Owingsville, Breck Established As Co- Favorites In Tilt

Four of the top high school teams in this section—Breck, Owingsville, West Liberty, and Owensville—are entered in the first annual Morehead Breck Invitational tournament which will be held at the Morehead College gym on Saturday, January 31.

Opponents in the first session, which starts at 2 p. m., are Breck and Owensville along with West Liberty and Owensville. The championship game will be held Saturday night at 9:15 and will be preceded by a consolation game at 8 p. m.

Established as co-favorites in the meet are Bobby Laughlin's Breck and the Owensville Bobcats, mentored by Len Stiner. By splitting two games this year, these teams have shown that they are about equal in strength and should tie for the finals, their meeting should prove to be a "corner."

However, stumbling blocks, in the form of West Liberty and Owensville, may prevent either team from advancing into the championship round.

West Liberty, headed by Glen Stanley, is a power in the 15th Region circles and the Red Devils are reportedly enjoying one of the best seasons in the school's history.

Flemingsburg, led by Don Fair as rated as a darkhorse to-day. While possessing a good offensive record, the Bobcats are improving and a battle royal between Breck and the Cats should result.

Postmaster Claude L. Clayton, who is in charge of the March of Dimes benefit, met with this week that an all-tournament team would be picked and gold basketballs would be awarded to the winning team.

Prices for each session are \$1 for adults and 50 cents for students.

Four Moonshine Still Destroyed In Recent Raids

Revenue agents were active in five illegal whiskey outfits. Two moonshiners still were destroyed on Caney Creek on the Rowan-Elliott County border. One was a 50-gallon tank and the other three 300 gallon stills.

In a raid on Bull Fork, Rowan County, one tank still and a quantity of still beer were confiscated.

According to reports, Jeff Caudill was the only one arrested. He was arraigned before the U. S. Commissioner in Catlettsburg Monday.

Officers participating in the raids here were Det. Keston, Federal Agent, Lee Stewart, State Alcohol Control Investigator, Sheriff Sam Green of Rowan County, George T. Bell, George Quisenberry and Red Bowman, Deputies.

Former Elliott Citizen Dies In Wisconsin

The Rev. Franklin S. Hay, 81, formerly of Elliott County, died of a heart attack at the home of his daughter, Mrs. Cleve Adkins in Antigo, Wisconsin. He had been ill for six weeks.

Rev. Hay was a retired minister of the Baptist Church, having been in the ministry for more than 50 years.

Nation's Bank Deposits Reach All Time High

Bank deposits are high enough now to average \$1,061 for each person in the nation.

Total bank deposits in checking and savings accounts were estimated at \$154,191,000,000 by the Federal Deposit Insurance Corporation.

The per capita figure was obtained by dividing total deposits by the 143,334,000 population estimate currently used by the Treasury.

The \$1,061 average for bank deposits compares with per capita \$196.63 for money in circulation, and \$1,765 for the national debt.

Counties To Receive Funds From Forest

Payment To Come From Federal Treasury Says H. L. Borden

Sixteen Kentucky counties will shortly receive a portion of \$23,573.92 as being their share of the 1947 receipts of Cumberland National Forest, Supervisor H. L. Borden of Winchester, said to-day.

These payments, Borden said, come from the Federal Treasury in the form of a check, and are to be paid to local governments as a return for the gross receipts of the Cumberland National Forest for the Fiscal Year ending June 30, 1947.

According to Kentucky Statutes the money is to be spent by the counties for roads and schools in the area.

The funds are paid by the Federal Treasury to the State Treasurer, who in turn makes distribution to the County Treasurers. The counties will receive as their share the following amounts, based on proportion of the National Forest area which is in each county:

County	25%	Acres
Bath	2,838	749.42
Estill	4,722	253.69
Jackson	30,541	1,640.80
Madison	4,722	253.69
Lee	6,746	363.07
McCreary	150,095	8,071.40
Menifee	28,995	1,591.94
Smith	10,438	560.90
Owsley	4,044	216.45
Powell	12,187	654.00
Pulaski	24,309	1,305.67
Reynolds	10,438	560.90
Rowan	47,312	2,543.84
Wayne	459	25.60
Whitley	31,802	1,710.63
Wolfe	14,046	754.06

423,955 \$23,573.92
Total 3,273,272

Borden pointed out that sale of additional timber was prevented by forest fires, which required employees to "sidetrack" timber hauling to control fires 89 fires burned in 1947 and additional smokes required investigating.

Borden called on all persons in the area of the National Forest to make "care with fire" their Number 1 resolution for 1948.

School Covers Many Phases Of Operation

W. T. Garey of Southern States Cooperative attended a two-day school on rural extension service to farmers, Jan. 15-16 at Huntington.

Woman Injured In Wreck Dies In Hospital

Mrs. Hobart H. Fawns, 38, of Fleming County, who sustained a basal skull fracture in a wreck near Flemingsburg Jan. 12, died last Wednesday at the Mayville hospital where she was taken following the accident. Her husband, Hobart H. Fawns, 47, is given a chance to recover from a neck fracture received in the crash. Mrs. Fawns died without regaining consciousness.

Funeral services for Mrs. Fawns were held Saturday at the Hillsboro Methodist Church with Rev. C. C. Tanner in charge. Burial was in the Hillsboro Cemetery.

Walter Adkins Dies At Home In Rowan County

Funeral services for Walter Adkins, 58, who died Sunday at his home in Rowan County, will be held at 10 a. m. Friday at his home on Christy Creek. Rev. Jake Plank will be in charge of the services and burial will be in the family cemetery at Wyatt, Ky.

The son of the late Willie and Leta Adkins, he was born in Elliott County, June 10, 1886. In 1914 he was married to Mollie Thomsberry, who survives. To them have been born seven children, one of whom died in infancy.

In addition to his wife, he is survived by three sons, Avery, Newt, and Earl, all of Rowan County; and three daughters, Mrs. Gracie Sloan, Mrs. Bell Wilson and Synda Adkins, all of Morehead.

Funeral arrangements were made by the Lane Funeral Home.

Funeral Services For Haldeman Man Held Sunday

Funeral services for Lee Pigan, 60, who died Friday at his home in Haldeman, were held at 10 a. m. Sunday at the home of the late Wilbur and Dorothy Pigan, he was born in Rowan County Jan. 28, 1887.

In 1910 he was united in marriage to Alma Pigan. To this union were born three children, one of whom, Ruia Pigan, preceded him in death.

Mr. Pigan had been employed at the Fire Brick Plant at Haldeman for many years and was one of the valuable workmen. While at work Friday, he suffered a stroke and died shortly thereafter.

His survivors are one son, Clarence and one daughter, Mrs. Elmer Watson, both of Dayton, Ohio, one sister, Mrs. Flora Harlan, of Ashland.

Funeral services were in charge of Russell Smith, Clifford Russell, Zora Russell and were in the Pigan Cemetery near Haldeman.

The Lane Funeral Home was in charge of the arrangements.

4 Net Games Here This Week

Morehead's three basketball teams engage in six games during the coming week with four of the games carried in the College Gym here.

Breck and Morehead High will start the activity Friday night as the Eagles go to Grayson to play the Blue and Gold. The Yellowjackets and Morehead High teams on Russell here.

Breck defeated Grayson 38-34 last Friday night. The team led by a last quarter rally after leading by a comfortable margin throughout the first 3 stanzas.

Russell, coached by Fred Johnson, doesn't figure to give "Shorty" Wiggins' Vikings much trouble since they are lightly rested by the season's slugging.

On Saturday Ellis Johnson's Morehead College Eagles take the long trip to Murray in an effort to break the Blue and Gold's record by the Thoroughbreds here Tuesday.

The second game in the intra-city Breck-Morehead High rivalry will be staged at the College gym on Tuesday night. With home field advantage, Breck will have the edge in the early season battle which they won 40-31, local fans will be watching the Blue and Gold to see if they can spring an upset.

Central Ky. To Have First Isolation Ward

Has Long Been Needed; Would Serve To Train Nurses For Epidemics

Central Kentucky will soon have a first-class isolation ward in the St. Joseph hospital in Lexington, if the public supports a plan being worked out by a group of interested citizens, most of whom are parents.

Medical authorities say such a ward has been needed for some time. At present, Fayette County has no specialized ward for caring for polio, diphtheria, scarlet fever, typhoid and meningitis.

The proposed isolation ward not only would provide a place for treatment of such diseases as polio and meningitis, but would serve another important function as a training center for sufficient nurses to cope with any serious epidemic that might befall the community.

