Matters of heavy depend upon the point of view.

Wiley Conley Gives Platform In Magistrate Race

To the Voters of Magisterial District No. 3 In Rowan County: Some time ago I filed my notice and declaration of becoming a candidate for re-election to the office of magistrate from District No. 3 in Rowan County and at this time I desire to make a statement to all he voters in my district concerning my election.

During the past three and one half years that I have been on the Fiscal Court I have earnestly and sincerely tried to see that all county funds were legally and wisely spent and have objected to the payment of any claim that I felt was illegal. At the same time, I have favored the expenditure of money where I thought the county would benefit therefrom. I favored and helped to establish the office of Home Demonstration Agent in this county. I favored the extension of the benefits given by the County Agents office. I have favored the appropriation of money to the cause of better law enforcement and the betterment of health and sanitation conditions in this county and at this time I am a member of the Rowan County Health Board, representing the Fiscal Court.

# Magoffin Youth Admits Slaying Of Veteran and Wife, Police Say

### Newby Whitt Confesses Killing Williams Couple Near Salyersville

The story of how a young Magoffin County couple were slain, the wife with her baby in her arms, was unfolded at Louisa, Ky., this week in a 400-word statement signed by Newby Whitt, State Police Detective Aech Thompson released what he said was the sworn statement of Whitt, who is being held in the Lawrence County jail at Louisa for safe keeping.

In the presence of Sheriff Proctor Pyffe, was obtained Saturday night but was not released immediately, Thompson said, because "Whitt's safety was invaded."

Whitt killed 24-year old Wannie Williams, and her husband Charles, 27, at their home on Bear Branch, six miles from Salyersville on July 3, the statement said.

The double slaying netted a single \$5 bill, taken from Williams' wallet after a second shotgun charge had been pumped into his body to make sure he was dead.

Whitt's confession admitted

premeditation. He said he planned to kill Williams, a neighbor, "for several days."

The young war veteran, the confession read, "was standing in the yard back of his house, surrounded by the hill on rural mountains (Bear Branch). I did not say anything to him, but I shot him in the waist some where."

"The woman screamed in the house," Whitt said. "Mrs. Williams grabbed her 7-month old child and tried to flee for her life."

"I ran around the house, and got within about 15 feet of her and shot her in the back and the fell down. I went up to her and saw that she was not dead. I then shot her again in the back of the head while standing up over her."

"Several shotgun pellets struck the baby, but the child was not injured seriously. Returning to the house, Whitt said he found that Williams had crawled inside and was lying face down. "I then shot him in the back of the head."

The statement said Whitt, after robbing the young farmer, and tossing the billfold away, returned to the hillside, hit the hill in the hollow of a bench tree, crossed a ridge to his grand father's home, ate dinner, and remained about an hour before returning home.

Known to have been carrying a shotgun in the area, with which he had insisted he was hunting

squirrels, Whitt was arrested later in the afternoon. The shotgun, he said, he carried in a brief pack. Thompson said Whitt led him to the beech tree where he recovered the \$5 bill. Because of feeling against him in Salyersville, the youth was transferred to the Johnson County jail in Falmville, then to the Boyd County jail in Prestonsburg, before being taken to Louisa.

## Sales Report At Morehead Stockyards

Tuesday's sales report at the Morehead Stockyards: HOGS: Packers, \$23.30; Shoats, \$4.25-\$5.4; Sows, \$14.4-\$21. CATTLE: Canners and Cut, \$11.8-\$16.40; Heavy Steers, \$19.90; Stockers, \$39.0-\$42.0; Milk Cows, \$20.0-\$42.50; Cows and Calves, \$12.0-\$13.0. VEALS: Tops, \$25.10; Medium, \$22.0; Common, \$20.0-\$22.0; Culls, \$14.0.

## MORE BABIES

The director of the Population Reference Bureau, Guy I. Burch reports that between 1940 and 1947, the reproduction rate of women college graduates increased 81 per cent, compared to an increase of only 25 per cent for women who had completed only five years of grade school.

# Pennington In Race For County Judge

### World War II Veteran Releases Platform To Voters

Robert Pennington, a World War II veteran, has released his platform to voters for the upcoming primary election for County Judge.

Pennington, a resident of Morehead, Kentucky, has a record of military service and public administration. His platform focuses on improving local infrastructure and supporting the agricultural sector.

## Business Expansion

The Securities and Exchange Commission and the Commerce Department announced that American business, exclusive of agriculture, plans to spend \$4,600,000,000 on new plants and equipment in the third quarter of this year, a four per cent increase from the \$4,220,000,000 spent during the second quarter. However, the total for the first nine months of this year is \$13,910,000,000 compared with \$13,620,000,000 for the same period in 1948.

## Wallace Doris Brown

Wallace Doris Brown, a Democratic candidate for Sheriff of Rowan County, has announced his platform. He emphasizes law enforcement, public safety, and the well-being of the community.

## Control Of--

Pewitt primary race will be elected to the Rowan County Republican opposition. And Waterfield, if he wins, might be the man to organize the anti-Clements House bloc solidly. He was a power in the 1944 and 1946 House sessions where he served as speaker.

And if you think the Clements crew wouldn't like to keep at least four House Democrats from coming back next year, you're dead wrong. They are Reps. Leonard Prestich, Glasgow; Leab Jackson, Eminence; Kerby; Le-

nings, Murray; and Morris Wendrich, Newport. They gave their fellow Democrats of the Clements faction plenty of headaches at the regular and special sessions. None of them will face Republican foes in November, if they win the primary race. Preston is in a hot fight from administration-backed Lyon Huttleson in the Barron County House District. W. R. Reesor has the administration support of the Shelby County District against Jackson. Barkley Jones is referred to as the administration candidate in the primary of Rowan County against Jennings. He represents the district heavily the administration is getting into that contest.

## Prichard Fails--

(Continued from Page 1) aid to top-flight New Dealers. Bourbon Circuit Judge W. B. Arley testified Prichard came to him for advice and told that he and two other young men had a part in the ballot forgery. Arley was not permitted to identify the men who assisted Prichard.

Prichard himself did not take the stand. Testimony against Funk was concentrated on handwriting FBI and defense handwriting experts gave conflicting viewpoints.

The law partners were charged in a single indictment with conspiracy to forge and cast 24 ballots. Judge Ford, in his instructions to the jury, told jurors to consider only the guilt or innocence of the defendants based on points of law, which he recited.

