

# A BUSTED HOT WATER BOTTLE May Help WIN THE WAR

.. Remember the old time ballad which says, 'For the want of a rider a battle was lost?' Well, we're not going to lose this war but a leaky hot water bottle may supply

the extra ounce of scrap rubber that will more quickly give the Axis the ax.

## WANTED

That rusty old stove up in your attic. That old piece of brass pipe. Those worn out galoshes. Those broken toys.

America needs millions of pounds of scrap metal, old rubber, old rags. It needs them to help build ships and guns and ammunition and tank treads and hundreds of other necessities of war.

Don't say "My little bit won't do any good." It will. Gather it together—and then turn it in. There are different ways to do this in different communities. Some people sell their scrap to a junk man. Some give it to a local charity. It will all end up in the right place eventually. It will all help to win the War!

## UNCLE SAM WANTS THAT OLD RUBBER RIGHT NOW

There's  
**130 Lbs.**  
of Junk in your  
home!

In the attic or cellar of the average home there is 130 lbs. of junk. In ordinary times, it would stay there to gather dust. Or it would be destroyed.

But this is war. America needs every single pound of that junk—every pound of scrap metal, scrap rubber, and old rags. It is needed to make ships and shells, tires for jeeps; bombs, shells, guns.

Gather it up today. And then turn it in. Sell it to a junkman. Or give it to a local charity. Remember, your junk can win the war.

YES, the government wants every disused or worn out article made of rubber that can be sent to the nation's stock pile, and wants you to help get it there in a hurry.

### OIL INDUSTRY IS COLLECTING IT!

Continuing through July 10th gasoline stations in Rowan county will continue to help collect scrap rubber paying

### A PENNY A POUND IN SPOT CASH FOR EVERY POUND SENT IN OR

contributed by you . . . so take all the old rubber you can collect to the nearest gas station today. NOW!

None of the oil companies will receive ONE PENNY in profit in this service to the nation. By the cooperation of thousands Dealers and gasoline company employees,

the scrap rubber will be turned over to the government and will be paid for by Uncle Sam on the basis at \$25.00 per ton. the \$5.00 extra per ton over the price paid you has been pledged to the USO, Navy and Army Relief and the American RED CROSS.

### MAY HELP STOP GASOLINE RATION!

Since a shortage of rubber is considered as the MAIN reason for rationing gasoline in the central states, this

is one important way to do your part, and it may help to ward away the need of curtailment and gasoline rationing.

## What does the Fourth of July Mean to You?

Revolution. It inspired the peoples of South America to throw off the cruel Spanish yoke. And everywhere outside the Orient it gave the common man cause to hope for a happier world.

On this Fourth of July, 1942, our country is once more engaged in a terrible struggle against the forces of tyranny, brutality and greed. Thousands of our men already have given their lives battling enemies determined to drag civilization down to the level of the Dark Ages. Military necessity requires that all of us give up many vital liberties in order to win the war.

But with victory and peace, and vast social readjustments affecting everyone, we must guard against the aims of social-minded politicians who would try to establish in these United States of ours some evil principles we are fighting today.

Indeed, the great mass of us men and women who do the productive work, pay the taxes and fight the wars, must recapture every ounce of the rights and safeguards that make the American Way of Life... the system of free enterprise... which in 166 years has made ours the greatest nation of all time.
