Of course everyone saw the picture of Pot Earenst G. Thompson of Sharpsburg in one or more of the daily papers last week. Did you recognize him? You should, for he was a former Morehead student commonly called "Bill" The Captain under the picture is "in the slight shade of a slit trench in North Africa Pvt. Earnest G. Thompson of Sharpsburg, Ky. curls up with a good book. Trench protects him both from bombing and desert sun."

Bill is the son of Mr. and Mrs. Charles Thompson of Sharpsburg and a nephew of Mrs. Drew Evans and Mrs. U. S. Sparks. He has been in the army since long before war was declared.

One of the greatest thrills boys in the service must have is when they meet someone from home. Lt. Walter Carr in writing to his mother Mrs. D. P. Carr, told of the meeting between him and Ralph Muesman in New Guinea. Ralph Muesman also a lieutenant is a bombardier and a former student at Morehead College.

Billie Ramey will be home this week for a few days. Billie has been in the service many months and is now stationed at Fort Lewis, Washington.

Private William R. Hargett has been transferred from 1219th S. U. P. Totten, N. Y. to Headquarters Company 42nd Armored Regiment, 11th A. D. It was announced by his commanding officer, 1st Lt. Charles W. Larimer of Camp Polk, La.

Private Hardesty is the brother of Mrs. Ethel Early of Morehead.

Crippie Drive To End On Easter Sunday

"This Monday we enter the last stretch of the Crippled Children Easter Drive which closes Easter Sunday, and it's up to all of us to put everything we've got into it to reach our quota. Neal Dalton, State Chairman, announced yesterday.

"We haven't obtained our quota yet, but we've got a little over a week in which to do it, and it would be a pretty shabby commentary on our citizenship if a state like Kentucky couldn't raise \$40,000 for its crippled children, even with a war going on."

"We're spending millions on weapons of destruction, but this home-front war on disability is something that can't be shrugged aside. After all, the protection and care of the physically handicapped is one of the things we're sending our boys overseas to safeguard, and it is up to us between now and Easter to insure it right here," Mr. Dalton said.

Army Recruiting Office Again Open To WAACS

After being closed for approximately two months, the U. S. Army Recruiting Office at Portsmouth, Ohio, is reopened as of April 5th. The following personnel has been assigned to the station: Sgt. Theoford, of Adams, Texas, as the WAAC or Auxiliary assisting in the Office.

A quota of 300 WAACS by June 30th, has been set for the Portsmouth District, which includes the following counties: Adams, Scioto and Lawrence in Ohio and Fleming, Lewis, Rowan, Greenup Carter and Boyd in Kentucky.

Any woman between the ages of 21 and 44, who is interested in joining the WAAC, should be urged to write this office for information. Address letters to the U. S. Army Recruiting Office, 836 Sixth Street, Portsmouth, Ohio.

Fire Does Some Damage To Home

A fire of some serious consequences occurred Sunday afternoon at the home of Mrs. J. B. Calvert home, when the curtains caught fire from a gas stove. The fire department was called out to assist. The curtains, just new, and several articles of clothing and bedding were damaged.

The fire department was also called to Myrtle's Tea Room Sunday when the gas wires started a fire. No serious damage was done.

Easter Services To Be Held In Churches

Sunday At The Methodist Church

More people attended religious services on Easter Sunday than on any other day in the year. This year will be no exception. You will want to be in that attending worship service this year. In this nation we are free to attend the church of our choice, and to worship as we please. We should be grateful for this freedom and avail ourself of the opportunity.

The Methodist Church invites you to worship on Easter Sunday in the following services: Sunrise Service at 7:00 A. M. Special music will be a feature of all these services. The Sunrise service will be featured by the presentation to the Church of a Bible for the Pulpit in honor of those in the Service of their country. Princess To Appear On Lyceum Program

Princess Paul Sanieha, who portrayed life in Poland so vividly in "Polish Profile," has now returned to delineating Americans and the American scene.

