

## Trail Blazer To Sponsor Second Annual Best Dressed Contest

By Ariene Shadrach

The Trail Blazer, in conjunction with Glamour magazine, is sponsoring a Best-Dressed Contest on the Morehead State College campus. It will be held sometime in March in Button Auditorium. Admission will be free and there will also be some entertainment.

A committee consisting of Trail Blazer staff members will select a group of candidates for this event. Special judges will choose the final winner. Each contestant will model a campus outfit, a date dress (full or cocktail length), and an off-campus daytime outfit.

The winner from Morehead State College will be presented with many fine gifts given by downtown merchants.

Ten points will be considered in selecting the best dressed girl on NSC campus.

They are:

1. Good figure—good posture
2. Clean, shining, well kept hair
3. Carefully used make-up (not overdone)
4. Good grooming—not just neat but impeccable
5. Imagination in managing a clothes budget
6. A good over-all wardrobe plan
7. Appropriately r
8. Appropriately dressed according to the customs of her fashion type
9. Unmistakable individuality in color, accessories, looks
10. A real understanding of her fashion type

Persons wishing to enter the contest should contact Ariene Shadrach, Julie Wilson or Ray Hornback, Trail Blazer sponsor.

In the first part of April, a panel of Glamour editors and judges will be flown to New York as Glamour's guests. During their visit to New York they will stay at the Waldorf Astoria, will participate in Glamour's College Fashion Show and will be interviewed and entertained by the editors.

## 151 in 1st Semester Honor Roll Says Fair

One hundred fifty-one students made the first semester honor roll, Registrar Linnis A. Fair announced today.

The only perfect standing was recorded by Imogene Thomas, a senior from Fleming County.

Those persons making a standing of 3.8 or better were: Robert Bridges, 3.8; Roberta Caudill, 3.81; Aquilla Agnes Conley, 3.80; Betty Jean Green, 3.83; Clifton Hall, 3.87; John Higgins, 3.81; Sandra Johnston, 3.88; James McBrayer, 3.81; Janice Moore, 3.82; Eleanor Saunders, 3.80; Imogene Thomas, 4.0; and William Randolph Wurst, 3.91.

Listed on the first semester honor roll were:

Donald R. Adams	3.0
Shirley F. Adams	3.46
Harvey R. Adkins	3.40
Sally Cornette Arnette	3.17
Ada Bailey	3.19
Betty Lou Baker	3.47
Mary C. Baughman	3.47
Joyce E. Belcher	3.45
Jackie L. Berry	3.13
Norma R. Bertram	3.07
Mary H. Broom	3.17
Russell Bowen	3.29
Gregory Branson	3.07
Bobby Brewer	3.13

(Continued On Page 4)

## Players To Present "Wizard Of Oz"

By Pat Combs

"We've off to see the Wizard, the Wonderful Wizard of Oz." This is not the No. 1 song on the Hit Parade, but it is No. 1 song in the minds of the Morehead players as they swing into their annual Children's Theatre Production sponsored by the Woman's Club.

This year "The Wizard of Oz" is a three act play dramatized by Adele Thane from the story, "The Wonderful Wizard of Oz," by L. Frank Baum is the presentation.

Scheduled to be presented March 24, 25 and 26 in the Button Auditorium, "The Wizard of Oz" is under the direction of Professor W. P. Covington and the assistant director of Wayne Wade and Gary Eldridge.

"The Wizard of Oz" is the story of Dorothy, a young girl in Kansas, and her dog, Toto, who arrive in the Land of Oz on a cyclone. Finding she cannot return to Kansas without the permission of the Wizard of Oz from the Munchkin Men, Dorothy and Toto set upon their journey to see Oz.

Along the way, she meets a scarecrow, a tin woodman, a cowardly lion, and a soldier, who also wish to see the Wizard of Oz. So the two, girl and dog, continue their journey with the scarecrow coming along. But upon reaching the Wizard of Oz, Dorothy finds this is not the only thing she has to do to return to Kansas.

