Purple Heart Awarded To Rowan Youth

W. I. Hamm, BM 1-C, son of Mr. and Mrs. Nancy Hamm, has been awarded the purple heart in recognition of wounds suffered in action, it has been announced by the War Department. Hamm was injured in the sneak attack on Pearl Harbor and was in the hospital for seven months. He has since been restored to active duty.

Former News Employee Home

A former Rowan County News employee, Private First Class James Day, arrived here Friday from his station in Japan on a U. S. transport ship with his mother, Mrs. Willoughby Day.

Private Day has been in the service since August, 1943. At the time he entered the service he was a linotype operator at the News.

Agent three months in the air service, but when his particular type of training was curtailed he was transferred to the Infantry. He will leave Monday for a camp near St. Louis.

Children Army Air Field, Childress, Texas. A large new group of "trigger men" for the Big Guns of the AAF now blasting the invasion routes was graduated from this Central Flying Training Command bombardier navigation school in West Texas Monday.

Among those who now silver bombardier wings, after eighteen weeks of intensive training at Camp 2, left for Camp Carson, Colo., after spending ten days' furlough with his family and friends here. Miss Gay Reader accompanied him as far as East Chicago, Ind., where she is employed at the Standard Forging Co.

Bethel Hall Takes Over Judgship

Refuses, Then Accepts Office

After refusing at first the office of County Judge to serve until a successor to the late Judge Danback is elected and qualified, Bethel G. Hall, Morehead, reconsidered and assumed the position last Friday. Mr. Hall was appointed Wednesday by Governor Simon S. Willis.

Judge Hall will serve until the next part of November under the present appointment. The new County Judge found a full schedule ahead of him as he took over the office, many cases and public matters demanding the attention of the County Judge having accumulated during the illness of Judge Parker and the interval before the appointment was announced by the Governor.

The new County Judge formerly owned the large store—the Clearfield Supply Company and was later in the grocery business in Morehead.

Fyffe Trial May Prove Problem On How To Handle Crowd; Women Brought Knitting, Lunch At First Trial To Hold Their Seats

The May term of Rowan Circuit Court is expected to present a problem to the presiding judge and court attaches. This term, generally the lightest of the year, is medicore again this time from a public interest viewpoint, except for one case—that of Matthew Fyffe, charged with the murder of Ida Mason, a life-long friend and alleged sweetheart.

This bizarre mystery, containing all the drama of a best detective seller, and attracting an outstanding legal talent in this section of the state, is expected to attract such a large crowd that it will be impossible for them to get into Rowan County's courtroom.

At the first trial of the Fyffe case the courtroom was packed and jammed. But, that gathering is expected to be small in comparison to the number expected at this term. At times during the last hearing it was difficult to maintain order and many times forced to adjourn. Judge White was forced to halt the proceedings and have the Sheriff move the standing crowd back from the jury box.

Old-timers cannot recall when it has ever been necessary to lock the courtroom doors when the crowd was full, but this or some similar arrangement may be mandatory this time.

During the last trial it was noted that front-row spectators were mostly women who arrived early in the morning and brought their lunch with them so as to not lose their seats. Also prevalent was the number of knitting needles in the courtroom women (much of it for Soldiers and the Red Cross) while watching and hearing the unfolding of testimony in Rowan County's most sensational trial in a decade or more.

Wallace Boys Plight Brings Assistance

Letters, telephone calls and inquiries poured into the News office last week end following the exposing of the sad plight of three deserted children, Emmitt, Edwin and Glynndon Wallace, ages 9, 9 and 8.

The account of how these three youngsters had been deserted by their mother and slept in discarded boxes in a Morehead alley had been published in the News. Rev. H. H. Kase, pastor of the Baptist Church, chanced, bathed and clothed the three boys and has secured a room for them to sleep in.

Rev. Kase, working with other Morehead ministers is attempting to arrange for them to be sent to a home where food, clothing shelter and the proper training can be provided. In the meantime financial assistance is needed. Any person desiring to aid should contact Rev. Kase or any local minister, who will see that your contribution is handled in the best manner for the three Wallace boys.

