Vice President, Seven New Deans Are Named

The Morehead State College Board of Regents has promoted Dean Warren C. Lappin to the position of Vice President for Academic Affairs and appointed seven new academic deans.

The Board had approved a re-organized administrative structure at its last meeting on January 26 establishing the positions of four Vice Presidents, three new academic deans and the deanships of five Schools. Yesterday's action implemented the Board's earlier decision to continue the administrative updating which was begun in 1960.

Named to the three new academic deanships were: Dr. Paul Ford Davis, Dean of Undergraduate Programs; Dr. Jarvis Harley Hill, Dean of Graduate Programs and Dr. Marvin Cole, Dean of Institutional Programs.

Named to head the new Schools were: Dr. C. Nelson Grote, Dean of the School of Applied Sciences and Technology; Dr. J.E. Duncan, Dean of the School of Humanities; Dr. William C. Simpson, Dean of the School of Sciences and Mathematics and Dr. Roscoe Playforth, Dean of the School of Social Sciences. A Dean of the School of Education will be named at a later date.

Dr. Adron Deane, President of the northeastern Kentucky college which will achieve university status on June 16 by act of the 1966 session of the

General Assembly, called the new appointments "an effort to greatly strengthen the organization of the academic program."

"We feel that these men can lead us into an academic program with greater depth and quality in the next decade," said Dr. Doran. "Great effort went into the selection of these individuals and they will provide a sound nucleus for the future development of academic affairs at Morehead."

Dr. Doran pointed out that the three remaining vice presidents -- Vice President for University Relations, Vice President for Student Affairs and Vice President for Business Affairs -- will be named at a later date.

Dr. Lappin, who has been at Morehead since 1920 when he taught mathematics and history at the Morehead Normal School, has been Dean of the College since 1940. Prior to 1940, he had served as Director of the Breckinridge Training School for 14 years.

The new academic vice president earned the AB degree at Transylvania, the MA degree at the University of Chicago and the Ed.D. degree from Indiana University.

Dr. Davis, a native of Bowling Green, Ky., comes to Morehead from Iowa where he presently is Dean of the College, University of Dubuque. He was a teacher, coach and principal

in Hardin County from 1953 to 1960, was president of the Fourth District Education Association of the Kentucky Education in 1957 and served in the Kentucky General Assembly as a member of the House of Representatives from 1958 to 1960.

He holds the AB and MA degrees from the University of Kentucky and the Ed.D. degree from Indiana University.

Dr. Hill has had eleven years of teaching experience on the secondary and college levels in the United States and India, and was Academic Dean of Forman Christian College in West Pakistan from 1962 to 1964. He holds the BS degree from the University of Tennessee, the MA degree from George Peabody College and will receive the Ed.D. degree from Indiana University in June and has served as an assistant in the office of the Director of Graduate Studies in the School of Education at Indiana University.

Dr. Cole has taught on the college level, served as Director of the Student Union at Western Carolina College and his most recent experience has been as the Chief Administrative Assistant to the Director of the Institute of Education and Research, University of Punjab, Lahore, West Pakistan, from 1963 to 1965. A native of North Carolina, he holds

the BS and MA degrees from Western Carolina College and in June will receive the Ed.D. degree from Indiana University where he has served as an assistant in the office of the Director of Graduate Studies in the School of Education.

The new positions will become effective July 1.

Dr. Grote, who has been at Morehead since 1960, was formerly Chairman of the Division of Applied Arts. He holds degrees from Eastern Illinois University, the University of Missouri and earned the Ed.D. degree from the University of Illinois.

Dr. Duncan has been at Morehead since 1956 and holds the AB and MA degrees from Northwestern University and the PhD degree from George Peabody College. He formerly was Chairman of the Division of Fine Arts.

Dr. Simpson, who came to Morehead in 1965, was chairman of the Division of Science and Mathematics. He holds degrees from the University of Kentucky, Mercer, and the PhD degree from the University of Virginia.

Dr. Playforth, who formerly was Chairman of the Division of Social Studies, has been at Morehead since 1957. He holds the AB degree from Eastern Kentucky State College and the MA and Ed.D. degrees from the University of Kentucky.

Cooper, Barnett Participate In Annual Event

Herb Sparrow

John Sherman Cooper, Senator from Kentucky and Robert W. Barnett, Deputy Assistant Secretary of State for Far Eastern Affairs, were featured as speakers at the annual Foreign Relations Day held on the Morehead State University campus April 7.

Speaking at a noon luncheon, Barnett said that the United States is involved in a war in South Vietnam that is social and economic as well as physical. "The problem in Southeast Asia is one that was going on before the shooting started and will be going on after the shooting stops."

Barnett stressed that the war in South Vietnam will not only be decided by "men running around the countryside armed with guns, but also in the minds of the people."

But Barnett also reaffirmed our commitment in Vietnam and said, "we will not be thrown out militarily."

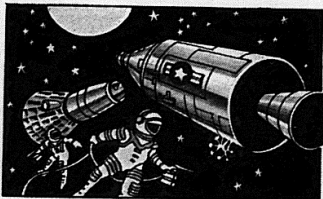

At the morning convocation, Senator Cooper said the United States should try to end the war in Vietnam by negotiation and the restraint in the use of our military forces.

"Confining the area of our military operations will, I believe encourage an atmosphere of negotiations and most important, lessen the possibility of the Vietnam war being extended and leading to a larger war, and possibly World War III," Senator Cooper said.

Cooper added though "if settlement cannot be achieved, I have confidence that our forces can manage the situation in South Vietnam. It could result in a Korean-type war which would not be the best solution, but it would not be the worst."

In the afternoon, a panel discussion was held in Burton Auditorium. The topic of the discussion was "Aspects of the World in Turmoil: The Struggle in Southeast Asia," and the panel was composed of Senator Cooper, Dr. Richard L. Barnett, Director of the Patterson School of Diplomacy and International Commerce, at the University of Kentucky and Colonel Everett Smith, Professor of Military Science, Eastern State University.

Here are 7 knotty problems facing the Air Force: can you help us solve one?

6. Space propulsion. As our space flights cover greater and greater distances, propulsion—more than anything else—will become the limiting factor. New fuels and new propulsion techniques must be found, if we are to keep on exploring the mysteries of space. And it may well be an Air Force scientist on his first assignment who makes the big breakthrough!

7. Pilot performance. Important tests must still be made to determine how the pilots of manned (personnel) spacecraft will react to long periods away from the earth. Of course not every new Air Force officer be-

comes involved in research and development right away. But where the most exciting advances are taking place, young Air Force scientists, administrators, pilots, and engineers are on the scene.

Want to find out how you fit into the Air Force picture? Contact your nearest Air Force representative, or mail the coupon today.

UNITED STATES AIR FORCE
Box A, Dept. SCF-6A
Randolph AFB, Texas 78151

Name _____
College _____
Address _____
City _____ State _____ ZIP Code _____

BE PART OF IT—AIR FORCE'S AIRSPACE TEAM

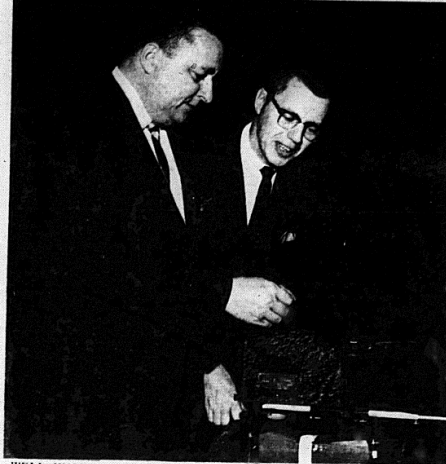

1. Repairs in space. If something goes wrong with a vehicle in orbit, how can it be fixed? Answers must be found, if large-scale space operations are to become a reality. For this and other assignments Air Force scientists and engineers will be called on to answer in the next few years, we need the best brains available.

2. Lunar landing. The exact composition of the lunar surface, as well as structural and propulsion characteristics of the space vehicle, enter into this problem. Important study remains to be done—and, as an Air Force officer, you could be the one to do it!

3. Life-support biology. The filling of metabolic needs over very extended periods of time in space is one of the most fascinating subjects that Air Force scientists are investigating. The results may also be crucial to space operations. Where but in the Air Force could S.C.B.'s get the chance to work on such fascinating projects right at the start of their careers?

4. Space orientation. The orbital problems of a spacecraft, including its ability to maneuver over selected points on the earth, are of vital importance to the military utilization of space. There are plenty of assignments for young Air Force physicists in this area.

5. Syncretic plane changing. The ability of a spacecraft to change altitude can also be crucial to space operations. Where but in the Air Force could S.C.B.'s get the chance to work on such fascinating projects right at the start of their careers?

WELL-KNOWN SCIENTIST SPEAKS TO MSU STUDENTS . . . James H. Farrow, one of Werner von Braun's top aides, discussed "Plans for Outer Space Exploration," in Button Auditorium, April 21, at 8 p.m. The event was sponsored by the Northeastern Kentucky Celebrity Series. Pictured with Farrow above is Dr. J. E. Duncan, chairman of the division of Fine Arts.

