

## Day, Gilley Named New MSC Regents

Governor A. B. Chandler recently named two new members to the Morehead State College Board of Regents—boosting the total number to seven.

Named as regents were Dr. W. Day, Alexandria, and Charles Gilley, Winchester.

They join present board members Dr. W. W. Cartwell, Mayville; Dr. Paul Hall, Paintsville; Dr. Elwood Baham, Vanceburg; Dr. Lowell Gearhart, Grayson; Cartwell and Hall are previous regents.

Dr. Robert E. Martin, superintendent of public instruction, is ex-officio chairman of the Board of Regents.

Governor Chandler's governmental reorganization act, approved by the 1956 legislature, increased the membership of the Morehead Board of Regents from five members to seven.

Dr. Day's term will end in 1959 while Gilley's term will expire in 1961.

Governor Chandler also named two members to the board of regents at each of the other state schools. He now has appointed 20 members, giving him a majority of appointees on each board.

## Exelbirt Gives Address At KEA Breakfast

Dr. Wilhelm Exelbirt was the featured speaker at the annual Morehead State College breakfast during the recent Kentucky Education Association meeting held in Louisville on April 10, 11 and 12.

Dr. Exelbirt told the gathering of Morehead graduates of his early experiences at Morehead and how he had to adjust in teaching methods after his training in Austria.

The professor of history came to Morehead in 1948. He received his Ph.D. from the University of Vienna in 1939 and taught in Austria.

President Adron Doran presided at the breakfast which was attended by more than 100 graduates and friends of Morehead State College.

## Courier-Journal To Feature M'head's Own 'Potet Canyon'

In the past few years, Morehead State College has made its mark in the sports world in basketball, track and cross country.

But now we claim a mark of distinction which no other school can boast. Morehead has probably the only "Potet Canyon" in the history of the sport.

Miss Pat Shely, as Morehead's first tennis coach, is probably the first female to coach an all-male collegiate tennis team in the history of the sport.

Like "Potet Canyon," she has high hopes for her racketeers this year, but does not predict a championship for Morehead's first tennis team.

And like "Potet Canyon," she has received a large amount of publicity. Miss Shely first was featured in a general release by the publicity department which was picked up by the Associated Press and the United Press. She next appeared on Huntington's WSAX-TV with her squad and was seen during KEA on Louisville's WHAS-TV.

Last week, Joe Cresson and Tommy Miller of the Louisville Courier-Journal visited the Morehead campus to do a feature on Miss Shely which will appear in the Courier Sunday Magazine.

A University of Kentucky graduate, Miss Shely taught at Serves before coming to Morehead as an associate professor in the physical education department.

## Chapel Speaker To Talk On Russia Today

Claude Sullivan, program director of radio station WLWK in Lexington, will speak at chapel Thursday on his trip behind the iron curtain last summer.

Sullivan conducted a tour into Russia and surrounding countries. People from throughout the United States were members of the tour which was one of the most comprehensive tours of Russia ever offered.

The popular WLWK personality will show films of his visit behind the iron curtain here Thursday. His is one of the very few persons to emerge from behind the iron curtain with recordings and films of present day Russia.

Sullivan is best known in the Lexington area for the outstanding job he has done in broadcasting all University of Kentucky athletic events.

## Senior Girls Honored By Woman's Club

The Morehead Women's Club honored the senior girls of Morehead State College who will be graduating in May and August at a tea last Monday night in the Breckinridge Home Economics Department.

After the tea, the girls were guests of the Women's Club at the annual "Family Portrait" which was sponsored by the Women's Club.

Each year the club honors the graduating senior girls in some way. The tea and play were enjoyed by everyone who attended.

## Civil Defense Discussed In Chapel P'gram

By Ruth Hinkle, Director of Emergency Activities of the Kentucky Division of Civil Defense, spoke in Chapel on April 16.

Mrs. Emwath's subject was "Our Civil Defense Problems." She stated that people should in the future live by four rules:

1. To learn all that you possibly can about the civil defense program.
2. To prepare your family and other associates so that they will not panic.
3. To see that your home is prepared so that you can live in it without going out for two or three weeks.
4. Do all that you can to help your community, state, and group to do all they can to help civil defense.

All the things taught in civil defense are just good common sense, she said.

## Science Workshop To Be Held Here On Friday And Saturday

By Shirley Fannin

The National Science Foundation has made a grant of \$1,600 to Morehead State College for a science workshop for elementary school teachers. The grant is one of four such grants made to Kentucky colleges.