Temporarily the Wallace children are being cared for by Chief Warrant Officer C. T. Hilson and Mrs. Hilson. They have stated they do not wish anything but the temporary care of the children, but anything that is given the children will be applied in the best manner for their future benefit.

The sad plight of these boys, who survived by a seeming miracle the long, cold winter nights exposed enough to be bayed by blacking boots, is beyond the jurisdiction of local authorities. However, the entire matter is being placed before the Circuit Court and its presiding judge, Bridges White, when it convenes here ten days hence.

"In Kentucky" Carries Interesting Article, Profusely Illustrated, Showing Morehead's Part In Providing Training For 600 Sailors

Under the heading "Morehead Goes Nautical" with 600 Sailors on the "Cruiser," the spring edition of "In Kentucky," the official publication of the Commonwealth of Kentucky, carries a well-illustrated article concerning Morehead College and its contribution to the war effort.

The article, one of the features in the current issue of the publication, was written by Emmitt Phillips by Tom Smith show a view across the campus and a picture of President William H. Vaughan in colors. Other pictures are of a section of blue-jackets marching down the boulevard; a club-room scene in the USO; several sailors working in the mechanical shop; a newly arrived division of sailors marching to the mess hall and three Morehead co-eds, Dalton Strangre, Willmore, Aline Hopkins, Topmost and Emeline Hamilton, Carlisle, in Morehead's modern indoor swimming pool.

Ceiling On Poultry Up

The Lexington District OPA Office this week announced seasonal increases in prices at retail sales levels for chickens and other fowls of approximately 2 cents per pound. These new prices, except for certain specified types of poultry, became effective April 24. The new ceilings for dressed broilers and fryers, and for other broilers and stage, sold between 1 and 2 stores, became effective May 1.

Building Rented For Food Locker

Storage Pointers Given At Meeting

Bill Johnson, manager of the Morehead Frozen Food Locker, reports that he has rented a building across the street from the courthouse and that the building is being repaired to house the Frozen Food equipment. Last week Mrs. W. H. Rice and the county agent attended a Frozen Food Locker Short Course at the University of Kentucky.

One of the things brought out at the meeting was the fact that fruits and vegetables must be in prime condition if the frozen product is to be of the best quality. Some varieties of fruits and vegetables are better than others but the conditions of the fruits and vegetables at the time of freezing is probably more important than the variety. Both fruits and vegetables should be frozen as soon as possible after they are harvested. This is especially true of corn. It was agreed by those present that frozen corn on the cob was not as good as frozen cut corn.

McCullough Explains New Tire Rationing

The supply of synthetic rubber tires is much better than it was a year ago, and this accounts for the recent relaxation of rationing control. However, McCullough points out, we are still far from the day when everybody can have all the new tires he can pay for.

"It is true that B. & C. Book holders are now eligible for grade IV tires, but only under very strict conditions as before," he said. "If inspection shows that the tires can be recycled, it must be recycled; the owner does not have the choice between recycling and buying new tires."

If inspection shows that a new tire is needed, the local board still cannot issue a Certificate unless the local quota permits, the chairman stipulated.

County Goes Dry On Eve Of July 4

Judge Signs Order To Enact Prohibition

Rowan County will go "dry" on July 2, according to an order signed Monday by the new County Judge, Bethel Hall.

On April 10 the county voted by a better than three to one margin to enact prohibition. Under the law the county goes dry sixty days after the entering of the order.

Monday's ceremony here was Lt. Felix D. Wellman, Jr. son of Mr. and Mrs. Felix D. Wellman of 472 E. Main street, Morehead.

In those four and one-half months, jam-packed with study on the ground and in the air, the handpicked youths became "the most dangerous men in the world" under the county's armed with the nation's deadliest precision weapon, the American bomb.

Monday's ceremony here was Lt. Felix D. Wellman, Jr. son of Mr. and Mrs. Felix D. Wellman of 472 E. Main street, Morehead.

