## Salt Lick School Is Dismissed

### Principal Halts Classes Asirate Parents And Students Make Protest

The school bells didn't ring this morning at Salt Lick in Bath County as Principal Lindsay R. Ellington stopped everything until the school board does something about this strike.

This was the latest development arising out of the Board of Education's order of last month to merge the Salt Lick High School with Owsingville, 12 miles distant. Ninety-six high school students were involved in the transfer and feeling has been high in the community.

The school has 373 elementary pupils, not affected by the consolidation, but Ellington said "the children in these grades were sent home Tuesday after their parents agreed to me to take such action. I felt their request was justified in light of the situation."

Meanwhile, school bus drivers who were scheduled to transport the high school students to Owsingville, have refused to make the trip. They had been running since the merger, but though they had few passengers because of the high school students refused to go to Owsingville.

The Bath County Board of Education held a special meeting Monday night, but this resulted in a stalemate. The parents and high school students want the consolidation order rescinded. The Board, according to Jack Frizzle, Salt Lick spokesman for the Salt Lick group opposing the merger, agreed that students who so desired could continue to attend classes at Salt Lick High School if the parents would agree to allow a school bus to be operated for the convenience of these students who wanted to attend at Owsingville.

The nearly 600 Salt Lick residents who attended the meeting in the Owsingville courthouse viewed this down.

Board of Education members admit the "situation is bad" and the people are up in air. The Board has been steadfast in its plan for the merger.

Bath County's Board contends Owsingville offers some classes not given at Salt Lick in agriculture, home economics and commerce, and the merger was voted after a group of Salt Lick parents requested.

At Monday's hearing one student testified he couldn't get in the overcrowded typing class. Owsingville classes, others decried Owsingville was already overcrowded.

It was also revealed today that the elementary school teachers at Salt Lick were in sympathy with the striking students and parents and this may have been a factor in Principal Ellington's "cease class" order.

## Conduct Final Rites For Nine Month Old Boy

Last rites for Dennis Mitchell Lambert, nine-month-old son of Mr. and Mrs. Andy Lambert were conducted Thursday morning at the Interdenominational Church of Clearfield.

Interment was in Clearfield cemetery. Reverends Clifford Price and Fultz officiated at the funeral.

## Rowan Counties Go All Out Friday In Welcome For Corporals Harr And Davis

### 2,500 Attend Ceremonies Honoring POW's

Rowan Counties turned their "hearts inside out" Friday in tribute to their two returning prisoners of the Korean War.

An estimated 2,500 people—maybe more—jammed the streets as the parade honoring Corporals Vernon Harr and James Clyde Davis traveled on Main Street to the courthouse. There the courthouse lawn was filled as they received presents, Kentucky Colonel commissions, and the cheers of a crowd who demonstrated their thanks over the return of the two young men who spent more than 33 months in prison camps.

Harr and Davis, who rode in an open convertible, were visibly touched. They were met by cheer after cheer from the curbs that were packed with people.

Business places Moore and William H. Layne All Morehead, and handed them from the county, turned out for what was probably the largest celebration ever held in the town. A parking place, on any except the most removed street in residential sections, couldn't be found an hour before the 2 o'clock ceremony started.

Rowan players Moore and William H. Layne All Morehead, and handed them from the county, turned out for what was probably the largest celebration ever held in the town. A parking place, on any except the most removed street in residential sections, couldn't be found an hour before the 2 o'clock ceremony started.

Joe Mauk, chairman of the "Corporals Davis and Harr Day" said he was genuinely pleased and amazed at the cooperation.

Members of the families were in special parade cars. The town was plastered with pictures of the returning POW's, and a placard's reading "Welcome Home Vernon and James." Most clubs and organizations had placards in the parade.

Mayor William H. Layne commented that "a key to the city isn't of any real value... you boys can see from the way these people have turned out you already have the hearts of all of our people... and I am giving you something useful on behalf of the city." He handed each an engraved belt buckle.

Earl McBrayer, president of the Merchants Association, presented both Harr and Davis with a \$100 war bond.

Representing local women's clubs, Mrs. Kenneth Bays and Mrs. W. E. Crutcher, presented the mothers of the boys with flowers in the expression that "all mothers in Rowan County have suffered with you during the imprisonment of your sons and our hearts are glad they have been able, with God's help, to return to their homes."

PART OF CROWD—This is part of the crowd of an estimated 2,500 that honored Rowan County's returning prisoners of war, Corporals Vernon Harr and James Clyde Davis Friday. Business places closed for the hour's parade and ceremony on the courthouse lawn.

THANKS, THEY SAID—Sitting on the rear seat of this convertible are Corporals Harr and Davis. This picture was taken by Photographer Art Stewart during Friday's parade. The returning POW's were cheered throughout the parade to the courthouse and both choked up a little as they thanked the committee that planned the celebration.

MOTHERS NOT OVERLOOKED—Rowa a County, Women's Clubs didn't forget Mrs. Thelma (Harr) Moore and Mrs. Cordie Davis at Friday's ceremonies. Here Mrs. W. E. Crutcher and Mrs. Kenneth Bays are handing flowers to mothers of the returning POW's. Master, E. M. Hodge is at the microphone.

## Transportation Is Offered To Donors

To encourage donors for the Red Cross Bloodmobile which visits Morehead Tuesday (Sept. 29) co-chairmen Foster West and Mrs. Legrand Jentz announced this morning the formation of a committee that will pick up and return any persons in Morehead or Rowan County who lack transportation.

Mrs. William H. Layne and Mrs. W. E. Crutcher have agreed to furnish cars for this service.

The bloodmobile will be at the Christian Church from 11 a. m. until 5 p. m. Tuesday. Quota is 100 pints. But, Mrs. Jentz said this morning "practically no one has volunteered so far."

Dr. West pointed out that in addition to the great need of the blood for civilians and men and women in the Army, the entire nation, and particularly this section, requires gamma globulin.

## Section 186 Is Morehead PTA Topic

### Dr. Spain To Give Speech To Group At Important Monday Meet

Morehead State College President Dr. Charles Spain will address the Morehead Parent-Teachers Association Monday evening on "The necessity for Repeal of Section 186 of the State Constitution."

Estimators in Kentucky agreed the section must be done away with before the minimum foundation program can be achieved or Kentucky's school children have opportunity equal to neighboring states.

The PTA has issued a special invitation to all citizens for this meeting because of its importance in advising people in voting on the amendment at the November election.

The PTA plans to serve refreshments while the Morehead High band is also on the program.

Dr. N. B. McMillan, Morehead College Faculty Director, has been granted a two months leave of absence to assist the Kentucky Education Association in advising the public of the need for the section 186 change.

Dr. McMillan has opened state offices at Frankfort.

## Vaccination Of Dogs Set Monday

Dog owners in Morehead and Rowan County will have the opportunity Monday to get their animals vaccinated for rabies or distemper.

Rowan County Agent Adrian Rizzuto said arrangements have been made for Dr. L. B. Randall, Mt. Sterling to be at the courthouse on Monday evening to give the shots.

The program is sponsored by Farm Bureau and the cost is not great. Razor set out Rowan County does not have a veterinarian. Full particulars may be obtained by calling Mr. Rizzuto.

## Aunt Of Mrs. J. H. Powers Is Claimed At Ripley

Mrs. Frank Bronco, 80, aunt of Mrs. J. H. Powers, Morehead, passed away Friday night at her home in Ripley, O., following a year's illness. Mrs. Bronco suffered a further stroke the week before her death.

Among those attending the funeral, conducted by Rev. R. B. Riffe, pastor of the Methodist Church of which she was a lifelong member at Ripley, were: Mr. and Mrs. J. H. Powers, Miss Lotte Powers, Seymour, Ind.; and Mrs. Powers' brother and his wife, Mr. and Mrs. Charles Harrison, Washington, Pa.

## Cannery To Be Open By Appointment

### Facilities Still Available Tuesday, Wednesday By Request

Rowan County's Community Cannery will remain open for the rest of the season by appointment only. Those announced today by Mrs. W. H. Rice, supervisor.

The cannery can be used on Tuesday or Wednesday, but an advance reservation must be made. This can be done by telephoning Mrs. Rice at the Vocational Agricultural Building (phone 24) between 8 a. m. and 2 p. m. or at her home (phone 21) in the evenings. Those from rural sections can mail a card to postoffice box 392, Morehead.

A total of 5,831 cans have been processed this year at the cannery, located two miles east of Morehead on U. S. 60. This is the largest number in one season since the close of World War 2.

Mrs. Rice said the increase is due mainly to modern, up-to-date time saving equipment installed this year and that many families in adjoining counties are coming to Morehead to use these facilities.

The cannery is sponsored by the State Department of Vocational Education and the Rowan County Board of Education. (Continued On Back Page. This Section)

## DESERVING TRIBUTE TO A DESERVING FELLOW

## Moreheadians, Former Players, Noted Sports Figures Honor Johnson Tonight

### Earl Ruby Will Deliver Principal Address; Ashland To Award Ellis Highest Honor Conferred On Athlete

Moreheadians and Kentuckians will show their appreciation for the life-long sports editor of the Ashland Daily Independent is to present, on behalf of Ashland, a citation naming Johnson, first man to the hall of fame of the famous football players of Johnson.

