### Attractive Lamps Can Be Made For Small Cost

Morehead's Home Management House was in need of lamps for the bedrooms and had little money to buy new ones. So, the girls in the Home Furnishings class decided they would make some lamps for the house. We have decided to pass on to you the way to make lamps with very little cost.

The base of the lamp can be an old kerosene lamp, a pretty bottle, or the base of an old lamp. The design of the lamp should suggest its purpose. The shade can be an old worn out home shade frame covered with a skirt of taffeta, lace, net, or band of ribbon or anything you consider suitable. If you don't want to cover an old frame you can buy a shade to match your room. Locally we get ours for \$70. The lamp shade should be in good proportion to the base and shaped to throw the light out as far as desired. The diameter of the lamps should be approximately in the proportion of 2 parts to 3 parts, which means if the base is 9" tall the shade should be 6".

For a kerosene base, screw type converters are available in two sizes. Other parts needed are the harp which supports the shade, the bulb socket with cord, and if desired the knob

decoration for the top of the shade. If a bottle is used the cord may be put in through a cork with a hole in the center and at one edge for the cord to go in and out of the bottle.

Anyone wishing further help on construction of lamps may consult Miss Babin or the Home Furnishings class by calling 359.

#### Icebox Angel Cake

Custard base; cook in double boiler; 3/4 cup sugar; 2 T. cornstarch; 2 1/2 cups milk; 6 egg yolks; 2 1/2 T. gelatin soaked in one-half cup cold water. Add gelatin, stir until dissolved. Add 3 T. lemon juice and 1 T. grated rind. Fold in 6 egg whites beaten stiffly with 3/4 cup sugar.

The Home Economics Dept. has received several requests for a special dessert recipe developed last year for use in a banquet menu. We are making it available to you today.

**ICEBOX ANGLE CAKE** pour over broken up pieces of angle food cake (1 lb. size) in oiled or waxed paper lined pan. Chill several hours. Cut in serving-top with whipped cream. Serves 16 generously.

#### "Hot War" in Alaska

Military planes in the U. S. are taking seriously the possibility that the "hot war," fighting will probably take place where it is bitterly cold—in Alaska and the Arctic—and have requested Congress to appropriate substantial sums of money for testing equipment, weapons and living conditions in the sub-zero regions.

MICKEY ROONEY plays one of the most exciting roles of his film career in "The Big Wheel," Sunday-Monday at the Trail Theatre.

### IMPORANT & FINAL NOTICE TO ALL TAXPAYERS

All unpaid county taxes will be advertised in this newspaper on April 13. If you haven't paid your taxes you can avoid additional costs and your property being sold, as required by law, by paying now. This is your final notice.

### Low Cost Summer Trips Planned By American Youth Hostels

Many To Cost Only \$1.25 Per Day

American students who want to travel this summer have the opportunity of going on a wide variety of low-cost hosteling trips in the U. S. and abroad. It was announced today by Ben W. Miller, executive director of American Youth Hostels at 6 East 39th Street, New York City.

In addition to 27 trips planned by the National Headquarters for hostels maintained by local councils of interested citizens—many of which will cost as little as \$1.25

a day. These trips, Dr. Miller added, will enable thousands of Americans now studying in American schools to join their fellow students who, since the war, have been traveling at home and in Europe in unprecedented numbers. He predicted that twice as many students would go on hosteling trips this summer as in 1949.

Hosteling—inexpensive hiking or cycling along established routes with overnight stays in hostels maintained by local councils of interested citizens—has long been a popular mode of travel for young people abroad and is attracting many followers

ALL NEW SPRING SHADES GOLDE'S MORE PEOPLE WEAR STETSON HATS THAN ANY OTHER BRAND

Yes! **KELVINATOR** gives you more cold space for less money

Trips sponsored by the AYH National Headquarters will range in length from five to ten weeks and will start in late June and early July. On these trips, hostellers will travel in small mixed groups with trained leaders. Estimated costs range from \$115 for some trips in the United States and \$780 for trips to North Sea and Mediterranean areas. In all cases costs cover the entire trip from starting to finishing points. For overseas trips this means embarkation and debarkation charges.

In the United States, hosteling groups will visit northern New England, the Great Lakes, Long Island Sound and the Colonial Virginia area. Of particular interest are the seven-week National Parks-High Sierras trip for hikers and the Rolling Hotel trip, in which specially equipped trains will take hostellers cross-country, permitting them to cycle in scenic areas, using the train as their Hostel each night. Rolling Hotel trips will go to the Grand Canyon and Yellowstone Park.

Trips planned for the North America continent will take hostellers to the Canadian Rockies, Gaspe Peninsula, Ontario, the Maritime Provinces and the Saguenay River area, all in Canada, and to Mexico, Guatemala, and Alaska.

The trips to Europe will include visits to the British Isles, Scandinavia, France, the North Sea area, Central Europe, Western Europe, Mediterranean and Holland. Possession of an AYH pass, which costs \$2.00 a year for those under 21 and \$3.00 for those over, permits a hosteller to remain overnight in any hostel in this country or abroad at a charge of not more than 50c.

Hosteling in the U. S. began in 1913 and has since spread from coast to coast. At present there are 29 AYH Local Councils in 29 states, which supervise 160 hostels in such parts of the country as the New England coast, mountain areas, Long Island Sound, the Great Lakes, Colonial Virginia and the mountain regions of the West. Trips sponsored by these councils vary in length, but their costs are uniformly low.

Hostel accommodations are located in barns and farm buildings, in cabins and private homes, and are supervised by resident houseparents. Each hostel provides separate sleeping quarters and washrooms for young men and women, a common kitchen where hostellers may cook their meals and, in most cases, recreational facilities. Hostellers travel light, knowing that they will find clean blankets, clean beds and cooking utensils at each hostel.

