

# Accusations Made Against City Police

About three hours of Monday night's 4 1/2 hour City Council meeting were devoted to a complaint of one taxpayer and the response by Council members and other City employees to that resident's presentation. William H. Meredith of Hidden Valley Subdivision was first to be granted the floor by Mayor C. B. Cornett. The mayor explained that Meredith had called him on Friday and requested that he be first on the agenda.

Council listened to a lengthy tape recording (about 2 hours) made by Meredith regarding his version of an incident on the night of June 5 and early morning of June 6.

Meredith explained on tape that he reported to the City Police Department a prowler in the woods near his home. He contended that he was unable to get city police assistance, even after contacting by phone the mayor and three members of Council — Eleanor Holkway, Marvin Moore and Roy Anderson. Other Council members Dr. John H. Duncan, Lee Casper and Phillip R. Lewis — were not at home when Meredith called.

Council members responded following the tape recording. Each member and the Mayor reported that they contacted the police who said Meredith was receiving protection. Sgt. Robert Wright, when taking the floor, reported that City police officers did not go to Meredith's residence after the complaint was received. He reported that numerous runs were made by Police to Meredith's home, beginning at 11:20 p.m. on June 5 and the last check being made at 3:20 a.m. on June 6. Sgt. Wright said officers even shined lights toward the Meredith home.

The police sergeant further reported that Meredith had been given a citation for speeding earlier in the evening.

The citation, signed by Sgt. Wright, was written at 8:50 p.m. on June 5 and was for speeding. He was cited for traveling 40 miles per hour in a 35 mile per hour zone and pleaded not guilty the following day in City Police Court. His trial was set for July 17.

Meredith presented members of Council with the written content of the entire recording. It was 10 pages, type written and single-spaced.

Council members who were called by Meredith on June 5 and who responded to the accusations against the Police Department, advised Meredith they had no reason not to believe he received police service since officers reported they had been to his home.

During the action at the meeting Monday night —

Councilman Phillip R. Lewis said a report is being worked up on street racing.

Larry Hardin was employed as supervisor over the Neighborhood Youth Corps participants who will be working for the city this summer. He was hired at \$12 per week, effective June 11. The workers will clear hiking trails at the Recreation Park and perform other jobs as requested. The state pays the workers, all between the ages of 14 and 22, and the City of Morehead will provide with 18 of the youths who will work 20 hours per week each during the summer.

Agreed to purchase a large garbage dumpster for use at the swimming pool.

Appointed Ernest Jayne on recommendation of Mayor Cornett, to the Morehead Utility Plant Board. Jayne had been serving, but his term had expired.

Discussed the city's ordinance regarding cattle being permitted in the City Limits. City Attorney Paul Blair said the current ordinance definitely needs to be revised since annexation has brought more farmland into the city. Mayor Cornett appointed the entire Council to work with Attorney Blair in preparing a new ordinance.

Heard a request for an opinion regarding unowned lots in the City. Attorney Blair said the City has an ordinance that vacant lots left unattended can be mowed and the bill sent to the property owner.

Accepted resignations of David Staph, MSU Security Officer, effective May 15; Luther Bradley, radio operator; and Connie Cornett, clerical worker.

Employed Beth Hackney to replace

Jackson Builders, Inc. on West First Street was entered about 4 1/2 a.m. last Wednesday and approximately \$1,000 in merchandise stolen. Sometime between 5 p.m. Saturday and 8:30 a.m. Monday the Big Store on East First Street was burglarized and items valued at about \$2,000 taken.

Det. Clyde Thomas of Kentucky State Police, Morehead Police Chief James Peilrey and Assistant Chief Richard Alderman have made five arrests.

Charged in connection with the break-in at Jackson Builders are Clinton Rusty Fugate of Morehead and Glen Raymond Davis, also of Morehead. Fugate is charged with breaking and entering and Davis with knowingly receiving stolen property.

Fugate remained in Rowan County Jail at 1 p.m. Wednesday (yesterday) under \$500 bond. Davis remains in jail under \$1,000 bond. Their hearing is set for 10 a.m. Tuesday, June 18.

Police reported that a rear garage door had been forced open at Jackson by intruders. Merchandise taken included two chain saws and a citizens band radio, valued at about \$1,000. The items were recovered by police and returned to Jackson.

Charged in connection with the break-in at the Big Store were Sylvan Howard, Keith Johnson and Charles Haman. Howard remains in jail under \$1,000 bond. Johnson

ONE-PONY POWER... Howard Patrick poses with "Tony" in the Patrick's garden at Sharky. The weeds that Tony and Howard missed are hand chomped by Mrs. Patrick. Rowan County Extension agents report there are more gardens in the county this year than there ever have been. They attribute the number of gardens to the price of groceries. One agent said it would be hard to estimate the monetary value of a garden this year.

# Perkins Emphasizes Public Works Projects Need Additional Funds

U.S. Rep. Carl D. Perkins believes that cities and counties should not let revenue sharing destroy other federal aid programs.

The Hindman Democrat told a revenue sharing conference at Morehead State University on Saturday that the Nixon Administration wants to use revenue sharing as an excuse to abolish categorical aid programs like those which support water and sanitation projects.

"Revenue sharing is wonderful but it does not provide enough funds to finance major public works projects," Perkins said to the city and county officials. "Those of us in Congress will need your help to save the Economic Development Administration and other vital programs."

Perkins, chairman of the House Education and Labor Committee, said he would support a 100 per cent increase in future revenue sharing appropriations.

The veteran congressman urged the local officials to make maximum use of federally funded employment programs, especially summer youth projects.

The day-long conference, which included other speakers from federal and state agencies, was sponsored by MSU and the Gateway, Big Sandy and Buffalo Trace area development districts.

Among city and county officials attending the meeting Saturday were Rowan Judge Ott Caldwell, County Treasurer Prude Shuy, Magistrate Eddie Thomas and City Attorney Paul Blair.

At the May meeting of Fiscal Court, Attorney Pennington agreed, upon request of the magistrates, to take affidavits from service station owners regarding the judge's payments for gasoline and expenses and determine if they were valid. He agreed to accept the papers and clear up the matter and Judge Caldwell said he would pay back any amount the county attorney determined he owed.

The issue concerns the \$100 per month paid by the county to Judge Caldwell for gasoline and automobile expenses over a two-year period.

Fiscal Court earlier in the year, exonerated Judge Caldwell from paying back \$2,400 which State Auditor Mary Louise Faust claims he owes the county. The auditor was critical of the court's exonerations of the judge after which Magistrates made the decision to turn the matter over to the County Attorney.

In other action last week Fiscal Court —

Raised the salary of Ronald Caudill, loader operator and truck driver, from \$2.75 per hour to \$3.50 per hour, effective June 7.

Heard a request from Coroner Jesse McDaniel for \$25 per month for the deputy coroner. The County Attorney said the request would be placed in the proposed budget for the coming year which will receive final approval by Fiscal Court.

Received the Rowan Conservation District's budget request for the coming fiscal year from Leland Hall. The request will be placed in the county budget for consideration.

Heard a complaint from a resident of Clayfield requesting large number of dogs which run loose in the area. Attorney Pennington said he would contact City Attorney Paul Blair to see if the County and City could work out an agreement whereby the City Pound could be used by the county workers to repair bridge leading to the Pearl Patton property, with Mrs. Patton providing all materials.

Voted to build a bridge on Waggoner Fork near Rachel Thorsberry place, to repair two bridges on Billy Joe Caudill Road, to build bridge on North Fork near Ed Stone property, to build bridge near Ezra Plank property, and to build a bridge on Mill Branch Road.

Also at the meeting a planned use report on revenue sharing for the settlement period July 1, 1974, to June 30, 1975 was filed out. During that period the county will receive \$266,641 in federal revenue sharing. In completing the report for publication, the court showed \$262,641 for construction and maintenance of county buildings, and the remaining \$4,000 for financial administration and operating and maintenance expense.

Attorney Pennington explained that the report is obligatory but rather an intended use report that can be changed.

YOURSTRULY, CLAIG SPROUT

# Architect For Jail Officially Hired

By early September final plans for a new Rowan County jail will be completed and the project ready for construction bids.

Fiscal Court, at its meeting last Thursday morning, entered into a written contract with Minton E. Whitt of Morehead who is draftsman for the new jail.

Whitt advised Fiscal Court that he is working closely with Joe L. Barbee, Chief Jail Consultant, Department of Corrections, regarding the size jail needed for Rowan County based on past prisoner records.

Upon signing the contract, Judge Ott Caldwell said, "We should make every effort to consider using all revenue sharing funds for the new jail and also a new courthouse I feel, with the money coming to us, we'll be able to also build a courthouse within the next two years."

Judge Caldwell, Magistrates and County Attorney Harvey Pennington have requested that Whitt bear in mind that the new jail eventually will be connected to a courthouse and advised him to draw his jail plans accordingly.

Whitt's fee for the jail project is \$3,500, however, Attorney Pennington said the court would have to advertise for bids for an architect on the new courthouse because of Kentucky Statutes. Pennington, too, assured the court there will be sufficient revenue sharing funds to build a courthouse without any raise in taxes.

Magistrates voiced strong opposition to raising taxes, but all were 100 per cent in favor of building a new courthouse and jail if the projects could be completed with revenue sharing alone.

In concluding statements, Judge Caldwell said, "We must keep every cent of our revenue sharing without obligating it for anything else."

The draftsman for the jail is assistant professor of industrial education at Morehead State University and recently developed an instrument for use by technical illustrators, draftsmen, engineers and drafting students.

Tentative jail plans on which Whitt currently is working will be approved by the

state's chief jail consultant and Fiscal Court.

Total of 9,500 Square Feet

The proposed plans include 8,000 square feet of security space and about 1,500 square feet for the jailer's residence. Whitt's plans call for a large part of the jailer's residence to be kitchen and food storage space.

Two areas will be provided two dormitory type areas, one for minimum security and the other for maximum security. One of the dormitories will have 12 beds and the other six.

Four maximum security cells will provide a total of 22 beds.

Women's facilities will include three cells, one with two beds, the other with one bed.

Two areas will be provided two juveniles and will have a separate entrance from the other portion of the jail. One juvenile area will accommodate four persons and the

# Special City Council Meet Set Monday

A special meeting of Morehead City Council will be held at 7:30 p.m. Monday, June 17, at City Hall for the purpose of adopting the City's budget for the coming fiscal year.

Councilman Dr. John R. Duncan advised City Council at its regular meeting Monday night that he and City Clerk Corene Castle had drawn up a proposed budget of which copies were distributed to members of Council. Dr. Duncan said it should be studied carefully by all Council members before being approved.

Also during the meeting, Council will take action on the minimum wage law and the proposed contract between Morehead State University and the City of Morehead for police and sewage service and fire protection to be rendered to MSU by the City for the coming fiscal year.

# Circuit Judge Will Decide On Caldwell Expense Issue

County Attorney Harvey Pennington advised Rowan Fiscal Court last Thursday that he has asked Terry Anderson, a Morehead attorney, to file a declaratory judgment regarding Rowan Judge Ott Caldwell's automobile and gasoline expenses during the past two years.

Attorney Pennington explained that any decision he would make regarding the Judge Caldwell's expenses would not be final and could be contested. By having Anderson file for a declaratory judgment, the decision as to whether Judge Caldwell owes the county any money will be determined by Circuit Judge Caswell P. Lane.

At the May meeting of Fiscal Court, Attorney Pennington agreed, upon request of the magistrates, to take affidavits from service station owners regarding the judge's payments for gasoline and expenses and determine if they were valid. He agreed to accept the papers and clear up the matter and Judge Caldwell said he would pay back any amount the county attorney determined he owed.

The issue concerns the \$100 per month paid by the county to Judge Caldwell for gasoline and automobile expenses over a two-year period.

Fiscal Court earlier in the year, exonerated Judge Caldwell from paying back \$2,400 which State Auditor Mary Louise Faust claims he owes the county. The auditor was critical of the court's exonerations of the judge after which Magistrates made the decision to turn the matter over to the County Attorney.

Dr. Earl T. Curry served as superintendent

# Dr. Earl Curry New Minister Of Methodist Church

Dr. Earl T. Curry has been appointed to the pastorate of the Morehead United Methodist Church and will deliver his first message Sunday morning.

He comes to Morehead after having served as superintendent of Lexington District. Dr. Curry also has served as superintendent of the Maysville District.

Dr. Curry's pastorates have included Cynthiana, Somerset, South Ashland and Winchester churches.

A graduate of Kentucky Wesleyan College, he attended Asbury Theological Seminary and Southern Baptist Seminary. He holds an honorary doctor of divinity degree from Kentucky Wesleyan.

Dr. Curry has three grown children, two daughters and a son. His wife, Norma, died in early 1969.

The new Morehead minister succeeds the Rev. Larry Buskirk who has been appointed to the pastorate of Winchester First United Methodist Church.

# 2 Morehead Businesses Burglarized

Five persons have been arrested and lodged in Rowan County Jail in connection with break-ins last Wednesday morning and over the weekend at two Morehead business places.

Jackson Builders, Inc. on West First Street was entered about 4 1/2 a.m. last Wednesday and approximately \$1,000 in merchandise stolen. Sometime between 5 p.m. Saturday and 8:30 a.m. Monday the Big Store on East First Street was burglarized and items valued at about \$2,000 taken.

Det. Clyde Thomas of Kentucky State Police, Morehead Police Chief James Peilrey and Assistant Chief Richard Alderman have made five arrests.