Past U.S. Man-Space Flight Reviewed By Noted Scientist

Herb Sparrow

James H. Farrow, noted scientist and lecturer, spoke at Morehead State University Thursday evening, April 21, in Button Auditorium.

Farrow, one of the top aides to space scientist Werner von Braun, spoke on "Plans for Outer Space Exploration."

In his talk, Farrow reviewed past man-space flight by the United States and told of the future plans for a lunar landing. He showed slides of the Saturn series of rockets that will be used to launch the first moon vehicle and gave an explanation of the rocket.

Farrow, chief of the vibration and acoustics branch of the Propulsion and Vehicle Engineering Laboratory at the George C. Marshall Space Flight Center, Huntsville, Ala., gave credit to colleges and universities for carrying on a great deal of the research in space exploration.

He quoted President Johnson as

saying "space shall be an avenue towards peace," and added that the exploration of space will give man an increased knowledge of the universe and of the earth. He said it might also give man an increased view of his Maker.

Farrow, who was responsible for the dynamic environmental specifications and criteria used in developing the Redstone and Jupiter missiles, has been called by Dr. von Braun "one of the most knowledgeable space scientists we have today."

The lecture was the sixth event in the Northeastern Kentucky Celebrity Series. The final event—an appearance by the Louisville Orchestra—is scheduled for May 15 at 2:30 p.m.

Earlier appearances this year included: the Czech Philharmonic; the Duke Ellington orchestra; Marion Cawood, soprano; Walden String Quartet and György Sandor, pianist.

Private Student Grants

Carl Perkins Advocates New Government-Insured Loans

Danny Hopwood

Recently the Federal Government proposed, in connection with its budget, to reduce National Defense Education Loans and replaced them with private but government-insured loans.

"Because of the concern that I and other members had," said Kentucky Congressman Carl D. Perkins, "that the new program would not be developed in time to adequately meet the needs, especially in our area, the Administration is now proposing to fund NDEA loans to assure that no college student needing assistance will be unable to get it."

Many needy students, however, do not realize that other educational grants and loans are available under the National Defense Education Act.

Beside the NDEA loan, Congress last year authorized a new program of government-insured private loans and "opportunity grants" [Scholarships] for extremely needy students.

Under the educational Opportunity Grant Program, colleges and universities will make grants available to a limited number of undergraduates with exceptional financial need

and who show academic or creative promise.

The grants will range from \$200-400 a year and can be no more than half the total financial assistance given to the student. As an incentive to the student, \$200 may be given to those students who were in the upper-half of their class during the preceding academic year.

The Guaranteed Loans Program is a program of borrowing with the major objective to make loan insurance available to any college student who wants to borrow, regardless of financial status.

This program is primarily for students from upper and middle-income families. The middle-income student has an obligation to repay the loan with 3 percent interest, while the student from an upper-income family repays the loan with 6 percent interest.

Congressman Perkins summed up his ideas of the NDEA program by saying, "I think that all three of these programs together with the college work-study program are absolutely essential in our area to assure all children an opportunity for a college education."

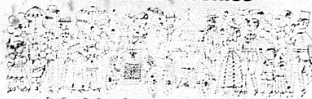

Breckinridge Team Places First

The Breckinridge Debate Team composed of Mary Anderson and John Greenman won the April-Debate-of-the-Month at the University of Kentucky last Wednesday. This activity which is sponsored by the Forum Club has for its supervisor, Dr. J. W. Patterson of the University faculty. This is the third consecutive month that Breckinridge has placed first in this program, having defeated George Rogers Clark High School in February, Madisonville in March and Henry Clay High in Lexington in April. By virtue of winning the three

debates, the Breckinridge team will meet Harrodsburg High in May for the debate of the year. Harrodsburg placed first, also, in three debates in November, December, and January. John Greenman received a rating of superior in the Congress of Human Relations recently at the Southern Speech Association. Greenman was the only student from the 14 southern states to receive this distinction. At this same tournament, Mary Anderson received the only superior in original oratory in the high school division.

Is There Leadership?

Webster's International Unabridged dictionary defines a leader as: "A person who goes before to guide or show the way, or one who precedes or directs into action, opinion or movement." In the past, few officers of the Student Council have met this definition or at least have not exercised these stated qualities in execution of their office duties.

At present, we have one of the best Student Councils this university has seen in the past few years. This Council has devoted itself to the students of the university in seeing that the best representation is afforded every student on the campus.

Under the leadership of Gary Cox, the Council has begun a program of weekend movies at reasonable rates and has brought to the campus more entertainment than in the past. The Council has studied various campus complaints and has done research on these problems to the last measure of possibility.

One area in which they have fallen

informed of the Council, but we of the Trail Blazer have devoted much space to the workings of the Council and from time to time have asked about its progress.

The Judiciary Council is similar to the Supreme Court of the United States in its operation. The Supreme Court has cases and has no trouble in getting the judicial body to the people of the nation to function. Is it so hard for a student body to be informed of the operation of THEIR court of appeals?

We don't think so.

We questioned to one of the justices of the Judiciary Council recently the question of why they have not had a case as yet. His answer was that the students have not requested the Council to act on a case. We then asked him if they did anything to try to get a case and he answered that the Council cannot force anyone before them.

These students are sensible ones, but are they the best? No, we think not.

If fellow students on the Council do not exert themselves in trying to inform the students of the Council before they ever receive a case, how are they going to act after they have one?

We urge that the Judiciary Council make public the progress they have made in the set-up for their first case. We also ask that the Council show the work that they have achieved this year as a functioning body of student government.

This is the main point that the Student Council has stumbled on this year. There are other points that we could bring up that would show they have been lax, but they would not be of major concern at this time.

We would like to make it clear that Student Council president, Gary Cox has worked harder than most of the past presidents and we feel that there is not a replacement suitable for him in the near future.

With the student elections on May 3 and the primary election this Thursday, for the offices of vice-president and historian, we ask all students to make it their business to vote for the candidate they think is best suited for the offices.

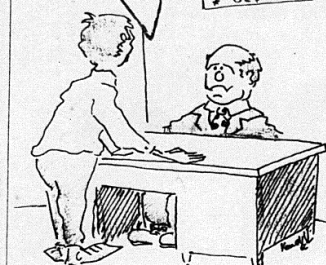

We, of the Trail Blazer, wish to remain neutral in the election, so as to afford the best possible objective position for the future.

It is hoped that all candidates keep this election a clean one. That is, no libelous remarks or inappropriate comments be made during the next few weeks.

A successful Student Council is dependent upon all the students working for the same ideal: "the betterment of Morehead State University."

"I've managed to narrow My choice down to two fields! Thermodynamic Dynamics or Folksinging!"

By Strafer

While thousands of Americans will be sending flowers by wire to honor Mom on her day, few may realize how far back into history the roots of Mother's Day extend.

The Greeks and Romans chose the Ideas [15th] of March to honor universal mother: Mother Earth. Instead of a corsage or boutonniere every member of the family wore a garland of leaves as they danced in the streets.

Many ancient nations worshipped mother-goddesses; in fact, some scholars think this was man's earliest form of religion.

First Mother's Day In U.S.

It wasn't until May 10, 1908, however, that mothers were formally honored anywhere in the U.S. On that day, a Miss Anna Jarvis sponsored a church service in Grafton, W.Va., to honor her late mother and other mothers of the community. After an intensive letter-writing campaign, she saw Mother's Day recognized in every state in the Union by 1911, and in 1914 President Wilson proclaimed it a national holiday.

With Mother's Day just around the corner [May 8, as a matter of fact] it would be an opportune time for us students to pause and thank our "goddesses" at home for all their wonderful help. Personally, I think my mother is tops! She has dedicated every ounce of her energy toward helping her children. She, like mothers the world over, feels much like a famous mother of Roman legend, Cornelia.

One day a boastful lady called on her and displayed a flashy array of jewels -- then asked to see Cornelia's jewels. Cornelia promptly sent for her two young sons and told the

Continued on page 5

Tramp, tramp, tramp are the words to a song and the punishment the lawns of Morehead State University are taking from some of the students.

Some time ago we published an editorial [we know the majority of students don't realize we run editorials, but we do, asking your help in keeping the campus green. This editorial seems to have fallen upon deaf ears for there is still a great caravan of students who persist in walking across the lawns.

Russ McClure, assistant to the president for Fiscal Affairs has spent the spring recess time working on the problem. He had the building and grounds people put up the snowfences and plant the new seed. That hay that is lying around is not for the Agriculture Horse Show of May 8, as some have said, but rather to hold down the grass seed until it has a chance to grow.

It has been estimated that one grass seed weighs 1/50 of a gram and the average weight of Morehead students is well over 120 pounds each. Is this fair to the little grass seed? Let's give it a chance to grow. Please keep off the grass... Timm... ber!

Soon the crashing of large pine and other species of trees will be heard from behind Rader Hall on the campus.

The reason is that an addition to the building will be begun soon and nature must move so that a cold drab structure can take its place.