## Concert Choir Appears On Television

The Morehead State College Concert Choir appeared on WHAS-TV in Louisville on Saturday, Feb. 15.

The choir, directed by John Carter, performed on a 30-minute program entitled "Songs of Faith."

The group left by car at 6 a. m. and arrived in Louisville only shortly prior to their appearance due to hazardous road conditions.

WHAS-TV is one of the most powerful television stations in the nation and has a coverage which includes the greater portion of southern Indiana as well as reaching as far east as Lexington, Ky.

After the choir's appearance, Dave Jones, WHAS-TV Production Manager, said, "The Morehead choir is one of the finest vocal groups we have ever had in our studio."

Earlier in the month, the choir performed at a meeting of the Morehead Chamber of Commerce.

## Humphrey Deadline April 15

By Pat Spencer

April 15 is the date that has been set at the deadline for entries into the Inez Faith Humphrey Award in English Literature.

This year awards will be made in the categories of short story and essay. Each award will be dependent upon the response of the alumni to the proposal.

Only members of the junior and senior classes are eligible to receive awards. Eligibility also depends on whether or not the entrant is in residence during the year the awards are made.

All entrants must have maintained an average of "C" in English last semester and have at least that standing when the awards are granted.

All manuscripts must be submitted in triplicate with the original copy in paper container. Final decisions concerning the manuscripts will be made by professional writers and critics outside of this college campus. Each student may submit as many manuscripts as he likes but during his school career, he will be eligible for only one award.

This award is made each year as a tribute to Miss Inez Faith Humphrey who served on Morehead's College faculty for several years.

Billie Jean Thompson won the award last year.

## Local Minister To Teach Class On Friday Night

Ray Allen, minister at the Morehead First Christian Church, will teach a Friday night course at Morehead State College during the second semester.

The course, "The Bible as Literature," is also being taught by Mr. Gabriel Banks. When the enrollment in Mr. Banks' class grew too large, the Rev. Allen was asked to teach a second class.

Rev. Allen, who has been at the First Christian Church for over a year, is a graduate of Transylvania College and the College of the Bible in Lexington.

He was a member of the Phi Kappa Tau Fraternity while at Transylvania and is a native of Henry County, Ky.

He is married and has a two-year-old daughter, Diana Elizabeth.

## C-J Exhibit Of Photos Slated Here

An exhibit of Louisville Courier-Journal photographs entitled "Best Pictures Of 1957" will be placed on exhibit at Morehead State College from March 31 to April 4.

The photographs, taken by the Courier-Journal staff photographers, have won a number of national awards and have been placed on exhibit throughout the state.

Included in the exhibit are 62 prints and 18 photographs of the individual photographers.

The display is being sponsored by the Trail Blazer.

The site of the display had not been decided upon at publication.

Basil P. Caumissar, Courier-Journal Promotion and Public Service Director, said, "Our hope is that it will prove equally interesting to your faculty and students."

## Eagles Face Tenn. Tech. Here Tomorrow In Crucial Tilt

## Game Could Decide NCAA Participant

Morehead's off and on Eagles play host to league-leading Tennessee Tech tomorrow night in a game which could decide the Ohio Valley Conference NCAA representative.

At the time of this writing, Tech led the OVC with a 7-1 record. Morehead's record in the conference stands at 6-3. But Tech's game tonight (Monday night) with Murray could change the OVC picture entirely. A Murray win would give Tech the OVC title and a new lease on life as a Morehead win over Tech Wednesday night would throw the OVC into a tie with the Eagles and Tech each possessing 7-3 records.

If Tech defeats Murray, there is the possibility that Morehead will represent the OVC in the NCAA playoffs if the Eagles can win over Tech Wednesday night.

Morehead had the Techmen of John Alldam their only OVC loss at home earlier in the season. A win for Bob Laughlin's charges Wednesday night would put the Eagles in position for the NCAA bid as Tech cannot use its top two scorers in the NCAA.

Herbie Merritt 6-7 and Ken Sidwell 5-10 both played as freshmen at Tech and are thus ineligible for the NCAA tournament.