Charged in connection with the break-in at Jackson Builders are Clinton Rusty Fugate of Morehead and Glen Raymond Davis, also of Morehead. Fugate is charged with breaking and entering and Davis with knowingly receiving stolen property.

Fugate remained in Rowan County Jail at 1 p.m. Wednesday (yesterday) under \$500 bond. Davis remains in jail under \$1,000 bond. Their hearing is set for 10 a.m. Tuesday, June 18.

Police reported that a rear garage door had been forced open at Jackson by intruders. Merchandise taken included two chain saws and a citizens band radio, valued at about \$1,000. The items were recovered by police and returned to Jackson.

Charged in connection with the break-in at the Big Store were Sylvan Howard, Keith Johnson and Charles Haman. Howard remains in jail under \$1,000 bond. Johnson

# Claig Sprout . . . . . SEZ

My friend, Timothy Tugmunton, who has bought a new suit and also a sports coat since he started courtship with P. Simer, stops by about four times a week to tell me about the late movies on the Widow's color television.

Timothy and me have long been strong supporters of the Cincinnati Reds baseball team. Timothy is all booted up and mad over the way this fans are treating his baseball idol — Pete Rose.

Last year in the national league playoffs between the Reds and the New York Mets, Rose slid into second base. It was a hard slide that broke up a double play. The frustrated New York shortstop, Bud Harrelson, took a grand home swing at Pete and missed. Rose grabbed Harrelson around the arm at Pete didn't want to fight and get thrown out of the game.

All of this was filmed from six different angles on TV. It has been played back a thousand times and every report shows that Rose's slide was absolutely legitimate. In other words, the culprit is the New York shortstop.

Timothy says that some unenlightened sports writers who refused the battle, distorted the facts and the evidence. So, this

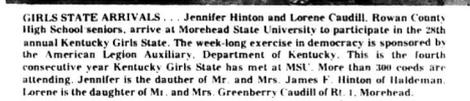

year the fans in left field, except in Cincinnati, are throwing things at Pete Rose and calling him dirty names.

Timothy says the baseball commissioner ought to make the home team forfeit the game if this keeps up. He also thinks that opposing fans are jealous of Rose because they don't have as good or as aggressive player on their own team.

Timothy says this miscarriage of justice reminds him of a young man, whose name I won't mention, who has a good job, a nice car and worked hard. A young girl in our neighborhood was in love with him, but he didn't pay her much mind. Then she got pregnant, went to the county seat and swore he was the father of her unborn child. The Judge made him marry her. Timothy says he knows five other young men, any one of whom could be the probable father.

"Them pregnant fans are mis-accusing Pete Rose, and something ought to be done about it by the baseball czar," Timothy vows. I agree with him, especially so since in my young days a girl accused me of being the father of her unborn baby. It turned out that she wasn't pregnant at all.

YOURSTRULY, CLAIG SPROUT

GIRLS STATE ARRIVALS... Jennifer Hinton and Lorene Caudill, Rowan County High School seniors, arrive at Morehead State University to participate in the 26th annual Kentucky Girls State. The week-long exercise in democracy is sponsored by the American Legion Auxiliary, Department of Kentucky. This is the fourth consecutive year Kentucky Girls State has met at MSU. More than 300 coeds are attending. Jennifer is the daughter of Mr. and Mrs. James F. Hinton of Haldeman. Lorene is the daughter of Mr. and Mrs. Greenberry Caudill of Rt. 1, Morehead.

# Public Higher Education Glen Visiting Morehead

A site visit in Morehead from a selected team of the Council on Public Higher Education is scheduled for Thursday (today) and Friday to aid in the decision of allocating funds to two initial geographic areas for an Area Health Education System (AHES).

Through legislation proposed by the Governor and enacted by the General Assembly, some \$2.2 million for a two-year period will be spent for the development of five designated Area Health Education Systems.

Presently, a joint proposal from the Buffalo Trace and Gateway areas has been submitted to the Council in hopes of being

selected as one of the first two Area Health Education Systems. Eventually, the system will be organized throughout the entire state. The primary purpose of the program is educational and hopefully will solve problems of health manpower distribution and effectiveness. Students will be placed in the region in various medical settings, such as hospitals, clinics, pharmacies, and other health agencies. The team will be assessing what training potential is available for these students. The site team will be visiting hospitals, medical and dental clinics, educational

 other will have three beds.  
 The jail also will include —  
 + Two intoxication cells.  
 + Two day rooms, one being a maximum security area and the other a minimum security area.  
 + One visiting area.  
 + One counseling area.

#### Recommend Separate Contracts

Whitt's recommendations call for two separate contracts on the jail project. He said there should be a contract for building construction and another contract for security.

The draftsman said poured concrete is preferred for the structure, however, concrete blocks 18 inches will serve if they are reinforced with steel rods. Epoxy finishes should be used on interiors, according to Whitt.

Other recommendations by the draftsman an air exchange system, provision for an addition, institutional quality plumbing fixtures and eight foot high ceilings.

Fiscal Court's decision to construct a new county jail was endorsed by the May grand jury of Rowan Circuit court. The present jail has been condemned by two circuit judges during the past two years. Currently only adult male prisoners are lodged in the facility. All juveniles and females are taken to the Bath County Jail.

### Accusations

Continued From Preceding Page  
 Connie Cornett as part-time clerical worker at \$2.10 per hour.  
 + Agreed that a letter should be sent to Governor Wendell Ford from the City to express appreciation for his promise to build the \$300,000 Triplett Creek bridge.

Councilwoman Eleanor Holloway praised Mayor Cornett for his obtaining a commitment from the state on the project.

There was a lengthy discussion among Council members, Mayor Cornett and police officers regarding the use of the recently purchased speed radar gun. Mayor Cornett has ordered that the unit not be used until an acceptable system for using radar is worked out.

Mayor Cornett was of the opinion that out-of-town motorists should be issued a courtesy ticket if caught speeding and that lighted radar signs should be posted to warn motorists that speed is radar controlled in the City of Morehead. He said, "I don't want Morehead to be considered a speed trap like so many little towns are."

The Council session concluded just prior to midnight.

### Burglarized

Continued From Preceding Page  
 and Hamm remain jailed under \$500 bond each. Their hearing will be at 10 a.m. Thursday (today). Each is charged with breaking and entering and Howard has an additional charge of escaping jail in connection with an incident on July 9, 1973.

Stolen from the Big Store were about 60 knives, an AM-FM amplifier, banjo, rifle, shotgun and about \$16 in cash, for a total value of about \$2,000. Most of the merchandise has been recovered.

The break-in at the Big Store was discovered at 8:30 a.m. Monday and reported by Curley Barker to both City and State Police. The Jackson break-in was discovered about 7:30 a.m. last Wednesday and reported to officers by Marvin Jackson.

### DEE PARRISH SUFFERS ATTACK WHICH IS FATAL

Dee Parrish, Plummer's Landing, suffered a fatal seizure Sunday and was dead on arrival at St. Claire Medical Center in Morehead.

Survivors are three sons, including Tommy Parrish of Morehead. He also leaves a daughter, Miss Maudie Elaine Parrish, Morehead.

PRESIDENTIAL PRESENT . . . Morehead State University President Adron Dorian left, confers an honorary Doctor of Humanities degree on Western Kentucky University President Dero Downing. The degree was awarded during MSU's spring commencement. Dr. Downing was the featured speaker.

### Public Works

Continued From Preceding Page  
 institutions, comprehensive care centers, county health departments, and other related agencies in the ten county region throughout the two-day session.

At 7 p.m. (CST) Thursday (today) all area providers are strongly urged to participate in a session where the specifics of the AHEPS program potential will be discussed in depth. The meeting will be held at Morehead State University, B.F. Reed Hall, Room 419.

The cooperative efforts of providers and regional educational institutions hopefully will result in notification of proposal approval on July 1, 1974.

### EAST KENTUCKY PAVING GETS CONTRACT FOR ROWAN WORKS

Secretary of Transportation James E. Gray announced today that the Bureau of Highways has awarded a contract for surfacing of Ky. 377 in Rowan County to East Kentucky Paving Corporation of Grayson.

The contract consists of blacktopping Ky. 377 from its intersection with Ky. 798 to the Lewis County Line. The project covers a total distance of approximately 7 1/2 miles. The amount of the contract to be executed is \$94,622.

If before marrying you feel you wouldn't like to live with the same partner all your life, select a person who smokes two packages or more of cigarettes daily.

## Judge Rules In Favor Of Magistrate Martin

As the result of a decision handed down last Wednesday by Rowan Circuit Judge Caswell P. Lane, Ray Martin will continue to serve as Rowan County Magistrate of District 1.

Martin's eligibility to serve as Magistrate of the district, to which he was elected in November and sworn to duty Jan. 7, was contested in mid-January in the form of a civil suit filed in Rowan Circuit Court.

The plaintiff in the suit, Commonwealth of Kentucky, acting by and on behalf of Commonwealth Attorney James E. Clay, claimed that Martin had not resided in the newly changed boundaries of District 1 for 12 months prior to his election in November as required by law.

The boundaries of the district were revised in January 1973 and set out in an order of Rowan County Elections Board dated Jan. 29, 1973.

The civil action contended that Martin wrongfully assumed the office and requested that he be ordered to vacate the magistratal position.

Martin, a Republican, defeated Democrat Ora Cline by 43 votes in the November election and has served actively as Magistrate of District 1 since Jan. 7 when he was sworn in.

In Judge Lane's findings of fact it was pointed out that Martin has resided in Rowan County for approximately 60 years and at the same place of abode for over 20 years and the physical location of his residence was not changed and has not been changed for approximately 22 years prior to the change of Magistrate District No. 1.

In his judgment dismissing the complaint against Martin, Judge Lane pointed out that the Magistrate met the residential qualifications set out in Section 100 of the Constitution of Kentucky.

The Judge explained that the preamble to House Bill 508, passed by the 1974 Legislature, recognizes the existing law and the new statute states that changes in district boundaries do not disqualify persons maintaining their residence in the same geographical location if the boundary change occurs less than a year before the

election involved.  
 Since the boundary change wasn't made until Jan. 29, 1973, and Martin was elected Nov. 6, 1973, less than a year had lapsed thus making Martin's election to the magistratal district valid.

### Consumer Comments

This column is written by Ed. W. Hancock, a consumer advocate. His reader having questions (or complaints) should write to Mr. Hancock at Frankfort, Ky.

The importance of financial security through a well planned life insurance program cannot be underestimated. Consumers often ask, "What kind of life insurance program would be purchased to insure full coverage for a family and how much insurance is necessary?"

To answer these questions, consumers must determine what assets they have which could provide for family income if the major wage earner died suddenly. These assets usually include savings, social security survivorship benefits and the working earning potential of other family members.

Consumers should make a projection of the family's financial needs and decide what is required to provide for a comfortable living. The projection should not be made for the next year but for the present including expansion for inflationary trends.

When securing the protection of children, the family size and age of the children must be considered. Also, special conditions, such as a handicapped child who may require special care and schooling, must be accounted for.

Social security benefits cover most wage earners, but a private life insurance plan can supplement these benefits and fill the gap between child care and retirement benefits for the widow.

The three basic types of life insurance are term, whole life and endowment. Variations and combinations of these three types are common. A well-informed, reputable community insurance representative can explain the best plan to fit the needs of your

Term insurance, sometimes called "pure protection," is purchased to cover specified number of years. If the policyholder dies before that time is up, the beneficiary there is very little savings with term insurance.

The second area is whole life — sometimes called straight life and the policy is usually payable for life. It insures the payment of benefits when the insured dies. Straight life plans have a built-in savings feature in the form of the cash value of the insurance policy. At anytime, the straight life policy may be turned in for its cash value. If the policy is held to maturity, the cash value is equal to the face value of the policy.

A third plan is the endowment which is primarily a savings plan with insurance features. These plans usually have the highest priced premiums.

The endowment policyholder pays the premiums for a certain number of years, after which he collects the money invested. If the person dies before the term is up, the beneficiary will collect the full value of the policy.

Insurance companies have developed various plans including the family plan and the family income plan. For further information concerning personalized insurance plans, consumers may contact their community insurance company or write the Department of Insurance, Frankfort, Ky.

The Department of Insurance licenses all insurance companies practicing the sale of insurance in Kentucky.

For answers or suggestions to aid in consumer problems Kentucky residents may call the toll-free consumer hotline at 1-800-372-2960 or write Division of Consumer Protection, 309 Shelby Street, Room 110, Frankfort, Ky. 40601.

### Week's Schedule

Open To Public At Morehead State University

Through June 11 — Registration for summer term Laughlin Health Building.  
 Through June 14 — Boys Golf Camp, Golf Course.

Through June 21 — Art Exhibit mixed media works of Michael McDardwell — Third Floor, Library.

Through June 29 — Exhibition of Belgian Tapestries — Claypool-Young Art Gallery, open 8 a.m. to 4 p.m. Monday through Friday.

Each Friday — Folk and square dancing for beginning and experienced couples. Laughlin Health Building dance studio, 8-10 p.m. Open to the public without charge.

### Meet Scheduled For Distributors Of Fuel In Rowan

All wholesale and retail distributors of fuel in Rowan County are invited to a meeting at 7:30 p.m. Thursday, June 20, at the Bath County Courthouse in Owsingsville.

The meeting is being sponsored jointly by the Kentucky Fuel Allocation Office in Frankfort and the Gateway Area Development Office.

During the meeting, distributors will be advised of what they can do to improve their own fuel situation, will hear reports on new regulations in effect since June 1, and will be given a chance to ask questions regarding allocations.