It was in the Fall of 1962 that Morehead president, Dr. Adron Doran, said that if the students wanted to go to a college that was concrete slabs they would have done so, but rather the students have come to the beautiful campus of Morehead State, "where the Bluegrass meets the mountains."

Gary Cox

Student Council President

flat on their faces, is that of the Judiciary Council.

The Student Council of 1964-65 worked hard to formulate the Council and this year's Council has not worked to the fullest measure so that a case is brought before it, even if the case was but a mere mock trial.

Much can be learned from a mock trial as has been shown with the working of such at other state institutions of higher learning in Kentucky.

Why hasn't a case been brought before the Council? The candidates for president of the Student Council for 1966-67 contend that the problem lies in either of two areas: one is that the students are afraid of the Council, and the other is that they are not informed of the Council.

We agree that students may not be

Studying In Foreign Lands

For many years now American Universities have undertaken extensive overseas operations. A single university will frequently become involved in a large variety of programs to help one or another developing country. Faculty members are on the spot undertaking research, giving advice, and instructing and guiding various types of improvement programs and projects.

More and more universities have been taking their own students overseas, either on special study tours or to their own branch campuses abroad. Stanford, a pioneer in overseas education, now has campuses in Britain, France, Italy, Germany, and Austria. It anticipates that more than half of its undergraduates will be spending six months abroad.

In former times many students found that by leaving home and going away to college they encountered a world

that considerably broadened their outlook and experience. As scientific advances go on shrinking today's globe, today's students must equip themselves to cope with countless matters of global import.

The exposure to another culture, even though it be only partial and comparatively brief, can make an immense difference. It can open up new perspectives. It can provide a fresh vantage point from which to assess one's own experience.

Traveling, meeting other people, living in another country, learning another language offer for panacea. It is still up to the individual student to make the most of his experience. But life in another country, whether spent working for the Peace Corps, studying in a foreign university, or attending an American university abroad will not leave most young people where they started.

Christian Science Monitor

The Editor:

Half truths and innuendo can be expected from the masses or from educated. It came as a surprise to some to hear the same from an "educator." Reference was made at an alumni meeting to a student who was trying to tell them how to run the college." It was also stated that

his academic record was checked and he was found to be on probation--as if it would take much intelligence to make some improvement!

Brooks Dickerson was called to the President's office to account for a critical letter he wrote. His academic

record for the summer of 1965 was 4. point for 9 hours, first semester of this year 3.67 for 18 hours, second semester, mid term, 3.85 for 18 hours.

Brooks did have personal problems and had to quit school and take E's and U's on the subjects he had begun. This is certainly no reflection on his mental capacity. It would be unbecoming for anyone to cast this reflection. For a college official to do it is almost unbelievable.

Andy Rabourn

The Editor:

Morehead is losing Dr. Everett Cunningham--the best in the Political Science Department. Why is it we cannot keep these topnotch professors and recruit others like Dr. Richard Butwell?

Everyone knows that good professors are in short supply, but those competent and well trained in this "field," seem to find Morehead especially distasteful. It is because they appreciate and demand academic freedom, and refuse to submit to oppression and censorship?

It is unfortunate that the zeal of these empire builders cannot be confined to new gymnasiums and dormitories--however inferior and lacking in aesthetic quality. But the number of teachers are being swelled by the same methods and with distressingly similar results.

Some even equate quantity with quality and then wonder why the universities are so receptive to disruption by protests. But what can be expected from those who have no respect for the real function of a college or university? How can you ever achieve you know not what?

George B. Dickerson

Reza Behbenhanian Has Health Study Published In K.A.H.P.E.R. Journal

Dr. Reza Behbenhanian, associate professor of Health Education at Morehead State University has had another article published this semester.

The article entitled, "Teacher-Learner Rapport," dealt with adult learning and appeared in the December issue of the K.A.H.P.E.R. Journal.

The article is the second published by Dr. Behbenhanian within the period of six months. He had also delivered a paper to the national meeting of health educators in Chicago.

Thought For The Issue

Be sure your brain is in gear before putting your mouth into motion.

New Book By Banks

Gabriel C. Banks, Morehead State associate professor emeritus, has had another book published. Entitled ECHOES FROM THE ALTAR, the book contains sermons that Banks, well-known Christian educator and pastor, delivered over the past years.

Other of Banks' books include his autobiography BACK TO THE MOUNTAINS, THE WITCH AND CINDERELLA AND OTHER STORIES and a novel, CLOUDS CONJOIN AT END OF DAY.

The Faculty Art exhibit will close April 30. Better not miss your chance to see it!

W. O. Lappin Dies At 88

William O. Lappin, last Principal of the private and church supported Morehead Normal School, died last Thursday at Clane, Ill., following a long illness.

He was 88 years of age.

Funeral services were conducted Saturday at Geff, Ill., followed by interment at Clane.

He is the father of Dr. Warren C. Lappin, dean of all personnel and a Vice-President of Morehead State University.

Other immediate survivors are his wife, Pauline; another son, Robert Bernal; three grandchildren and three great grandchildren.

Dr. Lappin was Principal of the Morehead Normal School from 1919 through 1922, after which it became a state institution. He remained active throughout his entire adult life, retiring from Johnson Bible College, Kimberlin Heights, Tenn., in 1959 away in 1934.

when illness first struck.

Johnson Bible College had conferred on him the Degree of Doctor of Laws with the inscription: "As an expression of appreciation for your 61 years of service as a Minister of the Gospel and for your 46 years of service as a teacher and administrator . . ."

"Who's Who" recites: "W.O. Lappin was born July 20, 1877, reared and taught to work by a blind, widowed mother. He was educated in the public schools of Illinois, Eureka College, and the University of Chicago. He began preaching on the third Sunday in May, 1898, and began his teaching career in 1913. He taught five years in Atlantic Christian College at Wilson, N.C.; five years at Morehead, Ky.; five years in Milligan College and 31 years in Johnson Bible College, beginning in 1928."

His first wife, Cora, who was at his side while at Morehead, passed away in 1934.

You Are Cordially Invited To Attend Summer Events At

MOREHEAD STATE UNIVERSITY

The summer session at Morehead State is many things. It offers:

- Learning in a pleasant atmosphere
- Instruction by highly qualified faculty members
- Air-conditioned residence halls
- Air-conditioned classroom buildings
- A challenging curriculum
- Splendid recreational facilities
- Nationally recognized faculty, visiting lecturers and clinicians
- A warm, friendly spirit

So why not join your friends at Morehead State for a summer of study on the "Friendliest campus in the South."

SUMMER SCHEDULE OF EVENTS

• Eight-Week Summer Session	June 13-August 7
• Post-Summer Session	August 8-August 24
• Pre-school Workshop	June 6-June 11
• Teacher-aid Workshop	June 13-August 7
• Linguistics Institute I (General Semantics)	June 20-July 8
• Basketball Coaching Clinics	June 30 & July 28
• Linguistics Institute II (Reading through Linguistics)	July 11-July 29
• Community Health Workshop	July 14
• Football Coaching Clinic	July 27
• Hawaiian Field Trip	August 6-August 28
• Folk Dance Institute	August 7-August 13
• Lunch Room Seminar I	August 5-August 24
• Lunch Room Seminar II	August 8-August 24

MOREHEAD PLAYERS CLOSE SEASON . . . Oh, Dad, Poor Dad, Mama's Hung You in the Closet and I'm Feeling So Sad, the final production of the MSU drama department for this school year, will be held May 9, 10, 12, 13 and 14 in the Little Theater at 8 p.m. Members of the cast are shown at a recent rehearsal of the absurdist play.

"Palladians" Approved Fifth Men's Social Club

The Palladians, the fifth men's social club, became a reality on March 24, when it was approved by the Student Affairs Committee headed by Dean Roger Wilson. The Palladians, with Greek letters Delta Gamma Phi, began organizing and planning their club in December, 1965.

The purposes of The Palladians are a sincere part of the organization and its members. These purposes include: to promote a deep sense of brotherhood among the male students of Morehead State University, to further develop and enrich the social life of the students of Morehead State University and to foster and perpetuate in the students of Morehead State University an aspiration for higher moral and spiritual goals.

Sponsors of the organization are Dr. William Keller, instructor of business and head of the business department, and William Hampton, instructor of English at Morehead State University. The Palladians' officers are: President, Wayne Judy; vice president, Ken Early; secretary, Charles Kemper; treasurer, George Fraley; publicity director, Jerry Kincaid; athletic director, Dave Tier; sergeant-at-arms, Tom Waterbury and chaplain, Jim Hudson.

The charter members of The Palladians are Ken Back, Ken Early, Ashland, Steve Tremel, Ashland, Wayne Judy, Warsaw, Tom Waterbury, Ashland; Dave Tier, Middletown, Ohio; Bob Ginter, Maysville; Trotter Brown, Paris; Jerry Fraley, Cincinnati, Ohio; Charles Kemper, Frankfort; Jim Hudson, Lexington; Roger Stricklett, Louisville; Jerry Kincaid, Columbus, Ohio; George Fraley, Middletown, Ohio; Don Sullivan, Pinson Fork and David Duval,

Worthville.

