Rowan County telephone users face the possibility of having to pay more service in the near future.

Kentucky Telephone Corporation, which serves Rowan, and other eastern Kentucky counties, has petitioned the State Public Service Commission for a rate increase aggregating more than \$700,000.

The firm said it needed another \$168,000 in revenue in order to increase "rate of return" to seven per cent, from the present 4.8 per cent, and that taxes, labor and other costs made it necessary to increase rates by \$700,000 in order to make the net gain.

This week's increase was the second sought in two years by the firm. In Sept. 1950, a hike of more than \$300,000 was granted and granted partially by the PSC. In Morehead, 60 per cent of the increase would be absorbed by increase sought in the PSC.

Many civic organizations and business groups protested the earlier increase, "until service was improved," was a common refrain. Whether organized protest would be made against this week's request.

The company also serves Olive Hill, Grayson, Russell, Afton, Fleming, and Wayne counties, and Lexington and Shreveport.

## Reduction In Taxes Voted By Fiscal Court

Incredible As It May  
Sound, Rate Is Cut  
In Rowan County

If news dissemination agencies had this story it would probably make headlines over the nation. Taxes in Rowan County were reduced this week.

In this inflationary era, a lowering of a tax rate is as unusual as if the price of a loaf of bread dropped to a nickel.

By unanimous vote Monday, the Rowan County Fiscal Court cut the rate for county property taxes from 1.50 to 1.40 per cent.

The reduction was made possible because five cents on each \$100 of assessed value was set aside for the county's share of the state bond issue for improvement and construction of roads and bridges. These non-taxable bonds created much controversy in the early thirties as it was claimed that most of the money was improperly handled, but the county was left with debt.

From a special 20 cent levy the county has retired the bonds, with interest, and the county has a surplus of \$35,000. As accumulated, this can't be paid on the bonds because they can't be redeemed before maturity date.

Green and Hogue said they submitted to the State Finance Office figures to lower this levy from 20 cents to 15 cents and "there will be adequate money to retire the bonds, half of which falls due six years from now."

In dollars and cents, the reduction will save Rowan taxpayers \$11,000 a year.

The county tax levy has been 70 cents, of which 50 cents goes to the general fund.

## Rowan Scouts Represented At Camp Offutt

Camp Offutt began its second week of the summer camping and Scouting activities with Scouts and their leaders. A camp staff of 15 is in charge of the camp. The following Scouts are participating: Dale Fair, Bill Kenney, John Fannin, Tom Hinton, Tom Hinton, Larry Chubb, Terry Wicker, Bill Layne. They are under the leadership of Nathan McMillan.

Troop No. 145, sponsored by the Morehead Methodist Church, began its summer camp on April 15. The Morehead office serves these 12 counties: Rowan, Bath, Wayne, Carter, Boone, Lincoln, Nicholas, Mason, Lewis, Elliott, Morgan, Menifee and Powell.

Scouting is a life-long activity, with extra hours, during the long week-end Fourth of July holiday, starting tomorrow.

## 90 Million Americans Will Go Forth On The 4th

Rules Recited  
For Safety  
On Highways

Ninety million Americans will go forth on the Fourth—on a holiday or a holiday day.

The National Safety Council estimates that there will be 40,000,000 passenger vehicles on U. S. streets and highways during the three-day week-end and that they will travel 5,000,000,000 miles—enough to circle the world 100,000 times.

The figures only emphasize the tremendous amount of travel to be completed during the holiday. The Council said it emphasized that more cars on the road during the holiday will inevitably mean more accidents—unless there is more caution than usual on the part of the motoring public.

An ominous note already has been sounded this year with the traffic death toll for Memorial Day setting a new record of 380 lives lost in traffic alone.

In an attempt to prevent a further increase in traffic deaths, the Council is conducting during this year a nationwide campaign on the theme "Safety on the Fourth—be alive on the Fifth."

The National Safety Council today issued these eight rules for safety driving over the Fourth of July.

1. Make sure your car is in safe mechanical condition.

2. Start your trip in plenty of time, so you won't have to hurry.

3. Keep your eyes open. Slow up here and show up there.

4. Pass other cars only if there is plenty of room.

5. Stay far enough behind other cars so that you can stop in an emergency.

6. Keep your temper, and be courteous and patient in heavy traffic.

7. Don't drive after drinking—even if it's only one drink.

8. Stop and rest whenever over-tired or sleepy.

## Accident Rate Drops In State Police District

Only Two Killed In  
12 Counties Served

State police at the district office in Morehead, which serves 12 Eastern Kentucky counties, kept their fingers crossed today on the eve of the Fourth of July.

Since the start of the holiday season, words of praise for motorists in this vicinity.

Bobby Stamps, who handles publicity at the district office, said the accident rate is exceptionally low in this area. He said that there have been no deaths, traffic arrests and warnings.

Here is what the June record disclosed:

(1) Sixty police made 285 arrests during the month; 218 were convicted, 68 dismissed.

(2) Sixty accidents were paid, amounting to \$63,110, and 96 warnings were issued. All of this is good, Stamps said, in fact the number of warnings is the lowest since the Morehead office was established.