Scouts Board Of Review To Meet Monday

The Board of Review of the Morehead Scouts will meet Monday evening, May 8, at the Soldiers' Hall. All scouts working on advancement are urged to step up their progress so that they may meet their requirements by that time.

The members of Troop 76 visited the local scout camp for the first time Saturday, April 22. Mr. Fred Caudill, Scoutmaster of Troop 76, led the group out to the camp. After returning from their hike Mr. Caudill took the boys swimming in the college swimming pool.

Last Saturday, April 23, Mr. George and a few scouts hiked out to the camp recently acquired camp on the North Fork of Triplett Creek. He laid out definite projects for the local troops. Among them was the reworking of both of the camps. We have one cabin that will serve as bunkhouse, and the other having two quarters, will serve as officers' quarters and mess hall.

AAUW Entertains With Annual Tea For Seniors

The American Association of University Women entertained with their annual senior luncheon and afternoon tea at the home of Mrs. Gordon Pennabaker. The senior girls from the College and from the three high schools in the county were the guests of honor.

The receiving line Misses Marie Kelley represented the College, Marti Victoria represented Haldeman, Pauline Rinsin represented Morehead High School, and Irene Young represented Breckridge. Others in the receiving line were Miss Humphrey, retiring president of the AAUW, Mrs. Pennabaker, newly elected president, and Mrs. Wilford Waltz, recently elected vice-president.

Others assisting in entertaining were Misses Amy Irene Moore, Rebecca Thompson (treasurer), Mildred Morris (secretary), Mrs. Janet Swearingen, Fatti Bolin, Mrs. Alene Palmer Morris, Mrs. Naomi Claypool, and Mrs. W. H. Rice. The house was beautifully decorated with tulips and dogwood. Punch, cookies and minis were served to about 80 guests.

HIGHLIGHTS . . . in the week's news

- BIG LEAGUE PILOT: Mel Ott, manager of the New York Giants baseball club, has been accepted by the army. He is 30 and has two children. Ott joined the Giants at 18 and remained with them for 19 years, a league record. He also holds the league home run record of 465 and for runs batted in with 1,069. He is the first big league manager to be drafted.
- DRIED EGGS: Profits of the egg drying industry will be somewhat reduced by action of the War Food Administration. The WFA will now allow cost of processing and approximately five cents profit per egg. Some processors had been buying eggs at considerably below support prices, and are now obtaining an unduly large profit.

Washington, D. C. (AP)—A U. S. farm expert, accompanied by a group of the President's supporters, are being welcomed by the Chinese government, simultaneous with British requests that we send more U. S. troops to India.

The British request was made by Field Marshal Sir John S. Dill, now liaison officer in Washington. Sir John, personally one of the most charming and able of our military leaders, suggested to the U. S. war chiefs that, in view of the Japanese invasion of India, the United States should send more troops to that area.

The reply he got was "What about the Chinese army you know so much about in India?" Sir John had to admit that this huge British army is spread out through the vast territory for the purpose of preventing internal revolt.

Senators who have learned about this conversation almost certainly will send more U. S. troops to save the British Empire in India. However, they probably won't have to, because the President himself is understood to feel strongly on that subject.

NEWS BEHIND THE NEWS By PAUL MALLON

Released by Western Newspaper Union.

MILITARY AND LABOR DRAFT SITUATION

WASHINGTON. — What is behind this fantastic draft boom in its being explained by the increased government business in their own conflicting ways.

You can get nearly any story you want that is, any except the right one.

Bureaucratic muddling is the commonest explanation in congress but even this falls short of accounting fully for the depths of public confusion in which men are called, sent back, called again, called again under orders from Washington.

You would have to devote yourself seriously muddling for a long while to get that bad.

Then there is a loud official whisper dealing with the grand assault on Europe and Russia in the Pacific and Atlantic area. Frankly, it does not explain anything and, therefore, is not worth repeating even if it could pass the censor, and it would not.

