Fowler Talks On "Ladies Of Europe" In Thursday Chapel

History Teacher Gives Comparison Of U. S. European Women

Mr. Nolan Fowler, professor of history, presented a talk in Thursday chapel on "Ladies of Europe." Using mostly pre-war statistics, Mr. Fowler opened his subject by stating that "Some of the countries of Europe are much ahead of the United States, Europe is a woman's country. Bulgaria is the only country that has more men than women, and the United States is a man's country."

"The birthrate is falling all over the world. France has the lowest birthrate of any country in the world. The Catholic and Slavic countries have the highest birthrate, and the death rates in Europe exceed the birth rates. He brought out the fact that death rates for women in a child-bearing state in the United States is exceedingly high, and that the European country with the highest infant mortality is Rumania."

"Divorce rates are higher in the United States than any other place in the world. One out of every six marriages ends in divorce," he said.

In regard to woman suffrage, Fowler stated that Uruguay is the only country in South America that allows the women to vote. The French women and the Swiss women of Europe cannot vote. The Swiss women have all economic privileges, are mostly Catholic, and do not believe that women should have a hand in the affairs of the government.

State Income Tax For 1943 Equal To Tax In 1942

Processed returns on 1943 income taxes, nearly complete today indicated collections for the calendar year will be neither below nor over those of 1942, according to Revenue Department figures.

Individual and corporation returns processed up to today totaled \$4,569,536 as compared to \$4,573,364 for the same date a year ago. Revenue Commissioner J. E. Luckett reported. Indications were a drop in individual returns would be overcome by an increase in corporation returns.

A total of 44,781 individual returns processed showed promised revenue of \$2,461,107 for 1943, an average return of \$54.96. On the same date a year ago 47,193 returns were processed on \$2,668,200 for a average of \$56.54.

The corporation totals showed 2,572 returns as compared to 2,458 a year ago, money totaling \$2,170,929 as compared to \$1,905,064, and an average payment of \$843.87 as compared to \$775.03.

Department statisticians forecast the processing on 1943 taxes would be far enough advanced to show a definite trend within another week.

Home Economics Club Elects New Officers; Melvin Is President

The Morehead State Teachers college home economics club elected new officers to serve during the 1944-45 school term at a regular meeting last week. The new officers will assume their duties at the beginning of school next fall.

Miss Esther Melvin, daughter of J. R. Melvin, Ashland, was elected president of the club. She will succeed Miss Minnie May Melvin who will graduate in June.

Other officers elected were Ruby Kinder of Maysville, vice-president; Laura Blanton, of Mt. Sterling, Indiana, treasurer; Helen Carey of Louisiana, reporter; and Betty Jo Collins, of Carr Creek, historian.

Additional business conducted by the club included the making of draperies for Allie Young hall and further plans for the annual formal Home Ec club banquet which will be held May 20.

Comptroller Nooe Back From Meeting

Attends Buyers Association Convention In Atlanta

Mr. Ike A. Nooe, Morehead State Teachers college comptroller, returned last week from Atlanta, Georgia, where he attended the twenty-fourth annual meeting of the Educational Buyers Association. The meeting, which was held May 3, 4, 5, and 6, was the third annual War-time Educational Procurement Conference of the Association. His instructions of the convention were Agnes Scott college, Emory University, Georgia School of Technology, and the University System of Georgia with headquarters at the Henry Grady hotel of Atlanta.

Mr. Nooe stated that the general plan for the program was a series of lectures and addresses followed by open discussions. "The entire four-day meeting was strictly a working conference," Mr. Nooe added.

Among the guest speakers were Professor Howard T. Lewis, professor of marketing, Harvard Graduate School of Business Administration who discussed "Purchasing Policies and Principles in the Reconstruction Period." "The Federal Surplus Property Disposal Program and the Colleges," was the topic discussed by Mr. Clifton Mack, chief U. S. Treasury Procurement division.

Mr. Stuart F. Henritz, editor, "Purchasing," delivered an address on the "Practical Purchasing in the Coming Buyers' Market." Mr. Robert Jenkins, purchasing agent, New York University, spoke on "The Institutional Buyers Part in the Coming Buyers' Market." Many other nationally known leaders participated in a panel discussion of the federal government's rehabilitation program, the termination of military-Navy contracts, and the plan for the disposal of government property.