Tech would be greatly weakened by the loss while Morehead could lose no one from a veteran squad which has five seniors who have participated in the NCAA tourney for the past two years.

Wednesday night's encounter will pit two of the tallest teams in the nation. Tech's tallest men are 6-7 Merritt, 6-9 Jim Hagan and 6-5 Larry McDonald.

Morehead will encounter with 6-6 All-American Steve Hamilton, 6-7 Dave Keleher, 6-6 Thornton Hill and front-line reserve 6-3 Bernie Shimseloff.

Both teams use a blazing fast break. All-OVC performer Sidwell heads the Tech attack with 6-3 Phelps leading support.

Leading the Morehead attack are sophomores Ken Meyer, 6-0, and Herbie Triplett, 5-10. Senior Ken Thompson adds strength at the guard and has pushed his scoring average to 4.7 points a game after sitting out most of the early portion of the season with a back injury.

Merritt leads the Tech scoring with a 14.4 average, closely followed by Sidwell who is hitting at a 14.3 clip. Hagan, a sophomore, is averaging 11.1. Phelps is averaging 10.4 and McDonald is averaging 9.9.

Hamilton, the nation's tenth leading rebounder, is Morehead's top scorer with an even 17.0 average. A rugged rebounder, the All-OVC performer is averaging 19.0.

During the past year, he did stunts on Steve Hamilton's Writer's Workshop, Professor Tom Young and his circus, the Morehead tennis team and basketball prospects at Morehead.

Creason is one of the most popular and well-liked men in Kentucky and probably knows as many persons in the state as any living Kentuckian.

## Twins, Twins, Everywhere On Morehead State Campus

By Ietta Washko

Twins, twins, everywhere... yes, that is the picture here at Morehead State College. Although we probably haven't realized it, there have been five sets of twins to enroll here within the past year!

These twins are:

- Phil and Phyl McBrayer, who are freshmen from Morehead.
- When I asked Phyl what her main interest was she said, "I would like to graduate from college and teach physical education in high school." Phyl now is a member of the following clubs on campus: Mystic Club, Warden Fellowship and W.R.A. Phil is a pre-engineering student and a regular disc jockey at WJOL.
- Marilyn and Carolyn Williams, another set of twins on the Morehead campus, are natives of Flat Gap. These girls are members of the B.S.U. and W.R.A. clubs on campus. In high school they were both cheerleaders and were members of the Glen and Pep clubs. They are freshmen on the Morehead State College campus.
- Sallyvella is well represented with twins, Avonell and Suedell Sparlock. These freshmen twins were also cheerleaders in their high school. They were also members of F.H.A.

## Seeing Double Bettie Sue and Bonnie Lou

Bettie Sue and Bonnie Lou Rogers are another set of freshmen twins on campus from Olive Hill. Bettie Sue was an active member in these high school clubs: Beta Club, Band, Good News Club, Chess and the Paper Club. Bonnie Lou included activities in her program: Beta Club and Library Club. She was also Vice-President of her graduating class.

Bettie Sue is a Pre-Med student while Bonnie Lou is acquiring an Area of Concentration in Social Science. Bonnie Lou is a member of W.R.A. on campus.

For a little variety we also have a set of male twins on campus. They are Don and Robert Elder, who are juniors at Morehead State College. These twins had from Jeffersonville, Ind. Robert played both football and basketball in high school. Don, also has a great interest in athletics.

The great interest these twins have in athletics helped them decide to become physical education majors. I asked Don what he would like to do when he graduates and he said, "I would like to have a coaching position in Florida." Robert is the father of twin boys and Don has two girls.

## Student Council Sponsors Trip

By Nadine Carver

Members of the Morehead Student Council and their guests traveled to Eastern State College for a "good will" get-together preceding the game Thursday night.

This trip was a return invitation from Eastern's Council, which met our students in the campus gym before the Morehead-Eastern game played here at dinner.

The program was started by our council in hopes that better relations could be established between the two colleges. The rivalry between the schools had grown to the extent that frequent visits were made to the campus of each college and property was defaced.

Morehead's council believed that if the students were given the opportunity of becoming better acquainted, such actions might be stopped.