This young American-born authoress gives her impression of her native land as she sees them in the perspective of seven years spent in foreign residence as the wife of a Polish nobleman and the chateleine of a great feudal estate in Eastern Poland which has now again become the battleground between the German and the Russian armies in her new novel, "Beyond This Shore."

Of that combat and its consequences for the future of us all and more especially of Poland and the Polish, she declines to make predictions. She prefers instead to take another and very penetrating literary look at the U. S. A.

Tobacco Beds Should Be Treated

When tobacco is affected by annual leafspots, or "rust," and the leaves die, it is usual to up and drop off the stalk. This loss of leaves may materially reduce yield. Therefore, one important factor in obtaining good yields is the control of these diseases.

Angular leafspots, or "rust" is widespread each year in plant beds, especially in burley. Wild fire also has occurred in certain areas of the state, and in very wet seasons may appear where it has not been observed before. Rust in a plant bed may merely delay setting a few days but a severe outbreak of wildfire in the bed may destroy most of the plants, especially if it comes (Continued on Page Two)

Rowan County Gets Part Of Forest Money

Sixteen eastern Kentucky counties will soon receive "dividends" for their "swack" in Cumberland National Forest. Acting Director S. S. Smith of the Kentucky Department of Finance, recently advised Harold L. Borden, Supervisor of the Forest, that a check for \$6,234.54 had been received from the U. S. Department of the Interior. Borden stated today that this money represented one-fourth of all National Forest receipts for the period July 1, 1941 to June 30, 1942 mostly from the sale of timber. It is distributed each year to counties in proportion to the area of National Forest land in each.

The Churches of Morehead

Our Community Is Judged More by its Churches Than By Its Beautiful Homes

The Churches of Morehead need no better justification than the Christian atmosphere they produce.

But our Churches cannot exist on good wishes alone. They cannot build a Christian atmosphere on left-over loyalties!

They cannot save your son and daughter in spite of you!

The Churches of Morehead cannot be helpful and EMPTY

Our Churches cannot suffer lack of interest and support without everyone being the loser.

barrel of water and stir vigorously at the same time adding the bluestone solution slowly. Add enough water to make 50 gallons.

Stir the mixture each time the sprinkling can is filled. CAUTION: The water, barrel and other containers should be free from bits of material which will clog the sprinkler. The nozzle should be easily removable for cleaning.

With the ordinary sprinkling can apply the mixture to the bed without removing the cotton cover. Spray the lots or boards used to frame the bed at the same time. Fifty gallons of the mixture will treat 200 square yards or 60 linear yards of bed 12 feet wide, or 50 linear yards of bed 12 feet wide. This is at the rate of 1 quart per square yard.

CAUTION: Bluestone-lime does not injure plants so do not attempt to wash it off after applying. Do not mix nitrate of soda with bluestone-lime. In an average year-plants from a bed treated with bluestone-lime will remain free, or nearly free from leaf spots until cutting time. Therefore use plant only plants from treated beds.

How are you all getting along by now O K I hope. I got your letter yesterday sure was glad to hear from you and to know you was all well. I am getting along just fine and still liking O K I sent you another picture last night it wasn't much good they wasn't as good as I thought they would be. I don't have to work hard any more. We have a nice lot of officers and that's what counts. I got my new watch. It was a good one and I will take good care of it. Well I won't know just when I will get a furlough not until about a week before I get it. Madeleine sent me some home made candy. It sure was good. I give some of it to my friends and they sure did brag on it. I not 4 letters to day I get plenty letters now. How is every one getting along on Old Holly now. Tell them I would like to see them. I see a lot of the boys that came from Morehead with me. They are all pretty close to me now. It sure rains a lot here. Our rain out is just a good strainer. I was glad to hear that dad was working again. Tell every body to write to me I sure like to get plenty letters. I will close this time with love. Your son in the service. Ernest

Spray Beds

(Continued From Page One)

There is no way of predicting whether one or both of these diseases will occur. Wild fire is often mistaken for blue mold.

These diseases may be controlled in the plant bed by one application of bluestone-lime mixture (bordeaux) applied when the plants are just established in the bed and producing the first true leaf. CAUTION: This treatment must be made early if it is to benefit the crop in the field. In a wet season, apply at the recommended stage of plant growth, but not when it is actually raining. Treating the beds with dry bordeaux mixture is not recommended.