Johnson came to Morehead in 1937. He has been lauded for the ability to take great pride in his work. He is a well-known high school football and basketball player and develop them into college stars.

Toastmaster for tonight's bread breaking is W. E. Crutcher. He will be the first of three newpapers on the program as the principal speech is to be given by Earl Ruby, sports editor of the Courier-Journal, a life-long friend of Johnson's. John McCall, sports editor of the Ashland Daily Independent is to present, on behalf of Ashland, a citation naming Johnson, first man to the hall of fame of the famous football players of Johnson.

Johnson came to Morehead in 1937. He has been lauded for the ability to take great pride in his work. He is a well-known high school football and basketball player and develop them into college stars.

## Ask Soap Box Derby Entrants To Register

"We know there's quite a few boys planning to enter the soap box derby on Fair Day Friday (October 2), but so far they have been procuring their application blanks," says Bob Fraley, chairman of the Lions Club committee sponsoring the event.

Fraley said the application must be filled out and signed by parents of the contestant. They may be obtained by contacting him.

Soap Box Derby prizes will total \$50. The race, to be decided on speed only, will be on Burgin Avenue Hill.

## Haldeman PTA To Complete Planned Program

At its first regular meeting of the year President Dale Eldridge appointed committees that will be active this year in the Haldeman PTA.

The PTA decided to complete its program for refinishing the gymnasium floor in the high school building and landscaping the playground. No new project is to be taken on until these are finished.

Next regular meeting of Haldeman's PTA will be Tuesday, October 6 at 7 o'clock in the Haldeman High School building.

## Rebekah Observance Is Tonight

The Farmers Rebekah Lodge will observe the 102nd anniversary of the Rebekah degree with an old-fashioned box lunch supper at the lodge hall tonight (Thursday).

Mrs. Vivian Young, Noble Grand, has requested each drive member to invite a delinquent member and bring a box lunch. Mrs. Young also announced that Mrs. Ottis (White) Egan had been voted unanimously by the Farmers Lodge to serve as district deputy president for the coming year. This is an honor that can be extended only to a past Noble Grand.

Elected to represent Farmers at the Rebekah Assembly in Lexington October 26, 27 and 28 are: Past Noble Grand Pruda Gray, Elizabeth Martindale, Otis Egan, Della Branner and Esther Ellington.

Representatives attending the district meeting at Trinity were: Mrs. Rosie Messer, Pruda Gray, W. T. Gray, Hattie Tribby and Libby Tribby.

GROUND BREAKING—This bulldozer broke the first ground this week for the \$76,000 school building at Clearfield. At the same time the first shovel full was taken at Morehead for the new \$2,600 gymnasium under construction on Flemingsburg Road. The buildings, termed the most needed in the county, were financed by long term bonds. Both will be of brick, steel and concrete and the contract calls for them to be completed by May. Shown in this picture are Rev. Douglas Johnson, Postmaster, one of the contractors, Supt. Janice Cecil Clearfield, Principal Sherman Arnett, Rowan County School Board Chairman Chester Kiser and Vice-Chairman Fred Calvert.

### Attendance At State Fair Sets New Record

While Kentucky State Fair officials were rejoicing about an over-all record attendance at the golden anniversary event, operators of booths on the midway for charitable purposes were not so cheerful.

Business was poorer at the booths this year than usual, the operators said.

But they weren't complaining about the number of persons visiting their booths.

L. Doc Cassidy, director of publicity, said Sunday's attendance reached 23,000, despite the rain. This enabled this year's attendance to surpass the 1951 record by more than 21,000. The fair closed Saturday night.

In comparison, Indiana's State Fair this year fell 50,000 below its 1952 attendance.

Two members of the fair board—Vice President Clarence Miller of Shelbyville and Asby Corum of Madisonville—suggested reasons for Kentucky's larger attendance this year.

Miller attributed the increase to more effective newspaper, radio and television publicity. Corum said the fair had attracted more A-H and Future Farmers of America into the competitive events and the members of these organizations had brought their parents.

Fair Manager J. Dan Baldwin agreed with Miller and Corum on several other reasons for the increase in attendance.

These included better disposal of competition areas, making possible more participants; a state appropriation of \$25,000 to increase premiums at county fairs, with part of the increase dependent on whether the exhibitor would show in the State Fair; representation by 21 states in livestock competition and ideal weather.

The complaints of the midway operators were summed up by one operator who declared about the customers, "They're holding onto their nickels."

The operators complained about the expense of locating a booth on the fairgrounds, especially the \$15-a-foot booth fee. Other operators complained about included installation costs and charges for electricity.

One operator blamed the free shows in the grandstand with attracting most of the patrons away from the booths.

The organizations planning booths on the midway are required to make no report to the fair on income, but must donate the proceeds for civic or charitable causes.

will not change the character of the people of the Communist nations. Give 'em a chance and they will upset the peace of the world again.

### Farmers Silent As Benson Recites Plans

Secretary of Agriculture Benson told an attentive but comparatively quiet audience of farmers at Wisconsin that the administration would do everything in its power to "enhance farm prices in 1953-54 with the implements at hand."

The secretary said that President Eisenhower and he were determined to do all within their power to protect and improve the living standard of farm people.

A crowd estimated at 68,000 by Edward Baker, secretary of the National Plowing Matches, sat on the ground and stood in the natural amphitheater to hear the secretary's address which he previously had described as "one of the most important" he had ever made.

There had been rumors of a possible disturbance to be created by disgruntled farmers opposed to the administration's farm policy but they failed to develop. The Eau Claire sheriff had a dozen deputies around the speaker's platform which was separated from the crowd by snow fence and heavy wire. They were not needed.

The audience was attentive and respectful and sat quietly to the end of the 30-minute address. At no time was the secretary interrupted by applause. The applause at the conclusion of his speech was quite general but not prolonged.

**TAX EVADERS**

In announcing his plan to "get the cheaters who haven't been shooting square with the Government and their fellow citizens," officials of the Internal Revenue Service have announced that their door-to-door check of tax evaders in New England recently probably would be extended on a nationwide basis during the next few months.

**GOLD HOLDINGS**

Gold is continuing to flow out of the United States, as other nations, particularly Great Britain and Western Germany, build up their stores of gold and dollars. Foreign countries have drawn down our gold stocks by more than \$1,000,000,000 since December, 1952, but we still have \$22,227,358,689.78.

There are people in every community who judge others by the size of their bank account; that gives us a pretty low rating.

**Corduroys Set The Style**

GREAT NECK, N. Y.—Corduroys are extremely popular this year as these two attractive young ladies well know. On the left Marion Mooney, New York cover girl, is wearing a smart Fruit of the Loom coverall with matching belt while popular TV actress Claudia Hall chose a brilliant red corduroy printed skirt, also styled by Fruit of the Loom. Claudia's sporty looking wool jersey blouse is another featured number in the famous sportswear line that is being shown in stores all over the country.

**They're all talking "best deal in town" BUT WHO'S GOT!**

**Are you really sure that the car dealer who gives you "the best deal in town" really gives you the best BUY in town?**

As you well know, the best BUYS are based on value.

Because value lasts longer than any other quality—and, in automobiles, that means longer motoring pleasure, greater safety, lower upkeep, and a better trade-in allowance later on.

**"The Buy of the Year!"**

The new Packard CLIPPER has made news all year long as "the buy of the year." Way back last winter, the "insiders"—men of recognized automotive experience and instinct—tagged the CLIPPER as the car of the year in the medium-price field. A real, old-time PACKARD value.

You know very well that you never bought an automobile right off the printed page. You bought it ONLY after a demonstration when features either come to life or amount to nothing.

So we urge you: before you take that "best deal in town" . . . take a demonstration in the new Packard CLIPPER and value-check the features with which we challenge all other cars!

Did you know that you can own a new Packard CLIPPER for as little as

**\$2,603\***

\*Plus state and local taxes, if any. Optional equipment, including white sidewall tires, extra. Prices may vary slightly in nearby communities due to shipping charges.

Club Sedan Delivered In Morehead

Long Range Bases Best Atomic Bomb Defense... In recent days there has been much criticism from various sources as to present state of U. S. defense against atomic attack.

FLEASANT DREAMS, KIDDIES... EDITOR'S PEN... Morehead's celebration Friday for Corporal Harr and Davis was about the best planned and best carried-through civic program witnessed.

Day Celebration Properly Handled; 1st Frost Reported... Morehead's celebration Friday for Corporal Harr and Davis was about the best planned and best carried-through civic program witnessed.

House To House Collectors Of Income Tax Probable... The Internal Revenue Bureau has decided to greatly increase the number of house-to-house calls by its agents seeking payment of delinquent taxes.

Commissioner T. Coleman Andrews reported recently that in the Omaha region 98 per cent of 7,662 taxpayers visited were found to be delinquent.

What those citizens should remember, if they are inclined to resent the personal visits of tax agents, is that increased collections from this new system will result in two things: First, it will bring in more money to the Treasury and, perhaps make possible lower taxes in the future.

As has always been the case, the best defense against atomic attack is for the United States to possess the finest long-range bomber fleet in the world.

As always been the case, the best defense against atomic attack is for the United States to possess the finest long-range bomber fleet in the world.

