

Being mindful of the need to simplify and reduce the process by one, as well as assist with the redistribution, Clarendia is asking the GEC to revisit the 2b and 2c on the SLO's .

**Motion: Clarendia Phillips - Combine 2b and 2c SLO's and use "or" indicator. The SLO would read: "Effectively utilize deductive or inductive reasoning".**

**Motion carried.**

After making these changes to the SLO document, it is ok for Bev to take these to Faculty Senate.

- Assignment of Work Groups  
We will be addressing the Proposed Distribution of Revised SLO's by breaking into workgroups. You will be in the same group as you were with the Exchange Course Assessment Approval work group. The workgroups will meet during the next regularly scheduled GEC meeting to discuss how each group would layout the various SLO's across the general education program. We will then plot it and then have discussion about where there is disagreement.
- We can still get with individual programs across campus.
- After some discussion there were some "guiding principles" for the workgroups to use:
  1. All SLO's should be assessed
  2. SLO's should be assessed in more than one course
  3. Equity in work load
  4. 5 SLO's per area

**New Business:**

- New Proposal – PSY 121 (NSC1)  
**Motion was made by Phil Krummrich to approve the course.** Discussion identified the need for some revisions.

**GEC voted and motion to approve as is was not passed.**

**Motion was made by Ann Rathbun to approve pending the following revisions:**

- Consistency in title of course throughout the proposal
- The syllabus needs to be in compliance with University regulations
