

We pledge Allegiance to the Flag and to the Country for which it stands. ONE NATION, indivisible, with LIBERTY and JUSTICE for ALL.

Americans All

Not all "Americans All" are in the armed forces. Some are employed in production work, some are women working at home. Some are doing Red Cross sewing.

Recently we had a card from Peck Robinson, who used to work for us. Peck is now in Norfolk, Va., where he is employed as an electrician. Here is what he says: "I have been working pretty hard seven days a week. There is no rest here for anyone. It's all out for victory and I know I'll do it. You live breathe and sleep for the old 'U. S. A.' up here.

Speaking of women. The other day we were talking to Miss Lottie Powers. Miss Lottie is just an example of many others of the unsung Americans who are doing their part, uncomplainingly and incidentally without pay in the all-out effort to win the war. When we saw her she was hurrying to her office to do—no work she gets paid for doing on. She was hurrying to fill out draft questionnaires and the new occupational questionnaires for the recent men who registered in February. We said she is just one example of many who are doing the same. There is no pay attached and no glory received—not even recognition. And to us, it is a real service worthy of highest praise.

Dr. and Mrs. A. W. Adkins, have reason to smile and to congratulate themselves, as well as to receive congratulations from their friends. They received a message from their son, Lieut. Ass. Adkins, Jr. to the effect that he had been promoted from Second Lieutenant to the grade of First Lieutenant effective March 1. Lieut. Adkins is in the Army Air Corps in the ferry service and is one of that group that ferries the Army planes to all points in the United States. He is one of the men whose Mother and father made good in the service of his country, and his parents are not the only ones in Morehead who are proud of their children. The entire community rejoices with them in this well-merited honor.

When Camden Young, who spent a ten day furlough here visiting his mother, Mrs. Allie W. Young entered the gates at Camp Ellington, Texas, where he is stationed he was greeted with a new title. His buddies greeted him as Corporal Young. During his absence from camp he had received a promotion. Camden is true out for an training school, and we certainly hope he makes it.

Mrs. Pearl Moore Dies Following Lung Illness

Mrs. Pearl Moore, Morehead, Route One, passed away at her home on April 2 at the age of 23 years, 3 months and 27 days. She was united in marriage to Ted Moore, to which union one daughter, Judy Elaine, aged eight months, was born. She was a devoted member of the Church of God and lived a consecrated Christian life. Surviving are her husband, Ted Moore, her daughter, and her mother, Mrs. Ina Moore. A host of relatives and friends also mourn her loss.

Previous to her death, she had a prolonged illness due to Lukemia and spent five weeks in the Good Samaritan hospital at Lexington. Through all her suffering, she was patient, cheerful and uncomplaining. Although she prayed to be healed of her affliction, she was not to submit to the will of the Lord and passed away at rest. Funeral services were held April 13 at the home and were conducted by Rev. Herbert Moore, brother-in-law of the deceased. Burial was made in the Ellington cemetery nearby. Contributed.

Navy Men To Be Here Two Days Weekly

There will be a representative of the Navy Recruiting service at the postoffice in Morehead on Wednesday and Thursday of each week. Many vacancies for men between the ages of 17 and 36 exist at present. Qualified young men between the ages of 17 and 36 may be enlisted as apprentice seamen and sent to the training station for regular recruit training, with a prospect of advancement into one of the specialist schools, if desired. The pay while in the rating of apprentice seaman is \$21 a month for the first four months after four months naval service. An increase to \$26 a month is authorized. Men up to 50 years of age in many trades and organizations may be enlisted in the Naval Reserve with rates based on their trades and experience and ranging from \$60 \$170 a month.

Those interested in either the Navy or Naval Reserve are asked to meet the Navy Recruiter or write to the Navy Recruiting station, Ashland, Ky., for further information.

30 Acres Of Forest, Burned When Blaze Escapes Control

Thursday, April 16 proved to be a hot day with a day to burn off a sedge grass field for Ole Daley, well known local resident on Holly Fork of Trip Let. Ole's fire blew across his sedge field and set fire to 30 acres of government owned timber land.

Teachers Will Hold Last Meeting Of School Year

The last teachers meeting for the school year 1941-42 will be held at the Morehead high school gymnasium Friday April 24. The morning program will be in charge of the A.A.U.W. of the art work of the Rowan county school children will be on display at that time.

Dr. J. D. Falls Chairman Of Local USO

Plans are now being worked out for Dr. J. D. Falls who has been appointed chairman, for the organization of a branch of the United Service Organization in this city. For the benefit of those who may have forgotten, the USO is the national organization which is sponsoring service clubs all over the nation for the entertainment and relaxation of the service men of the United States. The importance and necessity of such an organization to this community is being brought home as the prospects of Morehead being established as a naval training school become more nearly realized.

No details of the proposed organization are available at present, according to Dr. Falls, as the committee has not yet been completed and no meeting has been held. Dr. Falls hopes to have things in business publication in the next issue of the News.

