

MISS MSU CONTESTANTS . . . One of twelve girls will be crowned Miss Morehead State University on March 30. Seated (from left) are: Gayle Lyon, Kathy Glab, Sue Pelfrey, Mary Ann Buddick, Paulette Click, Jane Lindsell, Louie Parrott. Standing are: Pat Pinto, Kathy Ludwick, Betty Schindell, Sheila Rose. Linda Fries was absent when the picture was taken.

## Twelve Girls To Compete In First Miss MSU Pageant

by Janet Vaughan

News Editor  
Twelve girls have been selected to compete in the First Annual Miss MSU Pageant to be held in Button Auditorium March 30.

The girls are Mary Ann Buddick, Paulette Click, Linda Fries, Kathy Glab, Jane Lindsell, Kathy Ludwick, Gayle Lyon, Louie Parrott, Sue Pelfrey, Pat Pinto, Sheila Rose and Betty Schindell. The local contest winner will represent the University in Miss Kentucky contest.

Miss Buddick, 20, a senior from West Mifflin, Pa., represents Chi Phi Delta social sorority. She is majoring in music, and came to Morehead on a four-year music scholarship. Other college activities include being a majorette for the marching band, president of Sigma Alpha Iota, women's national music fraternity. Among other honors, Mary Ann was selected TAE Sweetheart Queen in 1967 and was a Homecoming Queen constant. She has also been Circle K, K-Kate of the Month.

Representing Allie Young Hall is Paulette Click, 18, of Sandy Hook. She is a freshman majoring in math. She participated in the Miss Grayson RECC contest, and was Kentucky's candidate for a national office in the Future Homemakers of America.

Linda Fries, representing Theta Sigma Tau, is a senior from Danville, Va. She is a member of Omega Psi Phi, Her majors are art and English. She is a member of CWENS, women's sophomore honorary, and Theta Sigma Tau.

Miss Glab, 19, of Norwood, Ohio, is a sophomore, representing Fields Hall. Her major is speech and drama. She was among the finalists for Miss Teenage Cincinnati and was Homecoming Queen at Norwood High School.

Jane Lindsell, 20, is a junior from Bethpage, N.Y., representing Lakotas. She is a junior, with an area of concentration in art. She is a member of the Lakotas and the Newman Club.

Thompson Hall's representative is Kay Ludwick, 19, a freshman from Highland, Ohio. Her major field is Spanish. She participated in the Miss Southwestern Ohio contest and was selected Miss Congeniality. She is a member of the Thompson Hall House Council.

Representing Capa Tridents [Alpha Sigma Rho] is Gayle Lyon, 20, a junior from Columbus, Ohio. Her majors are speech and drama, and English. She is a member of the Morehead Players. She has participated in the Miss Ohio World [local] and Junior

Miss contests. She was a finalist for Miss Teenage Columbus, third runner-up for Miss Petite Princess, and won the Miss Ohio Universe contest locally.

Louie Parrott, 20, is a senior representing Mignon Hall. She is from Greasport. Her majors are speech and radio-TV. She is a member of Kappa Delta Pi, Sigma Delta Nu, and the WKMY-FM Staff. She was recently chosen as the Christian Association of Broadcasters' "Miss Media Woman of the Year," and College Radio "Studiomate of the Month." She is currently publicity director for WKMY-FM.

Sue Pelfrey, 20, from Jackson, Ky.

## '62 Miss America To Be Featured At First Pageant

Among guests to be featured at the first annual Miss MSU Pageant will be the former Maria Beale Fletcher, Miss America, 1962.

The former Miss America studied dancing from parents who own and operate The Fletcher School of Dancing in Asheville, N.C. She was graduated from Reynolds High School in three years with a scholastic average of 93 per cent.

After graduation she went to New York City to dance with the Rockettes of Radio City Music Hall. She danced as a Rockette for six months before entering the Miss North Carolina Pageant as Miss Asheville. She entered the Miss America Pageant as Miss North Carolina.

As Miss America she entered the American troops in Europe.

She then entered Vanderbilt University as a freshman, majoring in French. She studied in France at Aix-en-Provence near Marseilles during her sophomore year.

In August, 1965, Maria married medical student Jim Growdon. She was graduated from Vanderbilt in 1967.

Maria Fletcher Growden danced and sang in the Miss American pageants of 1965 and 1967 as a guest artist. She has emceed about 40 beauty pageants preliminary to the Miss America Pageant with the Miss California and Miss Alaska pageants being among the state pageants.

## Regents Approve Plans For Community College

Authorization of a Community College at the University, offering certificates and associate degrees in the arts and sciences, has been approved by the Board of Regents.

The program, enables the University to "provide programs of a community college nature in their own communities comparable to those listed for the University of Kentucky Community College System."

The new program will provide comparable programs for both young people and adults who live in the counties adjacent to Rowan County, in which the University is located, and for those who live in communities within a reasonable commuting distance of Morehead.

It has been designed to offer certificates for associate degrees to students who desire programs of study less than four years long. Several one- and two-year programs have been developed and will be offered in addition to a large number already available at the University.

The Community College programs to be offered are designed for students who wish:

- To prepare for employment following a short and intensive period of instruction.
- To meet the entrance requirements of certain professional schools.
- To prepare for eventual enrollment in a four-year program, or
- To complete a general junior-college program.

Students who complete a prescribed one-year, terminal program with an average of "C" or higher will receive a certificate. Those who complete a prescribed two-year course with a "C" or better standing will

receive the appropriate Associate Degree. Credit earned, in most cases, may be applied without any loss on a four-year program, provided the student desires to complete the requirements for a baccalaureate degree. Students enrolled in the Community College program will have all the rights and privileges as those who are enrolled in the senior college programs.

The programs to be offered in the Community College are:

✓ One-year program in nursing.  
✓ One-year program leading to the Associate of Applied Arts Degree in music, recreation and social work. The music program in this area is designed for the student who has no intention of pursuing a teaching or performing degree, although it provides for continuing study if desired.

✓ Two-year programs leading to the Associate of Applied Science Degree in adult education, agricultural business, computer technology.

✓ Journalism, machine tool technology, office management, plastics technology, electronics, farm management, power and fluid technology, radio-television broadcasting, recreational science, teacher aides and vocational, industrial and technical teacher education.

✓ Six two-year programs of preparation for entrance to professional schools include pre-dentistry, pre-engineering, pre-forestry, pre-optometry, pre-pharmacy and pre-veterinary medicine. These programs are being offered to coordinate rapidly growing functions on the one and two-year levels.

## Open Forum To Sponsor Presidential Primary

Morehead will be one of more than 2,000 schools to participate in Choice '68, National Collegiate Presidential Primary, to be held April 24.

Choice '68 is being run by a board of directors composed of 11 student leaders, each from a different region of the country. The board is establishing guidelines for the primary, designing the ballot and providing overall direction and leadership.

Open Forum, the local sponsoring organization has appointed Dan Horwood as campus coordinator to organize the primary on campus.

Administrative costs are being underwritten by Time magazine as a public service. Results of the

primary will be made available to all media.

In addition to naming their choice of presidential candidates, students will also vote on certain issues of national concern, to be selected by

## Student Regents Considered By Legislature

by Dan Hopwood

The state legislature is now considering bills which would put students on the Board of Regents of the state colleges and universities. The bills would also give school faculties representation.

Faculty members are already represented on the University of Kentucky Board of Trustees.

Gov. Louie B. Nunn took the initiative and announced Jan. 21 that he would work for passage of such a bill. The following day a bill was introduced in the House of Representatives and on Jan. 24 a similar bill was introduced in the Senate.

Both bills are virtually the same except for how the student representation is to be selected. The Senate bill says that the president of the student government shall serve on the board while the House bill says that the student regent shall be appointed by the student government president.

Gov. Nunn said, "Throughout my

## 'Experience Method' To Be Used By ROTC In Teaching Leadership

by John Cannon  
"We are going to teach you to be leaders." With this statement Lt. Col. Thomas A. Harris, new professor of military science at the University, summed up the purpose of the Reserve Officer Training Corps (ROTC) program at a convocation for sophomore men Jan. 18.

Col. Harris said that leadership will be taught by the "experience method." Men in the advanced course will be taught leadership by instructing freshmen and sophomores in training laboratories. Field trips will be held to teach physical endurance, tactics and leadership.

He pointed out that any sophomore male interested in the advanced program must apply by May 1. If accepted he will be sent to a six-week summer camp in Ft. Benning, Ga., for basic training. During this time, he will have a rank of private and will receive a private's salary.

When he returns to campus in the fall he will be at least a second lieutenant, but Col. Harris pointed out, there will be a need for higher ranking cadets on the campus. They will receive \$50 a month salary [which is non-taxable].

When the cadet is a senior, he will complete a form stating three fields he would like to pursue and when he wishes to go on active duty the next year. Col. Harris said 70 percent of the cadets enter the first field he wants and 99 percent enter one of the three for which he applies. All cadets must serve on active duty the same as the draftee, according to Harris.

While on active duty, he will receive an average of \$5,300 per year which is more than the average draftee receives.

If the graduating cadet wished to go to graduate school, he may apply for a delay in active duty. The time he is in graduate school will be counted as part of a reserved duty requirement.

The cadet in the advanced course will take a one-hour instruction class and two-hour leadership laboratory each week during the first semester

of his junior year and receive one hour credit. His next two semesters on campus will consist of four hours of class and two hours of laboratory weekly and offer four credit hours. His last semester will require one hour of class and two hours of laboratory weekly, carrying one hour credit. He will be commissioned as an officer upon graduation from the University. Harris said, "I can see nothing to lose and much to gain by ROTC."

## SC Again Votes Yes For Cheering Section

The subject of a cheering section for social clubs was again brought up at the Student Council meeting Jan. 16, but again the social clubs got only half of what they wanted.

By a roll call vote of 14-9, the council voted to extend indefinitely the "student cheering section" which had been set up on a trial basis at two previous basketball games. Ten representatives were absent and Junior Class President Wayne Fanning abstained from the voting. Roll call vote on cheering section:

Yes	No
Brenda Powell	Quentin Hatfield
Sue Land	Bill Bradford
Phil Casciano	Darlene Blair
Carl Diecher	Charles Lee
Carol Heeter	Shirley Gayheart
Jim Kuntz	Marilyn Bennett
Jeanie Umberger	Rex Probus
Ken Jett	Darrell Carter
Bridget Parsons	Alan Osborne
Archie Tackett	abstaining
Ron McDowell	Wayne Fanning
Terri Williams	
John Lauri	
Jim Boyd	

IRON FURNACE-As early as 1802, a crude stone furnace on Red River, near Clay City, produced iron from ore found in the region.

## Council Resolution Proposes Cuts In 300-400 Courses

The Student Council has passed a resolution supporting unlimited class "cuts" for students in 300- and 400-level courses.

The resolution, introduced by Married Student Representative Alan Osborne, was passed unanimously. The resolution says that the Student Council believes "that a freer learning situation will be desirable," and that the Council will "recommend to the President of the University a policy of unlimited class cuts in all three and four hundred level courses."

Even though the resolution was passed unanimously, there was still considerable debate. The original resolution stated: "Whereas the only true learning will occur when the student has accepted the challenge to learn without the aid of an outside force . . . Junior class representative Charles Lee moved to amend this to state: "Whereas we believe that a freer learning situation will be desirable . . ."

Osborne emphasized that a true university student should be able to make these decisions himself. Junior Class President Wayne Fanning supported this line and added that it is the student's prerogative to attend or cut classes.

Council Treasurer Bill Bradford however said that the University "cannot afford to do this," emphasizing that many classes are struc-

tured so that class attendance is necessary.

Historian Phil Casciano said that a plan like this "may make the administration up," when poor teachers are plagued by unusual numbers of absences are reported.

In other council action: East Men's Butler Hall President Rex Probus moved that graduate students be given representation on the Council. The motion was tabled indefinitely.

Aan election committee for the spring Council elections was set up. Senior Class President Jim Zimmerman is ex-officio chairman. Others on the committee are Darlene Blair, junior class representative, Darrell Carter, freshman class representative; Vice-President Quentin Hatfield and Osborne.

A committee to investigate the University Bookstore was set up. Probus was named chairman, with Wilson Hall Representative Bob Glick and Bradford as members.

Absent from the meeting were Jim Zimmerman, Carl Diecher, Carol Heeter, James Kuntz, Jim Thomas, Ken Jett, Archie Tackett and John Lauri.

The next council meeting will be held this afternoon at 4:10 in room 107 of the Combs Building. Meetings were open to the student body.

## Comedy By Oscar Wilde Next Theater Production

The third production of the 1967-68 season of Morehead State University Theatre is "The Importance of Being Earnest" by Oscar Wilde.

The play will be presented on March 15 and 16, 1968 at 8 p.m. in Burton Auditorium. Admission will be \$1, and tickets may be purchased in the Doran Student House beginning Monday, March 11, or by writing for reservations to Morehead Theatre, University P.O. Box 68.

"The Importance of Being Earnest" has generally been considered by critics over the last 60 years to be one of the most scintillating and most polished comedies in the English language. The plot is concerned with a man who assumes the name of Earnest as a light-hearted device, and then finds it necessary to live under that name instead of his own.

Alan Tongret, a junior from Yorktown Hts., will play a rich and idle young man named Jack Worthing who has invented a younger brother, Ernest, in order to slip away to London on pretense of visiting him.

Jack Worthing's friend, Algernon, will be portrayed by Bill Hammack, a junior from Lexington. Algernon assumes the identity of Jack's fictitious brother to promote his own in-

terests. Terri Bonar, a freshman from Covington and Peggy Holbrook, a junior from Raceland, Ky., will be seen as Gwendolene and Cecily, the two young ladies who are the objects of the affections of Jack and Algernon.