(3) There were 35 accidents in the 12 county area during June. This is not a record, but is a great improvement over the past year.

(4) Only two died from accidents during the month. Both of these were in Mason County. During the month of May there were 14 fatal accidents in the same territory.

(5) Rowan County, which piled up the heaviest death rate of any Kentucky county in late 1951 and early 1952, has not had a fatal accident since April 15.

The Morehead office serves these 12 counties: Rowan, Bath, Wayne, Carter, Boone, Lincoln, Nicholas, Mason, Lewis, Elliott, Morgan, Menifee and Powell.

Stamps said it emphasized that more cars on the road during the holiday will inevitably mean more accidents—unless there is more caution than usual on the part of the motoring public.

## Heat Stroke Is Fatal To Rowan Man

Ed Hyatt, 38, Claimed;  
Funeral Conducted At  
Shurkey On Sunday

A heat stroke proved fatal to a Shurkey (Rowan County) man Thursday.

Ed Hyatt, 38, died in Franklin, Pa. where he was employed. Physicians said death was due to the heat wave which engulfed the nation.

The remains were sent to the Lane Funeral Home in Morehead and funeral services were held Sunday at the home of Mrs. James Ratliff at Shurkey. Last rites were said by Rev. Herchel Hyatt.

Hyatt, son of the late John and Rosie Hyatt, of Rowan County, was born August 15, 1913.

Survivors include a brother, Bruce, and a sister, Effie, both in Lexington.

There wasn't any ceremony, but last Friday two Rowan County men shook hands, patted each other on the back, and told a Rowan County News reporter:

"If you write anything about us express our sincere thanks to our Father in Heaven for His many blessings and to our dear departed mother and father for their many sacrifices."

The men are S. T. (Sam) Branham and S. B. (Berry) Branham, a farmer of the Hayes community.

They are twin brothers and Friday was their 75th birthday.

Each has lost an eye. S. T. was felled six years ago and had to be removed; S. B. lost his right eye in an accident 51 years ago. They were born June 27, 1877, 10 1/2 miles north of Morehead in Rowan County on the farm now owned by Claude Ramey. Their parents were Hyman and Zarilda.

## Fireworks At 8 P. M. Will Climax Day

An eight-hour program, climaxed by the biggest fireworks display Morehead has ever witnessed, is scheduled Independence Day, tomorrow.

Program of events:

1 p. m.—Address, Dr. Charles H. Spain, president of Morehead State College, courthouse lawn.

1:30 p. m.—Parade, starting on College Boulevard, continuing south of Trumbo Avenue to Railroad Street, on Railroad Street to Hargis, from Hargis to Main and east on Main Street to Jayne Memorial Stadium. Bill Bowman will be in the parade.

2:15 p. m.—Awards for best floats in parade.

2:30 p. m.—Baseball, Morehead versus Flemingsburg, Jayne Memorial Stadium.

7 p. m.—Bank concert, Morehead College Stadium.

7:30 p. m.—Awarding of TV set, electric iron and large number of special prizes from Morehead merchants at Jayne Stadium.

8:00 p. m.—Fireworks display, Jayne Stadium.

The parade will be led by the Morehead State College band. Most of the events will be at Jayne Stadium instead of the Wade School grounds as previously announced. The Corbin Eltington Post of the American Legion and the DAV, co-sponsors of the Fourth of July program, announced today the stadium would be used since college officials said the adding large program on the field had sufficiently progressed so that it could be used.

Legion and DAV officials estimated that more than 8,000 visitors came to Morehead for last year's Independence Day program, and would be expected to attend this year's program.

The Legion and DAV announced they will spend more money this year as much on the fireworks display as they did last Fourth of July.

## Middlesboro Man Unhappy As Death Fails To Come Saturday

**Said Lord Sent Message Three Years Ago**

Perhaps the unhappiest man in the world today is James P. Longworth, 69, of Middlesboro, Ky.

Longworth had claimed for 3 years that the "Lord has spoken to me and told me he would take me at 7 a. m. on June 28, 1952."

A crowd of more than 200 gathered at Longworth's home Saturday morning, but death did not come. The Bell County man, who had already selected his pallbearers, was obviously disillusioned. News-wide publicity and resulted in friends and relatives said there was "no doubt but Longworth expected death at the appointed hour."

The Rev. James Foster who was at Longworth's bedside, said that Longworth told him, "death struck me at seven o'clock. I am dying now."

Later Longworth's daughter, Mrs. Dora Tkach, said her father told her that he had been "struck by death twice this morning, and would be leaving soon."

Mrs. Tkach said her father tried once to rise from his bed, but fell to the floor, and was unable to walk without assistance.

At one point Longworth awoke from his apparent coma, shouted, "Praise the Lord," and smiled.

"I'm not going to fight it any more. I'm leaving you. Be good sheep of the Lord. The house was made stifling hot by the huge crowd which was on hand to see if Longworth's prophecy of death, based on a dream he had three years ago, would come true."

Most of them stayed on until nearly noon, and many who left then did so convinced that Longworth actually was in the process of dying.