The judge said testimony of Circuit Judge Arley consisted on admission on the part of Prichard, but was no evidence against Funk.

Both Prichard and Funk had maintained their innocence since the indictment was returned against them.

After Jury Foreman C. M. Brooks handed the verdicts to Clerk A. B. Rouse, who first announced Funk's acquittal, then Prichard's conviction, U. S. District Attorney Claude P. Stephens said he had no comment.

Prichard stood quietly before the judge, heard sentence pronounced and said he had no statement to make. Funk milled around the federal building after the verdict and told friends: "I knew it would turn out for me all right."

Judge Ford ordered the 31 ballot boxes which figured in the trial returned to Bourbon County officials.

## Business Expansion

The Securities and Exchange Commission and the Commerce Department announced that American business, exclusive of agriculture, plans to spend \$4,600,000,000 on new plants and equipment in the third quarter of this year, a four per cent increase from the \$4,220,000,000 spent during the second quarter. However, the total for the first nine months of this year is \$13,910,000,000 compared with \$13,620,000,000 for the same period in 1948.

Nobody is interested in your prejudices and very few people are interested in your intelligence.

## Wallace Doris Brown

Wallace Doris Brown, a Democratic candidate for Sheriff of Rowan County, has announced his platform. He emphasizes law enforcement, public safety, and the well-being of the community.

## Democratic Candidate For SHERIFF OF ROWAN COUNTY

To the people of Rowan County: I, Wallace Doris Brown of Elliottville, in the Rowan County, do respectfully ask for your influence and support in the August-8 primary election for Sheriff of our county.

I am 25 years of age, born and reared in Rowan County. I feel that I am physically worthy and mentally capable of discharging all the duties of a Sheriff. I pledge my word and my honor that if I am chosen by the voters of Rowan County for this honorable position, that I will, to the best of my ability, preserve, protect and defend the oldest, youngest and all the people of our county as I did in protecting you in World War II. I'm entering and fighting in this campaign against my honorable opponents with a feeling that if I win this victory for Sheriff, I can walk up and down and will serve you and I will serve you well." Thank You.

-Pd. Pol. Adv.

# Barker Issues Statement To Voters

### Seeks Democrat Nomination For Rowan County Sheriff

To the Voters of Rowan County: I wish to make a short statement to explain myself as to who I am. I am the son of the late Mr. and Mrs. Luster Barker, and born and reared in the Elliottville precinct No. 1.

I am 31 years of age, I was raised on a farm and for two years was connected with Public Works in Springfield, Ohio.

I would appreciate your support in the August 8 primary election for Sheriff of Rowan County on the Democratic ticket.

If I am chosen for Sheriff of Rowan County I will carry out my duties to help and protect everyone. I would like to visit each and everyone in Rowan County, but if I don't get to visit you all, I ask for you to inquire as to my reputation and ability to serve you. I am running as a dry man on the ticket. If I am nominated and elected as Sheriff, I will do my duties soberly. I once again ask you to give me consideration and your support will be respectfully appreciated.

Thank You, Addie Barker -Pd. Pol. Adv.

People who own yards that are unweeded weeds, should be made to clean them up.

Bad advice is no excuse for your mistakes; nobody can force you to accept advice.

# Pay this bill for me, will you?

SUPPOSE a stranger asked you to pay his electric light bill every month... Farfetched idea? Not so—because you do help to pay a lot of other people's electric bills every month!

Every time you buy cigarettes, matches, gasoline, a lipstick or a watch, or hundreds of other things, part of what you pay is a federal tax. And that same federal tax money helps pay those strangers' electric bills.

Here's why: the federal government is in the electric business in some parts of the country. It sells electric service to some people and to certain industries—below the real cost.

Who makes up the difference? You do—the government uses some of your taxes for that purpose.

The more of this below-cost electricity the government sells, the more taxes the government must collect to make up the difference between selling price and cost.

Under Socialism in England, government supplies all electric service... there are no self-supporting electric service companies any more. As a result, the English people today are paying more for their electricity, and British newspapers are full of complaints about the electric service since the government took over.

We are against government-in-business in America. We are against government in the electric power business because it threatens all self-supporting electric companies. And because it is Socialization of one business, a long first step toward Socialization of all business.

Most Americans don't want that... Do you?

Henry Cox Cites Record As Magistrate

Helped Put Rowan County On Sound Financial Basis

To the Voters of Rowan County: Some time back I entered the race for Justice of the Peace for District No. 1 of this county...

I am 58 years of age. I have lived in this county all my life. It was my pleasure to serve as Justice of the Peace for District No. 3 of this county from January 1, 1939 to December 31, 1948.

When I first became a Justice of the Peace the county was bankrupt. It did not have any money whatsoever. The Fiscal Court personally borrowed money to operate the county government for the first six months of my term.

By careful expenditures and conservative use of the money entrusted to us we were able during this period to pay off \$45,000 of the old indebtedness of the county and refinanced the balance at a lower rate of interest, thereby saving the people a large amount that was being paid for high interest rates.

We put the county on sound financial basis so that since that time the people have been able to get their money for work done for the county and no longer do they have to discontinue their claims in order to get their money.

Donald Horn Cleared In Baldridge Case

Bus Ticket Stub Proves Boy Left Before Killing

The stub of a bus ticket he had luckily retained cleared 20-year-old Donald Horn Saturday of a first degree murder charge.

Assuring you of my deep appreciation of any effort spent in my behalf and that if again selected by you as a member of your Fiscal Court I shall be ready and willing to give you the same class of service that I rendered before and hoping to be able to see each voter before the primary and place my cast in your hands, I am Very respectfully yours, Henry Cox - Pd. Pol. Adv.

Jobless Benefits

Government unemployment benefits have put more than \$1,000,000,000 in extra spending money into the pockets of unemployed workers during the first six months of this year.

The women, we admit, have it on men when it comes to dressing with good sense in the good old summer time.

A symbol is worthless unless you know what it stands for.

Kentucky Farmers Doing Well, Report Sets Out

The mid-year report on Kentucky's agricultural outlook indicates prices are firm but that farmers are having a good year.

The University of Kentucky Department of Research and Social Science points out that the farmers are paying less for the things they buy. The report said that "since cost of things bought have not risen as much as things sold, farm income is somewhat lower."

The department explained that for the first time since 1919, this report is made under generally adverse market.

"Prices of farm products are lower than they were a year earlier, and also lower than they were at the beginning of 1949."

