

# THE ROWAN COUNTY NEWS

VOLUME NUMBER: Old Series, No. 61; New Series, No. 25.

MOREHEAD, KENTUCKY, THURSDAY, JULY 23, 1942.

'NUMBER THIRTY'

We pledge Allegiance to the Flag and to the Community for which it stands.

ONE NATION, Indivisible, with LIBERTY and JUSTICE for ALL.

## Americans All

Rowan county, while she did not head the list of contributors of scrap rubber, was well up at the top of the list according to the reports from state headquarters. Rowan turned in 123,000 pounds of rubber, an average of almost twelve lbs. per person. This was considerably more than that, but to the person. Actually the rubber was taken up by other counties with the result that those counties received credit rather than Rowan County. Of course the national result was not effected in any way.

Rowan county may well be proud of the record, and in passing it is well to give credit to the two local gasoline distributors, N. E. Kennard and Williams and Lickell, distributors of Standard and Shell Products in this section, respectively. If Mr. Kennard and Messrs. Williams and Lickell and not devoted practically all their time and energy, as well as that of their men and their trucks for the entire three weeks period, the record would not have been nearly so satisfactory. This is where credit is due.

In that connection, the following letter from the State chairman of the Scrap Rubber Drive, Mr. Downing, is a source of immense satisfaction to the publisher of the News, offering commendation for the part the News played in the war effort.

July 16, 1942.  
Rowan County News,  
Morehead, Kentucky,  
Gentlemen:  
We just want to give you our expression of sincere appreciation for the splendid manner in which you cooperated during the President's Scrap Rubber Drive. We have been advised by the Rowan County Petroleum Industry Scrap Rubber Committee, of the marvelous way in which you devoted space to this work and we want you to know that your splendid and unselfish spirit has not passed unnoticed. You have assisted in rendering this country a most valued service.

Kentucky Petroleum Industry Scrap Rubber Committee.  
By John Downing, Chairman.

## Bear Cases Are Bound Over To Grand Jury

With the trial and acquittal of Sarah Mobley on charge of the General Marshall and a hung jury in the case of Cecil Binion on the same charge, the County Court waived trial of the other nine cases on a similar charge and bound the accused over to the November Grand Jury.

Two full days last week were occupied in the trials of the two women. The warrants were sworn out by two state under cover men, who claimed they had purchased beer in each of 11 road houses in the county.

Paul Combs, a graduate of Morehead Teachers' college is a Lieutenant (j.g.) in the Naval Air Corp. and is taking among an intensive training course at Harvard University, Cambridge Mass., before being assigned to active duty.

## Thrashing Service Is Big Help To Farmers

A number of Rowan County farmers are taking advantage of the thrashing service created by Mr. Leland Hall of north Fork of Triplet, is reading J. A. Adkins secured one and one fourth acres of Fallow winter oats last fall. Mr. Hall has recently thrashed this out crop which produced thirty six and one half bushels. Mr. Adkins also raised one and three fourths acres of wheat which he also had thrashed. Mr. Leslie Cooper of the same Community had three acres of winter oats that yielded seventy five bushels. A number of Rowan County neighbors have asked to buy their entire crop to be used as a seed crop this fall.

## Red Cross Prepares For Bandages

With the American Red Cross requiring more and more bandages and more sewing to be done both for our Allies and for our own people, the Rowan County production committee is rapidly becoming the busiest place in all of Rowan county. Additional yardage is being made in to garments, and additional women are needed to sew. If you can thread a needle, run up a seam, sew on a button or cut fabric in pattern, your services are needed, not by the committee, but by YOUR OWN SONS. If you can't come to the sewing rooms, you can take it to your home. If you can't sew, maybe you can knit. If you can't knit maybe you can wrap bandages. Remember, there is something YOU can do to help.

The bandage wrapping program will start immediately after August 1. Rowan county has been given a quota of five hundred thousand bandages to wrap in the next year, or six thousand a month. This work MUST BE DONE. Our troops and our sons and brothers are going to need them.