Longworth's self-made death with death was revealed earlier this week when he and his

daughter, with whom he makes his home, went to a local funeral home to purchase a white casket just like the one he had seen in his dream three years ago.

He also made arrangements for the ministers and pallbearers. Friday night, Longworth preached to more than 1,000 people who crammed their way into the little Church of God, which seats only 300.

"He talked seriously and earnestly to the congregation, telling them to 'make your preparation to meet your God,' as he had done."

Then he said goodbye to those present, shook hands with his pallbearers, and went home to bed at 11 p. m. for what he expected would be his last earthly sleep.

At first, Longworth expressed the opinion the Lord was delaying a little time before claiming him and declared Sunday that "God had some good reason for leaving me on earth."

Meanwhile, ministers and newspapers in many parts of the nation ridiculed the whole thing.

Driving from home to work — then back home — then to the store — then home.

These short hops warm up your car radiator, but they don't warm up your engine oil, where it counts most!

**What You Can Do About It**

If you are among the nine out of ten drivers who do this kind of driving, you're subjecting your car to most severe operating conditions. You can help by warming up your engine before driving, by having oil changed exactly according to manufacturer's recommendations, and by keeping a constant check on oil filter condition.

And of course, you'll want only expert technicians to work on your car ... experts such as those in our shop. Next time you need service (probably NOW) drive up!

## Tickets For July 11 Event Now On Sale

More outdoor events, outdoor lights, proper supervision and other improvements at Woodland Park, Morehead, are past the planning stage by the Morehead Kiwanis Club.

A considerable portion of the money for this will come from profits at Morehead's first professional wrestling show, scheduled Friday evening, July 11 at Jayne Memorial Stadium.

Advance sale of tickets have been good and a crowd upwards of 2,500 is expected.

Nell Stewart, one of the nation's top five women wrestlers will have Ida May, who is just about as tough as she is lovely, as an opponent in the women's match.

In other events Andy Nichols will collide with Angelo Poffo and Farmer Brown meets Jules LaRance. All the wrestlers perform weekly on television shows.

Poffo started professional wrestling in September of 1949 in his home city of Chicago and has gone a long way in the sport since that time.

His hobbies are body building and sports of all kinds. Poffo, a six footer who pushes down the Fairbanks to the extent of 200 pounds is a handsome man, and has a great following among both feminine and masculine fans.

In the Navy for a period of three years and while in the record for consecutive set-ups in a row 6033 and consumed four and one half minutes.

Little wonder is it that a fellow who would go to all this trouble to improve his body is being called one of the greatest corners in wrestling.

Just watch him in the next few years.

Jules LaRance

Jules was born in Montreal, Canada 38 years ago where he went to school and completed a record in athletics as the school had ever known before or since.

Jules was not an ordinary athlete but one that stood head and shoulders above all the rest. He was so fast in all sports that he had a nickname tabbed to him which was "Speedy" he starred in football, hockey, boxing and wrestling.

When Jules had completed his education he turned to boxing and was little short of sensational until he hurt his knee very badly and had to give fighting up so he decided to resume his wrestling which he has done wonderfully well. He has been a contender for the title ever since he started. Watch for him when he comes to your town as you will see a fast and rugged match and if I can't dissuade Jules will probably walk off with another win and to his already overflowing bag of conquests.

to engage him that he would try and commit mayhem as he was usually much younger and a better wrestler than his opponent.

Jules has wrestled in every city of importance in Canada, United States, Mexico, South America and Australia and the fans never forget him as once you see him get into high gear there is no one who can stop him.

Watch for him when he comes to your town as you will see a fast and rugged match and if I can't dissuade Jules will probably walk off with another win and to his already overflowing bag of conquests.

## Rowan Gardens Are Inspected By Gardner

John Gardner, state garden specialist, is in Morehead this week judging the 26 gardens in the Rowan County Garden contest. He is assisted by Bill House, county chairman of the contest; Adrian Razon, county agent, and Evelyn Sinclair, home agent. Three entries left out of the last of last week's paper are Henry Black and A. C. Bauld of Shurkey and Willie Caudill of Poplar Grove.

Mr. Gardner, pleased with the quality of gardens he has seen, complimented both the rural and town gardens and their selection of different varieties, insect and disease control program and management practices.

Vegetables range from ten to 30 different varieties. Many farmers are growing new vegetables for the first time.

Vegetables now being used are potatoes, onions, beets, tomatoes, cucumbers, early sweet corn and cabbage. One farmer had a complete dinner of new vegetables from his garden.

## For Short Turns and Quick Stops these Ford Brakes are Tops

If we told you how fast the Ford Tractor can stop and turn, you wouldn't believe us. But when you see a demonstration, you'll agree that the Duo-Servo brakes on the Ford Tractor are the "stopping-est," "turning-est" brakes ever. Here's something else. Both brake pedals are on the right... leaves the left foot for the clutch. Stop straight, or turn as tight as you want. Easy to service these brakes, too... no need to pull the axle. When can we demonstrate? We also have parts and service and Dearborn Implements for all Ford Tractors.