The group behind the project is working closely with Neil Dalton, chairman of the Kentucky chapter, National Foundation for Infantile Paralysis, and Miss Marian Williams, director of the Kentucky Crippled Children's Commission.

The only communicable-disease isolation ward now in operation in Kentucky is at General Hospital in Louisville. It is supported by taxes from Jefferson County and is open to Jefferson County residents only. The isolation ward is available for out-of-county patients.

The isolation ward planned at St. Joseph's hospital is for the treatment of communicable diseases. The ward will be 18 beds.

The National Foundation for Infantile Paralysis, which is supported by the Federal Government and the Kentucky Crippled Children's Commission have agreed to support the ward.

The ward would be open to patients admitted under the auspices of their organizations. In the event of a polio epidemic, the foundation would furnish personnel and equipment—medical specialists, nurses, physiotherapists and anything else needed.

The hospital would assign its student nurses to a 42-day course in handling isolation cases following the outbreak of the epidemic. The ward would be open to patients without regard for race, creed or color.

Polio cases would have priority. Then other patients suffering with communicable-diseases, whether they be children or adults, would be admitted.

NEW BOARD HEAD

Moloney Introduces Senate Bill Limiting Board-Ouster Power

Burley Sales Decline Brings Lower Average

Sales of Kentucky burley tobacco dropped yesterday to 6,627,312 pounds and the average dipped 64 cents to \$48.24 a hundred pounds, the State Department of Agriculture reported. It brought \$3,196,981.82.

Four of the markets that had operated regularly had no auctions. They are Bloomfield, Paducah, Greensburg, Springfield, and Owensboro. The Department of Agriculture reported that it would close today was erroneous. Greensburg will not close until Monday.

Majority Floor. Leader R. P. "Dick" Moloney, Lexington, offered the bill, Governor Earle C. Clements, who visited the Senate last week, E. T. Dalworth, warehouse manager, said.

Clements Signs Ky.'s Largest Appropriation

More Than 85 Per Cent Goes To Education And Welfare

A smiling Gov. Earle C. Clements signed into law last Thursday, Kentucky's largest general appropriations bill. The General Assembly passed the measure by a vote of 50-10.

The appropriations for the two year period starting next July 1 exceeds by \$22,525,807 the current budget's total, the previous high. More than 85 per cent of the new total goes to education and welfare.

Another Administration sponsored appropriations bill, to give \$3,000,000 back to the public school system, advanced favorably by the Appropriations Committee. The measure was given the first of three required readings.

The new budget increases the State school outlay from \$18,500,000 to \$21,500,000 for next year. The Governor pledged in his campaign there would be a new school for this school year. The \$3,000,000 deficiency appropriation would fulfill this pledge.

The day's only floor comment on the budget bill came from a Republican minority spokesman, Senator Ray B. Moss, Pineville. He said the measure was a "good bill" and that he would support it.

"This bill does more for more children in Kentucky than any budget bill I have ever had the pleasure to vote upon."

He has been a senator since 1932.

Assembly Probe Of Carter School System Urged

A petition asking for a legislative investigation of Carter County's school system will be presented to Gov. Earle C. Clements and the General Assembly it was learned today.

Several legislators said the petition had been circulated in the State House. Between 1,500 and 2,000 persons were reported to have signed it.

The request for a probe of conditions in Carter County is aimed at Herman H. McGuire, Grayson, who is superintendent of Carter County schools. McGuire is a member of the State Textbook Commission and president of the Kentucky Education Association.

McGuire came under an attack last fall by the A. F. L.-Kentucky Federation of Teachers. They demanded that he resign both as K. E. A. head and as a member of the State Textbook Commission.

McGuire made a statement in the State House last week that he was not resigning. He was charged with being "ignorant and bigoted" remarks concerning religious and racial groups in a political advertisement published in Carter County newspapers. He also made several local unions of Carter County school superintendents' post-20 of the county's parent-teacher associations also adopted similar resolutions.

What Price Fishing?

News from Frankfort indicates that an attempt will be made during the present session of the General Assembly to increase the price of fishing licenses from \$1.00 to \$3.00. This proposal seems to emanate from the Division of Fish and Game and draws its chief support from some of the leaders of the League of Kentucky Sportsmen.

It is doubtful if any real sportsman would object to this increase in the license fee if he felt that the additional sum would result in actually improving fishing conditions. It is certainly true that something must be done about Kentucky fishing in the near future or it will disappear entirely. Our position is simply this—it may be necessary to increase the license fee but there are some other steps that must be taken if we are to have the type of fishing in Kentucky that we should have.

First, the protective laws that we already have must be enforced. This particular field of law enforcement is one of the most neglected in our state system. The damage done to our fish supply is not the result of the activities of those sportsmen who fish by legal methods. We have the laws necessary to stop the illegal practices. What we need is an enforcement system that will put these laws into operation.

Second, it is entirely possible that the open season for fishing should be reduced for a time thus permitting the supply to be replenished. This too would be a universally popular move, but some drastic steps must be taken if our streams are to regain their popularity. We do not have the exact figures for comparing the number of fishermen today with the number of even ten years ago. Common observation though indicates that the number has increased remarkably during that period. The conclusion to be drawn from this fact alone is elementary—as the number of fishermen increases the supply of fish must also increase if the results of the sport are to be satisfactory.

Some of our sister states to the north have made a profitable industry of their streams and lakes. Millions of tourist dollars are spent there each year. Kentucky has the natural facilities to do likewise, but instead of capitalizing on the opportunity we are permitting our fish supply to deteriorate each year. An increase in the license fee may be a partial answer. To increase this fee, however, without improving our system of protection will simply be pouring good money where bad has already gone.

An Old American Custom

Fund raising campaigns have become as much a part of our American life as hot biscuits and fried chicken. They cover a wide variety of causes and at times it becomes a problem in some communities to keep them from overlapping. Most of these campaigns have a wide and popular appeal and only a few people come up with that rather shelf-worn, cynical remark to the effect that "I pay taxes to take care of those things." This remark is usually made of the mark because the funds from these campaigns, in most instances, provide assistance, care or treatment which no governmental agency is prepared to furnish.

One such campaign, the 1948 March of Dimes, is under way at this time in this, and every other community in the nation. The entire proceeds of this campaign will be used for the special treatment and care received by the victims of infantile paralysis and for research and prevention. Day and night throughout the nation leading men and women of science toil to solve the mystery that has baffled the medical science since the advent of polio. The National Foundation for Infantile Paralysis in the past ten years has allocated over \$13 million to research and education in the field of polio and the entire sum came from March of Dime funds.

Here in Kentucky the chapter in the last fiscal year spent for \$108,000 in the treatment, care and prevention of polio. Over \$50,000 of this sum was spent for hospital service to polio victims and over \$9,000 went to pay for special braces, crutches and other appliances. The salaries of 12 Kenny technicians, trained in treatment of polio, are paid from the funds raised by the March of Dimes. In Kentucky all money raised goes into a central fund for use anywhere in Kentucky where it is needed. Assistance is given polio victims without regard to location, race or creed and with the least possible delay.

Here we have a typically American project where the more fortunate voluntarily help those who are less fortunate.

And for those who look at the cold dollar and cent factor we might point out here that if the care of polio victims were placed on our tax bills the cost would be much greater. No governmental agency could obtain the donations of thousands of experienced men and women who plan and conduct these fund raising campaigns and others who serve on the boards of these private charitable organizations. It is due to their efforts that 88 1/2 cents out of every dollar you give to the March of Dimes goes to the care of polio victims and prevention of infantile paralysis. No tax supported institution operates with such low administrative costs. Every dime received from the March of Dimes is accounted for in a public statement each year.

When a man sweeps a woman off her feet these days, she doesn't always land in a kitchen.

The Baruch Report

Amidst all of the loose talk of our national leaders, so-called statesmen, and politicians, it was refreshing this last week to hear the statement made by Bernard F. Baruch before a committee of Congress. This elder statesman thinks he has no personal axe to grind. Several of his suggestions in fact would operate against his individual interests. Statesmanship of his type is sorely needed today. We need leaders who take the long-view on problems and not leaders who are guided solely by what seems to be necessary to win an election. Careful consideration of Mr. Baruch's suggestions is worth the time of any citizen who wants to exercise his privileges of citizenship intelligently.

They Are Flying, Again!

Reports of recent "flying saucers" will probably set off another phase of the national hysteria that resulted from the original reports. Appearances have been cited in Kentucky and adjoining states, with a report from an Army Air Base in Ohio, which tells of the "sky phenomenon" which hung suspended at intervals and then gained and lost altitude at what appeared to be terrific bursts of speed. No doubt the observers saw something, especially the Army men in Ohio, but this will not mean that every observer who reports a "flying saucer" will have seen anything in the sky.