Jen Bohannon, a senior from Waddy, Ky., will portray Lady Bracknell, whose sharp observations on life and love are among the highlights of the play.

Miss Prism, the spinster governess, will be played by Gayle Johnson, a sophomore from Frankfort; Steve Morgan, a sophomore from Dayton, Ohio, will portray Rev. Chasuble.

Gus Persson and Rick Greiser will be seen as Lane and Merriman, servants of Algernon and Jack.

Richard Watts, Jr. of the New York POST says this play is "A masterpiece of artificial comedy . . . It is unquestionably a winning and fascinating comedy, if only for its zestful creation of that wonderful Wildean world of wit, beauty, charm and grace, where every man is divine and epigrammatic and every woman lovely, save the dowagers, who are witty and greatly enjoy their own paradoxes . . . A memorable evening of theatrical delight."

## Notre Dame Academy Gets Award For Best Speakers In Tournament

Notre Dame Academy of Covington won the Sweepstakes Award as the school with the highest ranking speakers at the University Breckinridge speech tournament Jan. 20.

Notre Dame received three first places, two seconds and one third place in the 11 events at the tournament. Durrett of Louisville received two second places and three thirds to win second place in the tournament.

Trophies were given to first and second place winners in each event with the third place speaker receiving a certificate.

The three winning schools in each event are as follows: Extemporaneous Speaking: 1st Notre Dame, 2nd: Henry Clay, 3rd: Durrett.

Original Oratory: 1st: Henry Clay, 2nd: [tie] Fort Thomas, and Notre Dame, 3rd: Durrett.

Prose: 1st: Notre Dame, 2nd: Paris,

3rd: Durrett. Humorous Interpretation: 1st: Harrison Co., 2nd: Durrett, 3rd: Notre Dame.

Serious Interpretation: 1st: Henry Clay, 2nd: Henry Clay, 3rd: Paul Blazer.

Duet Acting: 1st: Henry Clay, 2nd: Henry Clay, 3rd: [tie] Madison High and Madison High.

Broadcasting: 1st: Paul Blazer, 2nd: Paris, 3rd: [tie] Paul Blazer and Covington Catholic.

Story Telling: 1st: Notre Dame, 2nd: Paul Blazer, 3rd: Henry Clay.

Poetry: 1st: Henry Clay, 2nd: Durrett, 3rd: Red Bird.

Analysis of Public Address: 1st: Durrett, 2nd: Notre Dame, 3rd: Madison High.

Discussion: 1st: Paris, 2nd: Mayville, 3rd: Paul Blazer.

Debate: 1st: Harrison Co., 2nd: St. Thomas, 3rd: Mason Co.

# Student Life Committee Approves Sigma Chi Alpha

Sigma Chi Alpha has become the second new social club within a month to receive official approval by the Student Life Committee Jan. 18.

The club, started in May of 1967, submitted its constitution in October. Elected as officers of the new social club were: Terry Hill, North Vernon, Ind., president; Carlos Terrill, Lexington, vice president; Ron Freeman, Raceland, secretary, and Ed Pearson, Cincinnati, Ohio, treasurer.

There are 42 charter members in Sigma Chi Alpha, making it one of the largest social clubs on the campus. Sponsors of the club are Dr. Frank Mangrum and Dr. Jack Bizzel.

The members are: Ron Arnett, Ron Barlow, Bob Bass, Howard Beauman, Amos Brashear, Mitchell Brenner, Michael Cooke, Edwin Cornette, Russell Darrow, Jack Denham, Ronnie Donahue, William Donofrio.

Dennis Dorton, Keith Endicott, Ken Ferguson, Mike Ferguson, Stu Flate, Joseph Fraley, George Ingham, Chuck Kates, Greg Keeton, Russ Kline, Jim Kuntz, Terry Marshall, Jeff Molner, Jack Morrison, Clark Mullins, Curtis Nichols.

Robert Nolen, Doug Ponder, Bill Riley, John Ross, Ron Rupp, Brian Sparks, Larry Stevens, Joseph Taylor, Robert Williams, Charles Wolf.

OFFICERS OF SIGMA CHI ALPHA, newly organized social club are (from left) Terry Hill, president; Ed Pearson, treasurer; Ron Freeman, secretary; Carlos Terrill, vice-president.

# Lt. Col. Harris Named Head Of Dept. Of Military Science

Lt. Col. Thomas A. Harris, a veteran of 26 years service with the Army, has been named head of the new Department of Military Science, President Adron Doran has announced.

Col. Harris' appointment, made by the Department of the Army, was confirmed yesterday by the University's Board of Regents at a quarterly meeting.

For the past two years, Col. Harris has served as executive officer and assistant professor of military science at Eastern Kentucky University.

A native of South Bend, Ind., he assumed his new duties Feb. 5, and will direct the initiation and development of the new Reserve Officers' Training Corps program to be started at the University next September with the opening of the fall semester.

Under his direction will be an authorized cadre of 10 officers and 10 non-commissioned officers, most of whom will be assigned to the University within the next few weeks to train ROTC cadets.

Within two years, this number is expected to increase to 15 officers and 15 non-commissioned men. More than 1,000 freshmen and approximately 75 sophomores and juniors are expected to participate in the new ROTC program next fall.

Assisting Col. Harris in the activation of the Morehead program will be Staff Sergeant Alvin Russell, a native of Dandridge, Tenn., and a seven-year Army administrative veteran. Sgt. Russell currently is assigned to the ROTC unit at Eastern.

Commissioned a second lieutenant in the Purdue University ROTC pro-

gram in 1940, Harris since has served in both the European and Far Eastern areas, mostly with artillery units.

In the late 1950's, he served as executive officer, deputy commanding officer and later commanding officer of the 40th Artillery Group in Germany. The unit's primary weapon was the 500-mile Redstone missile of the type used to orbit astronauts early in the space program.

Prior to being assigned to the Eastern campus, Col. Harris served three years as professor of military science at the University of Michigan.

He is married to the former Anne Moore of Danville, Va., and they have two daughters, Martha, a physiotherapist at the University of Kentucky, and Frances, a freshman at Eastern.

The Harris will continue to live in Richmond until quarters are available for them in Morehead.

# Yale Approves Pass-Fail System

Intercollegiate Press  
NEW HAVEN, CONN. -- The faculty of Yale College has voted to abolish the numerical grading system and replace it with a new one, Dean Georges May has issued the following memo on the change.

"The Faculty of Yale College voted to approve a report of its Standing Committee on the Course of Study recommending that grades in Yale College be Honors, High Pass, and Fail, for a trial period of five years. This change will be put into effect at the end of the first term of 1967-1968, Yale College being the only undergraduate school at Yale, this change covers all undergraduate courses.

"Prior to this, Yale College operated under a grading system of 40-ated under a grading system of 40 to 10. Grades from 40 to 60 were recorded in units of 5; from 60 to 100 in units of one; 60 was the passing grade. Aside from relatively minor adjustments, this system has been in effect since 1943."

Studies are now underway by the dean and the faculty to answer several other questions that have come up because of the new grading system. For example, many of the awards and honors for students as well as some of the degree requirements have been based on numerical grades. How the new system is to be used in answering these questions is still to be worked out.

The grading system under discussion applies only to the final grades that a teacher hands in to the Dean's Office at the end of the semester to be recorded on the official student transcript in the Dean's Office.

University, an individual teacher can use his own judgment in using a variety of grading systems during the semester. He is permitted to mark, for example, progress, etc. to indicate a student's progress in a class.

# UK Anti-War Conference Attracts More Than 400

LEXINGTON--More than 400 assembled at the University of Kentucky Saturday for the Conference on the War and the Draft and heard Wendell Berry, UK professor and poet, tell why he was against the war in Vietnam.

Berry set the theme of the conference when he said, "We are here to become the voices in this state of the possibility of peace, which we believe to be a better aim than the possibility of war."

He said that the war was "a symptom of a deadly illness of mankind," and that the U.S. was supposedly a Christian and democratic nation. "But I find nothing in the principles of the Declaration of Independence or in the Constitution to justify our support of puppet tyrants, or our slaughter of women and children, or our destruction of crops and villages and forests, or our treatment of civilians into concentration camps in Vietnam."

Robert Sedler, UK law professor, spoke to the conference on the inequities of the draft system. He said, "I feel the draft law is a disgrace to a country that says it is based on equal justice under the law."

He continued, "The Selective Service System is deliberately set up to place the burden of dying on Negroes, the poor, the powerless, the uneducated. How long would the American public support the war if middle-class sons had to fight and die equally to the poor in the mud and filth of Vietnam?"

Workshops were held dealing with specific areas of the war and the draft, including how to organize opposition to the war.

John Lewis, organizer of the Conference, thanked the staff for people who had gathered in the common room on campus during the war, immediately after the war, workshops were held to discuss specific plans for organizing.

# Button Gym Once Athletic Now Military

Allie Young Hall will be the temporary residence of the newly-created military science department.

Part of the ground floor--now occupied by the Art Department--will be used by the new department until the Button Auditorium and Gymnasium building is renovated. The Art Department will soon move into its new building.

For 38 years, Button has been the site for basketball games, concerts and other events.

The ground floor of Button will be remodeled to provide an eight-point rifle range, an armory, uniform storage facilities and two offices.

The bleachers of the gymnasium will be removed to provide an indoor drill area. A second floor will be added to the gymnasium to provide for seven offices and six classrooms.

The new building is being built by Eastern Kentucky University, will house the Military Science Department, and will be completed by the end of the year.

# Would you let a MIDWIFE deliver your baby?

Maybe. Probably not. You'll probably let a pro do it.

Would you take legal advice from a student? Maybe.

Probably not. You'd probably ask a pro.

How do you feel about buying something as important as life insurance from a MIDWIFE?--a part-timer?

Surely YOUR future, YOUR estate, YOUR retirement plans, are important enough to need the attention of a professional.

There are no part-timers, no moonlighters at the Andrew J. Offutt Agency. We're pros.

Professional insurance advisers.

## Electoral College System Should Pass Into History

It is time that the outmoded Electoral College be declared obsolete. The college is made up of 535 individuals picked by the voters to cast their ballot for the President of the United States.

We like to think of the President as being "the people's choice," but under the Electoral College it is possible that a candidate can get a majority of the people's votes and not be elected.

The election of 1876 gives us a vivid picture of what can happen under this system. The candidates were Democrat Samuel J. Tilden and Republican Rutherford B. Hayes. Tilden received 250,000 more votes than Hayes, but not the majority of the electoral votes. Thus Hayes, with a minority of popular votes, was elected.

In 1888 when Grover Cleveland opposed Benjamin Harrison for the presidency, Cleveland won nearly 100,000 votes more than Harrison, but the electoral count was 233 for

Harrison and 168 for Cleveland. Again the popular candidate lost.

If the 1800's seem to remote--consider the 1960 presidential election. John F. Kennedy carried the popular vote of Alabama but the state's six electoral votes were given to Senator Harry Byrd of Virginia who was not even a candidate, on whim of the state's political machinery. This proved insignificant in that election, but had it been larger New York or California electoral delegation that decided not to vote for the candidate popular in their state it could have meant the election of Richard Nixon.

The electoral college is out of date--it was set up by the Constitution at a time when the "masses" were considered unable to make wise decisions and when communications were slow and poor. These times have passed and the electoral college should also pass into history.

The President should be assured of being "the people's choice."

## Honor Program Needs Explaining; Often Not Understood By Student

The Honors Program of MSU is an aspect of the university little understood by those who do not participate in it. It is geared to the juniors and seniors who have ability to accomplish more during their university years than is typically required of them.

The program requires extra work in a special seminar and maintenance of a minimum mark of "B" in all courses. It offers rewards to its members such as the opportunity to enroll in a wider variety of academic courses than usually required for graduation, and permission to not attend classes except as is needed [being present for all tests].

Some honor students feel that the honors program is very beneficial. They receive a more well-rounded education because of the variety of seminar topics--topics to which other students would not be likely to be exposed in all their university career.

There is a different area explored each semester.

Scholarships are also available to members of the honors program.

Drawbacks of the program are also

evident, however. Seminar topics many times are very difficult to grasp without background in the content.

Some feel that attending the Honors Seminar which gives the student one credit hour and no grade [except a K] is a waste of time. Lengthy preparation for the seminar is often necessary.

Also many teachers on campus are unaware of the privileges of the honors program and give honor students "unexcused absence" when they exercise their prerogative to miss a class. This was the complaint of a majority of the persons interviewed.

A pre-honors program for freshmen and sophomores also exists on campus. These students receive scholarships and automatic admission to the honors program during their junior year if their grades meet the requirements.

APT NAME-Liberty, in Casey County, was named by veterans of the Revolutionary War who settled the area in 1791.

## WHAT PARKING PROBLEM?!!

Neal In The Eastern Progress

## Reader Viewpoints

I have tremendous appreciation for the letters to The Trail Blazer [Tues., Dec. 19] by Oscar Meadows and Samuel Hevard. These two students wrote letters opposing compulsory ROTC that will beset the campus next fall. It was a great feeling to see these letters come out of the "sea of apathy" that exists here.

I am in complete agreement with these two students on the subject of ROTC. I feel this way not only because ROTC stifles one's individualism and forces unwilling students to be trained in the art of killing, but also because the written policy of MSU is in opposition to compulsory ROTC.

In the 1967 publication of "The Lengthening Shadow of Morehead State University," official opposition was expressed to forcing military training of the students. This policy was changed drastically this fall with the approval of ROTC--without consulting

the student body.