Boy Scouts To Be Organized In County

This week a survey is being made in the schools of Rowan county to try to determine how many boys desire to belong to the Boy Scouts or Cubs. The coordinating council has been able to secure the cooperation of seven organizations in the city of Morehead and Rowan county to help carry on the boy scout movement.

Young People At Christian Church Convention

Eight Morehead young people attended the World Fellowship meet of Eastern Kentucky Christian churches at Winchester last Friday Saturday and Sunday.

Two Rowan Boys With MacArthur

With the fall of Batavia to the Jap assault. They have not received any word since that date. A letter sent from here on November 27, was recently returned, with the notation "all service discontinued." Mr. Luster, feels that his son is probably one of those in the hands of the Japs at this time. He is however, firm in the belief that the hero of Batavia, General Douglas MacArthur will in the end make good his promise to those men and return to free not only them, but the Philippines as well.

Through the courtesy of the Trail Blazer we publish a portrait of General MacArthur, by Professor Tom Young, of the art department of the college.

Licking Airport To Be Open For Private Flying Lessons

The Morehead airport, under the management of Mr. Meadows is open, and while waiting for their contract for training civilian pilots for the government to open, they are planning on offering private flying lessons to anyone interested. The field is just across Licking river in Bath county, and Mr. Meadows has spent considerable money in preparing the field. He has two new airplanes which will be used for training and is equipped to handle the school completely. Anyone interested in learning to fly is requested to get in touch with Mr. Meadows at the flying field.

Farmers Are Raising Hemp This Season

April 18, Mr. Ralph Kenney, agronomy specialist from the Experiment station, Lexington, and the County Agent held a hemp planting demonstration at the Jesse McFray farm. Nine farmers from different sections of the county attended the meeting. These farmers were showing the best methods of planting hemp.

Many Garments Out, But More Are Ready

Last week we ran a notice to ask for Red Cross sewers. Almost immediately Mrs. J. W. Jones of Bluestone called and said that in that little place would make fifty dresses for girls. Several others have called for work, but there is still more to be done. Examine your conscience. This is as much your war as the other fellows. Have you and are you doing your part?

Registration For Sugar To Start Tuesday

Tuesday, April 23 and Wednesday, April 24 are Sugar Rationing days for the trade people of Rowan county and of the nation. The dates were published last week as April 27 and 28, but probably due to the registration act on Monday, April 27, of all men over 45 years, was postponed a day.

Rowan To Be One Of Counties In Check Of Spending-Saving

Rowan county is one of the 46 counties in the United States in which rural families will be asked to cooperate in a nationwide study of family spending and saving in War time. This study was requested by the Office of Price Administration and other agencies to obtain facts regarding wartime consumption habits of families in different income groups.

May Day Set As Health Day In Nation

"We sometimes wonder what it would take to get people to realize again the importance of prophylaxis of our children." The details of the program followed by the Governor has issued a proclamation calling upon the people to recognize May Day as a Child Health day and in this proclamation they have recommended and asked that all children be vaccinated against small pox and immunized against diphtheria. It appears that these communicable diseases for the present have been practically eliminated so far as the county of Rowan is concerned, but unless preparedness is kept up and we continue to fight these treacherous germs they will not stay away from us long.

Your Health board is calling upon you to have your children vaccinated against small pox, and inoculated against diphtheria in compliance with the proclamation of our President and Governor. The time to vaccinate your children against small pox is before they are a year old, possibly between the age of 2 to 12 months. It may be done at any time in infancy but statistics show that the effect is least on a child in the earlier months. Diphtheria immunization should be given when the child is 5 months old. When this is done by your family physician he should give you a certificate showing the date of immunization and the re-

Remember, Men, 45 To 65 To Register

Raise More Meal Says County Agent

It is estimated that Kentucky farmers, in order to meet the demand for more meat and more milk in 1942, must raise or otherwise improve a million acres of grassland in 1942 and about 2 or 3 million acres in 1943. Most Kentucky meadows and pastures now have poor grass...

AIRPORT OPEN
C. B. Meadows, Pilot
Licking Airport open for private flight instruction. Charter trips and passenger hops.

Most seedlings will be made in spring or fall. Fall sowing seedlings will be almost entirely the grasses. They should be sown at any time from September 1 through November, but the September sowings give the best results.

Of course we are interested in everything that is going on all along our far flung battle line. Of course we would like to know the details of the operations of our fleet and armies.

We cannot run a war by committees or open forum debates. We have elected our leaders by the process of law. Now we must back them with our trust and obedience.

The best way to avoid censorship is by cooperating. By putting a mental curtain up between ourselves and the enemy game, by not picking a peevish rather than calmly allocating blame by the press.

Steady There!

Have you ever been caught in a panic strike crowd? If you say you will never forget the experience I was on an over-crowded, over-rhinalced boat one time when I was a child and I remember the incident from the treated and the ship listed heavily. They rushed from one side to another, pushing and crowding, hysteria rising rapidly as the panic spread and the vessel listed more heavily with each surge of the mob.

