Cross in Geneva, and was made public by Chairman Norman H. Davis.

Dr. Fritz Paravichini, international Red Cross delegate in Tokyo cabled Geneva under date of February 17 as follows: "According to latest data, January 25 from Captain McMillan, ex-governor of Guam, 355 war prisoners from Guam are in Camp Zenzeji, Saipan, since January 19. In addition 134 civilians, 13 Catholic priests and bishop from Guam sent to Kobe by January 25."

Japanese soldier rations are said to be provided to prisoners of war and treatment said to be good. Only requests more tobacco and toilet articles.

So according to reports from the Red Cross International the friends and relatives need not worry about the treatment of prisoners held by the Japs.

education in aircraft recognition. We have been able to think of no more certain, fast way of getting them than by asking the youth of America to make them for us."

Director May also quoted U. S. Commissioner of Education John W. Studebaker, who said, in accepting for the nation's schools the commission from models, that "this is one of the largest calls for national service ever made on American schools." Commissioner Studebaker also cited educational gains from the model building program.

"While they are making model planes for the use of the Navy and the Army and the American youth can learn valuable lessons. First, they can learn the value of precision. A model that does not conform to exact specifications is useless.

"Secondly, students can learn the value of speed. This project must be pushed with the utmost celerity.

"Third, youth will learn about aircraft of all the major na-

tions."

GOLDE'S

Brave to face danger, resolved to stand firm, unshaken by the insidious propaganda of

"Increase, O God, the spirit of neighborliness among us." "The spirit of neighborliness, the kinship of those who share in the hope of freedom for all, regardless of class, of race, of creed or color, the acquaintance as fellow citizens of all men, asking only allegiance to the credo that all men are created equal, the eyes of God, are the eyes of liberty and happiness.

"If we can we will stand front to front to the darkness which seeks to engulf us."

"That in peril we may uphold one another, in calamity serve one another, and in homelessness, loneliness or exile, be friend one another."

Not in groups of differing faiths and traditions, nor as individuals one with the other, holding out the hand of friendship to uphold, to serve and to befriend in all the trials and tribulations that may come upon us in the days ahead.

"Grant us brave and enduring hearts that we may strengthen one another."

Brave to face danger, resolved to stand firm, unshaken by the insidious propaganda of

LYDA MESSER CAUDILL

WE SELL THE EARTH

A Shell-burst in the Pacific . . . Echo of a Railroad Whistle in America!

AMERICA'S ANSWER to aggression hours across the world. It shouts in the boom and crash of guns . . . in the drone of planes . . . in the whirling wheels of war-gear industry . . . in the rumble and shriek of fast trains, carrying supplies and men onward to the fronts of war. It's one vast chorus . . . and its name is "VICTORY."

CHESAPEAKE AND OHIO LINES

Served to the 20 of America!

Whenever you hear a railroad whistle, think of this: Who takes the iron ore and other raw materials to the plants of war industry? The railroad. Who swiftly moves the finished guns and tanks, plane parts and armor plate from the assembly line? The railroad. Who makes big troop movements possible—while maintaining other vital war

and civil. Chesapeake and Ohio Railroad. Sometimes you may meet with some war-caused delays and inconvenience, but you will still enjoy the traditional courtesies . . . the thoughtful personal services . . . that you always find on Chesie's railroad.

A-Mericans All (Continued From Page One)

The address of Pvt. Lowell Johnson in 6th Coast Artillery, A. A. Port of San Juan, Puerto Rico. The address of Corporal Ray Barbour is APO, care of Post Master, San Francisco, Cal. These Rowan county boys would appreciate hearing from any of their friends.

And they are not alone. Many able boys do not receive any mail from home and they are bound to get homesick and homesick. Here, a suggestion for the girls of Rowan county. Why not organize a "Letter Writing Club and take it upon yourself to write at least one letter a week to some Rowan county boy in the service. We don't know of any better way to help win this war than to keep the courage of our boys up to the highest point by letting them know the folks back home are counting on them and are backing them to the end and the limit.

We have the names and addresses of a large number of soldiers, sailors and marines from this county and we will be glad to supply you with any or all we have. Who will be the first to write?

Elwood Allen in Air Corps Elwood Allen who returned to the army after being discharged before Pearl Harbor is now in the air corps for special training. He will finish his

course in "about another eight weeks. Then he hopes to get a few days furlough to visit at home.

Elwood was discharged the first of December because he was over twenty eight, but after the Japanese attack, he is listed as a volunteer at Miami, and assigned to the Air Corps. He says to tell all the boys who can get into the air corps. He believes it is the best branch of the service regardless of the department you are in.

Its Captain Evans Now ... Captain Eldon Evans, who is in command of the 4th Bomber Company is stationed at Panama, in the Canal Zone. Captain Evans was recently promoted from the rank of First Lieutenant and is the first Rowan county boy to receive that distinction. He is the son of Mr. and Mrs. Drew Evans of this city.

Another From Harry Caudill U. S. Army Base, Iceland, February 14, 1942

Dearer Mother and Dad, Hello there and how are you all? I'm fine myself. I'm driving again and I feel at home now that I'm back under the

Mr. and Mrs. Frank Laughlin and son Melvin Frank were weekend visitors in Lexington. The guests of Mrs. Laughlin's parents, Dr. and Mrs. M. C. Wicklers.

Mr. Aster Collins of Whitesburg, was here to visit his wife over the weekend at the home of her parents, Mr. and Mrs. J. M. Cassidy.

Mr. and Mrs. Everette Amburgey, Jasper Amburgey and Andy Amburgey have returned from a week near Atlanta, Ga. where Mr. Everette Amburgey has been making some improvements on his property there.

To Relieve Colds ... 666 TABLETS SALVE

Need a Laxative? Take good old BLACK-DRAUGHT It's a top-seller all over the South

Hello from me, Meredith sent me a most interesting letter and some pictures of herself. She is a sweet girl.

Mother we have church in our camp every Sunday and I read a lot in my spare time. I am here in town with my truck and I am finishing up the letter. There are some of the finest looking people passing by here and cars also. They have lots of our cars here now, and also trucks. They even have two 1942 model Fords. The

girls dress like American style, short dresses and fixing their hair also. I have talked to some of them. They like the states and want to see them. There are different races here and they speak many different languages. Did you receive my clothes from Texas. Please let me know. Be good and I will see you all soon I hope. Your Son, forever, Harry H. Caudill

Let a Buick Dealer CONSERVE YOUR CAR! Play Safe! To Make Your Car Last, Insist on Service According to Factory Standards, by Men Trained in Factory Methods! ALL CARS don't have the same service needs. All adjustments shouldn't be made the same way on all makes. Buick C-Y-C Service provides regular care by authorized factory-trained mechanics who know your car "like a book." They are not just mechanics, they are Buick experts, with direct, first-hand contact with factory service specialists who keep them constantly informed about every operation on every model. They learn from the factory - not from "trial and error." They don't guess - they know! And by looking over your car regularly - say once each month - they can prevent trouble before it gets started, save you annoyance as well as money. Come in for a FREE CHECK-UP that shows the exact condition of your car - and let us give you all the details about C-Y-C Service.

Consider This, For Example ... There are no less than eleven steps called for in adjusting Buick brakes for all of eight or ten steps for a major brake adjustment. Don't you think you ought to go to men who know what these operations are, and will be sure to perform them all right? *** COME IN FOR A FREE CHECK-UP by authorized factory-trained mechanics