If you have not already signed up for a day each week, want you do so at once. The boys are giving their lives. Won't you give one day each week?

## Meet The Navy—Being The Seventh of A Series Of Articles

Rowan county folks can not learn and we pass the result you are expected to know much if not to our readers. Very frankly, we do not know of the fleet units, and we know much more about ships, we took time out Those are questions we think what we asked. Well here's the West Virginia, one of the largest and a crew of 1,407 officers and men. In other words if you take all the men and boys in the fleet, you will have as many men as it takes to man a battleship. Some "wagon" it mounts huge 16 inch guns, and that means it inches in diameter not in length. They fire a shell weighing more than a ton and a half over 30 miles. Try carrying that load a foot. Battleships are named after states. We have seventeen in service with more building. Aircraft Carriers—Right now the most important ship in the fleet. Airplane based on carriers as well as on land were what won Midway island for us. We are getting ready to build more and more of them. They have a flat deck is about time we learned a bit How many men does it carry?

## More Boys Sent To Plants By NYA

Nineteen young men trained in the West Liberty NYA War Production shop left Tuesday for Hartford, Conn. and Beltsville, Maryland of a short period of advanced training and will be placed in War Production work. They are going to Hartford, Doris Rose, Will Henry Adams, Roy Sargent, O. T. Tyson, Chalmers C. S. A. Elam, George Prater, David H. West, Ormond Lewis, Kenneth Collins, James Brewster, Charles Little and Charles Craft. The following will go to Beltsville: Clyde Peyton, Edward Adams, Carl Bailey and James Amey. These young men have been trained as machinists and welders in the West Liberty shop under the direction of "Pop" Seymour and are the third group to leave for jobs in the Eastern States since the shop opened. Bernard Whit, personnel officer said that there will probably be another group August 1.

## Drivers Licenses Will Be Duly On August 1

With the approach of August 1, the annual quest for new drivers licenses begins all over again, and Joe McKinney, Circuit Court Clerk gets out his little pads of blanks and begins to collect the annual harvest of dollars bills for the privilege of driving tireless automobiles over the county side. All of which is only a more or less poetic way of telling you that your new 1943 Drivers License is due and payable on or before August 1.

Mr. McKinney says that the when the boys are being called for much more slowly than last year probably due to the fact that fewer cars are on the road. However, if you are still driving your car, you are going to need a new drivers license.

## Are We Quisling?

Are we quisling? It is the verb that is meant, not the noun. We are quisling when we try to get around something which we seek favors for ourselves, when we grumble and complain at the hardships of war. We are quisling when we neglect dim our precautions, when we boast of being able to get more than our share of restricted foods, or essentials when we waste rubber and gas on pleasure driving, when we show our contempt for the law for more than the legal price for rationed goods, when we waste essentials. The traitor, whose name will go down in history of the war is one who shows that one night or the stab in the back betrayed his countrymen to the invader. When we quise we are betraying our armed forces who are in the grip of an enemy inflicting them for a moment's comfort, or for a smart lack of satisfaction in putting some thing over. Fortunately there are few who are going in for international quisling. But, as a nation we have put too much reliance on our material resources with us down a full realization of the necessity for using the resources at our command for one end and not only, of home because they had no "What if we do go without? rubber tires?" Are we quisling? What is our privilege as free WE ARE NOT!

## Aunt Of Russell Becker Dies In Texas Home

Mr. Russel Becker received word Monday of the death of his aunt, Mrs. Anna Blane meyer in Arkansas Pass, Tex. Mrs. Blane meyer who was 80 years old was the widow of Dr. Herman Blane meyer. She had been making her home with her daughter, Miss Ruth Blane meyer. Funeral services will be held Thursday at Portsmouth, Ohio.

## Kitchen Fats To Grease Axis Skids

A sub committee of the Kentucky State for Victory Advisers, on July 17 and formulated \$70. All stamps are serially numbered and it is advisable for the taxpayers to make a notation or memorandum of the number of stamps in the Bureau of Industrial Conservation. The State event that the stamp should be retained.