John D. Rockefeller, 3rd, president of American Youth Hostels, believes that in addition to its recreational value, hosteling is a factor in fostering international understanding. In a recent statement, he said, "Hosteling provides unique and sound opportunities for normal, friendly relations between the peoples of different nations. It affords practical experience in the important business of getting along with people of differing backgrounds and points of view. Already 20 nations have youth hostel organizations. Over a period of years the many thousands of young people returning each year from visits to other countries will make a basic contribution to international friendship and understanding."

Details of itineraries and costs of trips are available on inquiry at AYH National Headquarters, 6 East 39th Street, New York 16, N. Y.

**FEDERAL JOBS** Federal employment has dropped to the lowest point since early in World War I, according to the Civil Service Commission. The 1,948,900 persons working for the Government's executive branch here and also abroad at the beginning of Feb. was 20,600 below the January 1, 1950 figure and the lowest since March, 1942.

### The Governor Can Rectify This Mistake Of The Legislature

The gun pulling incident Thursday at Kentucky's House of Representatives should be answered enough to Governor Clements to veto the bill which repeals Kentucky's stringent penalty for carrying concealed a deadly weapon. Under the present law a 2-year sentence is mandatory upon conviction. Many Kentuckians probably believe in their belief, urged by the Legislature to repeal this law because one could not even carry a gun in his automobile without facing two years in the penitentiary. We've never heard of any honest, law-abiding citizen being convicted under the present law... The present law is a good law because we are living today who would be under the sod if we didn't have this law. Any peace officer will tell you that it is rare now when a gun is removed from a person arrested. The court docket of every Kentucky county shows that there are fewer murder cases than at any time in history.

### Why the Legislature Repealed This Law

Why the Legislature repealed this law we ask most other Kentuckians will never understand. But, Governor Clements can rectify the mistake by vetoing it. A Winchester merchant, who has considerable trade from the Kentucky river section, wrote the Governor, in substance: "I operate a clothing store. Before Kentucky enacted the law with severe penalties for carrying a gun, hardly a day passed but what some customer had to remove a pistol from his pants or coat so that I could measure him for a suit. Since the new law went into effect, this has happened only one time. This letter is to urge you to veto the bill which the Legislature has passed removing the heavy penalty for carrying concealed a deadly weapon." This is probably the first time this letter has been published. But, its contents were sent to the editor of this newspaper when he called at the Governor's office. We reiterate that the Legislature made a mistake in repealing the law, and that Governor Clements will be inviting justified criticism from the good citizens of Kentucky if he acquiesces to the travesty by signing it into law.

### This Laxity And Negligence Is Unbelievable—But True

You have, no doubt, paid your city taxes each year. Most Morehead people have. Then, you will become concerned with this true story. A right sizable Morehead property owner hasn't paid any city taxes for years. He has even boasted he never intends to. This is one of many such cases. The law requires that before the city can sell or possess the property it must be advertised and the city attorney file proper proceedings in the Circuit Court. In past years the delinquent list has never been advertised... and, so far as we know, the city has never done anything to collect the city tax. In other words, if a property owner didn't pay nothing was ever done about it. And, through the years a number of tax-dodgers have taken advantage of the laxity of the loosely geared municipal government. The present city council is taking steps to rectify this negligence which has existed since the time Morehead was incorporated. The taxpayers of the community should further demand that the city attorney file proceedings to collect these taxes as far back as the statutes will allow, which we understand is five years. And, even a penalty that the law permits should be added. The honest people, who want to carry their share of the tax load, have been discriminated against to the point that any future gross laxity and fraud of this nature will not be ignored.

National Safety Council figures show that most highway accidents occur on Saturday and Sunday. It's a great life if you don't wreck your car.

### Sees More Rounded Education In American Colleges

Over-specialization in American higher education is termed a "tragedy of monumental proportions" by Dr. Milton S. Eisenhower, president-elect of Pennsylvania State College. Dr. Eisenhower realizes that specialization is an urgent necessity in our modern society, especially in making possible the high productivity required by our democracy, but he insists that it is likewise essential for students to achieve an understanding of all the broad fields of knowledge. The educator reports an awareness of the necessity that education be adaptable to changing social conditions. He expresses the belief that a "major revolution" toward a more rounded education has begun in most colleges and universities. The note of warning sounded by Dr. Eisenhower should not be overlooked by America generally. The success of our democracy depends upon the understanding of the voters and their capacity to select and appraise the copious advice that flows into them through the air and in the columns of the press. It is necessary for individual thinking to function in our society and for them to realize that a specialist in one field, however eminent his position, is not necessarily qualified to speak on other subjects. By contrast, the individual who has acquired a well-rounded education is in a better position to appraise the panorama of human activities and to attempt to synchronize the various activities of men and women into a harmonious social whole. In fact, a technical education, turning out a first-rate specialist, is not to be confined with the attempt of students to understand the history of the race and the relative function of various skills and talents. There is a tendency in American cities to look up to the man who makes a business success. Certainly, many individuals do achieve great credit for their accomplishments in life. Nevertheless, the possession of a training, reflecting the shrewdness and cunning that makes profits, is not necessarily an indication that the individual has a well-trained, much less a thinking mind. A maker of automobiles, for example, is not an authority on the processes of human life or the social relationships which make up human life. The same observation applies to bricklayers, ditch-diggers, and all individuals whose training and experience has been restricted to specific and limited tasks.

### Your Mailbox May Reflect Your Character

Most of us insult our most constant visitor to our farm homes. Our mailboxes, 300 times a year stop at dilapidated mail boxes, hanging askew from rotting posts with names & addresses completely obliterated or faint and smudged. Not only does our mailman deserve the consideration of uniform mailboxes, neatly lettered and firmly set up level to his car window, and our pride in our community is important. Mailbox improvement is really a matter of individual pride, but through the efforts of Home Demonstrators, Clubs and other community clubs of Alabama and Tennessee, county roads and highways are taking on a straightened air, in keeping with neat farm homes and green pastures. In an article "How Does Your Mailbox Reflect Your Character" the February issue of Farm and Ranch Southern Agriculture, L. R. Neel, senior editor, delivers a pat on the back to these communities who have taken steps in the right direction of mailbox improvement, and gives specifications for large and small boxes. Those of us who are self-neglected. Editor Neel says, "Small boxes should be 48 inches from the ground, and large boxes, 40 inches. Small boxes should be placed on 6-inch square posts and large ones on posts 8 inches square."