Red Cross Wants \$75,000,000

The American Red Cross announces that it will seek \$75,000,000 in its annual March campaign, designed to raise funds to continue its present services, replenish its disaster relief fund, develop a new blood program and meet the "higher cost of meeting human needs."

The goal set is \$15,000,000 higher than the amount sought a year ago but is less than the amount finally subscribed throughout the country. Basil O'Connor, president of the Red Cross, says that the budget for the coming year is \$97,000,000 but that allocation of \$22,000,000 from uncommitted surplus makes it possible to limit the goal to \$75,000,000.

Is MacArthur Willing?

The State of Wisconsin recently celebrated the centennial of its statehood. Upon the occasion, General Douglas MacArthur sent a telegram from Japan which has been hailed by his supporters as public notice that he is available as a candidate for the presidency in 1948.

The sentence seized upon by MacArthur's supporters stated that "there can be no greater satisfaction than such as is offered by the confidence reflected in the selection by one's neighbors for public service—no more challenging responsibility than lies in the fulfillment of their trust."

While most of the Wisconsin supporters of the general "positive" that this passage represents a tacit endorsement of their efforts, Chief Justice Marvin B. Rosenberry, who read the message to the assembly, admitted that he found no more indication of the general's intention than in the "Ten Commandments."

Farm Buying Power Drops

People who are worried about the fact that farm income is decreasing might take notice of the following figures:

"Farm income in October, 1947, was 10.9 per cent above October, 1946, but the increase was not sufficient to offset the 16.5 per cent rise in the prices of goods which the farmers bought."

"As a result," said the Alexander Hamilton Institute, "the farmers' purchasing power showed a drop of 4.7 per cent below the level of a year ago. This trend, if continued, will become a factor working for a curtailment of manufacturing activity."

Polish Refugee Flays Russia

Stanislaw Mlodozyczyk, Polish refugee from the Soviet, is writing a series of articles for the press in which he sets forth his conviction that Russia intends to conquer the world.

The former Minister of the Polish Government made a spectacular escape from his home country months ago. He is now in the United States, attempting to awaken the people of this country and the world to the Russian menace in the ambitions that stir the Moscow regime.

It would not be wise to attach too much importance to the declarations of the Polish refugee, but it has been correctly sized up the Russian program. While the United States should do nothing to precipitate a conflict with the Soviet Union, it would be the part of wisdom, in our opinion, to be prepared for any emergency which might be precipitated.

According to the Gallup Poll, high prices, labor and Russia's resistance, are the outstanding problems of the day. Personally labor always was one of our biggest troubles, but as yet, we haven't been able to find a substitute.

Henry Wallace has announced that he too, is running for the presidency. Before election is over, however, many of the candidates are going to run for last.

At last—a coin will soon be out honoring a printer. Benjamin Franklin's profile will appear on a new 50c piece.

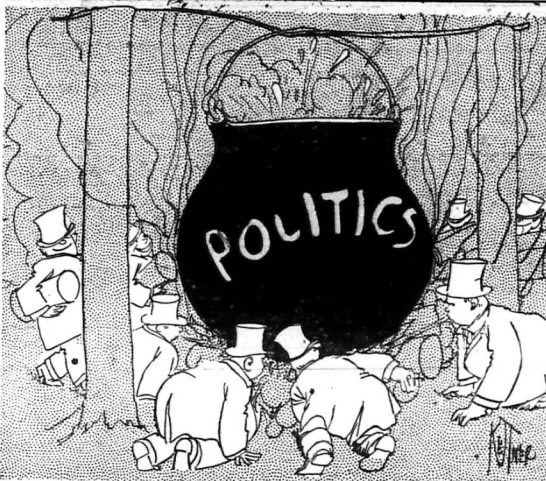

President Truman wants a porch built on the White House. Harry is no fool. Too many pests have their eye on the White House.

You can't choose your ancestors, but that seems fair enough. They probably wouldn't have picked you either.

Women's styles change too fast, they say. But women have a million or more reasons to dress as they do—and every one of them is a man.

Flying discs are being seen again. Do you suppose someone's record changer has gone wrong?

Starting to Boil

There has been considerable talk about the weather here in Morehead for the past week. Saturday night's cold spell. On Sunday morning I slipped into a red woolies and sure was in a ticklish position.

I don't see how a sheep can stand it with all that wool. Sunday morning it was 14 below at Clearfield. How warm it was 12 below. How warm it was something like watches. No two will be together. Started to bus station, saw Jack West and after looking at his nose I made it back to the fire. Dave Henry Govevost's pipes from so solid in his home that he had to blow his breath on them. I was explaining to Jim Nickell how the heating system worked. The A. B. McKinney Building. It has a mass of pipes in the concrete through them. You get the heat but you don't see it. Jim said he had much the same thing and he only has a gas furnace. He says, "We get the heat, but we don't feel it."

One of the members of the City Council said that when the weather got so cold, the gas thickens and flows more slowly. Kind of like sorghum molasses. However, I was assured that we would have plenty of gas next summer. They are planning on hooking on the big line just across the hill. That will furnish us with so much gas that we won't know what to do. I didn't get any definite answer as to when they were going to hook on because that is all I've heard for the last four or five years. I still say there is nothing like old No. 3 Burnside, sitting in all its glory in the middle of the floor at a country store. You can go in, warm your feet and then search your overcoat at the same time. When it gets red hot, the storekeeper opens the door. You can find yourself a new key to sit on and with a dime's worth of Star and a twist of Plie, mixed with a little homemade, make the day very nicely. There's good spirit in the groove around the bottom of the stove. There is always someone around who takes the time to be strictly up on the news.

In the city we're used to death in the winter and still feel the summer. We get two or three daily newspapers and plenty of magazines. We get the news by radio and yester to the \$30,000,000 question. The figures are getting so large in Washington that they are using ciphers between the numbers. Truman is certainly messed up. His wife gave his dog away and a bunch of his closest friends have forsaken him for these whiff business. He went to a club the other night and the doorman would not let him in, because he just had an ordnance snuff. He got about half mad about someone in Congress objecting to the building of a new front porch.

He informed them as a body that if Mrs. Filmore could put in a bath tub, he could have a front porch, and he was going to build one in spite of all they could do. He is a man that always looks forward for what he will do is put a big rock on his porch and sit. Then when the election gets hot he will start rocking.

I see where Gandhi has ended his fast. If he would come over here and see the price on groceries he would continue it. We have thousands in this country who fast faster and longer than he does and there are plenty of folks that would have been glad to have salvaged his goat. Even doughnuts are so high that we have started eating them hole and all.

Local—Dr. Harold Holbrook has opened his dentist office in the McKinney Building. He pulls them while you wait. One thing I like about a new dentist or doctor, his magazines are fresher.

For a very serious thought, let me pass on to you. Let's do it now under way. Even though President Roosevelt was a Democrat, I think one of the greatest things that he ever did was starting the polio campaign. Only the other day, I saw the County Health Nurse with a beautiful little girl who was being taken to the hospital for this dreaded disease. Let's give until it hurts!

10 Years Ago THIS WEEK

Gov. A. B. Chandler announced this week he was "prepared to take definite action" to obtain higher prices for hickory tobacco sold in Kentucky and would make an investigation to determine "why buyers are letting the prices go down at this time."

Boycotting Japan is serious business, with coeds at school of education of New York University. Twenty of them decided last week to wear sheer wool knee instead of silk stockings.

"The most beautiful library in Kentucky" is the term that has been appropriately applied to the Johnson Camden Library on the campus of Morehead State College. This building is one of the most used in the Morehead plant which consists of ten, modern structures.

The Annual County Spelling Bee, held each year in conjunction with the Courier-Journal State Spelling Bee, will be held in Morehead on Jan. 21. The spelling contest will be held during the teachers' conference scheduled for that day.

President Roosevelt at a business conference expressed an opinion about the "big dance." He believes it lacks rhythm—speaking as a music lover—with a little laughing. He thought it an interesting dance.

Miss Mildred Morris, Lexington, has filled the position of secretary of the Personnel Department of Morehead State College.

The Altila Club, Washington fun-making organization, held a

mock convention Saturday and "nominated" Senator Alben W. Barkley of Kentucky for President of the United States. In his "acceptance" speech, Barkley promised "everything to everybody."