Mr. and Mrs. O. P. Carr and daughter, Mabel returned last Wednesday from a visit with Walter W. Carr at Gutter Field, Alabama, where he is in training with the Army Air Corps.

## Cars Return From Visit To Air Base

Mr. and Mrs. O. P. Carr and daughter, Mabel returned last Wednesday from a visit with Walter W. Carr at Gutter Field, Alabama, where he is in training with the Army Air Corps.

## Clayton Turner In Training At Great Lakes

In training as a future petty officer, Clayton R. Turner, 24 years old, is at the Great Lakes Naval Training Station here. He will receive a petty officer's rating as soon after graduation as he is able to pass the examination for the advancement.

## Capital Stock Collection Is Extended

The office of the Collector of Internal Revenue, District of Kentucky, is just in receipt of a letter from the Treasury Department, which states that the time for filing Capital Stock returns and paying the Tax due has now been extended from September 29, 1942 to October 31, 1942.

## Officers For Primary Are Chosen

Election officers to hold the primary election on August 1, have been selected and the first time in many years it looks as if Rowan will hold a primary without any opposition and without a big prize. The officers are: Don Parker, appointed campaign manager for Senator Chandler, and apparently Brown is not even attempting to have one. Cecil Prater will serve in the same capacity for Joe Bates for Congress. Nettie Bates nor Chandler are in serious danger or in any danger of defeat. As it looks at present it won't even be worthy of mention.

## Heavy Fine For Not Having Car Stamps

Any person liable for the tax on motor vehicles, who uses or permits the use of the vehicle before the tax is paid shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than \$25 or 60 days, or both. Any person who uses or operates a motor vehicle at a time—when the stamp sticker or tag does not appear on the motor vehicle in the manner provided in the regulations prescribed shall be upon conviction thereof shall be fined not more than \$25.

Half Million New Workers Needed  
Nearly half a million new workers must be recruited or trained for war jobs in Michigan, Ohio and Kentucky before the end of this year. This state is making a contribution to the war effort by training a large number of new workers in the special labor shortage in such fields as aircraft and parts production, ordnance manufacturing, iron and steel works, mining, and construction. Keenan said.

Mrs. D. B. Caudill and daughter Miss Louise and Miss Bernice Clark spent Saturday and Sunday in Cincinnati.

Mr. and Mrs. Oscar Fleish and son, Billie and Dickie of Ashland spent Monday here guests of Mr. and Mrs. Frank Havens.

Mrs. E. A. Landolt was called to Lexington last week by the serious illness of her grandmother, Mrs. Rosa Rae. She continues very ill.

### Meet the Navy

(Continued From Page One) To furnish a landing and takeoff field for the hundred or more planes it carries, The Hornet, one of our newest carriers, has a complement of 4,072 men and mothers more than one hundred planes.

A Cruiser may be light or heavy with 6 to 10 inch guns. It carries from 600 to 808 men, depending on the size of the ship.

Destroyers are smaller and destroyers rather of the classes named above. They range up to 2,000 tons and carry five inch guns and many torpedo tubes.

Cruisers are named after the cities of the nation, and destroyers after Naval heroes. Submarines are named after fish. And we will soon have as many submarines as there are fish to name them after.

In addition we have sub chasers, gunboats, mine layers, and mine sweepers, oilers, tenders, transporters, hospital ships, and torpedo boats.

It is of course impossible to give more than a faint idea of this vast subject in the scope of an article such as this one. We only hope to be able to help give an inkling of what goes to make up the U. S. Navy, in the future as in the past that Navy will be the guardians of the seas and our first line of defense.

### Kitchen Fats Needed

(Continued From Page One) of them will be organized to promote the kitchen fats salvage program.

The plan is to encourage the housewife to save all kitchen grease, place them in a tin container and deliver them to her meat dealer, who will pay her a minimum of 4 cents a pound

according to the cost of gathering. He returns the grease to the fats to a rendering company, on the basis of an additional 1 cent, which it is estimated will pay the cost of handling.