A device was recently patented in Washington which would enable patients to shut off the drill, grinding into their teeth, even though the dentist is unable to speak because of cotton and machinery in the mouth.

Razor's Radio Speech Concerns Dangers Of Fire

Our capable and well known County Agent, Adrian Razor, was the guest of radio station WFPM, Morehead, this Monday night.

Some Good News For Dental Patients

A device was recently patented in Washington which would enable patients to shut off the drill, grinding into their teeth, even though the dentist is unable to speak because of cotton and machinery in the mouth.

THE BIBLE SPEAKS... Higher Brotherhood... Lesson for Sept. 27, 1933

Oh, How We Detest These Anonymous People! A telephone caller, who refused to give her name, didn't like the way this newspaper handled the story about the Morehead High School.

Picked Up - And Then... Made no out-of-town engagements for Friday of next week (October 27) and this year's program.

How Reform Comes... This little letter, showing Paul in his charming best, suggests a few reforms.

Christ and the Individual... Though Christ ourselves society more slowly than individuals, he is able to do so.

These 'Sensible' People Contribute Little To Society... I'm getting tired of 'sensible' people. There ought to be a law that would make it a crime to be sensible.

Both Hunter... anything different, his objection is 'careful'.

What Christian Brother Is It?... People talk the brotherhood of man, but the brotherhood of man is a higher brotherhood.

Caricature - For his subject this week artist Wilford Wallis has sketched a person you should know well and he is a native of Morehead, in business, and has been a member of the fraternal organizations.

The Competitive Market Has Returned To The U. S. In spite of today's high prices, many enterprises are earning smaller net incomes than in the past.

Printers Ink was speaking primarily of manufacturers. The same thing is true of retailing. The time when a merchant could sell practically anything by just putting it on display has passed.

This is one of the hallmarks of a free, competitive economy—the kind of economy that does more good for more people than any other ever devised by man.

Taxes Take Biggest Bite From Workers Pay What takes the biggest bite out of your day's pay? The answer is, of course, taxes.

We all kick at the high cost of living. It should make more sense, we kicked at the high cost of government and demanded that something be done about it.

No Need To Raise Rate On Social Security The President, in his budget message, said that the increase in the social security levy, which under the present law will go into effect on the first of next year, should be postponed.

It is possible to raise cork in the United States. This, then, was one of 15 declared most critical by the Navy munitaries board during the last World War.

YOUR HEALTH

Medicine Advances... But Don't Expect Miracles Always

Modern medicine has advanced so rapidly in the control of disease in the past 50 years that we get the habit of expecting it to do miracles overnight.

Tuberculosis is a disease which can be prevented and cured, but there is no easy short-cut. From time to time new methods of prevention and treatment have been proclaimed only to end in disillusionment.

One of the greatest hopes for the defeat of tuberculosis lies in the discovery of a vaccine which could be used to make everyone resistant to the germs which cause tuberculosis.

Until an ideal vaccine is discovered and given to all the people, the slower, proved methods of TB control must be carried on. All people must learn how to protect themselves against TB.

Ruth Taylor... (continued from Page 2) are those who avoid taking sides, because they might want to use someone on each side.

Babson's Authentic Statement

Babson Makes Survey Of The Best Defense We Can Use In Case Of Atomic Warfare

I am getting this near a large bombing range in southern New Hampshire. Owing to the comparative inefficiency of bombers which have been used in Korea the past two years, I was curious to get an answer to four questions:

(1) What is the Defense Against Ordinary Bombing? Naturally, the fighter-plane is the best defense against the bomber - plane. This means that speed and mobility determine the battle outcome.

(2) What is the Defense Against Atomic Bombing? The original atomic bomb, such as used in Hiroshima in 1945, has been greatly improved by increasing the destructive power and by reducing the size of the bomb and its accompanying mechanism.

(3) What are the Pros and Cons of Evacuation? If evacuation is the only protection against atomic bombing, why don't we hear more about it? The reason is twofold. First, it is the great expense of making arrangements in advance for the mass evacuation of a large city.

(4) Is Decentralization Surely Coming? I cannot believe, as many do, that the big cities are already "seed ducks." I, however, do believe that decentralization is to become an important industry.

within a harbor, or hidden in the cellar of some enemy spy's house within any city. The first thing of the war they might witness is two or more of our large cities in surprise attacks—like what happened to us at Pearl Harbor. The only defense now appears to be radar and evacuation.

The second reason is the opposition of real estate and other business interests to talk about evacuation. The Chambers of Commerce, the Real Estate Boards, and the Builders Associations of these twelve cities will not discuss mass emergency evacuation.

As the expenditures for the above and other military supplies will be reduced, it is a great campaign for Decentralization may be substituted in its place. This could give business another "shot-in-the-arm."

American Women Against Short Skirts

American women have declared war on the Paris fashion dictators.

From a \$50-a-week secretary to Mrs. Mamie Eisenhower, women who they would not wear the new short skirt length dressmaker Christian Dior wants to sell them this fall, might wear two or more of our large cities in surprise attacks—like what happened to us at Pearl Harbor.

The rebels against skirts 16 inches from the floor included Mrs. Ovelia Culp Hobby, secretary of health, education and welfare, the new Miss America, and even the wife of the French ambassador to the U. S.

The Americans got another big boost from two others among the world's best-dressed women—Britain's queen and her fashionable aunt.

Norman Hartnell, designer to royalty, reported Queen Elizabeth II and the Duchess of Kent have no intentions of raising their heads to Dior's, fashion line.

The queen and the duchess set the style for British women, just as Mrs. Eisenhower's tastes already have been reflected in what millions of Americans are wearing.

Mrs. Eisenhower said her skirts have been 13 inches from the floor, and they are going to stay put. Mrs. Hobby said she did not have time to shop for a fall wardrobe and plans to wear what she had last year.

"Miss America," 20-year-old Evelyn Ay, Ephrata, Pa., said her wardrobe (10 inches) may be a little too tall to wear dresses chopped off just a little below the knees.

An official of the Business and Professional Women's Clubs said most of her organization's 163,000 hard-working members were too cooperative to accept radical style changes.

"We always want to wear good looking clothes," the official said, "but we are not going to be dictated to."

Most university women feel the same. One said a spokesman for the American Association of University Women said some of the new fashions in Paris, she thought they were terrible.

The National Secretaries Association agreed to a woman. Club members said they could not afford to buy new wardrobes this year.

More than 3,450,000 pupils in 10,000 grade and high schools hold \$113,000,000 in school savings accounts in 500 banks throughout the country, according to a report by the American Bankers Association.

SALLY'S SALLIES... I know, dear, but it costs a lot to see celebrities eating free."

Traffic regulations, rigidly and impartially enforced, will save lives on our streets and highways.

WIN LITTLE LEAGUE WORLD SERIES

BIRMINGHAM, Ala., (right) as kingpin of the Little League baseball world. Gum-chewing Joey Sims pitched the Southerners to a 1-to-0 victory in the final of the 9-to-12-year-old 1953 world series at Williamsport, Pa., holding Scherretsky, N.Y., to two hits. At top, right, stop McKea is tagged out by Donahoo of the Alabama team as he slides into second base in the final game. Below, the winning Alabama players are presented with their trophies by H. E. Humstrey, (International)

Farm Prices For 1953 May Be Below Parity; GOP Draws Democrat Criticism

Agriculture officials predicted this week that overall farm prices this year will average less than parity, the legally defined "fair" level, for the first time since 1941.

Farm prices have averaged about 84 per cent of parity for the last eight months and department officials said they forecast no price upturn great enough to raise them above 100 per cent by the end of the year.

Democrats have begun to question the situation. They expressed confidence at their Chicago meeting this week that it will help them regain control of Congress in next year's elections.

Republican farm belt congressmen agree privately that the situation is a serious one that the GOP-controlled Congress next year must enact a farm program that will satisfy the farmers or the party will lose congressional seats.

Parity is the legal standard for determining whether farmers are getting what they should for their crops in comparison with production costs and living expenses, based on a 1910-14 average.

Average farm prices sank far below parity during the 1920's and 1930's. They have ranged between 111 and 100 per cent of parity during the 11-year period of 1942-52. They average 101 per cent of parity last year.

The law now requires the government to support prices of corn, wheat, and four other basic crops at 90 per cent of parity. It is scheduled to expire Dec. 31, 1954, to be replaced by a system of flexible and generally lower supports.

While many GOP congressmen want to extend the high support law, the administration has not taken a stand on the question. President Eisenhower has assured key Republicans on the House Agriculture Committee he will not commit his administration to support the law until the group sounds out farmer sentiment.

The committee, which looks with favor on high supports, is conducting a series of grass-roots hearings to see if the farmers share its view. It already has toured New England and will begin a 1,200-mile southern tour Saturday with a hearing in Bristol, Va., followed by soundings in the Midwest.

The departments' mid-August price reports showed cotton at 85 per cent of parity; wheat 76 per cent; corn 83 per cent; potatoes 97 per cent; and high bred hogs, peanuts 83 per cent, and flue-cured tobacco, 97 per cent.

Big prices are higher than a year ago, but farm prices of cattle have dropped 33 per cent and veal calves 41 per cent during the past year.

Federal Government Cuts Lunch Funds

Kentucky will receive less federal money for school lunches this year, because of a formula of the United States Office of Education on which payments are based.