### Lady Bootmaker Says Cowboy Boots In Fashion Spotlight

Great Gatsby fashion lovers wait! out!  
 The western look is coming on strong this spring and summer, says the world's only lady cowboy bootmaker.

Miss Enid, says her country's trend towards nostalgia with the denim and blue-jean craze and toward western boots to complete the western look.

Miss Enid, who also is affectionately called by all who know her, says she can't recall any period of time comparable to this when the interest in and demand for western boots has been as great as it is today.

"More and more people—businessmen, women and college students—are wearing western apparel these days. Many Americans are discovering that you don't have to own a home or live in Texas to enjoy cowboy boots," she smiles.

The colorful Texan says that demand for Nocona boots is up considerably, due in large part to women who have found high fashion in western boots.

Miss Enid attributes much of this to the advent of the round toe boot, a virtual mainstay in western boot fashion where for years nothing but pointed toes could be found.

The new toe, which resembles the rounded toe of a shoe, has become an attractive companion for the most tailored women suit, as well as for women's slacks and pant suits.

Miss Enid says that actually her company has been making this type of toe in a variety of styles, leathers and colors for several years but it has set the styling trend only recently.

"It's so important today to spend money wisely. Western boots have traditionally been recognized as footwear meant to endure the toughest treatment. Now they have gained acceptance as the stylish footwear of the day."

Miss Enid, who says she's liberated all her life, credits "women's lib" for part of the renewed popularity of western boots among ladies.

"Women are finally coming to their senses and are dressing comfortably and practically," she says remembering the early 1960's when men scoffed at having a pair of boots from a woman when women wouldn't wear pants much less boots.

But the women of 1974 are doing so much, "They've real

### THE FEMINE FRILLY WOMAN HAS RETURNED!

That is the definitive word from Paris. And this of course, means more curls and more waves for her hair.

The Syndicate "De La Haute Coiffure Francaise", in its just-released summer trend, Belle '74 offers that with a choice of short hair styles or mid-short lengths — reaching the cheek bone on the sides with a short bobbed page nape.

Color is quite important this season . . . to emphasize line.

## Some Farm Workers Must Receive Minimum Wage

Farm workers covered by the new federal minimum wage law which is now in effect must be paid at least \$1.60 per hour. However, only farmers who employ several workers must pay the minimum wage, notes W. Wilson Hourigan, extension agricultural economist at the University of Kentucky College of Agriculture.

The new minimum wage provisions are included in the Fair Labor Standards Amendments of 1974, which were signed into law in April of this year and became effective on May 1.

The new law provides a schedule for increasing minimum hourly rates for agricultural workers to \$2.30 per hour. The schedule is as follows: \$1.60 on May 1, 1974; \$1.80 beginning Jan. 1, 1975; \$2.00 beginning Jan. 1, 1976; \$2.20 beginning Jan. 1, 1977; and \$2.30 beginning Jan. 1, 1978.

The minimum wage law is administered by the U.S. Department of Labor. For a more specific explanation of the law and how it relates to other agricultural and non-agricultural employers and employees, contact the area office of the Department of Labor in your area.

## Morehead Man's Brother Killed In Tractor Accident

The Mitchell DeHart, 21, Sandy Hook, brother of Waydel DeHart of Morehead, was killed Friday afternoon when a tractor he was driving overturned and pinned him under the steering wheel.

Rowan County Coroner Jesse McDaniel said DeHart was dead on arrival at St. Claire Medical Center. DeHart reportedly was attempting to pull up an apple tree when the tractor overturned.

Born Jan. 7, 1953, in Morgan County, he was a son of Walter and Ethel Barker DeHart of Rt. 2, West Liberty.

Surviving, in addition to his parents and his brother in Morehead are his wife, Mrs. Annette Greene DeHart, five sisters, Mrs. Ruby Sias of Fairborn, Ohio, Mrs. Shirley Gullet of Stacy Fork, Mrs. Dixie Lewis of Rt. 2, West Liberty, Mrs. Eula Hutchinson and Mrs. Patty Cox, both of West Liberty, three other brothers, Darrell DeHart of Rt. 2, West Liberty, Wendell DeHart and Vernon DeHart of Fairborn.

Funeral services were conducted at 2 p.m. Sunday at Walnut Grove Gospel Tabernacle by the Rev. Tracy Fannon and the Rev. Eugene Haney. Burial was in Elliott County Memory Gardens at Sandy Hook.

### REMEMBER THE GOOD OLD DAYS

From Wildered Bore, Sparta, Wis. Do you remember the old street peddlers who roamed the highways and byways of villages, cities and even metropolitan areas?

Before our present system of government put an end to their colorful nomadic life by forcing them to pay ever-larger peddler license fees, we were beset by horse-drawn carts and wagons which were laden with boxes and baskets of farm produce.

A wagon peddler usually hired one of the children to help him sack up fruits and vegetables after he had weighed them for housewives who hurried down after him. From a third floor window a woman would shout down an order, and the man would sack it up and call me to bring it up to the woman and get her money. We became good friends back in those days long since gone by. Ah, the street peddler.

Send remittance to us when in the Old Times Box 678, Morehead, Ky. 40351

### THE GOOD WORD from the Bible

## Frank Moreland, 58, Clearfield, Taken By Death

Frank Thomas Moreland, 58, Clearfield, died Thursday at his residence following six months illness.

A native of Muncie, Ind., he was born May 20, 1916, and was the son of the late Emery and Sarah Elizabeth (Spradling) Moreland. A member of Lower Lick Fork Free-will Baptist Church, he also was a member of Morehead Masonic Lodge No. 654. He had resided all of his lifetime in Rowan County and was a former truck driver for Lee Clay Products Company.

Surviving are his step-mother, Mrs. Gladys Moreland of Lexington, his wife, Mrs. Nella (Hall) Moreland of Clearfield, one son, Tom Moreland of Lexington, a daughter, Mrs. Joan Ferguson of Morehead, one brother, Bobby Moreland of Paris, four sisters, Mrs. Elizabeth Osborne and Mrs. Grace Wilson of Lexington, Mrs. Martha Johnson of Georgetown, and Mrs. Laura Smits of Paris, and three grandchildren. A daughter preceded him in death.

Funeral services were conducted at 2 p.m. Saturday at the First Free-will Baptist Church. Burial was in Clearfield Cemetery. Masonic rites were conducted by Morehead Masonic Lodge No. 654 officiating ministers at the funeral were Scott Griffith, Sherman Arns and Ted Green.

Palbearers were J.N. Ferguson, Pete Brown, Ronald J. Caudill, Clyde White, Doug Foreman and Howard C. Hall.

Honorary palbearers were Raymond Perry, Harry Caudill, Herman Workman, Don Early, Louie Crager, Vernon Alfrey, Alpha Hutcherson, Glen Lane, Joe Perry, Luke Easterling, Leo Miller, Walter Carr, Chester Kretlow and Don McQuinn.

Stucky Funeral Home was in charge of arrangements.

Long-term health care facilities in Kentucky are caught in an inflationary squeeze with the lifting of price controls and increase in the minimum wage the life of May make the situation even worse.

There are three types of care furnished by the long-term health care facilities in the state. Personal care for ambulatory patients, intermediate care where nursing is required and the skilled nursing home.

The federal government provides the program for much of this through medicare and Medicaid programs. The skilled nursing home is reimbursed for the cost of services but the other two types of care are on a flat rate basis, and the flat rate "just hasn't been increased enough to meet increased costs,"

The increase in minimum wages alone is enough to add two dollars a day to the health-care costs, Carly said. This doesn't take into consideration the increased costs of living and all other costs down the line.

He says there are approximately 22,000 long-term health care facility beds in Kentucky as compared to approximately 13,000 hospital beds. He says the long-term health care facilities are expected to care for patients from \$7 to \$17 per day while he estimates average daily cost in a hospital at \$60 a day.

Carly says government responsiveness to the programs is slower than the rising costs and if the state doesn't make some kind of adjustment for state aid patients, we're just have to stop accepting state patients. Some may even notify the state to remove their patients.

He says the long-term health care facilities in the state are facing three alternatives.

Stay in business and offer quality care and lose money.

Reduce the quality of care, and this is against the philosophy of the industry.

Close the doors and go out of business.

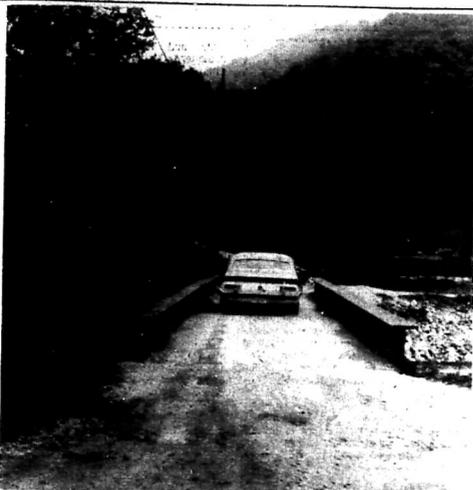

The latter alternative would leave a lot of patients needing this care without a place to go.

Kentucky ranks among the five leading states with the strictest regulations governing long-term health care facilities, Carly says. If these facilities reduce the services—serve cheaper foods and less care—they probably would be in violation of regulations.

If the facility loses money, it has to go out of business eventually. This would mean a reduction in facilities for those needing them while there is an increasing need for more facilities in the state.

Last week hospital people met in Louisville and they talked about the same thing, costs increasing with the new minimum wage and inflation. The hospital people said the hospitals would try to keep costs down, but it appears room costs will have to be increased at least two dollars a day.

Carly says the state is not responding soon enough to the need of these facilities through their state and federal programs. That's the dilemma.

**NICE POOL, UNSAFE BRIDGE**... The Morehead Recreation Park reported 455 paid admissions to the swimming pool last Sunday, a record for this year. All had to cross this narrow bridge on South Bridge Street. Floods have about eroded the foundation. The State Highway Department, acting on an order of Gov. Wendell Ford, has started an engineering survey for a new bridge to cost \$300,000. The State will pay the entire cost and it will be completed this year. The new bridge of two 50-foot spans will carry two-way traffic and an enclosed walkway for pedestrians.

**Health . . . for all**

The Public Health Service says that 100,000 workers die from on-the-job exposure each year. The deaths are caused from exposure to poisonous chemicals, dusts, noise, heat, cold, radiation, and other conditions at work. In addition, the PHS estimates that 300,000 more workers develop disabling occupational diseases. And countless thousands succumb to still other job-related diseases that have not even been specified by scientists yet.

Among the known dangers, exposure to coal dust, asbestos, cotton fibers, as well as metals like beryllium and dusts like silica cause severe lung disease. And if workers in coal mines and asbestos installation also smoke cigarettes, their rates of crippling lung disease skyrocket.

Although an occupational health law was passed in 1970, enforceable federal standards to protect workers exist for only 50 of the suspected 15,000 substances which may injure a worker's health. Each year industry introduces another 400 new chemicals, nearly all of which are untested for possible long-term effects on workers' numbers. And unless a federal safety standard exists for the chemical, the company is not required to monitor worker exposure to poisonous agents or to perform periodic medical examinations on those exposed.

To find out more about occupational diseases and what should be done to protect your lungs at work, contact your Kentucky Lung Association. It's a matter of life and death.

In thousands of plants, workers do not even know what chemicals they work with, to protect trade secrets, companies keep records of the substances only by code numbers. And unless a federal safety standard exists for the chemical, the company is not required to monitor worker exposure to poisonous agents or to perform periodic medical examinations on those exposed.

**Eastern Kentucky Coal Firm Pays Pollution Penalty**

Officials of an Eastern Kentucky coal washing plant has agreed to pay a \$100,000 penalty to the Department for Natural Resources and Environmental Protection for violations of state pollution laws and prevent further discharges of coal solids in Pond Creek in Pike County.

According to an attorney for the department, a complaint was issued against Eastern coal Corp when inspections of the company's facilities near Stone indicated the company was illegally discharging coal washing residue into the creek.

The company has two weeks to "clean all ponds, ditches, preparation plant, tipple and refuse bin areas" to prevent any further discharging of blackwater.

**Question**  
You have referred in your column to the Veteran's Burial Allowance. Is this amount also available for cremation?

**Answer**  
The Veterans Administration allowance for the death expenses of a wartime veteran, or of a peacetime veteran receiving service-connected disability compensation, is the same for cremation as for burial. If death is not service connected and the remains are interred in a National Cemetery the V.A. allowance is \$250. If the remains are interred in a private cemetery an additional \$150 is payable. If death is service connected an allowance of \$200 is payable without regard to the place of interment.

All of the other so-called burial allowances such as transportation to the place of burial when death occurs in a Veterans Hospital, flag, cemetery space, and marker apply to cremation as well as burial. For information concerning all Veterans benefits please call our office. We subscribe to a monthly news service which keeps us constantly informed of your Veterans' rights and benefits.

**Legion Post Plans For Revitalized Activity**

By Charles E. Jennings  
Morehead Post No 126 of the American Legion held a Special Meeting on June 5th at the Kentucky Utilities Building on Blair Avenue. The purpose of the meeting was to select a Search Committee to seek and recommend qualified members of the Legion willing to accept the responsibilities and duties of officials of the Post.

Present Officers of Post No 126 are Bobby Lyons, Post Commander, David Aber, Post Adjutant, Russell Barker, Service Officer, Pete Armstrong, Finance Officer, Danny Cornett, Liaison Officer, C. D. Leach, Chaplain, and Charles E. Jennings, Public Information Officer.