The Rowan County News observed "It is a pleasure to be permitted to congratulate Stanley Reed upon his appointment to an associate justice of the Supreme Court. It is a compliment to Kentucky that President Roosevelt chose the gifted Kentuckian for this choice preference."

In connection with his gospel work in the schools Rev. Leeper is boosting the sale of defense stamps and bonds. The day of his visit to the school is also to be stamp day.

Coach Bobby Laughlin, who was inducted into the Army Dec. 17, has been replaced as coach of the Breakersbridge athletic teams by Fred Caudill. Caudill is a Morehead graduate and was formerly coach at Haldeman.

The first member of Morehead State College faculty to go into the WACS is Miss Mildred Morris of Lexington. Miss Morris, who has been secretary to Extension Department and faculty stenographer is getting a leave of absence for the duration of the war.

Nolan Fowler of Lee Sage, W. Va., began his duties as instructor in history and political science at Morehead College last Monday. The new instructor succeeds Professor Earl King Sniff, who resigned his position before the Christmas holidays, to accept an assignment as lieutenant in the U. S. Marine Corps.

As President Roosevelt's birthday approaches, Rowan County's part in the annual drive against infantile paralysis is well under way. Coin receivers displayed in most of the stores and public buildings are getting heavier as local citizens drop in their coins. Bigger and bigger crowds to the President are being filled with dimes by school children and by various individuals.

With the graduating of one hundred and fifty men from the Morehead Naval Training School during the Christmas holidays, the last class of the original four to begin electrical training on the Morehead campus completed its work.

Ollis Morris Lyon, Jr., and Miss Lavinia Waters are among those students at Morehead College to be selected by a faculty committee to represent the college in this year's edition of the publication "Who's Who Among Students in American Universities and Colleges."

1947 Sugar

Unofficial estimates reaching the Department of Agriculture show the 1948 supply of sugar will be adequate to meet all needs, at approximately the same prices.

THE RANGERS COLUMN

By Jack Hicks

Assistant Ranger George Nietzold and I travelled again to Wolfe County last week to finish marking the Chimney Top Ridge timber chance, winding the job up in a full-fledged snowstorm on Wednesday. The snow on the mountain top with its innumerable fingerlike spur ridges and without a sign of human tenacity, made it a person realize how immense this earth of ours really is. To work through it

afloat, catching only an occasional glimpse of your partner through the trees or the blazes on the trees he has marked, gives a somewhat different impression of what Daniel Boone experienced when he first penetrated the Kentucky wilderness.

While George and I were out on this field trip, Joe Mawk went down to Winchester to pick up the movie trailer and paraphernalia needed to show moving pictures at rural schools. We plan to visit a number of schools over the District between now and mid-February. It has been several years since we had the equipment available to conduct the Forest Service films. The Forest Service considers this an effective means of preventing forest fires and getting some conservation education across to the younger generation.

The Lexington Girl Scout organization has been expressing an interest in developing a camp site in this District near the Sky Bridge. Mr. Clarke of Lexington has asked for an appointment some Sunday in February to look over the ground with the camp site committee.

Rowan County is scheduled to receive \$2,543.84 as its share of the Forest Service "25¢" money for 1947. This return to the county is its proportionate share of National Forest receipts in Kentucky. Receipts that come mainly from the sale of timber and rental of land. This money is in lieu of taxes and is to be used for road and school. Elsewhere in the paper is a list of receipts for all the National Forest counties of the state.

The Kiwanis Club and past president Earl Young, in particular, made elaborate preparations to send greetings to Crutcher's bedside in Lexington last Friday, via short wave radio. First, Earl transmitted by prearrangement a message to Crutcher with F. C. C. regulations) to Dr. Strode in Winchester. Then a knock-up through to the Lexington hospital was to have had Snooks listening in while several Kiwanians first greeted Dr. Strode and directed their remarks to our disabled patient. Snooks was listening in, all right, but unfortunately, radio conditions were so bad he only caught snatches of what was said. I wonder whether he got the point in Andre Bowne's joke.

Warden Bob Cooper called on the Forest Service phone line from the Head of North Fork of the Clinch River, morning trying to get in touch with W. E. Eyl to tell him the main pump of the Morehead gas supply was out of order and to pass a message to Mr. Eyl. Though Eyl of his apartment was heated with gas like any place, I expect he'd have already known something was wrong.

General Assembly Has Many Farmer Members

Kentucky's status as an agricultural state is reflected in the make-up of the 1948 General Assembly.

Farming is listed more often than any other occupation in the legislative directory. Eight senators and 31 representatives named it as their chief occupation or one of their pursuits.

There are 38 senators and 100 representatives listed themselves as farmers, next most frequently named occupation.

A shipment of bubble gum, on Tuesday to South America, probably threatens the good neighbor policy.

Social Security Cards Should Be Checked

Families Also Should Take Inventory Of Insurance, Plan Future

The beginning of the new year finds many families taking inventory of their insurance policies and making plans to safeguard their family's future. To make this inventory complete, particular care should be taken to see that the social security card is included with these valuable papers.

Horace J. Godbey, Manager of the Ashland office of the Social Security Administration, today stated, "Too few people realize that their social security card represents an insurance policy with the Federal Government—an insurance policy which may at death pay thousands of dollars in monthly payments to survivors. This policy may also mean monthly payments to the holder at age 65 who has worked the required length of time in employment covered by the Social Security Act."

"Each worker upon attainment of age 65 should call at the Ashland office of the Social Security Administration with his card, or write that office, to determine when a worker dies his survivors should contact the nearest social security office for assistance in filing claims for death benefits," Mr. Godbey said.

Salespeople and others who were temporarily employed during the recent holiday season should now safeguard their social security cards for use in future employment. A social security card misplaced or lost causes unnecessary cost in administering the social security program and in many instances inconveniences the worker.

Mr. Godbey said that during the year 1947, 3,200 persons applied for duplicate social security cards in his office. The loss of some of these cards was unavoidable but he thinks far too many were lost because of carelessness or a lack of understanding of their value.

The Ashland office, which is located in the Second National Bank Building is open from 8:30 a. m. to 5:00 p. m., Monday through Friday.

"We are alive and kicking in Bardstown and hope to be able to make a better report on our community with each ensuing year."

It, after seeing the famous Bowman homestead where Foster composed "My Old Kentucky Home" and dining at Stephen Foster Hotel or the Old Talbott Inn may think you have learned everything worth while about Bardstown, you are mistaken. You may say to yourself, "It is a lovely town of historic shrines and nothing more." Mistaken again.

A civic sense Bardstown is wide awake, determined to make itself a better community to live in.

Listen to what A. S. Wathen, Jr., writes about it. Mr. Wathen is co-editor with Elizabeth Spalding of the Kentucky Standard.

"One of our more important accomplishments has been the setting up of the Nelson County Free Public Library. This work was started by the Bardstown Kiwanis Club and the club members did most of the ground work of getting the library on its feet. The library is financed jointly by the County Board of Education, the Bardstown Board of Education, the Fiscal Court and the City Council. There is a plan to use the county school bus system to take books out to the rural areas."

"During the past year the Nelson County Free Fair was revived after a lapse of ten years. County products were exhibited in abundance, and it is practically certain the fair will be held this year, and the next, and the next—and be bigger and better than ever."

"Our city sponsored summer recreation program was the most successful ever conducted here. The Kiwanis Club, Chamber of Commerce, City Board of Education and the city government cooperated in making it so."

"More than \$10,000 was spent on building a playground for colored people and they enjoyed a supervised summer recreation program for the first time."

"During the year, just passed our city took part in the national Clean-Up, Paint-Up, Fix-Up Campaign and received honorable mention as a winner in the contest. This campaign was sponsored by the city government and supervised by City Supervisor S. R. Marshall."

"We are alive and kicking in Bardstown and hope to be able to make a better report on our community with each ensuing year."

Prices would come down if the people who want things would exercise patience in their buying.

Recruiting Service Starts With Bang

Men Are Taking Advantage Of Army Enlistment Officers

The first days of the new year didn't indicate that 1948 would be an improvement over 1947. The able unions went on strike; in the south several towns were cleaning up after a tornado; and freezing rains coated wide areas in the north; 14 were killed in Missouri train wreck; there was the usual scuffling in Greece and Palestine; jukeboxes were cut off from their source of supply; John L. Lewis sneered again at the A. F. L. The new year hasn't got off to an auspicious start, except for the Recruiting Service in this area. The Recruiting Service has started off with a bang, for the new year 1948. There has been 16 applicants shipped to Fort Knox, for enlistment in the Regular Army since the first of the new year, states Sgt. Martin.