The report states that, except for individual products and industries, the declines in business and prices is not severe so far.

Farm price supports, social security and other governmental benefits, continued the department, are available now to ease the effects of deflation. Farmers are better off financially as a result of eight years of climbing prices that permitted them to pay off debts and build their cash reserves.

Summing up its observation, the report predicted, "cash farm income and net income will probably be smaller in 1949 than a year ago, but when compared with the previous years they will likely compare favorably in amount and in purchasing power."

States Praised As 'Wonderful Compilation'

Kentucky's revised statutes were complimented as a "wonderful compilation" of law in a letter today from the Bar Library of England's Royal Courts of Justice.

The letter, from Robert A. Riches of the Bar Library staff to Robert K. Cullen, Kentucky's statutes reviser, thanked this state's statutes revision commission for sending a complimentary copy of the 1948 edition. The English Bar Library recently offered to buy a copy.

The stationary and the envelope illustrated a phase of Britain's self-imposed austerity program. The quality of the paper was inferior to what an American high court would use. The envelope was designed to be turned and used a second time.

He had insisted that he left Prestonsburg about 1 p. m. the day of the slaying. After arriving in Memphis, he hitch-hiked most of the way to La Paso, planning to set himself up in the furniture business.

The Horns and Baldridges lived about a block from each other and Donald and Muriel knew each other well.

But it was the police who with virtually no clues to follow in their attempts to solve the baffling case.

Captain Vernon Sanders of the State Police detachment at Pikeville said early last week "we're up against a blank wall" and it was made known that active investigation of the case was being shelved.

Horn declined to say anything after his release, and refused to answer a telephone call placed to him at a restaurant next to his home.

Harry B. Ramer, Prestonsburg automobile dealer, said today that Pinkerton Agency detectives who have worked on the case almost from the beginning, are being withdrawn immediately for lack of funds to pay them.

Ramer is instrumental in a public subscription the day of the murder was discovered to post a reward for the arrest and conviction of the slayer.

Some \$1,500 was raised, after which it was decided to use the fund for a detective work.

Sheffield Troy B. Sturgill later announced a \$500 reward for the apprehension and conviction which still stands.

VEV Foot In Drive For Wheel Chairs And Crutches

The Veterans of Foreign Wars Loan Hayes Post 7541 of Rowan County is sponsoring a drive for purchase of wheel chairs and crutches for needy veterans.

STILL HER HERO... Although she shot him, Ruth Steinhagen, 19, faces her baseball "hero" Philly star Eddie Walko, in a Chicago courtroom for the first time since she wounded him in a hotel room without ever having met him.

Dr. Lyon added that the "public at large may come to feel that it is a waste of money to see our large modern kitchen equipment and also the manner in which food is being handled. We invite them to come singly or in groups at any hour convenient to them."

The Commissioner added that every food receptacle is thoroughly sterilized, the food is handled with approved methods only by persons who have passed most rigid tests provided by the State Board of Health and continuing. "This is the most modern kitchen of any institution to be found in the entire Middle West."

One of the banes of newspaper reading these days is the number of people who write about grave problems as if they were writing about a baseball game.

The world economic situation might not need so many American dollars, as a gift, if the same American dollars were used in the purchase of the world's goods.

Dr. L. Clifford Long OPTOMETRIST. TUESDAY and WEDNESDAY at McKinney Bldg. MONDAY and FRIDAY at Opposite High School. WEST LIBERTY, KY.

True in 1920! Truer Now! You Can Beat High Prices By Buying Advertised Values

HERE'S one way you can make your dollars go farther! Here's one way to be able to afford better shoes, housewares or furniture.

Lick 1949 high prices the way your mother beat 1920 high prices—by spending your money only for advertised values. Your mother found she could buy for less by checking the ads in this newspaper first. You, too, if you read the ads, can compare prices and values before you buy.

When you buy from a merchant who advertises in this newspaper, you buy from a reputable, dependable store. You are buying from a store that expects to be in business a long time, that wants to keep you as a customer, a satisfied customer. Hence you are far surer to get greater value for what you spend.

You can help bring prices down, too, by buying through newspaper advertising. A merchant won't waste money advertising an item priced above competition unless the item is worth what he asks, because he knows wise shoppers will check and compare. If you buy only advertised items you force the non-advertiser to meet the advertising merchant's price. You help keep prices down. You make your household money go farther.

You can fight inflation by reading the ads and by buying only advertised goods.

# Trade Board Revives Plan For Center

### Committee Working On Plans For Community Park, Fair Grounds

Morehead's Board of Trade Monday revived its plans for a community fair-grounds, community center and recreation park.

A comprehensive report on the possibility of acquiring the site and financing construction and maintenance will be made at the August meeting by a special committee.

At the invitation of Hartley Battson the Board of Trade will hold its August gathering at Park Lane. The wives of members will be guests.

The Trade Board installed 20 new members Monday. They are: Cecil Landreth, T. P. Anderson, C. E. Turner, Hugh McShan, Clunie Barker, Bob Sandford, Earl Bradley, Jack Helwig, Jr., H. H. Swenson, Franklin Blair, J. B. Calvert, Eugene White, Dora Williams, B. F. Penix, Russell Barker, Ray Flannery, Curt Hutchinson, M. S. Bowne and Beulah Williams.

# Louisville Pair Named Nudist King And Queen

Some 300 members of the Central Sunbathing Society of Rose-lawn, Ind., chose a king and a queen of their nudist movement Saturday at their annual convention at Zoro Nature Park at Roselawn.

They bestowed the honor on Mr. and Mrs. Bernard Harding, Louisville, selecting them by applause from among 50 candidates. The only eligibility requirement in the contest was the willingness of the candidates to permit public announcement of their names if they won.

At the coronation ceremony, the queen was given a crown and a string of pearls, adequate dress to set her off from the rest of the members.

A bee intruded itself upon the coronation scene, bringing the first problem of state to the newly crowned couple and their subjects. The ceremony was quickly finished and the crowd dispersed.

Mr. and Mrs. Harding, both in the mid-twenties, are deaf mutes.

# Kentuckian Likes Many Young Brides

A balding, 42-year old Kentuckian apparently likes his brides to be 14-years old.

He claims to have married up with four of that age now—but the latest nuptials may prove to be his legal downfall.

Earl Conners of Somerset, pleaded guilty to contributing to the delinquency of a minor at Detroit last week before Judge Thomas J. Murphy.