The Palladians were active long before they were accepted by the Student Affairs Committee. In early February, they gave blood as a group to a local family in dire need.

After acceptance by the Student Affairs Committee, The Palladians held their celebration party at the Lions Club Park in Owingsville, Ky. All members and their dates were present.

Capa Tridents Annual Carnival This Thursday

Mary Sharrard

The Capa Carnival, sponsored by Capa Tridents, girls' social club, will be held Thursday, April 28 from 7 to 10 p.m. in Button Gym and the auxiliary gym.

Admission to the carnival will be 15¢. An additional 20¢ will be charged to view the Capa skit.

Booths at the event will be sponsored by various campus organizations. The fun will range from a penny toss to a spook house.

To add to the carnival atmosphere, several organizations will sell food. A highlight of the evening will be a skit, "The American Scene," presented by the sponsors of the carnival. Girls belonging to Capa Tridents will assume identities of humorous and well-known show people.

Profits from individual booths will belong to clubs sponsoring them. Other money from the admission fee, skit, and a stuffed animal raffle will go to the Capas.

Morehead Players Production "Oh Dad, Poor Dad" Ends Year

By Cathy Lynch

OH DAD, POOR DAD, MAMA'S HUNG YOU IN THE CLOSET AND I'M FEELING SO SAD, is the title of the forthcoming production presented by the cast and crew of the Morehead Players on May 9, 10, 12, 13 and 14 in the Little Theater. The impact of the play varies from the surface humorous lines to the deep social implications intermediately woven between the lines.

Just who is this crazy mama? Critics have described her as a comically sinister woman created by the author, portraying his opinions of the present society and his condemnation of the foibles of people today.

Madame Rosepettle [Mama] portrayed by Suzan Ziegler, centralizes the play with the plot revolving around her antics. She travels off to distant Caribbean city dragging with her forty pieces of luggage, two carnivorous plants, a rapacious fish, a stuttering, affectionate son and a dead and stuffed body of the late Mr. Rosepettle.

A junco baby-sitter by the name of Rosalie (Jon Bohannon) focuses her sights on Jonathan (Alan Tongret) and tries to spring him from his mother's

clutches into her own.

Other characters portrayed are Commodore Rosebone, Rick Coten; Rosinante, Peggy Crum; and the bell-boys, Bill Hammock, Mark Schacter, James Gossard, Dennis Williams, Carl Ratliff and John Cantrell.

Writing while he was an undergraduate at Harvard, Arthur Kopit received the Vernon Rice Award for this play which opened off Broadway in 1962 for 454 performances and played on the road for 11 weeks. Aside from viewing an absurdist play, the audience will be seated on both front and back of the stage, viewing the production from all angles. Example, if she helps you with your work by writing or typing letters, she should be paid as a clerk, secretary or typist. If she helps the kids with their lessons, she should get credit as a teacher.

If she rubs your aching back at night, make sure you credit her with a few hours as a masseuse. And if she listens to your endless complaints about the boss, relatives, and the kids, don't forget to figure her pay as a practical therapist.

Take this exercise seriously, and you'll have a more fun than watching "Batman" on TV. You'll also see that your wife is probably the best bargain you ever found.

Today's Wife Serves As Domestic Economic Asset

BY EUGENE MILLER

Copyright, 1966, Newsday

How much is your wife worth? A million dollars a year? \$20,000, \$10,000, \$5,000, \$2,000? Nothing?

If you're the man of the household, take a minute to see what sort of practical economist you are. Estimate what you would have to pay at the going rate to have someone do all the jobs your wife does.

If you're the woman of the household, start scaling your worth down on the million-dollar level, and figure out what you are worth to someone in dollars per week.

How do you go about doing it? Just list the various jobs the missus does. For example, she is a nurse, baby-sitter, cook, dishwasher, food buyer, laundress, and dietitian, etc. Estimate how many hours are spent on each job, and then multiply by the going rate.

To give you a helping hand, here are the figures the economists at New York's Chase Manhattan Bank came up with:

Job	Hours Per Week	Rate Per Hour
Nursemaid-----	44.5	\$1.25
Dietitian-----	1.2	2.50
Food Buyer-----	3.3	1.50
Cook-----	13.1	2.50
Dishwasher-----	6.2	1.50
Housekeeper-----	17.5	1.50
Laundress-----	5.9	1.90
Seamstress-----	1.3	2.50

Practical Nurse--	6.0	2.00
Maintenance Man--	1.7	2.25
Gardener-----	2.3	1.55
Chauffeur-----	2.0	2.20

The Chase estimate is that the average wife works 99.6 hours a week and her services are worth \$159.34 a week, or \$8,285.68 a year.

Keep in mind that this is what the economists figure for the average wife.

If you want to be real precise, you can adjust the figures for hours or rate up or down as you see fit. If you have to feed yourself breakfast every morning, you can reduce the number of hours she spends as a cook. On the other hand, if she spends the afternoon slaving in the kitchen to whip up a special gourmet dinner for you, boost the number of cooking hours, and increase the rate to \$4 an hour.

If she has a truly green thumb around the garden, boost her wage as a gardener from \$1.55 to \$3. On the other hand, if she doesn't know a geranium from a gardenia and hasn't walked out in the back yard since you've moved into your house, eliminate the 2.3 hours credited to her as a gardener.

If she drives you to the station and barely misses three cars along the way, or if you find the gasoline tank empty when it's your turn to drive the car, mark down her hourly rate as chauffeur from \$2.20 to \$1.

ON YOUR RIGHT, THE FRESHMEN GIRLS' DORMS . . . Gary Cox, president of the Student Council, shows some prospective MSU students around campus during Senior Day, April 22.

KIPA To Hold Spring Conference At Eastern

The Annual Spring Meeting of the Kentucky Intercollegiate Press Association will be held April 29-30 on the campus of Eastern State University, Richmond.

Speakers for the meeting include: Joe Creason, columnist for the Louisville Courier-Journal; George Gill, city editor for the Courier-Journal; and Cattie Lou Miller, state commissioner of public information.

On Friday, a committee of editors and faculty advisors will discuss the role of the newspaper in a democracy, the role of the collegiate newspaper, and a panel of editors will discuss the role of the college

paper.

A banquet will be held Friday night, with Kenneth Strafer, president of the KIPA and editor of The Trail Blazer, as toastmaster.

Saturday morning, a nominating committee will present nominations for officers for the 1966-67 year. New officers will be installed at a luncheon Saturday afternoon.

Meetings will be held in the Combs Classroom Building and meals will be in the Keen Johnson Student Union Building.

The Trail Blazer will send a delegation to the meeting.

HARD WORK GARY? . . . Gary Meade, president of Phi Beta Lambda, is shown hard at work giving some high school students a tour of the Morehead campus during senior day, April 22.

Construction Boom To Greatly Increase Facilities

Dennis Chesnut

Boom -- Crack -- Zoom -- Crash -- Splat!

No, this is not the introduction to "Batman," but rather, the sounds to which students at Morehead State are fast becoming accustomed. These are the sounds of MSU on the move.

At the present time two new dormitories and two building additions are under construction. Mignon Tower, the fourth building of the Mignon dorm complex, will be 16 stories and accommodate 300 girls. According to Russell McCure, Assistant to the President for Business Affairs, the tower is scheduled for completion in March of 1967, "but we hope it will be done in time for the start of the Spring semester." The cost of the dorm is \$1,477,000.

By September 1967, 400 men will be able to occupy the new Alumni Towers. The \$2,600,000 building will be equipped with a cafeteria much like the present one in the Doran Student House. The men's tower is being constructed in front of Cooper Hall.

Already taking shape is the third floor addition to the Administration Building. The \$312,000 new floor will be an expansion of present facilities. The office of the Dean of Students will occupy approximately one-third of the addition. Also located there will be the offices of the new University Deans as well as the new computer center.

Breckinridge Training School is being expanded and renovated at a cost of \$1,014,000. The new wing will house a library, cafeteria, band and chorus rooms, art studios, plus student lockers, which have never been at Breck. Due to the renovation and air conditioning of the present building, no summer school will be held at the school.

Also under construction now is the expansion of the filter plant. At a cost of \$345,000, the new wing includes a new line from the filter plant to the storage reservoir.

Bids were opened for the addition to Laughlin Fieldhouse with the low bid being \$1,650,000. The new building will cover the entire old Jayne Stadium will house all H.P.E. & R. faculty, staff, and classes. Also included will be automatic bowling lanes, handball courts, dance studios and wrestling areas. A multi-purpose room, covering .7 of an acre, is also located in the addition. McCure said that the multi-purpose room is so large that five regulation basketball courts could fit into the space. Construction is slated to begin the first week in May with the opening to be in September of 1967.

Final plans are being discussed for the five story married student's building. The \$600,000 structure will have 40 one-bedroom apartments. It is to be constructed where the old maintenance department and veteran's apartments are located.