### Our Debt—A Lenten Season

"If you owe God anything, pay it to a man." "If you give your utmost for God, you will find your true self." "The blessings and commands of God in the fifth chapter of Matthew were not for those who had wealth, privilege and honor. It was to the lowly, the poor, the meek and the lowly in spirit, and to those who were lacking in love's making, the choice so made will be an enlightening one for both the community and the industry. "Where an industry contemplates the expenditure of large amounts of money for land, buildings and equipment, the industry is usually a small percentage of the total outlay, and rarely, if ever, would the donation of land for a plant influence the selection of a community. "Genuinely speaking, the same comments apply with respect to taxation. Most industries feel a definite obligation to the community in which they locate and want to assume their share of the cost of public facilities and services offered by it." The Bassett booklet contains material on suggestions for four or five future articles on community, industry and the industry. "Verily in the end it is said: 'Then shall he answer them, saying, Verily I say unto you, inasmuch as ye did it not to one of the least of these, ye did it not to me.' These shall go away into everlasting punishment; but the righteous into life everlasting."

# PTA Position On Education Is Revealed

The Kentucky Congress of Parents and Teachers this week endorsed the action of any member of its group who wishes to accompany teachers in various Kentucky school districts to Frankfort for lobbying purposes.

Following is the text of the resolution, as released by Mrs. James Chinn, publicity chairman of the 12th District:

WHEREAS, eleven district meetings to implement the program of the Kentucky Education Association, in which the District Parent-Teacher Associations participated, have been held since the January Board meeting, and

WHEREAS, some parents felt they should accompany the teachers to Frankfort as a gesture of good will, now

THEREFORE BE IT RESOLVED, that the Board of Managers of the Kentucky Congress of Parents and Teachers endorse such action in the matter of the present legislative crisis as is deemed wise in the individual districts of this congress, with full realization that the problems are as varied as the schools and personnel would indicate.

In addition, the Kentucky PTA released an open letter to Governor Earle C. Clements, in which they reviewed the progress of education which has come under the Clements administration.

The group pointed out that it is aware of this progress, but that needs for education are more pressing than ever before.

Full text of the letter follows:

The Honorable Earle C. Clements, Governor Commonwealth of Kentucky Frankfort, Kentucky

Dear Governor Clements:

The Board of the Kentucky Congress of Parents and Teachers desires to review with you the recent past in regard to State support of the common schools, to take a hopeful look into the immediate future and to plan for substantial support for public education.

We are conscious of the fact that you, as a parent and as our Governor, are greatly interested in education; your interest being very similar to our interest as parents, teachers, and taxpayers. We are appreciative of the many things which have already been done upon your initiative for the improvement of the schools and teacher training institutions.

We cannot list all of the instances in which you have shown your interest in the public schools and have materially increased the support and efficiency of the State school system as a whole, including the colleges and special vocational schools. We would, however, enumerate a few:

1. The retroactive appropriation for teachers' salaries in 1948 of three million dollars (\$3,000,000) made it possible for many emergency teachers to go to summer school and was a help to all teachers and undoubtedly to our children.
2. The increase in the appropriation for free textbooks from five hundred thousand dollars (\$500,000) per year to seven hundred and thirty-five thousand dollars (\$735,000) provided more free textbooks for children.
3. Legislation in 1948, supported by our organization, to as-

sist in the education of handicapped children, with an appropriation to set this important program in motion, is highly commendable.

4. The large appropriation of two million, four hundred and thirty nine thousand, six hundred and six dollars and sixty-four cents (\$2,439,606.64) during your administration made the Teachers' Retirement System actuarially sound for the first time. This provision for teachers who have given their lives to children is of great consequence because its good effect is already apparent in the class rooms.

5. The repeal of the Ouster Act freeing the Teachers' Colleges of undue political influence is appreciated, and the good results of this legislation were immediately apparent.

6. We are aware that in 1943-44 the per capita was approximately ten million dollars (\$10,000,000); that as floor leader of the Senate you used your influence to increase it 50 per cent to fifteen million dollars (\$15,000,000); and that there has been an increase in each budget to the present 1950, which is twenty-two million, three hundred thousand dollars (\$22,300,000). We realize this is more than a 100 per cent increase in six years. We are grateful, but this appropriation is inadequate for these times.

7. We appreciate legislation which makes it easier for local school districts through increases in assessment to provide more funds. Some districts are already planning to increase local school revenue. We realize this is a slow, but sound, process.

8. We worked to secure the salary and equalization amendments recently adopted by the people. Your support gave us heart and courage to hope for success. Now we desire to see the equalization amendment made effective as soon as possible.

We do not disparage or play down the interest and support of others in or out of your administration. Our purpose is to make plain our appreciation for the many things you have done for our schools, and to say we are not critical but grateful. We are hopeful that a way will be found for further financial support for the common schools and other functions in need.

We are in close touch with the schools in their daily operation. We speak from personal observation and experience. The present situation presents a picture of:

- (1) Needed school buildings, and repairs and enlargements of old buildings to accommodate increased enrollments.
  - (2) Crowded school buses, and old buses which should be condemned as unsafe or replaced.
  - (3) Dire need for teaching equipment, supplementary books, libraries, laboratories, chairs, up-to-date maps, etc.
  - (4) Low teacher morale, due to salaries as low as \$640 in some districts.
  - (5) An insufficient number of teachers in service and in training. Young persons are not attracted by such salaries to fill vacancies and to care for increased enrollments.
- Many of these things have been provided locally, but when the last dollar must go for teachers' salaries and transportation, ordinary methods and means are not sufficient to provide these things except in the more able districts. Of all these, teacher morale is the most urgent. Unless more funds are available, we shall lose many good teachers before another year.