Approximately 15 percent of the kitchen fats will go into the glycerine industry for war purposes. The residue will be used in the making of soap. Judge O'Rear states that 2 lbs. of kitchen fat have enough glycerine to fire 5 antitank gun shells.

## Merit Award Given For Farm Production Given By Farm Security Administration

"Our own objectives are clear; the objective of smashing the militarism imposed by war lords upon their enslaved peoples—the objective of liberating the subjected nations—the objective of establishing and securing freedom of speech, freedom of religion, freedom from want, and freedom from fear everywhere in the world."

This is to Certify that Howard Wilson has reached the goal set for him this year as his part in the Nation's Food for Freedom Effort

### Work On Farm Front

Work On Farm Front Recognized "Work hard and get your name in the blank space" says Morris P. Caudill, County Farm Security Administration Supervisor. Shown above is a reduced reproduction of a "Merit Award" to be given by the Farm Security Administration. The certificate will be given next fall to all families farming under the FSA program who who reach all our war production goal set up in their 1942 farm plans. The original certificate is eight-by-ten inches, suitable for farming.

A Merit Award will be given next fall to all Farm Security Administration borrowers who reach production goals set for them this year in the nation's Food for Freedom campaign.

Morris P. Caudill, County Farm Security Supervisor, said

a certificate will be given as evidence that the farmer has put forth the extra effort asked for by the Secretary of Agriculture to help win the war by all out food production.

The merit award certificate, printed in red, white and blue, suitable for framing is an impressive certificate, signed by C. R. Baldwin, national FSA administrator, and Howard Gordon, regional FSA director. In addition to appropriate words of commendation, the certificate bears the following statement by President Roosevelt:

"Our own objectives are clear; the objective of smashing the militarism imposed by war lords upon their enslaved peoples the objective of establishing and securing freedom of speech, freedom of religion, freedom from want, and freedom from fear everywhere in the world."

of religion, freedom from want and freedom from fear every where in the world."

The certificate will be awarded families farming with Farm Security loans when they have reached production goals set up in their 1942 farm plans. Mr. Caudill pointed out:

"To reach the Food for Freedom goals, the farm families will find it necessary to make every hour and every acre produce the largest possible amount of food and fiber," the supervisor said.

"On the whole, the families have set high goals, when one considers the difficulty faced by many of these farmers. The award will be the Department of Agriculture's recognition of exceptional Service under difficult conditions."

### Americans All

(Continued From Page One) from the boys in service — and will be glad if you will bring or send in some more. The rest of the citizens like to read of the boys overseas and even if interest in the letters, every you think there is nothing of one will be glad to see it in print.

Send or bring in your next letter from your boy, wherever he may be or whatever he may say. We like them and so do all

### Asks For Paper

July 15, 1942

Dear Jack:

I am writing in regards to your paper. I would like to have one. I am from good old Morehead and am proud to be serving your country and my country during this World War II. The paper sure would help me along, knowing and reading from my home paper. Jack if it is possible to receive your paper, drop me a post card and I will return the money for one year.

Yours truly,

State Expects \$6,500,000 Less Revenue

Reveals Revenue Estimate Shows War Effect Causing Decline in Tax Receipts

WITHOUT THE BEER TAXES IT WOULD BE 20% WORSE!

### Kentucky Needs Every Dollar of Taxes from its Legal Industries!

War is costly, and you, as an individual, may be called upon to make up the deficit in tax revenue the Commonwealth will suffer this year. Most sources of revenue are shrinking. But one, the legal industry of brewing, will pay into our treasury more than it paid last year! Here are the figures for the past five years:

Fiscal Year	Amount
1937-38	\$1,113,952
1938-39	1,071,769
1939-40	1,059,962
1940-41	1,234,164
1941-42 (estimated)	1,300,000

Think what these taxes mean to Kentucky today—with other sources of revenue drying up.

## To Begin In August

**JOIN The JUNK HUNT!**

**TURN IN YOUR OLD JUNK FOR VICTORY**

*Join the Junk Hunt!*

America's War Factories Need

OLD RUBBER  
SCRAP METALS  
OLD RAGS

Sell it to a junk man or give it to a charity

# UNCLE SAM WANTS THAT OLD JUNK RIGHT NOW

There's **130 Lbs.** of Junk in your home!