The Morehead students were greeted Thursday afternoon at the Student Union. A tea and a get acquainted party was the first of the activities of the afternoon.

The visitors were shown hospitality during the afternoon at the Student Union, and a dinner was given in their honor Thursday night.

Dean Wilson said at the dinner that he believed the meetings had been very successful and many good things had been derived from them.

Following the dinner the students attended the game and then returned to Morehead.

## 1,481 Enroll At Morehead State College

Another Record Is Broken For Second Semester At School

Second semester registration has ended at Morehead State College with 1,481 students enrolled—the largest single semester enrollment in the history of the school—President Adron Doran announced today.

The largest previous enrollment was the first semester of this school year when 1,393 students were enrolled.

The second semester increase was usual in that fold-inations of higher education show an increase during the second semester over the first.

"The increased enrollment is not only unusual," said Dr. Doran, "but is an indication of our steady and continuous growth."

Morehead State College also has 265 students enrolled in 11 extension centers in Eastern Kentucky and 400 persons are taking correspondence courses from Morehead.

Enrollment in the college's Breckinridge Training School, with grades from 1-12, is 363.

## Band To Play At Chapel Thursday

Thursday's Convocation exercises will be under the supervision of Dr. E. Dunsen, head of the Music Department at Morehead.

The Concert Band of Morehead State College will perform during chapel and will be presenting portions from the program planned for their tour. Those students performing with the band qualified by audition held earlier in this school year.

Also included on the agenda will be the final election of Rancourb favorites, elect year the students on campus vote for those who in their opinion are the most popular, friendly, best looking, etc. A boy and girl is selected to represent each section.

## Creason To Do C-J Story On Dr. Henslip

Joe Creason

Joe Creason, widely known Courier-Journal writer, will be in Morehead tomorrow to do a feature story on Dr. Margaret Henslip.

Dr. Henslip is currently working on the effect of radiation on plants in a newly built laboratory on the top floor of Science Hall. Her's is the only such project of its kind in the United States and is sponsored by the Atomic Energy Commission.

Creason, who is one of the most prolific writers in the United States today, writes primarily for the Courier-Journal Sunday magazine.

During the past year, he did stunts on Steve Hamilton's Writer's Workshop, Professor Tom Young and his circus, the Morehead tennis team and basketball prospects at Morehead.

Creason is one of the most popular and well-liked men in Kentucky and probably knows as many persons in the state as any living Kentuckian.

## Osborne Speaks Here On Plant Radiation

Dr. T. S. Osborne of the University of Tennessee, Atomic Energy Commission Agricultural Research Laboratory visited Morehead State College on Feb. 20. He came to Morehead under sponsorship of the Oak Ridge Institute of Nuclear Studies Traveling Lecturship.

Dr. Osborne is an associate plant breeder in charge of a plant irradiation project involving about 250 plant breeders using radiated seed in the United States. The bulk of this seed is being irradiated at the University of Tennessee Atomic Energy Commission Agricultural Research Laboratory and the Brookhaven National Laboratory.

Since 1950, genetically variable mutants of desirable mutations in economic plant varieties from irradiated seed.

Radiation does not increase the rate of plant breeding but it does increase the amount of variation.

## MSC To Host Kellogg Confab Here Tonight

Morehead State College will host a dinner-meeting of the Kellogg Inter-Collegiate Conference, tonight, President Adron Doran announced today.

The meeting, to be held in the Doran Student House, will get underway at 5 p. m.

Faculty and staff members from the University of Kentucky, Eastern Kentucky State College and Morehead State College will attend.

The conference, sponsored by the National Kellogg Foundation, will have as its goal improvement of the standard of prospective educational administrators.

Dr. Zell Walter, Head of the Morehead State College Education Department, is co-ordinator of the conference.

Dr. Doran will appear on the program.

AIN'T WE CUTE?—Club 68, a staid group of gentlemen who have their eyes on the intramural basketball crown, brought this picture into The Trail Blazer offices yesterday and asked us to run it. We found it quite comical and we understand the spectators found their play on the basketball court quite amusing.