We believe a sound program of education, adequately financed, is essential to the welfare of our children and the continued progress of our State. We urge that a searching study be made, first, to ascertain the needs of our educational program, and, second, that sound, attainable means of financing a well-rounded program of education be undertaken.

We suggest that this study be made by a group of representative citizens, both lay and professional, to point the way toward achievement of these aims.

We realize that a properly financed system of education will require changes in our present tax structure, including possible increases in some present tax sources or the development of new broad bases from which new revenues may be obtained.

Of equal importance to meeting present needs is the development of a sound tax base that will continually produce a steady source of recurring revenues to meet essential needs, including a sound program of education.

It is our considered belief that there can be no solution to this problem until we first endeavor to meet the situation in down-to-earth, common-sense fashion.

You and the General Assembly have our best wishes, our best efforts and our support in the consideration and solution of this pressing problem.

Cordially and respectfully yours,  
 THE STATE BOARD OF MANAGERS OF THE KENTUCKY CONGRESS OF PARENTS AND TEACHERS

By S/ Mildred Brightwell, Executive Secretary.

### Railroad Strike Appears Likely In United States

A nationwide strike involving some 80,000 railroad firemen and engineers is threatened this week in the dispute over a union demand for a larger crew member on multiple unit Diesel locomotives.

In a vote by more than 80,000 members of the Brotherhood of Firemen and Engineers, the union said "an overwhelming majority has authorized a strike . . . if a favorable settlement of the issues cannot be reached this week."

David B. Robertson, president of the rail brotherhood who announced the vote, said the strike date had been set pending further negotiations. Robertson and a committee of general chairmen are meeting here. The union claims some 110,000 members on 69 U. S. railroads.

"We are holding up setting a strike date in hopes that our differences can be settled without the necessity of a walkout," Robertson said. "All peace methods under the Railway Labor Act have been exhausted for successful settlement of the dispute."

**Boa Constrictor Has 'Blessed Event'**

An eight-foot boa constrictor gave birth to 30 wriggling snakes at a pet shop in Tampa, Fla., this week to the amazement of monkeys inside and spectators outside the store.

The mother had just arrived the day before from South America for delivery to a snake collector.

The proprietor, James M. Coker, said it was the first time he had heard of a boa constrictor having young in captivity.

The store was closed at the time, but starting Saturday was told police of the blessed event. Coker was called from church to take over.

He found the 18-inch youngsters crawling all over his shop and that two excited monkeys had turned over his cage.

**Hutchinson's Resume Community Auctions**

The Hutchinson Bargain Store announced today they will resume their community auction sales, starting this Saturday at 10 o'clock.

Any person may bring any item he desires to sell and it will be auctioned on a commission basis.

PTA Position On Education Is Revealed

The Kentucky Congress of Parents and Teachers this week endorsed the action of any member of its group who wishes to accomplishing purposes.

Following is the text of the resolution, as released by Mrs. James Chinn, publicity chairman of the 12th District:
WHEREAS, eleven district meetings to implement the program of the Kentucky Education Association, in which the District Parent-Teacher Associations participated, have been held since the January Board meeting, and
WHEREAS, some parents felt they should accompany the teachers to Frankfort as a gesture of good will, now
THEREFORE BE IT RESOLVED, that the Board of Managers of the Kentucky Congress of Parents and Teachers endorse such action in the matter of the present legislative crisis as is deemed wise on the individual districts of this congress, with full realization that the problems are as varied as the schools and personnel would indicate.

In addition, the Kentucky PTA released an open letter to Governor Earle C. Clements, in which they reviewed the progress of education which has come under the Clements administration.

The group pointed out that it is aware of this progress, but that needs for education are more pressing than ever before.

Full text of the letter follows:
The Honorable Earle C. Clements, Governor
Commonwealth of Kentucky
Frankfort, Kentucky
Dear Governor Clements:

The Board of the Kentucky Congress of Parents and Teachers desires to review with you the recent past in regard to State support of the common schools, to take a hopeful look into the immediate future and to plan for substantial support for public education.

We are conscious of the fact that you, as a parent and as our Governor, are greatly interested in education; your interest being very similar to our interest as parents, teachers, and taxpayers. We are appreciative of the many things which have already been done upon your initiative for the improvement of the schools and teacher training institutions.

We cannot list all of the instances in which you have shown your interest in the public schools and have materially increased the support and efficiency of the State school system as a whole, including the colleges and special vocational schools. We would, however, enumerate a few:

- 1. The retroactive appropriation for teachers' salaries in 1948 of three-million dollars (\$3,000,000) made it possible for many emergency teachers to go to summer school and was a help to all teachers and undoubtedly to our children.
2. The increase in the appropriation for free textbooks from five hundred thousand dollars (\$500,000) per year to seven hundred and thirty-five thousand dollars (\$735,000) provided more free textbooks for children.
3. Legislation in 1948, supported by our organization, to as-

All According to Size and Condition
CALL COLLECT TO MOREHEAD 9114
DARLING & COMPANY

sis in the education of handicapped children, with an appropriation to set this important program in motion, is highly commendable.

4. The large appropriation of two million, four hundred and thirty nine thousand, six hundred and six dollars and sixty-four cents (\$2,439,606.64) during your administration made the Teacher Retirement System actually sound for the first time. This provision for teachers who have given their lives to children is of great consequence because its good effect is already apparent in the class rooms.

5. The repeal of the Ouster Act freeing the Teachers' Colleges of undue political influence is appreciated, and the good results of this legislation were immediately apparent.

6. We are aware that in 1943-44 the per capita was approximately ten million dollars (\$10,000,000); that as floor leader of the million dollars (\$15,000,000); and that there has been an increase in each budget to the present 1950, which is twenty-two million, three hundred thousand dollars (\$22,300,000). We realize this is more than a 160 per cent increase in six years. We are grateful, but this appropriation is inadequate for these times.

7. We appreciate legislation which makes it easier for local school districts through increases in assessment to provide more funds locally. Some districts are already planning to increase local school revenue. We realize this is a slow, but sound, process.