The allocation of federal funds for the present school year will be \$1,981,237. Last year, it was \$2,119,257.

Democrats To Oppose Sales Tax In U. S.

Party Expected To Stand Firm Against National Level Levy

Democratic Sen. Richard B. Russell (Ga.) and Etes Kefauver (Tenn.) joined two Republicans this week in flatly opposing the idea of a national sales tax.

Kefauver and Russell, two of the Senate's most influential Democrats, said they are "unalterably opposed" to the proposal.

The other Republicans, Rep. J. Lee Rankin (N. C.) and Sen. Homer Ferguson (Mich.), said they not only oppose the bill but believe it will not even be offered in Congress.

The other Republicans, Rep. J. Lee Rankin (N. C.) and Sen. Homer Ferguson (Mich.), said they not only oppose the bill but believe it will not even be offered in Congress.

Set Taxes For C & O Same As Paid Last Year

The Kentucky Tax Commission increased the annual franchise assessments against two of the state's three largest railroad lines, allowed a third to remain at the same figure as a year ago.

Proprietors of the Louisville and Nashville Railroad Company and Chesapeake and Ohio Railroad lines were valued at \$75,500,000 - the same as a year ago.

Large assessments in the utility field were: Kentucky Utilities Company, \$69,003,100 - an increase of \$4,503,100. United Fuel Gas Company, \$13,900,000 - down \$200,000.

Kentucky West Virginia Gas Company, \$17,385,127, up \$8,021,229. Kentucky West Virginia Gas Company, \$12,637,274 - up \$8,023, and Southern Bell Telephone and Telegraph Company, \$37,560,000 - up \$4,260,000.

Barkley May Be Candidate For Senator

Republicans Hear At Chicago The Veep Will Oppose John C. Cooper

Republicans arriving in Chicago for regional party conferences discovered the Democratic party contend with former Vice President Alben W. Barkley in a critical 1954 contest involving control of the Senate.

Democrats leaving Chicago after a two-day rally here believe there is little doubt that Barkley, a veteran of 30 years service in Congress before he was vice president for four years, will be a candidate for the Senate in Kentucky in 1954.

This means that Sen. John Sherman Cooper, Republican, who has been in the White House, will face the stiffest kind of opposition next year in a state President Eisenhower lost by 700 votes in 1952 while Cooper was being elected by a comfortable margin.

To the incoming Republicans, who are aiming their conference primarily at retaining control of Congress, it was obviously gloomy news that Barkley probably will run again for the Senate.

The Kentuckian, who served several terms in the house as Democratic leader of the Senate and a frequent national convention keynote speaker before he became "The Veep" in 1949.

Cooper's Kentucky seat is one of the two now held by GOP members in which Republican defeatists are doubtful of his outcome. The other is the seat held by Sen. Ferguson (R-Mich.), scheduled as a fill-in replacement at the combination meeting of party women from 18 states and 21 GOP state chairmen.

Control of the Senate may be determined by a single race next year, since the Republicans and Democrats now have 47 members each, with one independent and one vacancy. The Democrats will out-number the Republicans if Gov. Frank Lausche of Ohio, a Democrat, names a member of his party to succeed the late Sen. Taft (R-Ohio).

Wetherby Will Speak At Grayson Industry Meeting

Governor Lawrence Wetherby will be the principal speaker at the Grayson County Industry Day to be held at Carter Caves Oct. 8, according to announcement by Harry Davis, president of the Grayson Chamber of Commerce.

Davis said this program was being sponsored in appreciation of the Grayson Bureau of Economic Cooperative locating its permanent headquarters in Grayson, and that honored guests will be the board of directors and the manager of the local organization of other industrialists from throughout the Ohio Valley.

Davis explained that the local Chamber was going all out in an effort to attract industry to Grayson and Carter County, and that he expected quite a few interested industrialists to attend Industry Day next month.

A program covering pertinent facts about this area is being prepared and will be presented to the public on Tuesday. A cordial invitation is extended to any interested persons who attend this day and registrations may be made by writing to Jack W. Strother, secretary, Grayson, Ky.

Ike Will Support GOP In Races

Republican Leaders Making Plans To Hold Congress Control

President Eisenhower went to Boston Monday for a major speech in a Republican rally regarded as the kickoff of a GOP drive to retain control of Congress in next year's elections.

Mr. Eisenhower returned to the White House Tuesday to greet the annual convention of the American Bankers Association.

These are the first of a number of speeches on the President's busy schedule for the next month. He also will make ad-

School Buses Will Transport Rowan Children To Youth Fair

Exhibits Should Be Entered By 6 P. M. Thursday

Rowan County's Youth Fair committee announced after a meeting Monday in the Science Building that school buses will operate from all sections to Morehead on Friday, October 2.

Children will be picked up along regular school bus routes at 7 o'clock that morning and the buses will start returning children to their homes at 3:30.

Additional bus trips will be scheduled if needed, as the Board of Education has requested every child attend the annual event to be held on the Morehead Graded School grounds.

However, the buses will not run Friday night and children planning to attend the band concert and coronation ceremony must arrange their own transport.

Plans for the Fair were worked out Monday.

The parade will start at 10 a. m. at Jayne Memorial Stadium, and continue west to Main Street to Carey Avenue to Railroad Street, continue on Railroad Street to Fairbank Avenue then on Fairbanks to Main and west on Main to Blair Avenue.

Calvin Taylor, parade chairman, has requested business places to enter floats. Those planning floats should contact him for position in the parade and other details.

The parade will feature the King and Queen and Princes and Princesses from each school. Judges will view candidates at this time and make Friday evening when final judging is made and awards presented.

More than 1,500—possibly 2,500—are expected to be in the parade.

The Fair Board also made five additional rulings on the Fair: 1. No live snakes will be allowed in nature study exhibits. These exhibits are entered by each school and will be judged on a school basis;

2. The bicycle contest will be held immediately after the athletic events. It is to be at the Little League ball park;

3. Entries in the "Pie" ring will be judged at 11:30 Friday morning. The Fair Board set out a strict ruling that each child must be responsible for his own pet during the day;

4. Each department head will be at the Fair from 3 o'clock the previous afternoon (Thursday) until after the judging is completed Thursday night. Late entries will be judged by the time

Friday morning's parade ends; and

A school bus will transport students who bring in late entries to the grade school early Friday morning. All entries should be in by 6 p. m. Thursday, October 1, if possible.

Meanwhile the Fair committee expressed the belief that barring inclement weather attendance this year will surpass anything in the past, pointing out that interest seems to be unusually high and cooperation from the schools and all others excellent.

**Johnson**  
(Continued From Page 1, This Section)

Charles Spain is to give the introductory remarks; and Roger Caudill is to present a gift to Ellis on behalf of his Morehead friends.

A number of coaches from colleges that Ellis has played against announced they would be in Morehead for the ceremony while delegations are expected from many Eastern Kentucky counties.

Several of Johnson's new associates in the insurance business have made reservations.

Johnson has perhaps the longest coaching record in Kentucky college history. With the exception of a three year break during the war when he was in the Navy, Ellis has headed the entire athletic program, a man killing job.

Although Ellis has entered the insurance business as a valued employee of Commonwealth, he plans to continue his residence in Morehead. The Johnsons have two children.

Master of Ceremonies Crutcher said tonight's program won't be long although many introductions might be made. "After all," he declared, "the people are coming to see and pay tribute to Ellis and the program is being planned just that way."

**Cannery**  
(Continued From Page 1, This Section)

The director set out that food generally canned in the fall season includes: s.o.p., chicken, sweet potatoes, apples, pumpkin, squash, green tomato mince meat and pork and beans.

**MARRIED WOMEN WORKERS**  
The chief reason why more married women are working now than ever before is the need to supplement the family income, according to the Labor Department.

Set October 21 Date For District Meet

12th ETA Group To Convene On Campus Of Morehead College

The Twelfth District Fall conference of the Kentucky Congress of Parents and Teachers will be held at the Morehead Training School Chapel on Wednesday, October 21, at 9:30 (CST).

This was decided at the district board of managers meeting held Tuesday at the Midland Trail Hotel in Morehead. Mrs. W. F. Brown, of Flemingsburg, chair of the program, was in the chair.

Tentative program plans were made, which will include a symposium on the Minimum Foundation Program. This is in accordance with the State Congress which went on record at a recent board meeting as approving the amendment to Sec. 108 of the constitution and urged local PTA leaders to inform their communities and to work for the passage of this amendment.

Mrs. James G. Sheehan, of Danville, state PTA president, will attend the conference.

Those attending in Tuesday's meeting were Mrs. Eugene Wood, Elizaville; Mrs. Edwin McClain, Vanceburg; Rev. John C. Pemberton, Olive Hill; Mrs. John Keck, Sandy Hook; Mrs. Martha Estill and Mrs. Lydia Messer Caudill, Sidney Lane; Hazel Nollan and Olga Perennik, Morehead.

During the business session, plans for the annual White Elephant Sale, to be held October 19, were discussed. It was also voted to hold a tea for new members October 25 at the home of Mrs. Lucy Lane.

This year's AAUW program is planned as a study project for all members, according to chapter president Irene Chapman. Other topics to be discussed in future meetings are the history of the USSR; its government; its people, including the country's language, religion and culture; and the arts. The concluding dinner meeting will feature a talk by Dr. Wilhelm Exilbert of the Morehead State College history department on "The Struggle Between the East and West."