In commenting on the conference, Mr. Nooe brought out the fact that the Educational Buyers Association is the only one of its kind in the country. Others are similar but differ slightly from it.

"You cannot harness happiness. It is not a horse."

distrial purchasing groups. He pointed out that a large part of the commodities released by the Army and Navy would be used in the educational program. Thirty billion dollars worth of commodities throughout the nation eventually will be surplus because they will become outdated, and it will be the educational institutions, which are government supported, that will use the majority of the commodities.

"The surplus commodities may be divided into four general classifications," he stated.

1. Consumer goods, under the direction of the Treasury department procurement division, which will include everything from a spool of thread to machinery.
2. Industrial commodities, which will include complete plants of all types, such as munitions, airports, and also real estate. This is under the Reconstruction Finance Corporation.
3. Marine equipment supplies, under the supervision of the Maritime Commission, which includes specialized equipment for seagoing vessels.

4. Foods, under the War Food Administration, which will be put on the market through normal trade channels.
All four of the divisions are attempting to keep from disrupting the national economic situation.

WFA has requisitioned six and a half million pounds of black pepper from importers and holders to supply U. S. requirements and commitments until about 1946.

The papyrus made by the Egyptians was yellow; that manufactured by the Romans was white.

Willard Bearcraft Gives Program For Mu Phi
 Mu Phi, math and physics club, met on Tuesday of this week for a regular meeting. Willard Bearcraft, freshman, gave a short talk on oscillators and demonstrated that different sounds may be made by inserting different resistances. The business session was conducted by President Ed Shannon, after which there was a brief social session.

Tuesday Chapel Audience Hears Mary E. Fulton
 Tuesday devotional chapel this week was conducted by Mary Elizabeth Fulton, a freshman from Flemingsburg. In discussing the topic, "Furthering our Relationship With God," she mentioned prayer, Bible study, and meditation as necessities. The Girls Chorus, directed by Miss Mildred Sweet, sang a special number and the benediction. Mrs. M. E. George was pianist.

Nelson Says W.P.B Will Increase Production Soon
 The War Production Board will soon permit an increase in production of consumer goods, Chairman Donald M. Nelson revealed this week.

The increase, it was said, will not be large but will "fill in the chinks" of the war economy with civilian production. Small plants will be permitted to use surplus materials for certain goods. Large factories will be allowed to participate also in those cases where the civilian production would not interfere with munitions output.

Farmers will be the first beneficiary, Nelson said at a press conference. A program now is being drafted under which simpler items of farm equipment—such as barn and hayloading equipment and supplies for bee keepers and poultrymen—could be made from idle and surplus materials without regard to WPB limitations and quotas.

Certain broad limitations were laid down to govern the program. They provide that "as a general thing" no WPB programs for increased output of civilian goods shall be placed in Group 1 and Group 2 areas—the 143 cities having labor shortages, as defined by the War Manpower Commission.

Meanwhile the first major step toward alleviating the shortage of low-cost clothes for children was made today with disclosure of a WPB program for the manufacture

of 24,852,000 essential garments by September.

Recent official estimates indicated a 50 per cent deficit this year in lower bracket clothing such as children's garments, men's shirts, underwear and women's house dresses unless something was done immediately to increase production.

The new program provides priority aid and allocations of material to manufacturers participating.

Vaughan Scheduled For Commencement Address
 President William H. Vaughn has been scheduled to deliver the commencement address at a number of Kentucky high schools this spring.

He will speak at the Breathitt county high school on Thursday night, May 18, and will appear at Cannonsburg on the following Thursday, May 23. He will also speak at Mayfield high school on Friday, May 26, and at Raceland on June 8.

material also was carried. The mail load was some 9,000 pounds heavier than any prior mail cargo ever carried by a plane.

Twenty huge aerial freighters, similar to the 70-ton Mars, will be built for the Naval Air Transport Service. They will be even larger and more efficient than the Mars, which is now in service in the Pacific.

Pull very gently at a weak rope.

Everyone tries to cross the fence where it is loosest.