# UNESCO Offers 75,000 Scholarships

More than 75,000 international scholarships and fellowships are offered by governments, universities, foundations and other institutions in 83 states and in many non-self-governing territories. They are listed by the United Nations Educational, Scientific and Cultural Organization in the latest edition of Study Abroad, just issued by the UNESCO Publications Center, New York.

This total compares with 15,000 scholarships and fellowships listed in the first edition published in the year 1958-1959. It includes fellowships newly awarded by the Soviet Union, Ethiopia, Ghana, Paraguay and Saudi Arabia.

This latest edition of Study Abroad contains the results of UNESCO's annual survey of foreign student enrollments at universities and other institutions of higher learning throughout the world. A survey covering the years 1958-1959 showed that an estimated total of 140,744 students were studying outside their countries.

The United States leads the world in the number of students from foreign countries with a total of 36,494. Next comes France with 16,677, the USSR with 12,300, the United Kingdom with 11,315, the German Federal Republic with 7,487, Japan with 4,315, Egypt with 3,871, Spain with 3,137 and Australia with 3,060.

The United States also holds the lead among countries offering fellowships with 21,000 listed in Study Abroad. Next comes France with 8,000, and then the United Kingdom with 2,500. The United Nations and its Agencies offer about 100 fellowships. Study Abroad includes in its 886 pages authoritative information and opportunities for foreign study including complete details on each award: Where to apply, who is eligible, field of study, length of course, amount of award, etc. More than twice as many of these grants are available to American students as to those of any other country.

## Home Ec Club Holds Gathering

The Home Economics Department was the scene of a Valentine party Feb. 13. The Home Economics Club was hostess to the Agriculture Club at this party. The program co-chairmen, Lilla Belle Webb and Mary M. Mullins, introduced the two clubs to some new mixed games, followed up by dancing.

The department was decorated to well fit in with the festivities of the night. Red hearts of various sizes and shapes dangled from the ceiling lights, giving off a red cast, casting a dreamy appearance over the entire room. The hearts at the ceiling were accented with a bulletin board arrangement. The center of interest in the bulletin board was a large red heart surrounded by 4,315, Egypt with 3,871, Japan with 3,137 and Australia with 3,060.

The foods chairman, Delores Dorton and Thelma Bonzo, called a stop to the games and dancing by announcing that refreshments were ready to be served. The refreshments consisted of white Angel Food cakes, decorated with red candy hearts, and a limited red pineapple punch.

## Faculty Holds Party In Student House

An informal party for all faculty members was held in the Doran Student House Saturday night at 8:00.

The gathering, held in the Faculty Lounge, featured variety acts, refreshments, informal chat and a good time for all.

Mrs. Violet Cewery was chairman of the faculty social committee. Members of her committee are Dr. Owayle Ethel Moore, Carl Woods and Frank Vittetow.

Sandwiches, apples, pop corn and a drink were served during the course of the evening's activities.

Dress was informal.

Saturday night party was the third in a series of faculty parties. Two more such gatherings are slated for the second semester.

## Four Morehead Students Work At Local Radio Station-WMOR

By Gary Eldridge

Being talkative can be profitable.

Four students of Morehead State College agree that talking can be fun and profitable along with being educational at the same time. These students are working part time at local radio station WMOR.

WMOR, being a daylight station only, offers opportunity for college students who like to talk and know how.

Gerald (Stub) Yentes, who plays basketball on the Morehead State College team, finds radio work very enjoyable and educational along with his college work. Stub is from Huntington, Ind., and has worked at various radio stations before coming to Morehead.

Sounding off with all the "cool jive" on weekday afternoons on WMOR is local John Duncan, better known as J. D. The J. D. John has all the latest rock and roll and also rhythm and blues on his two afternoon shows, "John's Juke Box" and "The Road Show". Very gifted with free expressions, John has quite a following of the local teenagers along with a number of the college students.