**They Believe In Marrying Young**  
Lolanda Giovannini this week became a grandmother at 32. She married when she was 15. Her eldest daughter, Vincenza, 36, gave birth Sunday to a daughter at Imola, Italy.

LUCKY CHILD

It's a lucky grandchild who has a grandfather like William M. Decker, for the bottle being "applied" so dexterously is Grandpa's Hygeia nursing bottle for which Hygeia was the tester. This is the 80 millionth bottle made by Hygeia Nursing Bottle Company, and a far cry from the hand-tooled, narrow mouthed bottles used when Mr. Decker was a baby. As president of the company, which grew from his doctor-father's idea that narrow baby bottles didn't belong in the baby bottle business, Mr. Decker has seen to it that America's babies, like his seventh grandchild, can be in seven heaven come feeding time. He's maintaining the bottle output which is keeping up with young America's intake.

**AAUW Makes Plans For White Elephant Sale**

The first program in this year's series on Russia was given Monday evening, September 21, at the regular meeting of the American Association of University Women. The meeting, held in the Morehead College Art Gallery, featured a discussion of the geography of the USSR by members of the AAUW, who are Blanche Wells, chairwoman; Rebecca Caudill, Sidney Lane; Hazel Nollan and Olga Perennik, Morehead.

During the business session, plans for the annual White Elephant Sale, to be held October 19, were discussed. It was also voted to hold a tea for new members October 25 at the home of Mrs. Lucy Lane.

This year's AAUW program is planned as a study project for all members, according to chapter president Irene Chapman. Other topics to be discussed in future meetings are the history of the USSR; its government; its people, including the country's language, religion and culture; and the arts. The concluding dinner meeting will feature a talk by Dr. Wilhelm Exilbert of the Morehead State College history department on "The Struggle Between the East and West."

Eagles, Although Lacking A Passing Attack, Look Good In Losing Opener By 19-13

They lacked a passing attack and were beset by jittery fumbling in the first half, but Morehead's Eagles and Coaches "Shorty" Jamerson and Si Prewitz ended a warm spell in the hearts of Morehead Eagles fans Thursday evening with their grit, determination, good teamwork, defense and an excellent running attack.

Although they compiled a big margin in yards gained and first downs, the Eagles fumbled away at least two scoring opportunities and lost a hard fought ball game to University of Kentucky 'B' team studded with last year's high school stars. The score was 19-13.

Morehead's squad suffered nine injuries to key players, in the rough and tumble battle, but there appeared a bright spot this morning as Jamerson said all would be able to play Saturday night when Morehead tangles with favored Marshall at Huntington, W. Va.

Most of the injuries came in the second half as the play became close and hard, particularly between the two lines. The condition of the field—hard, dusty and dry for lack of rain—was a contributing factor in so many being hurt. Six of the Kentucky team were also carried from the field.

The squad of 25 freshmen that UK Coach Paul Bear Bryant fielded were all high school grads, many of them making all-state last year. Bryant dressed 12 of these same boys Saturday night when his Wildcats met Texas A&M.

After Morehead wasted two good scoring chances by fumbling inside the 20 yard line, the Kentucky 'B' team started a drive that brought the game's first touchdown near the end of the half. Don Netoskie scored for UK on a six yard sprint.

UK made it 13-0 as quarterback John D. Hughes tallied on a quarterback sneak in the third quarter. The touchdown was set up by two complete passes and it was during the series of plays that Morehead's aerial defense appeared a little shaky.

Sonny Adams, fust half-back from West Liberty, playing because many people in his hometown who came to Morehead for the game, was the offensive star as Morehead exploded for two quick touchdowns to tie the score at 13-13 early in the last quarter.

It was on the last joint when he went 14 yards that Adkins really injured the visitors.

Kentucky came right back and

mixed line plays with passing to go 47 yards for the winning touchdown, made by Jack Freedman.

Ed Tom Thumb' Wells gave indication he will be tough returning kick-offs and punts when he carried the last kickoff from the goal line to UK's 32, and with one more good block would have gone all the way.

Gore also showed well in Morehead's backfield, gaining consistently.

Optimism rules the Eagle camp as they prepare for Marshall and tough games in the Ohio Valley Conference, but it seems certain that some kind of aerial attack must be developed if the Morehead team can win as many games as their partisan fans think it was noticeable Thursday that after the first quarter UK pulled its backfield close behind the line on defense, which made the running plays of Adams and Gore also look all the more impressive and difficult. If Morehead could have completed a few passes the secondary would have been forced to pull back, giving the fierce Eagle backs a chance to break away.

All in all, however, the outstanding performance on Morehead's part was the fierce line play and the excellent offensive interference. On the first play they had the ball six men were running in front of the ball carrier on an end run.

Although outweighed the Morehead line outplayed the visitors.

This could well be the hardest game of the year for Jamerson's club because Bryant had the stars who he expects to develop and elevate the Wildcats to a major national ranking.

Remarkable about Thursday's game was the turnout of fans. They filled Jayne Memorial Stadium, largest opening game crowd the school has ever had. They left with praise for the team and Morehead's new coaching staff.

**"RACKET" SQUADS**  
The Internal Revenue Bureau reports that its "racket squads" and their agents turned up tax evasion in a little over a week in 12 additional assessments and penalties for the 12 months ending June 30. It completed 16,114 investigations during the year, most of which were alleged violations of internal revenue laws, including 3,396 cases of suspected criminal fraud.

Being careful is less painful than being injured—and less expensive, too.

# The Rowan County News

Morehead, Kentucky, Thursday Morning, September 24, 1953

## Rowan Needy Get \$16,831 In August

Old Age Group, Aid To Children Cost Kentucky More Money

Needy residents of Rowan County received \$16,831 during August under three Public Assistance programs, Austin Paul State, director of Public Assistance, reported today.

The report listed these expenditures:

Old Age Assistance, \$9,557; Aid to Dependent Children, \$6,644, and Aid to the Needy Blind, \$426.

For all three categories of aid, \$3,339,651 was distributed in the state during August, about \$36,000 less than July payments. Old Age Assistance payments totaled \$1,942,965 or an average of \$54.91 for each case; Aid to Dependent Children payments amounted to \$1,293,735 or an average of \$63.45 for each family and \$93,991 went to the Needy Blind for an average check of \$36.92.

We are encouraged with the progress of the human race whenever we meet a person who admits he doesn't know the answer to something.

## State To Test Ability To Tax Ft. Knox Territory

The question of whether the State Department of Revenue may assess properties on Fort Knox Military Reservation for property taxes appears headed for determination.

The Kentucky Tax Commission has included properties of the Louisville Gas and Electric Company, and Tennessee Gas Transmission Company, located at Fort Knox, in its annual franchise assessment—and both are being protested.

The Department of Revenue, in 1950, followed advice of then Assistant Attorney General Hal O. Williams that such property—within a military reservation—is not subject to State taxes, while his successor, Assistant Attorney General Squire N. Williams held it is subject to State franchise taxes. The entire Louisville Gas and Electric Assessment is \$89,370,900, while that of Tennessee Gas Transmission Company is \$36,008,291.

**BUSINESS ACTIVITY**

The Department of Commerce reports that the trade in Korea has had "little immediate effect" on the nation's business. Business this summer was the best for any summer on record, with private and Government spending continuing strong.

## What Clennie Holton Sees At His Crossroads Store

## Good Reporter's Job Is To Report News Accurately, So Clennie Tells Of 2 Incidents

I feel it the duty of everyone to report the news accurately and promptly regarding all occurrences and incidents, therefore, it is practically a must that I report to you two incidents that almost became calamities.

My sister-in-law was visiting today. She went out to the rest room of this country neighbor. This rest room was built several years ago upon two chestnut logs laid across a big ditch. These two logs have certainly lasted good and served a very useful purpose, but just last week whenever my kin stepped into this little building, one of these logs gave away and fell. Neither were damaged to any great extent. Down inside the building along with its occupants was a bit crowded and the lady had some difficulty getting out. This was an incident that proved a bit amusing to the subject lady after it was all over and she returned to the home of the Williba residents.

The other incident happened a few weeks ago. Kirt Adams, who on the duties of milking for a nearby neighbor. Now this neighborhood of the houses conveniences located sort of upon a steep slope and it was built upon very high posts. This building was not very large but one does not need a very large building of this type. Anyway Kirt came to milk upon this particular evening and he heard a very unusual noise inside this building. He thought about investigating at once but then he never one to be concerned of a disturbance. He went on to look for the cow to milk. He searched the field good and could not find the cow to milk. He came back to the milk gap. The noise was still going on inside the little building and Kirt decided that it was time to sort of investigate. There might be trouble. He got up fairly close and peeped thru a crack. It was a cow that pushed open the door what opened. Then whenever she got inside the door was closed and then there was not room for the door to open again and the cow outside. She was turning around and around as the little building swayed and buckled upon the four little high posts.