Those most intimate with the issue assume about Draft Director Hershey of major responsibility for the orders he has been issuing and attribute the mess to a struggle between Management and McNutt and the armed services. Mr. McNutt, apparently now, is the man who is making the manpower decisions or thinks he is.

McNUTT IS OPPOSED Now McNutt is personally opposed to the proposed industrial draft act. The industrial draft act, according to Mr. Roosevelt presumably still wants it and the army and navy are now building up toward another campaign to justify its passage by congress.

McNutt takes the position that such sort of labor opposed by labor, management and most of the politicians, as well — is not needed, or at least no necessity has been shown for it. The draft policies of the army and navy frequently appear to be adopted, with a thought of not discouraging the need.

The plain evidence indicates clearly McNutt is right. The Cleveland economist, Charles L. Jones, who set up the war department economic bureau at the outset of the war, says in his current Cleveland Trust company letter:

"This latest manpower crisis is largely verbal, and almost surely less serious than it is claimed to be."

He says the peak of our production probably was passed last October, and industry, with its requirements have declined since then. He is such an impartial recognized authority that his evidence seems almost to close the argument.

Cashier Planned Fake Bank Holdup

CLEVELAND.—Robbery of the (Q) Savings Bank company by "two armed men" in June, 1942, was a fake, federal bureau of investigation agents report.

Bernard Click, chief cashier and secretary of the bank, has confessed that he fabricated the report of the "armed robbers" and in order to give credence to his story he knocked himself out by striking his head on a marble counter, FBI men said.

Click was found, after the supposed robbery, by a customer. He was dazed and unconscious. The two fictitious robbers, whom he described in detail, never were found, of course, nor had anyone else seen them.

The Federal agents say they suspected from the beginning that the cashier had taken the money himself and faked the robbery to get out of the bank.

HOUSEHOLD

Help Yourself to a Salad! (See Recipes Below)

Salads are in season summer, winter, fall and spring, but in spring you can really have all the variety you want.

There are crisp greens aplenty, perhaps fresh from your own garden, and loads of fresh fruits and vegetables to complete the demands of health and satisfy the appetite for really fresh - from - the garden goods.

Everywhere you go you hear people saying, "A salad is just the thing," or "I want something green and crisp."

It's a sign of spring, it's the making for salad for helping with the newness and freshness of spring.

A new idea for serving is to try a salad buffet for it will save preparing individual salads for everyone.

Salads can double for both the salad and fruit add vinegar, salt, butter, cayenne, paprika and pineapple juice gradually.

Whip lightly. Add milk and cook in top of double boiler up till of custard consistency, stirring constantly.

Remove from fire and dissolve softened gelatin in hot custard mixture. Chill, stirring occasionally while cooling.

When mixture begins to set, fold in whipped, evaporated milk and fruit, etc. in French dressing or mayonnaise flavored with fruit juices.

PATTERNS SEWING CIRCLE

For Summer Parties JUST the sort of flattering party dress any young girl likes to wear—it can be made in silk crepes or in crisp dotted muslin.

Barbara Bell Pattern No. 1936 is designed for sizes 6, 8, 10, 12 and 14 years. Size 8, short sleeves, requires 3 1/2 yards 39-inch material; 1 1/2 yard contrast for collar.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Salad Magic

Salads are in season summer, winter, fall and spring, but in spring you can really have all the variety you want.

There are crisp greens aplenty, perhaps fresh from your own garden, and loads of fresh fruits and vegetables to complete the demands of health and satisfy the appetite for really fresh - from - the garden goods.

Everywhere you go you hear people saying, "A salad is just the thing," or "I want something green and crisp."

It's a sign of spring, it's the making for salad for helping with the newness and freshness of spring.

A new idea for serving is to try a salad buffet for it will save preparing individual salads for everyone.

Salads can double for both the salad and fruit add vinegar, salt, butter, cayenne, paprika and pineapple juice gradually.

Whip lightly. Add milk and cook in top of double boiler up till of custard consistency, stirring constantly.

Remove from fire and dissolve softened gelatin in hot custard mixture. Chill, stirring occasionally while cooling.