The long black pipes that can be seen lying on campus lead to the new boiler that is being installed. Cost of this construction is \$5 million.

Under Title I of the Higher Education Facilities Act of 1963, Morehead

has received \$467,490 to be used for an addition to the rear of Lappin Hall. The total construction cost for the new building is \$1,800,000. Construction is to begin sometime this summer.

A nine story addition to Rader Hall is scheduled to be under construction this fall. The departments of professional education and graduate studies are to be located in this new building. The addition will be located between Ward Gates Drive and Rader Hall. Allie Young and Thompson Hallis.

A new art building is to be located on the east end of the island presently occupied by the Administration building. Construction is expected to begin in the fall on this \$750,000 structure.

A \$700,000 addition to Baird Music Hall is to be situated between Baird, Cooper and East Men's Halls. Included in the wing will be new recital, studio and practice rooms.

In the planning stage now is a \$2,000,000 addition to the Doran Student House. Upon completion, the new dining facility, student offices, and meeting rooms. Also to be included will be a ball room. The addition is to be built from the present building toward each surrounding street.

On the extension to Wilson Avenue, 11, three-bedroom, faculty houses are to be constructed.

The money for all the housing units is financed through the Federal Housing and Home Finance Agency through the issuance of revenue bonds. The academic buildings are constructed under consolidated revenue bonds.

The Zip Code for the Morehead area is 40351.

Half-price to college students and faculty: the newspaper that newspaper people read. . .

At last count, we had more than 3,800 newspaper editors on our list of subscribers to The Christian Science Monitor. Editors from all over the world.

There is a good reason why these "pros" read the Monitor: the Monitor is the world's only daily international newspaper. Unlike local papers, the Monitor focuses exclusively on world news — the important news.

The Monitor selects the news it considers most significant and reports it, interprets it, analyzes it — in depth. It takes you further into the news than any local paper can.

If this is the kind of paper you would like to be reading, we will send it to you right away at half the regular price of \$24.00 a year.

Clip the coupon. Find out why newspapermen themselves read the Monitor — and why they invariably name it as one of the five best papers in the world.

B. Pat's Corner

Spring And Sports In Full Swing

by B. Pat O'Rourke

Spring is finally here and as everybody heads for the University Lake to get some "rays," the spring sports scene is in full swing.

The baseball team, after an opening loss to Georgetown, has bounced back to win four straight. The pitching has come through for Coach Allen and the offensive hitting as well. Defensive fielding has also given him great hopes for this season.

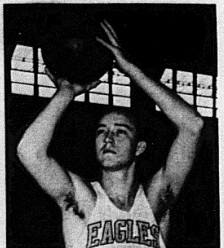

Against Kentucky State, in the first game of a double-header, the Eagles pulled off a triple play to the delight of about 600 spectators. A line drive was hit to shortstop Charles Merlo with men on first and second. He flipped the ball to second for one out and the ball then went to first for the third out. It was a great team effort.

Head track coach, Earl Bentley, is still optimistic about his season despite his 1-2 record. He is getting fine performances from his sprinters but needs work on the distance and field events. The team is young and willing, but the inexperience will make it rough on them this year.

The tennis team has split its first two decisions and seems to be ready for the remainder of the season. They were excellent against Bowling Green University but faltered badly against the University of Kentucky. The team should have a good season with their fine material.

The golf team is on the winning side of the ledger with a 6-3 record in five tournaments. Such standouts as John Lauri and Don Barnes, along with the rest of the well balanced team, should give the team one of their best years.

Soccer is becoming a year-around sport as they are now competing in the spring. They started off the season with a shutout over the University of Kentucky, 4-0 and head coach Sabie is looking for a fine season.

Harold Sergeant

It has been said that once you graduate from an institution you still represent it in later life. Such great athletes as Steve Hamilton, Dan Swartz, Dennis Doyle and many others are going on to greater things in the sports world and with them they carry the name of Morehead State University.

Another example of this fine tradition is Harold Sergeant, a former Eagle basketball player from Ashland. "Sarg" was an All-OVC selection three straight years and led the conference with 293. The leading scorer on the team was former Western Kentucky great Bobby Rascoe, who averaged 13.9 points a game.

Sergeant and Rascoe are currently in Valdivia, Chile representing the United States [AAU] in the World Amateur Basketball Championship, along with such greats as All-American, Carzie Russell and Chuck Gardner.

Against Bulgaria, Sergeant made

three consecutive layups, to spark the U.S. contingent to a 68-60 victory. The tournament will end on May 30 and from there the team will go to U.S.S.R.

Sergeant was the "little guy" who helped Morehead during his great career at M.S.U. and now he is giving us glory all over the world. Best of luck to "Sarg" and regards to his wife, Linda.

Foul Tips

Jack Rudowski is leading the Morehead baseball team in batting with a .571 average and Charles Merlo is second with a .500 mark. . . The fourth annual social club Greek Week 5-0, starting May 16. . . Everybody get limbered up for the Campus Club "Little 500" bike race . . . 5 weeks 'til graduation.

ESTO DIGNUS

Softball Team Narrowed Down To Eight Teams

The Unbelievables are undefeated in the Blue League with a record of 5-0. They are followed by The RG's [4-1], Campus Club I [4-1], Pas Adelphi [3-2], Collegiate Knights II [2-3], Newman Club [1-4], Aquila II [1-4] and Cooper Hall [0-5]. The Aquila are leading in the Gold league with a mark of 5-0. They are followed by Campus Club II [3-1], Buckeyes [3-1], Collegiate Knights I [3-2], Old Timers [2-3], Wee Nine [2-3], Cooper Hall II [1-3], Collegiate Knights III [1-4] and the Remarkables [1-4].

Volleyball

From a beginning total of 32 teams in the Intramural slow-pitch softball double elimination tournament, the teams have been narrowed down to eight teams. The campus Club I, Unbelievable II, Kyalapas, Aquila I, Spartans, Unbelievable I, RCH's and the Collegiate Knight I.

Next week a double elimination tournament between the four top teams in the elimination pre-tournament will play to determine the Intramural Champion for the 1966 season. By the time another edition of the Trail Blazer comes out, one of the above eight teams will be softball champions of Morehead State University for 1966.

Badminton

From a total of 32 participants, Otto Gsell met Jim Miller in the finals for the badminton championship. In a hotly-contested and hard fought battle, Otto Gsell played excellent placement of shots and took the intramural championship.

Soccer Team Wins First Game 4-0 Over Kentucky

The Morehead State University Soccer team opened their spring season by trouncing the University of Kentucky, 4-0.

Taha Sabie was the first to break the scoring column and led all scorers with two goals.

The second goal was scored by Mike Egen assisted by Lance Clanton. The final score was executed by Tom Ratenpook.

Soccer is a fast rising sport in the United States and the most popular sport in the world. Morehead is leading the way in the Ohio Valley Conference. It is an exciting and demanding sport to play and the team's prospects are good.

The next game will be on April 30 against Tennessee Tech at Morehead.

Come out and support the team and learn about this exciting sport.

Morehead Sweeps Pair From Ky. St. Baseballers

The Eagles of Morehead State University had to put on a late rally to defeat a stubborn Kentucky State team 4-3 in the first game of a double-header at the Breathitt Sports Center baseball field.

A crowd of about 500 saw the visitors take a 3-0 lead in their half of the 2nd inning on a three run homer by Mike Coleman of Kentucky State.

The lead was short lived as the Eagles started on their way to victory on a home run by catcher Mike Collins. The round tripper came in the bottom half of the 4th inning to break the scoring ice for the Eagles. Jim Mastrodiciusa, Charles Merlo and Jack Rudowski combined for the 2 runs in the last half of the 7th inning to win the game for Morehead. Rudowski's double was the deciding factor.

John Capelle won his second game

of the season without a loss to make his record 2-0.

Second Game

In the second game, the Eagles experienced one of their fine first innings and jumped off to a three run lead against Kentucky State. The visitors couldn't gather up a rally and the Eagles posted their first shutout of the season.

The Eagles rallied again in the 5th inning behind the bat of Al Frater. He hit a two run homer to put the game on ice for the Eagles. One more run was scored in the sixth inning for the Eagles, to make the final score 6-0 in favor of Morehead.

Steve Berryhill picked up his first win of the season on a fine two hit ball game. His record is 1-0.

The Eagles will face Eastern Kentucky University on April 26, at the Breathitt Sports Center.

THIRTY-THREE, NINE, TWENTY-FIVE, HIKE! . . . Sigma Delta, national honorary physical education fraternity and the Lakotas, girls' social club, played their annual Puff football game, Thursday April 21. After a strenuous performance by both teams, the score was tied 0-0, when the game ended.

Athletes Of The Issue

This week's Athletes of the Issue are Charles Merlo and John Capelle. Merlo is a 6'3" 205-pound senior from Dumont, New Jersey. He holds the position of shortstop on the Morehead State University baseball team.

He is currently second on the team in hitting with a .500 batting average which includes a grand slam home run. Last year he was fifth in batting with a .280 seasonal average and five home runs. He was second on the team in RBIs with 29.