Well, Kirt still doesn't know why, but somehow he got inside the little building with this cow. He wanted to get her out so that he could milk. The cow was very happy about the situation and she was more displeased whenever Kirt entered the building. She really created a disturbance with Kirt standing upon the perches and begging the cow to "saw." His thoughts were fixed upon the almost sure thing of him and the cow tumbling over this steep bluff inside this little building. He would most certainly be killed, the cow would be injured and the building demolished. The cow finally "saw" down enough in a crowded corner so that Kirt was able to get the door opened. The cow hurried out. Then Kirt hurried out. He looked back at the little house standing high upon the little posts planted high upon a steep cliff and exclaimed, "GOSH!"

Now my brother, James, went into the Williba store and got him one of them white buckets which he had a lid to match. He started out the door but he seen some ladies and fellers getting out. He was just fetched his little bucket back inside and spot of hid it behind a stack of taters. After these customers got done

## Stop Taking Harsh Drugs for Constipation

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

For constipation, never take harsh drugs. They cause heart cramps and griping, disturb normal bowel action, make recovery slower. Gentle Laxative contains Senna Peppin. No salts, no harsh drugs. Dr. Caldwell's contains an extract of Senna, one of the most natural vegetable laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief to every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's 50¢ size today. Money back if not satisfied. Mail bottle to Box 290, New York 16, N. Y.

and left, he picked up his little container and out he went again. Just as he got near his car, another car drove up filled with persons. Jones hurried to get into his car as soon as possible but the sudden decision to hurry caused the little white lid to fall off right in the middle of the road. He had to come back for it. Someone tittered. He still wonders why everybody has to come along right when he druthers they wouldn't.

We don't think it necessary to mention the fact that we saw Mrs. Coursey Gabbard learning to drive last week. We could tell you that this little Dodge truck was doing quite a few capers as the driver did her best to get the thing moving along smoothly. She kept looking back to see if we might be watching but we pretended that we wasn't. The truck jumped and buckled on around a curve and out of sight. We realize that it is a bit difficult to manage the gas feeding and the clutch releasing at the same time when one is just learning to drive and when someone is most certain to be watching. That's why we don't aim in mentioning Mrs. Gabbard's learning to drive.

## Seedings Of Wheat Must Get PMA Okoh

Farmers planning to seed wheat this fall for use as green manure, for winter cover, or for hay should request prior approval at Production and Marketing Administration county offices in order to avoid possible marketing quota penalties. PMA officials said today.

Upon approval by county PMA committees, wheat may be seeded and used for all purposes without penalty.

Without such approval, wheat seeded for all purposes will be considered in determining marketing quota penalties and wheat price support eligibility.

## Cut In Federal Funds May Result In Discontinuance Of Office At Morehead

A reduction in federal administrative grants to the State Department of Economic Security will require dismissal of 97 employees of the State's unemployment insurance and employment service programs by October 1, it was announced by Commissioner of Economic Security V. E. Barnes.

There now are 568 employees administering these programs. The cut in administrative funds for the present fiscal year was from \$2,354,702 to \$2,077,326—with \$215,933 of the reduction being for personal services. In addition, the Department of Labor has directed discontinuance of Elizabethtown and Morehead offices of the Employment Service, reducing from 24 to 22 the number of these offices in the state.

O. B. Hannah, director of the Division of Unemployment Insurance, and L. P. Jones, Employment Service Director, to release all employees 70 years old or more. This, it is expected, will account for about 10 of the number to be released, with the remaining coming from other age groups.

## Member Of Board Can't Be Judge

A member of the State Workmen's Compensation Board may not serve as county judge, even temporarily, without vacating the former office, Assistant Attorney General M. B. Hollifield held that a state officer could not serve at the same time as a county officer in untying a Floyd County dispute.

**WHY** just look and sigh—and pass up so much real automobile? Why—when this big and beautiful new Buick SPECIAL delivers for the surprisingly low price shown here?

Could be you're one of those folks who still don't believe that the price of a Buick really is just a few dollars more than that of the so-called "low-priced" cars. So here we show our car and price to prove it.

But beyond that—what you get in this great Buick, for so small a step-up in what you pay, is plenty.

**More power.** Fireball 8 power. The highest horsepower and compression ratio ever placed in a Buick SPECIAL.

**More room.** Real six-passenger room—even by man-size measurement.

**More comfort.** The solid comfort of Buick's Million Dollar Ride—with coil-spring cushioning on all four wheels, wide-tread stability, torque-tube steadiness.

**More pleasure.** The pleasure of high visibility, of luxurious fabrics and fittings, of superbly easy handling—and the deep satisfaction of bossing a big and able and stunningly styled automobile that does you proud wherever you go.

Why not drop in on us and see things for yourself?

That way you'll also learn about the long list of "extras" you get at no extra cost in this spirited new 1953 Buick SPECIAL—things that most other cars of similar price charge for as extras. Can you make it this week?

\*Local delivered price of the 1953 **BUICK SPECIAL** 2-Door 4-Passenger Sedan Model 48D (illustrated)

Optional accessories, accessories, state and local taxes, if any, additional. Prices may vary slightly in shipping territories due to shipping charges. All prices subject to change without notice.

### Haldeman & RFD Two News

Mrs. Burl Adkins and daughter were Sunday guests of Mrs. Susan Hall.

Mrs. Ernest Fisher of Haldeman spent Sunday visiting with Mrs. James Stevens.

Mr. and Mrs. J. A. Creesh and Mrs. J. M. Caudill were Friday guests of Mr. and Mrs. Bert Dean.

Mr. and Mrs. Ira Mabry spent Sunday evening visiting with Mr. and Mrs. Calvin Mabry of Haldeman.

Mr. Bert Dean of Route 2, Morehead spent last Thursday in Louisville where he attended the State Fair.

Mr. and Mrs. Ernest Jones and

Mr. and Mrs. Dick Jones of Dayton, O., were guests of Mr. and Mrs. Lester Kegley, Saturday evening.

Mr. and Mrs. Clyde Lyons of New Castle, Ind., spent the week end with their parents, Mr. and Mrs. Alice Thomas and Mrs. Laura Nicholas.

Mr. Jaster Tackett of Boston, Mass., was the Sunday guest of Mr. and Mrs. Curtis Hall.

Mr. and Mrs. L. H. Sparks had as their guests last week end Mr. and Mrs. Bobby Sparks, all of Dayton, O., Mr. and Mrs. Edward Thomas of Haldeman and Mrs. Chester Day, Soldier.

Mrs. Mary Kenley spent Sunday visiting with her son and wife, Mr. and Mrs. Lester Kenley.

### WORLD'S LARGEST JET BOMBERS

TWO TEST MODEL B-52 planes, the world's largest jet bombers, fly over snow-capped Mt. Rainier, Wash., 14,408 feet higher during a test flight out of Seattle. Planes of this type, now in production, will be delivered to the U.S. Air Force Strategic Air Command for its all-jet bombing force. The B-52 weighs more than 300,000 pounds, has a wing span of 165 feet and is powered by eight turbojet engines, mounted in double pods under thin, swept-back wings. (International)

### Super Toll Road Is Topic Of Meeting

Governors of three neighboring states and perhaps a fourth will meet with Gov. Lawrence W. Wetherby at Kenlake Hotel, Kentucky Lake State Park, Sept. 27 and 28 for a discussion of the feasibility of a limited access super highway north to south across this section of the country.

Planning to attend the meeting are Governors George M. Craze of Indiana, Frank G. Clement of Tennessee and Herman Talmadge of Georgia. Gov. Gordon Persons of Alabama has told Wetherby he will attend if possible but he is currently busy with a session of the Alabama legislature.

The idea of the conference grew out of preliminary talks the governors had at the national Governor's Conference in Seattle last month. Wetherby issued the invitations shortly after returning from the conference.

There has long been talk of a highway through the Great Lakes region with the Gulf region and Florida but the meeting at Kentucky Lake will be the first general conference of governors on the project. They will discuss the need for a highway and discuss what would have to be done in their states if the road is undertaken.

Wetherby and State Highway officials feel that early plans by Kentucky will place the road in a favorable position when future plans are made. If Kentucky and neighboring states lag or fail to reach agreement on highway needs, another route might be opened that will bypass them, the Governor has pointed out.

In addition to the governors, highway officials of the participating states will attend the meeting, and Florida is to be represented by Earl P. Powers, chairman of the Florida Turnpike Authority, and John McCarty, brother of Gov. Dan McCarty. Some 20 persons will be in on the conference.

### Over-Million Acres Seed In State To Pasture

Farmers participating in the 1952 Kentucky Agricultural Conservation Program continued to emphasize pasture development and improvement with seeding or re-seeding of more than a million acres of pasture.

In a summary of 1952 ACP practices soon to be released, the Production and Marketing Administration reports that more than 40 per cent of the dollar-value of practices adopted in the 1952 program was in pasture development and improvement.

This continues the trend of the past decade in the Kentucky ACP. More than a million acres of pasture seeding or re-seeding has been done each year, on an average, by Kentucky farmers in the ACP for the past 10 years.

On 79,935 of the 133,612 Kentucky farms in the 1952 program, 1,151,952 acres of pasture practices were adopted. New seedings were made on 828,906 acres; the remaining acreage was re-seeded.

A relatively new practice in the ACP in Kentucky is that of clearing land for the development of pasture. In the 1952 program, 2,606 farmers cleared 18,774 acres of "bush land" for pasture development.