In court, he admitted taking Fatima Hussan, 14, of Dearborn, Michigan to Liberty, Ky., and marrying her last Nov. 13.

Detective James Shanahan said that he is now seeking the divorce proceedings from Conner's bride No. 3 and the death certificate of bride No. 1.

He quoted Conners as saying that all four wives were 14 when the marriages occurred.

Immediately after leaving court, the Kentucky auto mechanic was shipped into jail again for being \$2,219 behind in his alimony payments to wife No. 2, Flora Conners.

"I love him very much," said the plump Fatima, bride No. 4. "I'll wait for him forever if I have to."

**NO SILENCING HIM . . .** Archibald Palmer (right), attorney for Jack Coplan, spy suspect, talks with Judge Albert Reeves, presiding judge at the Washington, D.C., trial, on the curbstone outside the court. The judge is silent here, but from the bench he severely rebuked Palmer several times for cross-examination methods and twice fined him \$100 for contempt and threatened him with jail. Miss Coplan was found guilty and sentenced to three to 10 years for attempting to betray her country.

# Dr. McQuinn Seeks Sheriff's Nomination

### Republican Candidate Sets Out Platform In This Statement

To the Voters of Rowan County: When I announced as candidate on the Republican ticket for the office of Sheriff of Rowan County I stated that I would present for publication in this paper the things I stood for in making this race and the obligations I believe the Sheriff owes to the general public and the people he serves.

When elected I pledge to the citizens of this county that I will promptly and with dispatch execute and serve all legal papers placed in my hands for such service; that I will with diligence patrol the roads and highways of this county and rid this county of its drunken drivers. I have had experience in law enforcement problems having served as deputy sheriff of Wolfe County for seven years and have worked with and assisted our present Sheriff in his duties as his deputy sheriff for two or three years. I am 46 years of age and feel that due to this age I am mature and have gained the knowledge of experience in my services as a law enforcement officer. I have supported myself from childhood and am the father of 12 children. I pledge that, elected to this most responsible office in the county, that I will diligently and earnestly endeavor to enforce the laws without fear or favor to any group or individual; that I will conscientiously work for the safety and well being of our county and will appoint as my deputies sober and discreet citizens of the county.

I ask the support and influence of the good people of this county, the people who are interested in good sound law enforcement which is the fundamental and necessary part of a good county.

Sincerely yours,  
Dr. Alex McQuinn  
Md. Pol. Adv.

# Keck Denies Gasoline Tax Deters Tourists

### 1949 Traffic Is Ahead Of 1948, Commissioner Says

Claims that the increased gasoline tax is driving away tourists and reducing traffic in Kentucky are false, Highway Commissioner John A. Keck said this week. He delved into the revenue record to bolster his view.

Gasoline-tax returns during the first six months of 1947, when the levy was five cents a gallon, totaled \$10,380,969.

Receipts during the first six months of this year, with the tax at seven cents a gallon, stand at \$15,519,147.

The figures show an increase of \$5,138,174 in revenue. Motorists in Kentucky purchased 14,000,000 more gallons of fuel during the first six months of 1949 than they did in the first half of 1947.

Keck contrasted 1949 with 1947 because the seven cent tax went into effect early in 1948. The 1949 and 1947 figures represent periods when the tax rate was steady.

"Every index available to the Highway Department agrees that Kentucky highways are being used more today than ever before," Keck said. "Total traffic is 16 per cent higher than in 1947, maximum previous year, and has continued to rise since the first of this year. This year's traffic has never been below the 1948 level and has maintained

# Compensation Risk Rates Reduced Southall Avers

State Insurance Director Spalding Southall today announced rate reduction in workers' compensation insurance, which he said will save Kentucky industry approximately \$600,000 a year.

Southall said most industrial firms, except coal mines, will be benefited by the new rates, which average 7 1/2 per cent lower than before. He added that last January similar rates for coal mines were cut for a saving of \$400,000 a year.

The director said the lower rates "reflect an improvement in the underwriting loss experience due in part to better safety regulations and enforced consequences of safety in many plants."

The rates for compensation insurance, which covers deaths and injuries to workers, are approved annually by the State Insurance Director.

DOUBLE HAUL . . . Donnie Sellers hooked this bass in Rocky Mount, N.C., municipal lake. The bass pulled Donnie into the lake. Dad Sellers plunged in to rescue his son and pulled him to dry land. Donnie was still holding fast to the fishing pole, and Mr. Bass was still at the other end.

WEDDING BELLS AHEAD . . . Aneta Lansbury and Peter Shaw have announced that they will be married July 1 in Bow church, one of the London edifices that survived many bombings during the war. It has always been the actress' ambition to one day marry in this church, for she was born almost in the shadow of its steeple and both her parents and grandparents worshipped there.

## Federal Law Drastic Against Failure To Register Under New Selective Service Act

### Russell Outlines Provisions Of Induction Act

Calling attention to the fact that failure to register is a violation of law and makes the delinquent liable to penalty, Col. Solon F. Russell, State Director of Selective Service for Kentucky, today outlined registration requirements under the Selective Service Act of 1948, which he said he believed were not thoroughly understood by all of the general public.

"The obligation to register," Col. Russell said, "is continuing

obligation and must be fulfilled regardless of whether men are being inducted into the armed forces under the Selective Service Act. The obligation to register is imposed by the Act on every male, citizen or resident, in the United States between the ages of 18 and 26, with only the general exception of members of the armed forces on active duty and certain aliens."

The young man who becomes 18 is required to register at a local board office within five days of the date of his 18th birthday, but if he happens to be away from home he need not return, he may register at the

### They're Shooting For The Moon

The Canadian Rocket Society has set the year 1960 as the "target date" for a trip to the moon and back by a space ship carrying a human crew. Boris Dyke, vice-president of the organization in Toronto, said this week.

Dyke, who is in general charge of planning for the trip, said the date a decade hence not only was "plausible" but "definite date," we are working towards."

nearest local board convenient to him and the record will be sent to the local board having jurisdiction, even though it is in another state. After he registers, it is mandatory that a registrant keep his local board informed of any change in his address or change in status, the director pointed out. This applies after he becomes 26 as well as before.

The man who did not register during the designated registration days—August 30 to September 18—will not be taken on active duty in the armed forces, is required to register within 30 days of the time he was separated from the armed forces.