Bluestone-lime is easily prepared at home and is most efficient when used immediately after it is made. In making bluestone-lime.

(1) Put a 50-gallon barrel or oil drum three-fourths full of water strained through a cloth.

(2) In one container in 3 or 4 gallons of strained water thoroughly mix 4 pounds of hydrated lime, the kind commonly sold by lumber dealers.

(3) In a separate container, preferably a wooden bucket or crock, dissolve 3 pounds of powder bluestone in about 4 gallons of water. If crystal bluestone is used beat the crystals into a fine powder before trying to dissolve them.

(4) Pour the lime paste into the water in the barrel and stir thoroughly. The Brownies also met Saturday afternoon at 1:30 in Breck Auditorium and held an investment ceremony of their own for

Why America Is The Land of Greatest Plenty for The Common Man

AMERICA long has been the country of the greatest individual fortunes, but at the same time the land of the greatest plenty for the common man. Before we talk seriously about changing the American System of Free Enterprise, which has enabled us to lead the world in the production of war goods, let's compare the figures on what an hour's wages would buy before the war in this and other countries. According to James Truslow Adams, famed historian and economist, in Barron's Weekly, January 11, 1943, one hour's wages for the average American would pay for 2.83 baskets of food. The other nations: Britain, 1.26; France, 1.23; Germany, 1.02; Italy, 0.63; Russia, 0.40. It is no wonder, then, that William Green, president of the American Federation of Labor, said recently: "Industrial freedom is an essential to human happiness and human welfare as political freedom. Let us hope our nation will always remain free from governmental, autocratic and dictatorial control of its industries and workers." The United States of America was built upon the foundation of freedom of enterprise for individuals, business and industry. The enemies of the American System of Free Enterprise are the enemies of America. For continued progress, freedom of enterprise must be preserved.

CARELESS MATCHES— WEAPONS OF SABOTAGE!

REMEMBER THESE RULES:

Crush out your smoke

Break your burned match

Drawn your campfire
— then bury it

IF YOU BURN SLASH

First - get a permit
Last - kill every spark

YOUR CIGARETTES, your lit matches, your neglected campfires can cause more damage to America's war effort than the biggest bomb. What's more, they **EX**.

Last year, more forest and range fires were started by the carelessness of patriotic, law-abiding citizens like yourself than by arsonists, lightning, or any other cause.

These forest and range fires sabotaged the war effort by destroying critical materials and draining manpower.

This year we mustn't let *Our Carelessness be the Enemy's Secret Weapon*.

So, when we go into the woods, let's be careful—more careful than we've ever been before. Let's obey the rules illustrated here,

and ask others to do so. Let's solemnly resolve that no thoughtless act of ours shall give "aid and comfort" to the Axis.

ATTENTION, BRUSH BURNERS:

More than 6 million acres are burned, yearly, because of **YOUR** careless use of fire in clearing plow land and burning logging and other slash and debris. *Do your part this year.*

Remember:

1. Don't burn without a permit from a ranger or fire warden.
2. Don't burn during unusually hot, dry, or windy weather.
3. Scrape a trail or "plow around" areas to be burned.
4. Have help handy till the last spark is dead.

CONTROL CAN DO WHAT PROHIBITION CANT!

THE OLD JUDGE SAYS...

"I've been meanin' to ask you for the last couple of weeks, Judge, what you think of this prohibition talk that keeps croppin' up every so often."

"I've heard some of it too, Henry, and I feel like this about it... 'It comes from a comparatively small group of reformers... the same type that plunged us into prohibition during the war. And, as we all remember, into nearly 14 years of the worst crime and gangsterism this country has ever known. Everybody had all the liquor they wanted only it came from bootleggers, it cost an awful price and the government was drained of millions and millions of dollars in taxes."

"It seems to me, as I told my Congressman down in Washington last week, that we've got all we can do here at home to help win this war without wasting time arguing about things we know, from sad experience, won't work."