In the attic or cellar of the average home there is 130 lbs. of junk. In ordinary times, it would stay there to gather dust. Or it would be destroyed.

But this is war. America needs every single pound of that junk—every pound of scrap metal, scrap rubber, and old caps. It is needed to make ships and shells, tires for jeeps, bombs, shells, guns.

Gather it up today! And then turn it in. Sell it to a junkman. Or give it to a local charity. Remember, your junk can win the War.

YES, the government wants every disused or worn out article made of rubber that can be sent to the nation's stock pile, and wants you to help get it there in a hurry.

**OIL INDUSTRY IS COLLECTING IT!**

Continuing through July 10th gasoline stations in Rowan county will continue to help collect scrap rubber paying

**A PENNY A POUND IN SPOT CASH FOR EVERY POUND SENT IN OR**

contributed by you . . . so take all the old rubber you can collect to the nearest gas station today. NOW! None of the oil companies will receive ONE PENNY in profit in this service to the nation. By the cooperation of thousands Dealers and gasoline company employees,

the scrap rubber will be turned over to the government and will be paid for by Uncle Sam on the basis at \$25.00 per ton. the \$5.00 extra per ton over the price paid you has been pledged to the USO, Navy and Army Relief and the American RED CROSS.

**MAY HELP STOP GASOLINE RATION!**

Since a shortage of rubber is considered as the MAIN reason for rationing gasoline in the central states, this

is one important way to do your part, and it may help to ward away the need of curtailment and gasoline rationing.

**JOIN THE ATTACK ON TOKYO, . . . YOURSELF!**

Every person in America may not fly over Tokyo, but every one's dollars can help produce the bombing planes that do!

You, you, you, can join the attacks on Tokyo by saving at least 10% of your pay in War Bonds—by joining your company's pay-roll savings plan today or going to your local bank or post office and buying War Savings Bonds—at least 10% of your pay—every day.

Remember you can start buying War Bonds by buying War Stamps for as little as 10c and that you get a \$25 War Bond (maturity value) for only \$18.75.

D. S. Treasury Dept.

**WAR COSTS MONEY - BUT LIBERTY IS PRICELESS**

**Help Win the War with the Money You Save**

Of course freedom is expensive. The highest price tag ever attached to the most precious item. And the cost of human liberty in blood and treasure is a staggering one. But to be able to speak and pray and think and vote the way we wish—did you ever hear anyone question the cost?

Some Americans are paying the cost with their lives. Others are buying as many Defense Stamps and Bonds as they possibly can—every day. Are you doing your share?

In order to provide every opportunity for the daily purchase of Stamps and Bonds, we're now selling them at each cash register in our stores. Whenever you go, whenever you cash, buy your share in our country's most precious possession—Liberty, the Freedom of America!

**HOW THE WAR AFFECTS YOUR ELECTRIC SERVICE**

YOUR electric company, like other industries, is unable to do business as usual. Urgent war needs have cut down our stock of repair materials, and our use of critical materials, such as rubber, copper and steel. The use of automobiles has been limited. The armed forces have taken many of our skilled workmen.

LONGER SERVICE INTERRUPTIONS—These conditions make it impossible for us to give you service as promptly as we wish. When equipment is damaged by wind and lightning storms, or due to other causes, we often do not have necessary replacement parts in local stocks but must send to another town for them, as our stock of replacement parts is limited. For some customers, this means longer service interruptions than before the war.

LIMITED LINE EXTENSIONS—Urgent war demands make it impossible for us to carry out fully our former policy of making extensions and expansions to serve your new and increased needs.

Our Manager will be glad to tell you about present limitations that have been prescribed by the War Production Board, which has been charged with the responsibility of making the fairest possible allocation of critical material between war and civilian needs.

If you are unable to get an extension to serve your new or increased requirements, it means that the necessary materials are being fabricated into guns, ammunition, tanks, planes and ships to slug the Nazis and Japs.