These men are taking advantage of the wonderful opportunities the new peace-time Regular Army offers them. It is not too late for you to start the new year out right with the Regular Army. Just stop in at your nearest Recruiting Station and talk it over with the Sergeant. He has all the latest changes and can help you on any problem you may have concerning the new peace time

Regular Army. If you are a high school graduate, before enlisting and be guaranteed the school of your choice after you finish your basic training. If you are an ex-serviceman and have a high school education or equivalent to a high school education you can choose any trade you want, and be sent to the school of your choice. If you are an ex-serviceman and held any rating at time of discharge you may be able to enlist in the same grade you held at the time of discharge. If you are a disabled combat veteran and held one of the critical needed MOS Numbers, and are training under that MOS Number, you can enlist in the same grade you held at the time of discharge, providing you enlist on or before June 30, 1948.

If you are interested in the future, don't pass up this opportunity the Army offers you. Now is the chance to get ahead. Don't put it off, do it today at your nearest Recruiting Station, located in the Martindale Building on Main Street, Morehead. Office hours are from 9:30 a. m. to 5:00 p. m.

Where Do People Live the Best?

Russia?

England?

United States?

The answer: The U. S.

We are better fed, better clothed, and have more automobiles, refrigerators, telephones, and radios per capita than any other country.

Why? One reason is the efficiency of the American farmer. In countries where farm production is low, the standard of living is low.

The American farmer represents only 2 1/2 per cent of the world's farmers, yet he produces approximately 20 per cent of the world's food supply.

Steel production also is an accurate measure of living standards. America, with only 7 per cent of the world's population, produces 50 per cent of the world's steel.

JUDGE A FARMER BY HIS CLOVER OR ALFALFA!

That's right! If a farmer has good clover or alfalfa, his other crops will take care of themselves. Spread Top Yield powdered rock phosphate on your clover or alfalfa, or on fields you'll seed to clover or alfalfa—and this clover or alfalfa will feed all the other crops in your rotation! Top Yield is the inexpensive way to improve your soil permanently and, at the same time, get an immediate increase in yield. That's the profitable way to farm!

the world's finest AVIATION TRAINING for OUTSTANDING YOUNG MEN OF AMERICA

Hundreds of opportunities

If you are 17 to 34, physically fit, and can pass certain mental examinations, you may enlist right now in the U. S. Air Force. Once in the Air Force you will have an opportunity to qualify for one of the many technical or specialized training courses offered by the Air Training Command.

Special opportunities for high school graduates

If you have graduated from high school you can enlist in the U. S. Air Force for 3 years and will be accepted for an Air Force Specialized School of

your choice before you enlist, under the Aviation Career Plan. If you are between 20 1/2 and 28 you can compete for appointment to Officer Candidate School.

Special opportunities for men with 2 years of college or the equivalent. All unmarried male citizens between 20 and 28 are eligible to apply for Aviation Cadet Pilot Training. Successful graduates of pilot training—home rated as Air Force pilots, commissioned as 2nd Lieutenants, Air Force Reserve, and assigned to flying duty with the U. S. Air Force.

Special opportunities for Veterans of any of the Armed Forces. If you had an occupational specialty in any of more than 300 skills with the Army, Navy, Air Force, Marines or Coast Guard, you may be eligible for a grade as high as Technical Sergeant in the Air Force, depending upon your skill and previous experience.

ALL THESE OPPORTUNITIES AND GOOD PAY, TOO!

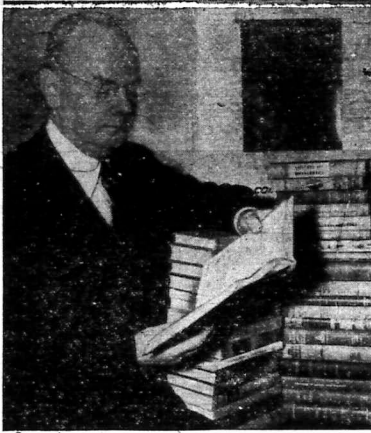

You start at \$75 a month, plus food, clothing, quarters, medical and dental care, provisions for retirement. In a few short months, you may be rated Private First Class at \$80 a month. This actually gives you more net take-home pay than the average civilian paying for equal benefits. For full details, ask at your U. S. Army and U. S. Air Force Recruiting Station.

"Grow With Us"

90% Of Kentucky Farms Will Be Electrified In 4 Yrs.

Plans for electrification of nearly 90 per cent of Kentucky farms within the next four years were made by officials of the Rural Electric Co-operative Corporation.

The meeting in the Kentucky Hotel in Louisville, was attended by directors and managers of most of the 25 local rural electric co-operatives in the state.

Charles M. Stewart, Glasgow, president of the statewide organization, said the job could be done in a much shorter time but for the shortage of materials and skilled labor.

One step already taken to speed up the work, he said, was the setting up of a central purchasing facility in Louisville. It was pointed out that a state office could buy in larger quantities for local units and allocate the material to the co-operatives in greatest need.

Another move to speed up the work was the establishment of a training school, Stewart said, managers will be trained in administrative work by experts. Kentucky, he said, is the first state in the Union to draw up a complete training program for rural electric co-operatives.

W. A. Ross, Washington, training consultant for the U. S. Office of Education, will have charge of the program. Kentucky agencies co-operating with him are the State Division of Vocational Education and Department of Industrial Education, the University of Kentucky Department of Industrial Education and the training committee of the R. E. C.

Little Brushy 4-H

The Little Brushy 4-H Club met Friday, Jan. 2. The program consisted of a Bible reading, by Ida Fannin, Pledge to the Flag and the roll call by the secretary. The song "Battle Hymn of the Republic" was sung by the group and the following talks were made by the members: "Money in our Treasury," by Jennie Cooper, "A School Garden for the Lunch Room," by Ida Fannin, "A Club House of our Own," by Myrna Alderman, "Gate Signs at Every 4-H Home," by Esther Leach, "A Good Community 4-H Pair," by Betty Kiser, "Better School Grounds," by Shirley Johnson. They sang "Happy Birthday" to Mr. Bazar and had a contest of naming the county seats, which was won by Olive Kiser.

Veteran's News

The number of World War II veterans taking part in job-training courses in Ohio, Kentucky and Michigan decreased slightly during December, totaling \$49,745 on Jan. 1, VA Branch Office in Columbus, reported today.

The seriously disabled World War II enrollment, included: Ohio, 166,557, decrease of 4,045; Mich., 130,519, decrease of 4,631; Ky., 42,069, decrease of 652.

The figures represent veterans enrolled under both the G. I. Bill, and Public Law 16 (disabled veterans).

While the decrease was reflected in both educational and job-training programs, most of the decline represented veterans enrolled under the G. I. Bill, VA said.

In Ohio, there were 121,204 veterans in educational institutions and 45,353 taking job-training courses on Jan. 1. Michigan has 112,206 in educational programs and 18,319 in job-training, while Kentucky showed 32,972 in educational institutions and 9,097 in job-training.

Latest VA figures show that 2,223 seriously disabled World War II veterans in Ohio, Michigan and Kentucky have received automotive vehicles at government expense under the law passed by Congress in August, 1946. Cost of the vehicles was \$3,692,632.

The totals include: Ohio, 1,039 vehicles, \$1,653,463; Michigan, 880 vehicles, \$1,397,065; Kentucky, 404 vehicles, \$642,124. The law provided an automobile or other conveyance, at a cost not to exceed \$1,000 for any World War II veteran who lost or lost the use of, one or both legs at or above the ankle as the result of service-incurred injuries.

Under the present law, eligible veterans should submit their applications for vehicles at government expense to VA prior to June 30, 1948.

Questions and Answers

Q. I am a World War I veteran and would like to know if there is any limit for filing a claim for compensation for disability caused by my war service?

A. There is no time limit set for filing claim for compensation under existing legislation.

Q. I was told that my disability, which I claim was due to service, cannot be service-connected because I had it before I entered service. Am I eligible for compensation?

A. If VA decides that your ailment was incurred in or aggravated by your service in the armed forces you will be entitled to receive compensation, if it exists to a compensable degree.

Transportation With a Pull

In every form of transportation — land, sea and air — it's pull that counts. The most economical way of transporting loads is by pulling them. On the highways, over 90% of all motor freight is handled by truck-trailer combinations. A railroad locomotive pulls scores of freight cars. On inland waterways, tremendous cargoes are transported by tugs and barges. And, during the war, troops and all supplies were often moved by fleets of towed gliders. As one leading equipment manufacturer puts it, "You can pull far more than you can carry."