The ROTC program here seems to be only a system of the wave of hysterical militarism sweeping across the country due to our ghostlike "Cold War." Due to this hysteria, the U.S. is taking on a characteristic of the Communism it is fighting--militarism. I wonder what good there is in defeating a fascist dictatorship if our country must become a fascist dictatorship to do so.

In this military hysteria we seem to have forgotten the 13th Amendment which prohibits involuntary servitude. To draft unwilling young men into the military can be construed to be involuntary servitude.

The first Christians were beautiful people who preached love and nonviolence. The U.S. cannot be a militaristic nation and a Christian nation also.

## Student Council Has Outlived Usefulness Except For Providing Entertainment

by Dan Hopwood

The Student Council has degenerated to the point where it is almost useless except for sponsoring entertainment.

Since the beginning of the year the Council has done little in areas other than entertainment to improve the lot of the student. They have made a few token moves, but once a move is made it usually dies.

One good example of this is the revision of the Council's constitution. In last year's campaign, Art Dayton, now president, said that one of the first orders of business would be to revise the present outmoded document. The second semester is now underway and the Constitution Revision Committee has yet to meet.

The Council has demonstrated continued apathy and timidity in accepting and carrying out its responsibilities.

The council has shown that the actions it did take are unenforceable.

When they recently approved a student cheering section it was specified that the section, sponsored and administered by social clubs, would be located on the east end of the roughing fieldhouse. Most social clubs, whose members would make up the vast majority of the cheering section, decided to sit instead on the west end.

Council meetings are often a parliamentary farce although the president is supposed to be able to pass a test on parliamentary procedure. Arguments constantly spring up over rules of order. Once 45 minutes were exhausted discussing the propriety of a motion.

Even in the field of providing entertainment the Council has been less adequate than other sources. The Alumni Association can sponsor concerts which provide better entertainment and draw bigger crowds. The Infraternity Council, becoming

more effective, can carry out the same function. The opening of a new commercial theater in Morehead has out-clasped the B-grade movies the Council shows.

What is wrong with the Council? A number of things. For one, it operates under an outmoded constitution, inadequate for governing a student body of 6,000. For another, because the Councils have been traditionally inactive, many potential leaders do not want to become associated with the body, causing a shortage of leadership. To perpetuate this, no one is allowed to serve as Council president unless he has previously been a member.

The one big hope for improving the Council is through a new constitution. The Council should write a strong constitution and work hard for approval. Only then can the Council really represent the students.

## The Trail Blazer

Official newspaper of Morehead State University, operated as a non-profit publication and entered a second class mail at the Post Office at Morehead, Kentucky, under Act of Congress of March 3, 1879. Published bi-weekly throughout the school year except during vacation and examination periods and once each summer session.

The Trail Blazer advertising is intended to help the reader to buy. Any false or misleading advertising should be reported to The Trail Blazer office, ground floor of Allie Young Hall.

LOUIE PARROTT works the control room at WKMY-FM. Miss Parrott was recently chosen "Mass Media Woman of the Year" by the Christian Association of Broadcasters.

## Louie Parrott Honored With Mass Media Award

by Glenda Hagan  
Feature Editor

Louie Parrott is a 20 year-old bundle of energy. And as everyone knows, the only way to work off energy is to get involved. That's exactly what Louie does.

Louie, a junior from Greenup, Ky., is at present serving as Publicity Director for WKMY-FM. She has worked for the station for the past 2 1/2 years, working anything and everything--from announcer to news director. She also is co-host with Lennie Watson on "Omni-tude", a feature of WKMY.

She is active in campus activities. Louie is a member of Kappa Delta Pi, Educational Honorary Fraternity, and Sigma Delta Nu, proposed Journalism fraternity, among others. Last year she received the award for Outstanding Journalist in Broadcast Media.

Louie is majoring in speech with minors in radio-TV and Journalism. She is keeping with her interest in radio, she worked this past summer in the news department of WCMI radio in Ashland. She also holds a 3rd class radio-telephone permit with broad-

cast endorsement.

But being so active does not take away from Louie's studies. This is evidenced by the fact that she had a 4.00 average for the fall semester. Her accumulative record shows an overall average of 3.5.

Recently, Louie was nominated for, and won, an award as Mass Media Woman of the Year for outstanding work in mass media. She was nominated by the Dave Carter Advertising Agency of Ashland. The formal announcement is expected to be released at a later date.

Louie is entered in the Miss MSU Pageant. She will be representing Mignon Hall. Her entry in the talent contest will be a humorous monologue.

Louie's future plans are to own and manage her own radio station. With the ground work she is now doing, the operation should be successful.

If being involved with campus activities and studies doesn't work off some of your excess energy, you can always do what Louie does--play casino!

### File Thirteen

## Jinx Strikes Again -- Almost

by Ray Tussey

In the 20 years of my existence I have been constantly plagued by things happening to me that should not have. In other words, I have had so much bad luck I might be classified as "Jinxed."

This streak of bad luck started when I was in the first grade and my turn to be "Bathroom Monitor" came during Christmas vacation. This streak continued to follow me through high school and on to college where I usually hear, immediately following registration, disparaging remarks about a certain teacher I just signed up for.

Before registration all one can hear about a certain teacher is how great he is, how easy and how interesting his lectures are. All this naturally comes through the dormitory "grapevine." But immediately following registration, I get the "word" again -- a different word.

"You were crazy for getting that madman," a friend remarks, who took Mr. Givargade, "don't you know that last semester, he failed 99 percent of his class and gave what was left the other one, a D minus. But at least the class is easy to sleep in."

"Not only that," another friend chimes in, "he gave 10 term papers and 20 essay tests. You shoulda took Mr. Givargade."

"And that's not all" an ever-dropping Good Samaritan adds, "he takes off a hundred points for every

cut and keeps you in overtime at every class, you're crazy for not taking Givargade."

"I'll tell you something else," a graduate assistant says as he joins the crowd, "he hates Jews, Catholics, Baptists, Quakers and doesn't really appreciate Atheism. To make it simple, no matter what you are or what you do, you have had it."

"Wait a minute," I said slowly looking around, "if this certain professor is so sadistically inclined, why didn't I hear something about him before registration."

"That's easy," was the reply from a professor who was hunting students, "you registered before these fellows and if the 'word' got out how hard this certain teacher was, the ones who registered first would skip him and sign for Mr. Givargade's classes. Thus his classes would be closed out before they registered."

"Don't take it hard," the head of the department said consoling me, as he walked off, "just take it."

One can see why I feel so unlucky.

But you know, as I sit and think about it, perhaps my luck is on the upswing. There was a notice posted on the board yesterday. It's a bit soggy now, perhaps from tears, stating that due to a conflict in scheduling, Mr. Givargade was exchanging classes with a certain teacher.

### Cannon Fire

## Marvin Smith Runs As Typical Voter

by John Cannon

Although election time won't be here until November, there is already a good deal of talk about various candidates for President. One candidate who has been completely overlooked is Marvin Smith, 34, of Kozy Korner, Ohio.

Smith, an independent, has the "typical American voter" as his campaign slogan. Smith has lived in Kozy Korner all his life and has never had a job. He is single, although he was engaged once. The wedding was cancelled when Smith nearly drowned after falling asleep in the shower. In 1958, he lost three fingers on his right hand when a vending machine door closed on them.

This writer had an opportunity to interview Smith recently.

Interviewer: "My information about you says that you have never had a job. Why not?"

Smith: "Well I never wanted to be anything but President, and I was not old enough to be President until this year."

Interviewer: "Well, the presidency is a big job. What makes you think you are qualified for it? What do you know about government?"

Smith: "Well I know a lot about government. I ought to -- I've lived off it for years."

Interviewer: "If you were elected president, what would be the first things you would try to do?"

Smith: "I would pass a law making them pump music in showers so people won't fall asleep."

Interviewer: "What do you think about the present President, Mr. Smith?"

Smith: "You mean President Johnson?"

Interviewer: "Well, that's close anyway."

Smith: "Oh, he's O. K. but he's ugly. Don't think people want an ugly President anymore? I mean with television, showing the President's face every time you turn around people get tired of looking at him if he's ugly. It's just too bad that President Johnson's ugly."

Interviewer: "What do you think about the race situation, Mr. Smith?"

Smith: "Well, all I can say is that if a person wants to bet on the horses he should have the right to."

Interviewer: "What about the labor problem?"

Smith: "I think that a more effective birth control would solve a lot of the labor problem."

Interviewer: "What if you are Catholic?"

Smith: "Oh I'm not Catholic -- I'm a Christian."

Interviewer: "But Catholics are Christian."

Smith: "They are! Well, I guess

I'm Catholic then. I don't know as much about religion as I do about politics."

Interviewer: "Do you think we should try to put a man on the moon?"

Smith: "No sir! I say that if the good Lord wanted us on the moon he would have put us there."

Interviewer: "Seems as though I've heard that answer before."

Smith: "I wouldn't doubt it. It is a typical American voter's answer. And as you know that is my campaign slogan."

Interviewer: "How much money do you think we should spend for defense?"

Smith: "Oh, enough so we will be protected from such world powers as France, North Korea, and Cambodia."

Interviewer: "Cambodia? I thought it was on the other side of the world."

Smith: "That was last week -- Not anymore she isn't."

Interviewer: "I see. It is so hard to keep track of, whose on whose side anymore. What do you think about foreign aid, Mr. Smith?"

Smith: "Well I don't think it should be given to any country that's going to spend it all in one week or so. Why just look at the United Arab Kingdom. For 15 years we gave her money. So what does she do with it? In less than one week she gave it all to Israel! And what does she get in show for? Nothing."

Interviewer: "Yes but that is only one case."

Smith: "Well there is more. France, we give her money, money, money! What does she want The Louisiana Purchase back -- That's what."

Interviewer: "What do you think about DeGaulle?"

Smith: "What? The gail? Oh well, if it starts bothering me I will just have some operation done like LBJ did, when his bothered him."

Interviewer: "What do you think your chances are of getting elected, Mr. Smith?"

Smith: "Right now I feel my chances are good as Barry Goldwater's, Harold Stassen's and Stokely Carmichael's. But I feel that if I can reach the good, honest people of America, and show them that I am the typical American voter with typical American views as I have shown in this interview, then I feel my chances will improve and my experiment will be successful!"

Interviewer: "Experiment? What Experiment?"

Smith: "Well, you see, I'm not really interested in becoming President, I'm just a trial balloon for Bobby Kennedy."

## Grading System At Stonehill Eliminated Freshmen Grades

NORTH EATON, Mass. -- Stonehill College here has adopted a new grading system which excludes freshman grades from a student's overall average when he graduates, intercollegiate Press reports.

The system, worked out by a joint faculty-student committee, provides a simple pass-failure option. It still requires a student to do well enough as a freshman to be admitted to the sophomore class, but he does not have to carry forward lowmarks he may have made while adjusting to college or when he was still undecided about his major subject.

The new system also allows an easier change in a student's major program since he does not have to carry forward a poor mark on his record from freshman courses in a major he found unsuitable.

Proponents say the program thus eases the stress on grade averages which often leads a student to take only "safe" familiar courses and to

avoid experimental subjects he may be more attracted to or talented in. They say that the freshman year is the greatest period of adjustment for most students and that many succumb to "sophomore doldrums" as a result of psychological problems acquired as freshmen.

The "fresh start" sophomore gets at Stonehill, says intercollegiate Press, strengthens "a student's sense of participation" because he "recognizes that he has more selectivity, that he can explore subject fields with relative freedom and that he can make a change in program without being penalized."

### Error In Raconteur Pictures

Friendship pictures taken by the Raconteur will be sold at \$3.50 for 20 rather than the \$2.50 as erroneously reported in the Jan. 16 issue of The Trail Blazer.

# Supreme Court Hears Arguments On Draft Card Mutilation Law

by Walter Grant  
College Press Service  
WASHINGTON -- Does a young man who burns his draft card engage in an act of "symbolic speech" which in no way interferes with the legitimate processes of government?

Or should his action be labeled as conduct, rather than speech, and thus not constitute the effective operation of the Selective Service System?

The U.S. Supreme Court heard arguments both ways the last week of January in a highly controversial case testing the constitutional validity of a 1965 law making it unlawful for any person to knowingly destroy or mutilate his draft card. This is the first test of the law before the Supreme Court.

The case was initiated by Boston University student David P. O'Brien, 21, who was convicted under the law in the Boston Federal Court in 1966. The Court of Appeals for the First District struck down the law as unconstitutional, but found O'Brien guilty of not possessing his draft card, and he was sentenced to prison anyway.

The case reached the Supreme Court on appeal from both the Justice Department and O'Brien's attorneys. The Justice Department appealed the decision that the law is unconstitutional, and, in a separate case, O'Brien appealed that it was unconstitutional for him to be sentenced for non-possession of his draft card, when he was indicted and tried for burning the card.

Marvin M. Karparkin, an American Civil Liberties Union lawyer, who argued O'Brien's case before the Supreme Court, said O'Brien burned his draft card as an act of "symbolic speech," and the 1965 law, therefore, is an abridgement of the freedom of speech guarantees of the First Amendment.

Karparkin said previous Supreme Court decisions have asserted that free speech includes not only verbal expression, but also "appropriate types of action." Among the acts of symbolic expression protected by the high court are the right of protesters to display red flags as a symbol of opposition to the government, and the right to picket and demonstrate peacefully.