Against Kentucky State Merlo started the first triple play of the season. With a man on first and second he snagged a line drive and flipped the ball to second which was in turn thrown to first to complete the triple play.

"Fossit" is a physical education

major and is a member of the Collegiate Knights [Theta Chi Kappa].

Capelle

John Capelle is a 6' 1" 195-pound junior from Cincinnati, Ohio. He was the leading pitcher on the squad last year with a 7-1 record which included a no hitter. He had an earned run average of 2.16. This season Capelle has started off by winning his first two decisions. He helped himself with one of the games by clouting a home run.

Control and a good selection of pitches have helped Capelle become one of the best pitchers in the conference and also one of the finest right handers ever to pitch for Morehead.

Netters Beat Bowling Green, Drop Match To Kentucky

The Morehead State University tennis team opened its season with a routing win over the 1965 Mid-American Champion, Bowling Green, 7-2.

Only one match went the full three sets as Don Barr of Morehead won over Carroll 4-6, 6-4. James Miller [M] beat Trevor White [BG] 7-5, 6-1. Kenneth Vandever [M] beat Dean Snyder [BG] 6-4, 6-3, and Richard Emery [M] beat Bryant Egan [BG] 6-1.

In the doubles competition the Eagle netmen won all three matches. The teams won as follows: Don Barr and

Jim E. Miller [6-4, 6-3], Richard Emery and Jim T. Miller [6-3, 6-4], and Kenneth Vandever and Melvin Krueger [6-1, 6-2].

Kentucky

The second match of the season was against the University of Kentucky and the Eagles were caught up in a Kentucky surge which started on their southern tour in Florida. The Wildcats overran the Eagles 8-1.

The only point was scored by Jim T. Miller who beat Jack Trum 6-0, 6-3.

Golfers Compile 6 - 3 Mark On Links After 5 Matches

The Morehead golfers are in full swing on the links and have compiled a 6-3 record in five matches thus far this season.

Their first match was a tri-meet with the Madison College and Dayton University. Morehead took the decision over Villa Madonna 24-0, but lost to Dayton 15 1/2-8 1/2.

The Eagles went on to win their next five matches from Transylvania 15-5, Tennessee [10], Bellarmine 15 1/2-2 1/2, Centre 18-0 and

Dennison again 13 1/2-5.

After spring break, the Eagles faced Eastern Kentucky and Cincinnati and lost both decisions.

"I think the boys have been playing fine golf, but the spring break hurt us against Eastern and Cincinnati," said head golf coach, Lake Kelly.

Five of the boys are averaging 78 with low scores coming from John Lauri [72] and Don Barnes [74].

The next golf match will be against Georgetown on May 3 at Georgetown.

Eagles Down Rio Grande Twice As Batters Star

It was a great day offensively for the Eagles of Morehead State University, as they clouted the visitors from Rio Grande College, 17-5 in the first game of a doubleheader.

After a spectacular triple play, the first inning exploded into 11 runs for the fired-up Eagles as 14 batters faced, bawledriver Kentucky State pitcher, Jim Mastrodicas led the attack with the first hit of the game with a man on. Charles Merlo followed with a double and the rout began. Merlo came back later in the inning to hit a grand slam home run to lead for the day in RBI's with five. He was followed in that inning by Mike Collins, who also hit a four-bagger.

Rio Grande entered the scoring column with a three-run spurt in the third inning. But the Eagles came back in the bottom half of the same inning, to score three more runs to put the game on ice. The hero of that inning was John Capelle, who hit a home run with a man on to aid

in the winning cause. Capelle was the winning pitcher [1-0] for his first win of the season.

Second Game

The Eagles kept up their winning ways as they found the correct formula and beat the baseballers from Ohio in the second game, 8-4.

A four-run first inning got the Eagles started and the fine hitting of Charles Merlo, Link Lemaster, Mike Collins and Jack Rudowski enabled the Eagles to jump to a 4-0 lead after the first inning.

Morehead had another spurt of scoring in the 5th inning, as Jim Mastrodicas sparked the attack with a double with Link Lemaster on. He was driven in by Charles Merlo for the final score of the inning and the game.

Rio Grande finally broke the scoring column in the 6th inning and had a 7th inning rally of three runs to fall short of the victory.

The winning pitcher for Morehead was Weyman Smith [1-1].

MSU Scuba Club Breaks Two School Driving Records

Kentucky's oldest scuba club, the Diving Eagles of Morehead State University, has broken two records for scuba diving at Morehead.

On April 5, Jerry Fraley broke the record for the 90-foot swim on a single breath of air. His time was 16.2 seconds. The old record was 16.9 and was set by Fraley on March 29. The old record for this distance, by another team member, was set in January 1965 by Bob McConnell.

The other record that was broken was an underwater distance record with the swimmer taking only one breath of air. The new record, set by Martin D. Tlear, is 221 feet. This also was set on April 5. The old record of 211 feet was set by James Stevens on November 23, 1965.

Several other event records have not been broken and do not seem to be in any danger of being broken at this time. The record for removal of tanks, mask, fins and weight belt, then placing them back on was set by Richard Eversole in March, 1965

with a time of 13 minutes 13 seconds. The closest time for this year has been half a minute away.

The snorkel endurance record was set in November, 1965, by James Stevens and tied the same night by Francis McWilliams.

Faculty advisor, Allen Lake, associate professor of biology at MSU, said the members of the Diving Eagles must go through a three-week preparatory period before admittance to the club. All record attempts are carefully supervised by expert scuba members or associate advisor, Richard Eversole, instructor of biology.

Lake cited the fact that one of the members had done extensive diving work and has gone down to depths of over one hundred feet. He is Larry Ratliff, a senior from Washington, Ohio.

The club is open to all undergraduates and graduate students enrolled at Morehead State University.

Brother Of Thomas Wolfe Speaks To MSU Students

Fred Wolfe, brother of American novelist Thomas Wolfe, lectured at Morehead State University on April 5, at 4 p.m.

The speaker, a resident of Spartanburg, S. C., told an audience of over 500 people that his brother had had the craze to write a novel or play since he was able to sit down and write the alphabet.

Personal insights into the family life of Thomas Wolfe were given to the audience.

Wolfe also dwelt upon the best known work of his brother's short writing career [he died at the age of 38], "Look Homeward Angel." He said that the book was a form of biography of his brother's personal feelings about the life he was leading and the people who entered into it.

He also added that the book was not a so-called "flash in the pan" as some have called it, but that Thomas Wolfe's other works, "Of

Time and the River" and "You Can't Go Home Again" plus his lesser known writings, show a progression of talent that was ever climbing.

Fred Wolfe then told of his brother's feelings concerning a short life and his zest to have all his works finished before he left this world.

"He had a feeling about dying," he said. "He did not know when or where, but he would sit in his room, at times, and speak to me about it."

Wolfe then said that his brother's feelings were also related to his literary agent, Max Perkins. He added that his brother never stopped to rest, even when he was dying he kept pushing on and on.

With a touch of sentiment, Wolfe told the audience about the last few weeks of the author's life. He spoke of the writing of his last lines to Max Perkins in August, 1938, and Thomas's deep concern for not finishing ten novels he had hoped to write. Wolfe said he really wanted to finish his works, but the author had a feeling he would not be able to accomplish this.

Wolfe concluded the lecture on the life of Thomas Wolfe by reading the letter he wrote in August, 1938, to Max Perkins.

The life of Thomas Wolfe might be summed up in the author's words, written in 1931, at his flat in South Brooklyn, "At the end of the day . . . my mind . . . could be by no opiate . . . be at rest . . . I prowled the streets . . . And the staggering impact of man's humanity to his fellow man . . . in a world in which the rich were still rotten with their wealth left a scar upon my life, a conviction in my soul which I shall never lose . . ."

When you can't afford to be dull, sharpen your wits with NoDox.

Over 300 Attend Alumni Meeting At Prestonsburg

Over 300 alumni of Morehead State University attended the first annual meeting of Eastern Kentucky Chapter of the Alumni Association at Prestonsburg on Friday evening, April 22.

Former Governor Bert T. Combs, for whom the Bert T. Combs Classroom Building at Morehead is named, was a guest of the University and Alumni Association at the banquet gathering.

The meeting was held in the dining hall of May Lodge at Jenny Wiley State Park at 7 p.m. Morehead President Adron Doran and Mrs. Doran attended with numerous representatives of the University and Alumni Association to greet Morehead alumni and friends.

The University Combo provided music for listening pleasure during the banquet and played following the meeting for those who wished to dance.

College Grads Can Serve Their Country In The Coast Guard

College seniors or graduates can fulfill their military obligation as officers in the U.S. Coast Guard. Qualified applicants are notified of selection for Officer Candidate School before they enlist.

OCS classes convene in September and February at the Coast Guard Reserve Training Center in historic Yorktown, Virginia. There the carefully selected college graduates receive 17 weeks of intensive, highly specialized training. Upon graduation they are commissioned as ensigns in the Coast Guard Reserve and serve on active duty for three years. Those qualified may be offered flight training.