"Any person who changes from a status did not require his registration to a status which does require it must register promptly to be within the law, and those who were out of the country on the registration days must register within five days following the date they returned to the United States, which includes Alaska, Hawaii, Puerto Rico and the Virgin Islands.

Col. Russell said that non-citizen entering the United States for the first time are required to register at a local board within six months following the date of entry.

The maximum penalty for the violation of any of the provisions of the Selective Service Act of 1948 is five years in prison or a fine of \$10,000 or both.

### Leave It To Boys, They Know

If a family of skunks took up residence in your basement window, how would you evict them? Mrs. Coleman Allen, a widow who lives on the outskirts of Troy, Ohio, had that problem.

Their idea was to have the skunks shot. But she quickly dropped that when a neighbor explained that the animals could retaliate with an odor that would drive her from the house.

Five boys, who heard, radio station WPTM's account of Mrs. Allen's problem, provided a simple solution.

They put the skunks to sleep and other and carried them away.

## Morehead Is Host To 169 Boys, Girls

### District Meeting Of 4-H Group Concluded On College Campus

By Adrian M. Razor, Rowan County Agent

Morehead was host to 169 4-H boys and girls, adult leaders and county and home agents during the past week.

Those attending were quartered on the campus of the college. It is mandatory that the needed facilities available and, as a result, all those attending had a most enjoyable stay. Mr. Cauldill, Public Relations Director, and Mr. Hagan, head of the Agriculture Department at the college, and assisted by members of the Agriculture Club, had charge of registration on Monday.

The local forest service personnel conducted classes on each of the three days for the boys and girls attending, which were very educational.

Radio Program

Johnnie Adkins of the Cranston road section and the County Agent, took part in a radio program on the night of July 18 on station WPTM at Mayville. Primarily tobacco was subject discussed, and Mr. Adkins told of the results he has had in his two years of pruning, saying that last year he and his son, Carl, realized a return of \$3.18 around 100 pounds. Mr. Adkins went on to say that by pruning the top leaves, the top leaves were allowed to mature and the bottom leaves of the primed tobacco brought him 60 cents a pound.

Since we have small acreages in this county, most farmers should find it profitable to practice pruning.

### Harvest Festival

At the last meeting of the Rowan County Farmers Club it was decided to sponsor the Rowan County Harvest Festival again this year and the date was set for September 30 and October 1. Some committees have been appointed and it is hoped that this year's event will be even bigger than last year which was considered by many to be the best harvest festival we have had.

At its last meeting, the Morehead Board of Trade adopted a resolution to promote a fair ground, recreational park, and community center for Morehead and the county. It is hoped that it will be a place for the county to have its annual cattle show, agricultural displays, etc. With everyone in the county cooperating this goal should be realized in the not too far distant future.

Coke

Some farmers expressed a desire to purchase coke to use this year in curing tobacco. Due to the fact that, in the past years it has been difficult to obtain, as the housing season develops farmers should speak for their supply now. That is to say, that if several farmers wish to pool their orders, it will be possible to obtain a car-load shipment if the orders are placed right away. Anyone so interested should contact the County Agent.

### PRODUCTION SLOW

The Federal Reserve Board reports that the nation's production machinery has slowed down to its slackest pace in three years, a 10.3 decline from November's peak to the end of May. Another two or three per cent drop was indicated for June.

### A Lot Of Honey For Free Here

A professional bee-robber has recovered 80 pounds of honey which bees have been storing in the wall of a house for 10 years.

Fred Miller, president of the Kentucky State Beekeepers' Association, who recovered the honey, said it was the largest section of honeycomb he ever saw. Miller had to cut a hole eight feet high and one and one half feet wide in the wall of a bedroom in the home of Mr. and Mrs. Robert Hart, Louisville, to get to the comb. The Harts said they had seen a swarm of bees go into a hole eight in the outer wall of the house 10 years ago. Miller estimated there were 100,000 bees in the wall.

"We'll have waffles and honey for a long time now," said Mrs. Hart.

## Man Sleeping On Highway Killed By Truck

Claude Rayquinn of Pikeville was killed by a truck Tuesday night while sleeping on the highway, and assisted by members of the Agriculture Club, had charge of registration on Monday.

The local forest service personnel conducted classes on each of the three days for the boys and girls attending, which were very educational.

Radio Program

Johnnie Adkins of the Cranston road section and the County Agent, took part in a radio program on the night of July 18 on station WPTM at Mayville. Primarily tobacco was subject discussed, and Mr. Adkins told of the results he has had in his two years of pruning, saying that last year he and his son, Carl, realized a return of \$3.18 around 100 pounds. Mr. Adkins went on to say that by pruning the top leaves, the top leaves were allowed to mature and the bottom leaves of the primed tobacco brought him 60 cents a pound.

Since we have small acreages in this county, most farmers should find it profitable to practice pruning.

The maximum penalty for the violation of any of the provisions of the Selective Service Act of 1948 is five years in prison or a fine of \$10,000 or both.

### Leave It To Boys, They Know

If a family of skunks took up residence in your basement window, how would you evict them? Mrs. Coleman Allen, a widow who lives on the outskirts of Troy, Ohio, had that problem.

Their idea was to have the skunks shot. But she quickly dropped that when a neighbor explained that the animals could retaliate with an odor that would drive her from the house.

Five boys, who heard, radio station WPTM's account of Mrs. Allen's problem, provided a simple solution.

They put the skunks to sleep and other and carried them away.

At the last meeting of the Rowan County Farmers Club it was decided to sponsor the Rowan County Harvest Festival again this year and the date was set for September 30 and October 1. Some committees have been appointed and it is hoped that this year's event will be even bigger than last year which was considered by many to be the best harvest festival we have had.

At its last meeting, the Morehead Board of Trade adopted a resolution to promote a fair ground, recreational park, and community center for Morehead and the county. It is hoped that it will be a place for the county to have its annual cattle show, agricultural displays, etc. With everyone in the county cooperating this goal should be realized in the not too far distant future.

Coke

Some farmers expressed a desire to purchase coke to use this year in curing tobacco. Due to the fact that, in the past years it has been difficult to obtain, as the housing season develops farmers should speak for their supply now. That is to say, that if several farmers wish to pool their orders, it will be possible to obtain a car-load shipment if the orders are placed right away. Anyone so interested should contact the County Agent.