U.S. Solicitor General Erwin N. Griswold conceded that some acts may be considered symbolic speech, but he argued that burning a draft card does not fall into this category. "I suppose that assaulting an official of the Selective Service System could be thought of as symbolic speech, or that refusing to report for induction could be considered symbolic speech," Griswold said.

Karparkin told the Court that Congress passed the draft-card burning law "for the purpose of suppressing dissent," and said the law has no legislative purpose. "The destruction of a Selective Service certificate by its bearer in no way affects the economic or military capabilities of the United States," he said in his brief to the Court.

However, Griswold said Congress passed the law under its constitutional authority "to raise and support armies." The legislation is constitutionally valid, he said, because it facilitates the effective operation of the Selective Service System.

The Supreme Court Justices who questioned both Karparkin and Griswold indicated they think the important point is whether or not a draft card has an important governmental function, other than to notify and registrant of his draft status.

Their questions indicated that if a draft card does have an important function, then it would be unconstitutional to destroy it. Justice Abe Fortas asked, "If somebody decides to protest high taxes by burning their tax records, would this be symbolic speech?" Chief Justice Earl Warren indicated he thinks draft cards have a legitimate purpose because of the way "millions of young people are floating around from place to place."

But Karparkin said the Selective Service System has extensive records, and a draft card only "helps to identify a young person as 18."

years of age in a state where you have to be 18 to buy alcoholic beverages."

In the second major point concerning O'Brien, Karparkin argued that the Court of Appeals was wrong in finding that O'Brien could be sentenced for not possessing his draft card because "he was not charged with this offense, the prosecution never mentioned it, the jury was not instructed to consider it, and the petitioner [O'Brien] had no reason to suppose that he was on trial for it."

Griswold, on the other hand, said if O'Brien burned his draft card, "it is an inevitable consequence that he was thereafter not in possession of it."

Justice Fortas seemed to represent the sentiments of the Court when he said, "You mean there is no unfairness by charging one thing and the justifying the sentence by referring to a totally different act?"

The Supreme Court's decision on the constitutional issues probably will be handed down in about a month.

## Clemson Asks \$47 Million For 1975

Intercollegiate Press  
CLEMSON, S.C. -- A \$46,975,000 building program for Clemson University to meet the needs of a 10,000 - student enrollment by 1975 was recently submitted to the State Budget and Control Board by Clemson's president, Dr. Robert C. Edwards.

The program lists \$17,905,000 in permanent improvements for educational and general purposes which are needed immediately. The remainder of the program comprises educational and general improvements for later dates and a \$16,600,000 student housing program to be spread over the next six years.

Urging state support for the program, Dr. Edwards said Clemson has reached the point where it no longer is possible to construct necessary facilities with funds from state institution bonds and revenue bonds.

"If we are to meet the demands made upon us and not deny admission to qualified South Carolina students desiring to attend Clemson," Dr. Edwards said, it will be necessary for additional funds to be provided by the General Assembly.

A \$3,600,000 University Union Building to serve as a center for student and faculty life and activities is the top priority among proposed new buildings.

The student housing program to be needed in stages between now and August, 1973, includes, in addition to buildings already under construction, four more high-rise dormitories for approximately 500 students each; one more smaller dormitory for approximately 150 students; and 45 apartments for married students.

HONORED . . . Mrs. Iris Davenport Mahan, visiting professor of home economics at the University, is one of 200 home economics administrators to be honored by the National Council of Administrators of Home Economics in Chicago February 16.

# Progress Of Upward Bound Program Discussed By High School Seniors

One hundred seniors from 14 Eastern high schools met at the University Saturday for a Project Upward Bound progress meeting.

Upward Bound is a pre-college preparatory program designed to motivate young people from low-income backgrounds and inadequate second-

dary school preparation toward higher education.

It is supported by the Office of Economic Opportunity in Washington. There are 252 institutions participating in the program with more than 23,000 young people involved.

## MORNINGS AT SEVEN...AND THERE'S NOTHING YOU CAN DO ABOUT IT

Any man who says morning is the best time of day is either a liar or a meadow-lark.

There is only one way to make morning enjoyable: sleep till noon. Failing that, the very best you can do is to make morning tolerable. This, I am pleased to report, is possible if you follow three simple rules:

1. Shave properly.  
By shaving properly I mean shaving gently. Don't use a blade that whines and complains. Morning being a time of elation and anger, use a blade that neither clangs nor angers. Use a blade that makes no din on your chin, no squeak on your cheek, no howl on your jaw, no rip on your lip, no waves while it shaves. Use, in short, Personna Super Stainless Steel Blades.

I have been shaving for 71 years (not too impressive until one considers that I am 19 years old) and I am here to tell you that the quietest blade I know is Personna. I not only shave with Personna, but I also admire it. Old virtues resound in Personna: old values are reborn. Personna is a modest blade, an undemanding blade. Personna does not rasp and tug, yelling, "Hey, lookit me!" No, sir, not Personna! Silently, respectfully, unobtrusively, Personna whisks your whiskers with airy a whisper. It shucks your soil and stubble without toil and trouble. Why, you hardly know it's there, this well-bred Personna blade, this paragon of perfection.

Moreover, this crown of the blade-maker's art, this epitome of epidermal efficacy, is available both in Double-edge style and Injector style. Do your kisser a favor: get some.

2. Assert that a Personna shave is the best of all possible shaves. But I do not assert that a Personna shave, bracing though it may be, is enough to prepare you for the hideous forenoon ahead. After shaving you must eat an ample breakfast.

Take, for example, the case of Basil Metabolism, a sophomore at V.M.I. Basil, knowing there was to be an inspection by the Commandant one morning, prepared by storing up energy. He recognized that coffee and juice would not sustain him, so he had a clutch of bacon, a clutch of eggs, a batch of bagels, a notch of ham, a bunch of butter, a swath of grils, a batch of honey, a patch of jelly, a thatch of jam, a fitch of pepper, and a pinch of salt.

The idea was right; the quantities, alas, were not. When the Commandant arrived, Basil, alas, was so torpid that he could not raise his blatted arm in a proper salute. He was, of course, immediately shot by a firing squad. Today, a perforated man, he earns a meagre living as a cullender in Cleveland.

3. Read properly.  
Always read the paper at breakfast. It inhibits belching. But do not read the front page. That is full of bad acid-making news. Read a more pleasant part of the paper: the Home and Garden section, for example.

For instance, in my local paper, *The West-Net Present*, there is a delightful column called "Ask Hairy Homespun" which fairly bristles with bawdic wisdom and many an earthy chuckle. I quote some questions and answers:

- Q: I'm on thinking of buying some power tools. What should I get first?  
A: Hospitalization.  
Q: How do you get rid of moles?  
A: Face the lens.  
Q: What is the best way to put a wide car in a narrow garage?  
A: Butter it.  
Q: What do you do for elm blight?  
A: Salt water gargle and bed rest.  
Q: What can I do for dry hair?  
A: Get a wet hat.

© 1966 Max Shulman

Personna's partner in shaving comfort is Barma-Shave, regular or menthol. Together, Personna and Barma-Shave make a considerable contribution toward forenoon survival.

# Spring Haven Atop Lochegee Rock Supposed To Be A Park -- Or Is It?

by Ray Tussey

Because of the expansion of the University building program, the available open land the University owns, has been shrinking. So the University may be happy to learn that it may own 50 acres it has no record of.

It sounds great -- the only hitch is that the land in question is centered around a huge rock on top of Clark Mountain.

The rock, known as Lochegee [pronounced Lock-ke-gee] is one of the highest points in Rowan County. It is a haven in the spring for students who like to picnic or just get away from the campus for a while.

From atop Lochegee the Earth drops away, and only tops of the huge trees below are visible. On a clear day a panorama of color may extend for 5 to 20 miles.

The rock features pine trees, moss and the carved initials of former Morehead students. These initials lend an air of mystery to the place as one tries to visualize the people they belong to.

Lochegee is a mysterious mass of rock, not so much because of the initials, nor its varied collections of plants, but because of the question of who owns it.

The National Forest Service should own it, but does it?

According to the January, 1950, issue of The Trail Blazer, Lochegee Rock and 50 acres surrounding it, was granted to then Morehead State College, by the National Forestry Service, to develop as a college park.

The report stated that the College was to improve the Lochegee area, "surveying, marking and mapping the track of land, marking and beginning construction of a one and one-half mile nature trail over the area, and the installation of a fireplace and a grill atop Lochegee for picnicking, better accessibility to the top and

marking and labeling of significant ecological, geological and botanical areas.

Lochegee Rock was supposed to become a recreational outlet for college students. It was presented by a George Nietzold to President Jessie Baird, who accepted it for the college.

Over the next few years, there was a succession of presidents and perhaps the park idea got lost in the shuffle. Very few students ever heard about the grant, Rowan County Court-house has no record of the deed. No long-time faculty or staff members we talked to recall the grant.

In any event, if the grant was made, does the University still own a park? If so, what is it supposed to do about it?

Many students hope they do nothing.

Maybe Lochegee doesn't have signs, or a barbecue grill, or running water except when it rains. But it does have an unspoiled quality, which once replaced by artificial paths, artificial fire places and other artificial things, cannot be duplicated or replaced.

## My Neighbors

"Your receptionist, for one, said I might call again."

## Refused To Reveal Sources

# Student Editor's Conviction Upheld By Oregon Court

College Press Service  
SALEM, ORE. — The Oregon Supreme Court has upheld the conviction of a former student editor who refused to reveal the names of seven marijuana users she interviewed.

The editor, Mrs. Annette Buchanan Conard, said she plans to appeal the decision to the U.S. Supreme Court. The interview appeared in the May 24, 1966, edition of the University of Oregon Daily Emerald, of which she was managing editor. She was subpoenaed by Eugene, Ore., District Attorney William Frye but refused to reveal the names of the students to a grand jury, despite a court order that she do so. She was then cited for contempt of court and fined \$300.

In the arguments before the Oregon Supreme Court, the state maintained that her refusal constituted withholding information necessary for the arrest and prosecution of drug users. Mrs. Conard's attorney, Arthur Johnson, countered that the Constitutional provisions for a free student press included the right of a reporter to withhold the identity of confidential news sources.

But the state Supreme Court decision, written by Justice A. T. Goodwin, says, "Nothing in the state or federal constitutions compels the courts, in the absence of statutes, to recognize such a privilege. Freedom of the press is a right which belongs to the public. It is not the private reserve of those who possess the implements of publishing."

Oregon has no law which allows newsmen to refuse to reveal confidential sources, as doctors and ministers can. Thirteen states do have such a law. Mrs. Conard has been working for passage of such a law in Oregon. She said she was "dis-

appointed" at the Supreme Court's decision and that it made passage of such a law all the more necessary.

Meanwhile, in Milwaukee, Wis., District Attorney Hugh O'Connell has decided not to subpoena editors of the UWM Post, the campus newspaper at the University of Wisconsin, Milwaukee. The paper ran a 20-page special addition on drug use which included polls and interviews with drug users among the university's faculty and students.

O'Connell originally said he was considering such action but has since changed his mind. He did ask the school's dean of student affairs, David Robinson, to reveal the names of student drug users known to him, but Robinson refused. The DA was unable to take Robinson to court because of a Wisconsin law which requires college deans and counselors not to reveal information given them in confidence by students.

The supplement included polls which showed that 20 percent of the students and 21 percent of the faculty used drugs and 42 percent of the students favored legalization of marijuana. It also contained interviews with users and historical and factual articles about drugs.

HODGENVILLE SITE—In 1789 Robert Hodgen erected a mill on his land, the present site of Hodgenville, Ky. In addition to the mill and the farm, he operated a tavern or "ordinary" in which many notables were entertained, including the French botanist Michaux and the royal travelers, Louis Philippe and his brothers.

## '68 Chevrolet—Sale savings now on specially equipped Impala V8s:

Impala V8 Sport Coupe, 4-Door Sedan and Station Wagons—equipped with beauty and protection extras—are yours to choose from. Save money, too, ordering custom feature packages like power steering and brakes.

# You've got nothing to gain by settling for less car.

(not even money)

## '68 Chevelle—Prices start lower than any other mid-size car's.

Sized to your needs, both in 112" and 116" wheelbases, Chevelle delivers big-Chevy ride and comfort in a mid-size car at your kind of price.

## '68 Camaro—lowest priced of all leading sportsters.

Sporty like Corvette, yet with family-style room. Features like Astro Ventilation and a 327-cu.-in. standard V8. No wonder Camaro's popularity is growing faster than any other sportster's in the industry.

Now you can "customize" your Camaro

with bold new striping, mag-spoke wheel covers, a spoiler out back, new "hot tooth" upholstery plus four new colors for Camaro: Corvette Bronze, British Green, Rallye Green and Le Mans Blue.

CHEVROLET

Be smart. Be sure. Buy now at your Chevrolet dealer's.

## Alumni Association Taking Applications For Scholarships

The Alumni Association is now accepting applications from high school seniors for the annual alumni scholarships to be awarded this spring, according to Rondal Hart, director of alumni affairs at the University.

Last year 15 scholarships, each valued at \$200, were awarded. The association has not announced how many will be awarded this year, but tentative plans are to offer at least as many as were placed last year.

An applicant must be a prospective graduating senior at a Kentucky high school or at a high school with a Morehead alumnus on the faculty or residing in the community. The applicant should be recommended by this alumnus.

Anyone applying must be approved by the principal or guidance counselor of his school. The application must show work of the first semester of the student's senior year, as well as the other three years.

Final selections are based on character, scholastic achievement, leadership and other qualities.

Interested students may write Director of Alumni Affairs, Morehead State University Alumni Association, Morehead, Kentucky 40351, by March 1.