Congress has recently passed and President Nixon has signed legislation to increase by 15 to 18 percent the compensation paid to Veterans disabled in service and dependents of those killed in service. Stop gap legislation has also been signed by President Nixon to assure about 50,000 Veterans going to school from loving educational benefits while the Congress considers legislation in the field of educational benefits for Veterans. Veterans who served between 1955 and 1956 would have been deprived of such benefits after June 30, 1974. The Bill extends benefits for 30 days. During this period it is anticipated that Congress will enact and President Nixon will sign appropriate and necessary legislation as recommended by the American Legion to meet the just and well-deserved needs of the Veterans concerned.

Happy Father's Day June 16

**from HISTORY'S SCRAPBOOK**  
DATES AND EVENTS FROM YESTERYEARS

The design for the flag of the United States was adopted by Congress on June 14, 1777.  
King John of England signed the Magna Carta on June 15, 1215.  
The original Madison Square Garden in New York City was opened on June 16, 1829.  
British soldiers attacked Americans on Bunker Hill on June 17, 1775.  
Napoleon was defeated during the Battle of Waterloo, June 18, 1815.

**Cave Run Reservoir At Full Summer Pool**

MOREHEAD—Cave Run Reservoir is at full summer pool and discharging as fast as it can, thanks to heavy spring rains in the headwaters of Licking River.

The U.S. Corps of Engineers said here Wednesday the lake's stage was 733.58 a foot and a half above summer stage. Gates were open fully, discharging at a rate of 40,000 cubic feet per second.

Gates were closed during last week's downpours to keep water from raising downstream and in the Ohio. On Monday they were fully opened, discharging white water into the discharge channel. Below the dam, in the distance, is Minor Clark Fish Hatchery.

The increase puts water at its highest level ever in the pool.

A boom across the main front of the dam prevents debris from being swept into the outfall mechanism.

**your week ahead by DR. A.W. DAMIS**

**ARIES** Mar. 21 - Apr. 19  
Briefly this week might find you taking every wrong direction. It's not a good time to make a major decision—about a member of the opposite sex.

**TAURUS** Apr. 20 - May 20  
Remember, there is no repeal to the "Law of averages." Meaning? According to your chart, you have been doing terrific with a troublemaker—look for problems!

**GEMINI** May 21 - June 20  
This week you might dwell on the point of recruiting new friends, including the opposite sex. Most members of your sign have become, socially stagnant!

**MEANCHILD** June 21 - July 21  
As the saying goes: Good fortune sometimes takes strange avenues. Meaning? What is seemingly a blunder, will in fact, turn out to be a lucky break!

**LEO** July 23 - Aug. 22  
Your moodiness might upset several of your associates. Actually, a few of your bad trails will come into play, "betwixting" a friend, to name one.

**VIRGO** Aug. 23 - Sept. 22  
Many members of your sign will find a familiar face, leaving the scene. There, also, should be several changes in your daily routine.

**LIBRA** Sept. 23 - Oct. 22  
Much, much too much, emphasis could be put on joining a group. Please review your motives for becoming involved in outside activities. Be honest with yourself!

**SCORPIO** Oct. 23 - Nov. 21  
Take special care with what you write or say over the phone. Your chart shows, a casual remark, by you, being used as the origin of malicious gossip!

**SAGITTARIUS** Nov. 22 - Dec. 21  
Apparently, a co-worker or routine associate feels, secretly, that your opinions affect their well being. Prepare for an unexpected verbal, and a possible loss of cooperation.

**CAPRICORN** Dec. 22 - Jan. 19  
Please, don't feel secure in the "lip service" you'll receive from a close associate. Almostly lies beneath that veneer of warmth and friendliness.

**AQUARIUS** Jan. 20 - Feb. 18  
Many under your sign will be blessed with the good fortune of having a second chance. Meaning? A project you have neglected, will be revived.

**PISCES** Feb. 19 - Mar. 20  
This week, moral gains rather than material advantages are in the offering. Also, an improved relationship with members of the other sex, shows in your chart.

## Kentucky Afield

By Hose Cartton  
Dept. of Fish and Wildlife

Fishing is an exciting pastime that is enjoyed by both men and women, young and old. There are those who choose to cast artificial lures, while others would rather fish with live bait.

Many anglers seek out the black bass while others choose trout, white bass, crappie or the fighting bluegill. Every year, however, there are those who, along with their other fishing interests, try their hand at a different type of fishing, trotline fishing.

Trotlines have been used down through the years by both sport fishermen and by commercial fishermen who each year will harvest tons of prime catfish and other rough fish such as white perch, buffalo and carp.

The most sought after fish of the trotliner is none other than the catfish. Channel and blue cats are the top contenders and many monster flatheads also are taken annually.

While some choose this technique for a livelihood in commercial fishing, many family groups find trotlining a really exciting sport and an excellent way to put fish on the table and in the deep freeze.

Cut bait works well at times and small shad, cratfish and grasshoppers are not to be overlooked but possibly more big cats are harvested when small live bluegill are used as bait.

There are many fishermen who find stink baits and doughballs prime bait for trotlines and they too will harvest an ample share of catfish and other rough fish.

Trotline fishing can be especially exciting in Kentucky's major lake areas as well as the big rivers that abound throughout the Commonwealth.

However, in some of the state-owned lakes trotline fishing is illegal. Therefore, check the legality in your area.

Following are the rules and regulations concerning the use of sport fishing trotlines. A valid fishing license is required and:

- Only two sport fishing trotlines (not more than 50 hooks each) may be used by a sport fisherman at any one time. Hooks cannot be set closer than 18" apart.
- Each trotline must be baited and all fish removed at least once every 24 hours.
- Each trotline must be removed from the water when fishing is terminated.
- Failure to bait and remove fish from the trotline each 24 hours or failure to remove the line from the water at the termination of fishing shall constitute illegal use of the gear and this gear shall be subject to confiscation and/or the user subject to prosecution.
- No sport fishing trotline may be used within 700 yards below Kentucky Dam or that area between Barkley Dam and Highway 62 bridge or within 200 yards below any dam.
- No sport fishing trotline may be used in these lakes under 300 acres owned or managed by the Department of Fish and Wildlife Resources, except those lakes on Ballard County Waterfowl Management Area.

## Environmentally Speaking

THOMAS J. DAVIS  
Executive Director  
Department of Fish and Wildlife Resources

The 1972 General Assembly established a \$500,000 revolving fund to reclaim approximately 100,000 acres of 'orphan land' left by strip mining before the passage of reclamation laws.

With this money, the Department for Natural Resources and Environmental Protection has purchased two parcels of surface mined land in the Western Kentucky coalfields.

A 250-acre tract in Multihberg County and a 400-acre section in Hopkins County.

Reclamation on the Muhlenberg County site began last winter. A crew of trainees from the Breckinridge Job Corps Center at Morganfield is now working there, learning heavy equipment operation as they restore the land.

The first 12 acres of reclaimed marshland were seeded in early October. This arrangement with the Job Corps and this department is a pilot project. The operation level and grade the land at no cost to the state while we furnish materials such as stone and culverts for roads and technical advice for reclamation.

As additional acreage is reclaimed and seeded at the two sites, the state will set it for private and farm use.

## Two KET Courses Good For Credit

Morehead State University is awarding credit for two courses to be offered this summer on Kentucky Educational Television (KET).

Business Administration 299: Family Risk Management, and Art 101: Freehand Sketching, will be televised twice each day on Monday, Wednesday and Friday from June 16 through Aug. 16.

Air times are 2 p.m. and 10 p.m. for Family Risk Management and 2:30 p.m. and 10:30 p.m. for Freehand Sketching. All times are Central Daylight.

Family Risk Management carries three semester hours of undergraduate credit and Freehand Sketching is valued at two hours.

The viewer's guidebook for each course is \$5 and must be ordered from KET, 600 Cooper Drive, Lexington, Ky. 40502.

Persons desiring to enroll for credit at Morehead State University should contact the Office of Undergraduate Programs, MSU, Morehead, Ky. 40351.

Fees are \$18 per semester hour for Kentucky residents and \$40 per hour for non residents.

# 25 Basketball Games Scheduled

Morehead State University has announced a 25-game basketball schedule for the 1974-75 season, including the Ohio Valley Conference Tournament.

Coch Jack Schalow's Eagles will make 14 appearances in Wetherby Gymnasium and 11 on the road.

The card includes the other seven OVC institutions and regional foe Marshall.

Appearing for the first time are Northern Kentucky State, Baptist College, Akron, Ball State, California and Pacific.

The Eagles are resuming their rivalry with Xavier University, Louisiana Tech and Georgia State as holdovers from the 1973-74 season.

"We feel this is a very representative schedule," said Schalow. "There are some new opponents and some traditional ones, the main ingredients for increased fan appeal."

The Eagles open the 1974 season at Home Nov. 29 against Northern Kentucky State College.

- Nov. 29 NORTHERN KENTUCKY STATE
- Dec. 5 BAPTIST COLLEGE
- 7 AKRON UNIVERSITY
- 9 Marshall University
- 16 LOUISIANA STATE
- 18 at Xavier University
- Jan. 4 at University of California
- 6 at University of the Pacific
- 11 MURRAY STATE\*
- 13 AUSTIN PEAY\*
- 18 at Western Kentucky\*
- 20 at Middle Tennessee\*
- 22 BALL STATE
- 25 TENNESSEE TECH\*
- 27 at East Tennessee\*
- Feb. 1 at Eastern Kentucky\*
- 3 GEORGIA STATE
- 5 at Murray State\*
- 10 MIDDLE TENNESSEE\*
- 17 WESTERN KENTUCKY\*
- 22 EAST TENNESSEE\*
- 24 at Tennessee Tech\*
- 26 MARSHALL UNIVERSITY
- Mar. 1 EASTERN KENTUCKY\*
- Mar. 7 OVC Tournament

\*Ohio Valley Conference Games (All Home Games Wetherby Gymnasium, 7:30 p.m.)

**LONG RIFLES HONORED...** The 10-man Kentucky Long Rifle team of Morehead defeated the Daniel Boone Muzzleloaders in the Bob Evans Annual Shoot held Memorial Day at Hio Grande. The 195-point victory represents the largest single win for Morehead in five years. While the shooters continue to change from year to year due to high competition over a three month two shoot qualification, the Morehead group continues to be the National Club Team to beat. In the picture, the Bob Evans Memorial Day winners are kneeling, from left, Jeff Barker, Bob Perkins, Harold Ellington, James Lowell Ellington and Bill DeRossett, captain. Standing, same order, are Nick Lytle, Jim Claude Clay, Jim Campbell, Paul Thompson and Joe Yocum.

# OVC Files Appeal To The NCAA

**HEADS OVC TRAINERS...** Eastern Kentucky University athletic trainer, Ken Murray, has been elected president of the Ohio Valley Conference Trainers Association, a two-year-old organization. Murray, 29, succeeds Murray State University trainer, Tom Simmons, who recently completed a year as the first president of the organization. Members of the OVC include the athletic trainers from each of the league's eight member institutions, of which Morehead State University is a part.

Ohio Valley Conference schools plan to jointly appeal to the NCAA in an attempt to avoid one-year ineligibility rulings for some conference athletes.

OVC athletic directors and Commissioner Art Gupe and other representatives of the OVC schools Thursday met with Bill Hunt of the NCAA.

Officials of the schools say up to 20 athletes face ineligibility rulings because the conference did not adhere to the NCAA's 1971 ban on conversion of Scholastic Aptitude Test (SAT) scores to American College Test (ACT) equivalents.

The OVC now plans to:  
+ Review entrance requirements of all athletes;  
+ Declare the guilty ineligible;  
+ Make a mass appeal to the NCAA, pleading ignorance of a change of rule that outlawed the conversion tables.  
The appeal is expected to go first to the NCAA committee on infractions.

# The Morehead Sports News

## Rain Is Factor As Somerset Cops Title

"The good Lord, above, was with us." These were the words of Somerset High School baseball coach Charles Taylor after his team won the Kentucky High School championship Friday at Allen Field on the campus of Morehead State University. It was the first state title that Somerset has ever captured in any major sport. The score was a surprising 11-0.

Bob Troutman, coach of Paducah Tighman, the other finalist, ruefully observed, "We weren't destined to win."

The championship game between Somerset and Paducah started at 2 o'clock Thursday afternoon. Somerset started what is considered its third best pitcher, their ace, David Dorsey, had hurled the two winning games to get Somerset in the final, and was obviously tired.

Neither team scored in the first inning. Paducah had men on first and second with nobody out Thursday when a heavy rain came. Oddly, it poured down at Allen field, but didn't rain a drop a mile away. The umpires ordered that the game be resumed Friday afternoon.

Somerset's hurling ace Dorsey was tested by the next day. With two men on base and nobody out, Larry Platt bunted and was thrown out at first, and the two runners who had got on base the day before advanced to second and third. Dorsey proceeded to strike out the next two batters and the threat was ended.

Paducah loaded the bases in the third, but Dorsey again struck out two batters without permitting a score. Paducah's spirit seemed to be gone and the McCracken county team never again threatened. Paducah stranded seven men in the first three innings, but in the last four innings had only one base runner. They didn't get a hit off Dorsey.

Meanwhile, a rejuvenated Somerset team could do nothing wrong. The Briar Jumpers took advantage of every opportunity for a single run in the second, two runs in the

third, three in the fourth, four in the fifth, and another tally in the sixth. Paducah seemed to crumble and could do nothing right.

This was the fourth straight year that Somerset had won its regional. But, they were never before able to reach the finals in the state tournament.

Somerset collected 10 hits. Proctor, the Paducah pitcher, hailed by many as a future major leaguer, could not throw anything that the Somerset boys didn't hit.