It is the first grant ever made for study of teachers in an elementary school level. The workshop will be held on Morehead State College campus Friday and Saturday, April 26 and 27.

The purpose of the workshop is to discover and attempt to solve problems which confront the elementary science teacher. An attempt to stimulate interest in teaching science at the elementary level will also be made.

## Arnzen To Speak At Banquet Friday Night

The Morehead State College Athletic Banquet will be held Friday night.

The College football, basketball, track, cross-country and baseball teams will be honored at the event.

Fola Hayes, Alumni Association president, has announced that Stan Arnzen, basketball coach at Newport Public High School, will be the speaker.

Ralph Musmann, Newport City Manager, will serve as master of ceremonies at the 6:30 p. m. gathering to be held in the College cafeteria.

The public is invited. Individual tickets may be purchased for \$2 at the College Business Office or from Alumni Association executive secretary, John Collis.

Arnzen played basketball while a student at Morehead State College and has been one of the state's top high school coaches while at Newport Public.

He has taken his team to the state tournament twice in recent years, reaching the semi-final round once.

Musmann played both basketball and football while a student at Morehead and was only recently named City Manager of Newport. One of the state's top basketball officials, he refereed in the state high school basketball tournament this year.

President and Mrs. Adron Doran, the Board of Regents and the faculty athletic committee will be the guests of the Alumni Association.

The Morehead basketball and track teams held Ohio Valley Conference championships while the cross-country squad was one of the best in the south, winning the Shamrock Run in Louisville and the William Jennings Bryan Invitational.

## Plummer To Speak At May 2nd Chapel

Dr. Niel Plummer, Director of the School of Journalism at the University of Kentucky, will be the featured chapel speaker on May 2.

A noted educator, author and lecturer, Dr. Plummer will give a delightful talk entitled "Write It and Weep" based on his experiences and the humorous slip-ups which occur in newspaper work.

One of the nation's leading etymologists, he received his Ph.D. degree from the University of Wisconsin in political science with minors in journalism and law. His dissertation was entitled "The Political Leadership of Henry Waterson."

Dr. Plummer did his undergraduate work at the University of Kentucky and worked on the downtown Lexington newspapers upon graduation.

He is now a professor in the journalism department at the University and later was named Director of the school. Under his leadership, one of the finest Journalism buildings in the nation has been built on the campus and the School of Journalism is now ranked as one of the top ten schools in the nation.

Dr. and Mrs. Plummer have been close friends of President and Mrs. Doran for a number of years.

## Science Workshop To Be Held Here On Friday And Saturday

By Shirley Fannin

The National Science Foundation has made a grant of \$1,600 to Morehead State College for a science workshop for elementary school teachers. The grant is one of four such grants made to Kentucky colleges.

It is the first grant ever made for study of teachers in an elementary school level. The workshop will be held on Morehead State College campus Friday and Saturday, April 26 and 27.

The purpose of the workshop is to discover and attempt to solve problems which confront the elementary science teacher. An attempt to stimulate interest in teaching science at the elementary level will also be made.

## Eagles To Play In Holiday Tourney In Mississippi

Morehead State College has accepted an invitation to play in the Mississippi State Holiday Invitational Basketball Tournament. The winners of the tournament will receive a trip to the University of Mississippi. The Eagles of Bob Laughlin will face Mississippi State in the opening game with Alabama and Mississippi meeting in the opposite bracket. The winners of the first round action will meet on the second night for the championship trophy.

The tournament will feature four of the nation's top 15 scorers. Mississippi, Gibbon, was second in the nation with 30 point average. Howell of Mississippi State was ninth with a 25.9 average. Alabama was twelfth with a 24.6 average and the Eagles Steve Hamilton was fifteenth with a 23.5 average.

Mississippi State defeated Kentucky and ended the season with a 17-8 record. Alabama posted a 15-11 mark and Mississippi had 12 victories. Morehead had a 10-6 record.

The tournament should be a high scoring affair as Morehead ranked 7th in the nation in scoring with an 83.2 game average. Mississippi State was sixth with an 82.7 mark. Alabama was old with a 79.5 average and Mississippi ranked 43rd with a 77.8 average.

Bob Hartley, Mississippi State Publicity Director, said over the telephone today, "We expect to have overflow crowds in out 5,000 seat gymnasium. Ole Miss and Mississippi State are old rivals and Morehead, with its tremendous height, scoring punch and color, should be a terrific drawing card."