8. We worked to secure the salary and equalization amendments recently adopted by the people. Your support gave us heart and courage to hope for success. Now we desire to see the equalization amendment made effective as soon as possible.

We do not disparage or play down the interest and support of others in or out of your administration. Our purpose is to make plain our appreciation for the many things you have done for our schools, and to say we are not critical but grateful. We are hopeful that a way will be found for further financial support for the common schools and other functions in need.

We are in close touch with the schools in their daily operation. We can speak from personal observation and experience. The present situation presents a picture of:

- (1) Needed school buildings, and repairs and enlargements of old buildings to accommodate increased enrollments.
(2) Crowded school buses and old busses which should be condemned as unsafe and replaced.
(3) Dire need for teaching equipment, supplementary books, libraries, laboratories, chairs, up-to-date maps, etc.
(4) Low teacher morale, due to salaries as low as \$640 in some districts.
(5) An insufficient number of teachers in service and in training. Young persons are not attracted by such salaries to fill vacant positions or to accept increased enrollments.
Many of these things have been provided locally, but when the last dollar must go for teachers' salaries and transportation ordinary methods and means are not sufficient to provide these things except in the more able districts of our State. As a teacher morale is the most urgent. Unless more funds are available, we shall lose many good teachers before another year.

We believe a sound program of education, adequately financed, is essential to the welfare of our children and the continued progress of our State. We urge that a searching study be made, first, to ascertain the needs of an adequate educational program, and second, that sound, attainable means of financing a well-rounded program of education be undertaken.

We suggest that this study be made by a group of representative citizens, both lay and professional, to point the way toward achievement of these aims.

We realize that a properly financed system of education will require changes in our present tax structure, including possible increases in some present tax sources or the development of new broad bases from which new revenues may be obtained.

Of equal importance to meeting present needs is the development of a sound tax base that will continually produce a steady source of recurring revenues to meet essential needs, including a sound program of education.

It is our considered belief that there can be no solution to this problem until we first endeavor to meet the situation in down-to-earth, common-sense fashion.

You and the General Assembly have our best wishes, our best efforts and our support in the consideration and solution of this pressing problem.

Cordially and respectfully yours,

THE STATE BOARD OF MANAGERS OF THE KENTUCKY CONGRESS OF PARENTS AND TEACHERS
By s/ Mildred Brightwell, Executive Secretary.

Railroad Strike Appears Likely In United States

A nationwide strike involving some 80,000 railroad firemen and engineers threatened again today as the dispute over a union demand for a third crew member on multiple unit Diesel locomotives.

In a vote by more than 80,000 members of the Brotherhood of Firemen and Engineers, the union said "an overwhelming majority has authorized a strike... if a favorable settlement of the issues cannot be reached."

David B. Robertson, president of the rail brotherhood who announced the vote, said no strike date had been set pending further negotiations. Robertson said a committee of general chairmen are meeting here. The union claimed some 110,000 members on 160 U. S. railroads.

"We are holding up selling a strike date in hopes that our differences can be settled without the necessity of a walkout," Robertson said. "All peace negotiations under the Railway Labor Act have been exhausted for peaceful settlement of the dispute."

Boa Constrictor Has 'Blessed Event'

An eight-foot boa constrictor gave birth to 20 wrinkled snakes at a pet shop in Tampa. Florida this week to the amazement of monkeys inside and spectators outside the store.

The mother had just arrived the day before from South America for delivery to a snake collector.

The proprietor, James M. Coker, said it was the first time he had heard of a boa constrictor having young in captivity.

The store was closed at the time, but startled passersby told police of the blessed event. Coker was called from church to take over.

He found the 18-inch youngsters crawling all over his shop, and that two excited monkeys had turned over their cage.

### This Permit Request Confused The Sheriff

Tex Vandervalk's efforts to "modernize" his night watchman's job at Odessa, Texas may hit a legal snag.

Vandervalk, who makes his nightly rounds on a rubber-shod horse, applied to the sheriff's office for permission to install a tail light on his steed.

The tail light he explained, would keep cars from hitting him as he toured his beat.

Sheriff Ernest Boughton turned the matter over to the county attorney for final decision.

"It's the first time a case of this kind has come before me. I'm not sure whether it would be within the law," the sheriff said.

## MC Sextette's Popularity Grows

The Morehead College Girls' Sextette, which has become an institution in this part of Kentucky, was organized this past fall, by Dr. LeRoy Weil, head of the music department. This group, with its present personnel, became set shortly before Christmas.

The members of the Sextette are: Sopranos, Willow Mink, Joanne Clarke; second sopranos, Bobbie Hogsten, Kay Skages; alto, Maureen Synan and Donalyn Her; Accompanist for the singers is Miss Anna Louise Davenport of Paintsville.

The Sextette has been an extra curricular activity for the girls and their work has been done, not only on their own time, but under the direction of the music department.

MOREHEAD COLLEGE SEXTETTE—Reading from left to right: Willow Mink, Joan Clark, Bobbie Hogsten, Kay Skages, Maurine Synan, Donna Her, and Anne Davenport, accompanist.

U. S. Approved — Pullorum Clean

agements have come during these hours, most of their appearances have been evening and week end affairs.

In all, the girls have made almost 20 appearances and so successful has each of these programs been that they have never failed to be asked for a return engagement. They specialize in the better type of popular music while the soloists who have appeared on their programs have

used more serious numbers. Appearing as guest soloists on the program have been Margaret McGee, Joann Phillips, William Menzes and Dr. Weil.

The girls have sung twice over WLAP, Lexington; twice over WFTM, Maysville; three times on one trip to Paintsville; two times on one trip to Hazard; once in Mt. Sterling, Irvine and Swingsville, and six times in Morehead at various functions.

In Huntington, W. Va., they appeared on a half hour television show on station WSAZ-TV. According to the men at the station, the Sextette was the best amateur television they had had.

### State Income Tax Man To Be In Morehead

A representative of the Kentucky Department of Revenue will be in Morehead, Ky. on April 3 and 4 to assist taxpayers in preparing their state income tax returns.