The coaches and players were high in their praise of the playing field and facilities of Allen field. It was openly predicted that the state tournament will be played again at Morehead next year.

## Golf Tourney Opens July 5 At University

The seventh annual Morehead State University Golf Tournament opens July 5 at the MSU course.

Competition in the championship flight will consist of medal play and all other flights will be match play.

Persons may enter the championship flight by declaration. Entrants in all other flights, must qualify or use attested handicaps.

Any golfer making a hole-in-one on holes 9 or 14 will win a 1974-model automobile.

The 54-hole tournament concludes July 7 with a Saturday evening barbecue. The entry fee is \$17.50 and the deadline is noon on July 3.

More information is available from Ed Bignon, Morehead State University Golf course, Box 253, Morehead, Ky. 40351.

## Tildon Hogge Little League Begins Play

The newly-organized Tildon Hogge Little League Baseball program began its 1974 season last Tuesday and will continue through Aug. 1. All games will be played at the Tildon Hogge Elementary School.

Three teams comprise the little league, with each team playing 12 games for a 36 game schedule.

The teams in the league and members of each are:

+ Mets - Danny Blevins, Jr., Bobby Easton, Anthony Anderson, Mark White, Steve Crail, Matthew Sparks, Duce Blevins, Doug Easton, Dwayne Anderson, Brett Litton, Ricky Logan, Rick Litton, Jeff Logan, Bert Blackburn, Tony Waltz. The team is sponsored by the Dairy Cheer and is coached by Robert Easton and William Danny Blevins.

+ The A's - Richard Gamble, Allen Hicks, Kenneth Amburgey, Rodney Higgs, Jeffery Workman, Jackie Lewis, Billy Black, Ben Porter, Joe Keskin, Matthew Tutch, Bruce Johnson, Vernon Pelfrey, Greg Keys, Richard Easton, Brian Easton. The A's are sponsored by Communications Workers of America and are coached by Joe Deakin and Ronald Porter.

+Atoms - Glen Leon, Rocky Stacy, Gardner May, Joe Littleton, Gary Cooper, David Bryant, Wendell Stacy, Timmy Ison, Clayton Jones, Kevin Stephens, Roy Gilkerson, Jim Byrnes, Eddie Cornelius, Mike Cornelius, Rick Ellington. They are sponsored by Nuclear Engineering Company and coached by Bill Jones and Art Cornelius.

## First Baseball Recruit Signed

Randy Jones, a top hitting second baseman from Wingo High School, is Morehead State University's first baseball recruit of the year.

He batted .500 this spring and compiled a career average of .430. Named Wingo's most valuable player, he led the Indians of Coach Wayne Wadlington to the regional tournament.

Also a basketball standout, the new Eagle is the son of Mr. and Mrs. Buddy Jones, Rt. 2, Mayfield.

"Randy has excellent potential as a college player," said MSU Baseball Coach Snaney Allen. "We're delighted to have him in our program."

## Farmers Stockyard

Flemingsburg, Ky.

June 8, 1974

Sheep - Top Veals 45.90; Medium 42.80; Others 40 to 45.

Receipts - Hogs 240; Cattle 320; Calves 130. Total Receipts 590.

## Morehead Long Rifles State Champs

The Kentucky Long Rifles of Morehead, representing the 8th District Wildlife Federation, captured their 6th annual convention in Louisville.

Led this year by Joe Yocum's 171, the Morehead group defended its title by 10 points over the remaining 8 districts. The Morehead five-man state champions are Captain Bill DeRossett, James L. Ellington, Jim Campbell, Robert L. Perkins and Yocum.

## KAY'S MARKET DAMAGED BY OVERHEAD FIRE

Fire swept through the corner upstairs of Kay's Corner Market, at the corner of U.S. 60 (Main Street) and Hill Street, in Olive Hill Thursday at mid-morning today.

The market is owned by Kay Garvin who bought it about two years ago from Frank James, who retired. He said he had "a little insurance" on the building and stock.

## UK Basketball Season Gets Underway Nov. 30

The University of Kentucky basketball team will open a 26-game schedule Nov. 30 in Memorial Coliseum in Lexington against Northwestern University of the Big Ten, Harry C. Lancaster, director of athletics, announced today.

The Wildcats play a home exhibition Nov. 25 against Athletics in Action.

Other pre-conference foes are Miami (O.), North Carolina, Kansas and Notre Dame, the latter three games to be played at Louisville in Freedom Hall.

Parings for the UKIT have not been made. The field includes Oklahoma State, Washington State, Villanova and host Kentucky.

The Wildcats open conference play at home Saturday, Jan. 4 against Louisiana State and finish the campaign March 8 at Mississippi State.

Kentucky finished the last season with a 13-13 overall record and led for fourth place in the SEC with a 9-9 record.

The Schedule

Nov. 30 Northwestern	Lexington
Dec. 2 Miami, (O.)	Oxford, Ohio
7 Indiana	Bloomington, Ind.
9 North Carolina	Louisville
20 UKIT-Okla. State	Lexington
21 Villanova, Wash. St.	Lexington
23 Kansas	Louisville
28 Notre Dame	Louisville
4 Louisiana State	Lexington
6 Georgia	Athens, Ga.
15 Auburn	Auburn, Ala.
13 Tennessee	Lexington
15 Mississippi	Oxford, Miss.
20 Alabama	Lexington
27 Vanderbilt	Lexington
27 Louisiana State	Lexington
10 Auburn	Baton Rouge, La.
10 Georgia	Lexington
17 Tennessee	Knoxville, Tenn.
17 Mississippi	Lexington
22 Alabama	Tuscaloosa, Ala.
24 Florida	Gainesville, Fla.
24 Kentucky	Lexington
8 Miss. State	Starkville, Miss.

MOREHEAD, KENTUCKY, THURSDAY, JUNE 13, 1974

No. 24

## Highway Fatalities Declining

Traffic fatalities on Kentucky's highways have declined for the fifth month in succession according to Bureau of Highways statistics. Bureau figures show 62 persons were fatally injured during April, compared to 78 during April 1973.

Jim Fehr, planning director for the Bureau of Highways, said that the decline in traffic fatalities could possibly be the result of lower speed limits and less traffic volume.

"Our figures show that traffic volume throughout the state is down from last year and motorists are driving slower, therefore, contributing to the 25 percent decrease in traffic deaths we've had for the first four months of this year," Fehr said.

Bureau of Highways travel information shows that statewide travel in Kentucky during March was off five per cent from March 1973 totals. Limited information gathered from traffic recorders shows that travel on Kentucky's Interstate system during March was 13 per cent less than the volume recorded during last March.

Fatality figures for March and April show traffic fatalities were down 33 per cent and 21 per cent respectively as compared to the same months in 1973.

Five-month fatality statistics beginning with December show each month had a significant decrease from last year with December being down 35 per cent, January 5 per cent, February seven per cent, March 13 per cent, and April 21 per cent (compared to the same month in 1973).

Totals through April 30 show 223 traffic fatalities in Kentucky compared to 299 during the first four months of last year.

AT 4-H CONGRESS... Those attending Kentucky 4-H Congress in Lexington this week are, back row from left, Paul Mills, county Extension Agent, Doug Higby, teen leader; Erwin Gamble, Donna Totich, Darinda Ramey, Valerie Mays, teen leader; and Mrs. Frances Totich, leader. Seated, from left, are Vincent Maggio, Matthew Totich and Zane Collins.

## Man Killed Following Shootout With Police

An early Monday morning shootout resulted in the death of a 60 year old Grayson man after he allegedly assaulted a woman who had been living with him.

The man, killed almost instantly by more than one bullet, fired one charge from a shotgun, but was unable to again shoot as his gun jammed.

Killed was John Mauk, and the shootout

was at the small home in which he resided with a woman companion on old U.S. 60 opposite the McKinney truck stop.

The incident started when Mildred Edens, who had made her home with Mauk, reported that he had attacked her. A medical examination showed she suffered a bruised forehead, a laceration, and perhaps other injuries, none serious.

A neighbor, Larry Richmond, witnessed the altercation between Mauk and the woman and accompanied her to the Sheriff's office. The county judge issued a warrant against Mauk for disorderly conduct.

### Defies Order To Surrender

Capt. Douglas Sward, commander of the Kentucky State Police post at Ashland reported that five officers went to the home to make the arrest.

State Police used a loud speaker, mounted atop a cruiser, and ordered Mauk to surrender.

KSP said that he defied the order. State Police kept making the loudspeaker request for 45 minutes but Mauk said he would not surrender and showed defiance and profanity at the officers.

The troopers moved to surround the house and Mauk allegedly fired a 12 gauge blast that barely missed Trooper Herman Holbrook. The pellets went above Holbrook's head and hit a tree.

State troopers then started firing, according to the police report. Mauk was found dead in the kitchen from where he had fired the shotgun. KSP said he was hit by more than one bullet.

State Police who participated in the shootout were Holbrook, Argus, Knipp, T.R. Judge, George Boggs and Sgt. James Boyce.

Police said that Mauk was prevented from firing more than one shotgun blast because the spent shell jammed in the barrel, and this in turn fouled the injector of the gun.

### CAR LEAVES HIGHWAY, OLIVE HILL MAN KILLED

An Olive Hill man was killed last Wednesday about six miles outside Olive Hill when the car he was driving left the road and struck a concrete drainage pipe, according to Kentucky State Police.

Delbert Reeves, 45, of Rt. 1, Olive Hill, was admitted to St. Claire Medical Center at Morehead, where hospital officials said he died of multiple injuries resulting from the crash.

## Cities, Counties Will Get All Of Beautification Funds

Gov. Wendell H. Ford has directed the implementation of a new procedure, giving cities and counties 100 percent of the Bureau of Outdoor Recreation funds, received by the Commonwealth in 1974-75, to finance local recreational projects.

"State agencies will no longer submit applications. This action means that for the first time in Kentucky's history, all BOR funds will be given to local governments," Ford said.

The Governor's action results in \$2,921,380 - Kentucky's share of BOR funds proposed in the current federal budget - going directly to local communities.

"Normally, only 60 per cent of these funds would be designated for cities and counties,"

Ford continued. "This decision was made possible through appropriations by the 1974 General Assembly of other funds to finance state projects."

According to the Governor, the new procedure means that cities and counties will be able to develop neighborhood parks, swimming pools and other local outdoor recreational needs, within BOR guidelines, as those priorities are determined at the local level.

"This represents another step toward returning decision making closer to the people," Ford said. "Local communities will not have additional funds to make substantial improvements in recreational services and facilities."

## Drivers Licenses Revoked From Two

Only two persons were named to the list of drivers license suspensions and revocations compiled by the Traffic Safety Coordinating Committee at Frankfort for the week ending June 7.

Those included on the list, both Carter County residents, were Gary Eugene Bond, 22, Rt. 4, Olive Hill, and Marvin Dewayne Crank, 35, Olive Hill.

Both lost their licenses on a charge of driving a motor vehicle while under the influence of intoxicants. Bond's were revoked until Nov. 29 and Crank's until Dec. 1.

The list of suspensions and revocations is compiled for the eighty county area comprised of Carter, Rowan, Lewis, Fleming, Bath, Menifee, Morgan and Elliott Counties.

## Kentucky Press Association Will Meet Next Week

Kentucky newspaper editors and publishers will gather in Covington for the annual summer convention of the Kentucky Press Association Thursday, June 20 through Saturday, June 22.

Convention goers will enjoy an old-fashioned riverboat ride on Thursday evening.

Friday morning speakers will include Covington Mayor Bernard Grimm, Capitol Hill News Service director Peter Gruensfeld, National Newspaper Association Counsel William G. Mullen, Kentucky State Police Lt. Ernest H. Bivens, and Hawesville, Kentucky publisher, Don Wimmer.

Annual newspaper production contest winners will be announced at the Friday luncheon and awards will be presented by Kentucky Press Association President W.E. Crutcher.

On Friday night the publishers will attend the Cincinnati Reds-Atlanta Braves baseball game.

The semi-annual business meeting of the association will be held Saturday morning and the convention will end at noon.

## RCHS Graduate Receives Air Force ROTC Scholarship

Kenneth Blair, son of Mr. and Mrs. Robert Blair of Knapp Avenue and a 1974 graduate of Rowan County High School, has been awarded a four-year college scholarship by Air Force ROTC.

His scholarship will provide tuition, laboratory and incidental fees, a full textbook allowance and \$100 per month non-taxable during the school year up to four years.

Kenneth plans to major in Engineering at the University of Louisville. Upon graduation from college, a completion of Air Force ROTC, he will be commissioned a second lieutenant and enter the United States Air Force in a flying category.

Air Force ROTC scholarship selection factors include high school academic excellence, leadership potential as demonstrated by participation in extracurricular and athletic activities, scores on college entrance tests, in addition to qualifying on an Air Force flying medical examination and the Air Force qualifying test.

## Tapestry Works Exhibited At MSU

An exhibition of Belgian tapestries is on display through June 29 in the Claypool Young Gallery at Morehead State University.

Included are three original 16th century examples, three copies of 16th century works and 25 contemporary works produced at the Royal Tapestry Works in Belgium.

The show was arranged through the Belgian Embassy and the Arras Gallery in New York City. It recently completed a world tour.

The gallery is open to the public from 8 a.m. to 4 p.m. Monday through Friday.

## General Telephone Co. Will Have New President July 1

F. L. "Buddy" Langley of Tampa, Fla. has been elected President of General Telephone Company of Kentucky effective July 1, 1974.

The announcement follows a meeting of the company's board of directors held in Lexington last Tuesday.