## Workshops, Confabs Slated For Campus

Morehead State College will hold five comprehensive regional workshops and conferences for area educators during the latter part of April and early May. President Adron Doran announced today.

He hope, by working with the State Department of Education, to be in improving the type of instruction provided in the area served by Morehead State College," Dr. Doran said.

Supervisors on instruction in the Morehead area will meet here on April 19 and superintendents on April 20. Both meetings will be held in cooperation with the Eastern Kentucky Educational Association.

A science workshop is scheduled for April 26 and 27, a library conference for April 30 and a guidance, cumulative records and testing workshop for May 4. Frank Vittevor, Consultant in Service Teacher Training of the State Department of Education, will direct the science, library and testing workshops.

Dr. Lawrence Stewart, Supervisor of the Boyd County schools, will serve as chairman of the April 19 superintendent's conference. Teaching materials will be the chief topic for discussion.

Dr. Woodrow W. Wyatt, science educator from the University of Tennessee, will appear on a panel on the night of the 26th, will be Bertam K. Rigg, an Armo Steel Corporation official from Middletown, O., and Dr. W. Palmer, Lee Clay Products, Morehead.

Expenses will be paid for selected elementary and secondary school teachers and the two-day workshop by the National Science Foundation.

## Family Portrait Presented Here

Morehead State College's Drama Trunk marked its first appearance Tuesday, April 16, with the presentation of "Portrait Family."

The play is a story of the family life of Christ. "It gives one an entirely new insight into the family life of Jesus," said one theatre patron.

The Drama Trunk, composed of students Don Holloway, Billie Jean Thompson, and Joyce Brown, takes the roles of all the characters in the play. Holloway and Miss Thompson each portray four or five characters.

The scenery used in the production is a screen. This lends added emphasis to the plot of the play. The production consists of a table, chairs and a screen.

"Portrait Family" will go on tour in May. It will be presented at Richwood, Ky.; Huntington, Ind.; and Fort Wayne, Ind.

The play is being produced and directed by Mr. and Mrs. W. P. Covington III.

## Notice Freshmen

To Freshmen: Entries for the Freshman magazine, the Inkpot, are being received by Mr. Albert Stewart. If you have any contributions for this magazine in any form of creative writing, please submit your material to Mr. Stewart by April 19, 1957 which will be the deadline for this publication. The selections will be made by the Freshman English teachers and the winners of an Inkpot Award will be made in chapel, later this spring, to the Outstanding Freshman Writer.

## Campus Club Production Set For Tonight In Auditorium

By Jack Weddell

The Campus Club opened its annual play last night. This year's production entitled "Satan's Sinner's Share" was made up almost entirely of female characters but the all-male characters carry out their assignments in most feminine fashion.

The production will be presented again tonight at 7:30.

The leading characters in the play are Billy Salsbury as Satan, Jerry Haddock as Geraldine Jitters. The other members of the cast are Arabella Jinks—Gus Stierger, Mandy Rat-trap—Wendell Jones, Fanny Finger—Kenny Thompson, Angie Jitters—John Haddock, Flore Bandy—"Bear"—Adams, Annie Applejack—"Geno"—Cavallio, Becky Bandy—"Betsy"—John Hook, Glida Gallop—Terry McBrayer, Dr. O. U. Piller—Don Salsbury and Sadie's husband Rufus, Don Rasminger.

The play opens with Sadie telling her very good friend Geraldine Jitters that she and Rufus are expecting a pet in about a month. Just as Sadie calls for her and Rufus calls for her and she has no explanation about the pet. Actually, it is a dog that Geraldine spreads the word that Sadie is expecting a pet. Sadie is a member plans her a Stork Shower.

Sadie thinks the shower is just a novel way of welcoming her dog so she goes along with it. She begins to make some crude comments about the gifts and her girl friends think much of the Stork Shower in her condition so they call the doctor for an emergency.

Just as the Shower gets hysterical Rufus brings in the dog and mass confusion follows with Dr. Piller threatening Geraldine Jitters for giving him a wild goose chase.

## Thinlins Post 79-43 Win Over Winona

Competing under a blistering sun, the Gold and Blue track team, then set out posthaste for his wife's home where, it was thought, a visit from the stock was imminent. False Alarm!

Kenny Daugherty, co-captain, took second in the mile (4:45) and then won the 2-mile jaunt in 10:38.6 to contribute 8 points to the Morehead cause. Dick Wilson was second in the latter race in 10:52.2, his best time of the season.