Household Hints

To avoid having a handkerchief pocket pulled out by the neck, sew a pocket on one side of the pillowcase.

To keep marks from your knitting yarn, take old tobacco containers and give them a coat of paint and use these cans thus prepared as a parking spot for the knitting yarn.

Bar the worn carpet. Literally, of course, and with a rug wool carefully matted in color. This will take away much of the shabby appearance.

A worn blanket makes a good cover to pull on over the old rug which is the fabric on which the applicator when it needs freshening. Wrap the applicator first with soft cloth, then the sock is pulled on and it's ready for service.

To pipe with rickrack, turn the rug twice of the fabric on which the applicator when it needs freshening. Wrap the applicator first with soft cloth, then the sock is pulled on and it's ready for service.

FROM THE DEPARTMENT OF HEALTH

the people out in the county and those who are unable to pay for private services. Let us say here, and now, it is interested in each individual, regardless of his status both in the City and County, and not just county doctor or county nurse.

The Health Officer and nurse try, and want to work along with the private doctors of this county. At this time there are only two private doctors located in county and when we think of the entire population of Rowan county, and divide shall we say by two, we have a picture of how many people each doctor may be called upon to treat, and how they are working day and night—even now.

The object of the County Health Department is to help the citizens keep healthy so they need not call the doctors away from those who really need their services.

The Health Department is maintained by funds appropriated from county funds and state funds, also federal funds. Many counties throughout the state have funds pledged the citizens, which enables the County Health Department to carry on more extensive work.

The staff of our Department in Rowan county consists of Health Officer or Health Doctor, nurse who must be a registered graduate nurse clerk, and, last but not least the State Public Sanitary Inspector, who is in this county only part time, due to lack of funds. Vital Statistics are also handled through this department by the Vital Statistics Clerk.

The duties of the Department Doctor are many and varied. He does not conduct a private practice, and, therefore all his time is devoted to keeping citizens healthy. This is done in children as well as in adults. All contagious diseases are reported to this office they are quarantined, and all other necessary precau-

tions are conducted from his office. He then reports them to the state office.

The nurse has many duties to perform, such as assisting the doctor in clinics and all the follow up work from clinics, contacting new cases. She is in constant contact with crippled children in the county, tubercular cases, school work, contact, and care of the mothers before and after arrival of the new baby, also assisting in child welfare.

The clerk keeps accurate files on all cases in clinic, and home or field calls made by the doctor and nurse. Files are kept on all inoculations given each child from infancy, pre-school and school age.

The Sanitary Inspector visits and inspects all public eating places, such as boarding houses, restaurants, public plants, factories, groceries, bakeries, dairies, milk and dairy farms, water supply and sewerage in the county

as well as in the city. He also sees that all food handlers have a health examination by the Health Department. If these can't be issued they can't work as food handlers.

We have completed plans to conduct a course of lectures for food handlers. These will be conducted at the Morehead State Teachers College.

SUNDAY IS STATE-WIDE "GO TO SUNDAY SCHOOL DAY"

In Hitler's Nazi Germany and in imperialist Japan, one of the fundamental freedoms of mankind has been altogether banished or has been put under strict state control... the right to assemble and worship as the individual chooses, to attend the church of his choice.

In America, which stands as a bulwark against those forces of evil which would destroy Christianity, the Church and everything for which civilized humanity stands, that privilege is extended to one and all, rich or poor, regardless of religious faith. The door of your church stands open in welcome to you.

THE OLD JUDGE SAYS...

"The war stories I like best, are the ones by the special writers who live right with our troops. They give us a better idea of how our men react to things going on over there and back here at home."
"I agree with you, Sam. I never miss one of those stories in the papers or magazines. And there's one thing those writers seem to agree on no matter where they are stationed with our men...and that is that the men who have left their homes and families to go

away to fight this war don't want to come back and find that prohibition has been put over on them while they were away...either nationally or locally. They have heard about the attempts being made and they resent it bitterly."
"I agree with them, Judge, even though I don't happen to drink myself. Furthermore, I don't think it's fair for us at home to be making any major changes while 10,000,000 of our fighting men are away and have no chance to express their opinions."