PRODUCTION SLOW

A WEDDING AND A PRAYER... Always (Sunny) Ives (in bold) wed his sweetheart, Betty Bowen, in the corridors of a Los Angeles hospital. At the risk of his life, he saved her from a bandit who robbed, Ives and tried to attack the girl. Betty received a .38 caliber bullet wound in the neck. From left to right are, Mrs. Walker Page, Betty, Norma (the bride's sister), Henry, Arthur Cranfield (best man), Louis Ives (groom's brother), Mrs. Edna Ives (groom's mother), Mrs. Ryble Drake (bride's mother) and Glad Drake (bride's stepfather). Inset, Betty prays in church for recovery of her heroic husband.

## Kentucky Needs 99 More Police, Expert Says

Don Hill, a National Safety Council representative, said Friday Kentucky needs 99 more State Policemen.

They are needed to help enforce traffic laws and reduce the death average for each 100,000 miles of travel is "average."

Kentucky's rate is 8.5 deaths the national average is 6.1.

He told the Governor's coordinating committee on traffic safety that road deaths in Kentucky decreased markedly last year. An average of 637 persons died in traffic mishaps for each

of the years 1945, 1946 and 1947. A total of 312 died last year. The trend was nation-wide, he said. There were 12 deaths for each 100,000 miles of travel in 1946 and only eight in 1948.

# Grasshoppers On Increase; Threaten Crops

**More 'Hoppers Now Than Last Year; Control Recommended**

Grasshopper damage to crops appeared this week to be getting serious.

There are more 'hoppers' in the fields than at the same time last year when the damage they caused was heavier than normal, the University of Kentucky College of Agriculture reported.

Reports of insect damage are general from most of the State.

The grasshoppers are migrating from breeding places to corn and tobacco fields, said W. A. Price, of the UK staff.

Grasshoppers are hatched in sod land, roadside ditches, fence

rows, etc.) They remain there until available food is consumed or until it becomes too tough to be palatable. Then they turn to crops for their food.

"In Fayette County alone, Farm Agent Ben Butler warned the insects could cause up to \$1,000,000 or more" damage.

"If they aren't controlled they might chew up 25 per cent of farmer income; on the other hand the loss could be cut to 5 per cent or less, Butler stated.

"It's not too late to begin a control program," he added.

The recommended remedies are spraying or dusting with chlor-dane or toxaphene or using poison bait. If the latter is used it should be put out in early morning before the 'hoppers' start feeding. A mixture of wheat bran and Paris green with water and motor oil or molasses can be obtained for about \$1 an acre excluding labor.

The chemicals cost \$1.50 to \$2 an acre and may be applied one time during the day.

Up to the present hour no reports have turned down a vaccination with pay.

# Green Seeks Judge Post On Merit

**Seeks Voters' Support On His Record As Good County Official**

fortunately beset by a wave of religious and political activities at gatherings. There were many cases on our court docket of disturbing religious worship while it was a lamentable fact that many of our communities frequently conducted picnics and such gatherings because they were afraid they would be broken up. It seemed to be taken for granted that religious services and picnics were a good place for the opportunity to judge, not to get drunk and cause disturbances.

I pledged to you that I would use every means to break this up. I say to you now, after four years later, that such disturbances are rare and that when they do happen my office has dealt severely with the violators. Other public officials have considered admirably in helping the Sheriff's office in this respect. As proof of what has been accomplished I ask that you now check the court docket and the report of every grand jury.

Second: It is the duty of the Sheriff to collect all taxes, to keep an accurate and complete record of all collections, and to make settlements with the Fiscal Court. This I have done with honesty and dispatch assuring the citizens of the county that every dollar they paid in taxes has been properly cared for and accounted for.

Third: It is the duty of the Sheriff to serve all legal papers as quickly as possible after they are turned over to him. During my tenure in office I have been particularly careful to see that this is done because the failure of the Sheriff to serve every writ might delay litigation and injure the litigant. I ask that you constantly check the court official in this county as to my diligence and efficiency in this respect. Many times I have been driven to distant parts of the county and spent half a day or more to serve a paper where my fee was only 20 cents.

Fourth: It is the duty of the Sheriff to enforce any and all laws. In taking my oath of office I pledged that I would do this. I think it is unnecessary for me to go into any great detail about this because every citizen of this county is aware of what has been done. Grand jury, after grand jury, in their final report, have said that the law enforcement in Rowan County is excellent. Our Circuit Judge has often commented on this. I do not wish to brag for this reason: showing—I say the fact that our criminal court dockets are lighter than in any other county is because of a better standard of living and a better educated citizenry plus proper enforcement of the law. The city police, the State Police and other officers have cooperated with the Sheriff's office to make Rowan County one of the best in Kentucky in this respect. I do, however, say that I have been on call 24 hours a day that I have spent many a night away from my home and family, and that I have shown no favor or special privilege in enforcing the law.

Fifth: It is the Sheriff's duty to wait upon the citizens in many ways and he should do this generously. He should also be firm, but honest and honorable. I think you know whether I have conducted my office in this manner.

Sixth: It is the duty of the Sheriff to wait upon the County and Circuit Courts and to properly attend to the duties that the courts assign. For example, I have made many trips to return prisoners, with the assistance of the Fiscal Court I have installed a two-way radio in my office and car, etc.

At the beginning of this statement I stated that I seek the nomination for County Judge as your Sheriff.

Although the Sheriff's office is in the executive branch of government and the County Judge is judicial the two offices have much in common as affects the best interests of the people.

Practically every case in the courts first comes before the County Judge. He and the Fiscal Court, are custodians of the tax money and it is highly important that the County Judge be a man that will carefully watch out for the county's money and to see that it is wisely spent.

It is also the duty of the County Judge to work with the State and other agencies to maintain and build as many roads as possible. I doubt there is a man in this county that knows the great need for roads better than I do because I believe I have been on every one of them many times in carrying out the duties of Sheriff.

I pledge to you that if I am elected as your County Judge I will do everything possible for better roads and to work with and cooperate with all agencies that will further our road building program.

I shall further administer the affairs of the county in a sober and conscientious manner as I have done in the Sheriff's office for four years. I say to you that I shall never be too busy to see and talk with you about your problems and those of your community.

I think you know by my past record I am not tied with any group or faction. I have no political debts to pay. I have always dealt with everyone fair-

ly and honorably regardless of their position in life and I shall continue to do so.

Four years ago I came to you and you honored me by your support and vote. That, I was untired as a public official and it makes me very happy and grateful that you showed the confidence in me to elect me.