Jerry Joe Lancaster had his day of days. After many near misses, he finally won a race, taking the quarter in 54.1, his best time of the season. A third in the 220 and a leg on the relay team gave him 7.4 points, the most that he has ever rolled up in the Morehead sprints.

The "charismatic" department acquitted itself well as the "find of the season," Tom Insee, took the shot with 40 ft. 10 1/2 inches, a new Morehead record. (Bill Salisbury was third), and "Smiling Rex" Chaney heaved the discus 124 ft. 7 inches.

Nelson Pettit and Tom Hummer, both freshmen, annexed the high jump and pole vault with respective leaps of 5 feet 4 inches and 10 feet 9 inches, as Kenny Thompson, still plagued by a bad heel, was called to take second in each. Hummer's mark was his best of the season. The best non-winning performances came in the day events of Jimmie Fletcher and Claude McGuire in the half-mile. High point man for the Eagles once more was Mitchell Ghent who amassed 12 1/2 points by winning the 100 and 220, running a leg on the relay team, and taking a third in the broad jump. His time of 10.2 in the century dash was the fastest that any Moreheadian has ever done in the stadium. His 220 time was 24 seconds flat.

Carl Denton, co-captain, did a 1:29.0 mile, the best in Kentucky this year, ran a lot of the relay team, and then set out posthaste for his wife's home where, it was thought, a visit from the stock was imminent. False Alarm!

Kenny Daugherty, co-captain, took second in the mile (4:45) and then won the 2-mile jaunt in 10:38.6 to contribute 8 points to the Morehead cause. Dick Wilson was second in the latter race in 10:52.2, his best time of the season.

His time of 10.2 in the century dash was the fastest that any Moreheadian has ever done in the stadium. His 220 time was 24 seconds flat.

## UK Averages Track Loss By Defeating Eagles 79 1/2 To 51 1/2

The Eagles of Morehead dropped their first track meet of the season to the University of Kentucky at Lexington on April 8th 79 1/2 to 51 1/2. Last year the Eagles upset the Wildcats on the same Stoll Field track.

U. K. showed a definite superiority in the field events and dashes although Morehead was equally as strong in the middle distance events.

On the bright side for the Eagles was a school record in the shot. Tom Insee, a rookie on this year's squad tossed the shot for a record 42' 4 1/2".

The only double winner for the Eagles was Paul Whiteley who won both the quarter and the half mile.

Whiteley showed his versatility in winning the quarter as it was the first time he has ever attempted the shorter distance. The Eagles only sweep was in the half mile which Whiteley won and Fletcher and McGuire were 2nd and 3rd respectively.

**SUMMARY**

100—Ghents (K), Lawson (K), Ghent (M), Time 8:10.8.

220—Lawson (K), Ghents (K), Ghent (M), Time 2:04.0.

440—Whiteley (M), Weingartner (K), Lancaster (M), Time 5:44.0.

880—Whiteley (M), Fletcher (M), McGuire (M), Time 2:08.

1 Mile—Denton (M), Daugherty (M), Crech (K), Time 4:45.6.

2 Mile—Daugherty (M), Denton (M), Crech (K), Time 10:38.6.

ton (M), Crech (K), Time 10:37.

Highs—Blasingame (K), Ingram (K), Carroll (M), Time 0:16.8.

Lows—Blasingame (K), Franks (K), Balog (M), Time 2:15.5.

High Jump—Thompson (M), Norman (K), Ite, Pettit (M), Blasingame (K), 5' 6".

Broad Jump—Lawson (K), Franks (K), Matlack (K), 20' 10 1/2".

Pole Vault—Franks (K), Thompson (M), Jones (K), 12' 9".

Shot—Michaels (K), Blasingame (K), Insee (M), 42' 11".

Discus—Blasingame (K), Ghents (K), Noble (K), 120' 9".

Javelin—Pack (K), Carroll (M), Noble (K), 150' 4".

Mile Relay—Morehead (Lancaster, Ghent, McGuire, Whiteley) 3:42.5.

**Science Workshop**

(Continued From Page 1) relating and evaluating the workshop.

For the panel discussion relating to the importance of science education in modern education, guests' consultants have been invited from Armo, Ashland Oil, and Lee Clay Products, Inc. The panel discussion will be held Friday night.

Students majoring in science will assist as guides and hosts to workshop visitors.

**SENIOR TEA**—Always one of the highlights of the spring season is the Senior Girl's Tea. Shown at the tea are (left to right): Pat Shays, Miss Patti Bell, Ann Karkick, Miss Lois Leslie, Mrs. Adron Doran, Mrs. W. H. Rice, Nana Karkick, Norma Jo Cross and Lisa Kay Adams.