## ROTC Tests To Be Given

Col. Thomas A. Thomas, professor of military science, has announced that all men interested in the accelerated (2 year) ROTC program must take the ROTC qualification tests and the Officer Qualification inventory.

Exams are being given now. Those interested should make an appointment in the ROTC office, Room 200 in the Laughlin Health Building.

Physical exams will be given on March 10 at Eastern Kentucky University and April 7 at the Reserve Medical Unit in Lexington. Transportation to the exam centers will be provided for.

The deadline to process all applicants and have all papers in for selection at Army Headquarters at Fort Meade, Md. is April 14.

# Eagle's Second Half Spree Downs Murray

## Morehead's 101-80 Romp Keeps OVC Hopes Alive

Morehead roared out at the start of the second half, scoring the first 14 points and 27 of the first 30 and went on to slap Murray 101-80 last night in the Laughlin Fieldhouse.

After holding a slim one point lead at halftime, Morehead built up as much as a 29 point bulge [81-52] in the second half. Murray then went on a scoring spree, outdistancing the Eagles 20-5 and cutting the margin to 12 with 4:44 left in the game.

This was as close as Murray could get, however, and Morehead kept its hopes for the OVC crown alive. The Eagles are now 6-3 in conference play and 9-5 overall.

The loss was Murray's third in conference competition, but the Thoroughbreds remain in second place, a game ahead of Morehead on virtue of their two extra victories.

East Tennessee, a 100-75 victor over Middle Tennessee last night, took over first place from Murray.

Jerry Conley paced the Morehead scoring attack, hitting on 10 of 18 from the field and adding four free throws for 24 points. Willie Jackson pitched in with 21 points.

Morehead was without the services of senior forward Larry Jordan, the team's number two scorer, who was sidelined with a virus.

Sophomore Ron Gathright replaced Jordan in the starting lineup and came through with a brilliant performance, scoring 18 points and hauling down 14 rebounds.

Claude Virden topped Murray with 29 points, while Billy Chumblor added 14, all in the first half.

Morehead outbounded the thoroughbreds 52-32, with Lamar Green leading the way with 19. Besides Gathright's 14, Jackson had 13 for the Eagles.

Virden led Murray with 11 retrievals. Dick Cunningham, the nation's number four rebounder, had only five and set out much of the second half as the game picked up tempo.

Morehead continued its blistering pace from the field, connecting on 43 of 75 shots for 57.3 per cent. It was the third straight game the Eagles have hit over 50 per cent of their field goal attempts.

Murray hit a respectable 44.1 per cent, but it wasn't good enough.

Murray jumped out to an early lead at the start of the half game but Morehead grabbed the lead after five minutes and held it most of the first half.

Morehead built as much as a nine point lead but Murray came back and went ahead with 3:13 left.

Morehead quickly regained the lead but it appeared Murray would take a one-point advantage into the dressing room at halftime when Jim Stocks hit a four-foot jumper with 34 seconds left.

Gathright, however, drove in for a layup with two seconds left in the half and Morehead had a lead it never relinquished.

Three technical fouls were called on Murray, one of them on coach Cal Luther after the horn had sounded ending the first half.

Morehead shot the technical at the beginning of the second half, but Danny Cornett's shot wasn't even close. It was so short, Cornett and his teammates broke out laughing. This seemed to relax them and help contribute to the second half splurge.

Jerry Umberger's 18-ft. jumper with one second left in the game pushed the Eagles over the century mark and the crowd went wild.

In a preliminary game, Morehead's Freshmen rolled over Kentucky Christian 124-101.

The junior college from Grayson kept with the Baby Frosh most of the first half, but Morehead took a 15 point lead at halftime.

Three Eagles hit over 20 points, led by Jimmy Day with 27. Larry McKenzie added 23 and Gary Hall 21.

Other players in double figures for Morehead were Dwight Mattison with 16 points, Jerry Hueseman with 15 and Alan Harney with 11.

KENTUCKY FORESTS-Forests cover about 45 percent of Kentucky's land area.

TWO FOR HILES... Bobby Hiles, former all-stater from Maysville who became eligible the second semester, drives in for a layup against Eastern Kentucky.

## Eagles Slap Austin Peay 87-66 After Slow Start

Morehead overcame a sluggish start Saturday night and used a balanced scoring attack to down Austin Peay 87-66 in the Laughlin Fieldhouse.

The Governors from Clarksville, Tenn. took an early lead and had the score tied at 14-14 with 11:42 left in the first half. Jerry Conley's 17-foot jump shot 20 seconds later gave Morehead a lead it never relinquished.

Junior guard Danny Cornett, who had been replaced in the starting lineup by Bobby Hiles, came off the bench and helped push Morehead to a 17 point halftime lead.

Connecting on six of six from the field, all of which were 15 to 25 foot jumpers, Cornett led Morehead scoring at halftime with 12 points.

Austin Peay moved to within 12 points early in the second half, but the Eagles widened the gap back to 16 and held a commanding lead the rest of the way.

Three players topped the well-balanced Morehead scoring attack that saw five players hit in double figures. Cornett, Larry Jordan and Conley had 16 points apiece, while Lamar Green added 15 and Willie Jackson 12.

Austin Peay was led by former Louisville Central star Howard

Moore	0	3-5	3
Rollins	0	2-2	2
Miller	1	2-2	4
Totals	20	26-34	66

Wright with 25 points. Bob Burnett was the only other Gov in double figures with 19 points.

Cornett was Morehead's top marksman, hitting eight of nine, while the team was connecting on 35 of 67 field goal attempts for 52.2 per cent.

Green and Jackson hauled down 12 rebounds apiece as Morehead won the battle of the boards 48-38.

Morehead's hustling, aggressive defense and blistering pace from the field made it a happy homecoming for some 80 former Morehead athletes who attended the game as guest of the University.

Among the former letter winners were eight of the nine players from Morehead's first basketball team plus coach George Downing, Downing, who coached all sports at the then Morehead Normal School, had only 13 athletes for all sports.

## Tommy Gray Signs Pro-Pact With 49'ers

Tommy Gray, a star back on the Morehead State University football team for four years, has signed a professional contract with the San Francisco 49'ers of the National Football League.

The speedy Gray [9.3 in the 100-yard dash] was signed by Dick Gallagher of Buffalo, New York, a special assignment representative of the 49'ers. Terms of the contract were not disclosed.

Gray, Morehead's leading rusher last year with a 5.6-yard average, was the 49'ers eighth draft choice and will report to the 49'ers training camp at St. Marys College, St. Marys, Calif. in July.

Gallagher, who was general manager of the Buffalo Bills in the American Football League for seven years, said Gray had a good chance

MAROON-FALSE START... An Eastern Kentucky swimmer [third from left] has a false start in the 100-yard freestyle during Eastern's easy win over Morehead at the Morehead pool Friday.

# Chapman, Hallum Named Football Aids; First Semester Sadler To Coach MSU Tennis Team Offered Variety Of Intramurals

Two successful high school coaches have joined the Morehead State University football coaching staff as assistants and a teacher in the physical education department has been named tennis coach.

Head coach Guy Penny has named Wayne Chapman and Jake Hallum to replace the departed Ron Durby and Jerry Denstorff.

George Sadler has been named to succeed Denstorff as the University tennis coach.

Chapman will take Durby's place as offensive line coach and Hallum will take Denstorff's post as defensive line coach. Durby left the staff in December to accept a coaching post at the University of Chattanooga, while Denstorff recently was named head coach at Bloomsburg, [Pa.] State College.

Hallum compiled a 20-6 record in two seasons as head mentor at Paul Blazer High School in Ashland. He led the Tomcats to the state Class AA championship this past season with a 13-1 mark.

"I feel just like a freshman," Hallum said on the first day of his new job, which includes teaching several classes. "I've got a lot to learn."

"Hallum played football in college at Newberry College in South Carolina. Following graduation, he served as an assistant coach at Pickens, S.C. for two years before going to Hopkinsville, where he was an assistant for four years under Fleming Thornton.

Hallum helped develop the football powerhouses at Hopkinsville which won two straight Class AA titles before being dethroned by Hallum's Ashland team.

Although he had only been at Ashland two years, Hallum developed a highly favorable reputation among the townspeople, and was cited for his work, not only with the football team, but with the YMCA, church and community activities.

He was named Ashland's Outstanding Young Man for 1968 by the Junior Chamber of Commerce.

Chapman, like Hallum, had many other college offers before leaving his post in Auburndale, Fla., where he was head coach for the last three of his seven years there.

"This will be a whole new start for me," said Chapman, who played varsity football at Morehead for four years, two of which he won All-Ohio Valley Conference honors.

The Barboursville, W. Va. native compiled a three year record of 26-2 at Auburndale.

"We are very, very fortunate to get these two outstanding coaches," coach Penny said.

"I am confident the experience and the enthusiasm which they will bring to our staff will give us one of the finest and most competent coaching staffs the University has ever had," he added.

Sadler came to Morehead last year from Campbellsville College, where he served as baseball, basketball and tennis coach for seven years.

Sadler, a native of Harrodsburg, has almost filled the tennis team's schedule of 11 matches, including triangular meets at Western and Tennessee Tech.

"We're going to have more Ohio Valley Conference schools on the schedule this year and try for some tougher competition," Sadler said.

A member of the Southern Lawn Tennis Association and the Lexington Tennis Club, Sadler attended college at Western Kentucky and did graduate work at Eastern and the University of Kentucky.

The intramural activities for the fall semester of this school year offered almost every sports fan a different form of excitement. Competition included over ten district forms of physical exercise and enjoyment. The activities ranged from men's basketball involving over 700, to a rook tournament with a combined total of only four participants.

Under the direction of Robert M. Wells and his department, tournaments were held in swimming, field hockey, rook, weight-lifting, aerial darts, golf, archery, table tennis, and handball. Along with these tournaments there were leagues set up for flag football, men's and women's basketball, and bowling.

Probably the largest attendance was at the flag football championship game. A rugged defensive contest resulted with Blue league champs, RCH's victorious. Other highlights include the Rebel's win over the Shads for the women's basketball championship. Pat Lunsford winning the handball tournament; Henry Woo winning the table tennis tournament; and James Lemaster winning the archery tournament.

Deloris Gonn won the aerial darts championship, while Terry Marshall survived a field of 16 to win the men's golf tournament. Jorja Walter was the winner in women's archery.

## Gray Signs Pro Contract With San Francisco 49'ers

Continued From Page 10

to play for the San Francisco team.

The 49'ers have a special need for a player with Tommy's ability," he said. "Because of his great speed, his quickness and good hands, the 49'ers most likely will use him for kickoff and punt returns."

Gallagher also pointed out that the 49'ers' flanker job was up for grabs, and "Tommy has as good a chance at the job as anyone we know of at the moment."

Gray, who combined great open field running with his blazing speed, returned 37 kickoffs for 869 yards and one touchdown in his four-year Morehead career.

He also ran back 12 punts for 266 yards and a 22.1-yard average. 11 of these punts came in 1967 and three

resulted in touchdowns while two others were called back because of penalties.

Gray's four-year rushing record totaled 1,660 yards on 292 carries, a 5.6-yard average. He also caught 47 passes as an Eagle for 683 yards and five touchdowns.

In 1966 Gray led Morehead to its first undisputed Ohio Valley Conference championship as he rushed for 598 yards in 92 carries for a 6.5-yard average and 14 touchdowns.

His three touchdowns in the final game of the season against Eastern Kentucky, the last with fifteen seconds left in the game, gave Morehead the CVC crown and help contribute to his being named Offensive Player of the Year in the conference.

GRAY SIGNS PRO CONTRACT . . . Tommy Gray, one of the all time rushing leaders in Morehead football history, signs a contract with the San Francisco 49'ers as 49'ers special assistant Dick Gallagher looks on.

# MSU Zips By Eastern To Snap Losing Streak

Morehead ended a two-game losing streak and extended their streak over Eastern Kentucky to three as they downed the visiting Colonels 89-80 Feb. 3.

"It was a must game for us," said Head Coach Bob Wright and this was the feeling shown by the Morehead players as they laid it on the line to each other in pre-game meetings held without the coaches.

The Eagles stormed onto the Laughlin Fieldhouse court and looked completely different from the team that lost to second division occupant Tennessee Tech the week before.

Morehead hit its first eight shots and built up a 24-10 lead with only six minutes gone in the game. But the Eagles then hit a cold spell and went over five minutes without a score.

Eastern tied it at 26-26 and 28-28 with over six minutes left in the half before Morehead got the lead back on Lamar Green's 18-foot jump shot. The Eagles held the lead till six seconds left in the half when Eastern went ahead on Garfield Smith's two free throws.

The score stood 42-41 at halftime and Eastern stretched its advantage to 44-41 on Boyd Lynch's jump shot at the start of the second half.

But Willie [Hobo] Jackson's three-point play tied the score and Danny Cornett went on top to stay on Danny Cornett's 22-foot jumper with 18:20 left.

The game was close the rest of the time but Eastern could get no closer than one point and the nine-point victory margin was Morehead's largest of the half.

Jackson topped the Morehead scoring for the third time since regaining his starting role after a pre-season injury. Th Birmingham, Ala. junior hit on nine of 14 from the field and six of 11 from the free throw line for 24 points.

Jerry Conley aided Jackson with 20 points. Bobby Hiles, having his biggest night since becoming eligible the second semester, came through with 16 points, 15 of them the second half.

Senior forward Larry Jordan had

13 points and Green 10, giving the Eagles five men in double figures. All-OVC guard Bobby Washington and his sophomore running mate Toke Coleman helped keep Eastern in the game.