Coast Guard officers receive the same pay and benefits as officers of other Armed Forces. Included are 30 days of annual leave and free medical and dental care.

Peacetime duties of the Coast Guard include law enforcement, search and rescue, oceanographic research, marine safety and the maintenance of aids to navigation.

Information on the U.S. Coast Guard Officer Candidate School may be obtained from Commandant [PTP-2], U.S. Coast Guard Headquarters, Washington, D.C. 20226 or the nearest Coast Guard Recruiter.

Morehead Agriculture Club Schedules First University Horse Show For May 8

By Cathy Lynch

Horses, horses, everywhere, but none to be seen in Morehead! Since Kentucky is noted for its "fast women" and "beautiful horses," we seem to be lacking in ol' Kentucky spirit here at Morehead. The Agriculture Club has come to the rescue by sponsoring the first University Horse Show on the Morehead campus, scheduled for May 8, at 2 p.m., at the old Jayne Memorial Stadium grounds.

You say you don't know one nag from another? Want to learn? Then hoof it down to the stadium area and see a fine representation of what Kentucky is best noted for.

Since Morehead has become a University style town, the horse show will be composed of twelve classes, consisting of: lead in pony class, pleasure horse class, western pleasure horse class, jr. walking horse class, reining class, open pleasure horse class, walking pony class, three gaited class, amateur walking horse class, five gaited class, championship walking horse class and a possible M.S.U. student class. If one looks close enough, he will be able to see a prominent dean exhibiting his favorite horses, namely Dean Wilson who will also be the Ringmaster.

Now is the time to brush up your four-legged species, for there is no entry date. There will be open entries until the time of that class. The entry fee is \$3, with trophy, ribbon and money placings starting with first place receiving \$20 down to \$5 for fourth and a ribbon for fifth.

"If this year is profitable, future plans are for an annual horse show and possible provisions for boarding the horses," said Dr. Charles Derricksen, associate professor of agriculture. "Due to the lack of student response and boarding facilities, there isn't a class composed just of M. S. U. students exhibiting their horses. There is still time," added Derricksen, "if enough students are present and desire to exhibit, then we will post such a class for student competitors. We would like to see such a class develop and become an annual class event, for we feel it would tend to draw the student body closer."

The Ag Club, under the presidential

leadership of Charles Salisbury with his staff officers Ken Rose, Doug Norsworthy, Glen Johnson and other Ag members, have worked long hours preparing for this show. Now it's your turn to show them your appreciation and interest in what they've done by attending this fine show.

Jimmy Richardson, County Attorney for Bath County, will be the announcer for the show. A rain date has been set for the following Sunday, May 15. An added attraction of a trick horse show is scheduled for the intermission period.

Don't pack those aces! Stay over and see what Morehead is like on the weekend. Don't be like the gentleman who "lost his money by betting on a hobbled nag, while someone else jet on a bay." Come to the horshow and learn what a real horse looks like.

The classes for the horse show are as follows:

CLASS NO. 1 - LEAD IN PONY [Rider under 6 yrs. to be led by an adult] All entries will receive a trophy. No entry fee.

CLASS NO. 2 - PLEASURE PONY [Rider under 14.2 hands] Entry fee \$3.00. Premiums: First \$10.00 -- Second \$7.50 -- Third \$5.00 -- Fourth \$2.50 -- Fifth Ribbon

CLASS NO. 3 - 2 YR. OLD WALKING HORSE CLASS Entry fee \$3.00. Premiums: First \$20.00 -- Second \$15.00 -- Third \$10.00 -- Fourth \$5.00 -- Fifth Ribbon

CLASS NO. 4 - WESTERN PLEASURE HORSE CLASS Entry fee \$3.00. Premiums: First \$20.00 -- Second \$15.00 -- Third \$10.00 -- Fourth \$5.00 -- Fifth Ribbon

CLASS NO. 5 - JUNIOR WALKING HORSE CLASS Entry fee \$3.00. Premiums: First \$20.00 -- Second \$15.00 -- Third \$10.00 -- Fourth \$5.00 -- Fifth Ribbon

CLASS NO. 6 - REFINING HORSE CLASS Entry fee \$3.00. Premiums: First \$10.00 -- Second \$7.50 -- Third \$5.00 -- Fourth \$2.50 -- Fifth Ribbon

CLASS NO. 7 - OPEN PLEASURE HORSE CLASS Entry fee \$3.00. Premiums: First \$20.00 -- Second \$15.00 -- Third \$10.00 -- Fourth \$5.00 -- Fifth Ribbon

CLASS NO. 7 - OPEN PLEASURE HORSE CLASS Entry fee \$3.00. Premiums: First \$20.00 -- Second \$15.00 -- Third \$10.00 -- Fourth \$5.00 -- Fifth Ribbon

Conference Attracts 150

Morehead State University held a conference for high school guidance personnel and senior sponsors on Wednesday, March 30.

Dr. Herman J. Peters, Professor of Education at Ohio State University, spoke on guidance information to a crowd of over 150 guidance counselors and senior sponsors from throughout the state.

Discussion group sessions followed Dr. Peters' 10:00 a.m. address in the Home Economics--Industrial Arts Building.

Dr. Adron Doran, President of Morehead, spoke at the 12:30 luncheon, followed by a symposium on "Beyond High School." Participating in the symposium were Dr. Warren C. Lapping, Dean of the College; Roger L. Wilson, Dean of Students; Hazel Whitaker, Director of Testing; Dr. Ben Spangler, Director of Admissions; Dr. George Zepp, Director of the Reading Laboratory and Dr. Jack Latham, Distinguished Professor.

Scripto Publishes Booklet On College Scholarships

A convenient, pocket-size book -- "How To Get College Scholarships" -- has been published by Scripto, Inc., and is available free.

Written by educational authority Gene R. Hawes with an introduction by Henry S. Coleman, director of admissions, Columbia College, Columbia University, the book is a handy reference for students, parents, teachers, and counselors.

Total financial aid available to college students, including scholarships, loans, and money earned by students who work their way through school, is estimated at more than \$1 billion. Scholarships are no longer strictly prizes awarded for scholastic

excellence, according to Hawes. Good scholastic ability is required in most cases, but many scholarships are designed to provide direct financial aid to students not in a position financially to attend the colleges of their choice.

Today, about one in every five students receives financial aid in one or more of its main forms: scholarship grant, loan, and job.

MSU Budget Passed At Last Meeting Of Board Of Regents

The Morehead State College Board of Regents has approved a record \$8,596,053 budget and passed a resolution approving university status for the 44-year-old college.

In other action at its meeting last week, the Board: approved three new Master's Degree programs; swore in two members of the board, heard financial reports on current research grants totaling \$366,229.50 and student financial aid totaling \$1,231,000 and approved the personnel roster for the 1966-67 school year.

The record budget is an increase of 36% over the previous high budget of \$6,287,564 in 1965-66. State appropriations account for \$3,951,155 of the total with the remaining account including student fees, auxiliary enterprises and bonded funds.

The Board unanimously approved the name change to Morehead State University, saying in its resolution "Whereas the 1966 Session of the

Brown Served Two Winners

David Brown, instructor of Journalism, has worked under two Pulitzer Prize winners, Hodding Carter and Ira Harkny.

General Assembly enacted into law House Bill 238 providing for a change in the name of Morehead State College to Morehead State University be it resolved that the Board of Regents approve the name change to become effective on June 16, 1966."

Master's degree programs in history, English and biology were approved by the Board. The programs, which become effective in September, will bring to four the areas in which a master's degree is offered at Morehead. The master of arts degree in education is currently offered.

Cloyd D. McDowell, President of the Harlan County Coal Operators' Association, was sworn in as the newest member of the Board. McDowell, a Morehead alumnus, will serve a four-year term on the Board.

B.F. Reed, Drift, who was reappointed to a four-year term by Governor Edward T. Breathitt, was sworn in at the meeting.

Freddy's Fables

By Fred Vanderslice

Fred here!
Well, my faithless readers I'm back and here I sit brokenhearted. Just an hour til deadline and I can't get started. I know none of you will believe it, but after many fantastic articles written by yours truly, I feel like I've run out of whatever I had. This is partly due to a new regulation regarding feckless panada. I'm not at liberty to mention names of individuals anymore, only groups, hence, the Spartans choked in the clutch.

Since I don't want to make anyone uncomfortable for waiting to hear about my trip south for spring break, I'll get right to it. First of all, my riders at the last minute decided to go with the bearded marvel matheny so I didn't have a lot of listening to do from their idle talk. Just me, my radio, road map and my electric wrist-watch with the double interlocking, pressurized, hammer-lock, death-grip watch band by Pavia. It was really peaceful.

The biggest problem was changing drivers; my radio just never could catch on to shifting gears. While traveling, I received reports on my radio that there seemed to be a little excitement in Ft. Lauderdale and Daytona, so not wanting to get involved, I headed for El Paso. However, making the usual miscalculation, I found myself caught in traffic heading for you know where and being my normal hypersensitive self I just made up my mind I would not become a part of the shannanigans and take my case of chocolate syrup and carrot juice to some remote sand dune and spend a nice quiet week basking in the moonlight. Boy, did I get a burn and what a mistake that was.