The representative, Y. E. Kennard, will be in Morehead from 8 a. m. to 4:30 p. m. on above dates.

This service is provided as a convenience to taxpayers and to encourage filing before the April 15 deadline for state income tax returns from single individuals who have a gross income of \$1,500 or more, or a net income of \$1,000 or more. Married persons are required to file if their combined gross income amounts to \$2,000, or if they have a net income of over \$2,500.

Single individuals are entitled to a tax credit of \$20. A single person, qualifying as "head-of-family," is entitled to a tax credit of \$50. A "head-of-family" is defined as a person who maintains in his own household one or more dependents who are closely related to him by blood, adoption or marriage. Married persons are also allowed a tax credit of \$50. Any taxpayer who has specific questions about computing his return may call the district office. The Kentucky Income Tax is entirely separate from the Federal Income Tax.

### 130,000 Degrees Conferred By Colleges

According to a recent survey conducted by the office of Education, colleges and universities in the United States conferred approximately 430,000 degrees in the year ending June 30, 1949. This is an all-time high, practically double the number granted in the prewar peak year, 1939-40. The total includes 373,000 Bachelors, or first professional degrees, and 55,000 advanced degrees.

## Two Groups Of Teachers Form AFL Union

### Cattlettsburg, Greenup Rural Instructors Meet To Organize

Two additional groups of teachers in the eastern Kentucky area have decided to form their own locals of the American Federation of Teachers, an affiliate of the American Federation of Labor.

The two groups forming locals were a majority of Cattlettsburg's public school teachers and a number of Greenup County rural school instructors. David Selden, AFT-AFL representative from Chicago, and Peter S. Kirwan, Louisville, president of the Kentucky Federation of Teachers, announced.

Previously Ashland and Boyd County rural teachers had organized their own local unions. The Cattlettsburg Federation of Teachers was organized at a meeting in City Hall in the Gate City, Selden said. The Greenup County Rural Teachers Federation was formed at a meeting in McKell High School.

Cattlettsburg teachers named Miss Juanita Clark, Hatfield School, as temporary chairman, and the Greenup County teachers named Ralph Reed of Wurtland School as their temporary chairman, Selden reported.

He said figures on the memberships of the two new units of the AFT-AFL will be revealed later. He added that contributions will be drawn up soon, and that the Ashland and Boyd County locals are continuing their regular meetings.

## Kentucky Minerals On Display At Science Hall

### Agricultural Dept.

The Agricultural Department of Morehead College has on display at Science Hall, 40 minerals and silicates with products in which each are used. Some of these are of commercial importance in Kentucky and other important soil forming minerals.

In the same showcase there is a display of seeds, grasses and legumes used in Eastern Kentucky. Some of these show the application of genetics as shown by the corn display. One of these is a cross between a corn originated in Menifee County and has now become an important pasture plant throughout a wide area of the United States.

In another case there is a display of chemicals used in spraying of various kinds of plants from apple trees to flowers. The use of these chemicals on plants, controls insects as well as many plant diseases.

The display has a colorful background which shows some of the plants on which the chemicals are used. This display was donated by several chemical companies for use in laboratory work.

In each showcase will be found a display of books and pamphlets which a teacher may obtain as an aid in the teaching of science subjects.

### Industrial Arts Dept.

The Industrial Arts Department has a beautiful display in their showcase, exhibiting the work of various classes. These include items from the woodwork department as well as the metal working department.

Enamel table lamps, stools, book ends and miniature airplane propellers are included in the display from the woodwork department. The metal department display includes everything from tools to etchings on copper, aluminum, and tin.

Anyone who finds himself in the vicinity of Science Hall should not pass up the opportunity of stopping to look over these displays.

## Radiological Fellowships Are Available

The Atomic Energy Commission is sponsoring a fellowship program in radiological physics for the 1950-51 academic year. The program will be administered by the Oak Ridge Institute of Nuclear Studies and will be carried out in two parts as follows:

1. At Vanderbilt University at Oak Ridge National Laboratory.

2. At the University of Rochester, Rochester, New York, and Brookhaven National Laboratory.

The program is accredited for graduate-level training leading toward an advanced degree. Appointments will be made for 9 months, but in a limited number of cases, extensions of 6 months to complete M.S. requirements may be granted if warranted by the program and accomplishments of the Fellow during his initial term of fellowship.

Application forms or directly to the Division of Biology and Medicine, U. S. Atomic Energy Commission, 1901 Constitution Avenue, Washington 25 D. C. Completed applications must be received by the Division by March 20, 1950.

## Head Morehead Newspaper Staff

Mack Horsmon

Glenn Miller

Bob Poppe

The Trail Blazer, student newspaper of Morehead State College, announced this week the appointment of Mack Horsmon, sophomore of St. Leonard, Maryland, and Glenn Miller, Junior, of Racedale, Ky., as co-editors. Bob Poppe of Newport, Ky., was named assistant editor. The Trail Blazer, rated one of the better college publications in Kentucky, is published every other week in full 8-column newspaper size. Dr. Clyde Reed is the principal sponsor of the paper.

## Jackpot Prizes--

(Continued From Page 1) be a special dispensation, good one Sunday during the fishing season, excusing the bearer from church attendance and signed by two prominent Morehead ministers.

Other prizes are being donated by Holbrook Pharmacy (a box of Old Dominion Candy), the Citizens Bank (membership in their Christmas Savings Club), the Burger Bar, Lee Clay Products Company, Young Hardware, and the United States Postoffice.

One of the most unique prizes will be a round of mule shoes (guaranteed to fit any hoof) from the Monarch Supply Store. Still another prize will be a pedigreed American dog. Other prizes will be added to the jackpot before the great event takes place.

Readers of the Rowan County News are given a special advance hint on the identity of the Voice with the Kiss—here is the riddle containing several clues: Art's not my business, Nor stowing my trade, But Euripedes' nature Will give you fit aid!

**Special Session Sought By 12th District P.T.A.**

A resolution backing a special session of the legislature to consider further school appropriations was approved this week by 12th district of the Kentucky Congress of Parents and Teachers at Tallahassee.