Now I come to you after having been your public servant for almost a full term. You have had the opportunity to judge me—you have had the chance to decide whether I lived up to my campaign promises of four years ago and whether I have the ability to say to you now, after four years later, that such disturbances are rare and that when they do happen my office has dealt severely with the violators.

Your support will be gratefully appreciated.

Respectfully,  
Sam Green. —Pd. Pol. Adv.

# Reward Offered For Apprehension Of Vandals

The Montgomery County Board of Education has offered a reward of \$250 for the arrest and conviction of the person or persons who damaged the County Bluff school house on the Massville road recently. Damage to the building and its contents was estimated at between \$400 and \$500.

Mrs. Nell Guy McNamara, the Supt. of County Schools, said that the school house was entered two or three weeks ago but that it was not made public until last week because county officials had been working on the case. Footprints and fingerprints were found at the school, but no arrests have been made yet.

Mrs. McNamara said glass in the windows and the window sashes had been smashed, desks overturned and damaged, books scattered and torn, holes punched in the blackboard and electric light wires pulled loose. The vandals were discovered by Harry Howell and Alvin Stephens as they were passing the school.

**Midnight Parader Wins Another Stake**

Miss Eleanor Bruce, famed Morehead rider, won another major award last week as her time five-gated pony, Midnight Parader, was judged first in this championship class at the Junior League Horse Show in Lexington.

Midnight Parader won the world's champion five-gated pony stake at Louisville last year.

## Amburgey Asks Support In Primary

### Seeks Renomination For Magistrate In District I

To the Democratic Voters of Magisterial District No. 1: Four years ago I asked you for your endorsement as your magistrate for the office of Justice of the Peace for Morehead, District No. 1 of this county.

You honored me by the nomination and election to this office for which I am thankful from the bottom of my heart. I am again asking you for your endorsement that I may continue to serve you. I feel that my efforts to serve you should be the basis upon which I should stand or fall before the people.

During the past several years I have always stood for rigid law enforcement. While I have tried in every way to uphold the law, I have always tempered my actions with justice and never tried to create any person brought before me.

As a member of the Fiscal Court, I have stood for good roads, the improvement of the city and have worked with the other officers used all efforts within my power to obtain money from the State for new and better roads. I have lived in this county all of my life. I have been well acquainted with the people of this district and you know me so I feel that no reference is needed as to my character or ability to serve you.

For the past few years I have been in poor health, notwithstanding this I have never failed to respond when my services were needed and while I may not be physically able to be to be I am able to be at the post of duty and will do so if you will again honor me by this election.

I have begun work in this district on the roads and by reason of my connections with those in charge of this work through my past service I feel that I can be of greater benefit to the people if elected this time than I have been in the past and I assure you that if given the opportunity I shall do greater things for you in the future than in the past.

I hope to get to see each one of you before the primary but if not you may feel assured that my efforts will be spent to your benefit if elected. I will look after your interest, be conservative with your money and in every way attempt to make our County a better place in which to live.

Thanking you for past favors and assuring you of my deep appreciation of the good wishes the people and any consideration given this appeal, I am  
Your friend,  
E. A. Amburgey—Pd. Pol. Adv.

### Baptism Dropping Charges Dismissed

Judge S. G. Gilbreath, Jr. last week dismissed criminal charges against three persons in the baptism dropping last Wednesday of a 14-year old girl.

Gilbreath dismissed murder charges against the girl's grandfather, Frank Lewis, and Joe Smith. He dismissed a charge of aiding and abetting in murder against Mrs. Edna King.

The charges were filed last week as an aftermath of the drowning of Margaret Marie Chapman, during baptism in the Holston River at Kingsport, Tenn.

In dismissing the charges, the judge said "ignorance is not a crime, and bad judgment is not a crime. I cannot see any more in this case than a sad and tragic accident."

The girl slipped from a rock ledge in the river after being immersed by Lewis, a Holston preacher.

Every detail of our Funeral Service is in the hands of someone deeply concerned with the success of our organization.

# Poplar Grove Community Will Be Host To Annual Rowan Farm Day On August 8th

## Tour Of Farms, Demonstrations To Feature Day's Meats

The annual Rowan County Field Day will be held in the Poplar Grove community, Monday, August 8. The public has been invited.

The program will consist of a farm tour in the morning, lunch at noon, and talks and discussions in the afternoon.

The first visit of the morning will be on the farm of Harve McBrayer, where the visitors will see tobacco variety demonstrations, Fescue and Ladino Clover demonstrations, dairy cattle and farm management and improvement practices. While at this farm, Russell Hunt, tobacco specialist, from the University of Kentucky, will demonstrate the treatment of a tobacco bed with

Metholbromide gas.

The second tour will be to the farm of Herbert McBrayer, where the visitors will view a well-managed flock of sheep and see tobacco demonstrations.

The third tour is to the farm of Orville Caudill to inspect a good herd of registered beef cattle. corn demonstrations, a well-constructed tobacco barn, cooking demonstrations, soil analysis and the Poplar Grove school.

A pot-luck dinner will be held in the Poplar Grove school with two barbequed lambs being furnished by the people of the community.

The Rowan Farm Bureau will furnish drinks, ice cream, and ice, as in past years, while the Rowan County Farmers Club will furnish paper plates, cups, etc. The local Soil Conservation and Forestry Division will have ice water available for those present.

Following lunch J. E. Stanford, executive secretary of the Farm Bureau Federation, will speak. Mr. Stanford is recognized as one of the outstanding men of the State interested in better farm conditions.

Following Mr. Stanford's talk, Mr. Hunt, will discuss the tobacco demonstration seen on the morning tour and talk on the improved practices in producing better tobacco.

Mr. Johnston, Agronomist of the University of Kentucky, will discuss the morning tour and talk some about more and better pastures.

## 'Boogie Woogie' Is Cause Of Divorce

Mrs. Neola Kleidon, 25, a secretary of Chicago, says she likes "boogie woogie" but her husband, Charles, doesn't care for that type of music. The result, she told Judge Joseph Sabath last week, was marital trouble.

Mrs. Kleidon, testifying at a hearing for a divorce, said her 28-year-old husband would protest when she wanted to play boogie woogie on their \$300 radio console. He called the music unbearable, she said. They quarreled, she testified, and she finally granted a divorce, waived alimony. She took only the radio in a property settlement.