Then think of a child in another land where screaming bombs rob her of her heritage, where no child knows peace or plenty. Haldeman Seniors To Give Play

The Senior class of Haldeman School will present a three-act comedy entitled, "Faith, Hope, and Flarity" by Jay Tobias on Friday, May 5, at 7:30 p. m.

The setting for the play is the living room of Quander Crabbe, a retired business man. The time is about 5:30 on an afternoon in June. Crabbe, a veteran of World War I and Patrick Flarity, his friend, made a vow that their first born children should marry each other. The play depicts the outcome of this vow starting the Crabbe twins, Faith and Hope, and Terence, son of Patrick Flarity. The minkup which young Flarity gets himself into trying to carry out the vow with the Crabbe twins and the way he gets out of it makes a rip-roaring comedy from beginning to end.

Don't Delay! Put Your Car In Shape NOW

Sure—you know you're not going to be able to get a new car for a long time. That's old stuff, you say. And the same goes for tires. So what, We'll all totter around in jalopies together. Misery loves company . . . and if Grandpa did it, so can we.

Trying to get "comfort" from that thought? You are not acting sensibly if you are! For look at your neighbor around the block still getting a big kick out of driving his 1939 sedan. Look at that gunmetal sport job with the red wheels a couple of blocks away purring just as sweetly as it did two years ago. And the hundreds of other cars in this country buzzing merrily about their necessary work in spite of war, low-octane-gas and slow-poke speeds for which modern machinery was never designed.

Maybe you're kidding yourself, mister. Maybe you don't know what a swell car you've got! Maybe you don't know that you get top-grade motoring performance if you treat your car right!

If you are driving a '38 to '42 model you have a lot of unused miles under your hood, miles that can be delivered at top-grade efficiency if you give your automobile a half-year decent break. You, too can get quite, economical motoring with your present car! And you can get it at only the MEREST FRACTION of what you'd be paying for a new auto right now if this were peacetime—for it doesn't cost much to bring your car in for its NECESSARY check-up, inspection and servicing once every month.

Before the war—a thorough check-up twice a year was enough. It isn't any more. You owe it to yourself and to the war effort to bring your automobile to a good service station or garage EVERY FOUR OR FIVE WEEKS. In this way you can keep your car at its highest peak of driving efficiency—protect your investment—and save gas!

Your car needs its spring inspection and overhauling RIGHT NOW. Don't drive it another week without pulling into OUR MODERN, COMPLETE GARAGE for a thorough going-over by trained experts. The little it will cost you is a mighty small insurance premium to pay for the knowledge that your car will be "Okay for the Duration."

Speaking Sports

By Bob McShane

Released by Western Newspaper Union.

THE current season's most unpleasant task confronts us, so in deference to tradition this department makes its annual baseball selections. In order to prolong the agony, today's soul-stirring offering will be devoted solely to the National League.

And that is it should be. The job is considerably easier in the senior circuit. The National League contains the only first class club in baseball this season — the St. Louis Cardinals.

All in all, the Western clubs are stronger this year. There is a very good chance that an Eastern team will not be able to break into the first division.

Cardinals Strong

Things wouldn't be so gloomy if the strength in the Western clubs were evenly divided. But the Cardinals are more menacing than they were a year ago. They haven't as strong a club as the 1943 offering, but they haven't been hurt nearly as much as the seven other clubs in the league. Remember that the Cards won by 18 lengths over the Reds, who finished 23 1/2 games behind and the Pirates '25.

Here is the way this department muddles things up:

- St. Louis Chicago
- Brooklyn New York
- Cincinnati Boston
- Pittsburgh Philadelphia

The Cardinals have suffered but few important losses — Outfield Harry Walker who may return with a medical discharge, Second Baseman Lou Klein, Infielder Jimmy Brown and Pitchers Al Brala, Murry Dickson, Howard Kist and Emile White.