I could only take that for 3 days and finally got in the spirit, so I went to the bus station to try to start a riot by turning a bus over. However, I really think I would have succeeded, too, if some little kid didn't stick his head out of the bus and ask me what I was trying to prove. So rather than going into a big explanation, I abandoned the idea, and decided to hit some of the social gathering places, as my chocolate syrup on the rocks was getting old.

As I walked down the street, I

met a little guy who needed a friend and asked me if I could be it. I said "yes." He really turned out to be a wierdy. We made an agreement to stick together. However, he said our deal wasn't good till he got himself a coconut. Figuring this might straighten him out, we went hunting for one. Well, the minute he got his eye on one, he had to have that one, and after trying to explain to him that it was green and wouldn't be easy to take from the tree, he made one mighty leap and got both arms around that coconut and just wouldn't let go. So to this day, for all I know, he's still in that tree holding on to his coconut.

I preceded once again to some places I thought I might enjoy; the knuckle club, the elbow room, and the shoulder joint, and the best of all the arm pit. A rather peculiar odor but a fun toddy of cactus juice and whip cream. After 1 1/2 of those I was ready to head back, and this I did.

On the way, I just happened to be first in line on a one-way draw bridge, when a boat had to go through. I stopped, got out after pulling on my emergency brake and turning off the engine to save petrol and watched the beautiful boat go by. Then when it was time, I got in the car, started her up, but just couldn't go anywhere. I looked down and sure enough I had the brake on, sure I did, I tried to release it and would you believe it was locked.

That's right, it was really neat. I had that backed up for at least 3 miles. There were all sorts of horns honking, lights were blinking, the police couldn't get to me, the Coast Guard was even called and hundreds of boats came to see all the cars backed up. It was better than a gnat in a burning contest. Soon they hooked me to a helicopter and hoisted me up, up, and away. And the way everyone cheered, I thought I was a real hero, only to be lowered into the yard of the local police dept. Where am I now? Talking with my friend the Sargent.

After that, I found I had learned one thing which I will never forget, and that is you can lead a horse to water but you can't make him surf on his back.

Southern Hospitality Is Really At MSU

Who says southern hospitality no longer exists? Wayne A. Landendorf, a newcomer to the area, seems to think it does exist. He says the friendly people are a main asset of Morehead.

Landendorf, who received both his B.S. (1960) and M.S. (1965) from Northern Illinois University, came to MSU this semester to teach physics. Before coming to Morehead, he taught three-and-a-half years at DeVary Electronics Institute in Chicago.

Landendorf thinks physics is an important field, and he feels that MSU has realized this importance. He believes MSU has a lot of potential and states that the Physics Department is expanding. He went on to say that the development of a graduate program in physics would be a big step forward.

Landendorf chose the field of

Wayne A. Landendorf . . .
New Faculty Member . . .

physics, not only because he thinks it is important, but he feels that he had a natural aptitude for the work. He says that students should not be frightened by physics if they are really interested in the field. He added, "What a student does in high school does not necessarily determine what he will do in college."

THE LIKENESS OF A SENATOR . . . Kentucky's senior senator John Sherman Cooper smiles with appreciation as he is presented with a charcoal portrait at the official dedication of a men's dormitory named after him. The event took place at the annual Foreign Relations Day program on the campus. Eldon Parker, a counselor at John Sherman Cooper Hall, makes the presentation to Senator Cooper.

COOPER CITED FOR OUTSTANDING WORK IN CONGRESS . . . Chuck Harvey, president of Pas Adelphi [TAE], men's social organization at Morehead State University, presents a plaque and honorary membership in Pas Adelphi to Kentucky's foremost Senator, John Sherman Cooper. Cooper said that it was a great honor to receive such an award from the young people of the nation.

Student Council Elections —

Continued from page 1

as getting the movies on campus. He said he will continue work of this nature along these social lines.

Crowe's opponent in the election is Bob O'Daniel, a junior accounting major, who says he wants the office so that he can get into the action of student affairs and work with the administration in planning future events concerning the students.

"That area which I speak of ranges from girls' hours to plans for the new student center," he said. His objectives are not his own, he said, but borrowed from other institutions that have them in a workable fashion already.

He suggested that the Student Council form a short term loan system whereby students can borrow small amounts for up to 30 days and only be charged an additional rate that covers the bookkeeping. He said he has other ideas, but wishes them to be kept out of the election because he does not have the full story on their outcome at other institutions of higher learning around the nation. He said that he would be glad to explain the ideas if the time and situation requires such, but reiterated that he felt it best to wait for the full report on the subject.

In speaking of the Judiciary Council, O'Daniel said he thought no case should be made public and that the actions of the Council should remain behind closed doors. He also added, as did his opponent, that the students are not informed about the Council and felt that the students should be allowed to know their rights in the cases in question.

He also thought the idea of a mock trial would help illustrate the working of the Council and help to set a precedent for the working of the Judiciary Council at Morehead.

O'Daniel is a member of the Campus Club, social organization and Phi Beta Lambda, business club and national fraternity.

The vice-presidential candidates interviewed by the Trail Blazer are Jim Boyd, Perry Day and Gary Phillips.

Jim Boyd, 19, a sophomore from Sharpsburg, is majoring in political science. He is a member of the Forensic Union, Open Forum, debate team and the Judiciary Council.

Boyd said, "I hope to improve the existing student government on campus and work toward fewer restrictions now placed on the exist-

ing student government. I also plan to work toward more campus-wide activities."

When asked about the Judiciary Council, Boyd said, "In theory, the Judiciary Council is an organized existent body with a purpose. In reality, the purpose has not been fulfilled. We are not functioning."

"The Dean of Students," continued Boyd, "has handled all major and minor cases and issues. We have not had any cases. The Judiciary Council questions the students' awareness of the purpose of the Judiciary Council and whether or not they know they have a choice between the Dean and the Judiciary Council."

The vice-presidential candidate further said, "My goal would be to make the Judiciary Council workable or abolish it. If we are not functioning, why be in existence?"

Mathematics major, Perry Day, is from California, and a member of Alpha Theta Epsilon. He is also the current sophomore class treasurer.

When asked about the office for which he is running, Day said, "With respect to the former officers, I feel that the vice-presidential office has been weak in the past. Students aren't informed as to what is going on in the administration and I hope to create a better line between the

STUDENT TEACHING HANDIWORK . . . Over 21 student teachers enrolled in the professional semester class of Dr. Jack Latham, professor of education, presented "An April Shower of Student Teaching Materials" on Thursday, April 7. Pictured above is a bulletin board prepared for a high school industrial arts class.

SOLIDS, MAN, SOLIDS . . . Such catchy bulletin boards as the above attracted over 300 faculty members and students to a display of teaching materials, Thursday, April 7. The display was sponsored by Dr. Jack Latham, professor of education, and his student teaching class.

Council Candidates In Review

Continued from page 15

administration and the students."

He added, "The Student Affairs Committee, that passes charters for new clubs, wasn't fair to the clubs in regard to how the constitutions were handled. A possible reorganization of this committee would be in order."

Day further believes that the Judicial Council was a good idea, but has not been instituted to the expectations of the students who voted for it. He hopes to improve on this.

In regard to his plans for the Judicial Council, the sophomore said, "On the campus, we have situations not taken up by the Judicial Council, such as a few students caught for shoplifting and drinking on campus. This can't be advocated by the students, but we were promised that the Judicial Council would pass judgment in situations like these."

"To this council," said Day, "I would propose a direct selection of nominees by Dean Wilson with the help of the dorm directors. This would

be followed by the direct election of these students by the student body. This will give every student an equal vote as to whom he is to be judged by."

Gary Phillips, a 22 year-old political science and economics major, is a junior from Washington, Pennsylvania. He is a member of the Political Science Club and on the Dormitory Council in Wilson Hall.

"The main reason I want this office is to work for more student interest and participation in the student government," said Phillips. "I want to try to bring about more campus-wide activities for student participation and an improved cohesiveness between the student body and the administration."

Phillips added, "I fully support the Student Judicial Council and agree with the idea of the Council being purely voluntary. The fact that a student is given a choice between the Council and the administration is definitely an asset to the Judicial Council."

"Before the Judicial Council can become really effective," said the candidate for vice-president, "it must grow and attain a reputation. One cannot expect overnight results from the Judicial Council, since it was just officially organized in March."

Phillips said, "If elected, in my capacity as Chief Justice, I will recommend members to the Judicial Council who are responsible and capable. I will also endeavor to further the reputation and growth of the Judicial Council."

These five candidates for president and vice-president were approved

after passing a test on Parliamentary Procedure.

As there are only two offices with more than two candidates, those of the vice-president and treasurer, these will be the only ones voted upon in the primary.

In the final election, May 3, the new officers of the Student Council will be chosen by vote of the student body.

Voting facilities for the primary and the final elections will be provided in the lobbies of the Doran Student House and each of the residence halls.