Washington hit on 10 of 19 from the field, many of them long leaved jumpers, and nine of 10 from the charity line as he took game honors with 29 points. Coleman finished with 18.

Smith put in 21 points for the Maroons and the nation's number one rebounder pulled 12 missed shots off the boards, well below his average.

Jackson played Smith to a stand still in their head-on battle and hauled in 11 rebounds, tops for Morehead.

The Eagles hit a blistering 59 per cent from the field, connecting on 36 of 61 tries. Eastern, meanwhile, hit on only 28 of 75 for a cool 39.3 per cent.

Morehead came out even in rebounds against Eastern, who entered the game leading the nation in rebounds. Each team gathered in 46.

## Large I-M Action

Continued On Page 11

Mickey Barker and Jim Hensley won the rook tournament, and the Obstructors defeated the Outcasts to become women's field hockey champs.

Also a total of ten records were broken in the weightlifting and swimming tournaments.

Even with all these events in the past, intramural competition continues.

With the season almost finished only 11 of the 74 men's basketball teams remain undefeated. The league with their respective records and leagues are: League I-TAE I 5-0; League II-Morons 6-0; League III--CK's 5-0 and Vets Club 5-0; League IV--CK's I 5-0; League V--Campus Club III 5-0; League VI--Jim's Jewells 5-0; League VII--666's 4-0 and Wildcats 4-0; and League VIII--Old Timers 4-0 and Cooper Hall 4-0.

Don Hall of the Dorgies still remains the basketball scoring leader. Hall, in four games, has accumulated 107 points for a 26.7 average.

Jerry Akers, Playboys, 21 average and Steve Walburn, Movers, 19.2 average hold down second and third positions.

JACKSON GRAHS REBOUNDS . . . Willie [Hobo] Jackson outduels two Eastern Kentucky players for a rebound in the Eagles' 89-80 victory Feb. 3.

## Eleven Prep Gridders Sign Grant-In-Aids With MSU

Head football coach Guy Penny has announced the signing of 14 more high school football players to Eagle grant-in-aids, bringing the total number signed to 21.

Signing with Morehead recently were Frederick Hemmert and Laine Howard from Piqua, Ohio; Junior Turner from Cincinnati; Ronnie Little and Buddy Malone from Ft. Payne, Ala.; Dave Farrester from Hamilton, Ohio; James Edwards, John Lemke, Richard Meranda and James Everett Bayes from Dayton, Ohio; Bradey Skinner from Brookville, Ohio; Danny Ray Cassidy from Xenia, Ohio; and Charles Kemper and James Trowbridge from Logan, Ohio.

Signed earlier by the Morehead coaches were guard Larry Johnson from Ashland's state Class AA championship team; Jerome Howard, third team all-state guard from Lexington Bryan Station; Earl Toft, a full-back and Phil Redrow a quarterback from Williamsburg, Ohio; Gary Hester, an end from Cave Spring, Ga.; William Casson, halfback from Bourbon County; tackle David Delabar from Wheelersburg, Ohio.

Hemmert, a 6-1, 190-pound tackle, received honorable mention in the All-Miami Valley League last season. His teammate at Piqua Central High School, Howard is a 215-pound tackle who played three years at Piqua.

Turner, a 5-7, 175-pound tailback from Woodward High School in Cincinnati, runs the 100-yard dash in 9.7. He received All-City honors

in Cincinnati last season and, in Coach Penny's opinion, "could become another Tommy Gray."

Alabamian Little stands 6-foot-1 and weighs 185 pounds. He is a line-backer and guard and made the honorable mention All-State team.

Malone also made honorable mention All-State in Alabama and is a 6-1, 170-pound quarterback who is regarded as an excellent passer.

Forester, also 6-1, but weighing 185 pounds, played for Baden High School in Hamilton and was an All-State selection. He will play in Ohio's annual North-South All-Star game in August.

The 6-3, 195-pound Edwards was named All-Ohio defensive end playing for Beaver Creek.

Lemke and Meranda were teammates at Dayton Chaminade. Lemke is a 5-11, 195-pound lineman who could play linebacker or defensive end for Morehead. Meranda, a 190-pound, played center for Chaminade.

Bayes attended Trotwood High School and was named to the All-Southwestern Buckeye League Team. He is a 6-1, 187 pound middle guard on defense.

Skinner was a bruising 6-3, 210-pound fullback for Brookville. The 185-pound Cassidy played linebacker while Kemper was a 235-pound full-back and Trowbridge a 195-pound tackle.

The coaches are well pleased with the recruiting so far, although they are still looking for another running back and quarterback. "This is one of the best years I have had in recruiting," said Penny.

Before the game, Jerry tries to relax but shows the anxiety of pre-game nerves.

Jerry leads the Eagles onto the court through a fraternity's No. 1 sign.

Pre-game warmup allows Conley and teammates to get prepared, both physically and mentally for the game.

## Basketball Just Another Production

Morehead coach Bob Wright [center] reviews strategy with Conley and fellow Eagles during a timeout.

It is like any other production, this basketball business.

The star in this pictorial layout is Jerry Conley, a junior from Jenkins who plays a key role in the production of Morehead basketball.

How well he plays his role depends on how well the team production is. Most of the time he plays the role well and that is why he is back on stage the next night and the next night in a starring position.

This basketball business, it is like any other production with the hardwood court serving as stage and basketball fans serving as audience. And Jerry Conley is a star.

With another game on the record books, Conley escorts his girl friend home.

Noted for his aggressive brand of play, Conley steals the ball, heads down court . . .

. . . and drives in for a two-point lay up. He currently leads the team in scoring.

LOCATED ACROSS FROM THE KCI

# Jackson-Green Association Had Quiet Beginning

The story of the association of Willie Jackson and Lamar Green with Morehead State University had a rather innocent beginning some five years ago.

It all started in a Birmingham, Ala., gas station in the spring of 1963 when Rex Chaney was coaching the Eagle baseball team and assisting with the basketball team. The baseball team was in town to play Howard College.

"I was just checking to see if there were any big boys down here and this fella said he didn't know of any but there was a speedball who would make somebody a good half-back," Chaney said.

That led to the discovery of Tommy Gray, the 1966 offensive player of the year in the Ohio Valley Conference and a recent draftee of the San Francisco 49ers.

"Tommy was at Ullman High School, and Willie was just a sophomore when I asked to see him," Chaney reflected. "He was as big then as he is now."

At Ullman, Chaney was told about Bruce King and Howard Smith, who played at Carver High School and also a sophomore named Green who "could jump through the ceiling." Smith played three years and King two and one-half seasons at Morehead.

"Bruce graduated in January from Carver and came right on up and signed when he got here," Chaney said. King averaged 11.4 points a game and 11.7 rebounds for his 55-game career here.

The contact was made when Jackson graduated in January, 1965, and he, like King, came to Morehead and signed when he got here.

Freshman coach Sonny Allen well remembers Jackson's freshman debut.

"We put him in against Marshall's freshmen and he got something like 27 points and 21 rebounds, and that was against George Stone and Bob Redd," Allen recalls. Stone and Redd were the nucleus of the Marshall team that finished fourth in last year's N.I.T.

Green was pondering over offers from several small colleges in Alabama and a few from Tennessee along with Morehead until King and Smith got to work on him.

"They just talked me into it," smiled the industrial arts major, who amazes fans with his exceptional jumping ability and high arching shots from the field.

Jackson was red-shirted Green's freshman season and last year as sophomores they helped lead Morehead to a second-place tie in the OVC behind Western.

Jackson, nicknamed Hobo, averaged 13.3 points a game and 12 rebounds and was runner-up for Sophomore of the Year honors in the league. Green did not see as much action due to two knee operations but still averaged 6.2 points a game and six rebounds.

This year was to be the year, but Jackson suffered a twisted knee in practice on Nov. 20 and didn't gain full strength until the seventh game of the season.

"There is no question that Lamar is the better jumper of the two, but I would say that Smith was the best jumper we got from Birmingham," said Morehead coach Bob Wright. "And that shot of his," Wright

said of Green, "why in one game, two of the shots he made came through the nets with icicles on them."

Both Birmingham bouncers stand 6-7 with Hobo the heavier at 225 pounds and Green at 215.

There is only one small problem with both of them in the lineup and that is with rebounding. In fact, they rebound too well.

"I'm afraid we might lose some rebounds for them fighting each other for the ball," Wright lamented. "They battled their way from each other in the Western game."

But life is full of problems and for Wright this is a pleasant one.

It almost makes you want to revise that baseball schedule and send the baseball team back to Birmingham.

## Stale Eagles Lose To Tech, East Tenn.

Morehead's Eagles, after a 12-day layoff for semester tests, found the going rough and dropped decisions to Tennessee Tech and East Tennessee.

Morehead never tied in its 81-76 loss at East Tennessee Jan. 29. But the Eagles had the standing room only crowd at Johnson City on the edge of its seats all the way down the wire as it cut a 15-point Buc-cancer lead to two in the final 78 seconds.

Cold-shooting hampered Eagle efforts early as East Tennessee jumped to a 5-0 lead in the first three minutes. The closest the visitors could get in the first 20 minutes was a 15-14 before the home-standing Bucs pulled away again to a 39-34 halftime lead.

Things didn't improve at the outset of the second half for Morehead either as Harley Swift and Ernie Sims combined for an East Tennessee flurry that left the Eagles trailing 62-47 with 12:37 left in the game.

Jerry Conley provided the spark for the Morehead comeback along with reserve Ron Gathright. Bobby Hiles, playing only his second game of the season, put the Eagles to within two points at 78-76 with 1:18 remaining with two clutch free throws.

The Buc's Mike Kretzer was fouled, but missed his free throw and Morehead got the ball with 40 seconds to go, only to have Kretzer steal it away 25 seconds later, hit two free throws and sew up the decision.

Conley led Morehead with 23 points followed by Willie Jackson with 14 and Larry Jordan and Gathright with 11.

Swift led the Bucs with 25 points and sophomore Kretzer added 20. The Tennessee Tech Jan. 27 at Morehead was one not to show the grandchildren as far as the Eagles were concerned as they hit a poor 32 per cent from the field and made countless floor errors.

Tech, the same bunch that whipped the Eagles 71-63 in the OVC Tournament, led by six, 37-31 at halftime. After Morehead had tied the score at 56-56 with 9:26 left in the game, Tech came back to build a nine point

# Regional Drama Festival Slated For February 17

Five area high schools will preseng plays at the 18th annual Morehead Regional High School Drama Festival in Burton Auditorium, Feb. 17.

The festival is sponsored annually by the University of Kentucky in co-operation with its Department of Theatre Arts and with other area colleges of the state. Morehead is

one of Kentucky's eleven regionals. All participating schools will be judged and rated. Trophies will be awarded for the best play and for the best actor and actress. Schools receiving a superior rating will go on to the state festival March 7-9 at the University of Kentucky.

The plays must be either one acts or cuttings from full lengths plays and must not exceed 35 minutes. Emphasis will be on directing, acting and choice of play with stage settings, lighting effects and properties held to a minimum and given secondary attention.

The schools participating in this region and the plays they will be presenting are as follows: Mason County, "Spoon River Anthology," Paul G. Blazer, "Riders to the Sea," University Breckinridge, "Strange Rain," St. Patrick, "The Boor," and Mt. Sterling, "Take a Letter."

**EARLY EXPLORER** - Until Dr. Thomas Walker and a small band of surveyors entered Kentucky in 1750, it remained largely uncharted and unknown.

# Imbalance Noted In Colleges

GAMBIER, OHIO -- "Lack of Balance" was described recently as the difference between separate colleges for men and women and their coeducational neighbors. The statement was made by Bruce Haywood, provost of Kenyon College.

The reason for abandoning separate education, the Kenyon educator and a major voice in the current trend toward cognate education says, "is that excluding the male or the female, the college risks a dangerous imbalance."

"It is surely an irony," he notes, "that our separate colleges have for so long been champions of liberal education, of a faith in a kind of education to which balance is fundamental -- balance between depth and breadth, between the arts and sciences, between the demands of specialized and general study, between the needs of the professional and the private person."

Provost Haywood sees imbalance in virtually every aspect of the corporate life of both men's and women's colleges. As one example, he says, "The women's college which supports a staff of five in French will likely have no more than one or two in physics, suggesting an equal imbalance in the distribution of students between the humanities

and sciences. In the men's college, the situations are nearly reversed."

However, there is a reasonable alternative to both coeducation and separate education, the Kenyon Provost says. This is the coordinate college. The virtue of the arrangement Kenyon is adopting lies in its proposition that men and women -- living on their separate and distinctive campuses -- may independently explore their separate worlds, while coming together in the classroom and laboratory to explore the world that is common to both.

When Kenyon opens a women's college in 1969, he says, "we have sought to make it so far as possible the equal partner of our men's college. It will have its own portion of our community, its distinctive architecture, its own dean, and, we hope, its own life." It is hoped the new institution will develop its own traditions and special forms.

Our experiment is as yet a unique one, Provost Haywood says. "Whether 10 or 2 years from now it will result in an academic community with an ethos importantly different from that of a coeducational college, we cannot confidentially say. We hope that it will and we believe the experiment will be worth our best efforts."

# State Eagles Lose To Tech, East Tenn.

Continued From Page 14

lead and take the win.

Jackson topped the Eagles in this one with 23 points, followed by Jordan with 17, Lamar Green with 14 and Conley with 10. Bill Bland, a native Knuckian, led Tech with 21 points, followed by Jim Sutton with 19 and Frank Barleson with 13.

The Morehead freshmen team did salvage some glory for the school by matching the two varsity defeats with narrow victories.