Manager Billy Southworth still has Pitchers Harry Brecheen, Steve Cooper and Max Lanier. His World Series infield shows only one change.

Bill Verban from Columbus having replaced Klein as catcher in the last season, is available. So are many other stars of the St. Louis cast.

It's customary to pick the Cubs for the season. In fact one gets in a disagreeable rut by naming the Cubs to place. Last year Mel Wright's kind and man wound up an inglorious 6th, 30 1/2 games out. But the present season finds the club fairly well equipped with speed pitched and good pitching can land the club in second place. (Somewhere we've heard that song before.)

Mound Losses

We string along with Cincinnati for third place largely because of Manager Bill McKechnie. The Reds have been hard hit in their oncological department — the pitching staff. They have lost Johnny Vander Meer and Clyde Sifton. They will mourn the loss of Lon Froy as well. Others — including Eddie Miller and Gerald Walker — are susceptible to the draft.

But Master William McKechnie is a sound, resourceful and reliable leader. He has a habit of successful operations. The rejection by the military service of First Lieutenant Frank McCormick has strengthened the Cincinnati club. McCormick is a long distance hitter who will make quite a difference in the final standings.

The Pirates may prove to be a surprise club. Frank Frisch has a good infield with Babe Dahlgren replacing Elbie Fletcher at first base, Bob Elliott back at third, and Frank Gutierrez and Pete Coscarart in between.

The Dodgers' unhappy plight is made all the more evident by the report that Manager Leo Durocher is likely to play.

The Giants are weak. They will do well to end up in sixth place and may be forced to get along without the services of Manager McOH, who is 1-4.

The Braves have a new bankroll to work with. Bob Coleman, the new manager, is widely known as a developer of young players. But the present emphasis isn't on youth in the big leagues.

SPORTS SHORTS

Frank Frisch, rookie catcher of the St. Louis Browns, was making his 6th parachute jump when he suffered injuries which led to his honorable discharge from the army. Regulations call for five jumps from a plane to qualify as a jumper.

The Jim Corbett-Bob Fitzsimmons fight at Carson City, March 17, 1897, was the first fight to be filmed.

Harry Shuldreher will conduct a clinic for state high school football coaches at the University of Wisconsin late in August.

Maybe You Haven't Heard About This

HOWDY, MISTER

YOU are an average citizen. You make your living and support your family by hard work. You try to save a little money. You wish you could make more. At the same time you wish the cost of living and taxes were not so high, and that they didn't keep on rising.

YOU have heard some folks say that if the Government furnished the necessities the cost of living would be a heap less. They have mentioned such things as coal, clothing, food, furniture, houses, medical care — and electric service.

YOU have lived long enough to know that in the grown-up world of men and women there is no Santa Claus and no Easter Rabbit. One way or another, you pay for everything you get.

YOU are told by Government ownership promoters that T.V.A. electric rates are lower than the rates of business managed electric companies. They lead you to think this is due to better management and freedom from price gouging. But you're not told that the T.V.A. and city-owned electric plants pay only a fraction of the taxes business managed enterprises pay, and that they don't pay any federal or state income tax.

YOU know somebody has to pay the taxes — all the taxes. When a governmental agency or group takes over a business-managed electric company it destroys

a tax paying enterprise. This means the tax burden is made heavier for the remaining taxpayers . . . including yourself.

YOU may be interested to know that our Company pays out in taxes about 20 cents of every dollar it takes in. You could buy electric service at lower rates from us than from Government power systems if we were allowed to operate on the same terms — with the special concessions and tax freedom — they enjoy.

YOU and other citizens raise your own taxes by encouraging Government ownership. And you undermine the American system of free enterprise too. That system has given ordinary shirt-sleeve Americans greater opportunity to "get ahead" and "be somebody" than the people have in any other nation. That system our young men and women are giving their lives to protect. It's worth more to you and your kids than all the rosy socialistic schemes ever invented.

REDDY KILOWATT, your electrical servant