The group recommended that the Kentucky Congress board of managers endorse a movement to urge Gov. Clements to call such a session. Mrs. J. M. Rael, Morehead, was elected secretary of the district organization.

During last week's spring conference in Lewis county, a gavel was presented to the Upper Tysart school of Carter county for having the largest delegation of the 51 schools represented.

Mrs. R. R. Earnst, Olive Hill, district president, and Mrs. W. F. Brown, Flemingsburg, first vice president, presided.

**DEFENSE SECRETARY IN "FRONT LINES"**... Secretary of Defense Louis Johnson (wearing cap) stops to talk with Corporal William Russell, Philadelphia, who suffered a broken arm as a result of an airplane-amphibious landing which preceded the landing forces' invasion of Iwo Jima. At left is General W. H. Morris, "defense" commander. The maneuvers represented the most extensive ever undertaken by American forces. Sixty-one paratroopers were injured seriously enough to require hospitalization.

**Eyesight Conservation Program Becomes Principal Business Of Lions Club For This Year**

**Hagan Sketches Work Accomplished, Plans For The Future**

More than a hundred children of Rowan County are seeing better today through efforts of a group of civic-minded Moreheadians who inaugurated and carried through the "Eyesight Conservation Program." The Lions Club has raised over \$500 and is now carrying on this work, expecting to test the eyes of every school child this year.

The most active person in this splendid program is Prof. Henry C. Hagan, the author of the following article. Mr. Hagan, head of the Department of Agriculture at Morehead State College, has kept the program alive through several years and the Lions Club has made the "Eyesight

Conservation Program" its number one order of business.

When one speaks of conservation, immediately, most people think of soil, water, forests, gas, coal, oil or other natural resources and overlook the greatest natural resource in Rowan County—our children. In planning for the future, the human resource should not be overlooked and the "Eyesight Conservation Program" is inaugurated to meet this problem. It is now uppermost in the minds of many of our leading citizens who have worked and contributed to meet this need.

Several years ago a group of teachers met in the office of Roy Cornette, then County Supt. of Schools, to discuss the ways and means of getting this work underway. Among those present were Roy Cornette, H. C. Hagan, Mrs. Mabel Peiffrey, Mrs. Eunice Cecil and Mrs. Goldie Eberline. Since then Mr. Cornette has been succeeded by Ted Crosthwaite and Mrs. Eberline has moved away. The remainder of the committee has carried the work until now 101 children of the county have been fitted with glasses—a record to be proud of.

In the beginning the Morehead Woman's Club, the Rowan County Women's Club, the Men's Club and Matt Bowen of the Lee Clay Products Company subscribed to a fund to get the work underway and turned the money over to the committee. The fund was soon exhausted and Mr. Hagan assumed the responsibility of finding a sponsor for each needy child. This was easily done and many took two or more. Among those sponsoring two or more children were the Home Economics Club at the College, Jack West, C. B. Daugherty, American Legion Auxiliary and the Veterans Club of the College turned over the balance in their treasury to the committee and so far they have taken care of three children and there is sufficient funds left to take care of several more. Many of the business men and citizens of the community sponsored one

### Mrs. America Gets Tired Of Husband

Mrs. America of 1949 wants a divorce. The beautiful blond Mrs. Frances L. Cloyd, 24, charged her husband, Arthur, 26, with cruelty—"physical as well as mental"—in a suit filed this week. Arthur is an auto mechanic.

Mrs. Cloyd is the mother of three children—Tommy, 3, Terry, 2, and Patricia, who was just seven weeks old when her mother was named Mrs. America at Ashbury Park, N. J., in September. The Cloyds were married in 1943.

## Norton Alcoholic Ward Success

Recognized, Treated As Disease; Admission To Infirmary Voluntary

Returning problem alcoholic drinkers to normal living in the community is the function of the new Department for the Treatment of Alcoholism at Norton Memorial Infirmary, Louisville. According to medical authorities, alcoholism has become recognized as a disease and should be treated as such. Admission to the alcoholic department is voluntary, based because an individual must have a sincere desire to help himself before any treatment can be lastingly effective.

The Norton program incorporates the latest advanced methods of treatment to provide the most permanent results for a return to normal living. The minimum length of treatment is five days, although in some cases, depending upon the individual, a longer period of treatment is required. The initial five-day period is covered by an all-inclusive fee of \$125 which provides for all services and treatment directly related to alcoholism. Separate facilities are provided for men and for women in the 20-bed unit.

For the benefit of the patient, the treatment terminates the use of alcohol completely, and immediately upon arrival. The tensions and strains caused by suddenly cutting off alcohol from the body are taken care of through the use of sedatives which relax the body and help the patient to sleep.

A general building-up of the patient's physical condition gets under way a few hours after arrival in the hospital. To strengthen his body, milk, fresh fruit juices and vitamin-packed foods are available anytime, day or night. Any physical condition not directly related to alcoholism that requires medical or surgical care is treated with the facilities of the hospital-at-large.

The method used in treating patients has proved effective, be-

NURSING CARE HELPS ALCOHOLICS RETURN TO NORMAL LIVING

Activities in the Department for the Treatment of Alcoholism center around the nurses' station, shown above. Rest and stimulation of appetite by injections are important factors in the treatment period carried out by Norton Memorial Infirmary, Louisville, Kentucky, in returning alcoholic patients to normal life in society. There is an all-inclusive fee of \$125 for a minimum of 5 days' treatment. Patients hear the problem of alcoholism discussed from the medical, Christian, and lay viewpoints. Members of the Louisville chapter of Alcoholics Anonymous make regular visits to the hospital unit to assist patients in their readjustment to life without alcohol. For the patient's benefit, treatment immediately terminates the use of alcohol, and treats his physical and nutritional deficiencies with vitamins, medicines, and various therapies. Admission to the Department for the Treatment of Alcoholism at Norton Infirmary is wholly voluntary.

cause the records show that on an average 17.3 per cent of all patients have returned for further treatment. The Norton program stresses individual cooperation of the patient and offers guidance in living a well-balanced life. The doctor points out the

ill-effects of excessive alcohol indulgence combined with a lack of sufficient and proper food. A lay-therapist, whose activities could classify him as medical social worker, convinces the patient that he can live a normal life without resorting to alcohol. The patient is introduced to others who have faced the same problem and have weathered it successfully. While a patient on this unit he is urged to join and participate in one of the groups organized by alcoholics for mutual help—such as Alcoholics Anonymous.