## Baseballers Play Tomorrow; Face A Strong Morris Harvey

By Billy Joe Hall

The Morehead State College Eagles baseball squad will look forward to Wednesday's encounter with the strong Morris Harvey team with great expectations after a slow start thus far. Coach Sonny Allen's nine has found rough sledding in its first three games in dropping all of them. They began by losing to touring Hillsdale, Michigan team 8-3 and 3-0 in a double-header without victory as the Pikeville College Bears defeated the locals 7-3.

Coach Allen summed up the lack of success in the weak hitting of the infielders. In the Pikeville game the three outfielders got six of the seven safeties that the Blue and Gold collected. Gus Stergeon led the pack with three hits, Dale Fair added two and part time pitcher Steve Hamilton came through with a triple. The Eagle's only other hit was shortstop "Pat" Tolle's single.

In the first three games, the Eagles have opened with three different lineups and Coach Allen is still looking for a winning combination. Hamilton started on the mound in the opener and played centerfield in the other two. Stu Miller opened the second and Charlie Hoodenpy chucked the first seven innings of the latter game.

The infield has also seen new faces in every case as Herb Gardner and Beechmer and sharing the third base position. Pat Tolle is a fixture at short, Donnie Gaunce is rotating between second and the outfield, along with some catching activity, and Wendell Jones seems to be holding the fort.

A rain and a loose track combined to prevent any record-breaking performances, but there were still some outstanding achievements. Carl Denton, passing up the mile in order to concentrate on the half, was boxed for part of a half but still did 2:04 as against his OVC mark of 2:01. Paul Whiteley, running the mile for the first time in his collegiate career, had a 4:53.9, the best mark that any Moreheadian has ever done for the distance except Denton's. Kenny Daugherty ripped off a 10:10 2-mile, his best all-time achievement in the event.

An oddity occurred in the weight events: For the first time the existence of the track team, Morehead won all three of the events. Tom Insee, the "find" of the season, took the shot with 40' 10 1/2". Rex Chaney, annexed the discus with a toss of 119' 3".

Gene Carroll took the top spot in the javelin as he threw 152 feet.

The mile relay team, composed of Lancaster, Ghent, Denton and Whiteley, recorded 3:37.0, best team time of the year, in hatching its second win of the season.

Morehead's last first place was a "shared" affair as Nelson Pettit took first in the high jump at 5' 6" with a couple of Union men.

Scoring seconds for Morehead were Lancaster (440—5:44), Claude McGuire (half—2:10.1), Jimmy Fletcher (mile—4:46.0), Dick Wilson (2 mile—11:00.5), Tom Hummer (pole vault—10' 9"), and Bill Salisbury (shot—40' 10 1/2").

Taking third thirds were Fletcher (half—2:10.2), Wilson (mile—4:54.7), Carroll (high), and Gene Balog (discus).

ing down the first base position with his fancy fielding and long ball hitting. Johnny Fannin is filling in at second when Gaunce goes elsewhere.

The Eagles should get rolling when the pitching gets stronger and Tolle and Jones begin to hit the ball with the consistency and power that they are capable of displaying. These two, along with catcher Charles Caudill, Stergeon and Hamilton make the Eagles a good hitting aggregation. As yet all of these boys have not been in the lineup at one time.

The Eagles schedule:

April 24—Morris Harvey, home.

April 27—Bellarmine (2), home.

April 30—Marshall (2), home.

May 1—Eastern, home.

May 3—Tennessee Tech (2), away.

May 9—Pikeville, home.

May 11—Cincinnati, home.

May 15—Ohio University, away.

May 21—Morris Harvey, away.

May 23—Villa Madonna (2), away.

May 25—VMI, away.

May 27—VMI, away.

May 29—VMI, away.

May 31—VMI, away.

June 2—VMI, away.

June 4—VMI, away.

June 6—VMI, away.

June 8—VMI, away.

June 10—VMI, away.

June 12—VMI, away.

June 14—VMI, away.

June 16—VMI, away.

June 18—VMI, away.

June 20—VMI, away.

June 22—VMI, away.

June 24—VMI, away.

## Plan Library Service To Rural Areas

Plan Calls For 15 Regional Libraries In Ky.

Gov. A. B. Chandler has announced plans to develop 15 regional libraries in rural areas of the state.

Libraries will be established at the rate of four a year with the aid of federal and state funds, the governor said.