In a closely related practice, stockwater developments were carried out on 1,890 farms in the 1952 ACP. On these farms, 2,028 stockwater ponds were excavated or impounded by construction of dams.

Pasture development and improvement practices have been included in the Kentucky ACP in 14 of the past 17 years.

### NO FARM HOUSE HAS BANK VAULT SAFETY

So it's good policy to keep most of your cash in the bank; instead of hidden at home, or in your pocket or purse.

Prudent farmers find a checking account a great aid to peace of mind. Pay your bills safely and easily. You can do this readily through a checking account in this bank.

### Negro, White Wife Indicted In Floyd

A 70-year-old Floyd County Negro and his white wife, 38, were indicted this week on a charge of fornication.

Those named in the indictment were George Honaker and Catherine Jarrell Honaker, of Trum, recently married in Ohio.

Commonwealth's Attorney Burris Martin cited some devious ins and outs in Kentucky law on the subject.

The state law forbids mixed marriages on threat of a minimum fine of \$500.

### Desirable Real Estate Offerings From Curt Z. Bruce Real Estate Agency

#### Small Residence . . .

The Arvel Grubb home located on North Blair Avenue consisting of five rooms, bath, hardwood floors, door furnace, built-in cabinets. This is a nice home, located on nice lot 55' x 144'. Priced to sell.

#### One of Morehead's Better Homes

The J. A. Stoops home located on Second Street. This is one of Morehead's better homes. On the first floor it has three bedrooms, large living room, kitchen with built-in cabinets, full bath and utility room. Highly finished basement consisting of a large recreation room with fire place. Floor covered with asphalt tile. Also one bed room, dark room or storage room, bath with shower and garage. Both first floor and basement have thermostat controlled heat. Financed with a GI loan. A small amount of cash will handle this property.

#### Business and Home . . .

An extra good country store located at Hayward, Ky. This is a going business which sells for cash only. This store is well equipped. Also there is a home consisting of five rooms and bath. If you are interested in buying a good business which is making plenty money, do not overlook this.

#### Desirable Building Lot . . .

Lot number four located in the Meadowbrook Subdivision. This lot was possibly one of the best buys in the Meadowbrook sale at only \$1,000.00 with street paving paid. It may be had for the same price paid for it at the sale, only because the owners have been transferred from Morehead. A REAL BUY.

#### Two Other Good Building Lots . . .

I have two well located lots 50' x 100' in the Thomas Addition. They are priced to sell.

## Prices Farmers Getting For Beef And Retail Mark-ups Cause For House Investigation

Congressional aides are investigating the difference between retail meat counter prices and the prices farmers receive for lower grade cattle, House Agriculture Committee leaders revealed. This may be followed by a wide and thorough congressional investigation, said Rep. Clifford R. Hope (R-Kans.), the committee chairman.

Hope and 20 other members of his committee arrived in Florence, Ala. Sunday on a 1,200-mile Virginia-to-Florida tour, discussing price supports and other farm problems with southern farmers and their leaders.

Hope said there is "not too much discrepancy" between retail and on-the-hoof prices of top quality beef.

But he said committee aides assigned to the preliminary study have not been able to find any explanation for the fact that the gap between retail and live-animal prices of low grade beef is far greater than normal.

"It's beginning to look as if there is no explanation. If that's true, we'll probably undertake a thorough investigation," Hope said.

Rep. William S. Hill (R-Colo.) said farmer prices for prime and choice cattle have risen \$8 a 100 pounds, or 40 per cent, from lows reached last spring. Lower grades have recovered only about \$1 a 100 pounds, or about 10 per cent, he said.

Hill is chairman of the House group's livestock subcommittee. He fears there will be no improvement in the price of lower grade cattle unless Secretary of Agriculture Ezra T. Benson agrees to a federal cattle purchase program.

Hill said he intends to urge Benson to begin buying lower grade cattle immediately. The meat would be canned and disposed of in foreign aid and other programs, outside normal trade channels.

At Bristol, Va., Saturday, in a public hearing opening the Agriculture Committee's Southern tour, spokesmen for cattle raisers complained bitterly about the spread between retail and live-animal prices.

Drought in many sections of the country forced thousands of cattle to market earlier than usual at lighter than normal weights. Cattle slaughtered without fattening fall into lower grades.

"This drought is more nationwide than anyone has suspected," Hill said.

The Agriculture Committee's Southern tour, the second in a series that will carry House farm leaders into every major farming area this fall, is laying the foundation for new farm laws to be written next year. An act pegging the prices of cotton, wheat and other "basic" crops at 90 per cent of the "fair earning power" parity level expires at the end of 1954.

### Will You Pledge To Give Tuesday

Here's what you can do today to make a valuable contribution to Rowan County servicemen and toward prevention of dredged polo: Pick up your phone and call 218 (Red Cross office) and say: "Yes, I will donate a pint of blood Tuesday." If you don't have a phone or live in the county, address a card to the American Red Cross.

If you lack transportation give the Red Cross your address and an automobile will pick you up and return you to your home.

### Burley Crop Smaller Than Anticipated

**Poundage Off Due To Drouth, But Price Should Be Higher**

With nearly all the burley crop harvested and curing under ideal weather conditions the government estimates made its appearance this week with predictions of a sharp decline from last year's poundage.

The drouth damaged the 1953 crop more than was first believed. The newest U. S. D. A. estimate places this year's burley crop at 391,500,000 pounds as compared to the 424,000,000 pounds harvested in 1952. If the estimate stands, the Kentucky burley crop may face a considerably sharper demand and improved prices, although its return for the crop as a whole will be lessened accordingly with the lower poundage.

Shelby County growers have been more fortunate than those in some of the other burley counties. The drouth did not hit as early here, and timely rains saved the crop at a crucial stage. Principal effect of the drouth here was to hasten cutting before the top leaves had time to mature.

**Southern Markets Strong**

Word from the southern markets continues to be encouraging as to prices. Hayden Igleheart reports from Lake City, S. C., that the market is steady to higher, with more than three-fourths of the crop sold. Mr. Igleheart reports that his warehouse is well above last year in both pounds and price. Sales last week amounted to 3,833,296 pounds averaging \$57.90 per hundred, as compared with \$57.30 the previous week. He reported quality of the crop as fair, not as good as 1952, and about 10 per cent short of last year.

Beard Doss who is on the Kingston, N. C. market, said the price and volume was up last week, with a \$52.29 average as compared with \$52.92 the previous week.

**Ahead Of Schedule**

The weekly weather and crop report for Kentucky says that about four acres of tobacco out of every five in Kentucky have been housed, and harvest is expected to be finished ahead of the usual time. Excellent curing weather has prevailed even while most tobacco was still standing. A small percentage is completely cured. Flings are of good color and preservation and there has been little chance for the leaf gum to be lost by rains.

The report noted that this was the eighth consecutive week with below normal precipitation over Kentucky, and a review of the records reveals that the need for rain in the state as a whole is similar to what it was in 1936, if not greater, though not as damaging yet as the great drouth of 1930.

### State Sheriffs Now Receiving Tax Collections

This year's property tax bills for state, county and school taxes have been completed and turned over to sheriffs all over the state for collection.

Taxes are now due and payable at the sheriff's offices and it is not required that notification be sent to property owners, the State Department of Revenue reminded today.

Property owners are entitled to a 2 per cent discount on taxes paid by Nov. 1. Penalties start after Dec. 31.

Approximately 95,000 automobile owners will be required to pay personal property taxes on their cars for the first time this year. This increase is due to 1952 legislation which directs county tax commissioners to use the county clerk's automobile license records for assessment purposes.

Test Drive America's No. 1 Convertible! Ford Sunliner!

## ROWAN MOTOR SALES

SALES & SERVICE

PHONE 18 MAIN & FLEMINGSBURG ROAD

## The only convertible that outsells Ford!

WHAT IS IT that makes Ford's Sunliner America's best seller? Is it its high-compression V-8 power? (No other convertible in Ford's field has this kind of engine.) Is it the fine craftsmanship of its Crestmark Body? (No body in its field can match Ford's choice of exterior and interior color combinations.) Is it its new spring and shock absorber action which makes even roughest roads feel smooth? (The Sunliner's springs are tailored to its weight.) Is it the choice of Fordomatic, Overdrive or Conventional you get? (You won't find such a choice in any other car in Ford's field.)

No, it's not just any one of these things that make Ford's America's largest-selling convertible. It's all 41 of Ford's "Worth More" features - features which folks know make Ford worth more when they say it's worth more when they sell it.

See it in action—Let us give you the demonstration. This new saw... built and backed by Homelite, manufacturers of more than a 300,000 gasoline engine driven units... is the best that you can buy.

# Contract For Lake Let At Carter Caves

## Seven Parks To Remain Open During October

Construction of a dam and 45-acre lake with complete recreation facilities will begin at the Carter Caves State Park on Oct. 1, State Commissioner of Conservation Henry Ward said.

The entire project should be completed by next June 1, in time for the next tourist season and sport-loving Eastern Kentuckians.

Ward said the Kentucky Property and Building Commission awarded a contract for construction of the dam to James Jessup of Depoy, Muhlenberg County, last Friday in Frankfort. The cost of the dam, with funds appropriated from the State Department of Fish and Wildlife Resources, is to be \$37,500.