### Doesn't Smoke But Likes Cigarettes

It may sound squirrely, but at current prices, Lucky Joe may have something in eating cigarettes rather than in smoking them. Lucky Joe is a squirrel. Every time Hampton Wade of Atlanta lays his plastic cigarette case on the coffee table, Joe grabs it, opens the top, grabs a fag and frisks away. He doesn't smoke 'em. He just eats 'em.

When you Cash a check...

When you cash or deposit a check, drawn on a bank in some other city, you may not realize that your bank has actually advanced you its own money for several days, until it receives the money from the other bank.

All of this is quite costly; your check must be recorded, letters written, verified, mailed and otherwise handled by many people.

This is only one of the many valuable services that bank patrons sometimes "take for granted," but which we gladly furnish.

# NEW P-1 TRUCKS

ADVANCE-DESIGN TRUCKS

## THE PERFORMANCE LEADERS

with 2 More Powerful Truck Engines

America's fastest selling trucks offer stepped-up power and performance with two great valve-in-head engines. On the hills or on the straightaway, they deliver the goods surely, swiftly, at low cost. Every new Chevrolet P-1 truck gives you high pulling power to eat up hills and rough roads—and on the straightaway, high acceleration to cut down total trip time. Come in and see these great performance leaders today!

**MORE HORSEPOWER... FINER PERFORMANCE WITH AN IMPROVED THRIFT-MASTER 92-h.p. ENGINE**

Improvements in design—including "Power-Jet" carburetion—provide quicker acceleration response—maximum operating economy for minimum cost per load.

**A GREAT NEW HEAVY-DUTY LOAD-MASTER 105-h.p. ENGINE**

Complete new power plant—also equipped with "Power-Jet" carburetor—provides greater power per gallon, real mile-eating power that hauls the heavy loads on the roughest roads.

### Price Leaders

From low selling price to high resale value, you've money ahead with Chevrolet trucks. Chevrolet's rock-bottom initial cost—outstandingly low cost of operation and upkeep—and high trade-in value—all add up to the lowest price for you.

### Payload Leaders

Far Ahead with lower operating costs per ton per mile. The rugged construction and all-around economy of Chevrolet P-1 trucks cut running and repair costs—let you deliver the goods with real reductions in cost per ton per mile.

### Popularity Leaders

Chevrolet trucks, for the last 12-month period, have outsold the next two makes combined—convincing proof of the owner satisfaction they have earned through the years—proof that Chevrolet is America's most wanted truck.

### Plus Features

## Your Doctor Bill Too High?

If You Think Your Physician Charges Too Much You Have Recourse To Official Grievance Committee

The Grievance Committee, another public service of the Kentucky State Medical Association, has been organizing and is now functioning. The chairman of the Committee, Charles A. Vance, M. D., Lexington, said today. The committee will concern itself with seeking the adjustment of legitimate differences that arise between the patient and his personal physician. Dr. Vance stated. Most of these differences involve a disagreement between the physician and patient over the fee charged by the

doctor. Where the amount of the fee constitutes the basis for the dispute, the new chairman said, it has been the experience of similar committees in other states, that more than 70 per cent of these cases were amicably settled when the patient was properly informed of all the factors involved. Based on the limited experience of his new Committee, he feels the same will be true in Kentucky.

## One Inch Land Strip Sells For \$2,000

A strip of land one-inch wide and 80 feet long sold for \$2,000 this week in fashionable, suburban Surfside, Florida.

A building is planned, and the owner wants it to abut an adjoining structure with a one-inch gap between buildings.

The inch of land is a part of a tract bought from the government by Henry B. Lum of Pennsylvania in 1882 for 35 cents an acre. At that time Surfside was a mosquito and alligator-infested mangrove swamp.

Surfside, like Miami Beach, now is a section of fashionable homes, apartment houses and resort hotels with a small business center. The inch of land is in the business area.

or vaguely stated. Do not telephone.

The Committee, Dr. Vance pointed out, would hold in complete confidence the names of all parties involved in the dispute, as well as the subject matter. He stated that the Committee will operate separately and apart from local society and State Association, and will not be subject to pressure from any individual or organization.

## U. S. Civil Service Announce Opening For Scientific Aid

The United States Civil Service Commission has announced an examination to fill scientific aid (rotion) positions in the fields of fiber technology and textile technology, paying from \$2,450 to \$3,100 a year, in various Federal agencies in Washington, D. C., and vicinity.

To qualify for these positions, applicants must pass a written test and, in addition, must have from 1 to 4 years of appropriate experience, the amount required depending on the grade level for which they wish to be considered. A part of his experience must have been in the specialized fields of fiber technology or textile technology. Provision is made for the substitution of appropriate education for the required experience.

Full information and application forms most first- and second-class post offices, civil service regional offices, or from the U. S. Civil Service Commission, Washington 25, D. C. Applications must be received in the Commission's Washington office no later than April 18, 1950.

## Broods Over Wrecking Father's Car—Kills Self

A 26-year-old man, apparently brooding over wrecking his father's automobile, fatally wounded himself by firing a bullet through his head in the yard of his sister's residence at nearby Gregoryville in Carter county last week, Coroner Leslie A. Henderson reported.

Coroner Henderson said Wylie Lowe, home for a visit from Baltimore, Md., where he had been employed, fired one shot, the bullet entering the head above the right ear and emerging back of the left ear. He died instantly.

The coroner said he had learned that Lowe wrecked his father's automobile last Monday night and had told a sister, Mrs. Ned James that he would "just as soon be dead" as to face his father.