The state anticipates receiving \$40,000 in federal funds before July 1, and \$137,000 for the fiscal year under the Library Services Act passed by Congress last year.

The Library Extension Division will supervise the plan. Miss Margaret F. Willis, director of the division, said orders for books to be placed in the first regional libraries are being prepared.

Books in regional libraries will be circulated among the smaller local libraries in the counties. This program will also supplement the Bookmobile program.

The first four regional libraries will be established in the first counties in the north-south-east and west sections of Kentucky that apply and qualify.

To qualify, a county must guarantee local financial support and necessary library shelves.

## Hamilton, Tolle On All-OVC First Team

Steve Hamilton and Harlan "Fats" Tolle have been named to the all-OVC Valley Conference basketball team and Dave Keleher has been named to the all-OVC football team.

Also named to the first team were Ralph Crosthwaite and Owen Lawson of Western and Quinn Sullivan of Murray.

Named to the second team were Keleher, Gerald Tabor, Murray, Jerry Hurst, Middle Tennessee, Kenny Sidwell, Tennessee Tech, and Larry Wood, Jackson.

Morehead and Western finished in a dead heat for the conference championship with identical 2-1 records. Murray finished a 5-5 mark, Eastern 4-6, Middle Tennessee 2-8 and Tennessee Tech 1-9.

Hamilton was the top scorer in the conference with 654 points in 27 games for a 24.5 average. The 6-7 forward scored 235 points in OVC competition for a 28.5 average. Besides being named to the all-OVC team, he was named on virtually every all-opponent team and was ranked highly in All-American balloting.

Tolle, one of the finest guards in the conference, was named to the first team with 424 points in 27 games for a 15.7 average. The 6-2 guard scored 180 points in OVC competition for a 22.5 average.

Keleher, in his first season as a regular, had a brilliant year, scoring 435 points in 27 games for a 16.1 average. The 6-7 sharpshooter scored 180 points in OVC competition for an even 18 point average.

Tolle is the only graduating senior on the all-OVC first team.

## Looking 'Em Over

By Billy Joe Hall  
Trail Blazer Sports Editor

Spring sports are in full swing with the long-anticipated appearance of warm weather and Eagle varsity teams haven't begun to shine as yet.

The baseball team hasn't yet found that first taste of victory and the tennis team, the newest sport on our campus, has the opportunity to show its wares as yet. The track team has picked up two victories in three tries as they have defeated Bellarmine and Union of the KIAC and lost to the University of Kentucky on the Lexington track.

All these teams will be in action between now and the close of the semester and if the rains hold off, we'll all have the opportunity to see them in their intercollegiate competition.

People around the campus and downtown have waited a long time for the school to get a tennis team and will be anxious to see this year's team in action. By the way, the school has received a great deal of publicity because of our coach. We have the only known woman varsity tennis coach in the country. This should give the team that added punch that they need in the initial appearances.

Intramural softball has gotten underway on the campus and some of the coaches are really battling in their heated discussions as to who has the best team. The program is being conducted by Coach P. Prewitt in the old behind Men's Hall. All boys are welcome to participate in the activity.

The highlight news of the past basketball season was released last week when OVC Secretary Hooper Eblen gave out the All-conference team for the year.

Morehead and Western dominated the squad with two members each on the first team. The Eagles' co-captains Steve Hamilton and Fats Tolle received the honors along with Owen Lawson and Ralph Crosthwaite of Western and Murray's Quinn Sullivan.

Dave Keleher was selected on the second team with Gerald Tabor of Murray, Jerry Hurst of Middle Tennessee, Kenny Sidwell of TPI, and Larry Wood of Eastern.

It is easily seen that the past season was a successful one on these grounds if no other were considered. This is the most honors that we have ever received from the conference in the round-ball sport.

Congratulations are in order for these three boys!!!

## Walkin' Water

By Bill Delley

There had been a hard rain four days before that muggy day. The water had taken its time about clearing up. For good bass fishing, the water should be clear. This time of the year is the worst for those cool bass that seem to bite only at night. Wind sure can mess up fly-fishing. Unless it's just about to rain the wind doesn't get up until about two hours after the sun rises.

It was just breaking daylight when I left the house. The air was cool and still. There were several birds along the old dirt road, which leads down by the creek. A pair of red birds were watching a big robin pull a worm out of the ground.

Some mornings when the sun first comes out it makes the sky look orange. This morning it was a reddish orange. The sun felt warm and good. It drove the chill of the early morning air away. I could tell already that today was going to be a warm day. One of those days that warm early in the year and give people spring fever and colds.