He succeeds Ois W. Campbell who retires effective the same date after nearly half a century of service with GTE telephone companies and their predecessors, the last 7 1/2 years as President of the Kentucky Company.

Langley comes to Kentucky from General Telephone Company of Florida where he was Vice President-Operations for nearly eight years.

Born in Heaver, Okla. the 49-year-old executive joined a predecessor company of General Telephone Company of the Southwest, headquartered in San Angelo, Texas, in 1948. He held various assignments in that company until 1961 when he was named General Plant Manager of General Telephone Company of Pennsylvania. In 1965 he was named Plant Director for General Telephone Company of Florida and was elected Vice President-Operations of the

Florida Company in September, 1966. Langley and his wife, "Dottie," will reside in Lexington. The Langley's have two grown sons.

Campbell, a native of Mo., began his career in the telephone industry in 1928 with the Promona Valley Telephone & Telegraph Unit, a predecessor of General Telephone Company of California. He advanced through a broad range of positions with that company and subsequently with General of California, becoming Northern Area General Manager of the latter in 1959. He served in that position until January 1, 1967, when he became President of General of Kentucky.

In Lexington, Mr. Campbell is a member of the Lexington Club, Keeneland Association, Lexington Rotary Club, Charter member and the Board of Governors of the Lafayette Club, Director of the Bank of Lexington, and serves on the Boards of Directors of the Lexington Industrial Foundation and the Kentucky Training and Development Foundation.

Campbell and his wife, "Dew," have four grown children, all living in California.

J.M. Lambert and Norma Jean Lambert and Mary Agnes Lambert to William A. Logan and Eldred F. Logan, 1.4 acres more or less on waters of Dry Creek near

### Emergency Power Supply Installed In Governor's Office

By Marva Gay

The power of the Office of the Governor of Kentucky has never been surer.

Some say that of all governors' offices in the nation, the office of the Kentucky governor was already the most powerful. But, just to make sure a Kentucky governor never finds himself powerless and in the dark, Gov. Wendell H. Ford had his office connected to an emergency power source.

Ford ordered that his offices in the Capitol Building in Frankfort be connected to an emergency power generator located in the capitol basement after the April 3 tornado knocked out electricity in his office. Then, Ford carried on emergency operations, answering phones and coordinating rescue procedures, by candlelight.

Candles won't be needed in the governor's office ever again.

The state Bureau of Facilities management in the Executive Department for Finance and Administration recently completed the tie-in of the governor's offices with the 20 kilowatt diesel fueled generator that has been used by the Civil Defense.

If normal power is interrupted, the emergency generator automatically supplies power to the governor's office. The generator can power the governor's office for ten hours before the 250 gallon tank which fuels it must be refilled.

Clearfield, \$20,500

Lyda E. Burgess, Charles H. Burgess, Freeda Leedy and Floyd Leedy, Anise Robinson and Chester Robinson, Gladys Cornwell to Henry Barricks and Gerie Barricks, 85 acres more or less on Seas Branch, \$8,000.

Rosa Thornberry to Curt Hutchinson and Emma Hutchinson, parcel of land at Clearfield on which are located a four-room house with bath and attached garage and a 1970 Champion Mobile Home, \$14,000.

Donald K. Garson and Loretta Garson to Freddy Ginter and Willahenna Ginter, lot No. 2 of Pleasant Valley Subdivision, \$17,500.

Roy Gastineau and Beatrice Gastineau to Billy Joe McKinney and Mary M. McKinney, parcel of land 2 1/2 miles west of Morehead in Sweetwater Subdivision, \$650.

Robert Clark and Clydia J. Clark to Larville J. Johnson Jr., tract of land on U.S. 60 one-half part of H. Caskey farm, \$300.

Carrie Anderson, individually, and as executrix of estate of William T. Anderson, deceased, to Lloyd Anderson, a Claude Anderson, jointly and equally, Bradley tract of 325 acres more or less on Rock Fork, \$1,000.

H.C. Caudill and Ima Jean Caudill to Carl B. Mullen and Lorraine A. Mullen, 35 acres more or less on waters of Three-Lack Branch, \$5,000.

Norma Hogge and E.M. Hogge to David Braucher and Norma Braucher, 0.79 acre on south side of Skaggs Road, \$12,500.

Lakeview Development Company, Inc. to Jackson Builders, Inc., lot No. 56 of Lakeview Heights Subdivision, \$5,500.

Lakeview Development Company, Inc. to Jackson Builders, Inc., lot No. 58 in Lakeview Heights Subdivision, \$5,500.

Lakeview Development Company, Inc. to Arlie Donahue, lot No. 116 of Lakeview Heights Subdivision, \$5,500.

Frank T. Moreland and Nella Moreland to Frank T. Moreland and Nella Moreland, 6.87 acres more or less near Paragon Road, joint survivorship deed, \$1.

Boone Sluss to Alma W. Sluss, one-half acre more or less at Clinton, \$1, family transaction.

Frank Netherly and Deloris Netherly to Herbert Joe Netherly and Georgia Netherly, one-half of land of 77 acre tract, \$500.

Minnie Preston Bays, Kenneth Bays, George Wayne Frayley and Penny Frayley to Vivian Flood Carpenter, house and lot on east side of Bays Avenue, \$14,500.

Brown Cemetery, Inc. to Clinton and Jean Jones, southeast one-fourth of lot No. 4 and east one-half of lot No. 6 of Block D consisting of 4 gravesites, \$500. (100-200)

TAKE BREEDING COURSE... Shown above are those taking part in the Artificial Breeding Course sponsored by the Kentucky Artificial Breeding Association and the Livestock Improvement Association, held at the Morehead State University Farm. Back row, from left, are Fischer Harned (Instructor KABA), John McDonald, Karl Daniel, Jr., Ron Wood, Jerry Fugate, and Phillip Carter (KABA). Left to right, middle row, are Bob Ruzor, James Stevens, Greg Pennington, Lewis Brady and Ron Fairchild. Seated, same order, are Frank Turner, John Hirschbauer, Katie Finch and Keith Grubs.

### Sunflower Valuable Cash Crop In Many Countries

By Neyle Shackelford

With its big dark disk and radiant petals, the sunflower is much more than a cheerful summer blossom.

The leaves provide fodder for livestock; the petals yield a brilliant yellow dye, and the seeds furnish high-grade cooking oil. In fact, the floral emblem of the sun, according to a U.S. Department of Agriculture spokesman, may sometime become a major food crop in many areas of the country.

Already sunflowers represent a valuable cash crop in many parts of the world. In Russia, the golden oil-bearing plants yield almost 10 million acres. Farmers in the rich Red River Valley of Canada's Manitoba province began growing sunflowers also.

A native of North America, the common sunflower, *Helianthus annuus*, has enthusiastically responded to cultivation. A stem up to 14 feet tall may support a bloom more than a foot in diameter and contain more than 2,000 seeds.

This lofty plant awed and intrigued the ancient Incas who actually worshipped it. The seeds were eaten during religious ceremonies and glittering facemasks of the

flower were made of pure gold and worn as breast plates by priestesses.

Carried back to Europe by Spanish explorers, the plants thrived in the Old World. In the 16th century, Old John Gerard grew it in his English garden and wrote that it grew 24 feet tall. He also said that the buds when "oiled and eaten with butter, vinegar and pepper, after the manner of artichokes, were very pleasant meat."

Another 16th century English herbalist described the "Herbe of the Sunne as a strange flower, for it catcheth out the greatest flowers, and the most particulars that hath ever been seen."

Legend followed the plant back to the New World. Tradition says that early pioneers crossing the great plains of Utah blazed a trail with sunflower seeds, so wagon trains headed "westward ho!" the following year had only to follow a path of blossoms.

There are some 60 different species of sunflowers, both wild and domesticated. Many of the wild ones still follow the paths of man. They line the banks of rivers, the sides of crowded highways, and do a wonderful job of decreasing waste lots, railroad yards, junk heaps, and other unsightly areas created by civilization.

But contrary to popular belief, the

Area Extension Agents

**LAWNS**  
Many persons are cutting their lawns too close this year. The Horticulture Department advises that if mowers are set to cut the grass 3/4 to 2 inches tall there will be a lot less trouble with crab grass and lawns will be healthier. Good lawns take a lot of care. Soil should be tested every three to five years.

**FALL SEEDING**  
Aug. 15 through Sept. 15 are considered the best dates for seeding fall pastures. If planning to seed this fall, it is important that a soil test be taken. Now is a good time to do this job so fertilizer and seed can be bought. These may be had to obtain during the rush period.

**NOTE TO FARM EMPLOYERS**  
If you are a farmer who hires labor, you should have a copy of an Internal Revenue Service publication that pertains to taxes, known as IRS Circular A. "Agriculture Employer's Tax Guide." This publication advises agricultural employers of the various forms and tax returns that may be required for agricultural work. It also indicates the dates these materials are to be filed. This circular can be obtained from the Internal Revenue Service.

**PAY CHILDREN FOR FARM WORK**  
Did you know that you can deduct pay to a child for farm work if he is a dependent? Check your tax guide or talk with your lawyer for details.

**NO-TILL FIELD DAY SET**  
University of Kentucky College of Agriculture will conduct a Field Day on No-till farming July 17. Put this date down and plan to be there.  
In addition to other things seen, will be a newly developed pasture renovator, which seeds legumes into grass pastures without tillage. This machine applies a herbicide which controls the grass while the legumes are becoming established.  
Information on varieties, insect control, planting dates, water use, liming and many other topics related to no-till crop production.

sunflower doesn't always face the sun. It does not, as Calderon, the early Spanish dramatist, wrote, "gaze ever true and tender on the sun's revolving splendor." The blossom heads instead often turn in a direction determined by prevalent winds. At least, this is true in the writer's garden and has been the circumstance for several years. Early herbalists were surprised, too, to discover a variety that bore several blooms at once, each facing a different direction.

# Ann Landers

Copyright - Field Enterprises, Inc.

Dear Ann Landers: I am wondering just how far the publishers will let you go before they decide to throw your column out of the newspapers. I'm sick and tired of trying to beat my teenagers to the front porch to see if your column is fit for them to read.

I refer specifically to some of the trash you have printed on two subjects: homosexual and venereal disease.

First, let me tell you we get the morning paper. When you described the symptoms of VD, it ruined my breakfast. I don't consider such material appropriate fare for the breakfast table.

Furthermore, you put ideas into the heads of these kids. Some of the things you print would not have entered their minds for several years if you hadn't brought them up. My 11-year-old asked me yesterday, "What

is a homosexual?" How on earth can you explain THAT to a mere child?

You have made life difficult for me and I resent it. Sex education belongs in the home and not in the newspaper. I believe in giving children information when they are ready for it, not before. — No Fan Of Yours

Dear No Fan: Children of all ages deserve honest answers to any and all questions. An 11-year-old who asks: "What is a homosexual?" should be told it is a person who prefers a member of his (or her) own sex to those of the opposite sex. No more details are necessary.

Are you aware that in spite of the fact that we now have a cure for VD, there are millions of untreated people in this country who are infecting others every day? Eleven is not too young for children to know about these crippling diseases. From the sound of your letter, your kids need to read my column because I don't think you are emotionally mature or well enough informed to give them straight answers.

The next letter might be of interest to you: Dear Ann Landers: I believe the most valuable service you have performed in all the years you've been writing is the information you have given our youth on the symptoms and hazards of VD.

I am the principal of a school in North Carolina. Your column has appeared in our paper for 17 years, and your column was the first in which they ever printed anything about VD.

I remember the stir it caused at a PTA meeting back in 1956. People actually chose up sides. The enlightened parents in our school applauded you. They said they discussed your column with their children and it helped put things in the proper perspective. The unenlightened parents thought it was outrageous that such topics as sex and VD should appear in a family newspaper.

A committee went to see the editor. You win hands down. I say God bless you, and the editor. You've been an enormous influence for good in our community. You have given our children information that has mended their lives — a job many mothers and fathers should have done, but weren't equipped to do.

The kids appreciate you, even if some of their parents don't. So do the teachers, guidance counselors and principals. God bless you, Ann Landers. You reign — A Real Friend

Dear Friend: Thank You.

### APPLICATIONS FOR ACADEMY NOMINATIONS BEING ACCEPTED

It was announced today by Congressman Carl D. Perkins that he is accepting applications for nominations to the Naval, U.S. Military, Air Force and Merchant Marine Academies for the classes entering in June 1975.

Any young man from the 7th Congressional District, between the ages of 17 and 22, who wishes to be considered for appointment to one of the service academies should notify Representative Perkins, Room 2865 Hayburn Office Building, Washington, D.C. 20515.

# Publisher's

Day-by-day job-downs, and editorial observations of the publisher of this newspaper.

We are hearing praise from every coach, the players and fans about the commendable manner in which the annual Kentucky High School basketball tournament was conducted last week at the John 'Sonny' Allen field on the campus of Morehead State University.

The rest rooms, concessions, playing field, dugouts, stadium and everything else were far superior to what the University of Kentucky offered in Lexington last year.

The Board of the Kentucky High School Athletic Association will decide where next year's championship eliminations will be played... and, we offer today an educated prediction that Morehead be the site in 1975. It's the best place in Kentucky to conduct the tournament.

The Ashland Daily Independent had the following editorial observations: "The state high school baseball tournament was conducted at Morehead State University last week, and facilities at John 'Sonny' Allen Field couldn't have been better."

With the addition of the sparkling new seating facilities at the field, MSU received the tournament for the first time this year as it was moved from the University of Kentucky field.