Saturday it outlasted the University of Kentucky Dental School 110-98 and came back Monday night to upset the University of Cincinnati yeildings 80-77.

Against the Dental School, Larry McKenzie and Jimmy Day combined for 56 points to win the nip-and-tuck battle.

The Eagle frosh didn't gain the lead for good until Keith Prater hit a 15-foot jumper with 2:11 to go making it 95-94. McKenzie then scored on a fast break with 1:40 left and John Sewell added a free throw to put the icing on the cake.

Sewell was the only other Eagle in double figures with 14 points.

# Join a firm that'll give you executive responsibility your first day at work.

Now, that's a pretty funny thing for a civilian firm to say. A boss? Right out of college? The first day?

But the Air Force can make such offers. As an officer in the world's largest technological organization you're a leader. Engineer. Scientist. Administrator. Right where the Space Age break-throughs are happening.

Or how about the executive responsibility of a test pilot clocking 2,062 mph in a YF-12A jet?

That could be you, too.

But you don't have to be a pilot in the Air Force to move fast. With your college degree you zip into Officer Training School, spin out an officer's speed on your way as an executive in the forefront of modern science and technology. Right on the ground.

The Air Force moves pretty fast. Think it over. A man's career can sometimes move pretty slow.

## The Bard's 'Shrew' Comes To Screen

by Rex Probus

Shakespeare would turn over in his grave to see what has been done with his scripts by modern technology. The latest Shakespearean work to be converted to the cinema is "The Taming of the Shrew."

The "shrew" is Kate, portrayed vividly by Elizabeth Taylor and the tamer is Petruchio, played by Richard Burton. Both Burtons give superb interpretation to the Bard's masterpiece.

Kate is the eldest daughter of a well-to-do family in Italy. Being the oldest, she must be married first. Since the younger daughter has found her suitor [which Kate hasn't] this situation is about to drive the family's paternal head out of his. With a herald of cavalry trumpets and other such fanfare, Petruchio comes to the rescue. Against her will, and to the delight of everyone else, Kate is married to Petruchio.

The pseudo-courtship, the wedding, the honeymoon trip and the wedding night must all be classed among some of the best comedy of all time. In fact, the entire film is outrageously funny. "The Shrew" is a film highly recommendable to Shakespeare buffs or anyone looking for a good laugh.

SIT-IN IN THE ADMINISTRATION BUILDING? . . . Mary Sharrard (left) and Peggy Holbrook apparently became tired while waiting in line for workshop checks so they had a "sit-in."

## WMKY-FM Rebroadcasts WHAS Protest Special

by Rex Probus  
Entertainment Editor  
Protest was the topic of the day

at WHAS-FM of Louisville when Brench Boden produced an hour-long special, "Voices of Protest." The taped program was rebroadcast by University station WMKY-FM on Jan. 16.

The special covered protest movements, but not all of them, concentrating mainly on civil rights and Vietnam.

What was done could not have been done better. The narration was superior and the programming of good quality. The use of Janice Ian's "Society's Child" for the finale showed extraordinary insight into the crux of the whole problem--the generation gap.

The sad point of the program is that very few commercial stations have had the raw nerve to broadcast many of these songs. One was censored by CBS-TV when offered on the Smothers Brothers show. It would seem that the broadcast media lack the backbone that other mass media have.

One is cheered by the fact, however, that people of the stature of WHAS producer Boden are still around and that people such as Miss Ian and Tom Paxton are beginning to step out of the wings and onto the stage.

## University Cinema Opens In Town With 'Ambushers'

by Rex Probus  
Entertainment Editor

The walk has been shortened for movie-going MSU students with the opening of Morehead's new, first-run theatre.

The University Cinema opened with an appropriate ceremony, and is one of the nicer theaters of its size in the state, a member of the Chakkers chain.

The first motion picture shown in the new theater is not one of artistic importance. The Dean Martin

## Family's Rebellion Against Old South Depicted In 'Thorpe'

by John Cannon

The rebellion of a man and his small child against a Southern society during the Depression is depicted in Mary Dutton's dramatic novel "Thorpe."

Jim Torrence was principal of a small school in Arkansas. That is he was until some members of the school board discovered he had been giving some unused books to Negroes. Despite the pleas of the School Board and his racist wife, Torrence refused to stop this practice or to sign a white-supremacy oath.

Torrence was fired but his wife refused to move from the community where she was raised. So, Torrence moved his family out in the boon-docks to live in poverty among Negro neighbors.

Torrence's young daughter, Thorpe, soon became good friends with her Negro neighbors. She could not see why they could not go to the same school as she, why they had to step off the sidewalk to make room for a white person, or what made them so different.

After a few embarrassing incidents at school, however, Thorpe realized that she was not supposed to be friends with Negroes, or even talk to them. She didn't agree with this, but she tried hard to follow it in order to be friends among her schoolmates.

However, a drowning, a rape, a shooting, and, most important, a Klan rally, helped change the minds of a lot of people including Mrs. Torrence.

The book tells well the relationship between the white and the Negro in the American South of just a few years ago. The effect of the relationship on young people is also vividly reported.

The book begins slowly, but its vivid dramatic ending makes it well worth anyone's reading.

## WMKY-FM Presents Two-Hour Valentine Program Tomorrow

WMKY-FM will celebrate Valentine's Day with a two-hour special music program.

"The Loveliest Night of the Year" will be presented tomorrow night from 10 to 12 midnight. WMKY-FM music director, Jack Kustron, will host the program, which will feature music by Johnny Mathis, Rod McKuen, Stan Jenton, Frank Sinatra, The Lettermen, Robert Goulet, and other recording artists. The program was written by Jack Kustron and Louie Parrott.

movie, "The Ambushers," is not, by any stretch of the imagination, a Hollywood great.

The movie does serve as a relaxing escape. Its one purpose is to draw gales of laughter from the audience. This it does, employing most methods known to the comedians bag of tricks.

Dean Martin plays the hard-drinking, fast-loving Matt Helm; this, plus the fact that the villain owns a brewery, makes for an extremely funny movie.

The next big show was "Bonnie and Clyde," given a preview by another Trail Blazer critic before Christmas.

## Representatives Visit University To Learn Of Education Programs

Four representatives of West Georgia College, Carrollton, Ga., have completed a two-day orientation visit to the Morehead campus with emphasis on federally-financed educational programs.

Briefed on the programs in operation currently at the University were Dr. John J. Pershing, dean of student affairs; Dr. Thomas Sills, chairman of the Division of Education, and Ted Hirsch, director of development, all of West Georgia College faculty and staff; and Dr. Dudley Crosson, city manager of Carrollton.

Among the programs explained to the visitors and the facilities inspected were:

- ✓ The process approach to teaching science to grades one through four in its second year at the University as a joint venture between the Floyd County school system, the University and the American Association for the Advancement of Science.
- ✓ The development of recreational facilities and programs in Eastern

Kentucky communities.

- ✓ The Upward Bound Program, a pre-college preparatory program designed to encourage high school juniors and seniors from low-income backgrounds to continue their education beyond high school.

- ✓ The Community Action Program under which three centers in Eastern Kentucky provide opportunities for people in low-income areas to participate in federally-funded personal improvement programs.

- ✓ The Appalachian Adult Basic Education Demonstration Center whose work consists of a development research project for programs, materials, facilities and educational technology needed for undereducated adults.

- ✓ The Teacher Aid Training Program, one of the first conducted in the nation and unique because of its rural school setting.

- ✓ The Teacher Corps Program, a program aimed at giving teachers, special skills needed to motivate

## The Old Timer

"Mouthwashes for sweetening the breath are fine—now how about something for sour dispositions?"

youngsters whose lives outside the classroom are filled with instability and deprivation.

- ✓ The Computer Assisted Instruction Program under which elementary students receive computerized instruction in arithmetic over long-distance telephone lines and teletype machines from Stanford University, Palo Alto, Calif.

Hosting the group were Dr. Morris Norfleet, director of research and development at Morehead, and Dr. Kenneth E. Dawson, dean of the School of Education.

## Business Program Is Being Redesigned For Greater Depth

The Business Administration program offered by the School of Applied Sciences and Technology, has been redesigned for greater specialization. Dr. C. Nelson Grote, dean, has announced.

"Under our former program, only a general area of concentration in Business Administration was offered," Dean Grote said. "Under the new and revised program, four areas of optional and specialized study are offered."

These, the dean said, are accounting, finance and insurance, management and marketing. A fifth, data processing, eventually will be added, he said.

Effective immediately, the new program is expected to be in complete operation by next fall.

A total of 128 hours of credit are required for a Bachelor of Science degree in the new program.

## Breck In Brief

Pam Hall, 17, of University Breckinridge School, has been named the 1968 Betty Crocker Homemaker of Tomorrow for her school.

Pam's achievement makes her eligible for state and national scholarship awards and also has earned her a specially designed silver charm from General Mills, sponsor of the Betty Crocker Search for the American Homemaker of Tomorrow program.

A state Homemaker of Tomorrow and runner-up will be selected from the winners of the schools in the state. The state winner will receive a \$1,500 college scholarship, and her school will be awarded a complete set of the Encyclopedia Britannica. The runner-up will earn a \$500 educational grant.

Miss Pam Hall

### Sweetheart Dance

The sophomore class plans a dance for Feb. 17. On Feb. 24 the Key Club plans its annual Sweetheart Dance. Each year a Sweetheart is announced at the dance. She is selected from the twelve calendar girls and this girl becomes cover girl of next year's calendar.

### Basketball Team Busy

Breck made its annual road trip to Walter-Verona and Simon-Kenton Jan. 19-20. They were unsuccessful in both games, losing by scores of 86-52 (Walter-Verona) and 80-73 (Simon-Kenton). On the road trip the high scorers were Steve Lewis, 28 points; Sonny Jones, 27 points, and Jim Caudill, 20 points.

On Jan. 23 Breck beat Greenup 65-55. Charlie Wilson was high point man with 23 points. Jan. 26, Breck played Hitchens and won by 63-62 and Jan. 27 Breck beat Lewis County 80-67.

Breck defeated Nicholas County by 114-60. Crossley Caudill had high points with 22. Feb. 3 Breck lost to Olive Hill 59-55.

On Feb. 9 Breck played Paintsville and Feb. 10 Breck played Western of Ohio (2:30). Western is rated first of the Class A in Ohio.

### Local Talent In Show

The third annual Talent Unlimited was held Feb. 8 in the Breck Auditorium. The talent was furnished by local bands, several college students and several Breck students. The main feature was Janie Jett, a ventriloquist.

### Speech Tournament

Breck's annual speech tournament was held Jan. 20, with over 20 schools participating. The sweepstake trophy went to Notre Dame [Covington], second place to Durrett [Louisville] and third place to Henry Clay [Lexington]. The Junior Thespian Club of Breck plans a Junior High tournament Feb. 24.

### Art Show

Art students at University Breckinridge School are exhibiting their accomplishments from the recently completed fall semester.

The exhibition is located in the University Art Department on the ground floor of Allie Young Hall, and includes more than 30 pieces of paintings, sculpture, glass and mixed media produced by the students.

## Club News Corner

### Baptist Student Union

The Baptist Student Union is changing its basic format this semester to include an informal discussion program on Thursday nights at 6:15 p.m. Programs will vary from films to speakers to group participation. The theme for the next eight weeks -- Modern Thought in Christianity -- will deal with the contributions of the ten most prominent theological thinkers of the 20th century.

Feedback on Wednesday nights will involve a disciplined group of students who will be taking part in an unusual type of Christian fellowship and experience. The topic for discussion for the next 10-12 weeks will be "Prayer." The first meeting of this group will be February 14 at 6:15 p.m.

Several students from Morehead will be attending the Student Mission Conference February 23-25 in Louisville. The conference topic will be "Together in Missions."

### Alpha Theta Epsilon

Officers for the spring semester were elected at the regular meeting on Jan. 16. The officers are: President, Gene Clark, Vice-President, Rick Harris; Secretary, Denny Elzy; Treasurer, Larry Columbia; Historian, Pat Tate; Sergeant at Arms, Bob Dietrich; Chaplain-like Reynolds, and Athletic Director, Bill Detzel.

### Cardinal Key Colony

The Cardinal Key Colony has taken letters for membership and is now selecting new members for 1968. The club heard a discussion on minority relations by Dr. John Duncan of the Sociology department on Jan. 16. The club will hold a dance on March 1.

### Sigma Delta

Sigma Delta Honorary Physical Education Fraternity will hold an informal party Tuesday, Feb. 13 in room 213 of Laughlin Health building to meet prospective pledges. Qualifications for consideration for membership include being a major, minor or area with 3.0 in physical education and a 2.5 overall. Members must have at least six hours in physical education courses.

Letters are to be submitted by Feb. 18, pledging will begin Feb. 21.

The men's physical education

faculty is preparing for the seasons biggest sports attraction when the "Fun Girls of Basketball," the nationally known Shooting Stars All Girls Basketball Team comes to town.

The Shooting Stars, featuring some of the finest female talent from all America, will make the local boys earn every basket when they meet at Laughlin Fieldhouse on March 21 at 8 p.m.

The Shooting Stars ask for no setups and will furnish the local men's faculty with all the opposition they will need. The Shooting Stars have 78 wins in 79 games.

At half-time fans will view a dribbling exhibition featuring Elvera Neuman.

Advance ticket prices are--adult \$1.25, student, \$1. Prices at the door are \$1.50 for adult tickets, student--\$2.5.

Miniature basketballs are now being sold at all home ballgames for 75 cents. All proceeds will go to the U.S. Olympic Team.