Phil McBrayer and Gary Eldridge, also college students and Morehead residents, are announcers on WMOR. Being freshmen at Morehead State, they are also fresh at the radio station. Not only do they get a chance to talk, but may add news, write commercials, do office work, file new records, sell time, act as program manager, and numerous other jobs that have to be done around a radio station.

All agree that spouting off over radio can be fun if you know what to say, when and how to say it.

But with four college cats around a microphone, who knows, anything could happen.

Owned and operated by the Morehead Broadcasting Company, Inc., WMOR is located in the Monarch Building in the center of Morehead.

Various features of WMOR include farming, sports, music, news, forestry and conservation. Especially interesting to college students are the programs featuring march and band music, news and sports, and also

## Society Notes

By Ariene Shadrach and Judie Wilson (Co-Society Editors)

Fashions . . . Here we are again to bring you up to date on the very latest news in the world of fashion. Quoting from the February issue of SEVENTEEN magazine we find that "spring is just around the corner." Fashion this spring will begin with the blues . . . and we don't mean a blue mood! Yes, the color blue will be the most outstanding. The color blue, a favorite not only of the "fals" but also of those "guys" we try to impress.

There will be all shades of blue, white, check, plaid, nautical blues and flowering blues. Blue, blue everywhere . . . blue to add sparkle to you and your wardrobe.

Gradually being accepted by the college set is the easy, chemise-y look that relaxes the line of all your clothes. However, remember you can't just put on a new blue chemise and "call it a day." You must keep up with fashions . . . and this means to check fashion lengths as well as very popular figures.

Very popular this spring will be the midday-over blouse look . . . found not only in blouses but dresses, sweaters, jackets, Cotton-knit Bermuda and Jamaica shorts with matching shirts and colorful knee socks will be the latest thing on and off campus.

The casual, comfortable, but impeccably neat style is what we'll all be looking for in our fashions this spring.

Have you noticed that at these "cold-weather" ball games the girls have been sporting vivid knee socks with their skirts. Not only do they look collegiate but are practical in this cold weather. We must give credit where it is due and say, "mighty clever thinking girls."

We are also very proud of the good showing MSC students boys as well as girls, make at the away ball games in their dress. We have heard many good comments on the neat appearance of the student body.

Not only have all been dressing properly but the support behind the team couldn't be any better. Cheering the team on to victory means a lot . . . many times the difference between winning and losing. Congratulations on your neatness and spirit . . . let's keep up the good work!

CONCENTRATION—Giving a chemistry problem close scrutiny are several members of chemistry laboratory class at Morehead State College. The above picture will be used as a science bulletin which is slated for publication in the near future.

## Osborne

(Continued From Page 1)

bility available to the breeder. The breeder must take these altered (mutated) genes and incorporate them in superior varieties by ordinary breeding methods. In a relatively short time he can cause, by radiation, a passing in review of most of the hereditary possibilities of the species under study.

The University of Tennessee Atomic Energy Commission Program has made radiation sources available without charge to plant service plant breeders since 1956. Since that time, 2350 different plant samples have been irradiated and returned to these geneticists for study.

Plant breeders now have hopes of producing improved varieties which might never have been created without the use of radiation techniques.

## THE CURSE of the YUKON

**or 'THE DANGEROUS DAN MCPHOO STORY**

A Stirring Saga of Slush and Mush—(Achooo!)

A dinner meeting for departmental heads of the Eastern Kentucky Education Association was held at Morehead State College last Tuesday evening.

The meeting, in the Doran Student House, was attended by Morehead State college department heads, members of the administrative staff, and Breckinridge Training School instructors.

Hubert Hume, president of the EKEA, said the theme of the meeting was "Advancing education through continuous, intensified efforts of departmental organizations and close cooperation with our teacher-training programs," said Hume.

Monroe Wicker, Director of School Services at Morehead State College, is Executive Secretary of the EKEA.

The Eastern Kentucky Education Association includes 18 counties. They are: Robertson, Macon, Lewis, Greenup, Boyd, Carter, Rowan, Fleming, Bath, Menifee, Morgan, Elliott, Lawrence, Johnson, Mingo, Martin, Floyd and Pike.