Mechanists, Plane Mechanics Needed In U. S. Air Force

Mechanists, airplane mechanics and other craftsmen having any one of 250 skills needed by the U. S. Air Force are now permitted to enlist for special jobs at grades ranging up to Master Sergeant. According to Sgt. Walter F. Martin of the local Army and Air Force Recruiting Station, persons with prior service are eligible for enlistment on the spot and they will be assigned to initial service immediately at the base at which they are accepted.

Those without prior service will be given an opportunity to meet with an interview board to determine their qualifications and, if accepted, will be sent to San Antonio, Texas for a 13-week basic training course after which they will be normally re-assigned to the base at which they applied.

Following are the main points of the program as announced by the U. S. Air Force:
Men 18 to 34 years of age, inclusive, are eligible to apply. Veterans and a few specialists will be accepted at slightly higher grades. Successful applicants will be enlisted, at once at the grade for which they qualify and they will not have to serve, even temporarily, at a lower rank. They will draw full pay for their special skill from the moment of enlistment.

Reason for the new, liberalized enlistment policy, is that the U. S. Air Force now has openings

for hundreds of specialists at virtually all of the air bases in the country. Among the jobs open of special interest are the following: Diesel mechanic, machinist, automotive equipment mechanic, salvage technician, motor inspector, glider mechanic, fuel induction repairman, equipment mechanic and automotive repairman.

American corporate profits for 1947 will exceed the record of 1946, according to the National Industrial Conference Board survey, which, at the same time,

pointed out that 1946 results actually were less than 5 cents per dollar of sales.

Sunday School Lesson

WHEN WE WORK WITH GOD
International Sunday School Lesson for January 25, 1948

GOLDEN TEXT: "For we are laborers together with God."—1 Cor. 3: 9

Lesson Text: II Corinthians 5: 20-6: 10.

In our lesson last week we considered the rare privileges that are ours when we belong to Christ. However, we must bear in mind that our privileges carry with them responsibilities and duties.

Paul, in our text this week, outlines this responsibility for us.

In working out his plan of redemption for the world, God must have human helpers. Without him, we can do nothing and without us, God cannot accomplish his purpose in the world. Therefore, Paul declares that those who have accepted Christ are ambassadors on behalf of Christ. It is pointed out that an ambassador of a country must possess the following qualifications in order to be acceptable:

(1) He must be a citizen of the

country he represents; (2) he must have the interests of that country at heart, although he lives in another; and (3) he must receive an appointment. A Christian ambassador must have the same qualifications. In our lesson text, Paul tells us how a citizen of Christ's kingdom. He came into this world and partook of our nature. On the cross he bore our sin and, as a result, those who trust him become citizens of the kingdom of God. By the same sacrifice Christ puts into the hearts of each new heavenly citizen a love for the heavenly kingdom and commissions him to serve as an ambassador.

The honor and privilege of being an ambassador also carry real responsibility. A true ambassador has a mission that includes every part of his life, realizing that the manner in which he conducts his affairs and his personal life are open to close scrutiny and his country is either honored or hurt by what he is and does. The ambassador for Christ must not forget that his spiritual citizenship is in heaven and that people in this world are likely to judge his country by the way he acts. His life should be centered around the twofold theme of living a life that truly represents Christ and of speaking the message that Christ would have the people bear—that they should be reconciled to God and become followers of God.

Paul knew that the life of an ambassador for Christ is anything but easy. Misunderstandings arise, harsh criticism and ridicule received and sometimes even bodily punishment given by those who fail to receive the message of Christ. Paul knew from personal experience that Christ might have to undergo and he, therefore, counsels that they be sure their faith is strong enough to see beyond the dishonor and evil reports. This faith must be able to remind him that although he may be unknown to men, he is known to God and although he may be chastened, God continues to be with him. He must never forget that, as an ambassador, he is a laborer together with God to accomplish the work of God in the world.

We should remember that our God works by a plan. Nothing that comes from his hand shows haphazard or careless planning. If God uses a plan in the making of the minutest things in the

physical universe, he certainly goes by a plan in saving a lost world. In the working out of some of his plans, God works alone and does not ask human assistance. However, in the great work of soul winning, God left a place in his plan for human initiative and effort and he expects Christians to take their place in their plan.

As ambassadors for Christ, we are partners with God. The partnership is continued and broadened through the consecration of the life to the will of God, knowing that whatever happens we have Christ's promise, "And, I will be with you always, even unto the end of the world."

Holly

Elmer Glover and Miss Sarah Scags were united in marriage at Mayville Jan. 15. Miss Scags is the daughter of Walter Scags of Clearfield and Mr. Glover is the son of George Glover of Morehead. Their many friends wish them happiness.

Leonard Hamm and Miss Ruth Gibson of Marion, Ohio, were united in marriage Dec. 30 at Mayville. Mr. Hamm is the son of Mr. and Mrs. L. P. Hamm of Morehead and has been employed at Marion for several months. Miss Gibson is the daughter of Mr. and Mrs. Carl Gibson of Macon.

Kentucky's 1948 Law Making To Cost \$215,000

Kentucky's 1948 law making will cost the taxpayers approximately \$215,000.

Top item is the \$120,272 "per diem" of legislators, \$100,835 for the 100 House members and \$19,437 for the senators and their presiding officer, the lieutenant governor.

Each member gets \$75 a day, except the lieutenant governor and the speaker of the House, who get \$20 each. In addition, each of the 139 gets \$50 for stationery and 15 cents a mile for one round-trip to and from home, except the senator and representative who live in Frankfort.

Coal production for 1947 through Dec. 27, was about 612,061,000 tons, or 24,750,000 tons more than the comparable period for 1946.

Commissioner's Sale

The Commonwealth of Kentucky
ROWAN CIRCUIT COURT
John Henry Link and Mattie Link, his wife Plaintiff
Vs.
James Fox Def't.

NOTICE OF SALE
By virtue of a judgment and order of sale of the Rowan Circuit Court rendered at the November Term thereof 1947, in the above cause, for the sum of seven hundred and fifty dollars,

per cent per annum from the 27th day of May, 1946, until paid and its costs therein I shall proceed to offer for sale at public auction on the 22nd day of February, 1948, at 1:00 o'clock p. m., or thereabout, upon a credit of 18 months, the following described property, to-wit:

A certain tract or parcel of land, lying and being in Rowan County, Kentucky, on Lick Branch, a tributary of Licking River, and bounded as follows: Beginning on a beech, thence N. 45 W. 22 1/2 poles to four Chestnut Oaks, thence N. 57 E. 158 poles to two White Oaks; S. 15 E. 204 poles to three beeches in the original line, thence with same 31 poles to the beginning, containing 125 acres, more or less.

Or sufficient thereof to produce the sum of money so ordered to be made. For the purchase price, the purchaser must execute bond, with approved securities, bearing legal interest from the day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms.

Commissioner's Sale

The Commonwealth of Kentucky
ROWAN CIRCUIT COURT
Lena Perry Plaintiff
Vs.
Cecil Carey, et al. Def't.

NOTICE OF SALE
By virtue of a judgment and order of sale of the Rowan Circuit Court rendered at the November Term thereof 1947, in the above cause, for the sum of the estate, I shall proceed to offer for sale at the Court House door in the City of Morehead, Kentucky, to the highest and best bidder, at public auction on the 22nd day of February, 1948, at 1:00 o'clock p. m., or thereabout, upon a credit of 6, 12 or 18 months, the following property, to-wit:

FIRST TRACT: A certain tract or parcel of land situated in Rowan County, Kentucky, bounded as follows: Beginning at a stake in Alley's line, corner of Lot No. 4 and near a small poplar tree marked "B" on plat; thence with Alley's line S. 28 E. 130 poles to a beech on the South side of hill; thence N. 75 E. 37 1/2 poles to a stake, corner Lots Nos. 3 and 4 of timber land; thence N. 82 E. 45 poles to a stake in side of hill; thence N. 26 W. 144 poles to a stake in line of Lot No. 6; thence with the line of said lot, S. 46 W. 27 poles to a dead tree in edge of pond; thence N. 88 W. 19 poles to the beginning, being the same land that was conveyed to Nora McKinney by R. Guggill, Special Commissioner, by deed dated Feb. 9, 1885, recorded in Deed

County Records.