# Platform Of Charles Layne Is Released

## Strict Enforcement Of Law Pledged By World War II Vet

Detectives raided a home in Cincinnati last Wednesday and said they found a 10-year-old boy had been delivering policy slips for his mother.

The officers arrested eight adults on charges of promoting a scheme of chance and possession of policy slips. Two children were also taken into custody for juvenile authorities.

Detective Richard Lobeck and William Wood said they hid in a hallway at the house and saw the two children enter. The officers followed and found the slips for his mother Mrs. Willa Mae Lee.

The younger boy said he had no idea just for his mother Mrs. Lee was among the adults arrested.

# First Of State Police Barracks To Be Started

The first of the new State Police barracks will be built at Madisonville.

Commissioner Guthrie Crow announced today a bid for the structure, estimated to cost \$35,000, will be called for shortly.

Similar barracks are to be erected at the nine other district offices of the State Police.

Crow said the barracks will contain sleeping quarters for a maximum of eight troopers, space for giving drivers' examinations, detention quarters, a small laboratory and a garage for housing and servicing police cars.

The structures will be of one-story modern brick tile on the outside, glazed tile inside with tiled linoleum floors.

The plans for the Madisonville barracks were drawn by Lawrence Casmer, a Madisonville architect. The structure will be on U. S. Highway 41 about half way between Madisonville and Earlington.

# Kentucky Permit Number Required On Advertisements

Tickets, posters and other advertising-type material for events subject to Kentucky's amusement tax must now show the Department of Revenue permit number, according to a regulation just announced.

The regulation is aimed at aiding the department in collecting the amusement tax due to the State.

Department directors stated that little trouble has been found with theatres, regular shows and the like, but many itinerant and special amusements, playing "one night stands" have presented a problem to the department's limited collection personnel.

Obtaining a permit carries with it an arrangement to pay the taxes. By having every tax subject enterprise show its permit number, tax collection will be made fair to all the department officials claimed.

The regulation became effective June 14th.

# Lewis County Man Wounded In Fight Over Cow

Cecil Williams, 28, was reported in critical condition at Hays Hospital at Mayville this week as the result of a shooting argument over a cow.

Lewis County Judge Traft Stone said at Vanceburg that Sheriff Harry Irvin was investigating the affair. Judge Stone said no warrant had been issued and no arrest made in connection with the shooting.

Williams suffered three wounds from a 22 caliber rifle. He was wounded in the abdomen, the left arm and the right hip.

The shooting occurred at Trinity, about 3 1/2 miles from Mayville.

# Fallen Wire Kills Man And Woman

A quarry worker and a housewife a quarter mile apart were electrocuted Thursday when a heavy voltage cable fell across a telephone line and charged it.

The quarryman, Earl Quillan, 48 of Sanders, Ind. was killed at the Kelly quarry, where he worked. He touched the fallen cable.

A quarter mile away, an extension of the telephone line had fallen and was a shocking surprise. Mrs. Edna Conder, 46, tried to cut it with a pair of scissors and was killed.

# 10-Year-Old Nabbed In Gambling Raid

Detectives raided a home in Cincinnati last Wednesday and said they found a 10-year-old boy had been delivering policy slips for his mother.

The officers arrested eight adults on charges of promoting a scheme of chance and possession of policy slips. Two children were also taken into custody for juvenile authorities.

Detective Richard Lobeck and William Wood said they hid in a hallway at the house and saw the two children enter. The officers followed and found the slips for his mother Mrs. Willa Mae Lee.

The younger boy said he had no idea just for his mother Mrs. Lee was among the adults arrested.

# Record Amount Paid By State Taxpayers

Taxpayers handed over \$57,220,416 to the State government's general fund during the fiscal year that ended June 30. The mark sets a new revenue record, topping the previous high of 1947-48 by \$3,760,822.

Finance Commissioner John W. Manning's report of the just-ended 1948-49 fiscal year listed personal and corporation income taxes as the major gainers. Income levies yielded \$23,262,555 last year against \$19,307,200 in 1947-38, a jump of \$4,164,756.

Only slumps in important categories was the tax intake on bonds, stocks and inheritances—\$5,043,282 last year against \$9,

# Record Amount Paid By State Taxpayers

legislator enacted a 50 per cent tax rate reduction on stocks and bonds and made large shares of inheritances subject to lower taxes.

Road fund receipts for the first three months of this fiscal year, which began April 1 for the Highway Department, stand at \$11,651,251 compared to \$10,447,322 for the same period in 1948, a rise of \$1,070,729.

The gasoline tax yielded \$8,306,622 for the three months against \$6,896,837 last year, a gain of \$1,419,885. Of the \$8,306,622 collected this year, \$2,364,130 represents the two-cent increase of the gas tax and will be set aside for construction and repair of rural and secondary roads.

Some men twirl their thumbs and others twirl their watch chains.

# CREDIT CONTROLS

The Federal Reserve Board's authority to limit terms allowed installment credit buyers expired on June 30 at midnight. The controls, strict in wording, were allowed to lapse for 34 months in 1947, but Congress renewed the law last summer.

**FOR FASTER MOWING OF HEAVY HAY with a Dearborn SIDE-MOUNTED MOWER**

- Cutter bar lifts and lowers by Ford Tractor Hydraulic Touch Control Lever
- Mowers from 90 degrees above to 45 degrees below horizontal
- Cutter bar lifts "Up" or "Down"

The Dearborn Side-Mounted Mower is a rugged implement. It was designed to mow highway shoulders, orchards, terraces and over curbs. It's an ideal mower for farmers who have large acreages of extra heavy hay. Choice of 8 or 6 ft. bar. The range of cutter bar tilt is 3 inches. Tilt it "down" to get down crops. Tilt it "up" in rocky or rough fields to avoid sickle damage. A positive electrical safety switch is regular equipment.

# Lexington School Bus Case Is Questioned

Two persons who figured in the deal have defended the Fayette County Board of Education's purchase of school buses from one of the higher bidders.

Other dealers at Lexington claimed the board paid \$18,000 more than it should have for the vehicles.

However, J. F. Kittrell, General Motors dealer, contended the actual difference in the low bid and his offer was only \$5,000. Kittrell said the competing manufacturers would have had to put certain extras on their buses that did not show in their bids.

The board, speaking through Mrs. William Clark, chairman, explained it took a long-range view and bought what it considered the cheapest in the long run.

The protesting dealers claimed General Motors' bid was the fourth lowest, with better offers coming from International, Ford and Chevrolet.