Morehead officials certainly went out of their way to please fans and players at the new tournament site, and the school may retain the tournament for some time as it has one of the top baseball facilities in the state.

Keith Kappes and his press crew did their usual outstanding job of supplying needed information for the visiting media, and the playing field was in superb shape thanks to plenty of hard work put in by a top notch crowd crew under the watchful eye of Morehead baseball coach John 'Sonny' Allen.

"Congratulations to MSU on a job well done."

An adult lifetime friend, Earl R. Bradley (widow USAF) (ret.) who now lives on Route 1, Tignall, Ga., says we're all mixed up in classifying the 17 year locust as a member of the grasshopper family (Col. Bradley writes:

"I just can't resist ribbing an old friend. In the last two issues of your paper you have said that the cicada belongs to the same family as the grasshopper or locust. (Taint so) They don't even belong to the same order. The cicada, which we erroneously call the 17 year locust, belongs to the order Hemiptera family cicadidae while the grasshopper, including the true locust, belongs to the order orthoptera, family locustidae. Actually, the cicada and the grasshopper are distant relatives at the class level, i.e., they both belong to the class

### Alibi/Que, N.M.

It was a close race between the finalists, according to our educated information, but Mrs. Doran, hit home runs when it came to three of the primary criteria — lifelong work for the welfare of society as a whole; improvement in the overall employment security programs; and outstanding service in rehabilitation.

Our prediction may come as a surprise to the President and the First Lady of Morehead State University when they read this but, then outside of the Kentucky Derby the author of this column is the most accurate predictor who ever made predictions.

Larry Stone, editor of the Central City Times Argus reminisces "Ask any GI and he will tell you that powdered eggs and powdered milk were the two worst things ever concocted by the U.S. Army. They weren't even fit to feed PW's."

Discussing business with a friend last week we drove over a considerable part of rural Rowan County. We concluded there are no more gardens than last year, but those who have planted gardens have doubled the size. This newspaper is an editorial proponent of everybody planting gardens to beat down the outrageous price of food.

Are you one of those people who never knows how much to tip, withers under the glare of waitresses or perfumery leaves 15 per cent?

If so, take a tip from John Schein, a traveling salesman from Oshkosh who has taken it upon himself to straighten out the world's convoluted tipping systems. "All we're trying to do is restore tipping to its original concept," said Schein, the founder, two years ago of Tippers International, which he says now has a membership of 2,500.

"We want to give tips for good, prompt service, not because we are embarrassed or feel guilty."

Schein recommends sticking to the usual 15 per cent for good service, with up to 20 per cent for exceptional service and down to nothing for rotten service.

"Things are out of hand when you're expected to tip 20 to 25 per cent for average or substandard service," said Schein, a nuts and bolts salesman.

He says a kind word often achieves the same result as money.

"Find out the name of your waitress; talk to the waitress; compliment the chef and bartender. You can actually leave smaller tips and get better service," he said. Schein says the experienced tipper learns a few tricks of the "art," such as flipping silver dollars to the doorman and porter when checking into a hotel for a few days — "I never have any trouble getting a cab or help with my bags."

Schein's list of standard tips includes: Fifteen per cent for waitresses, bartenders, cabbies and room service; 10 to 25 cents for restroom attendants; 20 per cent for beauticians; 50 cents for grocery boys; \$1 for wine stewards; 25 cents for porters; \$1

cents per bag for bellboys and skyvaeps and 75 cents for errands by hotel personnel.

A foreboding of things to come in area communities — The Council at Mayville this week voted to raise the price of city RH water 20 percent effective June 30, and another eight percent on Jan. 1. Mayville needs \$346,000 for expansion of its sewage treatment facility.

Effective June 21 you will not automatically lose your driver's license for six months if convicted of drunken driving. A new law provides that the court can fine you \$100 to \$500 on the first conviction for drunken driving, but the judge can permit you to keep your license by attending a 10 hour driver education course conducted by the Department of Motor Transportation. You will be charged \$25 for the course to make it financially self sustaining.

We are inclined to editorially approve the law change. In the past most drunken driving charges have been amended to reckless driving when the defendant showed he needed his car to drive to work or otherwise earn a living.

Prediction: Under the new law the conviction rate for drunken driving will double.

The democratic nominees for Congress in the 1st and 4th districts, brothers Carroll Hubbard and Kyle Hubbard, are sons of a Baptist minister. U.S. Senator Walter (Dee) Huddleston is the son of a Methodist minister.

Cave Run reservoir is filled to seasonal pool. But we can't tell you the official opening date. Daniel Boone National Forest will officially be in charge of all recreation, marinas etc.

J. Earl Bell, who has been editor of The Union County Advocate at Morganfield for more years than he likes to admit told this story on himself in his interesting column:

A young lady calling at The Advocate office, mentioned a sweet young blonde who was getting married soon. Bell wickered "what a shame I'm not younger to romance a pretty girl like that!"

Taking a closer look at his grey hairs, the young lady observed:

"Mr. Bell, you remind me of a dog chasing a Greyhound bus — you wouldn't know what to do with it after you caught it."

A new phenomenon bottom snapping is a manufacturing process? Wall Street Jargon? Or just possibly an overly affectionate playful gesture? No, it is none of the above.

According to Rand McNally's new Outdoor Recreation Guide, bottom snapping is a combination hobby and sport. A bottom snapper is an underwater diver who devotes much of his time on the bottom to taking photos — of everything from coral formations to shipwrecks.

The guide lists practical information on the best locations and facilities for a number of other off-beat, leisure-time hobbies and sports, as well. They include: spelunking (cave exploring); rockclimbing (grabbing out-samples of gemstones and minerals) and historical hiking (following trails of those, like Daniel Boone, who played important roles in American history).

The Supreme Court says it will decide next term whether high school students have the same rights to free speech as adults. The case involves six Indianapolis school regulations declared unconstitutional by U.S. District Judge William E. Stecker, a decision upheld by the 7th U.S. Court of Appeals.

Stecker said school authorities could not ban distribution of a newspaper, the Cornob Curtain, merely because it used profanity and was critical of school administrators.

He cited a 1969 Supreme Court decision allowing students in Des Moines to wear armbands protesting the Vietnam War, and said Indianapolis authorities had to prove the newspaper was a "clear and present danger" to school discipline.

An African proverb states that the beast's whereabouts today and tomorrow are discerned by where he was yesterday. A look at the yesterdays of the human beast causes us to remember when, writes Sandra Haggerty of the Los Angeles Times.

A spoon was used for eating grits rather than for mixing a "high."

People blindly accepted media (advertisement) recommendations and gave cartons of cigarettes to loved ones for every special gift day.

The black plague of San Francisco was a scourge by flea-infested rats rather than black schoolchildren.

Chalkboards were called blackboards and had no racist overtones.

Superfly referred to a winged insect of the order Diptera that was resistant to available pesticides.

Giving your heart to someone was a spiritual rather than surgical procedure.

Equal opportunity meant everyone's taxes were due on April 15.

Being from the suburbs was more chic than being from the ghetto.

Dope referred to a dumb person.

Soul food was the spiritual inspiration dispensed on Sunday morning by the Rev. Cleo Newsome.

Male voices were the only ones to speak of things significant.

No one wanted the black gum ball in the vending machine.

Revelations were received by a chosen few rather than an entire flock "speaking in tongues."

GIN was the poor man's cheap drink rather than an ingredient of Middle America's martini.

Black was beautiful rather than financially expedient.

A rich uncle was a moneyed relative rather than a fraudulent government (Uncle Sam).

Backlash referred to an injury of the dorsal region rather than reaction to "affirmative action."

Recycling meant biking over the same trail rather than being an ecological activity.

A fox was the object of an equestrian hunt rather than a beautiful woman.

A black-and-white referred to a police car.

There's a whole of a difference in an elective official and one who is appointed.

On Jan. 10, or four days after Ray Martin was sworn in as Magistrate in Rowan County's district 1, Commonwealth Attorney James Clay filed a suit charging his election was not valid because Martin does not live in the 1st magisterial district. The mix-up came because Fiscal Court had changed the magisterial boundary lines.

We predicted then that Circuit Court would

rule in favor of Martin. Circuit Judge Caswell P. Layne this week held that Martin was legally elected and entitled to serve the four year term.

While on Circuit Court — We editorially approve of Judge Layne's order extending the May term until the next (Nov. 18) term starts. This means that the same grand and petit juries can be summoned any time. In other words, court is in continuous session if the Judge so desires.

Prediction: This will be the plan used hereafter, i.e., the November term will be extended until the beginning of the March term; and the March session extended until the May term convenes.

It is noted that other Circuit Judges are doing the same thing as Judge Layne, and in the ultimate analysis Circuit Court is a year-around proposition if the need, or the docket, so warrants.

The experts who examined the Nixon tapes have released their findings which conclude that "somebody did some deliberate tampering to erase certain parts." Methinks there's some crooks at 1600 Pennsylvania Avenue, Washington, D.C.

Women's Lib militants in France are preparing to strike a blow which will chill the heart of every red-blooded Frenchman — a ban on sex.

They have sent out a clarion call to 27 million French women to stage a nationwide strike. If the call is heeded women will not only refuse to work or do household chores during the 24-hour period — they will also refuse to sleep with their husbands or boy friends.

Prostitutes are being urged to turn down clients. Thousands of "belles de nuit" are being asked to shelve their high-heeled shoes and switch off the red lights outside the drags. In which case they ply their trade, in protest against a male dominated society.

But anxious French males are pinning their hopes on the fact that the women's lib movement is split and shrinking in France and with luck the "no work, no sex" plan will fail in a country which is traditionally a bastion of seductive femininity.

Certainly cooperation from the prostitutes seems doubtful. The only time they ever went on strike was in protest against police measures, which they said prevented them from increasing their services to the community.

It will be difficult to measure the effectiveness of the strike, but already uneasy city officials are wondering if the militant feminists will stage their own street demonstrations which has been sensational in the past.

The French women's movement is one of the most aggressive of its type in the world. It earned its members the nickname of "Les Enragées" (The Furious Ones) for commando style attacks, such as a raid on the offices of the National Medical Assn., which was left in a shambles after the association stood against legalized abortion.

When schools open in the fall, several changes will be made in their operating procedures due to bills passed by the 1974 General Assembly. The most widely known education bill involves girls basketball.

Each secondary school that has a boys basketball team must also have a girls team. Any school district which does not comply may be prohibited from participation in varsity competition for one year.

Local boards of education are permitted to adopt a code of student rights and responsibilities following recommendations made by a committee of students, faculty, parents, school district administrative

## Full insulation means full value from your electric heating system

When choosing the electric heating system for your new home, make that other important choice — effective insulation. It assures more efficient heating for maximum comfort with minimum electricity. Full value.

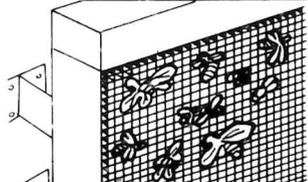

With radiant electric heat, individual thermostats can control each room's temperature for additional efficiency. But it's that proper insulation — to recommended K.U. standards — that really assures the utmost in comfort and economy.

So plan your insulation for electric heat from the start — with a call to KU from you or your builder for our free consultation and cost estimates. No obligation.

It's wise to use electricity...use it wisely!

personnel and a local school board member. The bill states that some of the areas, in which the rights of students may be defined include: freedom of expression, participation in decision-making procedures that directly affect students, procedural due process concerning major disciplinary action, freedom from abuse and threat of abuse by members of school faculties and administrative personnel and access by a student to his or her own records.

Responsibilities of students include: refraining from activity which disrupts the educational process or presents a danger to the health and safety of persons or property or infringes on the rights of others.

In civil or criminal court proceedings, communications between students and their school guidance counselors will be considered privileged information unless the student gives his permission for the information to be disclosed. If the student is under 18, both his consent and that of his parent or guardian is required.

Three school districts will be chosen by the State Board of Education to begin experimental year-round school programs this fall. Later the three programs will be evaluated carefully by the state Superintendent of Public Instruction who will recommend to the governor and the Legislative Research Commission whether they should be continued, expanded or ended.

Teachers who achieve tenure in one school district but become employed in another district can now retain their tenure, but the school board may require a one-year probationary period before granting tenure.

An executive is someone who is always annoying the staff by asking them to do something.

An iron worker calmly walked the beams high up above the street amid the nerve-racking noise of pneumatic hammers, while a compressor below shook the whole structure. When he came down a man who had been watching him said, "I was amazed at your calmness up there. How do you happen to be working on a job like this?"

"Well," replied the worker, "I used to drive a school bus, but my nerves gave out."

Not many toasts on long life have the wisdom of this. May you live as long as you want to, and may you want to as long as you live.

A bewildered man entered a ladies shop and told the salesgirl, "I want a corsage for my wife."

"What best?" the girl asked.

"Nothing," replied the man, "it just wore out."

One trouble with the speed of light, it gets there too early in the morning.

If you've ever wanted a definition of

## Kentucky Establishing Educational Districts

By Jennifer Kay Robinson  
State Superintendent of Public Instruction Dr. Layman V. Ginger says the Kentucky Department of Education hopes to have regional offices open soon in each of the state's 15 Educational Development Districts (EDDs).

Speaking to the Association of Regional Education Agencies (AREA), Ginger explained Kentucky's method of regionalizing education services to AREA representatives from 11 states.

"We think of this as a service delivery system, not an administrative system. Instead of having a program director located in Frankfort, we have a coordinator, a person who serves as a liaison between the regional staff and my office. We are not trying to dictate to the regional groups, we are helping them provide services for students and teachers in their regions."