"Joe's Place," a free hamburger dispensary in the Southwest Pacific, is giving pilots and Navy Seabees some of whom have been away from the United States for 23 months, a remote touch of American life. Joseph M. Hayden of Middleboro, Mass., sold his officers on the idea of the hamburger spot. First, he discovered a very large herd of cattle on the island, which he persuaded the Navy to buy, and set up a slaughter house. Then he put over his idea of a mess hall which now serves 400 pounds of beef a day, all ground

with a single small hand meat grinder. All the food is served free. There is no liquor but there are drinks made from powdered milk and lemonade.

No man limps because another is hurt.

Of course platonic friendship is possible—but only between husband and wife.

No one is too old or too young to help win the war. Buy a share in 'Victory.

THE OLD JUDGE SAYS...

"We can't argue with the Judge on that point, can we Mabel? It's not fair to penalize the many for the actions of the few."

"That, folks, is exactly what we would be doing in this country if we ever voted for prohibition again. Authorities who have made a careful study of the problem, report that only about 5% of those who drink abuse the privilege occasionally... 95% drink sensibly. Probably doesn't compare with the number of folks who overeat and do other things to excess. Prohibition certainly isn't the answer. It's not that simple. We had nearly 14 years' proof of that, didn't we?"

"The real answer is education and better control. In fact, the responsible members of the distilling industry are working constantly toward that end. They don't want anybody to abuse the use of their product any more than the three of us do."

"If everybody would take that sensible attitude, Judge, and cooperate as more and more are now doing, we'd be a lot better off a lot quicker."

MOTHER'S DAY

MANY millions of us will observe Mother's Day next Sunday. In doing so, let us pay tribute to the greatest influence for good in American life. For we need not be told that the mothers of this nation have instilled in each generation of the people, since the birth of the Republic, our cherished ideals of duty and liberty and kindness and generosity and righteousness.

Let us do honor to the mothers of the great host of our young men and women who are fighting in many parts of the world to safeguard and perpetuate the American Way of Life, and to assure peace in the future to peace-loving nations. For we know that the hearts of these mothers are filled with pride, although their spirits are burdened with constant anxiety for those they love most.

To the mothers whose sons have been taken as the ultimate sacrifice at the Altar of Freedom let us offer deepest sympathy, aware that nothing we can say will assuage their grief. For only time and loving memories and faith in the divine purposes of the Almighty can heal the hurt.

And finally, let us salute the mothers of today's little children who in a few years will be called upon to guide the destinies of our country. For we can be confident that they will put into the minds and hearts of tomorrow's men and women the wisdom and courage and patriotism to carry on the traditions of individual enterprise which have made our nation great.

Morehead Woman's Club Entertains College Seniors

The seniors of Morehead State Teachers College, Lexington, Kentucky, were honored at a formal banquet given May 9, at the M.S.T.C. cafeteria by Morehead Woman's club. Seniors from both the June and August classes attended the banquet.

Other activities honoring the seniors will be a Y.W.C.A. picnic on May 11; dinner given by the Student Council of Fields Hall honoring its senior members on

Bobbie Brooks ORIGINAL

You'll be justly proud of the figure you cut in this Bobbie Brooks original two-piece. This smart, new cotton has a linen jacket that buttons right up to the perky bow under your chin, and long tucks to slim your waist. The charming, striped cotton skirt will swing gracefully with each step. Comes in luscious contrasting shades of spring!

Sizes 9 to 15

\$5.95 and \$7.95

ADMINISTRATORS' NOTICE

Notice is hereby given to any person indebted to the estate of Jennie Sackett to call at the undersigned office and pay said claims, or any creditors of the deceased, Jennie Sackett, are hereby notified to present his claim within thirty days from this date.

This May 10, 1944.
CLARK B. LANE,
Administrator of the estate of Jennie Sackett.

MOTHER MAKES THE HOME

Two of the most beloved of all words are HOME and MOTHER. They suggest a different picture for each individual... a picture which portrays the background of his life and brings to mind countless acts of sacrifice, kindness, and motherly devotion.

On this Mother's Day we pay homage to all mothers, and especially to those who have one or more loved ones in the service of our country. THEIR ALL is not too much to give to keep America free... forever.