Farmers Grow Hemp

(Continued From Page One) Seed should not be covered very deep. If the soil is moist do not step on the seed or pack the dirt over it for this will cause a hard crust to form over it. If the soil is dry it probably will be best to pack the dirt over the seed by stepping on it.

Dr. Falls Chairman

(Continued From Page One) Eighteen farmers in Rowan county have already sowed up to grow 88 acres of hemp. Several more are considering the possibilities of growing hemp as a cash crop.

Censorship

The Bill of Rights guarantees us free speech and a free press. Censorship does not take away either of these rights. Censor rights. Censorship does not mean the giving out of false stories. It does mean that all information of assistance to the enemy will be withheld until its telling will not endanger

ences resulting from the World War, when various private organizations such as YMCA, the YWCA and HYMCA carried on the work. This time the units are all being utilized under one head and a more efficient as well as more economical organization is resulting.

Health Day

(Continued From Page One) Private physicians do not usually keep a record of their patients and immunizations greater inconvenience for you later on.

All children should be vaccinated against diphtheria and parents should appreciate the privilege because it is a safe and very effective preventive illness. See your doctor at once for delays are dangerous.

I have it on the envelope. I went to town Thursday and I sure did enjoy myself. Glad you got the pictures OK. Got a letter from Winifred and she was glad to get her picture.

Tell Quanten I am sure would like to have a studio picture of him. Tell J. D. that I listen to all the best radio programs and I always think of him when I hear the "Hit Parade."

Oh, yes, Mom, don't forget to send me the Rowan County News. I am very much interested.

Well a new day, and not a dead one either. We had a big inspection today. Everything went over fine. Right in the middle of everything a fighter plane crashed in the ocean just about 25 yards in front of the our guns. The pilot sure knew his stuff though, for he was out of his plane the minute it hit the water and swam safely to shore. He as just a young boy about my age. His plane is still out there with just the tail sticking out.

No Mom, I've never got to see any of the boys from there. I never get much time to go visiting. I'll try to locate some of them the first chance I get. Will close with lots of love.

THE WAR

Puts A Tighter Limitation On Our Service To Customers

A STRICTER LIMITATION upon utility companies for maintaining, repairing and supplying electric, gas and water facilities for general use by the public, has been placed by a War Production Board order issued March 26.

MAKING ADDITIONS or expansion of equipment beyond a given number of feet from existing facilities is prohibited by this order. This means that extensions of lines and pipes to provide service for new homes or to homes heretofore without utility service is now almost entirely forbidden. The order also puts certain limitations on repairing non-defense equipment.

THE ORDER APPLIES equally to commercial and industrial customers desiring to expand their existing utility facilities—except in the case of war material producers whose preference ratings are such as to exclude them from the restriction order. Excluded also from the tightened restriction are maintenance and repairs to facilities for public health and safety.

OUR CUSTOMERS may be sure we will do everything consistent with the war effort to continue to supply their normal needs... but non-defense expansion and extensions are almost entirely ruled out.

AS WAR CONDITIONS change other restrictions may be added. So if you are planning to build a new home, store or factory, or to make improvements—be sure to consult. Don't rely on guess... we'll give you the facts!

"FOR THE DURATION" please bear with us and understand that we are so busy with the war effort that we are unable to do our normal business. We are doing our best to keep our lights on and our gas flowing. We are doing our best to keep our water flowing. We are doing our best to keep our streets clean. We are doing our best to keep our country safe. We are doing our best to keep our country strong. We are doing our best to keep our country free. We are doing our best to keep our country united. We are doing our best to keep our country proud. We are doing our best to keep our country brave. We are doing our best to keep our country victorious.

Red Cross To Make Hospital Garments For Americans

Attention: There is still a great deal of sewing to be done at the Red Cross. There will always be as long as the war lasts. If you can't spend a day at the sewing room, would you take some things with you? According to word from headquarters, they are asking us to make hospital garments for our armed forces about May 15 and the other work should be finished first. We also have much knitting to be done? Won't you help? Remember, this is America's fight. Do your part.

War Brings Changes

Changing conditions due to the war, make it necessary for business to adjust itself to those conditions. The REGAL STORE, in an effort to adjust its business to new conditions announced the following program which will take EFFECT IMMEDIATELY.

Cash And Carry — No Delivery

Our inability to buy tires has forced us to discontinue our DELIVERY SERVICE of groceries. In the future this will be able to sell you a CASH AND CARRY PLAN. By doing this we will be able to sell you your groceries at a SAVING TO YOU. What we save by the CASH AND CARRY system, we propose to pass on to our CUSTOMERS in a REDUCTION IN THE PRICE OF GROCERIES.

On And After April 25th.

Our NEW PLAN will go into effect on APRIL 25. On and after that date all groceries will be sold for CASH ONLY, and customers will CARRY THEM AWAY with them. We will appreciate your cooperation and believe that the new system will BE A CONVENIENCE and a SAVING to both of us.