SECOND TRACT: A tract of land described as follows: Lot No. 8, situated in Rowan County, Kentucky, beginning at a stake in line of Lot No. 4, a corner of Lot No. 7; thence S. 26 W. 184 poles to a stake on side of the hill, a corner of Lot No. 7; thence N. 82 E. 40 poles to a black oak 13 on plot and corner to Lot No. 8; thence with the line of Lot No. 9 N. 14 1/2 E. 43 poles to a stake at 14, a corner to Edward McKinney land; thence with his line N. 61 W. 88 poles to a stake, corner of fence; thence N. 54 W. 20 poles to a stake at Lot No. 16 on plot; thence N. 26 W. 41 poles to a small bush at Lot No. 12, a corner to Lot No. 6 and 10; thence N. 82 W. 7 1/2 poles to a stake, 11 on plot; thence S. 34 W. 27 poles to a sycamore tree; thence S. 46 W. 5 poles to the beginning corner, containing 39

acres, and in addition to the above described tract of land a tract of land fifteen feet wide, beginning at the Northeast corner of the above described tract of land and running a straight line with the land of Edward McKinney to the county road.

Being the same land conveyed to Laban Carey by John T. Ellington and Lillie Ellington, his wife, by deed dated Feb. 15, 1897, recorded in Deed Book No. 57 at Page 4, Rowan County Records.

For the purchase price, the purchaser must execute bond, with approved securities, bearing legal interest from the day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms.

W. J. SAMPLE,
MASTER COMMISSIONER
ROWAN CIRCUIT COURT

There's a law against this...

DON'T take chances! Out-of-line or unbalanced wheels cause hard steering and "road wander"—dangerous in emergencies. Unbalanced or misaligned wheels are expensive, too, because they grind rubber off your tires, cutting down mileage. They can ruin steering and wheel assemblies. Come in today and let our service department check your wheels with our precision John Bean Wheel Alignment and Balancing System. Savings in tire and chassis wear will more than pay for the job.

Brand NEW for '48!
FORD Bonus Built TRUCKS
BUILT STRONGER TO LAST LONGER!

THEY'RE here—the great new Ford Bonus Built Trucks for '48... greatest truck line ever! And they're new all through. Three new engines—a Six and two V-8's—with up to 145 horsepower! New Million Dollar cab! Over 115... five new series... two new Big Jobs—the biggest Ford Trucks ever!

And every one of these great new Ford Trucks for '48 is Bonus Built—built with extra strength in every vital part. This extra strength provides **WORK RESERVES** that pay off for you in two important money-saving ways!

FIRST: These **WORK RESERVES** give Ford Trucks a greater range of use by permitting them to handle loads beyond normal duty. Ford Trucks are not limited, doing one single, specific job.

SECOND: These Bonus Built Trucks to do the job "rednecked," with less strain, less wear. These Trucks last longer because they work easier!

Come in today—see the only trucks that are Bonus Built. No wonder there are more Ford other make!

* Whether any owner means "working gives" in addition to what is used or strictly gives

"And We're All ... JUST AS warm AS CAN BE"

WITH AUTOMATIC CONTROL

Come bedtime, you just turn on the switch, and turn it off in the morning. The bedside control automatically maintains a relaxing warmth at the same even temperature all night—whether it thaws or freezes. Some even have dual controls so husband and wife can each select degree of warmth preferred.

Just imagine the comfort of climbing into a pre-warmed bed and then falling to sleep under one lightweight cover that keeps you as warm as you like, no matter what the thermometer does. The new, modern bed coverings assure you this gentle warmth without weight. They're wonderful for anyone from tiny children to the aged.

Just plug into any outlet, switch on the automatic bedside control, and sleep relaxed. No tussling with a load of covers that won't let you rest. One electric covering is all you need for any bed, and they cost no more than the several you're now using. You have only one cover to buy, sleep under, make up, launder, and store.

spinach that has been chopped and seasoned with salt and pepper. Make a white sauce using the margarine, flour and milk. Four over spinach. Sprinkle rest of grated cheese over the top and bake in an oven 350 degrees for 30 minutes.

Chickens with Spaghetti
Roasting chicken, cut in pieces
Veal knuckle
1 onion chopped
Celery tops, handful of parsley
Salt and pepper, 1-3 cup minced pimiento
1-4 cup green pepper minced
1-4 cup onion minced
2-9-ounce packages spaghetti broken in half, 1 teaspoon paprika
1-2 cups minced ripe olives
1-2 cups shredded American cheese

Brown pieces of chicken in hot fat. Put in a large kettle with the veal knuckle that has been cracked in several places. Cover with water, add the chopped onion, some celery tops and the parsley. Simmer until chicken is tender and meat comes off the bone. After first hour, remove meat. Strain stock, skim off fat. Dice the meat. Saute the minced green pepper and minced onion in a little fat skimmed off the stock. Stir in the paprika and minced pimiento. Add this fat to the meat to the stock. Season. Bring to boil. Add the spaghetti. Cook 9 minutes. Add ripe olives and cheese. Heat until cheese is melted. Mix well. Serve at once.

Tomatoes and Macaroni
6 large tomatoes
1 cup macaroni, broken in small pieces
3 tablespoons margarine
1-2 tablespoons flour

1-2 tablespoons salt, pepper
1-2 cups milk
5 tablespoons grated American cheese
1-3 lb. salami
1-3 cup bread crumbs
Scoop pulp from the tomatoes
Cook and drain macaroni. Rinse with boiling water. Drain. Melt butter, stir in flour, salt, pepper and milk. Heat over low heat, stirring until sauce boils. Stir in 3 tablespoons of grated cheese. finely diced salami and macaroni. Fill tomatoes with mixture. Sprinkle with crumbs and cheese and bake in an oven 375 degrees for 20 minutes.

Mushrooms and Browned Almonds on Noodles
1-2 cups blanched almonds
Bacon drippings
1-2 lb. mushrooms
1 scallion minced
Flour, 2 1-2 cups scalded milk
Noodles

Cut the blanched almonds into thin strips. Saute in bacon drippings until crisp and golden brown. Take out the nuts and cook the mushrooms in the same fat for about 8 minutes. Add the minced scallion. Sprinkle lightly with flour and stir. Add the scalded milk. Stir constantly until smooth and thickened. Season to taste. Add the almonds. Serve on freshly cooked noodles.

Cranston Man Primes Tobacco For Market

Explains How Method Used Procured 60c Lb. For 300 Pounds

By Adrian M. Razor, County Agent
J. A. Adkins of the Cranston man, one of the few to prime tobacco this year has given me some figures on the labor and method used in carrying out this practice. He tells me that he primed a total of 372 pounds of tobacco, three hundred pounds of which brought 60 cents a pound and 72 pounds which brought 47 cents a pound. His records show that he and his son, Carl worked a total of nine and one-half hour days. Of this total of 9 1/2 days, it took seven days to get the tobacco primed, brought into the barn and put on sticks and hung up. Two and one-half days were taken in tying it up and pressing it. Mr. Adkins says that he made approximately \$3.50 an hour for the time he spent and that he plans to continue this practice in succeeding years.

Farm Bureau Convention
I had the privilege of accompanying the delegates from Rowan County Farm Bureau to the state convention in Louisville Jan. 7, 8, and 9, of the past week. The program consisted of talks on various phases of farming by men of state and national reputation. Included on the program were talks by Congressman V. G. Chapman and Senator Cooper who talked on things that were being done by our national government to help the Kentucky farmers, special attention being given to legislation that is being passed and pending legislation that will effect the tobacco farmers in Kentucky. A representative of the AAA in Lexington gave a statistical report on the tobacco control program in Kentucky.

H. L. Donovan, President of the University of Kentucky and Dean Thomas P. Cooper, Dean of the College of Agriculture, talked on the part the University has played and will play in the agriculture of Kentucky.

On Thursday night the Annual Farm Bureau Banquet was held in the Brown Hotel with 1,200 delegates attending. The management of the hotel reported that this was the largest banquet being served in the history of that hotel.

Following the banquet the contest for selecting the Farm Bureau Queen was held. Rowan County was well represented by Miss Ruth Kidd, but the contest was won by a Mason County representative.

Man Who Saw Russia To Address Farmers
John Strohm, associate editor of The Country Gentleman, who traveled in Russia after the war, will make two addresses at the 26th Annual Farm and Home Convention at the University of Kentucky Experiment Station at Lexington Jan. 27-30.

He will speak to the farmers the morning of the first day on the subject, "What I Saw Behind the Iron Curtain," and in the afternoon of the same day will speak to the women's session on "The People Behind the Iron Curtain."

Other subjects at the general session for farmers the first day include farm cooperatives, the farm outlook, and improvements in agriculture. Awards will be made in the Kentucky corn derby the first day of the convention.