An additional fifty to sixty thousand dollars will be spent by the Department of Conservation, Ward said, for the construction of a bath house, bathing beach and boat house at the lake.

The 45-acre lake will be located on Smokey Fork, near its junction with Tycart Creek, and will be easily accessible to the state park's cottage and group camp areas.

The Department of Conservation has already purchased 200 acres of land to add to Carter Caves State Park, making a total of about 1,200 acres.

"With the areas natural beauty, this will be one of the most beautiful lakes in Kentucky," Ward said. "It will be located in a valley amid beautiful woodlands, with high rock cliffs on both sides. It will be one of the most spectacular lakes in the entire area and will mean a great deal to Carter Caves State Park and Eastern Kentucky."

"Experience has shown," Ward added, "that state parks must have adequate recreational facilities and water recreation is the greatest factor in the success of a state park."

Ward came to Carter Caves from Frankfort for the final decision on the location of recreational facilities. He was accompanied by T. J. Nelson, Chief Park Planner for the State Division of Parks, and Jack Wolfe, regional park planner.

The boat house will be near Smokey Natural Bridge, with the beach and bath house nearby.

Construction of the lake at Carter Caves is a joint project of the Department of Fish and Wildlife Resources and the Department of Conservation. The Wildlife agency will pay for construction of the dam and the Department of Conservation furnishes the land and the recreational facilities.

## Salt Lick News

By *Laura Stephens*

Mr. and Mrs. Homer Hall and daughter of Falmouth spent the week end visiting with his mother, Mrs. Roy Ellingham and Mr. Ellingham. On Sunday, Mrs. Ellingham accompanied the Hall family to Lexington where she will spend a few days visiting with her sister, Mrs. Emmitt Hall.

On Wednesday, she had the car removed from her garage which she broke in a fall several weeks ago.

Mr. and Mrs. Morton Knox have returned to their home in Lexington from a visit with his brother in Pennsylvania.

Mr. Clem Riddle of Salt Lick died Tuesday evening, Sept. 15 at the home of his son, Edgbert Riddle in Marion 4th. Mr. Riddle, whose wife passed away only a few months ago, is survived by another son, Commie, Mt. Sterling. Funeral services were conducted last Friday at the Okla. Methodist Church by Rev. Frank Shields. Burial was in the Owensville cemetery.

Mr. and Mrs. Roy Akers and children and Miss Naomi Stilton, all of New Castle, Ind. were recent guests of Mr. and Mrs. Dave Stilton.

Miss Sonja Karriek of Salt Lick has entered nurse's training at the Good Samaritan Hospital in Lexington.

Mr. and Mrs. Leslie Christy were honored last week with a miscellaneous shower. Mrs. Christy, a recent bride is the daughter of Mr. and Mrs. Milford Craig of Salt Lick. The couple plan to make their home in Tulsa, Kansas, where Mr. Craig is serving with the armed forces.

Mrs. Alice Oldson, Mrs. Ada Adkins and sons of Salem, Ind. arrived last week end for a short visit with Mrs. Mary Jane Wells and daughters, Minnie and Nettie. Mrs. Adkins and sons returned home Monday while Mrs. Oldson remained for a longer visit.

Mr. George McClain returned last week from a visit with his daughter, Mrs. Herman Stilton and family in Newton Falls, O.

Misses Nan and Ann Karriek, daughters of Mr. and Mrs. Travis Karriek, formerly of Salt Lick, but now living in Mt. Sterling, entered Morehead State College last week and will reside in

Morehead while attending school. Misses Ruby and Deloris Willis were Saturday guests of their aunt, Mrs. Aubrey Stephens and family.

If this community contained a few more people who wanted to improve their minds as it does those who seek only a good time, it would be nice for the coming generation.

## Triplet News

Mrs. Dick White, Ennis and Everett Blanton were called to Albany, Ky., by the death of their sister, Mrs. Ken Davidson, who passed away last Sunday.

Mr. and Mrs. Harry Jeffreys of Frankfort were week end guests of Mrs. Cassie White.

Mr. and Mrs. Alvin Sloan are visiting for a few weeks with

their son and wife, Mr. and Mrs. Milton Sloan in Indianapolis, Ind.

Pvt. James Estep who has been stationed in Germany was called home this week by the serious illness of his brother, Ernest Estep who is confined to a Huntington hospital.

Mr. and Mrs. Allard Hall were guests of Mr. and Mrs. Leland Hall, last week.

# Cornpicker, Sold By Monarch, Wins National Championship

Harvesting corn, the nation's number one field crop, once involved tedious hand labor for a army of pickers. As American farmers look toward harvesting the 1953 corn crop, they will be equipped with approximately 600,000 mechanical pickers, each of which can do the work of from six to 12 hand pickers.

Outstanding among many excellent mechanical corn pickers available to farmers is the Dearborn-Wood Bros. Corn Picker which was used by Elmer Bolliger, Fairbury, Ill., in winning the 1952 National Mechanical Corn Picking Championship at Rushville, Ind.

American farmers will use approximately 600,000 mechanical corn pickers, each capable of doing the work of from six to 12 hand pickers, in harvesting the 1953 corn crop. The Dearborn-Wood Bros. Corn Picker was used by Elmer Bolliger, Fairbury, Ill., in winning the 1952 National Mechanical Corn Picking Championship at Rushville, Indiana.

The Dearborn-Wood Bros. Corn Picker is sold in this area by Monarch Supply Store.

"We are proud and happy to be able to offer to the farmers of this area the corn picker which proved itself tops in the field by winning the National Championship," Monarch announced.

This one-row, pull type picker can be used in a wide variety of row widths, even as narrow as 36 inches. The snapping rolls can be raised or lowered, flexible floating gathering points can be tilted up or down or the entire picker can be raised or lowered on the axle to get maximum harvest in any field condition. Even the small amount of shelled corn is saved.

Three gathering chains instead of two, and especially designed spiral snapping rolls are used to keep the corn moving into picker. An exclusive rotary snapping bar snaps ears gently, reducing

shelling. An extra large husking bed with six instead of the usual four husking rolls means cleaner corn. Rubber rolls paired with steel rolls provide gentle and thorough husking. The large husking capacity is a big reason why farmers can pick up to 12 acres per day with this picker.

The Dearborn-Wood Bros. Corn Picker is P.T.O. operated and can be attached to a Ford, or any tractor of like power in about five minutes with no heavy lifting. The implement is designed with a straight line pull which reduces side draft and saves fuel.

A message to every prospective new car buyer:

# You can have the most popular automatic transmission to be found in any low-priced car

## Chevrolet's Famous 1953 Powerglide!\*

Much fleetier, smoother, more economical! Thoroughly proved and improved through years of development and over a billion owner-driven miles! Production now running at new high levels due to record nationwide demand!

**Much More Economical**  
Chevrolet's 1953 Powerglide Automatic Transmission—teamed with the 115-h.p. "Blue-Flame" high-compression Valve-in-Head engine—brings you *entirely new operating economy* in city driving and on long trips.

**Far Livelier Getaway**  
Put the selector lever in "DRIVE" position—step on the accelerator—and you move smoothly away from a standing start to legal traffic speed in seconds.

**Important New Gas Savings**  
You'll never know how economical an automatic transmission can be until you try the 1953 Powerglide. Various improvements, including a more efficient use of engine power, make it extremely thrifty.

In fact, bring you the most important gain in gasoline economy in Chevrolet history.

**Great New Passing Ability**  
The car picks up pace in traffic or on the highway at the touch of a toe, for the '53 Powerglide has an added automatic passing range.

**Smoothest No-Shift Driving at Lowest Cost**  
Driving is almost incredibly easy, changes of speed almost unbelievably smooth. . . . Shift for this transmission gives simpler, smoother, no-shift driving at lowest cost.

**Safe Eyes-on-the-Road Driving**  
Safety is served in many ways. And one of them, most important, perhaps, is that Powerglide permits you to concentrate on

driving. You can keep your hands always on the steering wheel and your eyes always on the road.

**Full Engine Braking-Power on Hills**  
Powerglide's flexibility lets you cruise easily up any hill. And you enjoy constant engine braking power for maximum safety when descending.

**Rock Out of Trouble**  
Powerglide's smooth power flow lets you rock out of sand, snow or mud whenever the need arises. "LOW" and "REVERSE" are side by side on the Powerglide quadrant, making the operation doubly easy.

**Push-Proof Parking**  
Put the selector lever in "PARK" position when you leave the car, and a positive gear-type lock holds it in position until you return.

**Time-Proved, Owner-Proved, Dependability**  
Come in Drive a Chevrolet with this finer, more popular automatic transmission. Test it and you'll want it. It's time-proved, and road-proved by hundreds of thousands of owners, in over a billion miles of driving.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

"CHEVROLET"

MOREHEAD, KY.

Look at your living room on a sunny day. See how your color scheme stands out, how sunlight brings out the tints and textures in wallpaper, draperies, and furniture.

• Then, in the evening, when you do most of your entertaining, look at it again with the lights on. Where has your beautiful living room gone? Have colors faded into the background? Has the lustre of your furniture dulled and faded?

• Decorate your living room with light. Bring back the beauty you planned into it. Make sure your guests can see at night the colorful room you live in during the day.

Ask us for this FREE booklet—22 easy-to-follow lighting recipes—for every room in the house.