"In general, the concept has been very well accepted," Ginger said. "It has been in operation for only one year and I am inclined to brag about its accomplishments."

"Local superintendents are pleased with the regional concept."

Ginger said that through the regional office, superintendents are able to use cooperative purchasing for everything from duplicator paper to school bus tires.

"This can result in substantial savings, in some cases it has been enough to pay for the cost of operating the entire regional office," Ginger said.

School districts also can pool their money to buy special services for their students - reading specialists, math specialists, psychologists. Through the regional offices some of the districts are working together on the problem of juvenile delinquency and crime prevention.

"One reason for the program's success is its dependence on local ideas," Ginger said. "The local superintendents help select the regional director and local people decide which programs are needed by that region. Northern Kentucky has different problems than Floyd County, so it has different programs."

"In the years ahead, if one region has a good idea, we will package the idea here in Frankfort and deliver the information to all of the other regions. Some of the regions have been successful in developing the regional concept than others. All of them have moved faster than I thought they would," Ginger said.

### 3 Moreheadians Featured In Book

Three Moreheadians, Wilma B. Howard, William H. Layne and Virginia K. Wheeler, are featured in a new book, "Life in the Bluegrass."

The book is designed to reflect on the current history of the Bluegrass through the life sketches of more than 650 people from the area. "Square" J. Winston Coleman Jr., a noted Kentucky historian, served as supervising editor for the book. Mrs. John Wilson Townsend, widow of the late John Wilson Townsend, a noted Kentucky author, and Ann Lerner of Lexington a free-lance writer and editor, wrote the individual stories appearing in the publication.

### Grist & Grits

By Olin Miller

The Catholics and the Protestants in and around Belfast, Ireland, are kissing so much fun hating each other that if Kissinger were to go there and try to arrange a cease-shooting and bombing, both sides would probably take pot shots at him.

People who use credit cards have a much more difficult problem of trying to figure out where their money goes.

Joke made up to take out. When he was asked the fatal question at the wedding ceremony, the frightened (of course) bridegroom asked the preacher, "Will-I-I you pl-I-I-lease re-re-repeat the-quest-tion?"

Some young people complain that our Government is a gerontocracy. They have a point, all right, but the consensus would likely be that a juvenocracy would not be an improvement.

Wherever the world may be heading, you may be absolutely certain of one thing: It isn't heading for Utopia.

After being sentenced, Jeb Stewart Magruder said he went astray because, "I lost my ethical compass." In this respect, a deplorably large number of people, particularly politicians, have become disoriented.

Certainly there is another world, an evident, wonderful and enchanting one, inhabited by beings who are seemingly intelligent, but so mysterious and unfathomable that adults can't satisfactorily communicate with them.

A person isn't educated unless he has learned how little he knows.

Anyone knows that a cat can run almost as fast in reverse as in high gear who has seen a cat trying to get his head out of a salmon can it's caught in by backing up.

Styles in women's wearing apparel has been changing ever since Eve wore a fig leaf.

It's a serious reflection on human nature that when a person says, "After all, I'm human," he's invariably apologizing instead of boasting.

### Muffler Problems?

# Coal Hauling Operation Results In Road Damage

By Paul Howard

During early May Captain Russell Murphy and several officers of the state Division of Highway Enforcement (Bureau of Vehicle Regulation) were in Eastern Kentucky doing a follow-up check on some coal hauling operations which had caused severe road damage and, subsequently, numerous complaints from area residents.

The following describes what these officers called a "typical" day.

The first truck stopped on the rainy morning of the second day out was an empty one met returning from the coal tipple to the mine, presumably to pick up another load. The mine entrance and the railroad tracks where the coal was being loaded were about 100 yards apart on opposite sides of the road.

their vehicle and began driving down the road.

Before the officers had gotten as far as the coal tipple one of the trucks that had been sitting at the mine's exit (couldn't have been inspected because he wasn't on the road) pulled onto the road and fell in behind Murphy and Ray.

**Use Portable Scales**

The officers stopped their car and got out the portable scales. The truck operator was issued a citation for being 30,000 pounds overweight.

The mine foreman came out on the road again, accompanied by several other mine employees, asking, "Aren't you fellows going to let us haul any coal today?"

Captain Murphy told him as long as they kept coming out it was his job to inspect and weigh the trucks.

**Licence Citation Issued**

During the process of inspecting the driver's necessary hauling authority papers and giving the truck a once over, Inspector Amon Ray noticed the truck was not licensed and so wrote out a citation and advised the driver not to bring the truck back out on the road until it was licensed.

In the meantime, the mine's foreman had walked the short distance from the mine to the road and was complaining to Captain Murphy that the truck being cited was not normally used on the highway. Because of the rain all the regular drivers weren't there and the vehicle operator being cited was a victim of circumstances.

Two trucks heavily loaded with coal sat at the mine's exit waiting for the Highway Enforcement officers to leave so they could drive their trucks the 100 yards to the coal tipple.

After issuing the citation and telling the driver when to appear in county court, Captain Murphy and Inspector Ray got into

In actuality, no fine at all had ever been paid. This particular county judge's way of dealing with overweight was not unlike the measures taken by other county judges in the coal producing counties of Eastern Kentucky.

Captain Murphy and Inspector Ray, along with two other officers in another vehicle, spent the entire morning on various coal-hauling roads in this particular county. Not as much hauling was taking place as usual because of heavy rains. Many of the trucks couldn't have gotten to the strip mine sites which are often high on a hillside.

In all, 11 citations were written in the county on this morning, 10 for overweight and one for no license. All of the trucks cited were hauling between 65,000 and 80,000 pounds on roads designed for 30,000 and 44,000 pound capacity weight. The roads bore the mark of the excess. Some were barely passable, as the holes in the blacktop filled with rain and tumbled into mud.

**A Visit With The Judge**

Before leaving the county at noon, Inspector Ray stopped at the courthouse to see the county judge with regard to disposition of the 29 citations which had been written in the county during the previous week.

After Ray looked through the first few citations in the file the judge told him that he wouldn't need to go through them all.

The judge said that, as has been his practice, he had imposed a \$25 fine for each of the citations and then suspended the fine.

No comprehensive figures are available on the disposition of citations so far this year. Bureau of Vehicle Regulation records show, however, that of the 1,400 overweight citations issued in the Eastern Kentucky coal counties in 1973, only 12 resulted in convictions by the county courts.

## Savers, Investors COMPARE

**FDIC**

WE'RE NOT ONLY MEETING COMPETITION-OUR NEW PROGRAMS ARE BEATING ALL COMPETITION.

Compare All Our Savings & Investment Plans, Along With All Our Fringe Benefits, To Those Of Any Other Bank In The Area... NO ONE ELSE OFFERS YOU AS MUCH (EFFECTIVE APRIL 1st)

If You're Truly Interested In Getting The Most For Your Money, Read On, Compare Citizen-Deposit To Any Other Financial Institution and You Be The Judge!

(Federal Law Requires Partial Loan Of Interest For Early Withdrawal)

Savings Plans	Annual Rate	Time Period	Minimum Opening Deposit
1 Reg. Savings (Passbook)	5%	None	None
2 Preferred 90 Day Certificate - One Bank Passbook	5 1/2%	90 Days To One Year	\$100
3 Preferred One Year Certificate	6%	1 To 2 1/2 Years	\$500
4 Preferred 2 1/2 Year Certificate	6 1/2%	2 1/2 To 4 Years	\$500
5 Preferred 4 1/2 Year Certificate	7 1/4%	4 To 5 Years	\$1,000

You Have Your Choice Of How You Want To Collect Your Interest: Monthly, Quarterly Or At Maturity.

- Your Citizen Deposit Bank Savings Account allows you to deposit or withdraw as much as you want, whenever you want, and your money is insured by the Federal Deposit Insurance Corporation.
- Remove or withdraw every 90 days with our flexible 90 Day Certificate. Compare our low minimum deposit of just \$100 to banks that are asking \$500 or \$1,000. Interest Rate Guaranteed.
- Earn high interest on this Preferred Certificate for as short a time as one year. Compare our low minimum deposit of \$500 with the much higher minimum required by other banks. Enjoy guaranteed interest for the life of your certificate and FDIC protection.
- Earn even higher interest for as short a time as 2 1/2 years. Compare the low minimum deposit of \$500 with the much higher minimum required by other banks. Enjoy guaranteed interest for the life of your certificate and FDIC protection.
- Earn the highest interest the law allows us to pay. Unlike most institutions simply offering a 4 1/2 year Certificate, Citizen's Deposit Bank allows you to collect this high rate for up to 5 years. Where can you match this? Rate guaranteed for the life of your certificate... protected by FDIC insurance.

Citizen's Deposit Bank has a savings plan for every saver. Some savers may benefit from entering several plans in order to have some money easily available and some money earning the highest interest for them. Come in and discuss this with us... there's no charge for this investment counseling.

Continued? There's no better place to save than Citizen's Deposit Bank. No one gives you as much. Make us prove it to you.

**"Weighing In"**

Inspector Amon S. Ray checks the scale reading on a coal truck prior to issuing an overweight citation. The citation was issued during a recent series of Eastern Kentucky follow-up checks conducted by officers of the state Bureau of Vehicle Regulation's Division of Highway Enforcement. Almost every truck the inspectors weighed was found to be carrying loads between 65,000 and 75,000 pounds on roads designed for weight limits of 30,000 and 44,000 pounds.

At right and below are roads typical of those being used extensively for coal hauling operations in Eastern Kentucky.

### State Recommends School Merging In Montgomery County

Consideration of a merger between Montgomery County and Mt. Sterling Independent school districts has been recommended by the Kentucky Department of Education.

The recommendation was made to the Montgomery County Board at a special meeting last month. It was brought out that, unless ordered by the state, the Mt. Sterling School district must take first step toward a merger of the two systems by asking to be taken in by the Montgomery County School District.

The report recommended that "active consideration" should be given by the board to the merger of the schools through joint discussion and study by the boards of the two systems.

## Internship Program Offers Experience In Government

By Charles R. Sizemore  
Some Kentucky college students are gaining invaluable first-hand experience in state government through the unique Administrative Internship Program. William Strunk, coordinator for academic programs in the state Department of Personnel, stated that the aim of the program is two-fold. "First, it provides a unique educational experience for Kentucky college students in that it gives a knowledge of state government that they can't receive on the college campus. Secondly, we try to attract, through the program, bright, concerned college students into careers in state government," he said. Eligibility requirements state that a student must be at least a junior, maintain a 2.6 grade point average and be recommended by the coordinator of the program at the applicant's college or university. After meeting these standards the student must undergo an extensive interview in Frankfort, after which the final 15 interns are selected. Students are placed in responsible state

government positions comparable to those held by career employees. In addition, interns attend night seminars pertaining to Kentucky's state government administration. The program covers two time periods - Jan. 15-Aug. 15 and June 1-Dec. 15. Students are paid \$224 a month and receive 15 hours of college credit for their participation in the program.

**JURY AWARDS MINERAL RIGHTS DAMAGES**  
A U.S. District Court civil jury has awarded \$25,000 for the mineral rights taken on a 367.11-acre tract in Carter County by the Grayson Reservoir project. The award was made at Catterburg federal court by Zona Cornett, Oscar Clinton Cornett, Gladys Sue McInyre, Daniel Bebe Cornett and Madge Cornett of Lawrentsburg for mineral rights, exclusive of gas and oil, on property located on Deer Creek and Coon Eye Branch. The land reputedly held reserves of low sulfur coal, according to testimony given in court.

**Letters To The Queen**  
Here's how letters to the Queen were signed back in 1848: "I remain, With the profoundest veneration, Madam, Your Majesty's most faithful subject, and dutiful servant." And that was written with a quill pen!  
**South For The Winter?**  
Have you heard about those two birds who decided they would economize this year? Instead of flying south for the winter, they took the bus.  
**Gardening Problem?**  
How do you grow trees with big trunks? Answer: You use elephant fertilizer.  
**Indian Realist?**  
Have you heard about Indian Roulette? It's sort of like Russian Roulette only you sit beside a snake charmer with six cobras - and one of them is deaf.

## U Of L In-State Tuition Lowered

By Jan Faulkner  
The University of Louisville has been granted \$2,947,050 in state funds to increase the educational opportunities in the Louisville area. The funds were allocated to reduce in-state tuition by \$100 per year for the next four years. Dr. A. D. Albright, executive director of the Council on Public Higher Education, explained that the funds will help prospective students in that area by "bringing the tuition into the ballpark with other state schools." The Council on Public Higher Education recommended the \$400 reduction in tuition, he said. The money was allocated from surplus state revenue by Gov. Wendell H. Ford, who said the surplus, amounting to \$40.4 million, resulted when state revenue exceeded last January's estimates. U of L also will receive \$79,000 to replace lost funds that were originally appropriated by Jefferson County and Louisville. The actual loss to the university was \$1,879,000. The \$79,000 reflects the additional funds to offset the total loss. Dr. Albright said these funds would not be used for operating costs of the university, but to keep the school from suffering the loss of the money allocated there. The legislature gave the university priority on any surplus funds under the recommendation of the Council on Public Higher Education.

**JOHN WRITES OF GOD'S LOVE**  
  
I have written unto you, fathers, because ye have known him that is from the beginning I have written unto you, young men, because ye are strong, and the word of God abideth in you, and ye have overcome the wicked one.  
Love not the world, neither the things that are in the world: for any man love the world, the love of the father is not in him.  
For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the father, but of the world.  
And the world passeth away, and the lust thereof, but he that doeth the will of God abideth for ever.  
1 John 2:14-17