Sectional meetings, Wednesday, Thursday and Friday, Jan. 28, 29 and 30, will give special consideration to soils and crops, stock-raising, poultry raising, dairying, the rural community and church, farm management, agricultural engineering and

fruit production. Several farm organizations will meet during the week.

Women will meet in Memorial Hall all four days. Speakers include Mrs. Balmeh Mansour Jacobs of Jerusalem, in a talk on the Holy Land crisis; Mrs. Luella Canterbury, Chicago psychologist; Celeste Carlyle, Chicago stylist; Dr. P. E. Black-

erby, state Health commissioner; President H. L. Donovan and Dean Thomas P. Cooper of the University of Kentucky, and R. O. Lee, General Motors public relations expert. The Kentucky Federation of Homemakers will meet the last day.

An exhibit of farm and home equipment will again be a feature of the convention.

CHEVROLET and ONLY Chevrolet IS FIRST!

FIRST in PRODUCTION, in SALES and in REGISTRATIONS of cars and of trucks . . .

FIRST in Passenger Car Production in 1947—according to published production figures.

FIRST in Truck Production in 1947—according to published production figures.

FIRST in Passenger Car Sales in 1947—according to incomplete but conclusive sales records.

FIRST in Truck Sales in 1947—according to incomplete but conclusive sales records.

FIRST to Produce over a Million Cars and Trucks in a postwar year, 1947—according to published production figures.

FIRST in Total Passenger Car Production and Sales for the total 17-year period, January, 1931 to January, 1948—according to published nation-wide figures.

FIRST in Total Truck Production and Sales for the total 17-year period, January, 1931 to January, 1948—according to published nation-wide figures.

FIRST in Total Number of Cars and Trucks on the road today—according to official nation-wide registrations.

WE YOUR LOCAL CHEVROLET DEALER—and every other Chevrolet Dealer in America—are "both proud and happy to make the following report to buyers and prospective buyers of Chevrolet products: Again in 1947, Chevrolet built and sold more cars and more trucks than any other maker in the industry, just as Chevrolet has built and sold more cars and more trucks than any other maker for the total seventeen-year period, dating from January, 1931 to January, 1948—the modern period of motor car history.

Naturally, we as well as the Chevrolet Motor Division of General Motors, are deeply grateful for America's outspoken preference for Chevrolet passenger cars and trucks and we are determined to do everything in our power to continue to deserve this preference in the future as in the past.

We want to thank each and every person in this community for his friendship and goodwill for this organization. We are doing our level best to prove that, by filling orders for new Chevrolet cars and trucks as promptly as we can—even under today's trying conditions—and we are deeply and doubly appreciative of the patience and understanding of all our customers, who are awaiting deliveries of new Chevrolets.

Needless to say, you buy wisely when you buy the product of the world's largest producers of cars and trucks, for that is the way to maximum dollar value! Rest assured that we'll fill your order for a new Chevrolet just as soon as it is humanly possible to do so. Meanwhile, please let us help to keep your present car or truck in good running condition by bringing it to us for skilled service, now and at regular intervals.

THAT OLD JOB . . . Henry J. Easton, industrialist, turned the clock back 50 years when he revisited a Utica, N. Y., department store where he once worked as a bundle-wraper for the mammoth sum of \$1.50 a week.

Morehead High Has Vocational Farming Dept.
The institutional on the farm training program for veterans as a part of the Vocational Agriculture Department of Morehead High School. Charles Hughes, who is the teacher of agriculture at Morehead High is responsible for the total training program.

There are now four teachers in the department under Mr. Hughes. They are Robert Pennington, Carl Sluss, Herbert Webb and Carl Sinclair. These men are responsible for the instruction of the veterans enrolled in the On-the-Farm-Training class. Hubert Pennington studied agriculture at Morehead College and is now a teacher at the University of Kentucky. He also taught school in Rowan County. Mr. Sluss studied agriculture at Morehead College and is now a successful farmer in Rowan County. Herbert Webb was formerly with the Soil Conservation Service here in Rowan County. Mr. Webb also taught vocational agriculture in Carter County. He received a B. S. degree in agriculture from the University of Kentucky. Carl Sinclair received a B. S. degree in agriculture from the University of Kentucky. In action to their training in the field of agriculture all of the instructors have had farming experience.

There are 75 veterans of World War II taking the institutional on-farm-training program for veterans at Morehead High. Also there is a class of 25 men now getting started in the program.

In this training program the veterans receive regular farming experience under personal supervision on the farm of regular visits each month by their instructor. In addition to this actual experience in farming they receive regular systematic class instruction with their regular teacher in charge. These men put into practice on the individual farms the improved practices in farming which they study in class. The class meets twice week at the night during the week and the other class meeting is on Saturday morning.

Home Furnishing Expert Meets With County Leaders

By Evelyn Sinclair
Miss Evelyn Lovelady, Home Furnishing Specialist from the University of Kentucky met with twelve home furnishing leaders from this county last week in the Science Building. The women spent the day studying floor treatments for livable homes. Miss Lovelady taught the women how to remove old paint and how to varnish and restore the beauty of the soft and hard wood floors. She taught them the different finishes and how to apply them and how to make crack filler. The Home Agent, Evelyn Sinclair believes this will be the best lesson that has been given and was very interesting. The women, with the assistance of the Home Agent, have made different samples of floor finishes. This lesson will be given to the women throughout the county at the February Home-makers meeting. The women throughout Rowan County have the privilege to learn how to make different finishes under the leadership of capable women who have learned the art of making floors beautiful. The web leaders will also see samples of different finishes. The women attending the school were: Mrs. Oscar Patrick, Mrs. Sam Webb, Mrs. Sam Littleton, Mrs. Madge Adams, Mrs. Lila Chadwell, Mrs. Allie Porter, Mrs. Wavel Elam, Mrs. Emma Elam, Mrs. Leola Maddox, and Mrs. Burl Moore.

Old people who try to restrict young people's ideas, have a tough time in life.

Conservation Of Fuel Oil Urged In Kentucky

"All users of fuel oil in Kentucky are strongly urged to conserve fuel oil in order that hard-fought and cold homes may be avoided in the event of severe weather," was the decision of a meeting of fifteen oil industry leaders with J. E. Hutchinson, recently appointed Fuel Coordinator for Kentucky by Gov. Clements. Unprecedented demands for all petroleum products have created a national shortage and in the coming weeks of usually severe weather, unless consumer conservation cooperation is accorded the oil industry in its untiring efforts to equitably distribute available fuel, a critical situation may result.

Mr. Hutchinson recommends to oil burning equipment distributors that all installations of or conversions to oil heating equipment be immediately discontinued. He also recommends that literature describing oil saving methods be sent by each supplier to his customers.

Mr. Hutchinson stated that fuel oil and kerosene supply situation is serious in Kentucky and warns all who may be considering the purchase of space heaters or central heating equipment against doing so, since the demand for burning oils already exceeds the available supply.

High School Music Directors Will Attend Clinic

Approximately 450 music directors from high schools throughout Kentucky are expected to attend the annual music clinic which will be held at Western State Teachers College Friday and Saturday. Newell Long, director of instrumental music at Indiana University, will be guest conductor for the clinic. Dr. Hugh Gunderson, members of Western's music department and chairman of the clinic, said, "Object of the clinic will be to acquaint high school directors of music with new musical materials and rehearsal techniques as well as fundamentals of instrumental and vocal pedagogy. The clinic band, orchestra, and chorus will be composed mainly of outstanding students from the high schools represented."

REGISTRATION TIME FOR SPEECH FESTIVAL EXTENDED

Dead line for registration in the 1948 Kentucky High School Speech Festival has been extended from Jan. 15 to 31. Louis Clifton, director of the University of Kentucky Extension

If Stuffy Nose Spoils Sleep Tonight
A little V-A-Tro-nol in each nostril quickly opens up nasal passages to relieve stuffy nose and congestion. Gives restful sleep. Relieves sniffly, sneezy eyes of head cold. Follow directions in the package. Try it!

CATHEDRAL WITHIN A CATHEDRAL . . . Regardless of their food shortages and economic travail, the British people held lovingly to the traditions of tradition. Here, a skilled artisan is working on the restoration of the famous model of St. Paul's cathedral by Sir Christopher Wren. Recently returned from his bomb shelter in the country, the model now is King St. Paul's cathedral in London. It was viewed and approved by King Charles II in 1678.

Department, which sponsors the event, announced today. If there is not to be any more war, any patriot might ask why other countries do not junk their arms.