There had hardly been a moon one at all last night. It's big ones like to feed at night. Since it was too dark for them to see to feed last night they fed this morning. Glaring sun came in last Saturday. The cuckers are the ruffies and are dark grey this time of year. A big dark, jointed pike should come out of the hole. Grover's Run, it's close to a mile from the house to the first good fishing hole. Grover's Run is a stretch of water a little over two miles long. Nearly all of it is walking water.

I remember my sister asking me, "Does that water really walk?" There are just a few birds that are too deep to wade and you have to wade in and wade out. That kind of water is called swimming water. Not the water you do it in. She seemed satisfied with that answer, so I didn't start on the old term of wading water.

## Dues Increase Approved At KEA Meeting

A three-dollar increase in annual dues for members of the Kentucky Education Assn. was approved last Thursday by a vote of 289 to 124.

The KEA's governing body, the delegate assembly, voted 289-124-4 to raise the dues from \$7 to \$10 per member.

The increase from \$7 to \$10 per member will go into effect in the 1957-58 school year. It will help pay for the new KEA headquarters building at the University of Louisville and for expanded KEA services.

The delegate assembly, meeting in conjunction with the KEA's centennial convention, adopted a resolution endorsing a proposed issue for school construction.

It also endorsed the candidacy for Dr. Lyman Gieger, Lexington, for president of the National Education Assn.

Nominated and unopposed for KEA officers were Mitchell Davis, Glasgow, for president; Miss Virginia Marshall, Louisville, for first vice president; and Mrs. Edna Lindie, Henderson, second vice president.

Davis, nominated by Louisville City School Super., Omer Davis, is superintendent of the Barren County schools. He is the late Walter T. Davis, a school teacher in that county for 30 years.

Davis, 48, is a former president of the Kentucky Assn. of Colleges, Secondary and Elementary Schools and a KEA director. He headed a building committee which planned the new headquarters.

Plans are almost complete for the 1957 Kentucky Mountain Laurel Festival, according to Julius J. Golden and J. C. Helton, general co-chairmen.

The festival, which is celebrating its 20th year, is scheduled to be held in Pineville May 30, 31 and June 1.

Eighteen colleges have selected queen candidates for the festival. The new queen, who will be selected by a secret board of judges, will succeed the reigning queen, the former Miss Booklet Andrews, the queen candidate of Kentucky. She will not attend this year because she is in Africa with her husband, stationed there with the U.S. Army.

Tentative plans for the festival call for the program to open Thursday night with a dinner in honor of Gov. and Mrs. A. B. Chandler, the queen candidates and their escorts. After dinner, in a program at Laurel Cove amphitheatre, P. E. M. Queen's State Park, queen candidates will be introduced to the public. Entertainment will be provided by the Renfro Valley Folks and a concert will be given by the United States Second Army band.

Friday at 10 a. m. a parade of floats, bands and other marching units will proceed through downtown Pineville. Among the units scheduled to appear in the parade are Cass High School band, Catersville, Ga.; City High School band, Gate City, Va.; and Dr. H. B. Harris and his calliope, Owensboro.

Friday afternoon, the coronation of the new queen will be at Laurel Cove and a concert will be given by the University of Kentucky band.

Friday night at 9 o'clock a Grand Ball will be given in honor of the new queen at the Pineville High School gymnasium with music provided by Buddy Bair and his Orchestra.

Saturday at 11 a. m. a Queen's breakfast will be held at park lodge for the new queen. The remainder of Saturday's program is devoted to the Laurel Pineville program.

## Dr. Tant, Mr. Phillips Hunt Birds With Tape

### Travel Tips

One of the most aggravating experiences for a motorist today is to be caught in a "speed trap." Usually, this is the scene: A motorist is driving on the open highway and is thinking about a business problem or something that should have been done at home, or any number of things that beset modern man.

Suddenly, he enters a town where he normally slows down from the higher highway speed. He's driven through the town hundreds of times, going to and from work, and this is just another trip.

But from out of nowhere comes the shrill sound of the policeman's whistle. The driver is startled by the unexpected noise. He slows down and stops as he sees a uniformed policeman emerge from behind a parked car.

Then comes the sad news: he is told he was driving faster than the 35-mile-an-hour speed limit. He is advised that police officers stationed at a measured distance timed the car on its journey through the trap. Usually, the motorist is told that the police have him considerable leeway.