### Le Cercle Français

The French Club held its January meeting on Jan. 9 at 7 p.m. in Combs 102. Jim De Carla, the son of Dr. Vito De Carla of the French department, was home from Vietnam where he had been stationed for twelve months. He showed slides of Thailand and Vietnam and then answered questions asked by the club members. The meeting was adjourned and refreshments were served. The next meeting will be Feb. 13 at 7 in Combs 102.

### Tau Alpha Epsilon

T A E is holding their annual Sweetheart Dance Feb. 17. The dance is semi-formal (coat and tie) and will be held in the new Laughlin Health Building from 8-12 p.m.

Larry Burgess, George Barber and Rich Lrah were graduated last semester. Burgess is now doing graduate work at Morehead. Barber has joined the Gayboro at Millersburg Military Institute as a teacher and Lrah is teaching at Boyle County High School. Another member, Tony Buter is now doing a professional semester at Frankfort.

T A E finished league play with an 8-0 record and a first place finish. In last game Bob Bennett had 17, Ted McGonaghey, 14 and Dennis Mullins, 13. George Barber and Gene Kiser were co-coaches.

## Annual Band Clinic To Draw 400 High School Musicians

More than 400 selected musicians from 70 Kentucky high schools are expected to take part in the annual Band Clinic to be held on campus Feb. 23-25. Dr. Robert Hawkins, director of bands at the University is serving as chairman of the Clinic Committee.

Other members of the committee who also will participate in the clinic as instructors are: James Martin, flute, and David Bushouse, horn and low brass, both assistant directors of band; and Gene Deaton, trombone, director of stage bands at Morehead. Six musicians will take part as guest faculty, along with six members of the wind and percussion staff

in the music department here. The guest faculty whose participation will be sponsored by four music firms in Louisville and Chicago, are:

George Cavender, assistant director of bands, University of Michigan; Dr. John C. Gertt, director of bands, Butler University, and Dr. Eugene Rousseau, chairman of the Wind Department and professor of saxophone, Indiana University.

James Acherold, teacher of woodwinds and stage clinician, Louisville; Ernest Lyon, trombone and baritone clinician, University of Louisville, and B.G. Cook, former director of the Fifth Army Band, now with the Lyons Band Instrument Company of Chicago.

Other members of the Morehead music faculty taking part include Dr. William Bigham, clarinet; Dr. Fredrick Mueller, bassoon; Eugene Norden, saxophone; Joseph Martin, oboe; John Stetler, trumpet, and Robert Schietroma, percussion.

Listed on the clinic's three-day schedule are rehearsals, clinics and special sessions for directors as well as concerts by University and clinical groups.

The University's Stage Band will present a concert at 8 p.m. Friday followed by one by the Symphony at 8 p.m. Saturday.

At 8 p.m. Saturday, the Clinic's stage band and senior high school bands will present a concert. The clinic will end Sunday with a concert by the professional band, beginning at 2 p.m.

# Cologne, Long Hair, Clothes Style: Factors In Determining Masculinity

by Betty Schroder

Throughout history the question of whether or not a guy is more attractive when he's well-groomed has been settled in various ways at various times. From the back ally wine-shops of ancient Rome, the taverns of the Middle Ages and the 20th century barrooms, researchers have collected some of the secrets of sex appeal that men have passed around.

The exact source of the appeal has varied from century to century... from maiden to maiden. A girl of today might be impressed by "007", but if a man showed up in the late Middle Ages--when long hose and flowing capes were all the thing--she might just have thought that he was an absolute nothing.

The ancient Romans used to perfume themselves before a battle, and so did Napoleon. But it wasn't until the Danes settled in England around the 11th century that the Saturday night bath washed over the Western world.

The Englishmen laughed at the fierce invaders who bathed and combed their beards before a date. But when word began to filter back that their ancient enemies were becoming just as successful with the women as they had been on the battlefield, the Britains adopted the same tactics themselves.

But centuries still had to pass before a 20th-century German scientist, Professor Zwaardenmaker, put the suave approach on a practical basis for millions of men; this forgotten genius discovered the principle of deodorants.

A few years later modern men's toiletries had their appearance. Today, a new line of aftershave and cologne, combines the smooth and the rugged in one over-all approach. Samson thought that long hair was sexy. For the ladies of his day, long

hair connoted strength--the essence of all sex appeal. But more primitive women, using the same idea, went for a man who had an arm or a leg out of commission, or who had been wounded in battle. They reasoned that strength of the limb had left him; it had just asserted itself elsewhere.

The males of the Middle Ages sometimes made a hit with the ladies by shaving the hair off the back of their necks and leaving it long on the sides.

One of the principal obstacles to conquest in the Middle Ages was the Church which, at the time raised objections to trends which made ladies and men dress differently, instead of alike. It wasn't until the late Middle Ages that clothing began to be designed to show off the differences instead of concealing them.

Then, 150 years ago, a man who wore trousers instead of breeches was most likely thought of as a cad not to be trusted around the ladies. About this time in England, a Dr. Willichs wrote a long tirade against trousers declaring that they were unmanly. He was completely ignored as more and more men took to the new fashion.

Perhaps one of the biggest unplanned commotions raised by the ladies occurred when a young man named James Heatherington stepped upon the streets of London on January 15th, 1797.

He was impeccably dressed, but nevertheless a crowd of screaming, fainting women surrounded him. Heatherington was duly arrested, arraigned before the Lord Mayor, and fined 50 pounds for "having appeared on a public highway wearing upon his head a tall structure having a shining lustré and calculated to frighten timid people."

Heatherington had just designed the world's first top hat.

## BSU Selects Two Students To Be In Summer Program

Two students have been named to participate in the Baptist Student Union Summer Missions Program for 1968, according to Emory Smith, director of the Baptist Student Union at the University.

Janice Carroll, a sophomore majoring in history, was named to do inner-city work in Detroit for a 10-week period, beginning in June. Miss Carroll, from Dayton, Ohio, will work with students from other U.S. colleges in the Michigan city.

Leo McMannis, a senior from Cincinnati, will work in the Florida Beach Ministry during the spring vacation of this year. Two other Kentuckians will work with him.

The BSU Summer Missions Program gives college students of Baptist faith the opportunity to share themselves, without remuneration, in a distinctive student mission

endeavor. The program is financed by students as they pledge their money and time in special work projects.

Applicants for the program are screened by a selections committee on their respective campuses and then by the State Summer Missions Selection Committee.

This year, the Kentucky Summer Missions Program will send representatives to Indonesia, Israel, Jamaica, Liberia, to the states of Pennsylvania, Michigan and New Mexico, and four to serve on the Mountain Youth Team in the mountains of Kentucky.

INDIAN MASSACRES - One of the worst Indian massacres in Kentucky occurred in 1876 on land now occupied by Levi Jackson Wilderness Road State Park near London.

## EXCEPTIONAL EARNING OPPORTUNITY

For

SCIENCE TEACHERS OR SCIENCE GRADUATES to teach and travel in a science lecture program of nuclear education presented in secondary schools throughout the United States.

During each full week of travel, science educators are paid \$63 subsistence, \$25 premium pay and lodging costs plus a minimum base salary of \$600 monthly. Vehicle is provided [with credit card].

Qualifications: Degree in science or science education.  
Capable of extensive travel.  
Good health and speaking ability.

Employment to begin either in February or July, 1968. For application and further information, write:

represents Alpha Gamma Epsilon. Her majors are English and speech and drama, and she is a cheerleader. She was Miss Pendleton County and Miss Northern Kentucky Tobacco Princess.

Representing East Mignon Hall is Patricia, 19, a sophomore from Louisville. She majors in English and sociology. Her campus activities include debate, Capa Tridents, and she is currently serving as dorm president.

Sheila Rose, 20, is West Mignon Hall's representative. She is sociology from Lexington, majoring in sociology. She is a member of Capa Tridents.

Mignon Tower's representative, Betty Schindler, 23, of Mt. Orab, Ohio, majoring in elementary education. She is currently educational director for WKMY-FM, and is a member of the Archeological Club. She placed as second runner-up in the 1967 Miss Brown Co. Pageant and was chosen Miss Congeniality in the Miss Ohio Valley Pageant.

## Auditions Are Set For 'Stephen Foster'

**SPECIAL TO THE TRAIL BLAZER**  
FRANKFORT — Auditions for the 10th anniversary season of Paul Green's "The Stephen Foster Story" are set for March 2 at Atlanta, Ga., and March 30 in Bardstown.

Singers, actors and dancers will be auditioned for roles in the outdoor musical drama based on the life and works of the composer, Stephen Collins Foster. The drama is staged at My Old Kentucky Home State Park.

Auditions in Bardstown will begin at 9 a.m. at the Bardstown High School Auditorium.

ROTC HOME AT MOREHEAD — Renovation will soon begin in Button Gymnasium to prepare for the housing of the new Department of Military Science. Button Auditorium will not be part of the remodeling.

**Half-price to college students and faculty; the newspaper that newspaper people read...**

At last count, we had more than 3,800 newspaper editors on our list of subscribers to The Christian Science Monitor. Editors from all over the world.

There is a good reason why these "pros" read The Monitor: It is the only daily international newspaper. Unlike local papers, the Monitor focuses exclusively on world news — the important news.

The Monitor selects the news it considers most significant and reports it, interprets it, analyzes it — in depth. It takes you further into the news than any local paper can.

If this is the kind of paper you would like to be reading, we will send you one right away at half the regular price of \$24.00 a year.

Clip the coupon. Find out why newspapermen themselves read The Monitor — and why they invariably name it as one of the five best papers in the world.

## 2,000 Colleges Will Hold 'Choice '68' On April 24

Continued From Page 1

the board of directors.

In its prospectus on Choice '68, the board said: "Never in the nation's history have so many college students been so well informed about the major issues of the day... yet they have had little opportunity to express their views in a unified, coherent manner. Choice '68 offers students the opportunity to express their preference on the presidential candidates and selected issues—to speak for the first time as a body politic."

According to its spokesman, "The board expects to turn out upwards of two million votes on campus, enough to command the nation's consideration and attention."

The program will be coordinated nationally from an executive office in New York. All communications from individual campuses will go directly to the national office. The national office will provide promotional materials to publicize the primary

on the campus; weekly press releases on presidential candidates and campus activities; background information on the various candidates and the address of each one's campaign headquarters so supporter students may send for promotional materials.

Ballois will be provided by the executive office and distributed to participating campuses. The voter will indicate his age and political party affiliation and preference. Presidential candidates will be grouped by party, but students may cross party lines.

Voters will indicate three choices for president [the first choice will be the one used in the actual primary tabulation; the second and third will be used for statistical analysis]. There will be three referenda issues, each with four to six possible responses covering a broad spectrum of opinion. Immediately following the voting, ballots will be sent to computer centers for tabulation.

## Law Professors Find Objections To Hershey's Memo On The Draft

**College Press Service**  
NEW YORK — A total of 325 professors from 32 law schools have come out against Selective Service director Lewis Hershey's memorandum to draft boards that anti-draft demonstrators be reclassified and drafted.

The professors signed a statement supporting efforts by the American Civil Liberties Union [ACLU]

to get the memo rescinded. The ACLU has filed suits in support of men reclassified under the order and has asked college presidents to urge the rescinding of the order.

Four student groups have also filed a general suit against Hershey asking for an injunction to stop enforcement of the memo. That suit is expected to be heard some time in February.

Meanwhile Gen. Hershey and draft resisters started sending the cards in on October 16. Hershey claims that a number of the cards were actually drivers licenses or other cards, not draft cards.

The Resistance, the group which has been organizing the turning in of cards, claims about 1,200 draft cards in 27 cities were turned in October 16 and 525 on December 4. They also say there were 125 cards burned on April 15 and 100 on October 21, during anti-war demonstrations.

## WISH I'D SAID THAT

"It is written that Newton once said that people are lonely because they build walls instead of bridges." — Clarin D. Ashby, Unithat Basin (Utah) Standard.

## Approval Likely For Student Regent

Continued From Page 1

campaign, I stated many times that students should have a voice in university affairs. I believe in the ability of students to offer constructive solutions to problems of government and education. It's time to support students who want to contribute."

The faculty members on the Boards of Regents (or Trustees) will be elected by the faculty of the respective schools.

Despite support the bills are receiving on campuses throughout the state, Morehead Student Council President Art Dayton had reservations. Commenting on placing students on the boards he said "Every time I hear this my blood creeps." Dayton explained that he felt that students may not be qualified to discuss the complex topics of the board.

At press time the bill is still in the legislature but approval of the bills seems imminent.

## Club News

Continued From Page 18

**Industrial Education Club**  
The Industrial Education Club's basketball team is in 3rd place in League V of intramurals. The club won their last game over the Cripples by a score of 35-28. Their record is now 4-4.

The Club's Radio Interest Group is learning the Morse code to enable them to achieve the novice license. Thursday, Feb. 15, they will appear on WKMY Omnidute Variety. The group is still looking for new members. These could be any men, women, students, faculty, or townpeople interested in electronics and radio.

During the fall semester the group acquired a Drake R4B Receiver which they use to listen to radio "Hams" all over the world. This is accomplished by the use of a dipole antenna which they installed on the roof of the IE building. This antenna is capable of reception on all bands and transmission of 80 meters. The Radio Interest Group chairman is Alan Makitarian and the sponsor is Meade Roberts.

The next meeting will be held at 7 p.m. in IE 104 on Feb. 22. This is a very important meeting concerning money-making projects for the Spring Banquet.

## Newsmen To Play Broadcasters

The Trail Blazer will play WKMY-FM in a basketball game Thursday, Feb. 22, at 7:30 p.m.