As much as seven miles an hour over the limit. Eventually, the motorist pays his fine and cost and is wiser for the experience.

The Eastern Kentucky Automobile Club, over the years, has tried to keep its members informed about speed trap operations. The club, in many instances, has posted signs at entrances to communities, notable for their speed traps, as warning for unwary motorists.

Most drivers are law-abiding citizens who do not deliberately set out to violate the law. Because the traps invariably are set without a warning and at different times of the day, your club has tried to keep members informed so they can avoid payment of fine and costs.

Club officials expressed sympathy with the problems of communities in which motorists travel faster than the 35-mile limit. Law enforcement officers are charged with protecting life and property of the people living there and they operate the traps occasionally to put the brakes on speeding.

It is only when the traps deteriorate into "fining mills" with the principal purpose that of raising money for the community that your club receives scores of complaints against the traps.

Expect the unexpected—drive carefully.

to be given by the University of Kentucky band.

Friday night at 9 o'clock a Grand Ball will be given in honor of the new queen at the Pineville High School gymnasium with music provided by Buddy Bair and his Orchestra.

Saturday at 11 a. m. a Queen's breakfast will be held at park lodge for the new queen. The remainder of Saturday's program is devoted to the Laurel Pineville program.

When the whippoorwill calls . . . or the song sparrow or the cardinal as far as that goes, and sunup is nigh—or sundown—you may see Dr. Norman Tant, audiovisual director and Mr. Tony Phillips, chemistry and ornithology professor, trudging toward the hills. They will be burdened with a portable spring-wound battery-powered professional type tape recorder and one or two parabolic reflectors. Each reflector will have a microphone mounted at its focal point. Their mission will be to capture some songbirds on tape.

Now is the time of the year when the birds are singing at their best, according to Mr. Phillips. Later on in the summer they do sing very much. The mating songs and songs sung while they are nesting are the most varied and beautiful of their performances.

The use of a parabolic reflector, such as is pictured elsewhere, makes the microphone highly directional. Dr. Tant is holding a 24-inch reflector while Mr. Phillips is spotting the bird to be recorded. At a hundred feet, with this particular reflector, sounds originating in a spot no more than about two feet square will be picked up clearly.

The reflector gathers sound waves and focuses them on the microphone about like a magnifying glass focuses the sun's rays on one spot. The 24-inch diameter reflector presents around three square feet of surface to a sound source; that is, it is struck by sound waves in a column of air about three feet in area. The three square feet of area covered by the reflector compares with about three square inches of area on the microphone mounted on it.

The thirty-six-inch reflector, which is used for much greater volume and directionality, is so directional that Dr. Tant has to aim it with a sort of aim. It presents over a thousand square inches of area to a sound source. Its pickup is so great that a loud whisper can be recorded at more than a hundred yards.

Birds are distinctive creatures and are without a doubt the most versatile songsters in the world. According to researchers at Ohio State University in the department of zoology, who are using this same type of equipment, some birds may vary the pitch of a single note as much as 200 times a second. He may sing a rapid series of short notes, often as many as a hundred notes a second. Other recording bird researchers have been at work at Cornell University for several years. The Walt Disney production units are also equipped with the same type of equipment as the Morehead State College bird recording project.

Also recording is being done here. 7 1/2 inches per second, full width. Editing means of re-recording. Some songs will be re-recorded at 15 inches per second on the Magne-corder so that they may be analyzed at 7 1/2 or 3 1/4 inches per second in a form of slow motion sound. Once on tape, a bird may be made to sing regardless of the time of day or what the weather

ENEMY AGENTS?—No, as far as The Trail Blazer staff knows, they are being infiltrated by enemy agents. The photo above shows Dr. Norman Tant and Tony Phillips recording the early morning chirps of birds. The mysterious device which Dr. Tant is holding is called a parabolic reflector we are told.

is like outside. He may be made to repeat a single note or a whole song as often as needed. Listen to the mockingbird . . . but they are not singing in Morehead now. Brown thrashers, cardinals, even Carolina wrens are here; but no mockingbirds.

## Home Ec Dept. Gives Luncheon

A luncheon was given for high school students by the Morehead State College Home Economics Department on April 15.

Lunch was served to 33 students and two teachers from the surrounding area. The program consisted of greetings by Miss Patti Bolin, introductions, a dialogue "The Life of a Home Economics Major at Morehead State College" by Joyce Johnson and Hazel Nunn, and a skit, "Freshmen at College" by Jenny Ball, Mary Ann Jenkins, and Sue Jones.
